----	--------------------------------------	----

I INTRODUCTION

This is intended as an introduction to graduate study in Classics at Dalhousie, specifically for Master's students and doctoral students beginning their first year. We also hope that it will answer or anticipate some basic questions you may have about the coming year.

Please also visit the website of the Faculty of Graduate Studies (FGS),
<http://www.dal.ca/faculty/gradstudies.html>

Make yourself familiar with the information and regulations in the graduate calendar:
<http://academiccalendar.dal.ca/Catalog/ViewCatalog.aspx?pageid=viewcatalog&catalogid=58>

For information on the Classics graduate programme, you can also visit:
<http://www.dal.ca/academics/programs/graduate/classics.html> for a description of our programme.

As with anything new, getting accustomed to a new academic programme is probably more a matter of familiarity and comfort than keeping in mind guidelines and regulations, but knowing some of the latter may help with the former.

The landscape of the next few weeks and months is littered with deadlines and dates which you need to keep in mind, particularly as they may clarify your expectations of, or questions about, the programme. Some of these dates and deadlines are not yet definite, so we ask that you look for further announcements and postings.

II ACADEMIC & ADMINISTRATIVE DEADLINES

The most important of these relate to your academic programme and form the rough shape of your academic year. These are guidelines and *departmental deadlines*, not, for the most part, *university deadlines*.

MA Students:

July-August: Students register online for REGN 9999, an act which does nothing more than confirm that you are registering in the programme. It does not register you in classes. You must register for REGN 9999 in each term (Fall, Winter and Summer) you are active as a graduate student at Dalhousie University.

2016-2017

REGN 9999—Fall Term: CRN 12394

REGN 9999—Winter Term: CRN 22178

August 1st, annually (for students beginning their second year and beyond): Submit Progress Report. The progress report form is completed online by following the steps listed below:

- A student enters the Progress Report tab in GSIS, clicks the "Add" button, selects the type of report to use (Thesis/Project or non-Thesis/Non-Project), and clicks "Save Changes". (The "Add" button is only available if no other progress reports are currently in progress.)
- The student completes all of the Student Section and gives his/her digital acceptance of the report by submitting it.
- Upon student submission, an automatic notification email is sent to the student's supervisor, if applicable. The student's supervisor completes the Supervisor Section and gives his/her digital acceptance of the report. If no supervisor has been set, then the report is sent to the graduate coordinator.
- Progress reports that have been accepted by graduate coordinators are routinely reviewed by the Faculty of Graduate Studies Program Officer, Awards Officer (where applicable), and assistants for final acceptance.

Early September: In the first week, students meet with the Graduate Coordinator to make decisions about their programme.

Classes begin ***September 6th***.

Most classes are cross-listed with senior undergraduate classes, but may include readings and assignments over and above those expected of the undergraduates and may also involve extra meetings. Rarely, an MA student may do a reading course, pending the availability and willingness of faculty members. The reading list and assignments for a reading course should be agreed upon by professor and student, signed by both, and submitted to the Graduate Secretary no later than October 1st or January 30th.

PLEASE NOTE: Students with scholarships and/or a teaching assistantship positions need to fill out a direct deposit form for the Payroll Department to take to payroll when picking up their first scholarship cheque.

To find the direct deposit form, go to:

http://www.dal.ca/content/dam/dalhousie/pdf/hr/Payroll-and-Information-Services/bank_deposit_application_form.pdf

Thursday, September 1st

- 10:00-12:00 Faculty of Graduate Studies Orientation Session.
- 12:00-1:00 Welcome Lunch: Dept. Library and Lounge, McCain Building, Room 1184
- 1:15-4:00 FGS Orientation. Ondaatje Hall, Marion McCain Arts and Social Sciences Building.

Saturday, September 10th

- Deadline for abstract submission, Atlantic Classical Association conference.

Tuesday, September 13th

- Students may attend Teaching Assistant Professional Development Days. For registration and schedule information, please see: http://www.dal.ca/dept/clt/events-news/TA_Days.html

Friday, September 16th

- 4:45 **SSHRC Application Information Session.** Classics Department Library, Room 1184. Students begin (or ideally, continue) to prepare applications for next year's scholarship competitions.

Tuesday, September 20th

- 2:30 **Library Orientation for Classics Graduate Students.** Killam Library. Students should assemble beside the building directory kiosk (the computer screen near the circulation desk).

Friday, September 22nd

- 19:00 **Classics Lecture Series: "Lesbos: the story of a Greek island"** by Hector Williams, Professor Emeritus, Department of Classics, Near Eastern, and Religious Studies, UBC. Classics Department Library, Room 1184.

Wednesday, October 5th

- 9:00 Fall Convocation for Arts and Social Sciences

Friday, October 7th

- Thesis (second-year) students will submit to the graduate coordinator a one-page, supervisor approved, thesis prospectus statement with attached timetable and bibliography.

Friday and Saturday, October 21st and 22nd

- **ACA Annual Meeting**, Mount Allison University, Sackville, NB.

Saturday, October 22th

- Dalhousie Open House

Thursday, November 3rd

- 19:00 **Classics Lecture Series** by Andy German, Assistant Professor, Philosophy, Ben Gurion University of the Negev. Classics Department Library, Room 1184.

Friday, November 4th

- SSHRC applications (both MA and Doctoral) due to the Classics Department. Please submit a complete hardcopy to Donna Edwards.

Fall Study Break

- November 7 – November 11.

Tuesday, December 16th

- Thesis electronic submission deadline for those students planning on graduating in May 2017 without registering for the Winter Term.

Tuesday, December 6th

- Classes finish. In MA classes, ‘B-’ is considered a passing grade.

March

Pythian Games. Sacred to Apollo (the Greek god of music and the arts), the ancient Pythian Games featured competitions in declamation, reading aloud, poetry, and rhetoric. True to form, every year students are invited to perform poetry, song, theatre and music. Performers have recited everything from Al Purdy to Pushkin and Woody Allen to Catullus, and performances have been made in Latin, Greek, English, Middle English, German, Russian, Welsh and yes, even Elvish.

Thesis submission: There are four possible deadlines per year for the submission of examined and passed theses to the Faculty of Graduate Studies. The deadlines are: December 16, 2016 (for graduation in May 2017 without registering for the Winter Term), April 7, 2017 (for graduation in May 2017 with Winter Term registration), April 30, 2017 (for graduation in October 2017 without registering for the Summer Term) and the end of August, 2017 (for graduation in October 2017). (Please note that the exact dates for the August deadline has not yet been determined). These are the deadlines for submitting the finished product, online.

Students are advised that submission to the Supervisory Committee of a MA thesis manuscript ready for examination should occur no later than July 1, 2017, for final submission of the finished product, and preferably before, to allow sufficient time for the Supervisory/Examining committee to read the thesis, and for the candidate to do the required revisions.

All theses must be submitted electronically. For details on submitting PDF theses electronically please review:

<http://www.dal.ca/faculty/gradstudies/currentstudents/thesesanddefences/submission.html>

FGS guidelines in relation to formatting are mind-bogglingly exact, but all-important. Submit your work to the FGS Thesis Coordinator to have it assessed for compliance. Format guidelines are found on the Faculty of Graduate Studies website:

<http://www.dal.ca/faculty/gradstudies/currentstudents/thesesanddefences/format.html>

Once the thesis has been approved by the Department and the Faculty of Graduate Studies, an electronic copy must be provided to the Graduate Coordinator and Department.

PhD Students: (First Year)

Supervisory Committee

The Department of Classics has on file a detailed description on the Regulations for PhD Degree. All students should obtain a copy from the departmental office.

A supervisory committee, consisting of a supervisor and co-supervisor from his/her major field, together with a Department member from his/her minor field, will be established for each student upon entering the PhD programme. The composition of the Supervisory Committee will normally be arranged in consultation with the candidate and is subject to approval by the Department. This process will normally be completed by September 30th.

The PhD degree consists essentially of (a) work in the advanced seminars of the Department in the candidate's main field (to the number and extent to be determined by the Supervisory Committee in consultation with the candidate) (b) work in the seminars of the Department in the minor field (to the number and extent to be determined by the Supervisory Committee in consultation with the candidate) and (c) a substantial and original thesis of value in the judgment of the Department.

Examinations

At the conclusion of his first academic year, each candidate's record shall be reviewed by the Department to determine his or her fitness to proceed with further studies.

Comprehensive (Preliminary) Examination

At least one year before the candidate presents himself or herself for the PhD degree he or she shall pass a comprehensive (preliminary) examination, which will be a written and oral examination in subjects relevant to the candidate's thesis area and minor fields of study.

July-August: Students register online for REGN 9999, an act which does nothing more than confirm that you are registering in the programme. It does not register you in classes.

2016-2017

REGN 9999—Fall Term: CRN 12394

REGN 9999—Winter Term: CRN 22178

Early September: Students meet with the Graduate Coordinator and complete a Programme of Studies form. Students begin work on their fields, whether through independent reading or in a graduate class. Students work with their supervisors on developing field reading lists.

Students fill out and sign programme forms and submit them to the Graduate Coordinator for approval. The program forms will then be entered online and an email will be sent to you requesting that you digitally accept the requirements as listed. Once you accept the requirements an automatic email is sent to your supervisor for his/her acceptance and then

to the graduate coordinator for his approval.

Students with scholarships need to fill out a direct deposit form for the Payroll Department to take to payroll when picking up their first scholarship cheque. To find the necessary form, go to:

http://www.dal.ca/content/dam/dalhousie/pdf/hr/Payroll-and-Information-Services/bank_deposit_application_form.pdf

October: Prepare scholarship applications (See Section IV)

August 1st, annually: Submit Progress Report. The progress report form is completed online:

- A student enters the Progress Report tab in GSIS, clicks the "Add" button, selects the type of report to use (Thesis/Project or non-Thesis/Non-Project), and clicks "Save Changes". (The "Add" button is only available if no other progress reports are currently in progress.)
- The student completes all of the Student Section and gives his/her digital acceptance of the report by submitting it.
- Upon student submission, an automatic notification email is sent to the student's supervisor, if applicable. The student's supervisor completes the Supervisor Section and gives his/her digital acceptance of the report. If no supervisor has been set, then the report is sent to the graduate coordinator.
- Progress reports that have been accepted by graduate coordinators are routinely reviewed by the Faculty of Graduate Studies Program Officer, Awards Officer (where applicable), and assistants for final acceptance.

III LANGUAGE REQUIREMENTS

MA

Ancient Languages: Ideally, students are admitted to the MA programme having completed the language requirements of a BA (Hons.) in Classics at Dalhousie, i.e. two full years of either Greek or Latin, in addition to three full years of the language not studied to the second year. In practice, many students are admitted from joint-honours degrees or even degrees in cognate fields, and do not meet the 2-3 requirement. It is highly desirable that all students meet this level of language training by the end of the first year of their MA studies. Language requirements beyond that level are to some extent dictated by the student's choice of sub-discipline and plans for further study, and will be discussed and determined in individual meetings with the student's supervisor and the Graduate Coordinator.

Greek and Latin are taught at all levels, and competency in both languages is required for theses in the traditional areas of Classical Studies. Students focusing on the intersections of Classical and later thought in the Mediterranean world and the Middle East may, in consultation with the Graduate Coordinator and supervising faculty member, substitute Classical Arabic for either or Latin or Greek. Students focusing mainly on Ancient Philosophy, Greek patristics, Byzantine

philosophy and theology, Latin patristics, and Latin medieval philosophy and planning to continue their studies or pursue an academic career in these areas may, as appropriate, in consultation with the Graduate Coordinator and supervising faculty member, limit their language study to ancient and Byzantine Greek, or ancient and medieval Latin, or either of these in combination with Arabic.

Modern Languages: Graduate students in the Department must conduct research in the modern languages besides English essential to their particular research and appropriate to Canada as a bilingual country. Doctoral students will be required to do this in at least two; but this rule does not limit what may be required for a particular thesis. All graduate students must be able to deal with secondary literature in French and this will generally be necessary for graduate seminars as well as for thesis research. Decisions about which other languages are needed are made in consultation with the supervisor or supervisory committee. Likely other languages include German, Italian, Spanish, Dutch, Hebrew, and Arabic.

PhD

Classical Languages: Before the PhD degree is granted, candidates must demonstrate, either in the regular examinations in language classes, or by such special examinations as the Department may prescribe, a thorough knowledge of Greek and Latin. Additional ancient languages may be required according to a student's programme.

Modern Languages: Graduate students in the Department must conduct research in the modern languages besides English essential to their particular research and appropriate to Canada as a bilingual country. Doctoral students will be required to do this in at least two; but this rule does not limit what may be required for a particular thesis. All graduate students must be able to deal with secondary literature in French and this will generally be necessary for graduate seminars as well as for thesis research. Decisions about which other languages are needed are made in consultation with the supervisor or supervisory committee. Likely other languages include German, Italian, Spanish, Dutch, Hebrew, and Arabic.

IV SCHOLARSHIP APPLICATIONS FOR NEXT ACADEMIC YEAR

Autumn is the season of applications. This is particularly relevant for MA students who intend to pursue doctoral work the following year. Unfortunately, having begun one Programme, you must also begin considering the next step and the next Programme. The FGS (at their website or their office) has up-to-date information such as addresses, application forms, deadlines, and brochures on graduate programmes within Canada and abroad, as well as fellowships and scholarships.

The main source of graduate scholarships for Canadian citizens is the Social Sciences and Humanities Research Council, generally known as the SSHRC.

SSHRC MA SCHOLARSHIPS: Students in the first year of their MA Programme can apply for these scholarships. Details are available at www.sshrc.ca. There will be a departmental information session on the SSHRC awards, *Friday, September 16 at 4:45 in the Departmental Library*

SSHRC DOCTORAL FELLOWSHIPS: the most important deadline in the fall is for the SSHRC doctoral fellowships. All Dalhousie PhD students not currently holding Killam or SSHRC fellowships who are Canadian citizens are **REQUIRED** by the university to apply for SSHRC doctoral fellowships. (You cannot be considered for a Killam scholarship unless you apply for a SSHRC.) Though the competition is intense, Master's students anticipating entering a doctoral programme the following year should strongly consider applying. The application requires a rigorous programme proposal and students must also arrange for up-to-date transcripts to be submitted with the application. There will be a departmental information session on the SSHRC awards, September in the Departmental library. Students will work closely with a supervisor or other faculty member on the preparation of applications. Complete drafts will be submitted to the Graduate Coordinator by to allow time for review and correction before ranking.

For PhD scholarships, the SSHRC process requires ranking of applications by the Department, ranking of applications within Dalhousie University, and then passing these applications on to the national competition. For MA scholarships, applications are ranked by the institution to which to which the student is applying.

V VISITING SPEAKER SERIES

Several times a year, the Department hosts visiting speakers (see dates in previous section). These events are intended for faculty and students, and attendance at these events is **EXPECTED**. Usually an electronic version of the speaker's paper is circulated before the seminar, copies of which are available in the Classics Department Office. If graduate students have suggestions for possible visiting speakers, they can contact Dr. Peter O'Brien (peter.obrien@dal.ca).

VI RESEARCH SUPPORT

Once PhD students have had their thesis proposals approved by the department, they are eligible to apply for financial support for research, i.e. trips to libraries. Application forms may be obtained from the Faculty of Graduate Studies:

<http://www.dal.ca/faculty/gradstudies/funding/grants.html>. There are no particular deadlines; success is not certain. The Faculty of Graduate Studies, which administers these funds, deals with them as they are submitted. There are, however, particular financial guidelines. Legitimate expenses include airfare, ground transportation, accommodation, meals, photocopying, and so on. Please note that expenses incurred before the award is granted will not be covered.

VII CONFERENCE TRAVEL SUPPORT

The Faculty of Graduate Studies also provides up to \$500.00 in support for graduate students presenting papers at conferences. You must present proof of your acceptance at the conference, and **apply at least one month in advance**. Questions may be addressed to the Faculty of Graduate Studies or the Graduate Secretary.

The Department also expects to have limited funds for the next few years to allow additional small grants to fund graduate student research and conference travel. The amount available will vary from year to year. Awards are open only to students who have already exhausted the funding available through the Faculty of Graduate Studies. Because funds are limited, awards unfortunately cannot be guaranteed to all applicants. Graduate students must apply in writing to the departmental chairperson, giving information about their scholarships and about the FGS research and travel funding that they have used, as well as their plans for the requested funds.

VIII COMPUTING FACILITIES

Students are expected to use their “@dal.ca” e-mail address as their active account, as many memoranda are sent electronically, and it is university policy that electronic information be forwarded to students this way. If you use an outside email account (e.g. gmail or hotmail) you should consider configuring your dal.ca account so that messages are forwarded to your habitual email account. Detailed information about the University’s email services and other computer services may be found at www.its.dal.ca. A real person to answer your questions can be found in the University Computing Services office in the basement of the Killam Library and at the Help Desk (494-2376).

All Dal students are assigned a NetID which gives them access to computers located around the campus.

IX OTHER DEPARTMENTAL FACILITIES

Master’s and Doctoral students may use both the Departmental copy machine and the fax machine (the number of which is 902-494-2467). They will be charged for this use, through an account with the Department.

- A. **Photocopier:** Donna will provide you with an access code for the photocopier/scanner once she receives the \$25/lab fee.
- B. **Kitchen/Lounge:** Students are welcome to use the kitchen and facilities. This facility is for the students, faculty and staff of the department. It is critical that when using common shared items that they are washed and returned to the cupboard (on left on the counter).
- C. **Lockers:** If you wish to have one of the 8 lockers available for Classics students, please see

Donna. These lockers will be assigned on a first-come basis. They are located on the second floor directly across the hall from the centre stairwell in the McCain Building.

- D. **Departmental Library Access and Security:** To access the building after hours, visit http://www.dal.ca/campus_life/student_services/dalcard.html and select re-set my pin. Alternatively, you can go there directly by visiting <https://scsweb1.scs.dal.ca/pinreset/>. Once you set your pin, it should be ready for use in a few seconds. With your pin you can access the McCain building after hours with your dal card.

- E. **Additional Library Access Information:** There is a fee of \$25 per year for those using the facilities of the library/computer room. This fee will assist in covering the cost of laser cartridges, paper and Ethernet connections. Please pay Donna. If you are writing a cheque, please make it payable to Dalhousie University. **Returning students in arrears for last year's payment are asked to pay up ASAP. At that point, the stay that has been placed on requisite Programme and Programme Update forms will be lifted.**

The departmental library must be kept locked at all times when not in use, a key will be left in the drawer in the kitchen of our department. You can also contact the Security Department in the basement of the FASS building (494-6400) if it is an emergency to access to the library or department. You must have your Banner ID to show to the Security Officer. **Please take it upon yourself, if you are the only person in the Department outside of office hours, to check that ALL doors (i.e. hall entry doors, inner library door, patio doors in library and lounge) are locked and that windows are secure.**

- F. **Seminar/Conference Room:** McCain 2172 (2nd floor, directly above the Departmental Office) is available for the use of our department. A key to this room will also be left in the kitchen drawer. If you would like to book this room for your office hours or any other purpose, please see Donna to schedule an available time.
- G. **Library Carrels:** For students at the thesis-writing stage, library carrels are available in the Killam Library. The carrel is a closed cell that you can keep library books in and use as a space to write - if you need to get away from the outside world, this is your ticket, as they have no windows and nothing to look at besides the four walls of the cell. Graduate students who are writing a thesis are generally entitled to these - tell me at your earliest convenience if you would like your name on the list. Space is limited, so if you don't think you would use it there is no need to put your name down on the list.

X GOVERNANCE OF GRADUATE MATTERS WITHIN THE DEPARTMENT

Graduate matters within the Department are generally governed by the Graduate Coordinator in consultation with departmental members.

XI TEACHING ASSISTANTSHIPS AND TEACHING

The advertising and appointment of Teaching Assistantships is governed by the terms of a collective agreement with the Canadian Union of Public Employees (<https://www.dal.ca/content/dam/dalhousie/pdf/hr/Academic-Staff-Relations/CUPE-3912-Collective-Agreement-2012-2016.pdf>.) Within those terms, the responsibility for the allocation of teaching assistantships lies with the Chair of the Department.

Teaching Assistant (TA) assignments are drawn up by professors based upon enrollments in their classes and anticipated needs. There are two types of single-term, half-class TA assignments: TA45 (45 hours) and TA90 (90 hours); and two types of full academic year TA assignments: TA180 (180 hours), and TA 260 (260 hours).

Students holding Faculty of Graduate Studies scholarships often have, as part of their scholarship, a teaching assistantship. In light of this, they must receive first priority in the assignment of teaching assistantships. Though we speak of ‘priorities’, it should also be observed that, in years past, most current full-time students in the one-year Master’s or first year doctoral programme who wished to do a teaching assistantship were assigned one. No guarantees can be offered, however; funds available and the terms of the collective agreement set the boundaries of what assignments are possible. Every effort is made to link professors’ preferences to those of the students.

Unstaffed assistantships are posted and advertised in the hallway outside the Classics office. Students are asked to apply as directed on the advertisement.

XII FEES AND FINANCIAL AID

Tuition fees are set and administered by the university and the Faculty of Graduate Studies, not by the department. Master’s students should know, however, that after three terms (one full academic year) they are only liable to pay continuing fees (either part-time or full-time), which are a fraction of programme fees. For students in financial need, particularly after the first academic year, the Faculty of Graduate Studies offers some aid.

Students wishing to interrupt their programme of studies, for whatever reason, are advised that they must apply for a leave of absence from the Faculty of Graduate Studies; such leaves are usually granted one term at a time for a maximum of 12 months.

XIII GRADUATE CLASSICS STUDENTS SOCIETY (KYLIX)

The Classics Graduate Student Society hosts various social events throughout the year, including receptions following departmental guest lectures. This group ensures that the graduate students have representation in the Dalhousie Association of Graduate Students and is involved in the selection of the Nicole Knox Memorial Prize for Latin and Greek at the senior undergraduate level.

XV DEPARTMENT OF CLASSICS FACULTY

Eli Diamond Eli.Diamond@dal.ca

Areas of interest: Ancient Philosophy, especially Plato and Aristotle; Greek Literature

Michael Fournier Michael.Fournier@dal.ca

Areas of interest: Late Ancient and Early Medieval Philosophy

Wayne Hankey Wayne.Hankey@dal.ca

Areas of interest: Neoplatonism, Mediaeval Philosophy, Contemporary French Philosophy, Islamic and Jewish Philosophy in the Middle Ages, Relations between Hellenistic Judaism, Christianity and Islam

Leona MacLeod Leona.MacLeod@dal.ca

Areas of interest: Greek Literature

Jack Mitchell Jack.Mitchell@dal.ca

Areas of interest: Roman History; Greek and Roman Literature

Peter O'Brien Peter.O'Brien@dal.ca

Areas of interest: Latin Literature, Late Antique Historiography, Neo-Latin

Emily Varto EVarto@dal.ca

Areas of interest: Greek History, Greek Historiography, Greek Literature, Ancient Art and Material Culture

RELIGIOUS STUDIES FACULTY LIST

Christopher Austin

Christopher.Austin@dal.ca

Areas of interest:

Hindu God Vishnu, Hindu Religious Culture of the Mythic and Human Identity of Krishna and his descendants

Other information:

Religious Studies / Adjunct Professor

Alexander Treiger

ATreiger@dal.ca

Areas of interest:

Classical Sufism, Medieval Arabic Philosophy, Christian Literature in Arabic

Other information:

Religious Studies / Adjunct Professor

ADJUNCT AND RETIRED FACULTY LIST

Thomas Curran

Thomas.Curran@ukings.ca

Areas of Interest:

Romantic German literature, Classical Antiquity

Other information:

Adjunct Professor / University of King's College

Kyle Fraser

Kyle.Fraser@ukings.ca

Areas of interest:

Aristotelian Metaphysics and Ontology of Ancient Greek Philosophy and Science, Renaissance Platonism and Hermeticism

Other information:

Adjunct Professor / University of King's College

Rainer Friedrich

Rainer.Friedrich@dal.ca

Areas of interest:

Greek Literature; Homer

Other information:

Professor Emeritus. Supervisions by special arrangement only.

Dennis House	Dennis.House@dal.ca
Areas of Interest:	History of Ancient Skepticism and Aristotle's Critique of Plato's Philosophy
Other information:	Retired / Adjunct Professor. Supervisions by special arrangement only.

Michael Parker	Michael.Parker@dal.ca
Areas of interest :	Greek Tragedy, Catullus
Other information :	Retired from Memorial University of Newfoundland / Adjunct Professor. Supervisions by special arrangement only.

Neil Robertson	Neil.Robertson@ukings.ca
Areas of interest:	Contemporary Political Thought, Early Mediaeval Thought, Modernity in Early Modern Europe
Other information:	Adjunct Professor / University of King's College

Ian Stewart	Ian.Stewart@ukings.ca
Areas of interest:	Renaissance and Early Modern Natural Philosophies
Other information:	Adjunct Professor / University of King's College

Gary Thorne	Gary.Thorne@dal.ca
Areas of interest:	Patristics, Middle Byzantine Theology
Other information:	Adjunct Professor / University Chaplain, University of King's College
