

High-Resolution NMR³ Fees (Effective April 1, 2015)

Magnet Time (per Hour)

	Tier 1 Academic Rates ¹	Tier 2 Academic Rates ²	Government/Industry
AV-300 Autosampler	\$3.50	\$20.00	\$100.00
AV-300 Automation Priority	\$7.00	\$40.00	\$200.00
AV-300 Hands-On	\$4.50	\$20.00	\$100.00
AV-500	\$5.50	\$24.00	\$130.00
AV III 700	\$10.63	See Footnote 3	See Footnote 3

NMR Service Fees (per Sample)⁴

	All Academics	Government/Industry
AV-300 & AV-500	\$10.00	\$50.00
AV III 700	\$15.00	See Footnote 3

Service Charges

Service	Charge
Preparing High Resolution NMR Samples	\$10 per Sample
Deuterated Solvents	Cost
Processing NMR Spectra ⁵	\$10/\$20 per Experiment
Nonroutine Processing Requests (i.e. lineshape fits, simulations, predictions)	\$10 per Experiment
Structural Assignments / Spectral Interpretation / Literature Searches / Report Writing	\$50 per Hour

¹ Tier 1 rates are charged to all academic researchers who pay the appropriate annual support fee (\$100 for Dalhousie FoS researchers, \$250 for Dalhousie non-FoS researchers, and \$500 per Institution for all non-Dalhousie researchers). ² Tier 2 rates are charged to all academic researcher who elect NOT to pay the annual support fee described in 1. ³ All non-Dalhousie users must approach BMRF staff directly to determine fees and access to the AV III 700 instrument. ⁴ Per sample fees for service NMR requests are in addition to the base charge for magnet time outlined above. ⁵ Within a given fiscal year, the first 20 experiments processed within a research group are billed at \$10 per experiment. All experiments over and above the first 20 are billed at \$20 per experiment

**Should your research project require more detailed analyses, please contact
any NMR³ staff member.**
