

Request for Reassessment of Final Grade

If you have questions about your final grades we encourage you first to speak with the course instructor. You can also discuss your final grade with the chair of the department, director of the school/college, dean of your faculty or a student advocate without having to submit a reassessment of a final grade form.

Reassessment of a final grade is the formal process in which the Registrar's Office forwards the request to the Dean of the Faculty or the director of the school/college offering the class. A final grade must have been recorded on your academic record and you must indicate a particular component of the class that can be re-evaluated by a person or persons who did not perform the original evaluation. A component is for example a final exam, midterm exam, paper, assignment or quiz. Along with the selection of a component to be re-evaluated you must provide your reasons as to why you feel that particular component needs to be re-evaluated.

There is a \$50 fee for a final grade reassessment which is refundable if your request is successful and a change to your final grade is made to your academic record.

Deadline dates for submission of request	
Fall classes	March 1
Winter and Full-year classes	July 1
May—June classes	September 1
July—August and May—August classes	November 1

For Office Use Only
