Why start here?

You’ll benefit from the reputation of a degree at Dalhousie, plus there are many reasons to spend your first year in Truro:

- Guaranteed a room in residence*
- One-on-one advising to build strategies for success
- Live in a small, active town with cafés, restaurants, hiking and more
- Smaller class sizes in first-year courses like Biology, Chemistry, Calculus, Statistics, Computer Science and English

Available Programs

**BACHELOR OF COMPUTER SCIENCE AND BACHELOR OF APPLIED COMPUTER SCIENCE**

No matter your prior programming experience, develop the technical, problem-solving and leadership skills needed to create—or use—new technology to empower people, organizations and society.

Sample First Year Classes

- Introduction to Computer Science
- Introduction to Web Design and Development
- Society and Technology

**BACHELOR OF SCIENCE**

Grow your strengths and passion for science in a university experience rich with exploration, experimentation, skill-building and scientific knowledge.

Sample First Year Classes

- Biology I & II
- General Chemistry I & II
- Composition and Nature in Literature

**DID YOU KNOW?** You can also complete your first two years of your Bachelor of Engineering at the Truro campus!

---

*You will be guaranteed a room in residence at Dalhousie if you’re a new, direct-from-high-school domestic or international student and have a complete application on file by May 15. Priority access will be given to students with one or more of the following identities: Indigenous students, especially Mi’kmaw; African/Black students, especially Historical African Nova Scotian; Students with (dis)abilities or ongoing medical conditions that significantly impact housing needs.*
Student Success

Whether you’re having difficulty in a particular course, have questions about your program, thinking about your career options, or need help with health and wellness supports, our faculty, staff and students are ready to assist you as you make your way through your first year.

Student Financial Supports

No matter what your financial circumstances may be, there are many supports and options available to you such as scholarships and bursaries, student loans, part-time employment and internships. We award over $35.3 million annually through scholarships and bursaries to help students invest in their future.

Visit dal.ca/moneymatters for more information on available financial supports.

Indigenous Student Access Pathway Program (ISAP)

Our one-year program offers First Nations, Métis and Inuit students an opportunity to complete university courses in our culturally supportive and friendly campus. It is open to direct-from-high-school students, mature students and those with previous post-secondary experience who have some but not all of the pre-requisites for standard admission.

For more information contact Keah Gloade, Manager, Indigenous Students at keah.gloade@dal.ca

The deadline for entrance awards is March 1.
