

**TRURO START PROGRAM**

# Where small classes meet **big impact**

**Dalhousie's Agricultural Campus in Truro offers first year courses in Bachelor of Science, Bachelor of Computer Science, and Bachelor of Arts.**

Starting your first year in Truro gives you the opportunity to join a group of classmates with dedicated resources and support to build a strong foundation in your chosen field before transitioning into your second and final years in Halifax.

Dalhousie's Agricultural Campus in Truro offers a variety of unique programs from environmental sciences, aquaculture, animal science, agricultural business and much more. Visit [dal.ca/think-agriculture](https://dal.ca/think-agriculture) to learn more about our campus and the programs offered.

# Why start here?

## There are many reasons to spend your first year at Dalhousie's Truro campus:

- Guaranteed a room in residence\*
- One-on-one advising to build strategies for success
- Live in a small, active town with cafés, restaurants, hiking, and more
- Student support and resources provided when transitioning to the Halifax campus in your second year
- Smaller class sizes in first year courses such as Biology, Calculus, Chemistry, Computer Systems, Economics, English, Political Science, Programming, Psychology, Sociology, Spanish, and Statistics.

*\*You will be guaranteed a room in residence at Dalhousie if you are a new, direct from high school domestic or international student and have a completed residence application on file by May 1. Priority access will be given to students with one or more of the following identities: Indigenous students, especially Mi'kmaq; African/Black students, especially Historical African Nova Scotian; Students with (dis)abilities or ongoing medical conditions that significantly impact housing needs.*

## Available Programs

### BACHELOR OF COMPUTER SCIENCE AND BACHELOR OF APPLIED COMPUTER SCIENCE

No matter your prior programming experience, develop the technical, problem-solving and leadership skills needed to create — or use — new technology to empower people, organizations, and society.

### BACHELOR OF SCIENCE

Grow your strengths and passion for science in a university experience rich with exploration, experimentation, skill-building, and scientific knowledge.

### BACHELOR OF ARTS

Explore what it means to be human, open new doors and gain skills you can take anywhere. Develop the power to think critically about the world, and to express yourself creatively and effectively.

## Indigenous Student Access Pathway Program (ISAP)

Our one-year program offers First Nations, Métis, and Inuit students an opportunity to complete university courses in our culturally supportive and friendly campus.
