FACULTY OF SCIENCE

First Year Bachelor of Science (BSc) Truro Start Course Planning Worksheet

2023-2024 Academic Year

This worksheet is intended to guide first-year students in making their first-year course selections. Use the academic timetable to look up the course reference numbers (CRN), days, and times of the lectures, labs, and tutorials you wish to take. Use the blank schedule template to build your weekly schedule. Information on the overall requirements for your intended program, BSc, can be found in the academic calendar.

Students are encouraged to reach out to the BSc Truro Cohort Manager, Ashley Coffin, ashley.coffin@dal.ca, to discuss their course choices prior to registering.

We ask all students in the BSc Truro Start program to join the **First-Year Interest Group**, or FIGS, is a great opportunity to meet other students in the BSc Truro Start! Led by your program manager, the group will meet once a week during the fall and winter terms to explore interests, build connections, and learn tips for success at university!

Tip: First year BSc students may take a maximum of 30 credit hours over the Fall and Winter - this is usually 5 courses each term. Students may register in fewer courses, depending on anticipated academic workload and other commitments (please check any scholarship or student loan conditions).

Build your Schedule

1. Login to DalOnline.
2. Select Web for Students.
3. Select View Academic Timetable.
   i. From here you can select the Term and Location, it is recommended to review course offering one term (fall or winter) at a time.
4. Select the subject from the drop-down list, note that courses are listed by subject not program or degree.
   i. All courses offered on the Agricultural campus will be indicated by either Agri Campus, Agricultural Campus, or AGR in the subject title (e.g. Economics-Agricultural Campus).
5. Find the course required (e.g. ECOA 1000) and record the CRN number for one of the lecture (Lec) sections.
   i. The CRN is a five-digit code (e.g. 13789).
6. If applicable, select a tutorial (Tut) or Lab section and record the CRN. You must register for one of each of the sections that appear for each course (Lec, Lab, and Tut).
   i. Note that not all courses have a lab or tutorial section, e.g. ECOA 1000.
7. Check the first column for notes such as restrictions (R), or preferred sections for select programs.
8. Repeat, finding the CRN's for all courses required for the given term and be mindful of time conflicts, while recording CRN's in your schedule.
9. Once you have found all the CRN's for your courses in the Fall term, repeat the same process for the Winter term.

Register for Courses

10. Access DalOnline and navigate to Web for Students, then the Registration page.
11. Select Register for Classes, twice,
    i. From the drop-down menu select your term, starting with **2023/2024 Fall** and Continue.
12. Select Enter CRNs from the option across the top of the screen, **do not** use the Class Search option.
    i. Add as many CRN text boxes as needed.
    ii. Type one CRN into each text box, once complete select Add to Summary.
13. Your tentative schedule will be available in the panel in the bottom left and your summary of courses can be seen in a panel in the bottom right of the screen.
    i. Confirm your schedule is accurate and that there are no course conflicts.
14. Next to each pending course confirm your intended Action generally Web Registered and select Submit to finalize your course registration.
15. After registering for the Fall term, complete the process again for the **2023/2024 Winter** term.
16. If errors occur after submitting CRN's please reach out to newtodalac@dal.ca for clarification and assistance to resolve the issue.
