--

Section 4: EDUCATION AND TRAINING

Describe past marine related education and training you have participated in, with emphasis on specific achievements, publications, commissions, grants, etc. you received.

Section 5: OTHER MARINE RELATED ACTIVITIES

Describe any other marine related activities or responsibilities you have had, for example working with non-governmental organizations, community-based organizations, etc.

Section 6: MARINE AFFAIRS AT DALHOUSIE UNIVERSITY

In order to assist us with our ongoing planning and promotional efforts, we would appreciate knowing how you came to learn about the Marine Affairs Program at Dalhousie University. If possible, we would like the information to be as specific as you can provide. Thank you for your help.

Section 7: RESEARCH STATEMENT

Provide an original statement about the marine management problem in which you are most interested or knowledgeable, and specify how addressing the problem will benefit society and your career. The research statement should be written in the style of a research paper (800-1000 words) and include reference citations. It should offer evidence of quality, clarity, synthesis, and originality of your mind; your skills as a researcher and writer; your maturity and sense of direction. Include 3-5 keywords.

The importance of this part of your application should not be underestimated. It is one of the key components to assess your potential to undertake study at the Master's level. **CONSIDERABLE WEIGHT IS PLACED UPON THIS SECTION OF YOUR APPLICATION** as it demonstrates to the MAP Admissions Committee your suitability as a Master's level student.

*Provide the research statement in a separate Word or PDF file and submit with the FILENAME as **lastname_firstinitial_MMMResearchStatement**.*
