Preceptors

Many nurses and persons in other disciplines, and settings, provide valuable assistance in the education of nursing students. Names can be obtained by contacting the School of Nursing.

School of Nursing Regulations

1. Students are required to observe the University Regulations and Academic Regulations as described in this calendar.
2. Students are assessed in each year on their aptitude and fitness for nursing. Students who, in the judgment of the faculty, fail to attain a satisfactory standard in this assessment may be required to withdraw from the School.
3. Students are responsible for ensuring that they are registered in appropriate courses throughout the program. Incorrect registration, at any time, could cause conflicts in a student's year-to-year progression and/or graduation.
4. Students in the Baccalaureate Program are responsible for (a) the purchase of uniforms including shoes and a watch with a sweep hand or a digital watch with seconds display, (b) cost of accommodation and travel while on clinical experiences. Additional expenses are incurred by students in the Basic Baccalaureate Program for field experience, books, first aid course, CPR course, graduation pin,

equipment, and nurse registration examinations and recommended and/or required immunizations and/or testing. Each student must also purchase a name tag from the University.

5. Because of enrolment limits on class size, part-time students who wish to change to full-time status must present this request in writing to the Assistant Director, Undergraduate Studies by March 1.
6. Students are assigned to a faculty member from the Undergraduate Student Affairs Committee to help them plan their academic program and to discuss academic progress or difficulties.
7. Students are permitted to repeat any course (non-nursing, core nursing courses including clinical practice and electives) in the BScN program only once. A second failure in any course (whether the second failure occurs in a previously failed course, or in a course taken for the first time in the program) will result in dismissal from the program for 1 year. Students are permitted to reapply to the program. Readmission to the program is not guaranteed and the applicant must demonstrate their preparation to return to studies.
8. Students wishing to appeal a decision based on faculty regulations or decisions should follow the School of Nursing Appeal Procedure outlined in the Nursing Student Guide.
9. Supplemental exams will not be available in any nursing courses.
10. Because of the nature of the study and practice of Nursing which places Nursing students in a position of special trust, applicants will be asked to complete a screening question related to past criminal convictions which might affect the applicant's suitability for the practice of nursing. Students accepted into the nursing program who provide false information will be disciplined by the university. It is the student's responsibility to inform the Assistant Director (Undergraduate Studies) of any new criminal conviction which could affect the student's suitability for practice.
11. Once enrolled in the Nursing Program it is the students' continuing responsibility to inform the Assistant Director Undergraduate Studies of any criminal conviction or any significant personal circumstance which would adversely affect their ability to continue with their studies or which would make them ineligible for registration within CRNNS upon graduation.
12. Progression in the program requires a C (minimum 60%) in each non-nursing course and C+ (minimum 65%) or Pass (P) in each nursing course. Progression in the program requires a GPA of 2.30 or greater (semester to semester) for all years of the program. F and INC are failing grades. ILL and W are considered neutral.

School of Nursing Appeal Procedure

The University has established a system which allows students to appeal academic decisions made by faculty. Appeals can be heard at different levels within the University: At the School and at Senate. Appeals are heard in the School by the Student Appeals Committee and at Senate level by the Senate Academic Appeals Committee.

Procedure for Undergraduate Appeals

Undergraduate appeals are heard by the Student Appeals Committee of the School of Nursing. Procedures for the undergraduate appeal process are available from the School.

Interprofessional Health Education

Students are required to maintain enrolment in IPHE 4900 (see calendar section on Health Professions, Interprofessional Health Education) for the duration of their studies. Successful completion of this course is a requirement for graduation and will be recognized further with the awarding of a special Certificate in Interprofessional Collaboration to be presented by the Faculty of Health Professions. Students are asked to consult with their individual school/college to determine the specific guidelines and expectations regarding the required portfolio.

Degree Options (admitted Sep 2016 or later)

Bachelor of Science (Nursing) (Arctic Nursing)

The Arctic Nursing Program, developed collaboratively between Nunavut Arctic College and Dalhousie University, is a four-year program that focuses on nursing in Nunavut. This program is designed for Nunavut residents. The

curriculum emphasizes awareness and respect for Inuit culture and will prepare Inuit nurses to be leaders in the health-care system of Nunavut.

To apply or learn more about the program <http://www.dal.ca/faculty/healthprofessions/nursing/programs/arctic-nursing.html>.

Graduate Programs

For details of the Master of Nursing, the joint Master of Nursing/Master of Health Administration programs and the PhD (Nursing) program, please consult the [Faculty of Graduate Studies calendar](#).

Bachelor of Science (Nursing)

Degree Requirements

Throughout the undergraduate program students must: obtain a minimum sessional and cumulative GPA of 2.30; accumulate a minimum of 120 credit hours; successfully complete all compulsory courses, as well as the necessary number of elective courses; and, complete the degree within six years of commencing nursing courses. Credit will be given for non-nursing courses that are up to ten years old by the date the degree is completed.

Grade Point Average Standards (GPA)

The grade point average system is described in the Academic Regulations.

Grades

The following letter-grade system is used to evaluate performance. Pass in nonnursing courses: A+, A, A-, B+, B, B-, C+, C, C-, D, and P. In nursing courses students must attain a minimum of C+ in both theory and clinical/laboratory components: FM, F, and INC are failing grades. ILL and W are considered neutral.

Requirements for Promotion

Besides meeting the GPA requirements, progression in the program requires minimum D in each non-nursing course and minimum C+ or PASS in each nursing course. Progression in the program requires a GPA of 2.30 or greater (semester to semester) for all years of the program.

Normal Workload

The program consists of 120 credit hours; Students can register for a maximum of 15 credit hours per term.

Prerequisite for Course Admissions

There are a number of courses that require prerequisites (see [course descriptions](#)). Students must successfully complete the required prerequisites for each course or obtain approval from the Committee on Studies prior to registration.

Direct Entry Students

This entry option is for students coming directly from high school or who do not have the required prerequisites for the Advanced Standing option (see below). It is made up of 8 semesters over a 3-year period.

Semester 1 runs September to December and Semester 2 runs January to April. Upon completion of Semester 1 and 2, students will enter Semester 3 (May to July in Halifax, Sept to Nov in Yarmouth) of the Bachelor of Science (Nursing) Program; see Course of Study. Students will complete 3 semesters per year; Fall Semester is September to November; Winter Semester is January to March; Summer Semester is May to July. Students will have a one month break between each semester. Graduation: Halifax Direct Entry students will graduate in May, with eligibility to practice as a graduate nurse and apply to write the NCLEX-RN Licensure Examination in April; Yarmouth students will graduate in October, with eligibility to practice as a graduate nurse and to apply to write the NCLEX-RN Licensure Examination in August.

Advanced Standing Students

Advanced standing students have all of the required non-nursing courses (equivalent to semesters 1 and 2) completed with at least 30 credit hours, and will enter the program at Semester 3 in September. It consists of 6 semesters over a 2-year period. Semesters 3 to 8 are exclusively nursing courses. Fall Semester is September to November; Winter Semester is January to March; Summer Semester is May to July. Students will have a one month break between each semester. Graduation: October, with eligibility to practice as a graduate nurse and apply to write the NCLEX-RN Licensure Examination in August.

Final Exams

Final exams for the new modified BSc Nursing program will be administered in the last week of each semester: November for Fall Semester; March for Winter Semester and July for Summer Semester.

Bachelor of Science (Nursing) Degree Program (Admitted in Sep 2016 or later)

In response to a health care system based on principles of primary health care, the Bachelor of Science (Nursing) Program prepares nurses to work in partnerships with individuals, families, groups and communities to promote, maintain and strengthen health. Graduates are prepared to respond to a range of health and illness needs in a variety of settings and organizational health care infrastructures. The curriculum is designed to enable graduates to meet the standards of nursing practice in Canada and be eligible for registration in Nova Scotia.

In addition to the Dalhousie Campus, students may complete a BScN degree on site in Yarmouth. Students interested in this option should contact the School for further information.

Program Objectives

The Bachelor of Science (Nursing) graduate will:

1. Demonstrate application of people-centred nursing art and science through critical inquiry, commitment to life-long learning and informed practice.
2. Practice competently by applying the principles of primary health care with diverse *clients in a variety of health care contexts and by responding to emerging trends, technology and concepts in health.
3. Communicate, collaborate and partner with *clients, and other members of the health care team to increase capacity and enhance health of populations.
4. Demonstrate ethical, legal and professional accountability in the practice of nursing and remain committed to professional competence through life-long learning.
5. Influence nursing and health care through a social and political analysis of current health care issues and application of leadership skills.

*(individuals, family, groups, community and/or populations)

Bachelor of Science (Nursing) (for students entering in Sep 2016)

The Bachelor of Science in Nursing degree is a 120 credit hour program. Graduates are eligible to write examinations for membership in the College of Registered Nurses of Nova Scotia.

Before commencing semester 3 all students must have the following completed:

Immunization

Students are responsible for having complete and current immunizations against diphtheria, polio, tetanus, pertussis, measles, mumps, rubella, Hepatitis B and a 2-step Mantoux. Access to clinical agencies will be denied if immunizations are not current and complete.

CPR, (HCP) and Standard First Aid Certification

Students must have CPR (Health Care Provider Level) and Standard First Aid certification. CPR (Health Care Provider Level) must be recertified biannually (or in compliance with the healthcare facility in which a student may be completing a clinical practicum). A cardio-pulmonary resuscitation (CPR) course and standard first-aid course are the student's responsibilities in time and cost. Access to clinical settings will be denied if certification is not current.

Criminal Record Check/Vulnerable Sector Search

Students are responsible for completing a criminal record check (CRC) and Vulnerable Sector Search (VSS). Access to clinical agencies will be denied if these checks are not current.

Course of Study

The Program is offered at both the Halifax and Yarmouth sites. The following is an outline of courses that are taken in each semester. Advanced standing students commence in Semester 3.

Program requirements may change with ongoing curricular revisions.

Semester 1

- PHYL 1010X.03: Human Physiology
- ANAT 1010.03: Basic Human Anatomy
- ENGL 1100.03: Writing for University
- Open elective (3 credit hours)
- Open elective (3 credit hours)

Semester 2

- PHYL 1010Y.03: Human Physiology
- BIOC 1420.03: Introductory Biochemistry for Nursing Students (recommended; or 3 credit hour Science elective)
- STAT 1060.03: Introductory Statistics for Science and Health Sciences
- HAHP 2000.03: Human Growth and Development (recommended; or 3 credit hour open elective)
- MICI 1100.03: Health Science Microbiology

Semester 3

- NURS 2710.06: Nursing and Community Health
- NURS 2715.03: Clinical Integration I
- NURS 2720.03: Health and Healing I: Pathophysiology and Therapeutics
- NURS 2730.03: Foundation of Nursing Practice

Semester 4

- NURS 2725.03: Clinical Integration II
- NURS 2740.06: Nursing and Family Health
- NURS 2750.03: Health and Healing II: Pathophysiology and Therapeutics
- NURS 2760.03: Nursing Research and Evidence Informed Practice

Semester 5

- NURS 3710.06: Nursing and Episodic Illness: Preventative Care and Intervention
- NURS 3715.06: Clinical Integration III

- NURS 3720.03: Professional Formation of Nursing Practice: Leadership Perspectives

Semester 6

- NURS 3725.06: Clinical Integration IV
- NURS 3730.06: Nursing in the Context of Persistent Illness: Prevention and Recovery
- Nursing elective (3 credit hours)

Semester 7

- NURS 4710.03: Relational Practice and Advanced Clinical Reasoning
- NURS 4715.06: Exploratory Nursing Practice
- NURS 4720.03: Professional formation: Nursing and Social Responsibility
- Nursing elective (3 credit hours)

Semester 8

- NURS 4725.15: Transition to Practice

Course of Study

With the help of a Year Program Coordinator, an individual course of study is determined. Course of study may be affected by the actual courses offered in an academic year. Certain courses may have prerequisites as noted in the course descriptions. Part-time students are encouraged to complete most of the required non-nursing courses before starting nursing courses. The course of study varies considerably when the student applies transfer credits toward the degree. Transfer credit regulations are outlined under the Academic Regulations section of the University Calendar.

Degree Options (admitted prior to Sep 2016)

Bachelor of Science (Nursing) (Arctic Nursing)

The Arctic Nursing Program, developed collaboratively between Nunavut Arctic College and Dalhousie University, is a four-year program that focuses on nursing in Nunavut. This program is designed for Nunavut residents. The curriculum emphasizes awareness and respect for Inuit culture and will prepare Inuit nurses to be leaders in the health-care system of Nunavut.

To apply or learn more about the program <http://www.dal.ca/faculty/healthprofessions/nursing/programs/arctic-nursing.html>.

Graduate Programs

For details of the Master of Nursing, the joint Master of Nursing/Master of Health Administration programs and the PhD (Nursing) program, please consult the [Faculty of Graduate Studies calendar](#).

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are typically available to students in the second, third, and fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not obtain credit for both courses as designated.

Not all courses are offered each year. Please consult the current [timetable](#) for this year's offering. For further information please contact the department, or visit the department's website.

Courses

NURS 2710 Population Health Nursing

CREDIT HOURS: 6

The structures and relationships we live in are fundamental to the development of human potential and nursing practice. Mental and physical health concerns that have significant impact on health and social wellbeing are explored. Population health concepts essential for a healthy society are introduced

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PHYL 1010X/Y.06, ANAT 1010.03, STAT 1060.03 or MATH 1060.03, MICI 1100, ENGL 1100, PHYL 1000X/Y.06 plus an additional 15 credit hours totalling 30 credit hours of study

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

NURS 2715 Clinical Integration 1

CREDIT HOURS: 3

Integration of foundational nursing skills and practices, such as health history and assessment, safety, infection control, communication and relational inquiry occurs in clinical application settings. Students use multiple learning modalities to master fundamentals of nursing practice.

CALENDAR NOTES:

COREQUISITES: IPHE 4900.00

PREREQUISITES: PHYL 1010X/Y.06, ANAT 1010.03, STAT 1060.03 or MATH 1060.03, MICI 1100.03, ENGL 1100.03, PHYL 1000X/Y.06 plus an additional 15 credit hours totalling 30 credit hours of study

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lab

LAB HOURS PER WEEK:

NURS 2720 Health and Healing I: Pathophysiology and Therapeutics

CREDIT HOURS: 3

Fundamentals of health and disease patterns, the role of genetics, developmental biology and environment are explored. Cellular mechanisms, inflammatory and infectious responses and cellular biology of cancer are investigated. Diagnosis and therapeutic concepts including preventative therapies and pharmacological and non-pharmacological interventions with consideration of age and cultural variations are introduced.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PHYL 1010X/Y.06, ANAT 1010.03, STAT 1060.03, MICI 1100.03, PHYL 1000X/Y.06, and ENGL 1100.03 plus an additional

15 credit hours totaling 30 credit hours of study

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

NURS 2725 Clinical Integration 2

CREDIT HOURS: 3

Population health, family and perinatal theoretical concepts and evidence are utilized in a variety of practice settings. Family health assessments across various family life stages including focused fetal/newborn/child and parental care in dynamic interprofessional settings enable students to apply theory to practice.

CALENDAR NOTES:

COREQUISITES: IPHE 4900.00

PREREQUISITES: NURS 2710.03 and NURS 2720.03 and NURS 2730.03 and NURS 2715.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lab

LAB HOURS PER WEEK:

NURS 2730 Foundation of Nursing Practice

CREDIT HOURS: 3

Ethical, professional, legal concepts and theories guiding professional nursing practice are examined. Professional identity, collaboration, comportment, and reasoning related to nursing practices are developed. Theories and frameworks are used to investigate health and social care constructs and the impact of hierarchal structures on individual, communal and global health.

CALENDAR NOTES:

COREQUISITES: NURS 2710.03

PREREQUISITES: PHYL 1010X/Y.06, ANAT 1010.03, STAT 1060.03 or MATH 1060.03, MICI 1100, PHYL 1000X/Y.06, ENGL 1100, plus an additional 15 credit hours totalling 30 credit hours of study

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Seminar | Online Delivery

LAB HOURS PER WEEK:

NURS 2740 Nursing and Family Health

CREDIT HOURS: 6

Nurses combine knowledge from primary health care and public health, social and nursing sciences, recognizing the uniqueness and diversity in family systems to support transitions that occur across the life course. Understanding health promotion, protection and prevention of illness in the context of family development is the focus.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: NURS 2710.03 and NURS 2720.03 and NURS 2730.03 and NURS 2715.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Seminar

LAB HOURS PER WEEK:

NURS 2750 Health and Healing II: Pathophysiology and Therapeutics

CREDIT HOURS: 3

Integrating knowledge of disease, diagnosis and person-centred management is key to successful nursing practice. Specific disease processes related to body systems are described and mechanisms of therapeutic options for management are evaluated. Evidence to support use of pharmacological, non-pharmacological, alternative and complimentary treatments is evaluated

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: NURS 2710.03 and NURS 2720.03 and NURS 2730.03 and NURS 2715.03

CROSSLISTED:
RESTRICTIONS:
EXCLUSIONS:
FORMATS: Lecture
LAB HOURS PER WEEK:

NURS 2760 Nursing Research and Evidence-Informed Practice

CREDIT HOURS: 3
Examines the methods used to generate, evaluate and apply knowledge in nursing and health care focusing on the basic processes of quantitative and qualitative research. The emphasis is on analysis, synthesis and evaluation of research and the implications for theory and evidence-informed nursing practice. Collaboration with Interprofessional research teams is described.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: NURS 2710.03 and NURS 2720.03 and NURS 2730.03 and NURS 2715.03

LAB HOURS PER WEEK:

NURS 4353 Multi-dimensional Aspects of Cancer

CREDIT HOURS: 3

Building on Exploring Concepts in Oncology, this course will challenge learners to consider the comprehensive care of a range of health and illness needs of individuals at risk for or living with cancer within a dynamic and changing system. The course reflects a critical analysis of the existing theoretical and evidence-informed perspectives influencing health related behaviours within the context of cancer at the individual, organizational and global levels.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: NURS 4352.03

CROSSLISTED:

RESTRICTIONS: BScN

EXCLUSIONS:

FORMATS: Online Delivery

LAB HOURS PER WEEK:

NURS 4370 Women and Aging

CREDIT HOURS: 3

This interdisciplinary nursing elective explores the issues related to socio-economic factors that are major determinants of the well-being of aging women. Topics include; aging as a process; menopause, violence against older women, older women and housing; self-image and sexuality; health and the aging woman; and older women and poverty.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: NURS 3710.03, NURS 3715.03, NURS 3720.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Seminar | Discussion

LAB HOURS PER WEEK:

NURS 4371 Addictions Nursing Practice

CREDIT HOURS: 3

This nursing elective introduces major concepts associated with addiction nursing practice. It provides a foundation for students pursuing careers in addiction-related care. Within a primary healthcare perspective, students critique models and theories of addiction, consider the interplay between social, gender, cultural environments and addictions and become knowledgeable of a variety of treatment approaches. Universal, selective, and prevention activities at an individual, family and community level are explored.

CALENDAR NOTES: Students who complete NURS 4371 must also complete NURS 4372

COREQUISITES:

PREREQUISITES: NURS 3710.03, NURS 3720.03 and NURS 3715.03

CROSSLISTED: NURS 5871.03

LAB HOURS PER WEEK:

NURS 4372 Mental Health Nursing

CREDIT HOURS: 3

Students will gain insight into individuals' experiences of mental health problems, mental disorders/psychiatric illnesses, and addictions over the life course. Multiple perspectives, including biological, nursing, sociological, philosophical and political, will guide the analysis. Treatment modalities will be critiqued. The association between nurses' relational practices and individuals' quests for life fulfillment will be examined.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: NURS 4371.03, NURS 3710.03, NURS 3720.03 & NURS 3715.03

EXCLUSIONS:

FORMATS: Online Delivery

LAB HOURS PER WEEK:

NURS 4380 Introduction to Epidemiology Methods in Nursing Practice

CREDIT HOURS: 3

This introductory course is intended to provide students at both the undergraduate and graduate level with a working knowledge and understanding of the basic concepts and methods of epidemiology. The main focus of this course will be to learn to analyse and interpret information about disease (i.e. both acute and chronic) and other health related occurrences at a population level (e.g. risk factors, diversity, determinants of health) within a Public and Community Health Nursing context. This course will also provide an introduction to the concepts for developing, implementing and evaluating public health programs and, for independent inquiry and decision making around public health policy. There are no prerequisites for this course though students are required to have completed their second year of their undergraduate program or have permission from the course instructor. A clinical background and a basic understanding of statistics for the Graduate students are essential but not necessary for Undergraduate students.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: NURS 3710.03; NURS 3720.03; NURS 3715.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Online Delivery

LAB HOURS PER WEEK:

NURS 4381 Public Health Nursing

CREDIT HOURS: 3

This course provides an opportunity for students to advance their introductory knowledge of public health nursing principles, roles, and functions. Public health nursing integrates knowledge from public health and nursing science to promote, protect, improve and restore the health of populations. The focus will be on advancing their understanding and application of population health, priority setting and planning approaches, partnerships, public policy literacy and health equity.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: NURS 3710.03; NURS 3720.03; NURS 3715.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Online Delivery

LAB HOURS PER WEEK:

NURS 4410 Perinatal Nursing across the Childbearing Continuum

CREDIT HOURS: 3

Students build upon core curriculum knowledge of the perinatal experience. The nature of the childbearing experience is critically analyzed from multiple perspectives, while evidence-informed nursing care for childbearing families with health complexities is appraised. Theory underlining processes of maternal transformation, person-centered care, relational practice and parent-infant attachment overlay these analyses.

CALENDAR NOTES:

COREQUISITES:
PREREQUISITES: NURS3710, NURS3720, NURS3715
CROSSLISTED:
RESTRICTIONS: Only for BScN UG Students
EXCLUSIONS:
FORMATS: Online Delivery
LAB HOURS PER WEEK:

NURS 4420 Paediatric Nursing

CREDIT HOURS: 3
Recognizing the unique health needs of children, this course focuses on the synthesis of knowledge and the partnership between the nurse, child, family and interprofessional team. Students will integrate developmentally supportive, family-centred care and application of nursing management with the paediatric population experiencing serious episodic and persistent illness and hospitalization.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: NURS3710, NURS3720, NURS3715
CROSSLISTED:
RESTRICTIONS: Only for BScN UG Students
EXCLUSIONS:
FORMATS: Online Delivery
LAB HOURS PER WEEK:

NURS 4471 Emergency Preparedness: A Nursing Perspective

CREDIT HOURS: 3
This course focuses on preparation of future nurses for various hazards using an "all hazards" approach. Local, provincial and national disaster response systems, in the event of a mass casualty, are explored, and the ability to care for victims and responders of all types of hazards is emphasized.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: NURS 3710.03; NURS 3715.03 & NURS 3720.03
CROSSLISTED:
RESTRICTIONS:
EXCLUSIONS: NURS 2390
FORMATS: Online Delivery
LAB HOURS PER WEEK:

NURS 4472 Acute and Critical Care Nursing

CREDIT HOURS: 3
With the focus on acute and critical care nursing in the intensive care and emergency room areas, students will further develop, critically analyze and apply knowledge gained in previous courses with a focus on the management of critically ill clients. Emphasis includes working with clients across the lifespan and inter-professional relationships within specialty practice.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: NURS 3710.03, NURS 3715.03, NURS 3720.03, NURS 4471.03
CROSSLISTED:

EXCLUSIONS: NURS 3320.03
FORMATS: Online Delivery
LAB HOURS PER WEEK:

NURS 4710 Relational Practice and Advanced Clinical Reasoning

CREDIT HOURS: 3
Students engage in relational inquiry, clinical reasoning and multiple ways of knowing related to health and social care. Evaluation of evidence in the context of person centred care forms the basis for reflective practice that promotes health and wellness and supports management of complex situations.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: NURS 3730.03 and NURS 3725.03

CROSSLISTED:
RESTRICTIONS:
EXCLUSIONS:
FORMATS:
LAB HOURS PER WEEK:

NURS 4715 Exploratory Nursing Practice

CREDIT HOURS: 6

Students engage in a broad range of clinical, research or theoretical activities, under the direction of faculty or clinical preceptor/facilitator to complete a project relevant to nursing practice. These learning experiences will assist the student to understand the complexity of the integrated nursing role across a range of settings.

CALENDAR NOTES:

COREQUISITES: IPHE 4900

PREREQUISITES: NURS 3730.03 and NURS 3725.03

CROSSLISTED:

LAB HOURS PER WEEK:

NURS 4811 Indigenous Perspectives of Health and Healing

CREDIT HOURS: 3

Indigenous peoples often experience greater health challenges and increased health disparities than non-Indigenous populations globally. Finding ways to enhance and expand the health and well-being of Indigenous populations through culturally-sensitive, culturally-appropriate, and culturally-safe healthcare should be a priority for those working in the healthcare sectors. This course will examine understandings of health and healing from a variety of Indigenous perspectives, with a specific focus on the Mi'kmaq of Cape Breton, in order to increase cultural awareness of how different Indigenous cultures understand and conceptualize wellness. This course will be framed around experiential hands-on learning opportunities, and will have a strong presence of guest speakers from various Indigenous perspectives and various health professionals. Planned activities are cultural talking circles, medicine walks, sweat lodges, Elder teachings, and tours of Mi'kmaq health centres on Cape Breton Island.

Introduction

The Atlantic School of Occupational Therapy was established in 1982 as the only occupational therapy education program in Atlantic Canada. The School exists in response to strong regional advocacy, particularly since 1958 when a School was approved in principle by the University Senate. The regional orientation of the School fosters collaborative teaching, research and professional activities linking those at the university with occupational therapy and other service providers, government workers, and citizens in the four Atlantic Provinces. This regional mandate is combined with an international perspective linking Dalhousie with universities and communities for fieldwork and research.

Occupational Therapy is a health profession concerned with social inclusion. Practitioners enhance the occupational performance engagement, health and well-being of individuals, groups, and organizations, particularly where inequities or injustice limit opportunities for meaningful participation in daily life occupations.

Occupation is viewed broadly to include everything we do to “occupy” ourselves in enjoying life, looking after ourselves and others, and contributing to the social and economic productivity of our communities.

Health is viewed broadly as having the ability, opportunity and resources, for quality of life with meaningful occupations in supportive environments.

Occupational therapists use their understanding of occupation, enabling processes, justice and systems to enable individuals, groups and organizations to overcome obstacles that limit their ability to do things they need and want to do. Obstacles addressed by occupational therapists may include illness, injury, physical or mental disability, developmental delay, social disadvantage, old age, cultural, and physical barriers in the home, community and workplace. Using a “partnership” approach, occupational therapists work with individual families, groups, communities, organizations, populations, businesses or governments. The focus can be either on enabling individual change, or enabling change in physical and social environments, policies or legislature to enhance occupational performance and engagement in society. Practice may enable change in skills, attitudes, routines, design of buildings, use of assistive technology, policies, etc.

The role of an occupational therapist is varied and challenging. Occupational issues are never the same because no two people or environments are ever exactly the same. The challenge for occupational therapists is to plan and implement the “just right” program or strategy for each and every client so that everyone can achieve just opportunities to participate in society.

Degrees Offered

In concert with national standards and requirements for occupational therapy education, the School of Occupational Therapy at Dalhousie University only offers graduate level degree programs. For further information on our occupational therapy degree programs, please refer to the Graduate Calendar.

Certificate in Disability Management

The School of Occupational Therapy offers a Certificate Program in Disability Management to students currently enrolled in an academic program at Dalhousie or another Canadian university. The Certificate Program is built around the philosophy of disability management and early assistance as the most effective means by which to assist injured and ill workers to attain their maximum level of functioning and ability to return to work. Disability Management is designed to benefit injured workers through its participatory and proactive problem-solving process incorporating strategies that ensure workers timely and safe return to work. All courses in the Certificate Program are offered completely on-line.

Please refer to the [Disability Management section](#) in this calendar for additional information.

Post Professional Certificates

These certificates are for people who are working in health, social, or community services whose professional preparation has normally included a bachelor's degree or higher in a relevant field. The following certificates are being offered in the School:

- Chronic Condition Self-Management
- Aging and Continuing Care
- Diversity and Inclusion

Please refer to the [Occupational Therapy section](#) in the Graduate Calendar for additional information.

Master of Science (Occupational Therapy) - MSc (OT): Master's Program to Enter the Profession

MSc (OT) First class accepted into the program in September 2006.

Master of Science (Occupational Therapy–Post- Professional): Post Professional Master's program for qualified occupational therapists.

1. Research Thesis Stream
2. Practice Leaders Stream
3. Single graduate courses (with instructor's permission)

PhD

Faculty in the School of Occupational Therapy welcome applications for PhD studies focused on occupational therapy or occupational science. Interested persons should contact individual faculty at the School. Applications will be submitted through the most suitable program, such as the PhD in Health, Interdisciplinary PhD program, or Biomedical Engineering PhD program. Prospective students may be eligible for funding through scholarship programs at NSERC, SSHRC, CIHR, or from the Nova Scotia Health Research Foundation (NSHRF). Within Dalhousie funding possibilities include Killam scholarships.

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are typically available to students in the second, third, and fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not obtain credit for both courses as designated.

Not all courses are offered each year. Please consult the current [timetable](#) for this year's offering. For further information please contact the department, or visit the department's website.

Note

The School does not currently offer an undergraduate degree.

We offer undergraduate courses for continuing professional development, refresher education and/or to advance one's knowledge of occupational science. Not all courses are offered each year. Please contact the School for the current course offerings and enrollment in single course.

Course Descriptions

OCCU 2000 Occupation and Daily Life

CREDIT HOURS: 3

This introductory course for students in arts, social sciences, science and other fields is designed to explore the meaning of occupation in everyday life. Typically, the term "occupation" refers to categories of paid work. This course will explore a broader meaning of occupation; namely purposeful activity. This concept of occupation will include everything we do to look after and develop ourselves, be involved in meaningful endeavours, contribute to our communities, promote health, advocate for opportunities, generate income and more. Students will be exposed to a broad range of literature on occupation; the motivation, organization and performance of occupation; the environment as a context for occupational performance; and the promotion of health through occupation. Students will gain an appreciation of occupation as the foundation of everyday life through sociological, anthropological and narrative analysis, and experiential activities.

OCCU 4402 Program Design and Evaluation for Enabling Occupation

CREDIT HOURS: 3

This course enables students to critically assess, plan and design an evaluation for occupational therapy programs in a variety of settings. Students will be provided with the basic knowledge and skills of: strategic planning; program development; resource management; and program evaluation. As part of this course, students will complete a novice consulting project. This project will provide students with the opportunity to explore the provision of occupational therapy in a non-traditional setting.

OCCU 4420 Fieldwork III

CREDIT HOURS: 0

This eight week fieldwork placement introduces students to occupational therapy practice outside the Atlantic region. There are a limited number of opportunities for International options outside Canada and expanded fieldwork with an off-site occupational therapist preceptor within Atlantic Canada. Students develop competence and increased independence in integrating theoretical knowledge and skills through the full process of Occupational Therapy practice. Under supervision, students assume responsibility for a case load of approximately 40-60% of that of an entry level therapist. All expenses are the responsibility of the student including a placement fee, travel, accommodations, etc.

History

Formal pharmacy education in the Maritime provinces began in 1908, with evening classes in pharmacy and chemistry conducted in the Nova Scotia Technical College. Success of these courses encouraged the Nova Scotia Pharmaceutical Society to establish the Nova Scotia College of Pharmacy in 1911. The College was affiliated with Dalhousie University in 1912.

The New Brunswick Pharmaceutical Society and the Prince Edward Island Pharmaceutical Association were admitted to affiliation with the College in 1917 and 1950, respectively. With the affiliation of the former society, the College was renamed the Maritime College of Pharmacy.

In 1961, the Maritime College of Pharmacy was admitted into Dalhousie University as the College of Pharmacy, a constituent part of the new Faculty of Health Professions. A four-year baccalaureate program was introduced.

In 1966, a Master's program was established, followed by a Doctor of Philosophy program in 1977.

In 1972, a twelve month pharmacy residency program was initiated by Camp Hill Hospital in cooperation with the College of Pharmacy. Programs were initiated at the Halifax Infirmary in 1974, at the Victoria General Hospital in 1981 and at the Saint John Regional Hospital in 1982.

In the fall of 1968, the College of Pharmacy moved into the George A. Burbidge Pharmacy Building. This building, the former Medical Sciences Building was renamed in honour of the first Dean of the College, in recognition of his contribution to pharmacy education in the Maritimes. Present facilities accommodate approximately 360 undergraduate students.

College of Pharmacy Mission Statement

Mission

Enhancing health and wellness through pharmacy education, research and community service. Through our work, we support the conscientious use of medications in society.

Vision

The College of Pharmacy leads the profession's evolution. Our expertise, programs and graduates are sought after and valued.

Accreditation

The Bachelor of Science in Pharmacy program of the College of Pharmacy at Dalhousie University has been awarded the status of Full Accreditation by the Canadian Council for Accreditation of Pharmacy Programs for a four year term, 2016-2020.

PEP Associates

Throughout the Maritime provinces pharmacist preceptors in community and hospital pharmacies participate in structured practice experience programs (PEP). The College of Pharmacy would like to acknowledge the valuable and essential contribution that preceptors make to the education process. Sincere thanks and appreciation is extended to all preceptors for the time and energy they devote to students.

The PEP is administered by the College with the support of the provincial pharmacy regulatory authorities in the Maritimes. Second, third, and fourth year students demonstrate their knowledge and professional competency in practice rotations in community and hospital pharmacy sites.

College of Pharmacy Regulations

All students are required to observe the University Regulations and Academic Regulations as described in this Calendar. The academic performance of each student in the College is assessed by the Student Promotions Committee.

Academic Requirements

Workload

The curriculum is composed of problem-based learning (PBL) and other courses, which may include tutorials, lectures, labs, practice experience and other components. (See IV. Programs offered). To satisfy the requirements for the degree of Bachelor of Science in Pharmacy, a student must achieve a grade of Pass in each prescribed component. PBL courses vary in length from three to seven weeks, and are weighted as either 1.5, 3, or 6 credit hours. Each academic year totals 27, 31.5, or 33 credit hours, with the program total being 123 credit hours.

Students are required to successfully complete all practice experience rotations. These placements may be outside the Halifax/Dartmouth area. Students are responsible for any travel, accommodation and any other costs associated with practice experience rotations.

Academic Recognition

Awards

The College of Pharmacy Awards Committee administers a number of awards, each with defined criteria. Selection of award recipients described as the “student who excels” is based on a combination of performance in knowledge assessments and in tutorials. Eligibility for In-course Scholarships is determined on the basis of knowledge assessments alone.

Dean’s List

Students will be assessed for Dean’s List based on their knowledge assessments and class standing in the annual “Progress Exam.” No student who has obtained a failing grade (FM or F) will be eligible for the Dean’s List in the year in question.

Distinction

Students who have been on the Dean’s List for three of the four years of the Pharmacy Program and a cumulative GPA of 3.70 or higher will graduate with Distinction.

Assessment

1. Grading is on a Pass/Fail basis, and grades recorded on the official University transcript are “Pass”, “Marginal Fail” or “Fail” (P, FM, F). Students must pass all components of the year in which they are registered to proceed to the next year. The passing grade for knowledge assessments is 60% unless otherwise indicated.
2. Student performance will be assessed during and at the end of each PBL course. Assessment will be of both the learning process and the knowledge/skills achieved. Tutors will provide informal assessment of the student’s learning process throughout a PBL course and a formal assessment (student tutorial performance assessment) at the completion of a course. Knowledge/skills will be assessed as described in the syllabus provided for each course.
3. To pass a PBL course, a student must pass both the student tutorial performance assessment and the course knowledge assessment.
4. A student who fails no more than one academic course will be assigned a grade of marginal failure (FM) in that course. The student must meet with the Associate Director, Student Affairs to discuss

remediation and/or support. More than one failure will result in all failed course being assigned the grade of Fail (F).

5. The Student Promotions Committee of the College of Pharmacy is responsible for monitoring the academic progress of students and providing recommendations to faculty regarding promotion and graduation of students. Students who seek redress for the application of the regulations of the College of Pharmacy should refer to the appeals process described in Appeals section below.
6. Attendance at the tutorials, skills laboratory and practice experience program (PEP) is mandatory. Absence must be supported with a valid reason, such as illness with a medical certificate or other reason approved by the Undergraduate Education Committee. Other absences will be reported to the Student Promotions Committee and may be reason for failure.

Reassessment of a Grade

See [Academic Regulation 16.7](#). In all cases of reassessment, the calculations used to arrive at the final grade will be checked. In those courses where the student has had ample time to consider marks obtained for all work done, except for the final examination, reassessment in such courses shall be done on the final examination only. For other courses, a reassessment shall include the results from all work not previously available to the student during the term.

Supplemental Assessment

1. A student who receives a grade of FM is eligible for remedial work and supplemental assessment.
2. A student who fails one PBL student tutorial performance assessment must undertake remedial work during the following course, organized by the Associate Director, Student Affairs. If the failure occurs in the final course of the year, remediation will occur during the summer. The student must successfully complete the remedial work and supplemental assessment to achieve a Pass.
3. A student who fails the knowledge assessment or other requirement outlined in the syllabus of a PBL or non-PBL course will be required to do remedial work and must pass a supplemental assessment, which will be scheduled by the course coordinator in consultation with the Associate Director, Student Affairs and the students involved.
4. If a student fails one PBL or non-PBL course, the grade will be recorded as "FM" on the student's transcript. Failure to pass the remedial work and supplemental assessment will lead to conversion of the grade to "F". If the student successfully completes the remedial work and supplemental assessment, the passing grade will then be added to the transcript and recorded as "P" with a notation that the grade was earned by supplemental assessment.
5. Failure in a second course (either a PBL or non-PBL course) will negate a pass that may have been achieved by supplemental assessment in the first failed course. (See F.1.a below.)

Repeating the Year

1. Subject to eligibility, a student will be required to repeat the year if:
 - a) the student has failed any two courses (PBL or non-PBL courses) or
 - b) the student has failed one course and has not successfully completed the prescribed remedial work and supplemental assessment.
1. To be eligible to repeat a year, a student who has failed two courses must satisfactorily complete all other year requirements except the Practice Experience Program. However, a student with two failures will not be eligible to register in the Practice Experience Program.
2. Application to repeat the year must be made in writing to the Associate Director, Student Affairs by a predetermined date.

3. Any student who withdraws voluntarily, due to illness or other personal circumstances, and is allowed to repeat the year, will be considered a student in a repeat year unless the student withdraws before the last day of the first PBL course of the academic year, or the student tutorial performance assessment, if the two do not coincide.
4. No student will be allowed more than one repeat year during the undergraduate program. All students who repeat the year will be assessed on performance in the repeated year.

Leave of Absence

A student who needs to take leave from the pharmacy program must apply to the Director to do so. A leave of absence must be approved in advance by the Director of the College of Pharmacy. Normally, a student who absents himself/herself from the College of Pharmacy without prior permission for an extended period (four weeks or greater) will be presumed to have withdrawn and will have to re-apply for admission to the College of Pharmacy. A leave of absence will be limited to one leave period and will not normally exceed one academic year. A leave of absence will not count towards time in the Pharmacy program.

Dismissal from the Study of Pharmacy

1. Any student who fails more than two courses (PBL or non-PBL courses) of the curriculum in one year will be dismissed from the study of pharmacy.
2. A student in a repeat year who does not meet the criteria for promotion will be dismissed. The normal regulation allowing remedial work and supplemental assessment in one course will apply.
3. Students are also referred to University Regulations: Suspension or Dismissal from a Program on the Grounds of Professional Unsuitability - Faculty of Health Professions.

Appeals

Students who wish to raise questions or to register complaints in matters of academic appeal are advised to communicate informally with their instructor within 10 working days of the alleged unfairness or irregularity. If no resolution arises from this (these) meeting(s), the student may initiate a formal appeal.

Students wishing to initiate a formal appeal should follow the appeals procedures as set out by the College of Pharmacy, Undergraduate Student Appeals Committee, Faculty of Health Professions. These procedures are available online, Faculty of Health Professions website, "For current students", Student Policies and Procedures. Application for a formal appeal should be made to the College of Pharmacy Chair, Undergraduate Student Appeals Committee within 20 working days of the matter giving rise to the appeal.

Programs Offered

The College of Pharmacy offers a four-year program, following at least one year of general science, leading to the degree of Bachelor of Science (Pharmacy) - BSc (Pharm).

The undergraduate program has a patient-oriented curriculum integrating clinical pharmacy with the pharmaceutical sciences. The curriculum utilizes an integrated problem-based learning (PBL) format.

Year 1 includes pharmacy law and health care ethics, biomedical and physical sciences (anatomy, biochemistry, microbiology, pharmacology and physiology) in discrete three-to seven-week courses. The pharmaceutical sciences (biopharmaceutics and pharmacokinetics, medicinal chemistry, drug metabolism, toxicology, pharmaceutics and physical pharmacy) with necessary reviews of biomedical content, are integrated in Years 2 through 4, with therapeutics, pharmacoepidemiology, pharmacoconomics, pharmaceutical care, communications, interprofessional relations, law and ethics, social and administrative pharmacy issues, and the role of pharmacy in the health care system.

The College participates with the Nova Scotia Health Authority (Central Zone), Halifax, NS; the Horizon Health Network, Saint John and Moncton, NB; and the IWK Health Centre, Halifax, NS (Accreditation Pending) in providing a Canadian Pharmacy Residency Board (CPRB) accredited twelve-month post graduate hospital pharmacy residency program.

Through structured rotations in various areas of pharmacy practice, the program aims to prepare pharmacists for exemplary pharmacy practice. Areas of rotation include patient care, drug information, drug distribution, pharmacy administration, a research project and in-service and education. The emphasis is on providing exemplary patient care. Practitioner role models/preceptors are utilized throughout the program to mentor the necessary skills, knowledge and values required to be a pharmacist for application by the resident. A stipend is provided and a certificate is presented to candidates successfully completing the program.

Undergraduate Curriculum Structure

The PBL curriculum, within the College of Pharmacy, may be scheduled past the posted exam periods. Students are responsible for all costs associated with expenses during this time (e.g. meal plan expiration, residence closure, etc.).

Problem-Based Learning (PBL) Courses

A minimal number of classes explain difficult concepts and summarize case material.

Tutorials

The principal feature of the curriculum is PBL. Students learn together in tutorial groups of eight to ten.

Each group is facilitated by a trained non (content)-expert tutor who may be faculty, sessional tutors, practitioners or graduate students.

Two-hour tutorials are held three times a week. In tutorial sessions students are presented with a situation for which they must identify their own prior knowledge and set specific learning objectives. Students use the time between tutorial sessions for self-directed learning of the objectives that they have set. Subsequent tutorials consist of discussion and application of knowledge.

Non-PBL Courses

There are some courses in each year that may be lecture based, assignment based, or case based.

Skills Laboratory

The skills laboratory focuses on practical skill development and application of knowledge acquired in the PBL curriculum and critical appraisal series. Activities required for successful completion of the practical experience program are introduced and practiced. Content includes but is not limited to: extemporaneous compounding, prescription filling and assessment, written and verbal communication skills, patient education, device training, injection training, and jurisprudence.

A cardiopulmonary resuscitation (CPR) level HCP and standard first aid course are the students' responsibility in cost.

Practice Experience Program (PEP)

A progressive professional field experience complements the PBL curriculum as follows:

Year 1 - Community Experience Program (CEP)

- the equivalent of a half day per week in a goal-related service learning in a non-pharmacy health-oriented community site.

Year 2 - Practice Experience Program (PEP)

- PHAR 2081.03: Practice Experience Program - Hospital Rotation (two consecutive weeks)
- PHAR 2082.03: Practice Experience Program (PEP) II - Community Rotation (two consecutive weeks)

Second year rotations are completed during the months of May - August, after successful completion of all other second year courses. Each rotation is two weeks in length, at a minimum of 35 hours/week. Second year rotations provide students with an opportunity to see pharmacists practice patient focused care in both community and hospital practice settings. Time is also spent on the distributive, legislative and administrative components of pharmacy practice.

Year 3 - Practice Experience Program (PEP)

- PHAR 3080.03: Practice Experience Program (PEP) III - Community Rotation (four consecutive weeks)

This rotation is completed during the months of May - August, after successful completion of all other third year courses. This rotation is four weeks in length at a minimum of 35 hours/week and introduces students to the practical application of the pharmacist's patient care process in a community pharmacy. Rotation objectives address drug information, prescription and non-prescription medications, patient education, and health promotion presentations to community groups. This rotation is intended to provide an introductory experience to clinical activities including: monitoring patients, identifying drug-related problems, and defining and measuring patient goals and outcomes.

Year 4 - Practice Experience Program (PEP)

- PHAR 4080.045: Practice Experience Program (PEP) IV – Hospital Rotation (six consecutive weeks)
- PHAR 4085.045: Practice Experience Program (PEP) V – Community Rotation (six consecutive weeks)

These six-week rotations are the culmination of the student's study. Experiential rotations in hospital and community practice sites allow students the opportunity to apply all the knowledge, skills and values they have developed to the provision of total pharmacy care. The focus of these rotations is patient-based and primarily clinical. Each rotation is six-weeks, at a minimum of 40 hours/week.

For each rotation, from year 2 through to year 4, students are required to travel to sites outside of the Halifax area and will be responsible for any costs incurred as a result of the program.

Students should note that there are very limited PEP rotation sites outside the Maritime Provinces. All PEP rotations must take place within Canada. Students must be prepared to complete all PEP rotations within the Maritimes.

Prescribed Courses

Year 1

- ANAT 1040.03: Basic Human Anatomy for Pharmacy Students
- BIOC 1040.06: Biological Chemistry and Metabolism for Students of Pharmacy
- CHEM 2442.03: Organic Chemistry for Pharmacy Students
- MICI 1050.03: Basic Microbiology and Immunology for Pharmacy
- PHAC 1470.06: Pharmacology for Pharmacy
- PHAR 1060.015: Pharmacy Law and Health Care Ethics
- PHAR 1071.015: Pharmacy Skills Lab IA
- PHAR 1072.015: Pharmacy Skills Lab IB
- PHAR 1080.00: Community Experience Program
- PHYL 1400.06: Human Physiology

Year 2

- PHAR 2011.015: Critical Appraisal Series IA
- PHAR 2012.015: Critical Appraisal Series IB
- PHAR 2200.06: Topical Products (Dermatologicals, Eye & Ear)
- PHAR 2035.06: Respiratory Tract Complaints
- PHAR 2040.03: Gastrointestinal Disorders
- PHAR 2045.015: Nutrition
- PHAR 2055.015: Drug Disposition
- PHAR 2060.015: Medication Use Management
- PHAR 2071.015: Pharmacy Skills Lab IIA
- PHAR 2072.015: Pharmacy Skills Lab IIB
- PHAR 2081.03: Practice Experience Program (PEP) I
- PHAR 2082.03: Practice Experience Program (PEP) II

Year 3

- PHAR 3011.015: Critical Appraisal Series IIA
- PHAR 3012.015: Critical Appraisal Series IIB
- PHAR 3020.03: Women's Health Issues
- PHAR 3030.03: Infectious Diseases
- PHAR 3040.06: Cardiovascular Diseases
- PHAR 3050.03: Pain and Rheumatology
- PHAR 3055.06: CNS and Behavioral Disorders
- PHAR 3060.03: Endocrine Disorders
- PHAR 3071.015: Pharmacy Skills Lab IIIA
- PHAR 3072.015: Pharmacy Skills Lab IIIB
- PHAR 3080.03: Practice Experience Program (PEP) III

Year 4

- PHAR 4010.015: Critical Appraisal Series III
- PHAR 4025.06: Pathocytologic Disorders
- PHAR 4035.06: Disorder of the Liver and Genitourinary Systems
- PHAR 4060.03: Advanced Patient Health Management
- PHAR 4070.015: Pharmacy Skills Lab IV
- PHAR 4080.045: Practice Experience Program (PEP) IV
- PHAR 4085.045: Practice Experience Program (PEP) V

Interprofessional Health Education

Students are required to maintain enrolment in IPHE 4900 (see calendar section on Health Professions, Interprofessional Health Education) for the duration of their studies. **Please register in IPHE 4900.00 (section 5).** Successful completion of this course is a requirement for graduation, and will be recognized further with the awarding of a special Certificate in Interprofessional Collaboration to be presented by the Faculty of Health Professions. Students are asked to consult with their individual school/college to determine the specific guidelines and expectations regarding the required portfolio.

General Information

Immunization

Students must show proof* of current immunization against tetanus, diphtheria, pertussis, polio, measles, mumps, rubella, Hepatitis B, varicella (if non-immune) and a negative two-step Mantoux (TB) test prior to admission to the College.

Evidence of a negative two-step tuberculin testing (Mantoux) is required before all hospital rotations. Students are responsible for the cost of all tests and immunizations.

*Students must complete the Faculty of Health Professions' infectious disease and immunization checklist.

Each student is required to maintain their personal immunization record, and submit a copy by a set deadline for their student file. Individual sites may require students to present immunization records prior to acceptance at a practice site. Individual clinical practice sites may have additional immunization requirements. Failure to provide this information may result in a student being denied access to a placement site.

Career Opportunities

Pharmacy is a health profession in which pharmacists provide care for their patients as one member of the health care team. This care focuses on the patient from the perspective of drug therapy. The pharmacist is responsible to identify, prevent and resolve patient drug therapy problems. Specific activities include: taking medication histories, identifying goals for drug therapy, providing recommendations and education to patients regarding self-medication, providing recommendations to other health care providers on drug therapy, working with patients to maximize benefits and minimize adverse effects of drug therapy, maintaining patient drug profiles, counseling patients on prescribed medication, monitoring drug interactions, adverse drug reactions and patient compliance with their drug treatment. Other activities include the provision of information on drugs to patients and other health professionals, the preparation of suitable materials for use as medicines from natural and synthetic sources, the compounding of drugs and the dispensing of suitable medication.

Pharmacy graduates have a wide range of career opportunities. The majority enter community pharmacy practice. Hospital pharmacy also provides an interesting challenge for pharmacists, particularly in view of their expanding role within the clinical setting. The pharmaceutical industry provides opportunities for pharmacists in the fields of sales and marketing, production, research and quality control.

The increased role of federal and provincial governments in public health provides opportunities for pharmacists in analytical laboratories and in administrative position as consultants, government inspectors and health officers. Opportunities may also be available in universities as teachers and researchers.

A Bachelor of Science in Pharmacy is necessary for those who wish to practice as licensed pharmacists. For those who wish to enter research or teaching, a Master of Science degree or further postgraduate study is usually required.

Practice Requirements

1. License in Pharmacy

The College of Pharmacy, being purely educational, has no jurisdiction in matters related to licensing or to registration as a Pharmacist. These functions are entirely under the control of the provincial regulatory authority concerned; a period of practical training or apprenticeship is required by the provincial regulatory authority before a graduate in pharmacy is licensed as a pharmacist. Information regarding licensing or registration in each province may be obtained from the respective provincial regulatory authority: New Brunswick College of Pharmacists; Prince Edward Island College of Pharmacists; Nova Scotia College of Pharmacists.

2. Pharmacy Examining Board of Canada (PEBC)

The Pharmacy Examining board of Canada was created by Federal Statute on December 21, 1963, to establish qualifications for pharmacists acceptable to participating pharmacy provincial regulatory authorities. The Board provides for annual examinations and issues a certificate to the successful candidate, which may be filed with a Canadian provincial regulatory authority in connection with an application for license to practice pharmacy under

the laws of that province. Baccalaureate graduates from Faculties of Pharmacy accredited by the Canadian Council for Accreditation of Pharmacy Programs are eligible to write these examinations. Successful completion of these examinations is a prerequisite to licensure in Canada.

Individuals who are not graduates of an accredited Canadian Faculty of Pharmacy must first complete the PEBC Qualifying Exam.

Student Pharmacy Society

The basic aims of the Student Pharmacy Society are to promote a closer liaison with the other societies on campus, to give the pharmacy students a strong position with regard to Student Council activities, to provide a means of communications between students and their respective provincial regulatory authorities in the Maritimes, and to provide an organizational body which plans and finances the various unique Pharmacy Society activities.

Membership in the Pharmacy Society includes membership in the Canadian Association of Pharmacy Students and Interns and membership in the Canadian Pharmacists Association.

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are typically available to students in the second, third, and fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not obtain credit for both courses as designated.

Not all courses are offered each year. Please consult the current [timetable](#) for this year's offering. For further information please contact the department, or visit the department's website.

Course Descriptions

PHAR 1011 Critical Appraisal Series 1

CREDIT HOURS: 2

This is the introductory course to the series of critical appraisal courses completed throughout the undergraduate pharmacy program. In this course, the concepts of evidence-based practice, critical appraisal, and critical thinking are introduced as central principles to pharmacy training and practice. Students are introduced to credible primary, secondary, and tertiary drug and health information resources including specific texts, bibliographic databases, journals, and other resources. Activities, assignments, and assessments are designed to promote student abilities in the evaluation and strategic use of these resources as an integral component of patient care.

LAB HOURS PER WEEK:

PHAR 1040 Pharmaceutical Sciences

CREDIT HOURS: 6

This lecture-based course is comprised of three core pharmaceutical science subject areas: medicinal chemistry, pharmaceutics and biopharmaceutics and pharmacokinetics that will be taught concurrently. The course will provide students with a strong foundational knowledge in the core pharmaceutical sciences, which will support further integrated learning and application of pharmaceutical sciences principles as it relates to therapeutic topics and practical experience training during the remainder of the curriculum.

LAB HOURS PER WEEK:

PHAR 1051 Integrated PBL 1: Foundation, Nutrition, Eye and Ear, Integration

CREDIT HOURS: 6

Integrated PBL-1, is the introductory Problem-based (PBL) learning course and the first of 6 PBL courses in the curriculum. Students will learn to use the pharmacy specific problem-solving process and will be introduced to lab values, physical assessment and effective feedback techniques, all of which will be used throughout the other Integrated PBL courses. In the nutrition portion of the course, students will learn about nutritional needs of healthy clients and special populations. The roles, the daily requirements and sources of various vitamins, and pathological consequences of dietary deficiencies will be addressed. Special nutritional challenges in pregnancy, infancy, elderly, and grave illness will be examined. In the Eye and Ear portion, students learn the medicinal chemistry, pharmaceutics, biopharmaceutics and pharmacokinetics, and pharmacology, as well as the pathophysiology and pharmacotherapeutic principles pertaining to the problems and products discussed. Common problems of the eye and ear, including those of an infectious and non-infectious nature will be examined. Students will apply cumulative knowledge to a complex patient case.

PHAR 1052 Integrated PBL 2: Dermatology, Respiratory, Gastrointestinal, Integration

CREDIT HOURS: 6

Integrated PBL 2 deals with common dermatological problems seen by pharmacists and the management of these problems. Students will learn about non-infectious respiratory complaints and gastrointestinal ailments and their management. Students will learn the medicinal chemistry, pharmaceutics, biopharmaceutics and pharmacokinetics, and pharmacology, as well as the pathophysiology and pharmacotherapeutic principles pertaining to the problems and products discussed. Students will apply cumulative knowledge to a complex patient case.

PHAR 1061 Social Behaviour and Administration Pharmacy 1

CREDIT HOURS: 3

This course is the first course in a series that focus on the social, behavioral and administrative responsibilities of a pharmacist. Each course will include learning about the principles of professionalism, ethics, and leadership. In this course students will learn about the Canadian Health Care System, global health and the history of pharmacy.

PHAR 1073 Skills Lab 1

CREDIT HOURS: 3

Introduction to Pharmacy Practice is the first of 8 skills lab courses in the curriculum. Students will explore the legal, ethical and practical aspects of pharmacy practice and learn to manage a safe and effective medication distribution system. Students will learn fundamental structures and skills necessary for effective communication in pharmacy practice, including best possible medication histories and over-the-counter medication consultations. Students will learn and demonstrate proficiency in Medical Terminology.

PHAR 1074 Skills Lab 2

CREDIT HOURS: 3

Students will learn the fundamentals of the Pharmacist's Patient Care Process and further develop communication strategies and structures to effectively assess and communicate with patients. Students will have the opportunity to apply therapeutic content learning in PBL to various consultations including new prescription consultations. Students will be introduced to basic concepts of patient assessment, physical assessment and clinical documentation. Students will assess, identify and manage common drug-related problems in patient encounters related to OTC consultations, prescription therapy and drug interactions.

PHAR 1083 Introduction to Pharmacy Practice Experience: Community

CREDIT HOURS: 4

This four-week (40 hours per week) introductory rotation provides pharmacy students with an opportunity to contribute to patient care in a community pharmacy setting. Pharmacy students will build upon the knowledge, skills and abilities they have developed during the first year of the Doctor of Pharmacy program. Opportunity will be provided to help pharmacy students cultivate their patient care skills and begin to gain personal clinical experiences working with a variety of patients and other members of the healthcare team encountered in a community pharmacy. Students will begin to make health care decisions with the help and guidance of a pharmacist preceptor. The Pharmacist's Patient Care Process, pharmacy law and ethics, medication coverage in Canada, the operation of a community pharmacy, case presentations, drug information, quality assurance and interprofessional practice are key areas of this rotation. Students are required to travel to sites outside the Halifax area and are responsible for all associated costs.

PHAR 2071 Pharmacy Skills Lab IIA

CREDIT HOURS: 1.5

Skills Lab IIA expands upon the skills learned in Skills Lab IA and IB. Students are introduced to the Dalhousie College of Pharmacy Pharmacist's Patient Care Process. Patient interviewing, assessment and communication techniques are taught to support this process. Knowledge obtained in the Problem Based Learning (PBL) and Critical Appraisal Series (CAS) components of the program are applied. Students learn how to: complete drug information questions at the point of care, apply technical and clinical aspects of prescription processing, answer pharmaceutical calculations, and assess and report adverse drug reactions.

PHAR 2072 Pharmacy Skills Lab IIB

CREDIT HOURS: 1.5

Skills Lab IIB expands upon the skills learned in Skills Lab IIA. Students apply knowledge to pharmacy practice scenarios that increase in complexity. Students also learn and apply the principles of Medication Reconciliation and are introduced to pharmacist prescribing. Successful completion of a cardiopulmonary resuscitation (CPR) level HCP and standard first aid course is a requirement for a passing grade.

PHAR 3011 Critical Appraisal Series IIA

CREDIT HOURS: 1.5

This course advances and reinforces the topics learned in Critical Appraisal Series I with a focus on research methods and biostatistics seen in various trial designs. Lectures will provide the basis for being introduced to the core content of the course. Application and practice of critical appraisal skills will derive from various activities throughout the course. Students will create a clinical case and

question, learn how to critically evaluate the medical literature and write a term paper reviewing the evidence behind a clinical decision. This term paper will be completed in PHAR 3012.

PHAR 3012 Critical Appraisal Series IIB

CREDIT HOURS: 1.5

Students continue to build on the skills learned in Critical Appraisal Series I and Critical Appraisal Series IIA, with additional research methods topics introduced. Application of the tenets of evidence-based clinical practice is the focus. Through a journal club setting, students will evaluate the strengths and weaknesses seen in the literature as they relate to a clinical situation. Students are expected to apply these skills in their problem-based learning (PBL) and skills lab courses.

Halifax NS
B3H 4R2

Phone Number: (902) 494-3760

Fax Number: (902) 494-6709

Email Address: social.work@dal.ca

Website: www.socialwork.dal.ca

Introduction

The School of Social Work's vision is a commitment to building a socially just society, defined as one that upholds and validates the values of equality, diversity, inclusiveness, democracy and concern for human welfare. We manifest and advance curricula, scholarship and school culture that are congruent with those values.

The BSW degree program is accredited by the Canadian Association for Social Work Education. It embraces a critical and anti-oppressive approach to social work practice that includes an emphasis on social policy, research skills and critical analysis, professional values, theoretical perspectives and practice methods. While the program has evolved within the context of the people, communities and service network of the Maritime Provinces, graduates are qualified to practice social work throughout Canada and beyond.

BSW Delivery Options

The BSW is a 120 credit hour degree program and is offered on campus and by distance delivery online. Both delivery methods include a 700 hour community based field placement experience. The application deadline is February 15th of each year.

Continuing Education

The School offers a Continuing Education Program (non-credit) of thematic workshops.

Nova Scotia College of Social Workers

Provincial legislation requires that only persons who are licensed with the Nova Scotia College of Social Workers (NSCSW) can practice as social workers within Nova Scotia. To become fully licensed and use the title of Social Worker after award of the BSW degree, at least 3,858 hours of paid supervised social work experience is necessary. For more information please contact NSCSW at <http://nscsw.org/>

Agency Field Instructors

Many individuals throughout the municipality, province, and country contribute to the education of Social Work students through offering and supervising student placements. They represent a wide range of agencies and

organizations including: community based, non-profit, government, physical/mental health and addiction prevention and treatment services. Their invaluable assistance is gratefully acknowledged and appreciated.

Admissions

Information on academic preparation, admission and application procedures is contained in the Admission Requirements section of the calendar. Enrolment is limited to a specified number of places that are offered once a year to the best qualified candidates, selected by the School's Admissions Committee. Equal consideration is given to part-time and full-time applications.

Prior Criminal Conviction

BSW applicants should be aware that a prior criminal conviction may render them unable to obtain a license in their field of study upon graduation, or unable to participate in some clinical field work experiences throughout their course of study.

Affirmative Action

The School of Social Work has an affirmative action policy for applicants who are Acadian, Aboriginal, African Canadian, members of other racially visible groups, and persons with (dis)Abilities and for Lesbian, Gay, Bisexual, Transgender, Two-Spirit, Queer and Intersex (LGBTQQI) people. The school is committed to admitting and graduating the highest possible number of students who qualify under this policy. Members of these groups who have five (30 credit hours) general (non social work) university credits that average B- are encouraged to apply under this policy. Applicants make their request in a place provided on the Social Work Statement cover sheet, which is part of the BSW application package. Each candidate is considered individually on the basis of her/his qualifications, rather than in relation to other applicants. The admissions prerequisites and selection criteria are otherwise the same for all candidates.

Regulations

All Bachelor of Social Work students are required to observe the [University Regulations](#) and [Academic Regulations](#) of Dalhousie University and the Faculty of Health set forth in the annual Undergraduate Calendar.

Grade Point Average Requirements

Faculty of Health's academic regulations applies to the BSW degree requirements. Students require a cumulative GPA of 2.0 to graduate. In addition, the School's grade requirements specified in Items 2 and 3 below apply to components of the Social Work curriculum.

Grade Requirements for Social Work Courses

The minimum requirements for satisfactory completion of a Social Work course is C-. In the case of a core course, a student who earns a grade of less than C-, but is otherwise still eligible to continue in the program, must repeat the course until a grade of C- is attained. In the case of an elective, a student who earns a grade of less than a C-, but is otherwise still eligible to continue in the program, must repeat the same elective or if not offered during the student's course of study, a different elective until a grade of at least C- is attained. Social Work courses are all courses taken under BSW study other than those designated as general admission credits.

Required Withdrawal: Academic Dismissal

A student who fails to meet sessional GPA standards as defined in the Academic Regulations - Faculty of Health must withdraw from the School for at least 12 months. (Please refer to Academic Regulations - Good Standing, Probation and Academic Dismissal, Dalhousie Undergraduate Calendar).

- A student who fails a repeated academic course must normally withdraw from the BSW Program.

Required Withdrawal on Grounds of Unsuitability

See University Regulations: Suspension or Dismissal from a Program on the Grounds of Professional Unsuitability - Faculty of Health.

Consideration of Readmission

Students are normally required to complete their undergraduate studies within ten years of their first registration and comply with the program requirements at the time of first registration. If a student is readmitted and cannot complete the program within 10 years they may be required to comply with the new program requirements.

A. Request for Readmission After Dismissal

Students who have been required to withdraw from the School of Social Work on the basis of academic dismissal may apply for readmission by the annual February 15 admissions deadline date that follows a minimum of 12 month's absence from the School. Due to the competitive nature of the enrolment process, readmission of students is not guaranteed.

B. Request for Readmission After Voluntary Withdrawal

Students in good standing who have not registered in the program for 36 months or less and who wish to be reinstated are required to submit a new application form to be returned with a letter to the Undergraduate Program Coordinator requesting re-admission to resume their BSW degree studies. Students in good standing who have not registered in the program for 37 months or more and who wish to be reinstated are required to reapply by the February 15 admission deadline date. The application and all supporting documentation must be accompanied by a letter explaining the reasons for the interruption in the student's studies and the decision to request readmission to the BSW degree program.

Appeals

A student wishing to appeal a decision based on School regulations, should consult with the Chair of the Committee on Undergraduate Studies for advice on appeal procedures.

Duration of Undergraduate Study

Students are normally required to complete the BSW degree within 10 years of their first registration (see Academic Regulation—[Duration of Undergraduate Studies](#)).

Workload Regular Academic Year

30 credit hours per academic year shall be regarded as constituting a normal workload for a full-time student. Permission of the Undergraduate Program Coordinator is required if this workload is to be exceeded, or if the planned workload in any one term (Fall or Winter) would amount to more than 15 credit hours per term.

On-campus, part-time students may register for a minimum of one .03 credit (three credit hours) per term. Part-time status applies to students registered for no more than a total of 2.5 credits (15 credit hours) in the Fall and/or Winter terms. All new students are required to register in the first Fall term following their acceptance in order to maintain their place in the program.

Workload Summer Session (includes May-June and July-August)

Dalhousie regulations permit students to take six credit hours in each of the May-June and July-August parts of Summer term. Social Work students may, following consultation with the Field Coordinator, register for the Field Practicum and Seminar course during this session.

The School usually offers one .03 credit Social work course in the May/June period for BSW campus students, provided that minimum enrollment requirements are met. Students in distance delivery take elective and core courses in the summer sessions. Consult the timetable for current course offerings.

Permission of the Undergraduate Program coordinator is required to exceed the two-credit limit for the two summer terms.

Students in Other Degree Programs (applicable for on-campus students only)

Students enrolled in degree programs at Dalhousie may, in conformance with their program regulations, choose their degree electives from Social Work Field of Practice electives. Permission from the instructor is required; course prerequisites and class size limitations apply. Students are able to enroll in Social Work electives only to the maximum credit value allowable for open electives by their degree requirements. Any additional Social Work courses would be considered on the same basis as “No Degree.”

Special Students “Non-Degree” (applicable for on-campus students only)

Social Work courses are not available to persons on a “no degree” basis, with the exception of agency field instructors and other qualified Social Work professionals who are able to satisfy normal admission requirements. Permission of the Undergraduate Coordinator is also required.

Students enrolled in other Social Work degree programs may be permitted to enroll in specific courses, by application for admission as a visiting student with letter(s) of permission from the home university. Course prerequisites and size limitations apply. Further information may be obtained from the Student Services Coordinator.

Deferral Policy

Newly accepted applicants who, for reasons beyond their control, are unable to take up their position on the date from which they were accepted, may request a deferral of one year. No student may receive more than one deferral. Foundational courses begin in September, therefore the deferral would be from September to the following September.

Requests for a deferral of admission should be sent in writing to the Undergraduate Coordinator of the School of Social Work by August 15th for the year in which they were offered admission. When submitting a request for deferral, please clearly state the reason for the deferral and, where relevant or appropriate, provide additional documentation to support the request (for example, medical certificates). All deferrals are subject to the approval of the Undergraduate Program Coordinator.

Audit by Agency Field Instructors

The School of Social Work permits Agency Field Instructors to audit Social Work courses. Prior permission of the instructor concerned is required. In order for the audit to show on a University transcript, the agency field instructor must abide by the audit and fee regulations as outlined in Academic Regulation—[Audit of Courses](#).

Tuition Fees

Detailed information concerning tuition and fees is available in Money Matters at <https://dal.ca/moneymatters>.

BSW Degree Program

Program Objectives

Upon successful completion of the BSW program, students will:

1. Have an understanding of equity and justice through critical analysis.
2. Develop intellectual skills, scholarly attributes, and professional characteristics and values, including but not limited to, curiosity, open-mindedness, effective communications, judgment, rigor, respect, humility, embracing of difference, acceptance, integrity, compassion, self-care and ethical action.

3. Develop insight into the complex, contextual, and sometimes contradictory nature of social work theory, practice, policy, ethics and research.
4. Develop practice theory and skills “required to analyze situations, establish accountable relationships, intervene appropriately with clients and related systems and evaluate one’s social work interventions” (CASWE, 2007) This includes an understanding of a range of life events and processes that may impact peoples’ development, personalities and potentials.
5. Develop a critical understanding of the personal and professional “use of self.”

Program Requirements

Program Requirements

The BSW degree is comprised of 120 credit hours

30 credit hours:

These are the basic academic pre-requisite for all applicants to the program.

These are called **Admission Credits**.

60 credit hours:

These are the credits that all students are required to complete within the Dalhousie University BSW Program.

These are called **Social Work Credits**.

30 credit hours:

These are **General Social Sciences Credits** taken outside the BSW program:

1. Some students have more than the 30 Admission Credits at a B- minimum average **before** beginning the BSW program. These General Social Sciences Credits are assessed for eligibility at the time of acceptance to the program from the last 60 credit hours completed. These are called *Admission Transfer Credits*. They may have been completed at Dalhousie or another university. Please see the Admission Transfer Credit Policy below for requirements.
2. Some students undertake the additional 30 General Social Sciences Credits **during** the BSW degree. These are not admission transfer credits. These may be taken at Dalhousie or another university and must be assessed as at or above the 2000 level by Dalhousie University. Please review the academic regulations regarding Letter of Permission in the Academic Calendar.

* Electives external to the School of Social Work or the Faculty of Health taken during the SW program must be assessed at the Dalhousie equivalency of 2000 level or above.

* For electives external to Dalhousie University taken during the SW program please review the academic regulations regarding Letter of Permission in the Academic Calendar.

* For electives external to Dalhousie University taken before admission to the Dalhousie SW program please see the Admission Transfer Credit Policy below.

Admission Transfer Credit Policy

Suitable university credits that have been completed with a minimum grade of 2.7 (or B-) are eligible for transfer credit consideration. Community College credits, diploma and certificate work are not eligible for consideration. The following guides the assignment of transfer credit:

1. Applicants who are admitted with the minimum academic requirement of 30 credit hours are not eligible to receive Admission Transfer Credits.
2. For those who have more than the minimum noted in #1, a maximum of 30 General Social Sciences credit hours that are complete at the time of application may be eligible for Admission Transfer Credit consideration.

3. Potential Admission Transfer Credits are assessed for accepted students and only on the last 60 credit hours completed.
4. Those 60 credit hours must have been completed within 15 years of the BSW program start date.
5. Regardless of transfer credit eligibility, all students must complete at least 60 credit hours offered by the Dalhousie SSW to complete the BSW degree.
6. The only exception to the above is students transferring from other BSW university programs. These students will be governed under the Faculty of Health Policy regarding transfer students. To obtain a BSW degree from Dalhousie, at least half the credits must be taken at Dalhousie University. Transfer credit is assigned as fairly and appropriately as possible, although some loss of credit usually occurs

Admission Transfer Credit assessment is completed after the admission process, and only for successful applicants. Admission Transfer Credit is assessed on an individual basis at the School of Social Work.

Required Courses

- SLWK 2010.03: Introduction to Community Social Work
- SLWK 2111.06: Development of Canadian Social Work and Social Welfare
- SLWK 2222.03: Advancing Social Justice
- SLWK 2333.06: Beginning Social Work Practice or SLWK 2334.03/SLWK 2335.03
- SLWK 2444.03: Life Processes: Conceptualizations and Practices for Critical Social Work
- SLWK 3030.06: Theoretical Foundations of Social Work Practice
- SLWK 3012.03: Perspectives on Social Welfare Policy
- SLWK 3085.06: Social Work Research
- SLWK 3220.03: Cross-Cultural Issues in Social Work Practice
- SLWK 4010.06: Advanced Social Work Practice
- SLWK 4033.09: Field Practicum and Seminar (SLWK 4034/SLWK 4035)
- Social Work Elective
- Social Work Elective

For distance students the Beginning Social Work Practice course has two course numbers and students must register for both SLWK 2334 and SLWK 2335. The course is a combination of online study in the winter term and a two week on-campus (Dalhousie, Halifax, NS) residency component in the spring session, normally in May.

Interprofessional Health Education

Students are required to maintain enrolment in IPHE 4900 (see calendar section on Health Professions, Interprofessional Health Education) for the duration of their studies. **Please register in IPHE 4900.00 (section 6)** which is a shell course comprised of four interprofessional learning experiences across the BSW degree. Successful completion of this course is a requirement for

Course Load and Sequencing

Length of Program

Course load varies from student to student depending on the number of Admission Transfer Credits and full or part-time status. Each student receives a personalized curricular advising form which details course load and sequencing. The minimum length of program is two years taken fulltime.

On-Campus Delivery

- For full-time students the usual load is 15 credit hours (e.g. five .03 credit courses) in the Fall and Winter terms.
- For part-time study the course load may be as minimal as one .03 credit course per term.

- The only Social Work courses offered in the Spring semester consist of one Social Work elective and Field Practicum and Seminar.
- It is important to pay close attention to the pre or co-requisites for each course. These are indicated in the course descriptions.

Distance Delivery

Distance Students are strongly encouraged to maintain their course sequencing schedule. Any changes must be in accordance with pre- and co-requisites as outlined in the calendar and are dependent upon availability of course offerings, especially electives. Students studying by distance are assessed distance delivery fees in addition to tuition.

Registration

Registration is completed online for all students regardless of delivery method. For more information, go to <http://www.dal.ca/registration> and <http://www.dal.ca/online>.

The academic timetable is available online each year. On-campus Social Work courses have section numbers of 01 or 02. Online Distance Social Work courses have section numbers of 07 or 08.

IMPORTANT: Please note that it is not possible to transfer between onsite and the online delivery or to register for courses other than those which apply to the delivery method for which the student has been accepted.

Field Education

The Field Practicum and Seminar course consists of a 700 hour placement at a community agency **plus** participation in a concurrent integrated seminar. For a full explanation of the placement process, roles and responsibilities please download the Field Manual at <http://socialwork.dal.ca/Prospective Students/>

Field Placements are organized by the Field Education Coordinator at the School of Social Work.

Advising Sessions for New Students

New on campus students are expected to attend Orientation which is scheduled prior to the commencement of courses. Students can meet individually with the Student Services Coordinator to review the curriculum advising forms and ask questions pertaining to the BSW program. Distance students are provided with an online orientation and information site and should contact the Distance Education Assistant or the Manager, e-Learning regarding their program schedule and questions.

A comprehensive Field Orientation is also offered later in the 1st year for all campus BSW students and during residency for distance BSW students.

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are typically available to students in the second, third, and fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not obtain credit for both courses as designated.

Not all courses are offered each year. Please consult the current [timetable](#) for this year's offering. For further information please contact the department, or visit the department's website.

Course Notes

The following courses are restricted to Social Work students.

SLWK 2010.03: Introduction to Community Social Work.

SLWK 2111X/Y.06: Development of Canadian Social Work and Social Welfare.

SLWK 2222.03: Advancing Social Justice.

SLWK 2333X/Y.06 (SLWK 2334/SLWK 2335): Beginning Social Work Practice.

SLWK 2444.03: Life Processes: Conceptualizations and practices for Critical Social Work.

SLWK 3012.03: Perspectives on Social Welfare Policy.

SLWK 3030.06: Theoretical Foundations of Social Work Practice.

SLWK 3085.06 (**SLWK 3086/SLWK 3087**): **Social Work Research**

SLWK 3220.03: Cross-Cultural Issues and Social Work Practice.

SLWK 4010.06: Advanced Social Work Practice.

SLWK 4033.09 (SLWK 4034/SLWK 4035): Field Practicum and Seminar.

Electives

In keeping with the overall program goals of the BSW program of SSW, all elective courses are designed to help students develop a critical analysis of the major themes and current issues related to the course topic. In addition, all electives explore the differential impact of social constructs such as race, gender, class, age, sexual orientation, and ability on the particular issue or practice field.

There are no pre or co-requisites for Social Work Field of Practice Electives. The format is generally a combination of lecture, discussions and small group activities. Participation of non-social work students is dependent upon approval of their home School/Department, course enrollment and the permission of the instructor. Not all electives are offered every year; check the timetable for each year's offerings.

Possible Elective Offerings

- SLWK 3110.03: Africentric Perspectives in Social Work
- SLWK 3120.03: International Social Work
- SLWK 3130.03: Gender Based Violence
- SLWK 3135.03: Social Work and Mental Health
- SLWK 3140.03: Crisis Counseling
- SLWK 3145.03: Trauma Informed Practice in Social Work
- SLWK 3150.03: Poverty and Inequality
- SLWK 3160.03: Social Work with Aboriginal Populations
- SLWK 3200.03: Law and Social Work
- SLWK 3245.03: Queer-Centred Social Work Practice
- SLWK 3250.03: Social Work in Corrections
- SLWK 3270.03: Social Work in Addictions
- SLWK 3290.03: Advanced Counseling in Social Work Practice
- SLWK 3320.03: Social Work and Aging

- SLWK 3330.03: Independent Study
- SLWK 3350.03: Social Work with Groups
- SLWK 3360.03: Social Work and Adolescents
- SLWK 3370.03: Child Welfare
- SLWK 4380.03: Disability Policy and Service

Course Descriptions

SLWK 2010 Introduction to Community Social Work

CREDIT HOURS: 3

Community Development within social work is the facilitation of meaningful change within communities to improve the quality of life for members of those communities. This course considers various conceptions of community, elements of change processes, and specific change strategies.

LAB HOURS PER WEEK:

SLWK 2112 Development of Canadian Social Work & Social Welfare

CREDIT HOURS: 3

This introductory survey course offers a critical examination of the early development of Canadian social work from 1800s-2000s. Secularization and professionalization provide a focus with which to examine early welfare principles, policies, and practices spanning early Indigenous-European relations in the North American colonies through to the emergence of capitalism and industrialization, immigration and urbanization.

CALENDAR NOTES: Students taking this course must register in SLWK 2113 (the second half of the course) in the winter term. Credit will not be granted if courses are not completed consecutively.

LAB HOURS PER WEEK:

SLWK 2113 Development of Canadian Social Work & Social Welfare

CREDIT HOURS: 3

This introductory course reviews contemporary social work politics and discourses from the early 2000s onward through an examination of welfare issues, policies, and specific populations. Topics are explored relative to the histories of professional ethics and regulation in social work. Evolving trends in social work from social media to evidence based practice are also explored.

CALENDAR NOTES: This course is continued from SLWK 2112.03. Credit will not be granted if courses are not completed consecutively.

SLWK 3032 Theoretical Perspectives and Practice in Social Work - Part 1

CREDIT HOURS: 3

This is the first of two consecutive core courses on theoretical concepts, perspectives, and practice. This course introduces the conceptual building blocks of theory, exploring purpose and application in social work. Using ideological and political lenses to understand theory making and implementation, the aim is to demystify the theory/practice relationship.

CALENDAR NOTES: Students taking this course must register in SLWK 3033.03 (the second half of the course) in the winter term. Credit will not be granted if courses are not completed consecutively.

SLWK 3145 Trauma Informed Practice in Social Work

CREDIT HOURS: 3

This is an introductory course on trauma informed practice in social work which focuses on understanding trauma, coping with trauma, trauma informed care and practice in generalist and community based social work settings. The course will explore how trauma impacts people and communities on personal, interpersonal and societal levels across generations with an emphasis on children/youth, Indigenous peoples, women and other marginalized populations. It will examine the interconnections of social work values with trauma informed practice and explore ways for social work to avoid retraumatizing and revictimizing those we work with. This course will also explore the knowledge and skills needed to help mitigate the impact of working in trauma exposed social work environments. The first class will discuss how course material can be difficult and the importance of addressing trauma as a central aspect of social work practice.

SLWK 4036 Field Practicum and Seminar

CREDIT HOURS: 9

This course includes a 700 hour agency based practice placement, integrated seminars and the opportunity to develop a broad range of practice knowledge and skills sufficient to meet the requirements of an entry level professional position. The field practicum is done at the end of a student's program. Students are responsible to stay in touch with the Field Coordinator during the coordination process and comply with various requirements of placement sites (for example: immunizations, CRC, Child Abuse Registry). Some sites may require separate disability insurance in lieu of eligibility for Worker Compensation Coverage. Such costs are the responsibility of the student.

Introduction

The Faculty of Management includes four schools - Rowe School of Business, School of Information Management, School of Public Administration, and School for Resource and Environmental Studies. The Faculty has two undergraduate program options. The Commerce degree (BComm Co-op) has a mandatory co-operative education format, whereas the Management degree (BMgmt) has an optional internship. The Rowe School of Business houses the BComm (Co-op) where BMgmt is offered jointly by all four schools.

Students wishing to enrol in programs offered by the Faculty should address themselves directly to the Schools concerned for further information or for help in planning courses of study; for the Undergraduate Programs, contact the Undergraduate Academic Advising Office by calling +1 (902) 494-3710, or by emailing uao@dal.ca.

Introduction

The Rowe School of Business provides quality programs at both the undergraduate and master's levels that prepare students to contribute to and take leading positions in business and society. Graduates of the programs are competitive in the global, diverse and continually changing workplace. Teaching, scholarship and service link theory and practice to benefit students, the University and the business community in Canada and abroad.

Specific objectives are to:

- Attract, retain and educate students of high calibre from Nova Scotia, elsewhere in Canada and internationally.
- Develop students' knowledge of key concepts and issues in business operations, as well as in-depth knowledge within specialized business disciplines.

- Develop students' analytical and decision-making skills through a mix of theoretical and applied approaches including lectures, discussion groups, individual research projects, team projects and casework, as well as comprehensive field projects.
- Enhance students' team and communication skills, which are needed to succeed in careers and management.
- Develop knowledge through research and association with the academic and professional communities.
- Maintain strong ties with both the private and public sectors.

The Bachelor of Commerce Co-op program provides opportunities for students to pursue studies in topic areas such as the humanities and social sciences as well as in the functional areas of business. It is offered on a co-operative education (work/study) basis.

Bachelor of Commerce (Co-op) Program

The Rowe School of Business offers a four-year, Bachelor of Commerce (Co-operative Education) Program that is accredited by both the Association to Advance Collegiate Schools of Business (AACSB) and Co-operative Education and Work Integrated Learning Canada (CEWIL Canada). It is one of the few mandatory co-op business degree programs in Canada. Co-operative education is an academic strategy that integrates on-campus study with off-campus work experience. The schedule for the Bachelor of Commerce (Co-op) Program includes seven academic terms (AT) and three work terms (WT), as follows:

	Fall	Winter	Summer
Year 1	AT1	AT2	OFF
Year 2	AT3	WT1	AT4
Year 3	WT2	AT5	WT3
Year 4	AT6	AT7	

The co-op program in Commerce offers students the opportunity to choose a major in a variety of special areas, and/or a minor in an area outside of the Faculty of Management should they wish to do so. The Commerce (Co-op) program does not currently offer double majors.

The three work-terms each receive academic credit, and constitute a full work load (see the Regulations section of this calendar for “overload” limits and conditions).

Degree Requirements

- Four-year program - seven academic terms and three work-terms
- Total credit hours required - 120
- Required GPA for graduation 2.00

- COMM 1711.015: Personal and Professional Development I
- COMM 1712.015: Personal and Professional Development I
- Work-terms - 9 credit hours
- COMM 1010.03: Business in a Global Context
- COMM 1101.03: Introduction to Accounting I (Financial)
- COMM 1102.03: Introduction to Accounting II (Managerial)
- COMM 1503.03: Introduction to Quantitative Decision Making
- COMM 1715.03: Business Communication
- COMM 2202.03: Finance I
- COMM 2203.03: Finance II
- COMM 2303.03: Introduction to Organizational Behaviour
- COMM 2310.03: Business Ethics and Corporate Social Responsibility (CSR)
- COMM 2401.03: Introduction to Marketing
- COMM 2504.03: Intermediate Quantitative Decision Making
- COMM 2603.03: Legal Aspects of Business
- COMM 3500.03: Advanced Quantitative Decision Making
- COMM 3501.03: Production/Operations Management
- COMM 3511.03: Management Information Systems
- COMM 4353.03: Strategic Management
- ECON 1101.03: Principles of Microeconomics
- ECON 1102.03: Principles of Macroeconomics
- Six Electives (18 credit hours) can be at or above the 1000 level in any discipline
- Two Electives (6 credit hours) **MUST** be at or above the 2000 level in any discipline
- Ten Electives (30 credit hours) can be either Commerce or Management at or above the 2000 level

NOTE: Students readmitted to the Commerce Co-op program will be subject to the Academic Regulations as stated in the Calendar for the year of readmission. For further information, contact the Rowe School of Business, Undergraduate Advising Office, 6100 University Avenue, Suite 2086. Phone +1 (902) 494-3710 or Email: uao@dal.ca

Program Guide

Students normally follow a fixed program of study, as outlined below:

Academic Term One

- COMM 1010.03: Business in a Global Context
- COMM 1101.03: Introduction to Accounting I (Financial)
- COMM 1503.03: Introduction to Quantitative Decision Making
- COMM 1711.015: Personal and Professional Development I
- ECON 1101.03: Principles of Microeconomics
- One elective

Academic Term Two

- COMM 1102.03: Introduction to Accounting II (Managerial)
- COMM 1712.015: Personal and Professional Development II
- COMM 1715.03: Business Communication (or one elective)
- ECON 1102.03: Principles of Macroeconomics
- Two electives

Academic Term Three

- One elective (or COMM 1715.03: Business Communication)
- COMM 2202.03: Finance I
- COMM 2401.03: Introduction to Marketing
- COMM 2504.03: Intermediate Quantitative Decision Making
- COMM 2603.03: Legal Aspects of Business

Work Term I - COMM 2801.03 and

- One elective (note: this elective can be moved to any work term or academic term in 3rd or 4th year, email uao@dal.ca for details)

Academic Term Four

- COMM 2203.03: Finance II
- COMM 2303.03: Introduction to Organizational Behaviour
- COMM 2310.03: Business Ethics and Corporate Social Responsibility (CSR)
- COMM 3500.03: Advanced Quantitative Decision Making
- COMM 3511.03: Management Information Systems

Work Term II - COMM 3801.03

Academic Term Five

- COMM 3501.03: Productions/Operations Management
- Four electives

Work Term III - COMM 3802.03

Academic Terms Six and Seven

- COMM 4353.03: Strategic Management
- Nine electives

Students can either pursue a customized program of study by choosing electives from a wide range of the functional areas of business, humanities, or social sciences, or they can follow a more specialized program taking their elective courses towards a major and/or a minor. Students interested in majoring should consult the [School's website](#) and their [Academic Advisor](#) for further details before registering for their fifth academic term.

Major in Accounting

Note: An average grade of B- must be obtained between COMM 1101.03 and COMM 1102.03 to major in Accounting.

Students **must** complete the following eight courses:

- COMM 3105.03: Intermediate Financial Accounting I
- COMM 3111.03: Intermediate Financial Accounting II

- COMM 3114.03: External Auditing
- COMM 3116.03: Cost Management
- COMM 4101.03: Advanced Topics in Accounting I
- COMM 4102.03: Advanced Topics in Accounting II
- COMM 4125.03: Taxation
- COMM 4126.03: Taxation II

CPA Canada requires certain academic prerequisites for admission to the CPA certification program. That is, CPA candidates must complete an undergraduate degree and cover specific prerequisite subject areas. Appropriate courses can be taken in the Rowe School of Business, as part of the Accounting Major structure, to meet these requirements. Particulars can be obtained from the Chartered Professional Accountants Canada website <http://cpacanada.ca>

Major in Entrepreneurship

Students **must** complete the following four courses:

- COMM 3307.03: New Venture Creation
- COMM 3308.03: Managing the Family Enterprise or MGMT 3902.03: Starting Lean
- COMM 4301.03: Managing the Venturing Process
- COMM 4523.03: Project Management

Plus four of:

- COMM 3309.03: Management Skills Development
- COMM 3401.03: Consumer Behaviour
- COMM 3402.03: Marketing Communications
- COMM 3404.03: Marketing Research
- COMM 3405.03: Global Marketing
- COMM 3408.03: Transportation Modes and Policy
- COMM 3409.03: Personal Selling and Sales Management
- COMM 3410.03: Services Marketing
- COMM 4701.03: International Business Strategy
- MGMT 3902.03: Starting Lean OR COMM 3308.03: Managing the Family Enterprise

Note: At least one Work Term must either be in an approved "Entrepreneurial Setting "; OR an "Entrepreneurial Work Term " as defined by the Norman Newman Centre for Entrepreneurship and Management Career Services.

Major in Finance

Note: An average grade of B- must be obtained between COMM 2202.03 and COMM 2203.03 to major in Finance.

Students **must** complete the following three courses:

- COMM 3203.03: Financial Institutions
- COMM 3206.03: Investment and Money Management
- COMM 4240.03: Advanced Corporate Finance

Plus five of:

- COMM 2220.03: Introduction to FinTech
- COMM 3207.03: Canadian Securities
- COMM 4201.03: International Financial Management
- COMM 4202.03: Derivatives

- COMM 4250.03: Theory of Finance
- COMM 3102.03: Financial Statement Analysis*
- COMM 3105.03: Intermediate Financial Accounting I*
- COMM 4340.03: Corporate Governance*
- ECON 2200.03: Intermediate Microeconomics*
- ECON 2201.03: Intermediate Macroeconomics*

* Maximum two electives from NON-Finance courses

Major in International Business

Students **must** complete:

- Language Requirement; six credit hours from the same subject at a level appropriate to knowledge, as determined by department concerned (i.e. FREN 1007.03 and FREN 1008.03)

Plus four of:

- COMM 3405.03: Global Marketing
- COMM 4201.03: International Financial Management
- COMM 4315.03: International and Intercultural Management
- COMM 4701.03: International Business Strategy
- COMM 4705.03: Contemporary Issues in Global Business

Plus two of:

- ECON 2213.03: Emerging Giants: The Economic Rise of China and India
- ECON 2219.03: Euros and Cents: From Common Market to European Union
- ECON 2334.03: Globalization and Economic Development: Current Debates
- POLI 1065.03: Political Worlds: The Global Domain
- POLI 1500.06: Globalization
- POLI 3233.03: Canada in the Global Economy
- POLI 3390.03: Politics of Consumption
- POLI 3569.03: Canadian Foreign Policy

Students must also complete one academic term or one work term in a country other than their primary residence.

Major in Managing People and Organizations

Students **must** complete the following four courses:

- COMM 3303.03: Introduction to Human Resource Management
- COMM 3309.03: Management Skills Development
- COMM 3310.03: Reflections on Leadership
- COMM 4306.03: Organizational Change, Theory and Design

Plus four of:

- COMM 3304.03: Labour Management Relations
- COMM 4315.03: International and Intercultural Management
- COMM 4510.03: Corporate Communication
- COMM 4523.03: Project Management
- COMM 3405.03: Global Marketing
- COMM 3407.03: Logistics Management

- COMM 4201.03: International Financial Management
- COMM 4501.03: Business Analytics for Decision Making
- COMM 4701.03: International Business Strategy
- MGMT 3802.03: Public Policy
- MGMT 3810.03: Government Policy Towards Business

Major in Marketing

Students **must** complete the following four courses:

- COMM 3401.03: Consumer Behaviour
- COMM 3402.03: Marketing Communications
- COMM 3404.03: Marketing Research
- COMM 4401.03: Marketing Strategy

Plus four of:

- COMM 3405.03: Global Marketing
- COMM 3407.03: Logistics & Supply Chain Management
- COMM 3408.03: Transportation Modes and Policy
- COMM 3409.03: Personal Selling and Sales Management
- COMM 3410.03: Services Marketing
- MGMT 2402.03: Marketing Applications in the Not-For-Profit Sectors

Major in Supply Chain & Logistics Management

Students **must** complete the following four courses:

- COMM 3407.03: Logistics & Supply Chain Management
- COMM 4501.03: Business Analytics for Decision Making
- COMM 4511.03: Business Process Integration using ERP Systems
- COMM 4520.03: Supply Chain Planning & Execution

Plus four of:

- COMM 3405.03: Global Marketing
- COMM 3408.03: Transportation Modes and Policy
- COMM 3409.03: Personal Selling and Sales Management
- COMM 3410.03: Services Marketing
- COMM 4512.03: Business Intelligence and Data Visualization
- ECON 2805.03: Science and Economics of Climate Change
- ECON 3330.03: International Trade
- ECON 3335.03: Environmental Economics

Minors

Bachelor of Commerce (Co-op) students can choose to complement their degree by declaring a minor in another subject area outside of the Faculty of Management. Students should consult with their program Academic Advisor concerning their degree requirements, and an Advisor from within their desired subject area for the minor requirements. For a current list of available minors please see [Minors](#).

Co-op Work Terms

(For more information visit: www.dal.ca/mcs)

A work term is a period of time when a student gains practical experience in a business-related work environment. Each passed work term is an academic half credit and must meet the requirements listed below. Three passed work terms are required to graduate.

During a work term a student is considered an employee of their work term employer with reference to the conditions of their employment, and is a student with respect to academic evaluation only. The university does not accept liability for the student's work environment.

Students are remunerated according to employer policy and the labour laws of the jurisdiction in which they work.

Members of the Management Career Services team conduct mid-term reviews with both the employers and students to ensure the work term objectives are being met.

Work Term Requirements

Students receive academic credit upon completion of the following for each work term:

1. Students must register for each work term (COMM 2801, COMM 3801 and COMM 3802) via Dal Online.
2. Students must complete all mandatory requirements for co-op orientation.
3. Each work term must be completed within the designated semester with one employer. A work term must total no less than 12 weeks, and must be a minimum of 35 hours per week.
4. All jobs, including self-developed jobs, must be approved by Management Career Services (MCS).
5. Students are responsible for finding suitable employment. Students complete a Co-op Education Program Agreement prior to the first work term accepting this responsibility. Support for the job search is provided by MCS, and job opportunities are posted on the *myCareer* job posting system.
6. Employers commit to completing and submitting a final evaluation detailing the student's performance level which must be assessed as satisfactory to receive academic credit.
7. For each work term, students must submit a satisfactory work term report to the assigned faculty member in the Rowe School of Business.

Academic Eligibility for Work Terms

Only students who meet the prerequisites (see **Section II: Courses Offered** of this calendar) are eligible to participate in a work term. Students who fail a required core course or a work term twice, and/or whose grades drop below a 1.70 GPA overall will be **dismissed** from the University. Refer to the university regulations regarding academic [probation](#) and [dismissal](#) for more information.

Co-op/Career Services Fee

Students are charged a Co-operative Education/Career Services Fee (pro-rated for part-time students). In an effort to balance the cost, the fees are charged on each academic term until completion of the degree, which includes academic semesters outside of the regular program structure after all work terms have been successfully completed. While no fee is charged for the actual work term, any student taking an academic course during the work term will be charged an additional pro-rated fee.

These fees are non-refundable after the deadline dates listed in the University Calendar. Students who transfer into the program from another department, or another institution, are responsible for back payments.

Students completing an academic term (three or more half credit courses) outside of Dalhousie on a Letter of Permission are also responsible for the payment of co-op fees. Before the Letter of Permission can be granted, students must sign a co-op fee agreement, available from the Undergraduate Advising Office.

Payment of all fees is required to obtain a Bachelor of Commerce (Co-op) Degree. Consult the Fees section of the Dalhousie University Calendar for details.

The fee supports the administration of co-op work terms as well as career services for graduating students. It covers, but is not limited to;

- Job search assistance (cover letters and resume building, interview preparation and debrief, coaching for self-developed job search strategies)
- Variety of workshops and other training
- Networking opportunities with employers (including special events, competitions, information sessions, corporate tours, mentoring, etc.)
- Online e-learning webinars
- Work term monitoring and mediation
- Work term report instruction and grading by the assigned Rowe School of Business Instructor for COMM 2801, COMM 3801, and COMM 3802
- Marketing and communications tools and activities to promote the Commerce Co-op program to employers
- Development and administration of work term and grad job opportunities
- Access to on-line job posting site (*myCareer*) and job posting administration
- Interview space and co-ordination
- Facilitation of job offers
- Tracking of eligibility and job search activity

Management Information Systems

All Faculty of Management students have access to a computer lab. All computers are based on the Intel family of processors, are fully networked, run Windows software, and the latest Windows-based applications. Students will have full access to the Internet, with a choice of printing on black-and-white or colour laser printers (direct debit with DalCard) as well as access to a full-sized color scanner (free of charge).

Exchange Programs

Dalhousie offers Bachelor of Commerce (Co-op) students the opportunity to study abroad in a variety of countries all over the world, including Denmark, France, Sweden, Norway, South Korea and China (a complete list of partnerships can be found [here](#)). While participating in this program, students develop international contacts, immerse themselves in a different culture, and gain valuable international experience. For more information, please contact our Student Exchange Coordinator by emailing rsbstudent.exchange@Dal.Ca, or by calling (902) 494-3710.

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are typically available to students in the second, third, and fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not obtain credit for both courses as designated.

Not all courses are offered each year. Please consult the current [timetable](#) for this year's offering. For further information please contact the department, or visit the department's website.

Course Descriptions

COMM 1010 Business in a Global Context

CREDIT HOURS: 3

This course provides an introduction to the national and international context of Canadian political, economic and business activity. It presents a sampling of the most relevant issues facing managers in business, labour and public sector organizations. Emphasis is placed on developing an understanding of Canada's competitive position today, and of the historical background and current influences on this position. The focus of the course will be on lectures, the text, guest speakers, and more specifically what is said in class by your instructor as well as in tutorials by your tutorial leader and your colleagues. Leading edge ideas and concepts - many of which are not confined exclusively to any one particular text or article - will be introduced by your instructor during the lectures, and may be reinforced through hand-outs from time to time.

CALENDAR NOTES: Students in BComm Program can not receive credit for Mgmt 1000.03 or Mgmt 1001.03

COREQUISITES:

PREREQUISITES:

FORMATS: Lecture

LAB HOURS PER WEEK:

COMM 1101 Introductory Accounting I (Financial)

CREDIT HOURS: 3

An introduction to the principles and practices used by accountants in processing and communicating data, both within and outside the organization. Emphasis is on financial accounting and reporting used in the measurement and reporting of an organization's operating, financing and investing activities to external users. Students will develop an understanding of basic financial accounting methodologies, and develop the analytical and procedural skills related thereto; as well as understand the information content of conventional financial statements, and the inherent limitations of accounting data. The organizational context includes business and not-for-profit settings. The coverage includes an examination of the accounting process, basic issues in financial reporting, and the financial statement disclosure requirements.

CALENDAR NOTES: Students who have completed COMM 2101.03 or MGMT 1101.03 (MGMT 2101.03) cannot also receive credit for COMM 1101.03.

LAB HOURS PER WEEK:

COMM 1102 Introductory Accounting II (Managerial)

CREDIT HOURS: 3

An introduction to the use of accounting information by managers, within the organization. This course examines how accounting can provide information to assist management in their planning, decision-making and performance evaluation activities. Both qualitative and quantitative information supports this decision-making. Emphasis is on management accounting and analysis, with the following objectives: To develop an understanding of the kinds of accounting information managers need; To examine managerial accounting methodologies and develop the analytical and procedural skills related thereto; To prepare accounting reports which are useful for management planning, control and decision making; To develop an awareness of the limitations of managerial accounting information.

CALENDAR NOTES: Students who have completed COMM 2102.03, or MGMT 1102.03 (MGMT 2102.03) cannot also receive credit for COMM 1102.03.

LAB HOURS PER WEEK:

COMM 1502 Core Business Applications: Introduction to Computers

CREDIT HOURS: 3

The course focuses on how business applications, notably Spreadsheets and Data Visualization tools (e.g., SAP Analytics Cloud), contribute to the management, analysis and reporting of data with respect to business processes and how they can aid in the solving of business problems. This course begins with an overview of Management Information Systems, before proceeding through several modules that involve data-to-report transformations, along with data integration between various applications. We use spreadsheets to perform routine business calculations, and visualize the data using a cloud-based data visualization tool. Each successive module increases the complexity of the analyses and reports. As the course progresses, business simulations will be used in assignments to provide experiential and immersive learning opportunities. The course is taught with both in-class lectures and self-paced computer laboratory exercises.

CALENDAR NOTES: MGMT 1601.03, ASSC 1000 or CSCI 1200 will not be counted in the Commerce program.

LAB HOURS PER WEEK:

COMM 1503 Introduction to Quantitative Decision Making

CREDIT HOURS: 3

This course is designed to equip the first-year Bachelor of Commerce (BComm) students with knowledge and skills related to data analysis required for their later courses from other disciplines such as Finance, Marketing, Accounting, Operations, etc. Students will learn how to analyze data from real business cases with both in-class demonstrations and hands-on lab sessions (i.e., with Microsoft Excel, a cloud-based data visualization tool, etc) in order to perform tasks relevant to business practices. The aim will be to solve business problems and perform basic business analytics and mathematical/statistical calculations using computer applications. The course will also introduce students to Clouds and cloud-based services (i.e., Cloud based Enterprise Software, Microsoft Azure, Amazon AWS), which is fundamental to every successful business and organization

CALENDAR NOTES: NOTE: MGMT 1601.03, ASSC 1000.03 or CSCI 1200.03 will NOT be counted in the Commerce program.

LAB HOURS PER WEEK:

COMM 1700 Preparing for Study and Work in Canada

CREDIT HOURS: 3

This course is a mix of lectures, seminars, presentations, workshops and simulations. Activities in this course will help students meet the demands of the Canadian workplace and academic environments. These activities will involve practical applications of business communication strategies and language skills. The course will address writing resumes, meeting minutes, professional emails, and business reports. Students will also deliver presentations and participate in a mock job interview.

CALENDAR NOTES: Entrance into this course is by special permission. Please contact the Undergraduate Advising Office (uao@dal.ca) for more information

LAB HOURS PER WEEK:

COMM 1710 Business Communication I

CREDIT HOURS: 3

Students will learn how to be effective speakers and presenters. This class introduces students to communication used in the

workplace and the effects of voice, body language, and word choice. The course covers strategies in finding employment (cover letters, resumes, and interview skills), maintaining professionalism, presenting in formal and informal settings, listening, working in teams, and presenting in groups. Students deliver speeches in each of the four types: impromptu, extemporaneous, manuscript, and memorized.

CALENDAR NOTES: ENGL 2100.03, ENGL 2110.03, and CSCI 2100.03 will not be counted in the Commerce program.

LAB HOURS PER WEEK:

COMM 1711 Personal and Professional Development (PPD) I

CREDIT HOURS: 1.5

To meet the demands of the modern workplace, students must be proficient in Canadian Business English. Students will demonstrate the foundational skills in grammar and usage necessary to write clearly and confidently in the workplace (emails, text messages and reports). The course provides students strategies for career exploration and techniques for exploring their targeted industry. Students will become integrated into the academic and professional community at the Rowe School of Business by being introduced to various societies, programs, and resources available.

LAB HOURS PER WEEK:

COMM 1715 Business Communication

CREDIT HOURS: 3

The primary goal of this course is to teach students how to properly prepare written and oral business correspondence. Students learn how to assess the business context and how to make strategic choices of medium, channel, and form. The course develops students' ability to work through the writing process, tailor business messages to specific purposes and audiences, and utilize techniques of persuasion in business memos, e-mail messages, letters, and informational and analytical reports. Students will also learn how to be effective speakers and presenters. The course introduces students to storytelling, structure, body language, and vocal techniques to enhance content in extemporaneous and manuscript presentations. The course also covers techniques of demonstrating professionalism, presenting in formal and informal settings, and working in teams.

FORMATS: Lecture | Discussion | Experiential Learning

LAB HOURS PER WEEK:

COMM 2202 Finance I

CREDIT HOURS: 3

An introduction to the problems faced by business managers in the acquisition and effective use of the firm's resources, and analytical concepts for evaluating financial decisions. Topics covered are: financial planning, time value of money, working capital management, risk and return, and valuation of debt and equity instruments.

CALENDAR NOTES:

LAB HOURS PER WEEK:

COMM 2220 Introduction to FinTech

CREDIT HOURS: 3

The financial services landscape has been strongly impacted by emerging technologies and financial innovation stemming from disruptors on the fringe of the industry and incumbents' urge to respond to these developments. Defined as organizations combining innovation business models and technology to enable, enhance and disrupt financial services (EY 2017), FinTech (or financial technology) has the potential to profoundly change the way banks conduct their business. Once regarded as a threat, the financial technology industry nowadays attracts investments from almost every global bank, lured by the promise of significant cost savings and efficiency gains.

LAB HOURS PER WEEK:

COMM 2303 Introduction to Organizational Behaviour

CREDIT HOURS: 3

This course will provide an overview of organizational behaviour theory, as well as an introduction to the practical application of that theory, within the context of the external and organizational forces that impact management. Through lectures, assignments, and discussion, students will be introduced to the theoretical basis of managing people in organizations. Key topics will include individual factors, such as personality and perception; group processes, such as team development and influence; and contextual issues, such as organizational culture. Experiential exercises will be incorporated to link theory with practice.

CALENDAR NOTES:

LAB HOURS PER WEEK:

COMM 2310 Business Ethics and Corporate Social Responsibility (CSR)

CREDIT HOURS: 3

Business Ethics & Corporate Social Responsibility builds student capacity and capability for engaging difficult and complex ethical issues in today's organizations. This course examines common ethical challenges facing today's organizational leaders, and through theoretical and applied knowledge, students develop their awareness, capacity, and capability to scrutinize ethical situations and to develop useful courses of action. The course challenges students to think critically through moral visioning and imagination and prepares students to address everyday organizational ethical challenges with creativity and moral intelligence

COMM 2401 Introduction to Marketing

CREDIT HOURS: 3

The objective of this course is to familiarize you with marketing's mode of inquiry-the way marketers look at the world. As a marketer you should be able to: 1) ask the right questions about markets; 2) organize data into relevant information; 3) discover market opportunities; 4) set goals; 5) create a marketing plan that includes clear target markets, as well as product, price, distribution and communication strategies; and 6) implement and control a marketing program. A mixture of instructional methods will be used, including lectures, video cases, assignments, and current topics discussions. You are expected to prepare for class each week by prior reading of the assigned materials. Active participation is expected throughout the course.

COMM 3307 New Venture Creation

CREDIT HOURS: 3

This course is about entrepreneurial thinking and acting on it. By linking theory and practice, the course will expose students to the issues, problems and challenges of developing new ventures and provide students with the opportunity, within the framework of a formal class, to explore and develop venture ideas, testing their ideas assumptions, and most importantly how to act on ideas with the resources you have on hand. Experiential exercises enable the students to build their personal entrepreneurial strategy, identify an innovative idea, build their business model, gather resources, and present their business idea. The purpose of the course is to provide students a foundation from which they can act entrepreneurially for themselves or for the organization they work for.

COMM 3308 Managing the Family Enterprise

CREDIT HOURS: 3

Managing the Family Enterprise is about the special problems and issues that confront family businesses. It explores the family system, the business system, the ownership system and their interactions - functional and dysfunctional. Specific topics, examined from the family business perspective, include: the decision to join a family firm, management succession, ownership succession, the role of key non-family employees, strategic planning and other issues especially relevant for family firms. The course also addresses conflict and

communication in the family and the business. The course has two purposes. First, it provides an organized framework for students to understand the dynamics and special issues of family firms. Second, it is designed to allow students to explore their interest in joining a family firm. Therefore, it is especially intended for students who come from families which are in business or for students considering joining a family business. Others who wish to explore a key segment of Canadian business are also welcome. The course relies on field projects, guest speakers, case studies, videos, research papers and extensive class discussion to explore the territory of managing family businesses.

COMM 3410 Services Marketing

CREDIT HOURS: 3

Intangible services play an increasingly important role in the global economy, and most especially in the economies of developed countries. Yet, business school curriculae have customarily emphasized the marketing of tangible products in consumer and industrial markets. A basic premise of the elective course is that services (versus tangible goods) share a number of attributes that present unique challenges for marketing. The course seeks to prepare students to face those challenges. It is ideal for students who wish to work in a service industry (e.g., banking, insurance, travel, hospitality, consulting) or in a service capacity in the manufacturing sector (e.g., sales, customer relations). Emphasis will be placed on understanding the distinctive characteristics of services, the implications of these distinctions for marketing, the role of service quality as a determinant of customer satisfaction, and the measurement of these phenomena. Examples will be drawn from North American and European service industries.

COMM 3501 Production/Operations Management

CREDIT HOURS: 3

“Production” is one of the basic functions of any organization, whether it provides goods or services. Consequently, all managers, whatever their specialist interests, should have an understanding of some of the key concerns in managing operations, particularly if they aspire towards senior/general management positions. The purpose of this course is to provide such an understanding. It begins at a basic level by examining various types of production processes and continues by considering key aspects of inventory, supply chains and quality assurance. It concludes by examining production planning and strategy.

COMM 3511 Management Information Systems

CREDIT HOURS: 3

Information is a key resource for organizations, and professionals. Innovative uses of information are often keys to survival in an increasingly competitive and digital economy. Information systems enable these uses and account for an increasing larger share of assets in most organizations. The ability to harness and manage these systems demands a sound understanding of a broad range of concepts, terms, and challenging issues dealing with technologies and strategies. This course is designed to help students acquire these essential skills and become an effective client, user, and manager of these systems. Specifically, the course will help students understand the fundamentals of what, how and why information systems are used in organizations and the technologies that enables them. In addition to lecture materials and theoretical frameworks, students will be exposed to real information systems such as SAP ERP systems and Business Analytics tools via hands-on lab work and exercises.

COMM 4201 International Financial Management

CREDIT HOURS: 3

This course aims at acquainting students with international aspects of corporate finance. The ultimate objective of the course is to develop your ability to understand and analyze major problems of financial management in an international context. Specifically, we will see throughout this course, how the business of the multinational corporation (MNC) - compared to that of a purely domestic firm - is affected by the changes in the international financial environment and by the presence of new variables, in particular the exchange rate risk and the political risk. Therefore, the first part of the course will provide an overview of the MNC and the international environment in which it operates and describe the functioning of the international financial markets with emphasis on the Foreign Exchange Market. We will also thoroughly examine the theories underlying exchange rate determination, as well as exchange rate risk measurement and management. Finally, we will analyze how exchange rate risk affects the pricing of capital assets.

LAB HOURS PER WEEK:

COMM 4202 Derivatives

CREDIT HOURS: 3

This course is an introduction to derivatives and the main applications of derivatives for both investment purposes and corporate finance use. As an introductory or first course in derivatives, the goal is to cover the central concepts and issues that will permit the student to start using the products and understanding the main advantages, as well as the issues with derivative transactions. The course covers both quantitative pricing issues, as well as the many practical qualitative issues involved with the use of derivatives. Students should be comfortable with basic statistics and algebra. Knowledge of calculus is not required for this course. Students should also be comfortable with Excel spreadsheets and basic Excel mathematical functions.

LAB HOURS PER WEEK:

COMM 4240 Advanced Corporate Finance

CREDIT HOURS: 3

This course will help students learn to apply fundamental ideas of corporate finance to real-life problems of business valuation and financial decision. Topics that will be discussed include valuation, mergers and acquisitions, financial distress, capital structure, payout policy, securities issuance, and corporate governance. The course builds on concepts and techniques that students have learned in finance, accounting, statistics, and economics. Case studies will be used to bridge the gap between finance theory and its applications to practical problems in corporate finance.

CALENDAR NOTES:

COMM 4301 Managing the Venturing Process

CREDIT HOURS: 3

Managing the Venturing Process is a capstone course that explores the strategic elements required to venture successfully. By linking theory and practice, the course is designed to familiarize students with entrepreneurial strategies for the emerging venture, for the growing venture, and for sustaining growth in the established venture. Venturing will be explored in the context of both for-profit and not-for profit objectives and will examine nurturing single entrepreneurs as well as organizational entrepreneurs. As this is a capstone course students will be expected to use knowledge acquired in others business courses.

COMM 4315 International and Intercultural Management

CREDIT HOURS: 3

This senior level course is designed to provide students with the knowledge and skills necessary for effective membership and management in global as well as culturally diverse domestic workplaces. The growing importance of international business and escalating levels of involvement in global competitiveness necessitates that the manager of the 21st century acquire additional skills and abilities for effective international and intercultural interactions at home and abroad. The course content includes such topics as: introduction to comparative and cross-cultural management, variations on cultural orientations and value, cross-cultural communications, employee attitude, motivational issues in cross-cultural settings, differences in management and leadership styles, training for international assignments, cross-cultural staffing, inter-cultural negotiations, ethics and social responsibility, and expatriation and repatriation management. LAB HOURS PER WEEK:

COMM 4340 Corporate Governance

CREDIT HOURS: 3

The central focus of corporate governance is the relationship between the top management team (TMT), the board of directors (BoD), and other stakeholders, especially stockholders. The collapse of once successful, large corporations across the globe illustrates the prankishness of their board members and the degree of their lack of concern for stockholders' interests. The reputation of audit and consulting companies associated with these ill-fated corporations suffered a great setback, leaving stakeholders wondering whom to trust to safeguard their interests. Students will take an in-depth look at the corporate governance triad, as indicated above, that controls the modern corporation. Accordingly, this course will deal with the control, composition, functions, roles, and structure of boards; board responsibility and accountability, CEO tenure and compensation, shareholder and other stakeholder representation; corporate board's vis-à-vis social responsibility and ethics; and comparative corporate governance across North America, Europe, and selected Asian countries.

COMM 4351 Competitive Strategy

CREDIT HOURS: 3

Competitive Strategy focuses on how a firm competes at various levels; that is, functional, business and corporate. The course is designed to analyze the sources of competitive advantage among firms and to develop knowledge and skills necessary for effectively analyzing and formulating strategy. Accordingly, the course examines the role of the general manager in the organization; environmental and industry factors; organizational resource and capability constraints; the creation of value through functional-, business-, and corporate-level strategies, and, finally, how an organization leverages its resources and capabilities to extend its product and geographic scope internationally. Building upon this foundation, students will practice formulating well thought-out strategy recommendations that are specific and actionable. Throughout the term, students will be exposed to a wide variety of organizations through readings, case studies, and experiential exercises.

COMM 4352 Strategic Management

CREDIT HOURS: 3

Strategic Management builds on COMM 4351.03: Competitive Strategy. Following a brief review of firm strategy as it relates to the external environment and core competencies, the focus of this capstone course turns to the examination of the firm's organizational design. More specifically, the course is about strategic change and implementation. It enables the student to develop an appreciation for the influence of uncertainty and complexity on managerial action. The course integrates functional- and business-level strategies to understand the alignment of the firm's competitive strategy with its organizational design. Various pedagogical methods are used to enhance the student's analytical, writing, and presentation skills. It emphasizes a number of conceptual frameworks that aid in strategic decision-making while drawing upon specific concepts, tools, and techniques from other core courses in the Bachelor of Commerce (Co-op) program

COMM 4401 Marketing Strategy

CREDIT HOURS: 3

This course is intended for marketing majors, and as a capstone course, it is designed to permit the integration of learning from other marketing courses. The aim of marketing strategy is to create superior customer value, life-time value, and customer relationships versus pushing products. Marketing strategy also involves careful competitive and market analysis, selection and development of markets in which the firm can operate with competitive advantage. Market development is particularly important for firms aiming for significant growth both domestically and internationally. Instruction is mostly through case studies of both B2C and B2B companies, report writing, and group presentations.

COMM 4510 Corporate Communication

CREDIT HOURS: 3

By the end of this course, students will have learnt about various communication strategies adopted and deployed by corporations. Students will have competently demonstrated their ability to devise a corporate communications portfolio for stakeholders they will adopt in particular case scenarios. This portfolio will include formulating & delivering internal and external communications, developing and authoring press releases, creating a strategy document for managing press conferences and media relations, creating a post-incident marketing campaign, and writing incident and preliminary investigative reports (with financial and accounting analysis as evidence where available). Student teams will then make team presentations to possibly hostile audiences, and outline how to manage internal and external public relations, both day-to-day and in crisis conditions.

COMM 4511 Business Process Integration using ERP Systems

CREDIT HOURS: 3

An experiential learning approach in this class that includes hands-on learning using SAP ERP, SAP Lumira and ERPSim, a game-based SAP ERP simulation. Here you will learn to manage companies from end-to-end using the actual SAP ERP in a real-time simulated competitive environment and will learn the processes, gain technical skills, with SAP and playfully learn how Enterprise Systems facilitate Business Intelligence which can be used to lead a company in a competitive environment. Since the emphasis of this class is on experiential learning, class time is focused on hands-on cases and simulations instead of lectures. There is an expectation that you complete the readings and come prepared for each class. In this course, there will be a balanced focus on both learning business process and integration between different functional areas, and on the technology that facilitates this. The class will be taught in an interactive lab through a combination of individual and group simulations interspersed with short lectures.

COMM 4512 Business Analytics and Data Visualization

CREDIT HOURS: 3

This course provides an introduction to Business Analytics using state of the art technologies. It covers the processes, methodologies and practices used to transform data into useful information to support business decision-making. Business analytics requires foundational knowledge in data Extraction, Transformation and Loading (ETL). The course will cover data models for data warehouses and in-memory systems. Students will learn how to extract and manipulate data from these systems. They will also acquire basic knowledge of data mining and data analysis, with a focus on data visualization. The students will also learn to build dashboards using a variety of data design and visualization tools. The course will be made up of a combination of conceptual and applied topics with classes being held in an interactive computer lab. Both cloud-based and on-premise technologies will be leveraged to analyze data from a variety of sources, including Open Data, SAP BW, and SAP HANA. Technologies to be used will be focused on end-user analytics and data visualization and will include state of the art tools for self-serve business analytics such as SAP Lumira Discovery, MS Excel, SAP Cloud Analytics, SAP Business Objects Analysis, IBM Cognos Insight, SAP Predictive Analytics, and Tableau Public.

COMM 4520 Supply Chain Planning & Execution

CREDIT HOURS: 3

A Supply Chain (SC) consists of all parties involved in fulfilling a customer request. Efficient integration of suppliers, manufacturers, distribution/logistics companies, and retailers/customers is vital in managing SCs so that the right products are delivered to the right place at the right price, at the right quantity, and at the right time. Good management of a SC creates a competitive advantage. Focusing on the planning and execution of SC decisions, this course will help students have a deep understanding of SCs, acquire analytical tools necessary to solve complex SC problems, and apply managerial levers to pull in order to sustainably improve SC performance.

COMM 4701 International Business Strategy

CREDIT HOURS: 3

The objective of this course is to help the students understand why firms expand overseas and how foreign operations differ from domestic ones. It provides the students with the necessary knowledge for a career or further study in international business. The course introduces the basic concepts of international business from a manager's perspective. It examines the issues and problems that arise when business operations extend across national boundaries and become international in scope or character. The emphasis is two-fold. First, consideration is given to the characteristics and contemporary dynamics of the world economy. Second, analysis is made of the development of the multinational firm and of the adaptation of the basic managerial functions due to internationalization. The course orientation is pragmatic and managerial. Through case studies, class discussions, assigned readings, and lectures, the students are expected to develop the skills for analyzing situations and formulating solutions in an international business context.

COMM 4705 Contemporary Issues in Global Business

CREDIT HOURS: 3

Large cross-border movements of goods, services, capital and technology increasingly demand a transnational view of firm strategy and operations. Some global corporations seek competitive advantage through the close coordination of geographically dispersed units

while others choose to tailor carefully their multinational operations to the legitimate economics, political and social aspirations of diverse national governments. Yet others seek to balance conflicting demands through intensive organization wide coordination and shared decision making. This course examines critically the generic and functional strategies open to multinational enterprises and through numerous industry and business case studies. Classes comprise case analyses, lectures, as well as independent research, class presentations and guest speakers. As the success depends in large measure on the preparedness and effective participation of course members, attendance is crucial and particular attention is paid to the quality of individual contributions to case discussion.

General

The Faculty offers a curriculum of undergraduate and graduate studies designed to prepare students for careers in the fields of business, public administration, environmental and information management.

The undergraduate management degree includes studies from the humanities and social sciences as well as in the functional areas of management.

In co-operation with the School of Health and Human Performance, the Faculty also offers a combined, five-year program in which the student receives both degrees upon graduation. Please refer to the [School of Health and Human Performance](#) section for more information on the Bachelor of Science (Recreation)/Bachelor of Management.

Faculty

Faculty are drawn from all four Schools that comprise the Faculty of Management: Rowe School of Business, Information Management, Public Administration, and Resource and Environmental Studies.

Bachelor of Management

The Bachelor of Management provides undergraduate education in the management of organizations and human activities, in public sector management, environmental management, information management, and enterprise management.

This degree recognizes that managers work and move across borders between these sectors of management. Drawing on faculty from all four schools in the Faculty of Management, the program recruits students locally, nationally and internationally.

The objectives of the Bachelor of Management program are to:

- Enhance and lead organizations in diverse industries and sectors
- Analyze and assess information in context to make appropriate decisions
- Synthesize and evaluate information and ideas to make informed, creative decisions in complex, data rich, global environments
- Manage multicultural and diverse workplaces by applying theories related to diversity and inclusion
- Apply multidisciplinary management theories and tools to solve complex business problems in a dynamic environment
- Apply leadership theories in ethical, socially responsible, and innovate ways.

Degree Requirements

- Four year program
- Total credit hours required - 120
- Required GPA for graduation - 2.00
- Required core area courses - 60 credit hours:
 - ECON 1101.03: Principles of Microeconomics
 - ECON 1102.03: Principles of Macroeconomics
 - MGMT 1301.03: Interdisciplinary Management I
 - MGMT 1302.03: Interdisciplinary Management II
 - MGMT 1501.03: Statistics for Managers I
 - MGMT 1601.03: Electronic Information Management
 - MGMT 1101.03: Accounting I (Financial)
 - MGMT 2303.03: People, Work and Organizations: Micro Organizational Behaviour
 - MGMT 2304.03: People, Work and Organizations: Macro Aspects of Organizational Behaviour

- MGMT 2305.03: Ethics and Social Responsibility
- MGMT 2401.03: Introduction to Marketing
- MGMT 2402.03: Marketing Applications in the Not-for-Profit Sectors
- MGMT 2605.03: Data Literacy
- MGMT 2801.03: Government Structure
- MGMT 3001.03: Data Analytics and Applied Research
- MGMT 3201.03: Financial Management
- MGMT 3501.03: Operations Management
- MGMT 3602.03: Professional Communications Skills
- MGMT 4003.03: Management Strategy
- MGMT 4004.03: Multidisciplinary Capstone
- Required Management electives
 - nine credit hours in management electives are required
 - six credit hours Writing Course (see Section C.)
- Open Electives
 - 45 credit hours, chosen from all courses offered in the University
 - A maximum of 18 credit hours at the 1000 level is permitted (Open and MGMT inclusive).
 - A maximum of 18 credit hours in Commerce is permitted.

Program Guide

Students will normally follow the courses as listed in the table below:

Year	Fall Sept - Dec (A)	Winter Jan - Apr (B)
Year 1	Writing Requirement	Writing Requirement
	ECON 1101.03	ECON 1102.03
	MGMT 1301.03	MGMT 1302.03
	MGMT 1601.03	Open Elective.03
	MGMT 1501.03	Open Elective.03
Year 2	MGMT 1101.03	MGMT 2304.03
	MGMT 2303.03	MGMT 2305.03
	MGMT 2401.03	MGMT 2402.03
	MGMT 2605.03	Open Elective.03

		Open Elective .03

Year 4	MGMT 4003.03	MGMT 4004.03
	MGMT Elective .03	MGMT Elective .03
	Open Elective .03	Open Elective .03
	Open Elective .03	Open Elective .03
	Open Elective .03	Open Elective .03

Writing Course

One of the first five credits chosen should be selected from a list of courses in which written work is considered frequently and in detail. These writing courses are approved by the Writing Across the Curriculum committee and are listed under [Writing Courses](#) of the academic calendar.

Courses which satisfy the Writing Requirement are identified by the following text in their formal description (under FORMAT): Meets Writing Requirement

Combined Degree

The School of Health and Human Performance and the Faculty of Management offer a five-year program in which a student graduates with both degrees, Bachelor of Science (Recreation)/Bachelor of Management. Please consult the School of [Health and Human Performance](#) section in the calendar for more information.

Majors

During their fifth, sixth, seventh and eighth academic terms, students can either pursue a general program of study, by choosing electives from a wide range of the functional areas, or they can follow a more specialized program, taking their elective courses towards a major. Five interdisciplinary thematic majors are available to students who focus their studies in specific aspects of management.

Entrepreneurship and Innovation Major

Required Courses

- MGMT 3511.03: Management Information Systems
- MGMT 3907.03: New Venture Creation
- MGMT 4901.03: Managing the Venturing Process
- MGMT 3308.03: Managing the Family Enterprise **OR** MGMT 3902.03: Starting Lean

Leadership and Organization Major

Required Courses:

- COMM 3304.03: Labour Management Relations
- MGMT 3309.03: Management Skills Development
- COMM 3310.03: Reflections on Leadership
- MGMT 3320.03: Organizational Theory **OR** COMM 3303.03: Human Resource Management

Managing Data and Information

Required Courses:

- MGMT 3511.03: Management Information Systems
- MGMT 3601.03: Information in a Networked World

- MGMT 3603.03: Beyond Google
- MGMT 4620.03/INFO 6620.03: Web Design & Architecture

Public Sector Management Major

Required Courses:

- MGMT 2200.03: Fundamentals of the Legal Environment of Management
- MGMT 2805.03: Introduction to Indigenous Governance
- MGMT 3802.03: Public Policy
- MGMT 3810.03: Government Policy Towards Business

Environment, Sustainability and Society Major

Required courses:

- SUST 1000.06: What is Sustainability? **OR** SUST 1001.06: A Sustainable Future*
- SUST 2000.06: Local Governance **OR** SUST 2001.06: Global Environmental Governance
- SUST 3000.03: Environmental Decision Making **OR** MGMT/SUST 3702.03: Sustainable Industries
- SUST 4001.03: Environment, Sustainability and Society Capstone Part 1
- SUST 4002.03: Environment, Sustainability and Society Capstone Part 2**

* SUST 1000 or SUST 1001 satisfy the first year ESS Major requirement, however; SUST 1000 also satisfies the BMgmt writing requirement and can be more easily accommodated in the first year BMgmt schedule. SUST 1001 does not satisfy the BMgmt writing requirement.

**SUST 4001 and SUST 4002 must be completed in consecutive fall and winter terms. Credit will not be granted for SUST 4001 without successful completion of SUST 4002.

Majors - Electives

Major in Entrepreneurship and Innovation

Students need 12 credit hours from list.

- COMM 3310.03: Reflections on Leadership
- COMM 3401.03: Consumer Behaviour
- COMM 3402.03: Marketing Communications
- COMM 3404.03: Marketing Research
- COMM 3405.03: Global Marketing
- COMM 3409.03: Sales Management
- COMM 3410.03: Service Marketing
- LEIS 4362.03: Recreational Entrepreneurship and Special Events
- MGMT 2200.03: Fundamentals of the Legal Environment of Management
- MGMT 2902.03: Innovation: Introduction to Design Thinking
- MGMT 3308.03: Managing the Family Enterprise
- MGMT 3309.03: Management Skills Development
- MGMT 3902.03: Starting Lean
- MGMT 4333.03: Project Management

Major in Leadership and Organizations

Students need 12 credit hours from list.

- COMM 4315.03: International/Cultural Management
- COMM 4510.03: Corporate Communications

- COMM 4701.03: International Business Strategy
- ECON 2217.03: Women and the Economy
- ECON 3319.03: Industrial Organization
- LEIS 2296.03: Leadership and Group Dynamic
- MGMT 2200.03: Fundamentals in the Legal Environment of Management
- MGMT 2805.03: Introduction to Indigenous Governance
- MGMT 3320.03: Organizational Theory
- MGMT 3802.03: Public Policy
- MGMT 3810.03: Government Policy Towards Business
- MGMT 4333.03: Project Management
- MGMT 4340.03: Corporate Governance

Major in Managing Data and Information

Students need 12 credit hours from list.

- CSCI 1107.03: Social Computing
- CSCI 2141.03: Introduction to Database Systems
- CSCI 2201.03: Introduction to Information Security
- CSCI 2203.03: Data Science for Everyone
- MGMT 4300.03/INFO 6300.03: Government Information Resources
- MGMT 4310.03/INFO 6310.03: Resource for Business Intelligence
- MGMT 4370.03/INFO 6370.03: Records Management
- MGMT 4611.03/INFO 6610.03: Information Policy
- MGMT 4681.03/INFO 6681.03: Geospatial Information Management
- INFO 6400.03: Knowledge Management

Major in Public Sector Management

Students need 12 credit hours from list.

- CANA 2001.03: The Idea of Canada: Social and Political Perspectives
- CANA 2218.03/ECON 2218.03: Canadian Economy: Policy Issues
- CANA 3333.03: New Media and the Courts in Canada
- ECON 2212.03: Law and Economics
- ECON 2216.03: Economics of Global Warming
- ECON 2217.03: Women and the Economy
- ECON 2231.03: Perspectives Health Economics
- ECON 2233.03: Canadian Economic History
- ECON 2334.03: Perspective on Economic Development
- ECON 2336.03: Regional Development
- MGMT 4300.03/INFO 6300.03: Information Resources in Government
- POLI 2210.03: Unity and Diversity
- POLI 2215.03: Canadian Aboriginal Politics
- POLI 2220.03: Structures of Canadian Parliamentary Government
- POLI 2301.03: Comparative Politics I: Development Democracies Under Pressure
- POLI 2302.03: Comparative Politics II: The Developing World
- POLI 3208.03: Canadian Provincial Politics
- POLI 3220.03: Intergovernmental Relations
- POLI 3224.03: Canadian Political Parties
- POLI 4561.03/5561.03/PUAD 6561.03: Security-Development Nexus

Environment, Sustainability and Society Major

- Six credit hours SUST at 3000 level or above
- Three credit hours SUST/[ESS electives](#) at 3000 level or above

Minors

For Bachelor of Management students

Bachelor of Management students can undertake a minor from various departments within the Faculty of Arts and Social Science, the Faculty of Science or the Faculty of Computer Science. They should consult advisors in those faculties for the most current information on the requirements for particular minors.

For a current list of minors please see “[Minor Programs](#)” of the Undergraduate Calendar

For students registered in the BA, BSc, and BSc programs

The minor in management is available to students registered in the BA, BSc, and BSc programs. The requirements are as for the appropriate degree program with completion of the following courses:

Required courses:

- MGMT 1301.03: Interdisciplinary Management I
- MGMT 1302.03: Interdisciplinary Management II

Any 18 credit hours chosen from the below list, three credit hours of which must be at the 3000 level. Please note that some MGMT courses have additional prerequisite requirements:

- MGMT 2200.03: Fundamentals of the Legal Environment
- MGMT 2303.03: People, work and organizations: Micro Organizational Behaviour
- MGMT 2304.03: People, work and organizations: Macro Organizational Behaviour
- MGMT 2401.03: Introduction to Marketing
- MGMT 2801.03: Government Structure
- MGMT 2805.03: Introduction to Indigenous Governance
- MGMT 3308.03: Managing the Family Enterprise
- MGMT 3309.03: Management Skills Development
- MGMT 3320.03: Organizational Theory
- MGMT 3601.03: Information in a Networked World
- MGMT 3603.03: Beyond Google
- MGMT 3701.03: The Community as a Living Laboratory
- MGMT 3702.03: Sustainable Industries
- MGMT 3802.03: Public Policy
- MGMT 3810.03: Government Policy Towards Business to the list below

Optional Internship

The Bachelor of Management (BMgmt) internship is a minimum of 32 weeks (approximately eight months) of consecutive, full time work experience related to your studies. Internships can be with large multi-national corporations or small offices, at a not-for-profit organization or a government department. Management Career Services will support you in your internship job search.

Bachelor of Management students currently in the second year of their program are eligible to apply for the Internship Program. Please meet with your Academic Advisor to discuss your course plan. Full details on the program can be found at www.dal.ca/mcs/internship. With proper academic planning, students participating in the Internship Program are able to complete an eight month internship and still graduate from the BMgmt Program in four years. In addition, participants in the Internship Program receive 1 full credit towards their program.

Acceptance to participate in the Internship Program will be assessed on the following criteria:

1. Completion of Application Form
2. Statement of Intent
3. Resume
4. GPA of 2.70 or higher in the two terms preceding application submission, or a CGPA of 2.70
5. Positive recommendations from references
6. Personal interview with Management Career Services (to be arranged once complete application is reviewed)
7. Full participation in the Internship Prep Seminar, MGMT 4895 (no specific course fee, no credit value) which is held each fall

Internship Fee

Students accepted into the Internship Program are charged an Internship Fee. This fee is non-refundable after the last day to drop a course without a "W".

The Internship Fee covers administration of the internship including, but not limited to:

- Job search assistance (cover letters and resume building, interview preparation and debrief, coaching for self-developed job search strategies)
- MGMT 4895, the Internship Prep Seminar
- Networking opportunities with employers
- Development of job opportunities
- Access to on-line job posting site and job posting administration
- Interview space and co-ordination
- Facilitation of job offers
- Tracking of eligibility and job search activity
- Internship monitoring and mediation of unsatisfactory situations
- Marketing and communications tools and activities to promote the internship program to employers

Career Development Fee

Bachelor of Management students have access to specialized career development services through the Management Career Services unit. This service is covered through the payment of a mandatory Management Career Services Fee. This fee is prorated for part-time students. The Management Career Services team provides the following services:

- Career Related Workshops including: Resumes, Interviewing, Job Search Strategies, Networking and more
- Individual coaching appointments (See below)
- Employer Information Sessions
- myCareer job postings
- On-campus grad recruitment
- Special Events (e.g. Sector specific Recruiting Events and Corporate Tours, both locally and in other cities)

Career & Recruitment Specialists

There are five Career & Recruitment Specialists (CRS), each responsible for specific employment sectors. Two of the five CRS staff members are dedicated to working with Bachelor of Management students. Bachelor of Management students may also meet with another CRS if they require specific information on career interest areas of marketing, finance or accounting. Career & Recruitment Specialists work with students to guide them

through a process that provides the student with the ability and knowledge needed to develop their careers. This set of skills will serve students well now, and in the future.

Career & Recruitment Specialists work with students individually or in group sessions to help with the following:

- Identifying student strengths, interests and priorities
- Helping students establish which career path and work environment is right for them
- Planning a job search strategy
- Writing effective resumes and cover letters
- Building and interacting with a network of contacts
- Preparing for interviews
- Providing job search assistance for graduating students

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are typically available to students in the second, third, and fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not obtain credit for both courses as designated.

Not all courses are offered each year. Please consult the current [timetable](#) for this year's offering. For further information please contact the department, or visit the department's website.

Course Descriptions

MGMT 1101 Introductory Accounting I (Financial)

CREDIT HOURS: 3

An introduction to the principles and practices used by accountants in processing and communicating data, both within and outside the organization. Emphasis is on financial accounting and reporting used in the measurement and reporting of an organization's operating, financing and investing activities to external users. Students will develop an understanding of basic financial accounting methodologies, and develop the analytical and procedural skills related thereto; as well as understand the information content of conventional financial statements, and the inherent limitations of accounting data. The organizational context includes business and not-for-profit settings. The coverage included an examination of the accounting process, basic issues in financial reporting, and the financial statement disclosure requirements.

CALENDAR NOTES: Students who have completed MGMT 2101.03 or COMM 1101.03 (COMM 2101.03) cannot also receive credit for MGMT 1101.03

LAB HOURS PER WEEK:

MGMT 1102 Introductory Accounting II

CREDIT HOURS: 3

An introduction to the use of accounting information by managers, within the organization. This course examines how accounting can provide information to assist management in their planning, decision-making and performance evaluation. Both qualitative and quantitative information supports this decision-making. Emphasis is on management accounting and analysis, with the following objectives: To develop an understanding of the kinds of accounting information managers need; To examine managerial accounting methodologies and develop the analytical and procedural skills related thereto; To prepare accounting reports which are useful for management planning, control and decision making; To develop an awareness of the limitations of managerial accounting information.

CALENDAR NOTES: Students who have completed MGMT 2102.03 or COMM 1102.03 (COMM 2102.03) cannot also receive credit for MGMT 1102.03.

FORMATS:

LAB HOURS PER WEEK:

MGMT 1301 Interdisciplinary Management I

CREDIT HOURS: 3

The Bachelor of Management program is intended to be an interdisciplinary program with participation from the four schools (Rowe School of Business, the School of Resources and Environmental Studies, the School of Public Administration and the School of Information Management). This course will introduce students to the basic definition of management and how people and process vary across the disciplines. Students will explore basic management issues of planning, organizing, leading and controlling within a variety of venues including for-profit, not-for-profit, and public sectors. The class introduces students to management issues with an emphasis on creativity, leadership and innovation.

LAB HOURS PER WEEK:

MGMT 1302 Interdisciplinary Management II

CREDIT HOURS: 3

The Bachelor of Management program is intended to be an interdisciplinary program with participation from the four schools (Rowe School of Business, the School of Resources and Environmental Studies, the School of Public Administration and the School of Information Management). This course will build on the students understanding of the basic definition of management and how people and process vary across the disciplines. Students will apply critical thinking to basic management issues of planning, organizing, leading and controlling within a variety of sectors including both for-profit, not-for-profit, and public. The class explores current management issues with an emphasis on creativity, leadership and innovation.

EXCLUSIONS: MATH 1060.03, STAT 1060.03, ECON 2260.03, ENGM 2032.03 NOTE: Students cannot receive credit for MGMT 1501.03 after already receiving credit for STAT 2060.03

FORMATS: Lecture

LAB HOURS PER WEEK:

MGMT 1601 Electronic Information Management

CREDIT HOURS: 3

This course will teach students how to use computer applications to record and process data to create and communicate information and knowledge. It will show students the importance of business applications in the management environment. Students will master the word processing, spreadsheet, and presentation software in an integrated office suite. They will also learn to design and create web pages with html. It is strongly recommended that students complete this course in their first year of study.

CALENDAR NOTES: ASSC 1000 or CSCI 1200 will not be counted in the Bachelor of Management program.

COREQUISITES:

EXCLUSIONS: COMM 2603.03, MGTA 2001.03

FORMATS: Online Delivery

LAB HOURS PER WEEK:

MGMT 2303 People, Work, and Organizations: Micro Organizational Behaviour

CREDIT HOURS: 3

Organizational behaviour and the study of work organizations and management draw on a number of disciplines within social sciences to help us to understand and make sense of individual behaviour and human action in groups and organizations. Through a combination of individual and group work and a blend of classroom based activities, this course will explore concepts and theories relating to micro aspects of organizational behaviour. Topics include: individual motivation, personality, perception, attitudes, cultural values, and ethics in organizations. Links will also be made to practice and processes in organizations (for example: rewards, stress appraisal, trust and organizational commitment).

CALENDAR NOTES:

PREREQUISITES: MGMT 1302.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: COMM 2303.03*Students who have taken COMM 2303.03 Introduction to Managing People are currently required to take MGMT 3309.03 (Management Skills Development) for full exclusion to MGMT 2303.03 and MGMT 2304.03.

FORMATS:

LAB HOURS PER WEEK:

MGMT 2304 People, Work and Organizations: Macro Aspects of Organizational Behaviour

CREDIT HOURS: 3

Mgmt 2304.03 builds on the concepts and principles identified in Mgmt 2303.03. This course takes a macro perspective that will consider the relationships between structural, cultural, social, economic and political factors and managing and organizing work. Topics include: organizational structure and processes; leadership, power and politics; organizational cultures, processes of organizational change, and legal and ethical issues and frameworks. To achieve a balance between theoretical and practical learning, the teaching methods will combine mini-lectures with in-class/on-line exercises, cases, presentations and group facilitated discussions.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: MGMT 2303.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: COMM 2303.03 Please note: where a student is transferring from Commerce to Management and has taken COMM 2303.03, they will need to take the complementary course MGMT 3309.03 (Management Skills Development) to receive full credit for MGMT 2303.03 and MGMT 2304.03

FORMATS:

LAB HOURS PER WEEK:

MGMT 2305 Ethics and Social Responsibility

CREDIT HOURS: 3

Business Ethics & Corporate Responsibility builds student capacity and capability for engaging difficult and complex ethical issues in today's organizations. This course examines common ethical challenges facing today's organizational leaders, and through theoretical and applied knowledge, students develop their awareness, capacity, and capability to scrutinize ethical situations and to develop useful courses of action. The course challenges students to think critically through moral visioning and imagination and prepares students to address everyday organizational ethical challenges with creativity and moral intelligence.

LAB HOURS PER WEEK:

MGMT 2401 Introduction to Marketing

CREDIT HOURS: 3

The objective of this course is to familiarize you with marketing's mode of inquiry—the way marketers look at the world. As a marketer you should be able to: 1) ask the right questions about markets; 2) organize data into relevant information; 3) discover market opportunities; 4) set goals; 5) create a marketing plan that includes clear target markets, as well as product, price, distribution and communication strategies; and 6) implement and control a marketing program. A mixture of instructional methods will be used, including lectures, video cases, assignments, and current topics discussions. You are expected to prepare for class each week by prior reading of the assigned materials. Active participation is expected throughout the course. Students will work in teams and will be preparing a marketing plan to introduce a new product to the Canadian market.

LAB HOURS PER WEEK:

MGMT 2402 Marketing Applications in the Not-for-Profit Sectors

CREDIT HOURS: 3

This course is intended to further the student's understanding of the ways in which the discipline of marketing can be applied to a number of public policy, environmental, professional and non-profit management areas. It will integrate the basic theory and concepts

covered in the introductory marketing course with the knowledge gained in the introductory courses in environmental and public policy management or in introductory courses in a number of professional fields. The course will maintain an overall managerial perspective in examining the ways in which various constituencies fulfill their strategic organizational objectives through the application of marketing practices. Topic areas examined will be: micro-marketing (firm perspective) vs. macro-marketing (societal perspective); non-profit, cause-related, "green" and social marketing; de-marketing (e.g. anti-smoking, etc.); the use of marketing communications in the electoral and public policy-making process; ethics in marketing; marketing and development. The course may also examine the application of the discipline of marketing to a number of professional fields, such as sports/recreation and health sciences. Learning activities might include: lectures, videos, seminars, internet exercises, examinations and field assignments.

MGMT 2601 Knowledge Management

CREDIT HOURS: 3

In today's economy cutting-edge organizations in every industry are harnessing the power of knowledge as a core asset of the organization and the key to a sustainable competitive advantage. The aim of this Knowledge Management (KM) course is to provide an introductory and integrated approach to the various topics, emerging issues and perspectives in KM and organizational learning. We will explore how all types of organizations can effectively understand, analyze, measure, and manage, knowledge as an asset, i.e., manage the organization's intellectual assets and turn organizational wisdom into market value. Emphasis is placed on the development and application of both technical and people management skills within Knowledge Management environments.

MGMT 2605 Working with Data

CREDIT HOURS: 3

People and organizations are grappling with increasing amounts of data. Modern employees and citizens are expected to collect, manage, evaluate, visualize, analyze, and apply data in a range of domains and challenges: in short, to be data literate. This course introduces this knowledge and skillset through lectures and hands-on labs. Students will learn to use a variety of tools to find, manage, assess, extract value from, and visualize raw data.

MGMT 2801 Government Structure

CREDIT HOURS: 3

This course introduces students to the organizing principles and structures of the three levels of Canadian government; federal, provincial and municipal. The focus is particularly directed at the permanent public service and seeks to examine the collective “whole of government” influence on Canadian affairs. For those interested in business this is an important course as it provides an understanding of the core structures business must understand when dealing with government. As citizens this course provides a framework for understanding how you might protect your rights.

MGMT 2902 Innovation: An Introduction to Design Thinking

CREDIT HOURS: 3

Ever wonder how great ideas turn into innovative solutions people or organizations want to adopt? In today's highly dynamic environment, innovation has become not only a priority, but a driving force for highly successful organizations that adopt Design Thinking tools and processes that promote innovation. When done well, these tools and processes link inspiration and passion to implementation and delivery – and help individuals and organizations develop a culture that embraces and promotes innovation. This course combines theory and application and provides a hands-on practical learning experience for students as they actually design and implement innovative solutions to real world problems using creative problem solving and design thinking techniques. Students work in teams and learn how to apply these techniques to more fully understand the problem, identify novel and suitable solutions, and

determine whether their proposed solution is a fit with those that will be using it.

MGMT 3308 Managing the Family Enterprise

CREDIT HOURS: 3

Managing the Family Enterprise is about the special problems and issues that confront family businesses. It explores the family system, the business system, the ownership system and their interactions - functional and dysfunctional. Specific topics, examined from the

family business perspective, include: the decision to join a family firm, management succession, ownership succession, the role of key non-family employees, strategic planning and other issues especially relevant for family firms. The course also addresses conflict and communication in the family and business. The course has two purposes. First it provides an organized framework for students to understand the dynamics and special issues of family firms. Second it is designed to allow students to explore their interest in joining a family firm. Therefore, it is especially intended for students who come from families which are in business or for students considering joining a family business. Others who wish to explore a key segment of Canadian business are also welcome. The course relies on field projects, guest speakers, case studies, videos, research papers and extensive class discussion to explore the territory of managing family businesses.

MGMT 3511 Management Information Systems

CREDIT HOURS: 3

Information is a key resource for organizations and professionals. Innovative uses of information are often keys to survival in an increasingly competitive and digital economy. Information systems enable these users and account for an increasing larger share of assets in most organizations. The ability to harness and manage these systems demands a sound understanding of a broad range of concepts, terms, and challenging issues dealing with technologies and strategies. This course is designed to help students acquire these essential skills and become an effective client, user, and manager of these systems. Specifically, the course will help students understand the fundamentals of what, how and why information systems are used in organizations and the technologies that enables them. In addition to lecture materials and theoretical frameworks, students will be exposed to real information systems such as SAP ERP systems and Business Analytics tools via hands-on lab work and exercises.

CREDIT HOURS: 3

This course introduces students to research, concepts and methods for analyzing community sustainability across a spectrum of perspectives. In this course, the Halifax community serves as a living laboratory for identifying, evaluating and assessing indicators of progress toward greater environmental, social and economic sustainability. Working in groups, students apply problem-solving models to case studies using qualitative and quantitative research methods to help community-based organizations grapple with real world problems. A variety of tools may be used including systems analysis, environmental audits, field surveys, questionnaires, interviews, and statistical analysis. Students then draw conclusions and make recommendations for improvements on the basis of their analysis.

LAB HOURS PER WEEK:

MGMT 3702 Sustainable Industries

CREDIT HOURS: 3

The course introduces students to concepts and methods for analyzing industrial sustainability through an interdisciplinary lens that highlights the necessity of including economic, social and environmental considerations. It also intends to deepen their understanding of: a) the business case (short term and long term) for industrial/corporate sustainability; b) the tools, techniques and strategies necessary to decouple economic growth of our business sectors from resource use and environmental degradation; and c) the key role that business and industry play in the sustainable development agenda. Using examples from various industrial settings, a range of management and policy mechanisms for ensuring resource sustainability are explored.

MGMT 3710 Doing Business in Emerging Markets

CREDIT HOURS: 3

This course is designed to give students an understanding of the traditional challenges and opportunities Canadian businesses face when expanding their business to emerging markets, including those in Africa, Asia, Latin America, and Eastern and Central Europe. Through this course, students will be expected to acquire a holistic understanding of the political, cultural, social, and economic challenges companies face when considering the benefits of expanding and conducting business in emerging markets.

LAB HOURS PER WEEK:

MGMT 3810 Government Policy Toward Business

CREDIT HOURS: 3

The focus of this course is twofold: first, how governments shape business behaviour through policy, regulation, state ownership, and other forms of intervention; and secondly, why collaboration is a growing reality enjoining public sector and private sector organizations and the implications for each sector and society as a whole. The course aims to understand the fundamental difference between the public interest and the private interest and how such differences are sorted out through contemporary governance systems involving public, private and civic actors. While the emphasis will be on the Canadian environment, a comparative perspective will also be used in light of many issues that are increasingly transnational in scope. Students will be able to develop a critical view of government intervention and grow a sense of when and where government action is warranted and when and where it is not.

MGMT 3902 Starting Lean

CREDIT HOURS: 3

This course provides real world, hands-on learning on what it's like to actually build a scalable startup company. This is a practical course - essentially a lab, not a theory course providing experiential learning. You will work in teams learning how to turn a great idea into a great company. You will learn how to talk to customers, partners, and competitors, as you encounter the chaos and uncertainty of how a startup actually works. You'll learn how to use a business model canvas to brainstorm each element of a company. You will

learn the importance of customer development and customer discovery to determine whether anyone other than you would want/use your product and what your 'Minimum Viable Product' (MVP) should look like. Each day will be a new adventure outside the classroom as you test each part of your business model, then share your hard earned knowledge with the rest of the class.

MGMT 3907 New Venture Creation Entrepreneurship

CREDIT HOURS: 3

This course is about entrepreneurial thinking and acting on it. By linking theory and practice, the course will expose students to the issues, problems and challenges of developing new ventures and provide students with the opportunity, within the framework of a formal class, to explore and develop venture ideas, testing their ideas assumptions, and most importantly how to act on ideas with the resources you have on hand. Experiential exercises enable the students to build their personal entrepreneurial strategy. identify an innovative idea, build their business model, gather resources, and present their business idea. The purpose of the course is to provide students a foundation from which they can act entrepreneurially for themselves or for the organization they work for.

MGMT 4001 Strategy Formulation

CREDIT HOURS: 3

This is a capstone course which draws upon all previous courses in the Bachelor of Management Program. The course introduces students to different theoretical frameworks for the analysis and development of strategy. Moving through an analysis of the external and competitive environment of the organization and its resources and capabilities, students' progress to the formulation phase of strategy-making through lectures, case studies, and experiential exercises. Strategy is examined in the context of the four thematic areas of study and professional practice upon which the Faculty of Management has been formed. In addition to other requirements, student knowledge is consolidated through the preparation of a major individual project on a real organization.

MGMT 4002 Strategy Implementation

CREDIT HOURS: 3

This course is the second capstone course in the Bachelor of Management Program and is a continuation of MGMT 4001.03. The course is about strategy implementation. Through the course, students learn to discern and manage four important variables on the way to effectively implementing a chosen strategy: organizational structure, control systems, people management systems, and organizational culture. In addition, students learn about leadership and management in the context of creating organizational change. The course entails lecture case discussions, individual assignments, and a major team project on strategy implementation within an existing organization. Finally, the course draws on, and applies to, the four thematic areas of study and professional practice upon which the Faculty of Management was formed: the private sector, the environment, the public sector and information technology.

MGMT 4031 Ecological Economics

CREDIT HOURS: 3

Ecological economics is an emergent, transdisciplinary field of inquiry whose primary concern is to advance the body of theory and tools to understand and manage the environmental dimensions of economic activity. It is an explicitly normative field oriented towards environmental sustainability in economic organization. Ecological economics recognizes three conditions necessary to environmental sustainability: appropriate scale (relative to biocapacity), efficient allocation, and just distribution. Given the breadth of material encompassed within the scope of ecological economics, this class will explore a subset of possible topics including the basic principles and theory of scale, efficiency, and distributive justice. In addition, the class will look at how these apply to managing real world issues in environmental management and explore the tools used by ecological economists to quantify and interpret scale, efficiency, and distributive justice. This course is designed as a one-term introduction to ecological economics for graduate students in environmental studies and related programs with little or no prior exposure to economics.

CREDIT HOURS: 3

Environmental education for all ages is a critical step in fostering sustainable behaviours and achieving higher level environmental goals. This course takes an interdisciplinary approach to studying environmental education, examining the cognitive and social science underpinnings of behaviour change. Through course readings and experiential "hands-on" learning opportunities, students are invited to critically evaluate how environmental educators create effective and authentically engaging programs. This course provides an overview of program evaluation techniques as well as environmental education in formal school settings, wilderness education, urban environmental education, how policy and mass media influence environmental behaviour.

MGMT 4340 Corporate Governance

CREDIT HOURS: 3

The central focus of corporate governance is the relationship between the top management team (TMT), the board of directors (BoD), and other stakeholders, especially stockholders. The collapse of once successful, large corporations across the globe illustrates the prankishness of their board members and the degree of their lack of concern for stockholders' interests. The reputation of audit and consulting companies associated with these ill-fated corporations suffered a great setback, leaving stakeholders wondering whom to trust to safeguard their interests. Students will take an in-depth look at the corporate governance triad, as indicated above, that controls the modern corporation. Accordingly, this course will deal with the control, composition, functions, roles, and structure of boards; board responsibility and accountability, CEO tenure and compensation, shareholder and other stakeholder representation; corporate board's vis-à-vis social responsibility and ethics; and comparative corporate governance across North America, Europe, and selected Asian countries.

Introduction

Dalhousie's Norman Newman Centre for Entrepreneurship, in collaboration with the Centre for Entrepreneurship Education and Development (CEED), offers a Certificate Program in entrepreneurship – the Entrepreneurial Skills Program (ESP), which is open to all Dalhousie University students.

ESP facilitates the development, growth and success of student-run ventures. Through extracurricular, individualized, experiential learning, you will apply skills learned in the classroom to your own ventures. Students participating in the program develop personal portfolios that illustrate their entrepreneurial capabilities. At Dalhousie there is a particular emphasis on ventures that address larger societal needs in the area of sustainability and social responsibility.

What is the Entrepreneurial Skills Program (ESP)?

The program is designed to be taken over the length of your time as a student at Dalhousie and therefore shouldn't extend time to degree completion. Successful students will earn a certificate in entrepreneurship in addition to their associated Dalhousie University academic degree in their field of study. The program culminates in the development of a personal portfolio that illustrates a student's entrepreneurial capabilities which is then presented to an accreditation panel. Upon successful completion of ESP, students are accredited and receive a certificate indicating venture readiness.

How do I know if ESP is for me?

Like most things, you probably won't know till you know. What we can say is that ESP typically appeals to those students who have an interest in being the masters of their own destiny. If you've got an idea for a business that you want to start, either during University or after graduation, then you owe it to yourself to get involved with ESP.

What's in it for me? Why would I want to be part of ESP?

Being part of ESP introduces you to a network of like-minded individuals. It's no surprise that successful people surround themselves with talented, energetic and visionary people. If you want to learn more about being in business for yourself, or if you want to get better at being an entrepreneur, then ESP is a good start.

By enrolling in ESP, you become part of a growing cohort of students that are interested in making a difference in their own lives and the lives of others. Aside from networking and peer-to-peer learning opportunities, you will also have access to training subsidies, business coaching, and skills development opportunities that you can leverage to make yourself a better business owner (or make yourself more marketable as an employee). If you participate in entrepreneurship classes you may be able to pursue your venturing interests while at the same time fulfilling some of the class assignment requirements.

If I sign up, how big a commitment are we talking about?

Students enrolled in ESP are free to choose their degree of involvement. Many students become heavily involved, attending most, if not all, ESP-sponsored events. Others attend a limited number of events. ESP is flexible enough to accommodate you and your personal, academic and professional schedules.

Does Dalhousie offer ESP to other university students?

Yes. Dalhousie offers the ESP program to university students from other local universities and colleges, including Saint Mary's University, Mount Saint Vincent University.

ESP sounds like a lot of work – what if it gets too much for me?

Involvement in ESP is entirely optional. You are free to leave the program at any point. Unlike most academic programs, there's no downside risks (mark-related/academic) associated with dropping ESP.

Introduction

Epidemiology is the core science that underpins both public health and evidence-based clinical practice and health policy. Epidemiologic research targets factors that influence the development, mechanism, and outcomes of health conditions. Included among these factors are biological and social determinants of health as well as health services and systems.

Our faculty members are responsible for an undergraduate course, CH&E 4010.03 Principles of Epidemiology and Research Methods. This course is offered in the Faculties of Science/Medicine, as part of the BSc Medical Sciences Program. Our faculty members are also engaged in tutoring, teaching, research mentorship, and leadership within the medical school (please see the [Faculty of Medicine](#) calendar for more information).

Degree Programs

The Department of Community Health & Epidemiology offers MSc and PhD programs in Epidemiology and Applied Health Research. Please see the [Faculty of Graduate Studies](#) calendar for more information.

Courses

Course Descriptions

CH&E 4010 Principles of Epidemiology and Research Methods

CREDIT HOURS: 3

This course is intended for undergraduate Medical Sciences students (others require instructor's permission) without formal training in epidemiology. It introduces the principles of epidemiology and research methods, with examples and applications. Topics include measures of health and risk, study designs, validity, causality, generalizability and critical appraisal of health-related scientific literature.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Priority will be given to students in the fourth year of the BSc Medical Sciences program. With the instructor's permission, the course is also available to other upper year undergraduate students. Students must have successfully completed STAT 1060 or equivalent, PHAC 3001, MICI 3115, and at least one of the following: ANAT 3010, PATH 3000, PHIL 2810, or SOSA 2503.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

Medical Neuroscience (Anatomy)

Medical Neuroscience (Anatomy)

Location:

Sir Charles Tupper Medical Building
5850 College Street
Room 13-B1
PO BOX 15000

Email Address:

Introduction

The Department of Medical Neuroscience fosters research and training in neuroscience that advances the understanding and treatment of diseases of the nervous system. Our faculty members contribute to undergraduate neuroscience courses in the Faculty of Science including NESC 3440: Human Neuroanatomy and NESC 4070: Chemical Neurobiology.

The Department of Medical Neuroscience is also the home for Anatomy at Dalhousie University, at the undergraduate level offering courses in human gross anatomy and histology.

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are typically available to students in the second, third, and fourth year. Courses numbered at the 5000 level or above are graduate level.

Some courses are listed as exclusionary to one another. This means that students may not obtain credit for both courses as designated.

Not all courses are offered each year. Please consult the current [timetable](#) for this year's offering. For further information please contact the department, or visit the department's website.

Course Descriptions

ANAT 1010 Basic Human Anatomy

CREDIT HOURS: 3

This course is offered by the Department of Medical Neuroscience primarily to students in the Schools of Nursing (Section 01). A limited number of seats are available for Special Health Professions, Arts and Science, or Non-Degree students. Note that this course is also offered by DISTANCE EDUCATION (ANAT 1010.03, Section 02) during the Regular Term (Fall or Winter). Upon successful completion of the course, the student will be able to explain and describe, at a basic level, the gross anatomy and histology of the human body. This course uses an online Virtual Anatomy Laboratory.

CALENDAR NOTES: Please note that the Distance Anat 1010 section 02 course is unrestricted and open to all students.

COREQUISITES:

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS: Section 01 is restricted to Nursing students and a limited number of seats are available for Special Health Professions, Arts & Science, or Non-Degree students.

LAB HOURS PER WEEK:

ANAT 1020 Basic Human Anatomy

CREDIT HOURS: 3

This course is offered by the Department Medical Neuroscience primarily to student in Recreation, Physical and Health Education and Kinesiology. A limited number of seats are available for Special Health Professions, Arts & Science, or Non-Degree students. Note that this course is also offered by DISTANCE EDUCATION (ANAT 1010.03, Section 02) during the Regular Term (Fall or Winter). Upon successful completion of this course, the student will be able to explain and describe, at a basic level, the gross anatomy and histology of the human body. This course uses an online Virtual Anatomy Laboratory.

CALENDAR NOTES: This course is NOT offered during the summer term.

LAB HOURS PER WEEK:

ANAT 2160 Introduction to Human Histology

CREDIT HOURS: 3

Histology is the study of the structure of cells, tissue and organ systems, and utilized information derived from both light and electron microscopy. This course complements studies in anatomy, cell biology, physiology, and biochemistry, broadening the understanding of how organisms function.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 2020.03 or permission of instructor

CROSSLISTED: BIOL 3430.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

ANAT 3421 Comparative Vertebrate Histology

CREDIT HOURS: 3

An advanced histology course surveying the whole range of vertebrate tissues and organs. The material is approached from a comparative perspective, considering tissue and organ histology throughout the major vertebrate courses.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 3430.03 or ANAT 2160.03 or equivalent

Course Descriptions

PATH 3000 Introduction to Pathology

CREDIT HOURS: 3

This course provides a general introduction into the science concerned with the basis of disease. The primary focus of the course is to highlight the basic concepts that underlie disease processes. These concepts are illustrated through a range of topics including: immunopathology, neoplasia, genetic disorder, neuropathology, hematopathology and cardiovascular pathologies.

Introduction

Pharmacology is the study of the actions and fates of drugs in biological systems. Studies of the interaction of drugs with their receptors and the elucidation of the cellular mechanisms underlying the resulting responses are central to Pharmacology. It is also important to understand how drugs are handled in the body, why they produce adverse effects, and how they interact with each other. In addition, scientists often use drugs as tools to determine the basic mechanisms that underlie both normal and pathological conditions in biology. A solid understanding of the principles of Pharmacology is essential for any scientist who wishes to use drugs as tools properly. The experimental approaches used in Pharmacology are varied, ranging from bioassay, electrophysiology, chemical and biochemical analyses to molecular biology.

Degree Programs

Students intending to pursue graduate training in Pharmacology are encouraged to study pharmacology at the undergraduate level. In addition, a solid background in pharmacology can open the door to employment in numerous sectors, most notably the pharmaceutical industry. The Department of Pharmacology does not offer an honours pharmacology degree program as such. However, it does provide courses that may be taken for credit within various other honours degree programs, including Biology, Biochemistry, Psychology (Neurosciences) and Microbiology and Immunology. In addition, students can conduct honours thesis research projects in the laboratories of Pharmacology faculty. Finally, undergraduate students may, with permission of their home department and the course instructor, take certain graduate specialty courses which are offered in the Department of Pharmacology.

LAB HOURS PER WEEK:

PHAC 3000 Experiential Learning in Pharmacology

CREDIT HOURS: 3

This one semester course is intended to introduce students to outside-the-classroom learning experiences. Students will work closely with a supervisor to learn laboratory skills and expand their knowledge in Pharmacology. Course structure will vary, depending on the nature of the experience.

CALENDAR NOTES: To register for this class, students must find a supervisor in the Department of Pharmacology and complete a project description, including expectations/role of the student learning objectives and assessment components. The project outline, objectives and assessment must be approved by the course coordinator prior to registration

EXCLUSIONS:

FORMATS: Experiential Learning

LAB HOURS PER WEEK:

PHAC 3001 Pharmacology I

CREDIT HOURS: 3

This course introduces students to pharmacology, the study of the interaction of drugs and toxins with the human body. Topics include drug receptors, metabolic transformation and distribution of drugs. Lectures explore the action of clinical agents used to treat

cardiovascular diseases, neurological diseases, pain, and cancer. Experts in the various fields of pharmacology present the different topics.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 2020 or instructor's consent. A course in Biochemistry or Physiology is recommend.

CROSSLISTED:

RESTRICTIONS: Restricted to third year and above

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PHAC 4000 Directed Research Project in Pharmacology

CREDIT HOURS: 3

This course is intended to introduce students to academic research in a laboratory environment. Students will work closely with a supervisor to develop a research question and project proposal to address this question. Students will learn laboratory skills and expand their knowledge in Pharmacology. It is expected that students will take 4000 & 4100 consecutively in Fall & Winter terms of the same academic year, unless otherwise agreed upon with the student, coordinator and supervisor.

CALENDAR NOTES: To register for this class, students must find a supervisor in the Department of Pharmacology and complete a project description, including expectations/role of the student learning objectives and assessment components. The project outline, objectives and assessment must be approved by the course coordinator prior to registration.

COREQUISITES:

PREREQUISITES: PHAC 3001

CROSSLISTED:

RESTRICTIONS: Requires permission of coordinator and supervisor

EXCLUSIONS: Lab work that is part of another course or paid employment is not eligible. Cannot be taken concurrently with an Experiential Learning or Honours course.

FORMATS: Other (explain in comments)

LAB HOURS PER WEEK:

PHAC 4001 Pharmacology II

CREDIT HOURS: 3

This course is designed to follow Pharmacology I, with further learning on the interaction of drugs and toxins with the human body. Topics include cell signaling, pain, hormones, special population pharmacology, chemical carcinogenesis, immunopharmacology, drugs of abuse, epilepsy and multiple sclerosis. Experts in various fields of pharmacology present the different topics.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PHAC 3001 or instructor's consent

CROSSLISTED:

RESTRICTIONS: Restricted to third year or above

EXCLUSIONS: PHAC 5409

FORMATS: Lecture

LAB HOURS PER WEEK:

PHAC 4100 Directed Research Project in Pharmacology

CREDIT HOURS: 3

This course is intended to introduce students to academic research in a laboratory environment. Students will work closely with a supervisor to develop a research question and project proposal to address this question. Students will learn laboratory skills and expand their knowledge in Pharmacology. It is expected that students will take 4000 & 4100 consecutively in Fall & Winter terms of the same academic year, unless otherwise agreed upon with the student, coordinator and supervisor.

CALENDAR NOTES: To register for this class, students must find a supervisor in the Department of Pharmacology and complete a project description, including expectations/role of the student learning objectives and assessment components. The project outline, objectives and assessment must be approved by the course coordinator prior to registration.

COREQUISITES:

PREREQUISITES: PHAC 3001

CROSSLISTED:

Introduction

The Department of Physiology and Biophysics offers a wide range of undergraduate courses in addition to those restricted to students in the faculties of Medicine, Dentistry and Health Professions. Students who have previously taken biology, chemistry, physics will be best equipped to study physiology.

The courses listed below are aimed at providing the student with an understanding of the functioning of the human body. The Distance Education course PHYL 1000X/Y.06 is open to all students. PHYL 2041.03 and/or PHYL 2044.03 is/are the recommended prerequisite for science students interested in taking higher level physiology courses. Students wishing to enrol in other specialized courses require permission from the Course Director.

Staff

Dean

Anderson, D. R., MD, FRCPC, FACP

Head of Department

Cowley, E. A., PhD

Undergraduate Student Advisor

Krueger, S., PhD (Zurich)

Penney, C., BSc, PhD (Dalhousie)

Professors

Brown, R. E., BSc (Victoria), MA, PhD (Dalhousie), major appointment in Department of Psychology and Neuroscience **Chappe, V.**, Licence Maitrise (Université de la Méditerranée-Marseille), Diplôme d'Etudes Approfondies, PhD (Université de Provence-Marseille, France)

Chauhan, B., PhD (Wales), major appointment in Department of Ophthalmology and Visual Sciences
Cowley, E. A., BSc (London), PhD (Leicester)
Croll, R. P., BSc (Tufts), PhD (McGill)
Fine, A., AB (Harvard), VDM, PhD (Penn)
French, A. S., MSc, PhD (Essex)
Lehmann, C., MD, PhD (Humboldt, Germany), FRCPC (Dalhousie)
Linsdell, P., BSc (London), PhD (Leicester), Undergraduate Coordinator
Meinertzhagen, I. A., BSc (Aberdeen), PhD (St. Andrews), major appointment in Department of Psychology and Neuroscience
Schmidt, M., MD (Munich), major appointment in Department of Anesthesia
Torkkeli, P. H., BSc, MSc, LcSc (Oulu), PhD (Alberta)

Associate Professors

Anini, Y., BSc (Agadir), MSc, PhD (Pierre & Marie Curie University, France)
Dong, X., PhD (Univ of Science and Technology of China)
Krueger, S., PhD (Zurich)

Quinn, T. A., BSc (McGill), MSc, MPhil, PhD (Columbia)

Tremblay, F., BSc, PhD (Montreal), major appointment in Department of Ophthalmology and Visual Sciences
Wang, J., PhD (State Univ of NY), major appointment in School of Human Communication Disorders

Assistant Professors

Chaudhary, K., B.Pharm (Gujarat University, Gujarat, India), PhD (Alberta)
Chen, R., BSc, MD (Dalhousie), FRCPC (C), major appointment in Department of Pediatrics
El Hiani, Y., PhD (Université Picardie Jules Verne, Amiens, France)
Sapp, J. L., BSc (Toronto), BSc Med, MD (Dalhousie), FRCPC(C), major appointment in Department of Medicine

Adjunct Professors

Baratte, S., MSc, PhD (Univ Pierre et Marie Curie-Pris)
Höger, Ulli., MSc, PhD (Johann Wolfgang Goethe Univ, Germany)
Luhovyy, B., MS, BSc, PhD (Lviv Ivan Franko National Univ, Ukraine)
Pavlov, E., MSc (Moscow State Univ), PhD (Instit. of Theor. & Exp. Biophysics, Russia)

Senior Instructor

Penney, C., BSc, PhD (Dalhousie)

Instructor

Beaudoin, M.-S., BSc (McGill), MSc, PhD (Guelph)

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are typically available to students in the second, third, and fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not obtain credit for both courses as designated.

Not all courses are offered each year. Please consult the current [timetable](#) for this year's offering. For further information please contact the department, or visit the department's website.

Course Descriptions

PHYL 1000 Human Physiology

CREDIT HOURS: 6

This online distance course in Human Physiology is equivalent to the lecture-based course PHYL 1010X/Y.06. This introductory course explores the organization and function of the human body from the level of molecules to organ systems and the integration of systems within the whole organism. Learning activities include textbook readings, recorded lectures for more complex topics, computer-simulated labs, quizzes and collaborative review sessions. The course is normally given during the Regular session (Sept-Apr), and in the Summer session (May-June, PHYL 1000). DIRECTORS: C. Penney and M.-S. Beaudoin

CALENDAR NOTES: Credit can only be given for this course if X and Y are completed in consecutive terms and partial credit cannot be given for a single term. This course cannot be used as a prerequisite for 3rd or 4th year Physiology courses, nor as a co-requisite for PHYL 2570.03 Cellular Neurophysiology.

COREQUISITES:

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: PHYL 1010X/Y.06

FORMATS: Tutorial

LAB HOURS PER WEEK:

PHYL 1001 Human Physiology 1

CREDIT HOURS: 3

This online distance course is the first of two that explore the organization and function of the human body from the level of molecules to organ systems and the integration of systems within the whole organism. Specific topics in this course include Cellular Physiology with an emphasis on Transport, Metabolism and Communication, the Immune System, Neural, Muscle and Sensory Physiology and Control of Body Movement. DIRECTORS: C. Penney and M.-S. Beaudoin

CALENDAR NOTES: This course is normally given during the Fall Semester, and in the Summer session (May) and meets the prerequisite requirement for PHYL 1002.03 (Human Physiology 2) and PHYL 1012.03. This course can not be used as a prerequisite course for 3rd and 4th year physiology courses, nor as a co-requisite for PHYL 2570.03 (Cellular Neurophysiology).

COREQUISITES:

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PHYL 1002 Human Physiology 2

CREDIT HOURS: 3

This course is a continuation of PHYL 1001.03 and explores the organization and function of the human body from the level of molecules to organ systems and the integration of systems within the whole organism. Specific topics in this course include Endocrine, Cardiovascular, Respiratory, Renal, Acid-Base, Whole Body Metabolism and Reproductive Physiology. DIRECTORS: C. Penney and M.-S. Beaudoin

CALENDAR NOTES: This course is normally given during the Winter Semester, and in the Summer session (June). This course can not be used as a prerequisite course for 3rd and 4th year physiology courses, nor as a co-requisite for PHYL 2570.03 (Cellular Neurophysiology).

COREQUISITES:

PREREQUISITES: PHYL 1001.03 or PHYL 1011.03 or permission of course director

CROSSLISTED:

LAB HOURS PER WEEK:

PHYL 1400 Human Physiology

CREDIT HOURS: 6

This course is designed to give Pharmacy students a broad understanding of normal human physiology using pathophysiologic scenarios. Selected topics in physiology will be presented in tutorials as case studies and in lectures. The central themes include: respiratory, endocrine/reproductive, gastrointestinal, neuromuscular, nervous system, renal and cardiovascular. Students will be provided with means for self-evaluation throughout the unit. Evaluation will be based on tutorial performance as well as mid- and end-of-unit examinations. This course is only for Pharmacy students. DIRECTOR: E. Cowley

LAB HOURS PER WEEK:

PHYL 1500 Human Physiology for Pharmacy

CREDIT HOURS: 3

This course explores the organization and function of the human body and is designed to give Pharmacy students a broad understanding of normal human physiology. Additionally, numerous pathophysiological scenarios will be introduced. All of the main areas of human physiology will be discussed, including cellular, respiratory, endocrine and reproductive, gastrointestinal, renal, cardiovascular and the nervous system. Evaluation will be by mid- and end-of-unit evaluations. This course is for Pharmacy students only. DIRECTOR: E. Cowley and other staff members

LAB HOURS PER WEEK:

PHYL 2041 Human Neurophysiology

CREDIT HOURS: 3

The aim of this class is to understand the functional mechanisms of the human nervous system and its clinical significance. The course covers the electrical and chemical properties of neurons and glia, and how neurons communicate with one another and with muscle cells. It reviews the motor, sensory and higher integrative functions of the central nervous system, and the closely related autonomic nervous system. It also surveys the physiology and functional anatomy of the somatosensory, visual, auditory, vestibular and chemical senses. Both normal functions and selected pathologies of these systems will be discussed. The class also covers important investigative techniques in neuroscience. The overall objective is to provide a solid, factual foundation of knowledge in

neurophysiology as well as its underlying principles.

CALENDAR NOTES: PHYL 2041, a core neurophysiology class for students in the Medical Sciences program, serves as equivalent to NESC 2470.03 as prerequisite for upper level NESC courses. Medical Sciences students intending to take NESC 2470.03 in place of PHYL 2041 are advised to also enroll in NESC 2570 as a Selective. Directors: A.S. French and P.H. Torkkeli

COREQUISITES:

PREREQUISITES: (BIOL 1010.03 or BIOL 1020.03) and (BIOL 1011.03 or 1021.03) and (CHEM 1012.03 or CHEM 1022.03), or equivalent

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: NESC 2470.03, PHYL 2031.03, PHYL 2030.03

FORMATS: Lecture

LAB HOURS PER WEEK:

PHYL 2044 Human Systems Physiology

CREDIT HOURS: 3

The human body consists of cells organized into a number of organ systems. The aim of this class is to explain how six organ systems (respiratory, cardiovascular, renal, gastrointestinal, endocrine and reproductive) function to allow us to live and carry out our daily activities. Although emphasis is on normal function, there is also discussion of selected pathologies. Director: T.A. Quinn

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 1010.03 (or BIOL 1020.03) and BIOL 1011.03 (or BIOL 1021.03) and CHEM 1012.03 OR CHEM 1022.03 or equivalent

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: PHYL 2030.06, PHYL 2032.03

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

PHYL 2570 Cellular Neurophysiology

CREDIT HOURS: 3

This course provides an introduction to the function of the nerve cells of the brain, which forms the basis for explaining features of brain function in terms of activity of individual cells and their membrane properties, as well as small networks of neurons. The course is designed for all students wishing to take more advanced courses in, or to major in, Neuroscience. Although the course covers topics of neuroscience at all levels, the content is directed towards cellular neuroscience; detailed coverage of the strictly developmental systems or molecular levels of neuroscience is provided in other courses. DIRECTOR(S): S. Adamo

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 1011.03 or PSYO 1021.03 or PSYO 1031.03 and PSYO 1012.03 or PSYO 1022.03 or PSYO 1032.03 or SCIE 1505.18 or SCIE 1515.36, SCIE 1520.30, 1540.27 or (BIOL 1010.03 or BIOL 1020.03 AND BIOL 1011.03 or BIOL 1021.03 with a grade of B- or better)

CROSSLISTED: NESC 2570.03, PSYO 2570.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PHYL 3120 Exercise Physiology in Health and Disease

CREDIT HOURS: 3

The function and dysfunction of body organ systems are reviewed, and the short- and long-term responses of these systems to physical exercise are analyzed. Factors affecting physical performance are considered, and the preventive and therapeutic use of exercise for a wide range of clinical conditions is examined. DIRECTOR: M.-S. Beaudoin.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PHYL 2032.03 or PHYL 2044.03 or permission of the class director

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

PHYL 3320 Human Cell Physiology

CREDIT HOURS: 3

Events at the cellular and molecular level underlie the functions of tissues, organs and systems. This course examines key physiological principles at the molecular level, and uses the understanding developed to describe important cell and tissue functions, as well as dysfunctions in human disease states. Lectures focus on membrane transport, electrical excitability and electrical signaling, epithelial transport, signaling within individual cells, intracellular organelle function, and ion channels. DIRECTOR: P. Linsdell

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PHYL 2044.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PHYL 3420 Sensory Physiology

CREDIT HOURS: 3

This course will describe the physiological and biophysical basis of human sensory systems including vision, audition, vestibular, olfaction, gustation, and somatosensory (skin and proprioception). Emphasis will be on the transduction of physical stimuli and the early neural processing that occurs in sensory cells and immediately associated tissues. DIRECTOR: S. Barnes and guest lecturers. Next offered in 2018/2020.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: NESC 2470.03 or PHYL 2570.03/NESC 2570.03 or PHYL 2041.03 or equivalents

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Discussion

LAB HOURS PER WEEK:

PHYL 3520 Core Concepts in Medical Physiology

CREDIT HOURS: 3

Through didactic (lectures) and problem-solving (tutorial) sessions, students will gain a deeper understanding of the functions of various organ system physiologies. In addition, the integration of a number of organ system functions will also be discussed. Where appropriate, the physiology of disease processes will underscore the consequences of a malfunction of a physiological process. Organ systems covered include cardiovascular, renal, respiratory and gastrointestinal. A firm understanding of physiological principles is essential for any student contemplating a career in the health professions. DIRECTOR: Y. Anini

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PHYL 2044.03 or permission of course director

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: PHYL 4504.03

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

PHYL 3600 Directed Project in Physiology

CREDIT HOURS: 3

The goal of this course is to provide advanced undergraduate students with the opportunity to conduct a research project under the supervision of a faculty member in the department of Physiology & Biophysics. Projects may cover a variety of experimental approaches and topics including, but not limited to, cardiovascular physiology, neurophysiology, respiratory physiology, endocrinology and neuroendocrinology, and molecular physiology.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PHYL 2041.03 and PHYL 2044.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lab

LAB HOURS PER WEEK:

PHYL 3620 Human Physiology Lab

CREDIT HOURS: 3

This course offers fundamental concepts of human physiology including neural, muscular, cardiovascular, respiratory, renal, gastrointestinal, endocrine and sensory systems. Students will learn to carry out experimental procedures such as measurement and analysis of ECG, EEG, blood pressure, pulmonary function, senses and reflexes, integrating practical knowledge with theoretical background and clinical significance. DIRECTOR: M.-S. Beaudoin

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PHYL 2044.03 or permission of course director

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: PHYL 2031.03, PHYL2032.03, PHYL 2030.06 X/Y

FORMATS: Lab

LAB HOURS PER WEEK:

PHYL 4000 Current Advances in Synaptic Function and Plasticity

CREDIT HOURS: 3

Key recent research studies in cellular and systems neurophysiology are presented and discussed. Emphasis is placed on synaptic function and plasticity, excitability, dendritic integration, neural networks and relevant advances in experimental methods. Newly published papers within these areas are reviewed weekly, followed by a more extensive critique of two publications. DIRECTORS: S. Krueger and A. Fine

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: NESC 2570.03/PHYL 2570.03 or PHYL 2041.03 or permission of course directors

CROSSLISTED: NESC 4185.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Seminar

LAB HOURS PER WEEK:

PHYL 4324 Endocrine Physiology

CREDIT HOURS: 3

This course is designed to provide intermediate and advanced undergraduates with a basic understanding of the function of the endocrine system. The course will progress from a consideration of basic concepts and mechanisms to the physiological function of specific endocrine systems. Interactions between organ systems will be emphasized. DIRECTOR: Y. Anini

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PHYL 2044.03 or permission of the class director

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PHYL 4504 Respiratory Physiology

CREDIT HOURS: 3

This class will provide a detailed overview of key concepts in respiratory physiology. Attention will be given to aspects of integrated physiology, as well as cellular and molecular concepts. Particular reference will be given to pulmonary diseases. Students will be expected to make presentations based on appropriate literature. Specific topics to be covered include: mechanics of breathing; gas exchange; gas transport; ventilation-perfusion ratios; pulmonary function testing; blood flow and metabolism; airway epithelial cells and transepithelial transport; mechanisms of airways host defence; control of ventilation; respiratory system under stress; cardiopulmonary response to aerobic exercise. Director: E.A. Cowley

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PHYL 2044.03

CROSSLISTED:

RESTRICTIONS:
EXCLUSIONS: PHYL 5504.03
FORMATS: Lecture | Discussion
LAB HOURS PER WEEK:

PHYL 4680 Cardiovascular Physiology

CREDIT HOURS: 3

This course provides a detailed overview of key concepts of cardiovascular physiology and disease, including discussion of current research in the field. Students will be expected to make presentations based on appropriate literature. Topics include: cardiac anatomy/structure; electrophysiology; excitation-contraction coupling; mechanics; pump-function and regulation of the vasculature.

Director: T. A. Quinn

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PHYL 2044.03 or permission of the course director

Introduction

Dalhousie's Faculty of Science is the primary centre in the region for science education and research. The principal mission of the Faculty is the discovery, organization, dissemination and preservation of knowledge and understanding of the natural world. The Faculty is dedicated to excellence in the pursuit of this mission. Students in the Faculty of Science develop a capacity for inquiry, logical thinking and analysis; cultivate an ability to communicate with precision and style; and acquire skills and attitudes for lifelong learning.

We offer students the opportunity to pursue undergraduate degrees in 16 different Science programs, including disciplines in the life sciences, physical sciences, and mathematical or economic sciences. In addition, students may combine studies across science disciplines, or with subject areas from other faculties, including the Faculty of Arts & Social Sciences, the Faculty of Computer Science or the College of Sustainability. Other opportunities include the Co-op Education in Science option, where paid work terms are integrated into academic programs, opportunities

to participate in research projects led by internationally renowned scientists, and the chance to work toward Certificates that recognize particular skill sets or training obtained as part of a science undergraduate education.

Details concerning particular programs of study are found in the departmental and program entries.

Departments and Programs of the Faculty of Science

The Faculty of Science offers 16 undergraduate programs:

- [Actuarial Science](#)
- [Biochemistry and Molecular Biology](#) * ^c
- [Biology](#) ^c
- [Chemistry](#) ^c
- [Earth Sciences](#) ^c
- [Economics](#) ^c
- [Environmental Science](#) ^c

Certificates

Certificates in Science

Certificates are one way that the Faculty of Science recognizes graduating students who have achieved a level of proficiency or specialization in a particular area or subject. Certificates are awarded upon graduation from a degree program and will be recorded on the student's academic transcript.

Certificates vary in their goals and requirements. Many have a research or practicum component. Some are interdisciplinary, requiring work in more than one department, while others focus on a specialization within a single program. Some Certificates are designed for students enrolled in particular programs, while others are broadly applicable to students in any science program.

In Certificate programs, students enrol by applying to the Certificate Coordinator. Interested students are advised to enrol early in their programs of study, but enrolment is usually also permitted in the final year of study, provided requirements have been met. To be awarded a Certificate, students must notify the Coordinator of their intention to graduate, and provide evidence of completion of all Certificate requirements, prior to the end of the examination period of their final year. Some Certificate programs may require earlier notification; please check with your Coordinator.

Faculty of Science students may also work toward obtaining Certificates offered by other Faculties; some of these are listed in the College of Arts and Science Degree Requirements section of the calendar.

The following Certificates are offered by the Faculty of Science. Students enrolled in one of the programs listed beside the Certificate are most likely to be able to meet the Certificate requirements within their programs. Specific Certificate requirements are described below.

- [Certificate in Actuarial and Financial Mathematics](#) (Mathematics, Statistics)
- [Certificate in Animal Behaviour](#) (Biology, Psychology and Neuroscience)
- [Certificate in Applied and Computational Mathematics](#) (Mathematics, Statistics)
- [Certificate in Aquaculture and the Environment \(Biology, Marine Biology\)](#)
- [Certificate in Environmental Impact Assessment](#) (Biology, Environmental Science)
- [Certificate in Genetics](#) (Biochemistry & Molecular Biology, Biology, Microbiology & Immunology)
- [Certificate in Geographic Information Science](#) (Biology, Earth Sciences, Environmental Science)
- [Certificate in Information Technology](#) (Earth Sciences, Physics)
- [Certificate in Materials Science](#) (Chemistry, Physics, Earth Sciences)
- [Certificate in Medicinal Chemistry](#) (Chemistry)
- [Certificate in Neurotechnology Innovation \(Psychology, Neuroscience\)](#)
- [Certificate in Science Leadership and Communication](#) (any 4-year Faculty of Science program)

Certificate in Actuarial and Financial Mathematics

Offered by: Mathematics & Statistics

Coordinator: Dr. Toby Kenney (tkenney@mathstat.dal.ca) Mathematics and Statistics

This program provides many of the learning objectives and fundamental mathematical and statistical skills required to complete the classes (and examinations) of the Society of Actuaries accreditation program. Students who are interested in a career in actuarial science should consult the Basic Education Catalogue on the Society of Actuaries web page (www.soa.org) or the Syllabus of Basic Education on the Casualty Actuaries website (www.casact.org). This program also prepares students for employment in general financial institutions where modeling, quantitative risk analysis, management of investment instruments, asset and liability management, life contingencies and insurance assessment, and other complex financial calculations are required.

More information on this certificate is available at: <https://www.dal.ca/faculty/science/programs/diploma-certificate-programs/actuarial-and-financial-mathematics1.html>

Admission to Certificate

To enrol in the *Certificate in Actuarial and Financial Mathematics*, students must declare the certificate through Dal Online (<https://dalonline.dal.ca>>Web for Students > Admissions > Declare Major/Minor/Certificate), and notify the Certificate Coordinator by e-mail.

To graduate with the Certificate, students must apply to graduate with a Certificate at the time they apply to graduate from their degree program.

Certificate Requirements:

1. Completion of a 120 credit hour Major or Honours program in Mathematics and/or Statistics
2. Completion of the following mathematics courses: MATH 1000, MATH 1010, MATH 1030 or 2030, MATH 2001, MATH 2002, MATH 2600
3. Completion of the following statistics courses: STAT 2060, STAT 2080, STAT 3340 and STAT 3360
4. Completion of either:

Financial Option: MATH 2120, MATH 3300, and MATH 3900

OR

Actuarial Option: STAT 3703, STAT 3720, and STAT 4390

Certificate in Animal Behaviour

Offered by: Biology, Psychology and Neuroscience

Coordinator:

Dr. Andy Horn aghorn@dal.ca (Biology)

The Certificate in Animal Behaviour provides students with an opportunity to specialize in Animal Behaviour through a set of courses and a research project.

More information on this Certificate is available at: <https://www.dal.ca/faculty/science/programs/diploma-certificate-programs/certificate-in-animal-behaviour.html>

Admission to Certificate

Students should enroll in the Certificate in Animal Behaviour in their third year of studies, when they are seeking approval from the Certificate Coordinator for the independent research component. To enroll, students must declare the certificate through Dal Online (<https://dalonline.da> >Web for Students>Admissions>Declare Major/Minor/Certificate), and notify the Certificate Coordinator by e-mail. To qualify for this certificate, students must complete all course requirements, and have received approval for the research component of the certificate prior to the start of the research course.

To graduate with the certificate, students must apply to Graduate with a Certificate at the time they apply to graduate from their degree program

Certificate requirements:

1. A minimum grade of a B- is required in four mandatory courses:

- PSYO 2160.03/NESC 2160.03: Animal Behaviour
- PSYO 2501.03: Statistical Methods or STAT 2080.03: Statistical Methods for Data Analysis Inference
- BIOL 3062.03: Behavioural Ecology or PSYO 3162.03/NESC 3162.03: Advanced Animal Behaviour
- BIOL 3630.03: Field Methods in Animal Behaviour or NESC 3161.03/PSYO 3161.03: Measuring Behaviour or NESC 3165.03/PSYO 3165.03: Neuroethology

2. A grade of B- in 12 additional credit hours of courses chosen from the following list. Courses taken as one of the four mandatory classes cannot also be used to fulfill this requirement. Six credit hours must be at the 3000/4000 level.

2000 level

- ANSC 2003.03: Companion Animal Behaviour
- PSYO 2140.03/NESC 2140.03: Learning
- PSYO 2160.03/NESC 2160.03: Animal Behaviour
- PSYO 2470.03/NESC 2470.03: Systems Neuroscience

3000 level

- BIOL 3062.03: Behavioural Ecology
- BIOL 3080.03/MARI 3080.03: Ecology and Evolution of Fishes
- BIOL 3327.03: Entomology
- BIOL 3622.03: Ornithology
- BIOL 3626.03: Field Studies of Marine Mammals
- BIOL 3628.03/MARI 3628.03: Marine Ornithology
- BIOL 3640.06: Tropical Ecology and Biodiversity (with Animal Behaviour project: counts for three credit hours only)
- BIOL 3632.03: Applied Field Methods in Fish Ecology
- MARI 3090.03: Marine Mammalogy
- PSYO 3000.06/NESC 3000.06: Independent Research in Modern Psychology (Animal Behaviour topic)
- PSYO 3001.03/NESC 3001.03: Directed Research Project in Psychology (Animal Behaviour topic)
- PSYO 3043.03/NESC 3043.03: Neurobiology of Learning
- PSYO 3044.03/NESC 3044.03: Laboratory Methods of Learning and Conditioning
- PSYO 3161.03/NESC 3161.03: Measuring Behaviour
- PSYO 3162.03/NESC 3162.03: Advanced Animal Behaviour
- PSYO 3170.03/NESC 3170.03: Hormones and Behaviour
- PSYO 3180.03/NESC 3180.03: Psychoneuroimmunology/Ecological Immunology

- PSYO 3670.03/NESC 3670.03: Genes, Brain and Behaviour

4000 level

- BIOL 4323.03/MARI 4323.03: Biologging in Ecology
- BIOL 4800.06: Special Topics (Animal Behaviour topic)
- BIOL 4806.03/MARI 4806.03, BIOL 4807.03/MARI 4807.03, BIOL 4808.03/MARI 4808.03, BIOL 4810.03: Special Topics (Animal Behaviour topic)
- MARI 4090.03: Evolutionary Ecology of Marine Mammals
- PSYO 4160.03/NESC 4160.03: Topics in Behavioural Biology

3. A grade of B- in 3 credit hours or more of independent research in Animal Behaviour.

The course used to fulfil this requirement can also be counted toward the courses that fulfil Requirement 2 above.

Students must obtain approval of their research topic from a Certificate Coordinator prior to the start of the research course. Animal behaviour research projects may be completed through one or more of PSYO 3000.06/NESC 3000.06, PSYO 3001.03/NESC 3001.03, PSYO 4500.06/NESC 4500.06, BIOL 4800.06, BIOL 4806.03/MARI 4806.03, BIOL 4807.03/MARI 4807.03, BIOL 4808.03/MARI 4808.03 or BIOL 4900.06.

Honours students may fulfill this requirement by conducting their honours thesis research on a topic in Animal Behaviour. Students are encouraged to further develop their study design and analysis skills by taking additional courses such as BIOL 4061.03 (Design of Biological Experiments) or BIOL 4062.03 (Analysis of Biological Data).

Certificate in Applied and Computational Mathematics

Offered by: Mathematics & Statistics

Coordinator: Dr. R. Smirnov smirnov@mathstat.dal.ca

This program is concerned with the development of the core mathematical and computational skills required in science, government and industry. Areas of application include everything from mathematical modeling to operations research to cryptography to software development.

More information on this certificate is available at: <https://www.dal.ca/faculty/science/programs/diploma-certificate-programs/applied-and-computational-mathematics.html>

Admission to Certificate

To enrol in the **Certificate in Applied and Computational Mathematics**, students must declare the certificate through Dal Online (<https://dalonline.dal.ca> >Web for Students>Admissions>Declare Major/Minor/Certificate), and notify the Certificate Coordinator by e-mail.

To graduate with the Certificate, students must apply to graduate with a Certificate at the time they apply to graduate from their degree program.

Certificate Requirements:

1. Completion of the 120 credit hour Major or Honours program in Mathematics or an equivalent program
2. Completion of the following mathematics courses: MATH 1000, MATH 1010, MATH 1030 (or MATH 2030), MATH 2001, MATH 2002, MATH 2040, MATH 2112/CSCI 2112, MATH 2120
3. Completion of at least four of: MATH 3120, MATH 3210, MATH 3260, MATH 3300, MATH 3330, MATH 3400
4. Completion of at least two of: MATH 4116, MATH 4220, MATH 4230, MATH 4250, MATH 4320

Additional recommended courses: MATH 2300, STAT 2060, STAT 2080

Certificate in Aquaculture and the Environment

Offered by: Faculty of Science

Coordinator: Dr. Diego Ibarra Diego.ibarra@dal.ca (Biology)

Eligibility: The certificate is open to any Dalhousie undergraduate student. Non-degree Dalhousie students may qualify for the certificate if they fulfill all course requirements at Dalhousie.

Overview: The *Certificate in Aquaculture and the Environment* consists of courses that include lectures, laboratories, and visits to coastal and land-based aquaculture sites. It is designed to provide students with knowledge of, and experience with general aspects of the cultivation of aquatic species. The emphasis is on understanding aquaculture - environment interactions, and acquiring the knowledge, skills and quantitative tools needed to assess and reduce the environmental footprint of aquaculture operations.

Additional information on this certificate is available at: <https://www.dal.ca/faculty/science/programs/diploma-certificate-programs/aquaculture.html>

Admission to Certificate

To enrol in the *Certificate in Aquaculture and the Environment*, students must declare the certificate through Dal Online (<https://dalonline.dal.ca> >Web for Students>Admissions>Declare Major/Minor/Certificate), and notify the Certificate Coordinator by e-mail. To qualify for the certificate, students must complete the course requirements, and have received approval from the Certificate Coordinator if a course other than MARI 3604 is used to fulfil subject area F.

To graduate with the Certificate, students must Apply to Graduate with a Certificate at the time they apply to graduate from their degree program.

Certificate Requirements

To obtain the *Certificate in Aquaculture and the Environment*, students must take one course from each of six subject areas (A to F), with a minimum of B- in each course. Note that most of these courses may also count toward a Major, Minor or Honours program in Biology or Marine Biology.

A. Introduction to aquaculture

- MARI 3602.03: Introduction to Aquaculture

B. Practical Skills in Aquaculture

- MARI 3603.03: Practical Aquaculture

C. Biology of Aquatic Organisms

One of

- MARI 3074.03: Physiology of Marine Animals Part I
- MARI 3076.03: Physiology of Marine Animals Part II
- MARI 3221.03: Diversity of Algae
- MARI 3301.03: Invertebrate Biology
- MARI 4080.03: Laboratory Studies of Fishes
- BIOL 4662.03/MARI 4662.03/OCEA 4230.03: Biology of Phytoplankton

D. Aquaculture and the environment

- MARI 4600.03: Ecosystem modelling for Aquaculture

E. Aquaculture management

One of

- OCEA 4401.03: Marine Management I
- OCEA 4402.03: Marine Management II
- BIOL 4001.03: Environmental Impact Assessment
- ENVS 3200.03: Introduction to Environmental Law
- ECON 3335.03: Environmental Economics

F. Industry-relevant knowledge and experience

** One of

- MARI 3604.03: Field Aquaculture
- * MARI 3800.03: Experiential Learning
- * MARI 4806.03: Special Topics
- * MARI 4901.03 and MARI 4902.03 (or MARI 4900.06): Honours Thesis
- * MARI 8891.00 (or MARI 8892.00 or MARI 8893.00) Co-op work term
- * ENVS 3000.03: Environmental Science Internship
- * ENVS 8891.00 (or ENVS 8892.00 or ENVS 8893.00) Co-op work term
- * SUST 3002.03: ESS Engagement Project
- * SCIE 4701.03 and SCIE 4702.03 Science and Technology Innovation, Commercialization and Entrepreneurship I and II

* These courses must be pre-approved (prior to start of the course) by the certificate coordinator as having a focus on aquaculture

** Some alternatives used to fulfil **Requirement F** are not available to students in all programs. For example, MARI 4900 is open only to students in the Marine Biology Honours program, MARI 8891 and ENVS 8891 are open only to students in Marine Biology or Environmental Science Co-op programs.

Certificate in Data Analytics

Offered by: Faculty of Science

Coordinator: Dr. Bruce Smith, Mathematics and Statistics bruce.smith@dal.ca

Eligibility: Open to Dalhousie undergraduate students

Overview: Data Analytics is an interdisciplinary field aimed at extracting knowledge from data of various forms. The techniques of data analytics draw heavily from the fields of statistics, computer science, and mathematics. Students completing the certificate will understand distinctions among data, information and knowledge, will be able to use the Structured Query Language (SQL) to manipulate relational databases, the R programming language to model data using a variety of machine learning and statistical models, and will be able to assess the performance of predictive models.

Admission to Certificate

To enrol in the *Certificate in Data Analytics*, students must declare the certificate through Dal Online (<https://dalonline.dal.ca>>Web for Students > Admissions > Declare Major/Minor/Certificate), and notify the Certificate Coordinator by email.

To graduate with the Certificate, students must apply to Graduate with a Certificate at the time they apply to graduate from their degree program.

Certificate requirements:

- MATH 1000: Differential and Integral Calculus I (or MATH 1215 or MATH 1280)
- MATH 1030: Matrix Theory and Linear Algebra I
- MATH 2040: Matrix Theory and Linear Algebra II (or MATH 2135)
- STAT 1060: Introduction to Statistics (or STAT 2060)
- STAT 2450: Introduction to Data Mining with R
- CSCI 2202: Computer Modeling for Scientists (or CSCI 1105 or CSCI 1110)
- CSCI 2141: Introduction to Database Systems
- One of
 - BIOC 4010: Bioinformatics
 - BIOL 4062: Analysis of biological data
 - CHEM 4205: Chemometrics
 - CSCI 4146: The process of data science
 - ECON 4440: Time series analysis in economics
 - ENVS 3100: Environmental analytics
 - EARTH 4520: GIS applications
 - MARI 4600: Ecosystem modelling for aquaculture
 - OCEA 4210/STAT 4390: Time series analysis in oceanography and meteorology
 - PHYC 3250: Computational methods in physics
 - PHYC 4250: Topics in numerical computing
 - STAT 4130: Bayesian data analysis
 - STAT 4350: Applied multivariate analysis
 - STAT 4550: Longitudinal data analysis
 - STAT 4620: Data analysis
 - STAT 4100: Survival analysis

Certificate in Environmental Impact Assessment

Offered by: Biology, Environmental Science, Marine Biology

Coordinator: Dr. Pat Lane patricia.lane@dal.ca

The **Certificate in Environmental Impact Assessment** is for students who are interested in, or majoring in environmental areas, and who wish to pursue additional training in EIA. This certificate is available to students in the Faculty of Science, Faculty of Arts and Social Sciences, Faculty of Management, and the College of Sustainability.

Students will learn to:

1. Apply a Project EIA Framework in the preparation of a Nova Scotia - based EIA.
2. Demonstrate an understanding of relevant federal and provincial (Nova Scotia) legislation.
3. Design a meaningful stakeholder participation program.
4. Use environmental impact and risk methodologies to accurately predict project impacts.

5. Design an Environmental Management Plan that includes: mitigation, enhancement, compensation, and monitoring.
6. Construct a follow-up plan for residual impacts and project accountability.
7. Prepare a Strategic Environmental Assessment (SEA) y for a federal policy.

Disclaimer: This EIA Certificate was developed within Dalhousie University and it is not designed to fulfill any governmental and/or professional requirements outside of the university, in Canada or abroad.

The Certificate requires a total of 24 credit hours as follows:

- Required EIA course: BIOL 4001.03/ENVS 4001.03 (3 credit hours) to be taken in fourth year. Note: transfer or online courses are not acceptable substitutes for this requirement.
- Introductory science, SUST, or IDS course (min 3 credit hours) from Table 1.
- Environmental courses with theoretical content from Table 2 (minimum 9 credit hours).
- Methods courses with field, laboratory, statistical, or modelling experience from Table 3 (minimum 3 credit hours)
- Supplementary courses in Major or Related Disciplines from Table 4 (minimum 6 credit hours).

Students must obtain a minimum grade of B for all courses counted toward the certificate. Classes cannot be substituted from one table to another. Discontinued courses are no longer available for registration, but can satisfy certificate requirements if they are on your transcript.

Table 1. Introductory Courses (minimum of 3 credit hours from the following list)

- BIOL 2060.03: Introductory Ecology
- ENVS 1100.03: Foundations of Environmental Science
- ENVS 1200.03: Current Environmental Challenges
- EARTH 2410.03/ENVS 2410.03: Environmental Issues in Earth Science
- GEOG 2100X/Y.06/SOSA 2100X/Y.06: Environment and Culture
- INTD 2001.03/GEOG 2201.03: Introduction to Development 1
- INTD 2002.03/GEOG 2202.03: Introduction to Development 2
- OCEA 2001.03 AND OCEA 2002.03 (or the former OCEA 2000X/Y.06): The Blue Planet
- SUST 2000.06: Local Governance, Citizen Engagement, and Sustainability
- SUST 2001.06: Environment, Sustainability and Governance: A Global Perspective

Table 2. Theory-Based courses (minimum of 9 credit hours from the following list)

- BIOL 3060.03: Environmental Ecology
- BIOL 3061.03: Communities and Ecosystems
- BIOL 3062.03: Behavioural Ecology
- BIOL 3063.03/MARI 3063.03: Resource Ecology
- BIOL 3065.03: Conservation Biology
- BIOL 3601.03: Nature Conservation
- ECON 3335.03: Environmental Economics
- ENVS 3200.03: Introduction to Environmental Law
- ENVS 3301.03: Enterprise Sustainability
- ENVS 3501.03: Environmental Problem Solving I
- ENVS 3601.03/ERTH 3601.03: Global Biogeochemical Cycles
- EARTH 3401.03: Hydrogeology
- EARTH 3701.03/ENVS 3701.03: Fundamentals of Hydrology
- GEOG 3001.03/PLAN 3001.03: Landscape Ecology
- GEOG 3005.03/PLAN 3005.03: Cities and the Environment

- GEOG 3440.03/ERTH 3440.03: Geomorphology
- INTD 3114.03/GEOG 3114.03: Environment and Development
- MARI 3080.03/BIOL 3080.03: Ecology and Evolution of Fishes
- MARI 3090.03: Marine Mammalogy
- MARI 3602.03: Introduction to Aquaculture
- MARI 3761.03/BIOL 3761.03: Marine Ecology
- MGMT 3702.03: Resource and Environmental Problem Solving 2: Sustainable Industries
- OCEA 3001.03: Introduction to Physical Oceanography
- OCEA 3002.03: Introduction to Chemical Oceanography
- OCEA 3420.03/ERTH 3420.03: Geochemistry of the Aquatic Environment
- PLAN 3010.03: Urban Ecology
- SOSA 2261.03: Society, Politics and Culture
- SOSA 3060.03: Social Change and Development
- SOSA 3200.03: Environment and Society
- SUST 3000.03: Environmental Decision-Making
- SUST 3039.03: Indigenous Perspectives on Resource and Environmental Management
- SUST 3106.03: The Canadian North: Environmental Change and Challenges

Table 3. Field and Methods-based Courses (minimum of 3 credit hours from the following list)

- BIOL 2601.03: The Flora of Nova Scotia
- BIOL 2605.03: Marine Life of Nova Scotia
- BIOL 3003.03/MARI 3003.03/OCEA 3003.03: Introduction to Field Oceanography
- BIOL 3221.03/MARI 3221.03: Diversity of Algae
- BIOL 3301.03/MARI 3301.03: Invertebrate Biology
- BIOL 3327.03: Entomology
- BIOL 3600.03/MARI 3600.03: Aquaculture (discontinued)

- SUST 4125.03/PLAN 4125.03: Conflict Negotiation & Sustainability

Certificate in Genetics

Offered by: Biochemistry & Molecular Biology, Biology, Microbiology & Immunology

Coordinators:

Dr. Claudio Slamovits melanie.dobson@dal.ca (Biochemistry & Molecular Biology)

Debra Grantham grantham@dal.ca (Biology)

Dr. Ian Weaver ian.weaver@dal.ca (Medical Sciences, Psychology, Neuroscience)

Dr. Zhenyu Cheng zhenyu.cheng@dal.ca (Microbiology & Immunology - Until December 2020)

Dr. Lois Murray lois.murray@dal.ca (Microbiology & Immunology - As of January 2021)

The Certificate in Genetics provides students with an opportunity to complete a set of courses and research that will accord them recognition of specialization in genetics.

More information on this certificate is available at: <https://www.dal.ca/faculty/science/programs/diploma-certificate-programs/genetics-certificate.html>

Admission to Certificate

Students should enrol in the Certificate in Genetics in their third year of studies, when they are seeking approval of the independent research component from the Certificate Coordinator for their degree program. To enrol in the *Certificate in Genetics*, students must declare the certificate through Dal Online (<https://dalonline.dal.ca> >Web for Students>Admissions>Declare Major/Minor/Certificate), and notify the Certificate Coordinator. To qualify for the certificate students must complete all course requirements, **and** have received approval for the research component prior to the start of the research course.

To graduate with the Certificate, students must apply to graduate with a certificate at the time they apply to graduate from their degree program.

Certificate requirements:

1. A minimum grade of a B- in four mandatory courses:

- BIOL 2020.03: Cell Biology
- BIOL 2030.03: Genetics and Molecular Biology
- BIOC 2300.03: Introduction to Biochemistry
- BIOC 3400.03: Nucleic Acid Biochemistry and Molecular Biology

2. A minimum grade of B- in 12 credit hours chosen from the following list. At least 6 credit hours must be at the 4000 level.

2000 level

- BIOL 2040.03: Evolution

3000 level

- BIOL 3036.03: Transgenic Organisms
- BIOL 3037.03: Life Rewritten: Applications and Implications of Gene Editing and Synthetic Biology
- BIOL 3042.03/MARI 3042.03: Molecular Ecology
- BIOL 3044.03: Ecological Genetics
- BIOL 3046.03: Molecular Evolution
- BIOL 3102.03: Microbial Eukaryotes: Biodiversity and Evolution
- MICI 3114.03: Virology
- MICI 3119.03: Physiology of the Prokaryotic Cell
- NESC 3670.03/PSYO 3670.03: Genes, Brain and Behaviour

4000 level

- BIOC 4010.03: Bioinformatics
- BIOC 4027.03/MICI 4027.03: Molecular Mechanisms of Cancer
- MICI 4033.03: Advanced Microbial Genetics
- MICI 4114.03: Advanced Topics in Molecular and Medical Virology
- BIOC 4403.03: Genes and Genomes
- BIOC 4404.03: Gene Expression
- BIOC 4501.03: Medical Biotechnology
- BIOC 4835.03/BIOL 4035.03: Human Genetics
- NESC 4670.03: Behavioral Neuro(epi)genetics and Genomics

3. Other required courses (prerequisites for BIOC 3400.03)

- CHEM 2441.03, or CHEM 2401.03 and CHEM 2402.03

4. A minimum grade of B- in three credit hours or more of independent research on a topic involving microbial genetics, molecular genetics, transmission genetics or population genetics. Co-op Work Terms are not applicable. The research topic must be pre-approved by the Department's Certificate Coordinator prior to the start of the research course.

- BIOC 4001.03
- BIOC 4604.03
- BIOC 4605.03
- BIOL 4806.03/MARI 4806.03
- BIOL 4807.03/MARI 4807.03
- BIOL 4900.06/MARI 4900.06
- BIOL 4901.03/MARI 4901.03
- BIOL 4902.03/MARI 4902.03
- MICI 4703.03 and MICI 4704.03 (or MICI 4700X/Y.06)
- MICI 4701.03
- MICI 4702.03

- MICI 4901.03 and MICI 4902.03 (or MICI 4900X/Y.06)
- MICI 4901.03
- MICI 4902.03
- NESC 4501.03 and NESC 4502.03 OR PSYO 4501.03 and PSYO 4502.03 (or NESC 4500X/Y.06/PSYO 4500X/Y.06)
- SCIE 4101.03 and SCIE 4102.03 (or SCIE 4100X/Y.06)
- SCIE 4901.03 and SCIE 4902.03 (or SCIE 4900X/Y.06)

Certificate in Geographic Information Science (GIS)

Offered by: Earth Sciences, Environmental Sciences, Biology

Coordinators:

Dr. C.S Greene csgreene@dal.ca (Earth and Environmental Sciences)

Dr. D. Tittensor Derek.Tittensor@unep-wcmc.org (Biology)

Dr. M. Terashima mikiko.terashima@dal.ca (School of Planning)

The GIS Certificate program provides training and experience in geographic information science as part of an undergraduate degree program, usually in Earth Sciences, Environmental Science or Biology, and prepares students for further study or employment in the area. The Certificate requires the completion of GIS-related courses and completion of a major project that involves work with geographic information systems and geomatics.

Admission to Certificate

It is recommended that students enrol in the GIS Certificate in their second or third year of studies, and that they contact the Certificate Coordinator at that time. To enrol, students must declare the Certificate through Dal Online (<https://dalonline.dal.ca> >Web for Students>Admissions>Declare Major/Minor/Certificate). To qualify for the Certificate, students must complete all course requirements, **and** have received approval for the research component (project) from the Certificate Coordinator prior to the start of the research course.

To graduate with the Certificate, students must apply to graduate with a certificate at the time they apply to graduate from their degree program.

Certificate Requirements:

1. A minimum grade of B- in each of the following courses:

- ENVS 3500.03/ERTH 3500.03/GEOG 3500.03: Geoscience Information Management
- ERTH 4520.03/GEOG 4520.03: GIS Applications to Environmental and Geological Science

2. A minimum grade of B- in a minimum of two of the following courses:

- GEOG 2000.03: Cartography
- GEOG 2006.03: Space, Place and GIS
- BIOL 3633.03/ENVS 3633.03/GEOG 3633.03: Spatial Information and GIS in Ecology
- ERTH 4530.03/GEOG 4530.03: Environmental Remote Sensing
- ENVS 2100.03: Environmental Informatics
- ENVS 3400.03/GEOG 3400.03: Environment and Human Health

3. Completion of a research project with an emphasis in geographic information science via one of the following sets of courses (minimum grade of B-). Research topics must be pre-approved by the Certificate Coordinator

Set 1

- BIOL 4901.03 and BIOL 4902.03 or MARI 4901.03 and MARI 4902.03: Honours Thesis (or the former BIOL 4900.06/MARI 4900.06)
- ENVS 4901.03/ENVS 4902.03: Honours Thesis
- EARTH 4101.03 and EARTH 4102.03: Research Project (or EARTH 4100.06)
- EARTH 4201.03 and EARTH 4202.03: Honours Thesis (or EARTH 4200.06)
- SUST 4800.03: Independent Study
- SUST 4901.03 and SUST 4902.03: Honours Thesis (or SUST 4900.06)

Set 2

- SCIE 4850.03/BIOL 4850.03/ENVS 4850.03/GEOG 4850.03: Geographic Information Science Research Project

Research Project Guidelines for the Certificate in Geographic Information Science

Students should learn how to design, manage and complete a research project that emphasizes the use of a geographic information system (GIS). Students will identify a suitable research problem and work to solve it through acquiring, organizing, analyzing and presenting data using GIS. A substantive analytical component involving GIS must be included. Projects should be undertaken after all or most of the coursework is completed, e.g. students should already be familiar with GIS concepts and functions, and be proficient in the use of at least one GIS package. Supervision and evaluation of research projects must include input from a professor or GIS technician competent in geographic information science, methods and technologies.

Students enrolled in an undergraduate program other than Biology, Environmental Science, Earth Sciences or the College of Sustainability, may be able to complete the project through a directed readings or honours thesis course listed within their home department. The project must be pre-approved by a Certificate Coordinator. Non-thesis students, or honours students who wish to complete the certificate through a project that is not part of their thesis, who are in Biology, Earth Sciences or Environmental Science should complete the project through SCIE 4850: Geographic Information Science Research Project.

Certificate in Information Technology

Offered by: Physics

Coordinator: Dr. Philip Bennett philip.bennett@dal.ca

The goal of this certificate is to recognize students who have completed courses with a substantial Information Technology (IT) component, and to provide these students with a document to present to potential employers who seek graduates with IT skills. Depending on the program of study, students may work with symbolic calculation packages such as MATLAB or MAPLE, statistical packages such as R or S-Plus, numerical computation or programming languages. Others develop proficiency in web design, or use of database, drawing (e.g. CAD) or GIS software. Experience with a variety of hardware and operating systems experience may further round out the set of skills.

The Certificate in IT is a discipline-based program available to students majoring in Physics.

Admission to Certificate

To enrol in the **Certificate in Information Technology**, students must declare the certificate through Dal Online (<https://dalonline.dal.ca> > Web for Students > Admissions > Declare Major/Minor/Certificate), and notify the Certificate Coordinator by e-mail.

To graduate with the Certificate, students must apply to graduate with a Certificate at the time they apply to graduate from their degree program.

Certificate Requirements (Physics):

- Completion of a 120 credit hour Major or Honours degree program in Physics
- Two of PHYC 2050.03, PHYC 3250.03, PHYC 4250.03
- One additional course which may be a CSCI or INFX course, ENGM 1081.03 or MATH 2300.03

Certificate in Materials Science

Offered by: Faculty of Science

Coordinator: Dr. Mita Dasog (Chemistry) mita.dasog@dal.ca

The Certificate in Materials Science provides recognition for students who have had significant training in the breadth and depth of materials science within their 120 credit hour Honours or Major program. It is particularly suited for students in Chemistry, Earth Sciences and Physics programs.

Admission to Certificate

To enrol in the Certificate in Materials Science, students must declare the certificate through Dal Online (<https://dalonline.dal.ca> > Web for Students > Admissions > Declare Major/Minor/Certificate), and notify the Certificate Coordinator by e-mail. Students may enrol in the second, third or fourth year of their programs, but early enrolment is advised.

To graduate with the Certificate, students must apply to graduate with a Certificate at the time they apply to graduate from their degree program.

Certificate Requirements

1. At least four of the following courses, with a minimum grade of B- in each:

- CHEM 3305.03/PHYC 3303 (or CHEM 3303.03): Materials Science
- CHEM 4302.03: Intro to Surface Science
- CHEM 4502.03: Polymer Science
- CHEM 4311.03: Fundamental and Applied Electrochemistry
- EARTH 2001.03: Earth Materials Science I
- EARTH 2002.03: Earth Materials Science II
- PHYC 3900.03: Introduction to Soft Condensed Matter Physics
- PHYC 4230.03: Introduction to Condensed Matter
- BIOE 4391.03: Polymeric Biomaterials
- BMNG 5110.03: Biocompatibility and Biomaterials Design
- MATL 3500.03: Materials Engineering
- MATL 3510.03: Extraction of Materials
- MATL 3601.03: Structure of Materials
- MATL 3611.03: Corrosion and Degradation of Materials
- MATL 3612.03: Thermodynamics of Materials
- MATL 3620.03: Introduction to Physical Metallurgy
- MATL 3621.03: Mechanical Behaviour of Materials
- MATL 4703.03: Non-Metallic Materials
- MATL 4722.03: Ferrous Alloys and Joining of Materials
- MATL 4805.03: Electrochemical Processing of Materials
- MATL 4806.03: Particulates in Materials Engineering
- MATL 4815.03: Kinetics of Materials Processing
- MATL 4823.03: Non-ferrous Alloys
- MATL 4824.03: Industrial Metallurgy

- MATL 4825.03: Solidification and Casting

2. Students must complete a research project with a materials emphasis (pre-approved by the Certificate Coordinator) via one of the following sets of courses, with a minimum grade of B-:

- CHEM 4801.03 and CHEM 4802.03
- CHEM 4902.03 and CHEM 4903.03 (or CHEM 4901.06)
- EARTH 4201.03 and EARTH 4202.03 (or EARTH 4200.06)
- EARTH 4101.03 and EARTH 4102.03 (or EARTH 4100.06)
- PHYC 4800.03 and PHYC 4850.03

Certificate in Medicinal Chemistry

Offered by: Faculty of Science

Coordinator: Dr. Alison Thompson alison.thompson@dal.ca (Chemistry)

The Department of Chemistry offers a Certificate in Medicinal Chemistry in conjunction with its Major and Honours programs. This certificate is intended to reflect that the student has completed a course of study in chemistry that is appropriate for employment or further study related to pharmaceutical development and production.

Admission to Certificate

To enrol in the **Certificate in Medicinal Chemistry**, students must declare the certificate through Dal Online (<https://dalonline.dal.ca> > Web for Students > Admissions > Declare Major/Minor/Certificate), and notify the Certificate Coordinator by e-mail.

To graduate with the Certificate, students must apply to graduate with a Certificate at the time they apply to graduate from their degree program.

Certificate Requirements:

- Completion of a 120 credit hour program in Chemistry (Honours, Combined Honours, Major, Double Major)
- CHEM 2101.03, CHEM 2201.03, CHEM 2301.03, CHEM 2304.03, CHEM 2401.03, CHEM 2402.03
- CHEM 3203.03, CHEM 3401.03, CHEM 3404.03, CHEM 3601.03
- CHEM 4401.03, CHEM 4601.03
- Any two of: CHEM 3301.03, CHEM 4205.03, CHEM 4206.03, CHEM 4301.03, CHEM 4402.03

Recommended Electives: BIOC 2300.03, BIOC 2610.03, BIOC 3700.03, BIOC 4701.03

Certificate in Neurotechnology Innovation

Offered by: Faculty of Science

Coordinator: Dr. Aaron Newman, Department of Psychology and Neuroscience (aaron.newman@dal.ca)

Overview Neurotechnology is an area of research and application involving technologies that measure and/or modulate brain function. Technologies include hardware, software, and drugs, and have applications in several areas including clinical diagnosis and treatment, health promotion and maintenance (including cognitive health), entertainment, and forensics. The undergraduate certificate in Neurotechnology Innovation is designed to provide foundational knowledge in this multi-disciplinary area. The certificate will also provide an understanding of how neurotechnologies can be translated into applications that are available to patients and consumers - through

training in innovation, design, and commercialization. The Neurotechnology Innovation certificate provides students with knowledge in:

- Basic neuroscience
- Neurotechnology
- Clinical and cognitive neuroscience
- Computer science
- Entrepreneurship
- Innovation and product design
- Intellectual property

For more information on this certificate see <http://www.dal.ca/faculty/science/programs/diploma-certificate-programs/neurotechnology-certificate.html>

Eligibility The Certificate is oriented toward undergraduate students majoring in Neuroscience, but is open to students in other programs. Students from outside the Faculty of Science (Arts & Social Sciences, Computer Science, Engineering, Management) are welcome, but should consult with an advisor from their home program prior to enrolling.

Admission To enrol in the ***Certificate in Neurotechnology Innovation***, students must declare the certificate through Dal Online (<https://dalongline.dal.ca> > Web for Students > Admissions > Declare Major/Minor/Certificate), and notify the Certificate Coordinator.

To graduate with the Certificate, students must apply to Graduate with a Certificate at the time they apply to graduate from their degree program.

Certificate Requirements

1. NESC 2470.03: Systems Neuroscience
2. CSCI 1105.03: Introduction to Programming or CSCI 1110.03: Introduction to Computer Science or CSCI 2202.03: Computer Modelling for Scientists or CSCI 2203.03: Data Science for Everyone or PHYC 2050.03: Computer Simulations in Science.
3. SCIE 4701.03 and SCIE 4702.03: Neurotechnology Innovation, Commercialization, and Entrepreneurship I AND II
 - Note that these two courses must be taken consecutively in the same academic year.
4. Six (6) credit hours selected from the lists below, with at least three credit hours (one course) from each category.

A. Neuroscience/Neurotechnology

- PHYC 2250.03: Physics of Biological and Medical Technology
- NESC 3137.03/PSYO 3137.03: Research Methods in Cognitive Neuroscience
- NESC 3227.03/PSYO 3227.03: Principles of Human Neuropsychology
- NESC 3237.03/PSYO 3237.03: Drugs and Behaviour
- NESC 4070.03: Chemical Neuroanatomy
- NESC 4177.03: Theoretical Neuroscience
- NESC 4185.03: Current Advances in Synaptic Function and Plasticity
- PHAC 3001.03: Introduction to Pharmacology I

B. Computer Science/Informatics

- CSCI 1107.03: Social Computing
- CSCI 1108.03: Experimental Robotics
- CSCI 1110.03: Introduction to Computer Science (if not used to satisfy Requirement 2 above)
- CSCI 1120.03: Introduction to Computer Systems
- CSCI 2110.03: Data Structures and Algorithms
- CSCI 2132.03: Software Development
- CSCI 2141.03: Intro to Database Systems
- CSCI 2202.03: Computer Modelling for Scientists (if not used for Requirement 2 above)
- CSCI 2203.03: Data Science for Everyone (if not used for Requirement 2 above)

Notes on the Computer Science course options:

• CSCI 1105.03 and 1110.03 are mutually-exclusive options for an introductory computer science class. You should take CSCI 1105 if you have no prior computer programming/coding experience, or CSCI 1110 if you have previous programming experience (e.g., a past high school or university class in programming, or independent programming experience). Students with some programming experience who are unsure which class to register for, should consult with an advisor in the Computer Science program.

• CSCI 2202.03 Computer Modelling for Scientists and CSCI 2203.03 Data Science for Everyone have no prerequisites, and does not assume prior programming experience. If you choose to take CSCI 2202.03 first, you should not take CSCI 1105.03 after, as the content will be redundant. However, taking both CSCI 2202.03 and CSCI 1110.03 in either order is acceptable.

Certificate in Science Leadership and Communication

Offered by: Faculty of Science

Coordinators:

Dr. Anne Marie Ryan amryan@dal.ca (Earth Sciences)

The focus of the Certificate in Science Leadership and Communication is to develop leadership and communication skills specifically in and through the sciences, and to enable Dalhousie Science graduates to better understand the nature of science, the process of change, and to have the skills to communicate and to lead others effectively. The Certificate is available to any student in the Faculty of Science.

Admission to Certificate

Students should enrol in the *Certificate in Science Leadership and Communication* when they are seeking approval from the Certificate Coordinator for information regarding the Portfolio of Learning required for completion of this Certificate. To enrol, students must declare the certificate through Dal Online (<https://dalonline.dal.ca> >Web for Students>Admissions>Declare Major/Minor/Certificate), and notify the Certificate Coordinators by e-mail. To qualify for the Certificate, students must complete all course requirements, and the Portfolio of Learning.

To graduate with the Certificate, students must apply to graduate with a certificate at the time they apply to graduate from their degree program.

Certificate Requirements

Students are required to complete the following six components:

1. Leadership: Core course

- SCIE 4444.03/BIOL 4444.03: Leadership in Science

2. Communicating Science

One of the following two courses with a practicum component

- SCIE 3111.03: Communicating Science
- PSYO 3010.06: Advanced General Psychology

3. Ethics in Science

One of the following courses in ethics

- PHIL 2680.03: Ethics in Science (credit is not given for PHIL 2680 and 1050)
- PHIL 1050.03: Ethics in Science

4. Understanding the nature of science

One of the following courses

- HSTC 2400.03: Science and the Media
- HSTC 2000.06: Introduction to the History of Science
- HSTC 2204.03: The Darwinian Revolution
- HSTC 2205.03: Totalitarianism and Science
- HSTC 2206.03: Biopolitics: Human Nature in Contemporary Thought
- HSTC 3201.03: Science and Religion: Contemporary Perspectives
- HSTC 3212.03: The Biosphere: Global Perspectives in Science and Philosophy
- HSTC 3411.03: Feminism and Science
- HSTC 4301.03: History of Neuroscience
- HSTC 1801.03: Technology and Engineering: From Industrial Age to Cybernetic Age
- HSTC 4000.06: Science and Nature in the Modern Period
- BIOL 3580.03/PHIL 3580.03: Philosophy of Biology
- PHIL 2660.03: Understanding Scientific Reasoning
- PHIL 2480.03: Environmental Ethics
- ECON 3360.03: Ethics, Justice and Economics

Other courses may be considered. Please consult a coordinator.

5. Discipline-specific courses: situating your discipline

One of the following courses:

- BIOL 2040.03: Evolution
- ECON 2850.03/PHYC 2850.03: Science and Economics of Climate Change
- ENVS 3501.03: Environmental Problem-solving I
- EARTH 3001.03: Field school
- BIOL 4664.03/MARI 4664.03*: History of Marine Sciences
- NESC 2007.03: Neuroscience Principles and Methods
- PSYO 2000.03: Methods in Experimental Psychology
- PSYO 3581.03: History of Psychology I
- PSYO 3582.03: History of Psychology II
- BIOC 4510.03: Medical Biotechnology I
- MICI 2400.03 Laboratory Methods in Microbiology and Immunology
- OCEA 2020.03 Tools and Concepts in Ocean Sciences I

Other courses may be considered. Please consult a coordinator.

* Cross-listed as OCEA 4331.03, HIST 3073.03, HSTC 3331.03, SCIE 4000.03

6. Portfolio of leadership development (SCIE 4445.00): only register for this zero-credit hour course in the semester that you are submitting your completed portfolio for evaluation.

The portfolio is a record that can be shared with future employers, and built upon into the future. It will document, at a minimum:

- The activities undertaken in each of the above 5 components of the certificate
- Reflections on how each component fits into leadership and communication development in their discipline of study
- Reflection on the practicum components
- Record of any additional leadership aspects of employment or science-related volunteer activities

Further information is available at <http://www.dal.ca/faculty/science/programs/diploma---certificate-programs/scienceleadership.html>.

Co-operative Education in Science

Co-operative Education in Science

The Co-op Program allows students to alternate three, career-focused work terms with study terms and receive a co-op degree designation upon graduation. Co-op enables students to apply what they learn in class to real-world work situations and then apply what they learn at work to their classroom studies, thereby enriching their learning. It also helps students to learn more about their career options by test-driving different work environments before they graduate.

Co-op is available to students in many of our BSc (120 credit hour) Honours or Major programs. Interested students normally apply to join Co-op at the end of their first year of study.

Further details are available from departmental Co-op Academic Advisors and from [S.I.T.E.](#).

Actuarial Science

Actuarial Science

Location:
Chase Building
6316 Coburg Road
PO BOX 15000
Halifax NS
B3H 4R2

Phone Number: (902) 494-2572
Fax Number: (902) 494-5130
Email Address: info@mathstat.dal.ca

Introduction

Actuarial Science is the quantitative study of risk, particularly financial risk, and the methods for managing it. It is traditionally associated with insurance and pension plans, but can be applied to a wide range of other areas where there is need for assessment of risk. An Actuarial Science degree provides students with the background for a career in Actuarial Science. Course offerings provide the knowledge and techniques needed by students to prepare to write most of the Society of Actuaries preliminary examinations. Students will learn the relevant mathematical and statistical techniques, with specific applications to Actuarial Science, and acquire a basic understanding of Economics and Business.

The Dalhousie Actuarial Science program is offered through the Department of Mathematics and Statistics.

Degree Programs

The Department of *Mathematics and Statistics* offers the following degree programs in *Actuarial Science*

- BSc (120 credit hour) Honours (Concentrated)*
- BSc or BA (120 credit hour) Combined Honours*
- BSc (120 credit hour) Major*
- BSc or BA (120 credit hour) Double Major*
- Minor in *Actuarial Science*
- A post-baccalaureate diploma

* May be combined with Minor programs from other disciplines

Departmental Requirements for these programs are described below. In addition to departmental requirements, students must satisfy the requirements outlined in the [Academic Regulations](#) and the [College of Arts and Science Degree Requirements](#) sections of this calendar.

A student is governed by the academic regulations in place at the time of initial enrolment, as long as the degree is completed within the time permitted (10 years). Subsequent changes in regulations shall apply only if the student so elects. Students applying the old academic regulations should consult the calendar of the appropriate year.

Students should plan their programs of study carefully and are strongly encouraged to do so in consultation with the Actuarial Science undergraduate academic advisor.

BSc (120 credit hour) Concentrated Honours in Actuarial Science

Students who obtain an Honours degree will have covered the subject material required for sitting most of the Society of Actuaries examinations. Students interested in eventually pursuing graduate studies are particularly encouraged to consider Honours. Honours students complete a minimum of 54 credit hours above the 1000 level in Actuarial Science with a grade of C or better and a minimum GPA of 3.0. Honours students are required to write a research-based Honours thesis. The research thesis and the Honours Qualifying Examination requirement are satisfied through completion of *STAT 4950.03/ACSC 4950.03*.

Admission to Honours

Students must apply for admission to Honours programs. Students considering Honours in Actuarial science should consult with the Actuarial Science Honours Advisor early in their studies.

Departmental requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections of this calendar, students in a BSc **Concentrated Honours program in Actuarial science** must complete the following courses:

1000 level

- MATH 1000.03: Differential and Integral Calculus I/MATH 1010.03: Differential and Integral Calculus II or MATH 1215.03: Life Sciences Calculus/MATH 1010.03: Differential and Integral Calculus II or MATH 1500X/Y: Calculus
- MATH 1030.03 : Matrix Theory and Linear Algebra I
- STAT 1060.03: Introductory Statistics for Science and Health Sciences¹
- ECON 1101.03: Principles of Microeconomics/ECON 1102.03: Principles of Macroeconomics

2000 level

- MATH 2001.03: Intermediate Calculus I
- MATH 2002.03: Intermediate Calculus II
- MATH 2040.03: Matrix Theory and Linear Algebra II or MATH 2135.03: Linear Algebra
- STAT 2060.03: Introduction to Probability and Statistics
- STAT 2080.03: Statistical Methods for Data Analysis and Inference²
- STAT 2450.03: Introduction to Data Mining with R
- STAT 2600.03: Theory of Interest/MATH 2600.03: Theory of Interest
- An additional 3 credit hours of ACSC or STAT or MATH courses at or above the 2000 level, other than the courses listed below.

3000 level

- STAT 3340.03: Regression and Analysis of Variance
- STAT 3360.03: Probability
- STAT 3460.03: Intermediate Statistical Theory
- ACSC 3703.03/STAT 3703.03: Actuarial Models I
- ACSC 3720.03/STAT 3720.03: Life Contingencies I
- An additional 3 credit hours of ACSC, STAT or MATH courses at or above the 3000 level, other than the courses listed below. (MATH 3900.03 Financial Mathematics recommended, with prerequisite MATH 2120.03).

4000 level

- STAT 4390.03: Time Series Analysis
- ACSC 4703.03/STAT 4703.03: Actuarial Models II
- ACSC 4720.03/STAT 4720.03: Life Contingencies II
- ACSC 4950.03/STAT 4950.03: Honours Research Project

¹The requirement to take STAT 1060.03 may be waived for students entering the program in their second year.

²Some students may take STAT 2080.03 in the first year of their degree program.

BSc or BA (120 credit hour) Combined Honours in Actuarial Science and another subject

Students who wish to study *Actuarial Science* in conjunction with another subject may wish to pursue a Combined Honours degree program. The other subject may be any discipline from the Faculty of Science, the Faculty of Arts and Social Sciences, the Faculty of Computer Science, or the College of Sustainability. *Actuarial Science* may be the primary subject (defined as the subject with the larger number of honours credits), or the secondary subject.

Students planning to enroll in a Combined Honours program should consult with academic advisors from both programs early in their studies. Students must have their program of study approved by Academic Advisors in both subject areas. Students must complete an Honours Qualifying Examination in one of the two subject areas, a requirement normally completed in the primary subject area. For *Actuarial Science*, this requirement is satisfied through ACSC 4950.03/STAT 4950.03.

Departmental requirements

Students in a BSc **Combined Honours program in Actuarial Science** and another subject must fulfill the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections of this calendar.

The required actuarial science and statistics courses at or above the 2000 level with a grade of C or better in each are the following:

- MATH 2001.03: Intermediate Calculus
- STAT 2060.03: Introduction to Probability and Statistics
- STAT 2080.03: Statistical Methods for Data Analysis and Inference
- STAT 2450.03: Introduction to Data Mining with R
- MATH 2600/STAT 2600.03: Theory of Interest
- STAT 3340.03: Regression and Analysis of Variance
- STAT 3360.03: Probability
- STAT 3460.03: Intermediate Statistical Theory
- ACSC 3703.03/STAT 3703.03: Actuarial Models I
- ACSC 3720.03/STAT 3720.03: Life Contingencies I
- STAT 4390.03: Time Series Analysis
- ACSC 4703.03/STAT 4703.03: Actuarial Models II
- ACSC 4720.03/STAT 4720.0: Life Contingencies II

If *Actuarial Science* is the **primary subject**, students will also complete

- ACSC 4950.03/STAT 4950.03: Honours Research Project

OR

- An honours thesis in another subject and an additional 3 credit hours of ACSC, STAT or MATH courses at or above the 2000 level

BSc (120 credit hour) Major in Actuarial Science

The 120 credit hour major is suited to students who want to focus on *Actuarial Science* and prepare for sitting the Society of Actuaries examinations, but wish to have a program that is somewhat less constrained than the Honours program.

Departmental requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections of the calendar, students in a BSc **Major program in Actuarial science** must complete the following courses:

1000 level

- MATH 1000.03: Differential and Integral Calculus I/MATH 1010.03: Differential and Integral Calculus II or MATH 1215.03: Life Sciences Calculus/MATH 1010.03: Differential and Integral Calculus II or MATH 1500X/Y: Calculus
- MATH 1030.03: Matrix Theory and Linear Algebra I
- STAT 1060.03: Introductory Statistics for Science and Health Sciences¹
- ECON 1101.03: Principles of Microeconomics/ECON 1102.03: Principles of Macroeconomics

2000 level

- MATH 2001.03: Intermediate Calculus I
- MATH 2002.03: Intermediate Calculus II
- MATH 2040.03: Matrix Theory and Linear Algebra II or MATH 2135.03: Linear Algebra
- STAT 2060.03: Introduction to Probability and Statistics
- STAT 2080.03: Statistical Methods for Data Analysis and Inference²
- STAT 2450.03: Introduction to Data Mining with R
- STAT 2600.03/MATH 2600.03: Theory of Interest

3000 level

- STAT 3340.03: Regression Analysis
- STAT 3360.03: Probability
- STAT 3460.03: Intermediate Statistical Theory
- ACSC 3703.03/STAT 3703.03: Actuarial Models I
- ACSC 3720.03/STAT 3720.03: Life Contingencies I

4000 level

- STAT 4390.03: Time Series Analysis
- ACSC 4703.03/STAT 4703.03: Actuarial Models II
- ACSC 4720.03/STAT 4720.03: Life Contingencies II

¹The requirement to take STAT 1060.03 may be waived for students entering the program in their second year.

²Some students may take STAT 2080.03 in the first year of their degree program.

BSc or BA (120 credit hour) Double Major in Actuarial Science and another subject

The Double Major degree program allows students to combine a study of *Actuarial Science* with another subject. The other subject may be any discipline from the Faculty of Science, the Faculty of Arts and Social Sciences, the Faculty of Computer Science or the College of Sustainability. *Actuarial Science* may be the primary subject (defined as the subject with the larger number of credits), or the secondary subject. If the primary subject area is from the Faculty of Arts and Social Sciences, the degree granted will be a BA.

Students enrolled in a Double Major program must have their program of study approved by advisors in both subject areas.

Departmental requirements

Students in a BSc or BA **Double Major in Actuarial Science** and another subject must fulfill the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections of this calendar.

The required actuarial science and statistics courses at or above the 2000 level are the following:

- MATH 2001.03: Intermediate Calculus I
- STAT 2060.03: Introduction to Probability and Statistics
- STAT 2080.03: Statistical Methods for Data Analysis and Inference
- STAT 2450.03: Introduction to Data Mining with R
- STAT 2600.03: Theory of Interest
- STAT 3340.03: Regression and Analysis of Variance
- STAT 3360.03: Probability
- STAT 3460.03: Intermediate Statistical Theory
- ACSC 3703.03/STAT 3703.03: Actuarial Models I
- ACSC 3720.03/STAT 3720.03: Life Contingencies I
- STAT 4390.03: Time Series Analysis
- ACSC 4703.03/STAT 4703.03: Actuarial Models II
- ACSC 4720.03/STAT 4720.03: Life Contingencies II

Minor in Actuarial Science

(for students in 120 credit hour programs other than Actuarial science)

Students in other 120 credit hour degree programs may choose to include a Minor in *Actuarial science* in their program. Students taking a Minor in *Actuarial science* may also consider to take the Certificate in Actuarial and Financial Mathematics.

Departmental Requirements

A minimum of 18 credit hours in *Actuarial Science* courses at the 2000 level or higher. It is possible to count Mathematics or Statistics courses towards these requirements, so long as they are not counted towards a candidate's Major or Honours subject.

A minor degree in Actuarial Science must include the following courses:

- STAT 2600.03/MATH 2600.03: Theory of Interest
- STAT 3360.03/MATH 3360.03: Probability

Plus at least two of

- ACSC 3703.03/STAT 3703.03: Actuarial Models I
- ACSC 3720.03/STAT 3720.03: Life Contingencies I
- ACSC 4703.03/STAT 4703.03: Actuarial Models II
- ACSC 4720.03/STAT 4720.03: Life Contingencies II

The remaining credit hours can be chosen from any ACSC, STAT or MATH courses at or above the 2000 level.

Diploma in Actuarial Science

(30 credit hours)

Students with a general 90 credit hour BSc degree in Mathematics, Statistics, Economics, or another quantitative discipline, may apply for admission into a Diploma in Actuarial Science program, provided they have completed the appropriate Mathematics and Statistics courses. A strong background in Mathematics and Statistics is necessary, and courses taken should cover multidimensional calculus (equivalent to MATH 2001: Intermediate Calculus I), matrix theory (equivalent to MATH 2030: Matrix Theory and Linear Algebra I) and basic probability theory (equivalent to STAT 2060: Introduction to Probability and Statistics).

Departmental requirements

- STAT 2080.03: Statistical Methods for Data Analysis and Inference
- STAT 2600.03/MATH 2600.03: Theory of Interest
- STAT 3340.03: Regression and Analysis of Variance
- STAT 3360.03: Probability
- STAT 3460.03: Intermediate Statistical Theory
- ACSC 3703.03/STAT 3703.03: Actuarial Models I
- ACSC 3720.03/STAT 3720.03: Life Contingencies I
- ACSC 4703.03/STAT 4703.03: Actuarial Models II
- ACSC 4720.03/STAT 4720.03: Life Contingencies II
- STAT 4390.03: Times Series Analysis

In cases that students have already taken some of the above courses prior to entering the program, in consultation with the Actuarial Science undergraduate academic advisor, students can choose other same level ACSC, STAT or MATH courses as substitute courses to fulfil the total credit hour requirement.

After completion of the diploma program, students will be prepared to write most of the Society of Actuarial examinations.

Minors and Certificates for Actuarial Science Students

Minors available to students in Actuarial Science

Minor programs allow students to develop subject specialities in addition to their Major or Honours subjects. Minors in other subjects are normally added to 120 credit hour BSc or BA programs. Students in a BSc or BA (120 credit hour) program in **Actuarial Science** may choose to include a Minor selected from the list of approved [Minors](#) in this Calendar. Courses counted toward a Major or Honours subject cannot be used to fulfill the requirements of a Minor program. Minor subjects in Economics or Commerce are highly recommended subjects for Actuarial Science major students.

Certificates

In combination with a BSc or BA in Actuarial Science, students may obtain one or more Certificates. A Certificate indicates that a student has achieved a certain level of proficiency in a given area or subspecialty. Courses counted toward a Major, Honours or Minor subject may also be used to fulfill the requirements of a Certificate. Students must apply to the **Certificate Coordinator** to be considered for a Certificate. Certificates are awarded upon graduation and are noted on the student's academic transcript.

A complete list of [Faculty of Science Certificates](#) and requirements can be found in the *Faculty of Science* section of this calendar. Students may also work toward obtaining Certificates offered by other Faculties; some of these are listed in the [College of Arts and Science Degree Requirements](#) section of the calendar.

Certificates of particular interest to student enrolled in a BSc or BA in Actuarial science include:

- Certificate in Applied and Computational Mathematics
- Certificate in Data Science

Courses

Courses

ACSC 3703 Actuarial Models I

CREDIT HOURS: 3

This class builds on the material in STAT 3360 to develop the theoretical basis for construction and evaluation of actuarial models. Topics covered include survival models, probability distributions, deductibles and limits, and aggregate loss models, with application to insurance.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: STAT 3360.03 OR MATH 3360.03 or permission of instructor

CROSSLISTED: STAT 3703.03

RESTRICTIONS:

EXCLUSIONS: STAT 4701.03

FORMATS:

LAB HOURS PER WEEK:

ACSC 3720 Life Contingencies I

CREDIT HOURS: 3

This course introduces the student to the mathematical models for valuation of life contingencies (e.g. life insurance policies). The course covers both the statistical aspects of modelling survival data, and the financial aspects of valuing uncertain future cash-flows.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: STAT 3360.03/MATH 3360.03 and STAT 2600.03/MATH 2600.03

CROSSLISTED: STAT 3720.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

ACSC 3750 Credibility Theory

CREDIT HOURS: 3

Credibility theory deals with the difficulty in combining information from two samples, one of which is small ver relevant, the other is large but less relevant. In this course, we will study different approaches to dealing with this problem.

CALENDAR NOTES:

COREQUISITES: STAT 3703.03/ACSC 3703.03

PREREQUISITES: STAT 3360.03 or MATH 3360.03

CROSSLISTED: STAT 3750.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

ACSC 4703 Actuarial Models II

CREDIT HOURS: 3

This course focuses on the development of statistical methods for the estimation and validation of actuarial models. Topics to be discussed include: methods of estimation, properties of estimators, goodness of fit, credibility theory, survival estimators, measures of risk, estimation of severity.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: STAT 3703.03 or ACSC 3703.03

CROSSLISTED: STAT 4703.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

ACSC 4720 Life Contingencies II

CREDIT HOURS: 3

STAT 3720.03 covers the basics of life contingencies in a simple standard situation. In this course we extend this to deal with a number of common additional features that affect life insurance policies. We introduce multiple-state models, pensions, and profit testing.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: STAT 3720.03 or ACSC 3720.03

CROSSLISTED: STAT 4720.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ACSC 4950 Honours Research Project

CREDIT HOURS: 3

A requirement for the actuarial science honours degree, this course consists of a research project under the supervision of a faculty member in the department. The project will be submitted as a written report. Students wishing to enroll in this class must obtain permission from the Actuarial Science honours advisor.

Introduction

Biochemistry is the study of biological function at the molecular level. Although biochemical processes follow the basic laws of physics and chemistry, living organisms, because of their complexity, operate on a set of distinct principles that are not found in simple isolated chemical systems. The goal of biochemistry is to elucidate these principles. The department offers an integrated series of courses that will provide students with an up-to-date view of modern biochemistry and molecular biology ranging from evolution of genomes to structure-function relationships in macromolecules to the dynamic aspects of metabolism. The core programs can be adapted to emphasize different biochemical specialties such as structural biology, metabolism, molecular biology and cell signaling. Students wishing to pursue advanced studies in related sciences can include courses in Physiology, Pharmacology and/or Pathology in their programs. Greater flexibility is available in combined degree programs of Biochemistry and Molecular Biology with another subject; most often with Chemistry, Microbiology, Biology, Neuroscience, Psychology or Environment, Sustainability and Society. Specific programs developed with the Department of Microbiology and Immunology provide coordinated studies of metabolism, enzymology and molecular biology with bacteriology, virology and immunology. These programs provide the foundation for molecular genetics, genetic engineering, biotechnology, biomedical research and medicine.

Laboratory Exercises: Some of the courses offered by the Department of Biochemistry and Molecular Biology include a laboratory component. The laboratory exercises provide an opportunity to develop laboratory skills, as well as to illustrate the theoretical principles taught in course. This process culminates in fourth year, with a supervised research project required for Honours Biochemistry and Molecular Biology students. Although no exercise involves live animals, experiments may use materials derived from animal sources, as well as from plants and micro-organisms. Laboratory experiments will often be performed in groups, but writing of reports is expected to be an individual effort, meeting the guidelines on plagiarism set out in the [University Regulations](#) in the Calendar and the Department Policy on Plagiarism.

Degree Programs

The Department offers the following degree programs in Biochemistry and Molecular Biology

- BSc (120 credit hour) Honours (Concentrated)*
- BSc (120 credit hour) Combined Honours*
- BSc (120 credit hour) Major*
- BSc (120 credit hour) Double Major*
- BSc (90 credit hour) Minor in Biochemistry and Molecular Biology
- Minor in Biochemistry and Molecular Biology

* BSc Co-op option available (see below)

* May be combined with Minors from other disciplines

Departmental Requirements for each degree program can be seen by following the links in the menu to the right and in the Undergraduate Handbook, available on the departmental website biochem.dal.ca/programs/undergraduate/. In addition to departmental requirements, students must satisfy the requirements outlined in the [Academic Regulations](#) and the [College of Arts and Science Degree Requirements](#) sections.

A student is governed by the academic regulations in place at the time of initial enrolment, as long as the degree is completed within the time permitted (10 years). Subsequent changes in regulations shall apply only if the student so elects. Students applying the old academic regulations should consult the calendar of the appropriate year.

Students should plan their programs of study carefully. It is recommended that students considering an Honours or Major program consult with a Biochemistry and Molecular Biology Academic Advisor prior to registering for second year classes.

Students who participated in the Integrated Science Program in their first year should consult the Undergraduate Calendar for first year course equivalencies. The following options fulfill the first year requirements for any Biochemistry and Molecular Biology program:

- SCIE 1515.36
- SCIE 1520.30
- SCIE 1540.27
- SCIE 1505.18

Adjunct

Cohen, A., PhD (Memorial)
Kane, D. A., PhD (East Carolina)

BSc (120 credit hour) Concentrated Honours in Biochemistry and Molecular Biology

Students who want a challenging program that results in a broad and in-depth background in Biochemistry and Molecular Biology, and includes an independent research experience, may want to enroll in an Honours program. Students interested in eventually pursuing graduate studies are particularly encouraged to consider Honours. Honours students complete a minimum of 54 credit hours above the 1000 level in Biochemistry and Molecular Biology subject courses, with a minimum GPA of 3.0, and write a research-based Honours thesis. The Honours thesis and Qualifying Examination requirements are satisfied through completion of BIOC 4604.03/BIOC 4605.03. Because Biochemistry and Chemistry are closely interwoven both conceptually and experimentally, the list of required courses includes both subjects. Additional chemistry courses beyond those required for the honours degree may be taken as electives.

A Co-op option is available for students enrolled in a BSc Concentrated Honours in Biochemistry and Molecular Biology. See [Co-operative Education Program](#).

Admission to Honours

Students who wish to enrol in a Biochemistry and Molecular Biology Honours program should apply for admission after their second year Fall term grades are in. To be admitted, students must have

- Consulted with a Departmental Academic advisor
- Minimum grades of B- in BIOL 1010, BIOL 1011, CHEM 1011 and CHEM 1012 (or equivalents)

Departmental Requirements

In addition to fulfilling the requirements outlined in [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#), students in a BSc Concentrated Honours program in Biochemistry and Molecular Biology must complete the following courses:

1000 level

- BIOL 1010.03: Principles of Biology Part I/BIOL 1011.03: Principles of Biology Part II OR BIOL 1020.03: Introductory Biology I: Cells, Genetics and Evolution/BIOL 1021.03: Introductory Biology II: Organismal Biology and Ecology (minimum grade of "B-")
- CHEM 1011.03 Concepts in Chemistry/CHEM 1012.03: Concepts in Chemistry: Structure and Reactivity (minimum grade of "B-")
- MATH 1000.03: Differential and Integral Calculus I or MATH 1215.03: Life Sciences Calculus
- MATH 1010.03: Differential and Integral Calculus II or MATH 1030: Matrix Theory/Linear Algebra I or STAT 1060.03: Introductory Statistics for Science and Health Sciences

Or Integrated Science Program

2000 level

- BIOC 2300.03: Introduction to Biochemistry AND BIOC 2610.03: Introductory Biochemistry Lab
- BIOL 2020.03: Cell Biology and BIOL 2030.03: Genetics and Molecular Biology
- CHEM 2401.03: Introductory Organic Chemistry: Structure, Concepts of Mechanisms and Spectroscopy and CHEM 2402.03: Introductory Organic Chemistry: Reactivity of Functional Groups
- CHEM 2201.03: Introductory Analytical Chemistry

3000 level

- BIOC 3300.03: Intermediate Metabolism
- BIOC 3400.03: Nucleic Acid Biochemistry and Molecular Biology
- CHEM 3601.03: Chemistry of Living Systems or one course in Biochemistry at or above the 3000 level
- BIOC 3700.03: Biomolecular Chemistry

4000 level

- BIOC 4604.03: Research Project I and BIOC 4605.03: Research Project II (Honours Thesis)
- Nine credit hours from BIOC 40XX, 43XX, 44XX, 45XX, 47XX
- Six additional credit hours of BIOC at the 4000 level

Other requirements:

A pass is required in the Honours Qualifying examination. Students should ensure that they enrol in any 2000 or 3000 level courses that are prerequisites for advanced courses they intend to take (see calendar entries).

BSc (120 credit hour) Combined Honours in Biochemistry and Molecular Biology and another subject

Students who wish to study Biochemistry and Molecular Biology in conjunction with another subject may wish to pursue a Combined Honours degree program. The other subject may be any discipline from the Faculty of Science, the Faculty of Arts and Social Sciences, the Faculty of Computer Science, or the College of Sustainability. Biochemistry and Molecular Biology may be the primary subject (defined as the subject with the larger number of honours credits), or the secondary subject.

Students planning to enroll in a Combined Honours program should consult with academic advisors from both programs early in their studies. The same standards and conditions for admission apply as for entry into a Concentrated Honours program (see above). In addition, students must have their program of study approved by Academic Advisors in both subject areas. Students must complete an Honours Qualifying Examination in one of the

two subject areas, a requirement normally completed in the primary subject area. For Biochemistry and Molecular Biology, this requirement is satisfied through BIOC 4604.03/BIOC 4605.03: Research Project.

A Co-op option is available for students enrolled in BSc Combined Honours with Biochemistry and Molecular Biology as the primary subject. See Co-operative Education Program below.

Departmental Requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#), students in a Combined Honours program in Biochemistry and Molecular Biology and another subject must complete the following:

Biochemistry and Molecular Biology as the primary or secondary subject

1000 level

- 1000 level as for [Concentrated Honours](#), except MATH 1000: Differential and Integral Calculus I AND MATH 1010: Differential and Integral Calculus II required if Chemistry is the other subject

2000 level

- BIOC 2300.03: Introduction to Biochemistry and BIOC 2610.03: Introductory Biochemistry Lab
- BIOL 2020.03: Cell Biology and BIOL 2030.03: Genetics and Molecular Biology
- CHEM 2401.03: Introductory Organic Chemistry: Structure, Concepts of Mechanisms and Spectroscopy and CHEM 2402.03: Introductory Organic Chemistry: Reactivity of Functional Groups

3000 level

- BIOC 3300.03: Intermediary Metabolism
- BIOC 3400.03: Nucleic Acid Biochemistry and Molecular Biology
- BIOC 3700.03: Biomolecular Chemistry
- Three additional credit hours of BIOC at or above the 3000 level if Biochemistry & Molecular Biology is the second subject

4000 level

- Six credit hours from BIOC 40XX, 43XX, 44XX, 45XX, 47XX
- BIOC 4604.03: Research Project I and BIOC 4605.03: Research Project II (if Honours thesis and qualifying exam are in Biochemistry)

Consult an Undergraduate advisor for recommended courses of study.

BSc (120 credit hour) Major in Biochemistry and Molecular Biology

The 120 credit hour Major is suited to students who want to focus on Biochemistry and Molecular Biology, but wish to have a program that is somewhat less constrained than the Honours program. Biochemistry and Molecular Biology Majors complete a minimum of 45 credit hours in program courses above the 1000 level. Research and other experiential learning opportunities are available through laboratories, and through direct research and experiential classes. Although Dalhousie University does not require formal application for its 120 credit hour Major programs, this Department requires that all those registering with a view to completing such a degree must first consult with an undergraduate advisor from the Department of Biochemistry and Molecular Biology.

A Co-op option is available for students enrolled in a 120 credit hour BSc Major program in Biochemistry and Molecular Biology. See [Co-operative Education Program](#).

Departmental Requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#), students in a Major program in Biochemistry and Molecular Biology must complete the following:

1000 level

- BIOL 1010.03: Principles of Biology Part I/BIOL 1011.03: Principles of Biology Part II or BIOL 1020.03: Introductory Biology I: Cells, Genetics and Evolution/BIOL 1021.03: Introductory Biology II: Organismal Biology and Ecology (minimum grade of "B-")
- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity/CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium (minimum grade "B-")
- MATH 1000.03: Differential and Integral Calculus I or MATH 1215.03: Life Sciences Calculus
- MATH 1010.03: Differential and Integral Calculus II or MATH 1030: Matrix Theory/Linear Algebra I or STAT 1060.03: Introductory Statistics for Science and Health Sciences

Or Integrated Science Program

2000 level

- BIOC 2300.03: Introduction to Biochemistry and BIOC 2610.03: Introductory Biochemistry Lab
- BIOL 2020.03: Cell Biology and BIOL 2030.03: Genetics and Molecular Biology
- CHEM 2401.03: Introductory Organic Chemistry: Structure, Concepts of Mechanisms and Spectroscopy and CHEM 2402.03: Introductory Organic Chemistry: Reactivity of Functional Groups
- CHEM 2201.03: Introductory Analytical Chemistry

3000 level

- BIOC 3300.03: Intermediary Metabolism
- BIOC 3400.03: Nucleic Acid Biochemistry and Molecular Biology
- BIOC 3700.03: Biomolecular Chemistry
- Nine additional credit hours in BIOC at or above the 3000 level

4000 level

- Six credit hours in BIOC at the 4000 level

BSc (120 credit hour) Double Major in Biochemistry and Molecular Biology and another subject

The Double Major degree program allows students to combine a study of Biochemistry and Molecular Biology with another subject. The other subject may be any discipline from the Faculty of Science, the Faculty of Arts and Social Sciences, the Faculty of Computer Science or the College of Sustainability. Biochemistry and Molecular Biology may be the primary subject (defined as the subject with the larger number of credits), or the secondary subject. If the primary subject area is from the Faculty of Arts and Social Sciences, the degree granted will be a BA.

It is recommended that students enrolled in a Double Major program seek advice from advisors in both subject areas.

A Co-op option is available for students enrolled in BSc Double Major with Biochemistry and Molecular Biology as the primary subject. See [Co-operative Education Program](#).

Departmental Requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#), students in a Double Major program in Biochemistry and Molecular Biology and another subject must complete the following set of core courses:

1000 level

- BIOL 1010.03: Principles of Biology Part I/BIOL 1011.03: Principles of Biology Part II OR BIOL 1020.03: Introductory Biology I: Cells, Genetics and Evolution/BIOL 1021.03: Introductory Biology II: Organismal Biology and Ecology (minimum grade of "B-")
- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity/CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium (minimum grade of "B-")
- MATH 1000.03: Differential and Integral Calculus I or MATH 1215.03: Life Sciences Calculus
- MATH 1010.03: Differential and Integral Calculus II or MATH 1030: Matrix Theory/Linear Algebra I or STAT 1060.03: Introductory Statistics for Science and Health Sciences

Or Integrated Science Program

2000 level

- BIOC 2300.03: Introduction to Biochemistry, BIOC 2610.03: Introductory Biochemistry Lab
- BIOL 2020.03: Cell Biology and BIOL 2030.03: Genetics and Molecular Biology
- CHEM 2401.03: Introductory Organic Chemistry: Structure, Concepts of Mechanisms and Spectroscopy and CHEM 2402.03: Introductory Organic Chemistry: Reactivity of Functional Groups

3000 level

- BIOC 3300.03: Intermediary Metabolism
- BIOC 3400.03: Nucleic Acid Biochemistry and Molecular Biology
- BIOC 3700.03: Biomolecular Chemistry
- Three additional credit hours of BIOC at or above the 3000 level

4000 level

- Six credit hours of BIOC at the 4000 level

The same set of core courses is required in a Double Major with Biochemistry and Molecular Biology as the primary or secondary subject.

BSc (90 credit hour) Minor in Biochemistry and Molecular Biology

The 90 credit hour degree with Minor in Biochemistry and Molecular Biology is appropriate for students who want to study some Biochemistry and Molecular Biology but do not wish to complete the conventional four-year program. The degree is best suited for students who want a general science degree with some specialization in Biochemistry and Molecular Biology. A 90 credit hour degree program is not suitable for students who wish to

pursue graduate studies. With additional study, the degree may be upgraded to a 120 credit hour Major or Honours degree at a later date.

See the [Minor in Biochemistry and Molecular Biology](#) section of this Calendar.

Minor in Biochemistry and Molecular Biology

This minor is available to students registered in a 120 credit hour Bachelor of Applied Computer Science, Bachelor of Arts, Bachelor of Commerce, Bachelor of Community Design, Bachelor of Computer Science, Bachelor of Informatics, Bachelor of Management, Bachelor of Music, Bachelor of Science or Bachelor of Science (Medical Sciences) program.

Requirements

- A minimum of 18 credit hours in Biochemistry (BIOC) courses at the 2000 level or higher to a maximum of 36 credit hours.

Please note that there are prerequisite requirements for entry into upper level Biochemistry (BIOC) courses. Some non-BIOC courses such as BIOL 2020.03: Cell Biology, BIOL 2030.03: Genetics and Molecular Biology, CHEM 2401.03: Introductory Organic Chemistry: Structure, Concepts of Mechanisms and Spectroscopy and CHEM 2402.03: Introductory Organic Chemistry: Reactivity of Functional Groups are required for the Biochemistry and Molecular Biology degree programs. These non-BIOC courses cannot be counted as part of the 18 credits hours in BIOC required for a minor.

Contact [Biochemistry and Molecular Biology](#) for more information.

Co-op, Minors, Certificates and Engineering Concurrent Programs for Students

Co-operative Education Program in Biochemistry and Molecular Biology

Co-op Academic Advisor: Dr. H-S. Ro, Email: Hyo-Sung.Ro@dal.ca

Cooperative Education (Co-op) is a program where academic study in a science subject is combined with paid career-related work experience. Students undertake three work-terms interspersed with their academic study terms. Co-op degree programs enable students to apply their knowledge directly while providing them with work experience that assists in making educated career choices.

Co-op is available to students in BSc (120 credit hour) Honours or Major programs in Biochemistry and Molecular Biology, or in Combined Honours or Double Major programs with Biochemistry and Molecular Biology as the primary subject. The number of students admitted into Co-op each year is limited. A minimum GPA of 3.00 is required for admission and for continuation in the Co-op program. Students must be eligible to work in Canada.

Students normally apply to join Co-op during their first year of study. Students must apply before April 15, and it is strongly recommended that interested students meet with their Departmental Co-op advisor early in the Winter term of their first year. If accepted into Co-op, students must register for, and attend the Science Co-op Seminar Series (SCIE 2800.00) in the Fall term of the year they join.

Details are available from the Biochemistry and Molecular Biology Co-op Academic Advisor and from the Co-operative Education office www.dal.ca/academics/cooperative_education.html. For more information on Co-op Education in Biochemistry and Molecular Biology, please see the Departmental webpage www.dal.ca/academics/programs/undergraduate/bcmb/what_will_i_learn/coop_work_terms.html.

Minors available to students in Biochemistry and Molecular Biology

Minor programs allow students to develop subject specialties in addition to their major or honours subjects. Minors in other subjects are normally added to 120 credit hour programs (including Co-op).

Students in a BSc (120 credit hour) program in Biochemistry and Molecular Biology may choose to include a Minor selected from the [list of approved Minors](#). Courses counted toward a Major or Honours subject cannot be used to fulfill the requirements of a Minor program.

Certificates

In combination with a BSc in Biochemistry and Molecular Biology, students may obtain one or more Certificates. A Certificate indicates that a student has achieved a certain level of proficiency in a given area or subspecialty. Courses counted toward a Major, Honours or Minor subject may also be used to fulfill the requirements of a Certificate. Students must apply to the Certificate Coordinator to be considered for a Certificate. Certificates are awarded upon graduation and are noted on the student's academic transcript.

A complete list of Faculty of Science Certificates and requirements can be found at [Faculty of Science - Certificates](#). Students may also work toward obtaining Certificates offered by other Faculties; some of these are listed in the [College of Arts and Science Degree Requirements](#) section.

Certificates of particular interest to students enrolled in a Major or Honours program in Biochemistry and Molecular Biology include:

- Certificate in Data Analytics
- [Certificate in Genetics](#)
- [Certificate in Medicinal Chemistry](#)

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are typically available to students in the second, third, and fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not obtain credit for both courses as designated.

Not all courses are offered each year. Please consult the current [timetable](#) for this year's offering. For further information please contact the department, or visit the department's website.

Course Notes

The Department also teaches students in Dentistry and Medicine; these courses are described in the appropriate sections of the Calendar.

Other Courses

The following courses given by other departments may be taken as a Biochemistry and Molecular Biology course toward BSc Biochemistry and Molecular Biology degrees. See course descriptions in relevant section of this calendar.

Chemistry - CHEM 3601.03, CHEM 4601.03

Microbiology - MICI 4033.03

Pharmacology - PHAC 3001.03, PHAC 4001.03

Note: CHEM 3601.03 and PHAC 3001.03 are considered to be BIOC 3000-level courses, and CHEM 4601.03, MICI 4033.03 and PHAC 4001.03 to be BIOC 4000-level courses when taken as part of Biochemistry and Molecular Biology Major and Honours degree programs. These courses, in addition to required non-BIOC 2000-level courses (BIOL 2020, BIOL 2030, CHEM 2401, CHEM 2402), cannot be counted towards the 18 credit hours in BIOC required for a Minor in Biochemistry and Molecular Biology.

Course Descriptions

BIOC 1420 Introductory Biochemistry for Nursing Students

CREDIT HOURS: 3

Topics discussed include the structure, biosynthesis and functions of biologically important compounds, enzymes, control of metabolism, genetic engineering and nutrition. Medical aspects are stressed.

CALENDAR NOTES: This course cannot be used as a prerequisite for any other biochemistry course and is not normally accepted by Faculties of Dentistry or Medicine in fulfilment of the requirement of a biochemistry course for admission.

COREQUISITES:

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS: This class is restricted to students in the BScN and BHSc programs.

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

BIOC 2300 Introduction to Biochemistry

CREDIT HOURS: 3

This course surveys basic topics and concepts of Biochemistry. The structures, properties and metabolic inter-relations of proteins, carbohydrates and lipids are considered together with an introduction to nutrition and metabolic control. Although mammalian examples predominate some consideration of special aspects of biochemistry of microbes and plants is included. COORDINATOR: D. Langelan

CALENDAR NOTES: Students are advised to also take CHEM 2401.03 and CHEM 2402.03

COREQUISITES:

PREREQUISITES: BIOL 1010.03 and 1011.03 (or equivalent), CHEM 1011.03 and 1012.03 (or equivalent), all with grades of B- or higher, or instructor's consent.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: BIOC 2200.03

FORMATS: Lecture

LAB HOURS PER WEEK:

BIOC 2610 Introductory Biochemistry Lab

CREDIT HOURS: 3

An introduction to fundamental techniques in Biochemistry through the exploration of the properties of essential biomolecules. This course is intended for students in Biochemistry & Molecular Biology and Microbiology & Immunology Programs.

CALENDAR NOTES:

COREQUISITES: BIOC 2300.03 and CHEM 2401.03 and CHEM 2402.03 or instructor's consent

PREREQUISITES: BIOL 1010.03 and 1011.03 (or equivalent), CHEM 1011.03 and 1012.03 (or equivalent), all with grades of B- or higher,

or instructor's consent.
CROSSLISTED:
RESTRICTIONS:
EXCLUSIONS: BIOC 2200.03
FORMATS: Lab
LAB HOURS PER WEEK:

BIOC 3300 Intermediary Metabolism

CREDIT HOURS: 3

This course covers synthesis and catabolism of carbohydrates, lipids and some nitrogen compounds. Metabolic regulation is emphasized, including factors influencing the rate at which compounds flow through selected pathways. Compartmentalization of, inter-relationships between and environmental impact on metabolic pathways are considered. Laboratory exercises examine the techniques used to study metabolic pathways. COORDINATOR: C. Too

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOC 2300.03 and BIOC 2610.03 (both with grades of B- or higher) and BIOL 2020.03 and BIOL 2030.03 and CHEM 2401.03 and CHEM 2402.03, or instructor's consent

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOC 3400 Nucleic Acid Biochemistry and Molecular Biology

CREDIT HOURS: 3

This course focuses on the relationship of structure to function in RNA and DNA. Methods for studying the primary, secondary, and tertiary structures of nucleic acids are explored in lectures and in the laboratory. Topics covered include enzymic mechanisms for biosynthesis, rearrangement, degradation, and repair of nucleic acid molecules, and processes of replication, transcription, and translation. Nucleic acid biochemistry is emphasized as a basis for understanding storage and transfer of biological information.

COORDINATOR: J. Archibald

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 2020.03 and BIOL 2030.03 (both with grades of B- or higher); CHEM 2401.03 and CHEM 2402.03; BIOC 2300.03; or instructor's consent

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOC 3610 Laboratory Research Techniques in Biomedical Sciences

CREDIT HOURS: 3

An introduction to key laboratory methods in biochemistry is presented, along with relevant theory and applications. Topics include liquid handling, protein chemistry, small molecule assays, data analysis and data management. Current context and emerging methodologies are introduced by guest speakers.

CALENDAR NOTES: This course does not count as a Biochemistry & Molecular Biology credit towards any degree with a Major or Honours in Biochemistry & Molecular Biology, but it can be counted towards a Minor In Biochemistry & Molecular Biology. Priority for enrollment will be given to students registered in the B.Med.Sci. degree program.

COREQUISITES:

PREREQUISITES: CHEM 2401.03 and CHEM 2402.03; BIOC 2300.03; BIOL 2020.03 and BIOL 2030.03; all with grades of B- or higher, or instructor's permission.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOC 3620 Experiential Learning in Biochemistry and Molecular Biology

CREDIT HOURS: 3

This course is an outside the classroom learning experience in which the student works in a research laboratory an average of one day per week acquiring biochemistry or molecular biology knowledge and skills. COORDINATOR: H-S. Ro

CALENDAR NOTES: To register in this course, students must first find a faculty member from the Department of Biochemistry & Molecular Biology willing to supervise the work experience and sign a learning agreement with the supervisor. Grading is Pass/Fail.

COREQUISITES:

PREREQUISITES: BIOC 2300.03, BIOC 2610.03, BIOL 2020.03, BIOL 2030.03 (all with a grade of B- or higher), CHEM 2401.03 and CHEM 2402.03.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: The following may not be used towards BIOC 3620: lab work that is part of another scheduled course at a learning institution, study that would qualify for Special Topics courses, co-op work terms, and paid work. Only one experiential learning course per degree is permitted. The class is only open to students registered in Biochemistry & Molecular Biology Degree programs, either Major or Honours, combined or concentrated. Students may not take BIOC 3620 concurrently with BIOC 4604 or BIOC 4605.

FORMATS: Lab

LAB HOURS PER WEEK:

BIOC 3700 Biomolecular Chemistry

CREDIT HOURS: 3

This course covers structural and functional properties of biomolecules, including the physical bases for their characterization, thermodynamic principles of protein folding and biomolecular interactions, and the kinetics and mechanisms of enzyme catalysis.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOC 2300.03, 2610.03, CHEM 2401.03, and CHEM 2402.03 (all with a grade of B- or higher); MATH 1000.03 or 1215.03, or instructor's consent

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: BIOC 3200.03

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOC 4001 Special Topics in Biochemistry

CREDIT HOURS: 3

Students interested in topics not covered in formal courses may ask the department for special courses to meet their needs. An Undergraduate Advisor will assist students to ascertain if faculty expertise is available to direct reading and the preparation of papers and seminars in a particular subject area. COORDINATOR: C. Too

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOC 3300.03, BIOC 3400.03, and BIOC 3700.03 (average of B or higher and consent of coordinator)

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

BIOC 4010 Bioinformatics

CREDIT HOURS: 3

This course presents the theory and practice of bioinformatics. Topics include: rate of mutation, sequence alignment, database searching, phylogenetic analysis, bioinformatic tools for analyzing genes, genomes and proteins.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOC 3400.03 or instructor's consent

CROSSLISTED: BIOC 5010.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOC 4027 Molecular Mechanisms of Cancer

CREDIT HOURS: 3

The multi-step nature of 'carcinogenesis' is the focus of this course. This course dissects the role of oncogenes, tumor suppressors, cell death and survival, differentiation, angiogenesis, metastasis, inflammation, and anticancer immunity in cancers. Major research techniques routinely used in cancer research are discussed to fully understand the process of cancer development, progression and persistence.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Minimum grades of B+ in a 3000 level Biochemistry class and another 3000 level Biochemistry, Microbiology or Pathology class. Permission of instructor required

CROSSLISTED: PATH 5027.03 and MICI 5027.03/4027.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Discussion

LAB HOURS PER WEEK:

BIOC 4302 Biochemistry and Cell Biology of Lipids and Membranes

CREDIT HOURS: 3

This course discusses (1) the influence of lipids on membrane structure and function, (2) lipid metabolism and inborn errors that cause human disease, (3) the intra- and extra-cellular transport of lipids and contribution to cell physiology and (4) the role of lipids in specialized physiological and cell signaling pathways.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOC 3300.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

BIOC 4305 Mechanisms of Signal Transduction

CREDIT HOURS: 3

The emphasis of this course is to introduce concepts and key mediators of signal transduction. Topics include protein kinases, tumour suppressors, oncogenes, G-protein coupled receptors, calcium signalling, lipids in signalling, integration of signalling cascades, cytoskeletal reorganization, cellular metastasis, apoptosis, anoikis, genomic stability, and stem cell biology.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOC 3300.03 or instructor's consent

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: BIOC 4301.03

FORMATS: Lecture

LAB HOURS PER WEEK:

BIOC 4306 Nutritional Biochemistry

CREDIT HOURS: 3

Appropriate nutrition is essential for health and reflects the basic biochemistry of the organism. Changes in the human diet can impact health and disease. This course considers the principles of optimal nutrition in a biochemical context and the role of nutrition in disease etiology and treatment.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOC 3300.03, BIOC 3400.03, BIOC 3700.03 or instructor's permission

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Other (explain in comments)

LAB HOURS PER WEEK:

BIOC 4403 Genes and Genomes

CREDIT HOURS: 3

This course discusses the organization of genes into genomes. It deals with (i) compartmentalization of genetic material in nuclear and organellar genomes, (ii) the structure, behaviour and origins of components of both nuclear and organellar genomes which are not genes (transposable and other repetitive elements, introns), (iii) genetic and physical methods for mapping genomes, and (iv) the significance of genetic organization and higher order chromosomal structure and function. The methodology and prospects of genomics are discussed at some length.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOC 3400.03 or BIOL 3046.03 or instructor's consent

CROSSLISTED: BIOC 5403.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

BIOC 4404 Gene Expression

CREDIT HOURS: 3

This course is centered around the central dogma that genetic information is passed from DNA to RNA to protein. We focus on the different mechanisms that regulate this flow of information in prokaryotic and eukaryotic cells. Specific topics include transcription, translation, chromatin, epigenetics, and non-coding RNA.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOC 3400.03 or instructor's consent

CROSSLISTED: BIOC 5404.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

BIOC 4501 Medical Biotechnology

CREDIT HOURS: 3

This course covers fundamental principles of biotechnology from a medical perspective. Topics discussed include: recombinant DNA technology, polymerase-chain reaction-based applications, DNA microarrays, DNA sequencing, immunochemical techniques and applications, production of transgenic organisms, potential applications for embryonic stem cell and nuclear transfer cloning, business and legal aspects of biotechnology.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOC 3400.03 or instructor's consent

CROSSLISTED: BIOC 5501.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Discussion

LAB HOURS PER WEEK:

BIOC 4604 Research Project I

CREDIT HOURS: 3

This course requires original biochemical research in the laboratory of a faculty member, and requires the equivalent of at least one day per week to be spent in the laboratory. A report is submitted at the end of the term. COORDINATOR: Stephen Bearne

CALENDAR NOTES: This course is intended to be taken in conjunction with BIOC 4605.03 and no credit can be given for one course without the other. The work undertaken in BIOC 4605.03 should be a continuation of that initiated in BIOC 4604.03 and hence the report submitted for BIOC 4605.03 may include data and analysis incorporated in the BIOC 4604.03 report. In exceptional cases, the research project can be done outside the Department of Biochemistry and Molecular Biology. Prior approval must be obtained from the course coordinator.

COREQUISITES:

PREREQUISITES: Permission of coordinator and a member of the Department who will serve as supervisor. At least a B average for BIOC 3300.03, BIOC 3400.03 and BIOC 3700.03.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:
FORMATS: Lab
LAB HOURS PER WEEK:

BIOC 4605 Research Project II

CREDIT HOURS: 3

This course requires original biochemical research in the laboratory of a faculty member, and requires the equivalent of at least one day per week to be spent in the laboratory. A report is submitted at the end of the term. COORDINATOR: Stephen Bearne

CALENDAR NOTES: This course is intended to be taken in conjunction with BIOC 4604.03 and no credit can be given for one class without the other. LAB HOURS PER WEEK:

BIOC 4700 Proteins

CREDIT HOURS: 3

Our theme is the relationship between structure and function. The kinetic and thermodynamic determination of the protein fold is explored. Specific details of how form determines function in binding other molecules both small and large in membranes, and in energy transduction are provided. Protein evolution and turnover are examined.

CALENDAR NOTES:

COREQUISITES:
PREREQUISITES: BIOC 3700.03; or (CHEM 3601.03 AND CHEM 2301.03 AND CHEM 2304.03), or instructor's consent.

RESTRICTIONS:
EXCLUSIONS:
FORMATS: Lecture
LAB HOURS PER WEEK:

BIOC 4701 Enzymes

CREDIT HOURS: 3

Fundamental principles of enzyme catalysis and its regulation are examined. Topics include enzyme kinetics, enzyme inhibition and inactivation, isotope effect measurements, site-directed mutagenesis, and the active site architecture and transition state stabilization of selected enzymes. Classic and current papers in the literature are reviewed and the experimental and conceptual approaches are critically appraised.

CALENDAR NOTES:

COREQUISITES:
PREREQUISITES: BIOC 3700.03; or (CHEM 3601 AND CHEM 2301 AND CHEM 2304), or instructor's consent.
CROSSLISTED: BIOC 5701.03
RESTRICTIONS:
EXCLUSIONS:
FORMATS: Lecture
LAB HOURS PER WEEK:

BIOC 4702 Biophysical Characterization of Macromolecules

CREDIT HOURS: 3

This course covers methods allowing determination of sub-molecular and atomic-level structure and dynamics of biomacromolecules in physiological settings (e.g. solution-state or lipid bilayers) including: fluorescence, electronic and vibrational circular dichroism and NMR spectroscopy; light vs. X-ray vs. neutron scattering; and, single molecule methods.

CALENDAR NOTES:

COREQUISITES:
PREREQUISITES: BIOC 3700.03; or (CHEM 3601 AND CHEM 2301 AND CHEM 2304), or instructor's consent. Recommended: PHYC

1190.03 and 1290.03, or 1310.03 and 1320.03

CROSSLISTED: CHEM 4602.03

RESTRICTIONS:

EXCLUSIONS: BIOC 5702.03, CHEM 5602.03

FORMATS: Lecture

LAB HOURS PER WEEK:

BIOC 4703 Structural Biology

CREDIT HOURS: 3

This course covers theoretical and practical aspects of determining and assessing the quality of atomic-resolution biomolecular structures. The underlying theory and applications of X-ray diffraction, NMR spectroscopy, and cryo-electron microscopy are discussed in detail.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOC 3700 or CHEM 3601 or instructor's consent.

CROSSLISTED: CHEM 4603.03

RESTRICTIONS:

EXCLUSIONS: BIOC 5703.03, CHEM 5603.03

FORMATS: Lecture

LAB HOURS PER WEEK:

BIOC 4813 Biochemistry of Clinical Disorders

CREDIT HOURS: 3

This course is an introduction to the pathophysiology of disease. It provides the clinical and biochemical background to disease groups and system disorders and the laboratory approach to their diagnosis. Topics include cardiovascular, renal, gastrointestinal and hepatobiliary disorders, addiction, and acid-base, carbohydrate, lipid and amino acid disorders; endocrine and rheumatological diseases, as well as tumor markers and toxicology, blood and immune abnormalities.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOC 3300.03 and BIOC 3400.03 and BIOC 3700.03 or consent of instructor

CROSSLISTED: PATH 5013.03, BIOC 5813.03

RESTRICTIONS:

EXCLUSIONS: BIOC 4811.03 and BIOC 4812.03

FORMATS: Lecture | Discussion

LAB HOURS PER WEEK:

BIOC 4835 Human Genetics

CREDIT HOURS: 3

For science students with special interest in human genetics. Topics include errors of metabolism, human development, transmission genetics, DNA structure, gene function, mutation and chromosomal alterations, population genetics, genetics of immunity and cancer, genetic technology in medicine, and ethical and social issues related to medical genetics.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOC 3400.03 or permission from instructor

CROSSLISTED: BIOL 4035.03, 5035.03, PATH 5035.03

Bioinformatics

Bioinformatics

Much of the current research in the biological sciences today requires the handling of “Big Data”. Nowhere is this need more apparent than in the area of genomics, where next generation sequencing techniques are capable of producing, at a relatively low cost, hundreds of gigabytes and even terabytes of DNA sequence data. There is a need for people who have an understanding of molecular and evolutionary genomics (the structure and function

of genes and genomes) and the skill set needed to analyze the data. A [Minor in Bioinformatics](#) provides students with an introduction to molecular genomics and to some of the informatics tools currently available.

Coordinator: Dr. Daniel Ruzzante (daniel.ruzzante@dal.ca)

Minor in Bioinformatics

This minor is available to students registered in a 120 credit hour Bachelor of Science or Bachelor of Science (Computer Science) program.

Much of the current research in the biological sciences today requires the handling of “Big Data”. Nowhere is this need more apparent than in the area of genomics, where next generation sequencing techniques are capable of producing, at a relatively low cost, hundreds of gigabytes and even terabytes of DNA sequence data. There is a need for people who have an understanding of molecular and evolutionary genomics (the structure and function of genes and genomes) and the skill set needed to analyze the data. A **Minor in Bioinformatics** provides students with an introduction to molecular genomics and to some of the informatics tools currently available.

To qualify for a Minor in Bioinformatics, students must take **all Required Courses** and enough courses from the **Selectives** list to total 18 credit hours above the 2000 level that count uniquely toward the Minor (e.g. do not also count toward a Major or Honours degree). In addition all students must complete the prerequisite 1000-level courses.

Pathways to obtaining the Minor in Bioinformatics have been designed for students majoring in Computer Science, Biochemistry & Molecular Biology, Biology, Marine Biology, Statistics and Neuroscience. Students in other programs may obtain the Minor by fulfilling the general requirements below, but should be aware that most of the courses listed have prerequisites, and that they may need to complete a number of courses in addition to the required and selective courses.

Irrespective of path, students with a Bioinformatics Minor will end up having taken a common set of courses in Computer Science, Calculus, Statistics, Genetics, and Molecular Biology or Biochemistry. All students will also receive training in use of ACENET.

Minor in Bioinformatics – General requirements

Coordinator: Dr. Daniel Ruzzante (daniel.ruzzante@dal.ca)

Students must take all required courses and enough selective courses to total 18 credit hours. Courses (required or selective) cannot be used toward the Minor if the course is being counted toward a Major or Honours degree.

Required prerequisite courses (don't count toward minor)

- CSCI 1105.03: Introduction to Computer Programming (or CSCI 1100.03)
- CSCI 1110.03: Introduction to Computer Science (or CSCI 1101.03)
- BIOL 1010.03: Principles of Biology Part I or BIOL 1020.03: Introductory Biology I
- MATH 1000.03: Differential and Integral Calculus I or MATH 1215.03: Life Sciences Calculus

Required courses

- STAT 2060.03/MATH 2060.03: Introduction to Probability and Statistics
- BIOL 2030.03: Genetics and Molecular Biology
- BIOL 3046.03: Molecular Evolution or BIOC 3400.03: Nucleic Acid Biochemistry & Molecular biology

Selectives

- CSCI 2134.03: Software Development (Highly recommended)

- STAT 2080.03/MATH 2080.03: Statistical Methods for Data Analysis and Inference
- BIOL 2040.03: Evolution
- BIOL 3101.03/MARI 3101.03: Microbial Ecology
- BIOL 3042.03/MARI 3042.03: Molecular Ecology
- CSCI 3110.03: Design and Analysis of Algorithms I
- CSCI 4180.03: Intro to Computational Biology and Bioinformatics
- CSCI 4181.03: Bioinformatics Algorithms
- BIOC 4010.03: Bioinformatics
- BIOC 4403.03: Genes and Genomes (Highly recommended)

PATHWAY for Biochemistry & Molecular Biology students

Coordinator: Dr. Claudio Slamovits (claudio.slamovits@dal.ca)

Students must take all required courses and enough selective courses to total 18 credit hours. Courses (required or selective) cannot be used toward the Minor if the course is being counted toward a Major or Honours degree.

Required prerequisite courses (don't count toward minor):

- CSCI 1105.03: Introduction to Computer Programming (or CSCI 1100.03)
- CSCI 1110.03: Introduction to Computer Science (or CSCI 1101.03)
- BIOL 1010.03: Principles of Biology Part I or BIOL 1020.03: Introductory Biology I
- MATH 1000.03: Differential and Integral Calculus I or MATH 1215.03: Life Sciences Calculus

Required course:

- STAT 2060/MATH 2060.03: Introduction to Probability and Statistics

Selectives:

- STAT 2080/MATH 2080.03: Statistical Methods for Data Analysis and Inference
- CSCI 2134.03: Software Development (Highly recommended)
- CSCI 4180.03: Intro to Computational Biology and Bioinformatics
- CSCI 4181.03: Bioinformatics Algorithms
- BIOL 3046.03: Molecular Evolution
- BIOC 4010.03: Bioinformatics *
- BIOC 4403.03: Genes and Genomes (Highly recommended) *

* Cannot be used toward the Minor if the course is being counted toward a Major or Honours degree

PATHWAY for Biology or Marine Biology students

Coordinator: Dr. Daniel Ruzzante (daniel.ruzzante@dal.ca)

Students must take all required courses and enough selective courses to total 18 credit hours. Courses (required or selective) cannot be used toward the Minor if the course is being counted toward a Major or Honours degree.

Required prerequisite courses (don't count toward minor):

- CSCI 1105.03: Introduction to Computer Programming (or CSCI 1100.03)
- CSCI 1110.03: Introduction to Computer Science (or CSCI 1101.03)
- BIOL 1010.03: Principles of Biology Part I or BIOL 1020.03: Introductory Biology I
- MATH 1000.03: Differential and Integral Calculus I or MATH 1215.03: Life Sciences Calculus

Required courses:

- STAT 2060/MATH 2060.03: Introduction to Probability and Statistics
- BIOL 3046.03: Molecular Evolution * or BIOC 3400.03: Nucleic Acid Biochemistry & Molecular Biology *

Selectives:

- CSCI 2134.03: Software Development (Highly recommended)
- STAT 2080/MATH 2080.03: Statistical Methods for Data Analysis and Inference
 - BIOL 3101/MARI 3101.03: Microbial Ecology *
 - BIOL 3042/MARI 3042.03: Molecular Ecology *
 - BIOL 3046.03: Molecular Evolution *
 - BIOC 3400.03: Nucleic Acid Biochemistry & Molecular Biology *
 - CSCI 4180.03: Intro to Computational Biology and Bioinformatics
 - CSCI 4181.03: Bioinformatics Algorithms
 - BIOC 4010.03: Bioinformatics *
 - BIOC 4403.03: Genes and Genomes (Highly recommended) *

* Cannot be used toward the Minor if the course is being counted toward a Major or Honours degree

PATHWAY for Computer Science students

Coordinator: Dr. Robert Beiko (beiko@cs.dal.ca)

Students must take all required courses and enough selective courses to total 18 credit hours. Courses (required or selective) cannot be used toward the Minor if the course is being counted toward a Major or Honours degree.

Required prerequisite courses (don't count toward minor):

- CSCI 1105.03: Introduction to Computer Programming (or CSCI 1100.03)
- CSCI 1110.03: Introduction to Computer Science (or CSCI 1101.03)
- BIOL 1010.03: Principles of Biology Part I or BIOL 1020.03: Introductory Biology
- MATH 1000.03: Differential and Integral Calculus I or MATH 1215.03: Life Sciences Calculus

Required courses:

- STAT 2060/MATH 2060.03: Introduction to Probability and Statistics *
 - BIOL 2030.03: Genetics and Molecular Biology
 - BIOL 2040.03: Evolution
 - BIOL 3046.03: Molecular Evolution

Selectives:

- STAT 2080/MATH 2080.03: Statistical Methods for Data Analysis and Inference
- CSCI 2134.03: Software Development *
- CSCI 3110.03: Design and Analysis of Algorithms I *
- CSCI 4180.03: Intro to Computational Biology and Bioinformatics *
 - CSCI 4181.03: Bioinformatics Algorithms *
 - BIOC 4403.03: Genes and Genomes (Highly recommended)

* Cannot be used toward the Minor if the course is being counted toward a Major or Honours degree

PATHWAY for Statistics or Mathematics students

Coordinator: Dr. Hong Gu (hgu@mathstat.dal.ca)

Students must take all required courses and enough selective courses to total 18 credit hours. Courses (required or selective) cannot be used toward the Minor if the course is being counted toward a Major or Honours degree.

Required prerequisite courses (don't count toward minor):

- CSCI 1105.03: Introduction to Computer Programming (or CSCI 1100.03)
- CSCI 1110.03: Introduction to Computer Science (or CSCI 1101.03)
- BIOL 1010.03: Principles of Biology Part I or BIOL 1020.03: Introductory Biology
- MATH 1000.03: Differential and Integral Calculus I or MATH 1500.06 X/Y: Calculus)

Required courses

- BIOL 2030.03: Genetics and Molecular Biology
- BIOL 2040.03: Evolution
- BIOL 3046.03: Molecular Evolution

Selectives

- CSCI 2134.03: Software Development (Highly recommended)
- CSCI 4180.03 :Intro to Computational Biology and Bioinformatics
- CSCI 4181.03 :Bioinformatics Algorithms
- BIOC 4403.03: Genes and Genomes (Highly recommended)

PATHWAY for Neuroscience students

Coordinator: Dr. Tamara Franklin (tamara.franklin@dal.ca)

Students must take all required courses and enough selective courses to total 18 credit hours. Courses (required or selective) cannot be used toward the Minor if the course is being counted toward a Major or Honours degree.

Required prerequisite courses (don't count toward minor):

- CSCI 1105.03: Introduction to Computer Programming (or CSCI 1100.03)
- CSCI 1110.03: Introduction to Computer Science (or CSCI 1101.03)
- BIOL 1010.03: Principles of Biology Part I or BIOL 1020.03: Introductory Biology I
- MATH 1000.03: Differential and Integral Calculus I or MATH 1215.03: Life Sciences Calculus

Required courses:

- STAT 2060/MATH 2060.03: Introduction to Probability and Statistics
- BIOL 2030.03: Genetics and Molecular Biology
- BIOL 3046.03: Molecular Evolution or BIOC 3400.03: Nucleic Acid Biochemistry & Molecular biology

Selectives:

- CSCI 2134.03: Software Development (Highly recommended)
- STAT 2080/MATH 2080.03: Statistical Methods for Data Analysis and Inference
- BIOL 2040.03: Evolution
- BIOL 3101/MARI 3101.03: Microbial Ecology
 - BIOL 3042/MARI 3042.03: Molecular Ecology
 - CSCI 3110.03: Design and Analysis of Algorithms I
 - CSCI 4180.03: Intro to Computational Biology and Bioinformatics
 - CSCI 4181.03: Bioinformatics Algorithms
 - BIOC 4010.03: Bioinformatics

- BIOG 4403.03: Genes and Genomes (Highly recommended)

Introduction

Welcome to the Department of Biology. It has been said that the 21st century will be the century of Biology. We are inclined to agree. Biologists study the entire hierarchy of living systems from molecules, cells, organelles and organs to individuals, populations, and ecosystems. Increasingly, the focus of biological inquiry has shifted from reducing living systems into their parts to investigating how these parts interact in complex systems from which novel and unique properties emerge.

The Department of Biology offers both undergraduate and graduate students a wide range of learning experiences and training in the biological sciences. The undergraduate core introduces the student to the whole biological hierarchy and provides an excellent introduction to the biodiversity of species and their habitats. There are multiple avenues for more tailored learning as well, including independent research opportunities, special topics courses, experiential learning, specialty certificates, and honours research. State of the art laboratories provide experience in current technology and experimental design. Our Seaside Program includes a large number of summer field courses covering freshwater, marine, and terrestrial ecosystems. We excel in Marine Biology as proximity to the Atlantic Ocean gives us the capacity to provide hands-on marine training. In 2014, the Department of Biology began participating in a unique Medical Sciences program that was developed collaboratively by the Faculty of Science and the Faculty of Medicine.

There has never been a more exciting time to be a Biologist, nor has the need to understand the intricacies of nature been more urgent. Our comprehensive programs prepare students for a wide range of career options, including research and education, field and laboratory positions, environmental management and conservation, medical sciences and biotechnology, bioengineering, industry, and business. Not every student will use this degree to be a biologist but each one will have the opportunity to participate in and contribute to one of the most worthwhile endeavors in humanity's near future: understanding nature and how humanity can live better without endangering the multitude of living systems around us, and in turn, ourselves.

Degree Programs

The Department of Biology offers the following degree programs in Biology

- BSc or BA (120 credit hour) Honours (Concentrated)*
- BSc or BA (120 credit hour) Combined Honours*
- BSc or BA (120 credit hour) Major*
- BSc or BA (120 credit hour) Double Major*
- BSc or BA (90 credit hour) Minor in Biology
- Minor in Biology

* [BSc Co-op option available](#)

* May be combined with Minor programs from other disciplines

In addition to departmental requirements, students must satisfy the requirements outlined in the [Academic Regulations](#) and the [College of Arts and Science Degree Requirements](#) sections. Students are advised that a number of requirements differ for the BA and BSc degrees.

A student is governed by the academic regulations in place at the time of initial enrolment, as long as the degree is completed within the time permitted (10 years). Subsequent changes in regulations shall apply only if the student so elects. Student applying the old academic regulations should consult the calendar of the appropriate year.

Students should plan their programs of study carefully and are strongly encouraged to do so in consultation with a Biology undergraduate academic advisor.

Prospective Biology students should be aware that to advance to second year Biology courses, they must achieve at least a C grade in the prerequisite first year Biology courses. Students with exceptional extenuating circumstances may appeal this requirement to the Biology Undergraduate Curriculum Committee. Students should go to the Biology Main Office for further details.

Staff

Dean

Moore, C., BA (Hons), PhD (Cambridge), Professor (Psychology)

Chair

Bentzen, P., MSc (UBC), PhD (McGill)

Biology Program Advisors

For Biology program advising, please email biology.advising@dal.ca for an auto-reply with advisors' office hours.

Professors Emeriti

Hall, B. K., DSc (UNE), LLD (Calgary), PhD (UNE), FRSC, University Research Professor Emeritus

McLaren, I. A., MSc (McGill), PhD (Yale), George S. Campbell Professor Emeritus

O'Dor, R. K., PhD (UBC)

MacRae, T. H., MSc, PhD (Windsor)

Professors

Adamo, S., BSc (Toronto), PhD (McGill), major appointment in Psychology

Bentzen, P., MSc (UBC), PhD (McGill), Killam Professor

Bielawski, J. P., PhD (Texas A & M Univ)

Budge, S., PhD (Memorial), major appointment in Process Engineering

Burton, D. L., BSc (Dalhousie), MSc (Guelph), PhD (Alberta), major appointment in Plant, Food, and Environmental Sciences (Agr)

Caldwell, C. D., BSc (Mt. A), MSc (Dalhousie), PhD (East Anglia), major appointment in Plant, Food, and Environmental Sciences (Agr)

Croll, R., PhD (McGill), major appointment in Physiology/Biophysics (Medicine)

Cutler, C., BSc Hons (Memorial), MPM (SFU), PhD (Guelph), major appointment in Plant, Food and Environmental Sciences (Agr)

Dustin, J., major appointment in Faculty of Agriculture

Fredeen, A., BSA (Saskatoon), MSc (Guelph), PhD (California), major appointment in Animal Science and Aquaculture (Agr)

Gunawardena, A., BSc (Peradeniya), PhD (Oxford Brookes)

Hutchings, J., MSc, PhD (Memorial), Killam Chair

Iverson, S. J., PhD (Maryland)

Johnston, M. O., PhD (Chicago), Campbell Chair

Lada, R., BSc, MSc (Hort) (TNAU), PhD (Adelaide), major appointment in Plant, Food, and Environmental Sciences (Agr)

Lane, P. A., MSc (SUNY Binghamton), PhD (SUNY Albany)

La Roche, J., BSc (McGill), PhD (Dalhousie)

Leonard, M. L., PhD (Ottawa)

Lotze, H. K., BSc (Gottingen), MSc, PhD (Kiel)

Lynch, D. H., BSc, MSc (Agr) (McGill), PhD (Guelph), major appointment in Plant, Food and Environmental Sciences (Agr)

MacLaren, L., major appointment in Faculty of Agriculture

Meinertzhagen, I. A., DSc, PhD (St. Andrews), University Research Professor, major appointment in Psychology

Metaxas, A., BSc (McGill), MSc (UBC), PhD (Dalhousie), major appointment in Oceanography

Miar, Y., major appointment in Faculty of Agriculture

Nams, V. O., BSc (Toronto), MSc (Alberta), PhD (Victoria), major appointment in Environmental Sciences (Agr)

Percival, D. C., BSc (Agr), MSc, PhD (Guelph), major appointment in Environmental Sciences (Agr)

Prithiviraj, B., BSc (Agr) (Annamalai), MSc, PhD (BHU)

Rathgeber, B., major appointment in Faculty of Agriculture

Rupasinghe, H. P. V., BSc (Peredenyia), MSc (Iowa), PhD (Guelph), major appointment in Plant, Food and Environmental Sciences (Agr)

Ruzzante, D. E., PhD (Dalhousie), Killam Professor

Simpson, A. G. B., BSc, PhD (Sydney Australia)

Stewart-Clark, S., major appointment in Faculty of Agriculture

Stone, S. L., PhD (York)

Walde, S. J., PhD (Calgary)

Wang-Pruski, G., BSc (China), PhD (Alberta), major appointment in Plant and Animal Science (Agr)

Whitehead, H., MA, PhD (Cambridge)

Worm, B., PhD (Kiel)

Associate Professors

Crossin, G. T., BA (Maine), BSc (New Hampshire), MSc, PhD (UBC)

Filgueira, R., major appointment in Marine Affairs

Gujar, S., DVM (Marathwarda), PhD (Memorial), MHA (Dalhousie), major appointment in Pathology and Microbiology & Immunology (Medicine)

Latta, R., MSc (Toronto), PhD (Colorado)

MacNeil, M. A., BSc (Hons) (Dalhousie) MSc (Georgia), PhD (Newcastle)

Myles, S. A., BA (St. Thomas), MSc (Oxford), PhD (Max Planck), major appointment in Plant, Food and Environmental Sciences (Agr)

Tittensor, D. P., BSc (Aberdeen), MSc (Memorial), PhD (Dalhousie)

Assistant Professors

Bertrand, E., BSc (Bates College), PhD (MIT/WHOI)

Côté, P. D., BSc (Ottawa), PhD (McGill)

El Hiani, Y., PhD (Universite' de Picardie Jules Verne), major appointment in Physiology and Biophysics (Medicine)

Ferrier, J., PhD (Ottawa)

McLean, N. L., BSc (Agri), MSc (McGill), PhD (Dalhousie), major appointment in Plant, Food and Environmental Sciences (Agr)

Summer Education and Applied Science Institute at Dalhousie in Ecology (S.E.A.S.I.D.E.) Staff

Adjunct

Baillie, S., BSc (Acadia), MSc (Memorial), PhD (New Zealand)
Bowen, W. D., PhD (UBC), B.I.O.
Bradbury, I. R., BSc, BEd, MSc (Memorial), PhD (Dalhousie)
Broders, H., BSc (Hons) (Acadia), MSc (Memorial), PhD (UNB)
Cameron, R., BScF (New Brunswick), MSc (Acadia)
Dalziel, A., BSc (Acadia), MSc (Queens), PhD (UBC)
Davidson, J., PhD (Tromsø)
Devillers, R., BSc (Lyon), MSc (Montreal), PhD (Morne-La-Vallee)
Ells, T., BSc, MSc (Acadia), PhD (Dalhousie)
Franz-Odendaal, T., BSc (Hons), MSc, PhD (Cape Town)
Frasier, T. R., BSc (North Dakota), PhD (McMaster)
Gero, S., BSc, MSc, PhD (Dalhousie)
Guderley, H., BA (Indiana), PhD (UBC)
Harvey-Clark, C., BSc (Univ of Victoria), DVM (Saskatoon)
Hess, S., PhD (Cologne)
Herbinger, C. M., PhD (Dalhousie)
Hipfner, M., BSc (Guelph), MSc (Ottawa), PhD (Memorial)
Horn, A., BSc (Cornell), PhD (Toronto)
Keith, D., BSc, MSc (Calgary), PhD, BEng (Dalhousie), DEng (Cape Breton)
Kuparinen, A., MSc, PhD (Helsinki)
LaCroix, C., BSc, MSc (McGill), PhD (Guelph)
Lee, R. W., PhD (Stoney Brook)
Litvak, M., BSc (York), MSc, PhD (Toronto)
Love, O., BSc (Concordia), MSc (McGill), PhD (SFU)
Mallory, M., BSc (Queens), MSc, PhD (Carleton)
Moors-Murphy, H., BSc, MSc (UNB), PhD (Dalhousie)
Qaderi, M. M., MSc, PhD (Western)
Ronconi, R. A., BSc (Alberta), PhD (Victoria)
Ross, N., BSc, PhD (McGill)
Rossolimo, T., MSc (Moscow State Univ), PhD (Russian Academy of Science)
Shackell, N. L., BSc (McGill), PhD (Dalhousie)
Staicer, C. A., MSc (Northern Arizona), PhD (Univ Mass Amherst)
Stokesbury, M. J. W., BA (Acadia), BSc (UNB), MSc (Acadia), PhD (Dalhousie)
Weir, L., BSc (Concordia), MSc, PhD (Dalhousie)
Whoriskey, F. G., PhD (Laval)

University Teaching Fellow

McAllister-Irwin, N., PhD (Dalhousie)
McCarville, M., BSc, MSc (Dalhousie)
Welsh, E., BSc, (McMaster), MSc (Guelph), BEd (Dalhousie)

Senior Instructors

Bishop, T., BSc, MSc (Memorial)
Cooper, M., PhD (Dalhousie), BEd (Ottawa)
Ewart, K. V., PhD (Memorial), major appointment in Biochemistry & Molecular Biology
Gass, G., PhD (Toronto)

Gibson, L., BSc (Victoria), MSc (Dalhousie)
Grantham, D., BSc (Hons), MSc (Dalhousie)
Schmidt, A., MSc, PhD (Dalhousie)
Van Dommelen, J., MSc (Dalhousie)

Instructors

Rajaselvam, R. J., MScF (Toronto), MSc (Oxford), MPhil (Peradeniya), BSc (Peradeniya)

Post Doctoral Fellows

Batista, D., PhD (VUB)
Boerden, K., PhD (Dalhousie)
Brownscombe, J., PhD (Carleton)
Einfeldt, A., PhD (UNB)
Godwin, S., PhD (SFU)
McLean, M., PhD (IFREMER)
Mull, C., PhD (SFU)
Murphy, G., PhD (Dalhousie)
Ward-Paige, C., PhD (Dalhousie)

BSc or BA (120 credit hour) Concentrated Honours in Biology

Students who want a challenging program resulting in a broad background in Biology, including an independent research experience may want to enroll in an Honours program. Students interested in eventually pursuing graduate studies are particularly encouraged to consider Honours.

To graduate with Honours, students must complete a minimum of 54 credit hours above the 1000 level in Biology. A minimum B+ average (GPA of 3.3), with no grade less than C, is required in the core Biology courses. Students must also have a cumulative B average (GPA of 3.0) in courses in the honours subject at the time of graduation. Students write a research-based Honours thesis. The Honours Qualifying Examination requirement is satisfied through completion of BIOL 4901.03 AND BIOL 4902.03.

A Co-op option is available for students enrolled in a BSc Concentrated Honours in Biology. See [Co-operative Education Program](#).

Admission to Honours

Students must apply for admission to Honours programs. Students considering Honours should consult with a Biology Honours Advisor early in their studies. To be admitted, students must:

- Have a minimum B+ average (GPA of 3.3) in the core Biology courses with no grade less than C. A maximum of two of these core courses may be repeated once to achieve this requirement.
- Have a minimum B average (GPA of 3.0) across all courses in the honours subject.
- Identify and gain the support of a thesis supervisor during their third year of studies (see Honours webpage for supervisor eligibility).
- With the supervisor's input, draft and submit a thesis proposal to the Honours Committee no later than May 15th of their third year of studies. See Honours webpage for thesis proposal guidelines, and admission procedures for Honours Co-op students.

Biology Honours webpage <https://www.dal.ca/faculty/science/biology/honours.html>

Course Requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a Concentrated Honours program in Biology must complete the following courses:

1000 level

- BIOL 1010.03: Principles of Biology Part I (or BIOL 1020.03: Introductory Biology I: Cells, Genetics and Evolution or SCIE 1505X/Y.18 or SCIE 1506.09: Integrated Science I and SCIE 1507.09 Integrated Science II or equivalent)
- BIOL 1011.03: Principles of Biology Part II (or BIOL 1021.03: Introductory Biology II: Organismal Biology and Ecology or SCIE 1505X/Y.18: Integrated Science or SCIE 1506.09: Integrated Science I and SCIE 1507.09 Integrated Science II or equivalent)
- MATH 1060.03/STAT 1060.03: Introductory Statistics for Science and Health Sciences (or SCIE 1505X/Y.18: Integrated Science or SCIE 1506.09: Integrated Science I and SCIE 1507.09 Integrated Science II or equivalent)
- An additional 3 credit hours in MATH or STAT (BSc)
- CHEM 1011.03: Concepts of Chemistry: Structure and Reactivity
- CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium

Recommended:

- PHYC 1310.03/PHYC 1320.03 (or PHYC 1300X/Y.06): Physics In and Around You
- MATH 1215.03: Life Sciences Calculus or MATH 1000.03: Differential and Integral Calculus I or MATH 1030.03: Matrix Theory and Linear Algebra I

2000 level

Core Biology courses

- BIOL 2003.03: Animal Diversity
- BIOL 2004.03: Diversity of Plant and Microorganisms
- BIOL 2020.03: Cell Biology
- BIOL 2030.03: Genetics and Molecular Biology
- BIOL 2040.03: Evolution
- BIOL 2060.03: Introductory Ecology

3000/4000 level

A minimum of 30 additional credit hours in BIOL or BIOL-equivalent courses at or above the 2000 level, of which at least 18 credit hours must be at or above the 3000 level. One of the following course options must be included:

Core Biology Courses

- BIOL 3050.03: Developmental Biology
OR
- BIOL 3078.03: Principles of Animal Physiology Part I AND BIOL 3079.03: Principles of Animal Physiology Part II

In addition, students must complete an Honours Thesis:

- BIOL 4901.03: Honours Research and Thesis I and BIOL 4902.03: Honours Research and Thesis II

Students are encouraged to consult the sections on Course Selection Guidelines and BIOL-Equivalent Courses when selecting their 3000 and 4000 level courses.

BSc or BA (120 credit hour) Combined Honours in Biology and another subject

Students who wish to study Biology in conjunction with another subject may wish to pursue a Combined Honours degree program. The other subject may be any discipline from the Faculty of Science (other than Marine Biology), the Faculty of Arts and Social Sciences, the Faculty of Computer Science, or the College of Sustainability. Biology may be the primary subject (defined as the subject with the larger number of honours credits), or the secondary subject. Students planning to enroll in a Combined Honours program should consult with academic advisors from both programs early in their studies. Students must have their program of study approved by Academic Advisors in both subject areas.

To graduate with Honours, students must complete a minimum of 36 credit hours above the 1000 level in BIOL or BIOL-equivalent courses, whether Biology is the primary or the secondary subject. A minimum B+ average (GPA of 3.3), with no grade less than C, is required in the core Biology courses. Students must also have a cumulative B average (GPA of 3.0) at the time of graduation. Students write a research-based Honours thesis and complete an Honours Qualifying Examination in their primary subject area. For Biology, this requirement is satisfied through BIOL 4901.03 AND BIOL 4902.03.

A Co-op option is available for students enrolled in a BSc Combined Honours in Biology. See [Co-operative Education Program](#).

Admission to Honours

Students must apply for admission to Honours programs. To be admitted to the Biology Honours program, students must:

- Have a minimum B+ average (GPA of 3.3) in core 2nd year Biology courses with no grade less than C. A maximum of two of these core courses may be repeated once to achieve this requirement.
- Have a minimum B average (GPA of 3.0) across all courses in the Honours subject.
 - If Biology is to be the primary subject area, students must
 - Identify and gain the support of a thesis supervisor during their third year of studies (see Biology Honours webpage for supervisor eligibility).
 - With the supervisor's input, draft and submit a thesis proposal to the Biology Honours Committee no later than May 15th of their third year of studies. See Honours webpage for thesis proposal guidelines, and admission procedures for Honours Co-op students.

Biology Honours webpage <https://www.dal.ca/faculty/science/biology/honours.html>

-

Course Requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a BSc or BA Combined Honours program in Biology and another subject must complete the following:

1000 level

- BIOL 1010.03: Principles of Biology Part I (or BIOL 1020.03: Introductory Biology I: Cells, Genetics and Evolution or SCIE 1505X/Y.18: Integrated Science or SCIE 1506.09 Integrated Science I and SCIE 1507.09 Integrated Science II or equivalent)
- BIOL 1011.03: Principles of Biology Part II (or BIOL 1021.03: Introductory Biology II: Organismal Biology and Ecology or SCIE 1505X/Y.18: Integrated Science or SCIE 1506.09: Integrated Science I and SCIE 1507.09 Integrated Science II or equivalent)

- MATH 1060.03/STAT 1060.03: Introductory Statistics for Science and Health Sciences (or SCIE 1505X/Y.18: Integrated Science or SCIE 1506.09: Integrated Science I and SCIE 1507.09 Integrated Science II or equivalent)
- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity
- CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium

Recommended:

- PHYC 1310.03/PHYC 1320.03 (or PHYC 1300X/Y.06): Physics In and Around You or equivalent
- MATH 1215.03: Life Sciences Calculus or MATH 1000.03: Differential and Integral Calculus I or MATH 1030.03: Matrix Theory and Linear Algebra I

2000 level

Core Biology Courses

- BIOL 2003.03: Animal Diversity
- BIOL 2004.03: Diversity of Plants and Microorganisms
- BIOL 2020.03: Cell Biology
- BIOL 2030.03: Genetics and Molecular Biology
- BIOL 2040.03: Evolution
- BIOL 2060.03: Introductory Ecology

3000/4000 level

If Biology is the primary subject, students must complete 12 additional credit hours in BIOL or BIOL-equivalent courses at the 3000/4000 level. If Biology is the secondary subject, you must complete 18 additional credit hours in BIOL or BIOL-equivalent courses at the 3000/4000 level. In either case, one of the following course options must be included:

Core Biology Courses

- BIOL 3050.03: Developmental Biology
OR
- BIOL 3078.03: Principles of Animal Physiology Part I AND BIOL 3079.03: Principles of Animal Physiology Part II

In addition, if Biology is the primary subject, students will also complete:

- BIOL 4901.03: Honours Research and Thesis I and BIOL 4902.03: Honours Research and Thesis II

Students are encouraged to consult the sections on Course Selection Guidelines, and BIOL-Equivalent Courses when selecting their 3000 and 4000 level courses.

BSc or BA (120 credit hour) Major in Biology

The Major degree program is suited to students who want to focus on Biology, but wish to have a program that is somewhat less constrained than the Honours program. It provides a four-year survey of Biology and is designed for students not anticipating subsequent experimental graduate-level training in Biology or related disciplines. Biology Majors complete a minimum of 42 credit hours in BIOL or BIOL-equivalent courses above the 1000 level. Biology Majors do not have thesis (or related) requirements. Research and other experiential learning opportunities are available through laboratories, independent research courses, special topics courses and experiential learning courses. Students should plan their programs carefully and obtain advice from an academic advisor in the Biology Department.

A Science Co-op option is available for students enrolled in a Major program in Biology. See [Co-operative Education Program](#).

Course Requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a Major program in Biology must complete the following courses:

1000 level

- BIOL 1010.03: Principles of Biology Part I (or BIOL 1020.03: Introductory Biology I: Cells, Genetics and Evolution or SCIE 1505X/Y.18: Integrated Science or SCIE 1506.09: Integrated Science I and SCIE 1507.09 Integrated Science II or equivalent)
- BIOL 1011.03: Principles of Biology Part II (or BIOL 1021.03: Introductory Biology II: Organismal Biology and Ecology or SCIE 1505X/Y.18: Integrated Science or SCIE 1506.09: Integrated Science I and SCIE 1507.09 Integrated Science II or equivalent)
- MATH 1060.03/STAT 1060.03: Introductory Statistics for Science and Health Sciences (or SCIE 1505X/Y.18 or SCIE 1506.09: Integrated Science I and SCIE 1507.09 Integrated Science II or equivalent)
- An additional three credit hours in MATH or STAT (BSc)
- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity
- CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium

2000 level

- BIOL 2003.03: Animal Diversity
- BIOL 2004.03: Diversity of Plants and Microorganisms
- BIOL 2020.03: Cell Biology
- BIOL 2030.03: Genetics and Molecular Biology
- BIOL 2040.03: Evolution
- BIOL 2060.03: Introductory Ecology

3000/4000 level

- A minimum of 24 credit hours, of which at least 3 credit hours must be at the 4000 level, of BIOL or BIOL-equivalent courses.

Students are encouraged to consult Course Selection Guidelines and BIOL-Equivalent Courses when selecting their 3000 and 4000 level courses.

BSc or BA (120 credit hour) Double Major in Biology and another subject

The Double Major degree program allows students to combine a study of Biology with another subject. The other subject may be any discipline from the Faculty of Science (other than Marine Biology), the Faculty of Arts and Social Sciences, the Faculty of Computer Science or the College of Sustainability. Biology may be the primary subject (defined as the subject with the larger number of credits), or the secondary subject. If the primary subject area is from the Faculty of Arts and Social Sciences, the degree granted will be a BA.

Regardless of whether Biology is the primary or secondary subject, the Biology departmental requirements are the same (see below). Students must complete a minimum of 33 credit hours in BIOL or BIOL-equivalent courses above the 1000 level. It is recommended that students enrolled in a Double Major program consult with advisors in both subject areas.

A Science Co-op option is available for students enrolled in BSc Double Major with Biology as the primary subject. See [Co-operative Education Program](#).

Course Requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a BSc or BA Double Major program in Biology and another subject must complete the following:

1000 level

- BIOL 1010.03: Principles of Biology Part I (or BIOL 1020.03: Introductory Biology I: Cells, Genetics and Evolution or SCIE 1505X/Y.18: or SCIE 1506.09: Integrated Science I and SCIE 1507.09 Integrated Science II or equivalent)
- BIOL 1011.03: Principles of Biology Part II (or BIOL 1021.03: Introductory Biology II: Organismal Biology and Ecology or SCIE 1505X/Y.18: or SCIE 1506.09: Integrated Science I and SCIE 1507.09 Integrated Science II or equivalent)
- MATH 1060.03/STAT 1060.03: Introductory Statistics for Science and Health Sciences (or SCIE 1505X/Y.18 or SCIE 1506.09: Integrated Science I and SCIE 1507.09 Integrated Science II or equivalent) (if planning to take BIOL 2060.03: Introductory Ecology)
- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity
- CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium
- An additional three credit hours of MATH or STAT (BSc)

2000 level

- BIOL 2020.03: Cell Biology
- BIOL 2030.03: Genetics and Molecular Biology
- BIOL 2040.03: Evolution
- Any TWO of
 - BIOL 2003.03: Animal Diversity
 - BIOL 2004.03: Diversity of Plants and Microorganisms
 - BIOL 2060.03: Introductory Ecology
- Three additional credit hours in BIOL or BIOL-equivalent courses at or above the 2000 level

3000/4000 level

- A minimum of 18 credit hours of BIOL or BIOL-equivalent courses at or above the 3000 level whether Biology is the primary or the secondary subject

Please note that a double major in Biology and Marine Biology is not offered.

Students are encouraged to consult the sections on Course Selection Guidelines and BIOL-Equivalent Courses when selecting their 3000 and 4000 level courses.

BSc or BA (90 credit hour) Minor in Biology

The 90 credit hour degree with Minor in Biology is appropriate for students who want to study some Biology but do not wish to complete the conventional four-year program. The degree is best suited for students who want a general science degree with some specialization in Biology. A 90 credit hour degree program is not suitable for students who wish to pursue graduate studies. With additional study, the degree may be upgraded to a 120 credit hour Major or Honours degree at a later date.

A 90 credit hour BSc or BA in Biology is usually the preferred option for students who wish to combine studies in Biology with a degree in Engineering (see BSc/BEng or BA/BEng Concurrent Program).

Requirements

- A minimum of 18 credit hours in Biology (BIOL) and/or Marine Biology (MARI) courses at the 2000 level or higher to a maximum of 36 credit hours. A maximum of 6 credit hours may be **BIOL-equivalent**.

Please note that upper level Biology (BIOL) and Marine Biology (MARI) courses have prerequisite requirements.

A BSc or BA (120 credit hour) degree program with a [Minor in Biology](#) is also available to students in the Faculty of Science.

Minor in Biology

This minor is available to students registered in a 120 credit hour Bachelor of Applied Computer Science, Bachelor of Arts, Bachelor of Commerce, Bachelor of Community Design, Bachelor of Computer Science, Bachelor of Informatics, Bachelor of Management, Bachelor of Music, Bachelor of Science or Bachelor of Science (Medical Sciences) program.

This minor is not available to students majoring in Marine Biology.

Requirements

- A minimum of 18 credit hours in Biology (BIOL) and/or Marine Biology (MARI) courses at the 2000 level or higher to a maximum of 36 credit hours. A maximum of 6 credit hours may be [BIOL-equivalent](#).

Please note that upper level Biology (BIOL) and Marine Biology (MARI) courses have prerequisite requirements.

A [BSc or BA \(90 credit hour\) degree program with a Minor in Biology](#) is also available to students in the Faculty of Science.

Contact [Biology](#) for more information.

Co-op, Minors, Certificates and Engineering Concurrent Programs for Students

Co-operative Education Program (Science Co-op) in Biology

Co-op Academic Advisor: Mindy McCarville mindy.mccarville@dal.ca

Science Co-op is a program where academic study in a science subject is combined with paid career-related work experience. Students undertake three work-terms interspersed with their academic study terms. Science Co-op degree programs enable students to apply their knowledge directly while providing them with work experience that assists in making educated career choices.

Science Co-op is available to students in BSc (120 credit hour) Honours or Major programs in Biology, or in Combined Honours or Double Major programs with Biology as the primary subject. The number of students admitted into Science Co-op each year is limited. A minimum GPA of 3.00 is required for admission and for continuation in the Co-op program. Students must be eligible to work in Canada.

Students normally apply to join Science Co-op during their first year of study, but application during the second year of study is possible. Students must apply before April 15, and it is recommended that interested students contact their Departmental Co-op advisor early in the Winter term of their first year. If accepted into Science Co-op, students must register for, and attend the Science Co-op Seminar Series (SCIE 2800.00) at least four months prior to the first work term.

Details are available from the Biology Co-op Academic Advisor and from the Co-operative Education office http://www.dal.ca/academics/cooperative_education.html. For more information on Co-op Education in Biology, please see the Biology department webpage.

Minors available to students in Biology

Minor programs allow students to develop subject specialties in addition to their major or honours subjects. Minors in other subjects are normally added to 120 credit hour BSc or BA programs (including Science Co-op).

Students in a BSc or BA (120 credit hour) program in Biology may choose to include a Minor selected from the [list of approved Minors](#). Courses counted toward a Major or Honours subject cannot be used to fulfill the requirements of a Minor program.

Certificates

In combination with a BSc or BA in Biology, students may obtain one or more Certificates. A Certificate indicates that a student has achieved a certain level of proficiency in a given area or subspecialty. Courses counted toward a Major, Honours or Minor subject may also be used to fulfill the requirements of a Certificate. Students must apply to the Certificate Coordinator to be considered for a Certificate. Certificates are awarded upon graduation and are noted on the student's academic transcript.

A complete list of [Faculty of Science Certificates](#) and requirements. Students may also work toward obtaining Certificates offered by other Faculties; some of these are listed in the [College of Arts and Science Degree Requirements](#) section of the calendar.

Certificates of particular interest to student enrolled in a BSc or BA in Biology include:

- [Certificate in Animal Behaviour](#)
- [Certificate in Aquaculture and the Environment](#)
- [Certificate in Environmental Impact Assessment](#)
- [Certificate in Genetics](#)
- [Certificate in Geographic Information Science](#)
- [Certificate in Science Leadership and Communication](#)

BSc/BEng or BA/BEng Concurrent Program

Students interested in combining their interest in Biology with a degree in Engineering may choose a BSc/BEng or BA/BEng Concurrent Program, normally completed in a 5 year period. Over the first three years, students complete the requirements for a 90 credit hour BSc or BA degree in Biology and a Diploma of Engineering (the first two years of engineering studies). Two more years of engineering studies are then required to obtain a BEng. Interested students should see an undergraduate advisor from Biology and from the Faculty of Engineering in their first year of study.

Required Biology courses for a BSc/BEng or BA/BEng program in Biology

- A minimum of 18 credit hours in BIOL above the 1000 level

Note that there are prerequisite requirements for entry into upper level Biology courses.

Course Selection Guidelines

Biology is a large and diverse field, and students enroll in Biology programs with a corresponding diversity of interests and goals. While we encourage students to sample broadly across the various biological disciplines during their undergraduate years, we recognize that many students wish to emphasize one or more general areas within Biology. To help students select courses that fit their interests and goals, we have identified three general areas in Biology:

- A. Ecology and Evolution,
- B. Organismal Biology,
- C. Cell/Molecular Biology.

Below, we list courses associated with each area, and provide recommendations for designing individual programs at the third and fourth year levels.

IMPORTANT: Students should choose 2000 level courses in their second year with care, so that they will have the necessary pre-requisites to enroll in third and fourth year courses in their interest areas.

NOTE: These are not requirements. Students may select courses from any or all areas, provided they meet requirements for their degree program.

Ecology and Evolution

Ecology and Evolution (E&E) spans a broad range of concepts and applications from ecosystem ecology through population ecology to molecular evolution. A well-rounded course of study in Ecology or Evolution or both will include some courses in basic principles applicable to all organisms and habitats/ecosystems, as well as more specific courses on the details of how these principles play out in particular situations (e.g. taxa, habitats), and how these principles are applied to real world problems. In addition, a well-trained student in E&E should have both well-developed numerical skills as well as exposure to the application of E&E in broader society. Students wishing to emphasize E&E in their degree program should select courses from the following:

Principles: BIOL 3042, BIOL 3044, BIOL 3046, BIOL 3061, BIOL 3062, BIOL 3065, BIOL 3101

Biodiversity: BIOL 3080, BIOL 3221, BIOL 3301, BIOL 3322, BIOL 3327, BIOL 3620, BIOL 3622, BIOL 3626, MARI 3090

Ecosystems: BIOL 3101, BIOL 3623, BIOL 3624, BIOL 3664, BIOL 3761, BIOL 4002, BIOL 4323, BIOL 4370, BIOL 4661, BIOL 4666, OCEA 3001, OCEA 3002, OCEA 3003, OCEA 3004

Evolution: BIOL 3102, BIOL 3326, EARTH 2205, EARTH 2420, MARI 4090

Applications: BIOL 3060, BIOL 3063, BIOL 3225, BIOL 3226, BIOL 3328, BIOL 3329, BIOL 3580, BIOL 3601, BIOL 3623, BIOL 3624, BIOL 3634, BIOL 4001, BIOL 4065, BIOL 4160, BIOL 4335, BIOL 4369, HSTC 2204, MARI 3602, MARI 3603, MARI 3604

Methods and Data Skills: BIOL 3633, BIOL 3664, BIOL 3680, BIOL 4061, BIOL 4062, BIOL 4323, MARI 4600

Organismal Biology

Organismal biology includes areas such as development, physiology and anatomy, as well the study of particular taxonomic groups. Students interested in organismal biology are encouraged to select courses from the following:

Developmental Biology: BIOL 3050

Physiology/Anatomy: BIOL 3078, BIOL 3079, BIOL 3326, BIOL 3336, BIOL 3421, BIOL 3430, PHYL 3120

Microbes: BIOL 2004, BIOL 3101, BIOL 3102

Algae/plants: BIOL 3221, BIOL 3225, BIOL 3226

Animals: BIOL 3080, BIOL 3301, BIOL 3322, BIOL 3326, BIOL 3327, BIOL 3336, BIOL 3622, BIOL 3626, EARTH 2420, MARI 3090, MARI 3627, MARI 4090

Organisms in the environment: BIOL 3062, BIOL 3101, BIOL 3620, BIOL 3623, BIOL 3630, BIOL 3664, BIOL 4323, BIOL 4369, BIOL 4370

General: BIOL 3024, BIOL 3503, BIOL 3580, BIOL 4061, BIOL 4062, BIOL 4664

Cell/Molecular Biology

Cell/molecular biology includes areas such as cell biology, molecular biology, genetics, biochemistry, microbiology, development, evolution and biotechnology. Students interested in cell/molecular biology are encouraged to consider the courses listed below. Note that Biology credit can be obtained for Microbiology, Biochemistry and Physiology courses above the 2000 level.

Biology: BIOL 3046, BIOL 3102, BIOL 4020, BIOL 4035

Microbiology: all MICI courses 2000 level or higher

Biochemistry: all BIOC courses 2000 level or higher

Neuroscience: NESC 2570, NESC 3970

Physiology: all PHYL courses 2000 level or higher

BIOL-Equivalent Courses

Several other Dalhousie departments offer courses in one or more areas of Biology. Students enrolled in a 120 credit hour BSc or BA program in Biology may count any of the following courses toward their Biology program course requirements:

Please note that **two**(2) BIOL-equivalent courses can count towards a minor program in Biology.

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are typically available to students in the second, third, and fourth year.

Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not obtain credit for both courses as designated.

Not all courses are offered each year. Please consult the current [timetable](#) for this year's offering. For further information please contact the department, or visit the department's website.

Course Notes

The normal entry requirement for admission to upper level courses in Biology is a grade of C or better in each of BIOL 1010.03 or BIOL 1020.03 and BIOL 1011.03 or BIOL 1021.03 or in SCIE 1505.18. Students with a lower grade and extenuating circumstances may appeal to the department Undergraduate Curriculum committee. Students should go to the Biology Main Office for further details.

Consult the Biology Department's website for updates on new courses and suggested course combinations.

Course Descriptions

BIOL 1010 Principles of Biology Part I

CREDIT HOURS: 3

This course, which prepares students for more advanced courses in biology and allied subjects, surveys the fundamental principles of biology with an emphasis on those features common to all organisms. Topics covered include cell and molecular biology, genetics, and evolution. Knowledge of high school mathematics, chemistry and biology is recommended.

CALENDAR NOTES: Students wishing to continue as biology or marine biology majors should complete BIOL 1010 (or BIOL 1020) and BIOL 1011 (or BIOL 1021) in the first year of study. Students planning to take further courses in Biology or Marine Biology should read the Program Requirements for these degrees.

COREQUISITES:

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: BIOL 1020.03, SCIE (15XX), BIOA 1002.03

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOL 1011 Principles of Biology Part II

CREDIT HOURS: 3

Biology 1011 broadens the background laid down in BIOL 1010 to include plant and fungi form and function, animal form and function, and ecology. Knowledge of high school mathematics, chemistry and biology is recommended

CALENDAR NOTES: Students wishing to continue as biology or marine biology majors should complete BIOL 1010 (BIOL 1020) and BIOL 1011 (BIOL 1021) in the first year of study. Students planning to take further courses in Biology or Marine Biology should read the Program Requirements

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOL 1020 Introductory Biology I: Cells, Genetics & Evolution

CREDIT HOURS: 3

Biology 1020.03 is the equivalent of BIOL 1010.03, and is offered primarily online in the fall, winter and summer terms. Topics include cell and molecular biology, genetics, and evolution. High school mathematics, chemistry, and biology is recommended. Learning activities include readings, quizzes, interactive multimedia, online labs, home labs, and recorded lectures.

CALENDAR NOTES: Students planning to take further courses in Biology or Marine Biology should read the Program Requirements for

these degrees. Midterm and final exams must be written on a Dalhousie campus.

LAB HOURS PER WEEK:

BIOL 1021 Introductory Biology II: Organismal Biology & Ecology

CREDIT HOURS: 3

Biology 1021.03 is the equivalent of BIOL 1011.03, and is offered primarily online in the fall, winter and summer terms. Topics include diversity of eukaryotic life, ecology, and plant and animal biology. High school mathematics, chemistry, and biology are recommended. Learning activities include readings, quizzes, interactive multimedia, online labs, home labs, and recorded lectures.

CALENDAR NOTES: Students planning to take further courses in Biology or Marine Biology should read the Program Requirements for these degrees. Midterm and final exams must be written on a Dalhousie campus.

LAB HOURS PER WEEK:

BIOL 1050 Biology and Society

CREDIT HOURS: 3

Health, climate change, genetically modified organisms, species and the evolution of disease. Designed for non-majors this course introduces the basics of cell biology, genetics and evolution and how they affect our society. Students acquire a foundation for life-long learning and critical thinking in biology through lectures, independent study and lab activities. NOTE: This course is for students in an Arts program or program other than Biology.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: None

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOL 2004 Diversity of Plants and Microorganisms

CREDIT HOURS: 3

Introduces the main domains of plant, fungal and microbial life, based on modern phylogenetic taxonomy. Examines the diversity, structure, physiology and ecology of non – animal life forms. Reviews the origins of the main lineages of living things - Archaea, Eubacteria and Eukaryota, as well as the main groups of eukaryotes.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: A grade of C or higher in BIOL 1010.03 or (BIOL 1020.03, or BIOA 1002.03 or BIOL 1030.03) and BIOL 1011.03 or (BIOL 1021.03, BIOA 1003.03, or BIOL 1031.03); or SCIE 1505.18.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOL 2020 Cell Biology

CREDIT HOURS: 3

An introduction to the eukaryotic cell. Major cell components and activities are described at ultrastructural and molecular levels with emphasis on mammalian systems. The concept of the cell as an integrated structural, functional unit is developed.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: A grade of C or higher in BIOL 1010.03 or (BIOL 1020.03, BIOL 1030.03, BIOA 1002.03) or SCIE 1505.18 or equivalent.

RECOMMENDED: CHEM 1011.03 and CHEM 1012.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: BIOA 2001.03

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOL 2030 Genetics and Molecular Biology

CREDIT HOURS: 3

The power and prominence of modern genetics are emphasized through a blend of classical and molecular approaches. Topics: Mendelian, population and quantitative genetics; chromosome structure and variation; structure and function of nucleic acids; DNA replication, transcription and translation; gene expression; gene mutations; and genetic engineering. Course-based authentic research in lab.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: A grade of C or higher in BIOL 1010 or BIOL 1020.03 or BIOA 1002.03 or BIOL 1031.03 or DISP (SCIE 15XX) or equivalent. RECOMMENDED: CHEM 1011.03 and CHEM 1012.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: GENE 2000.03

FORMATS: Lecture | Lab | Tutorial

LAB HOURS PER WEEK:

BIOL 2040 Evolution

CREDIT HOURS: 3

A thorough overview of the process of evolution. Genetic variation and changes in genetic composition of populations, the relationship between genetic and phenotypic change. Adaptation at various levels of organization (DNA to species), speciation, phylogeny, and macroevolutionary patterns. Introduces the full breadth of evolutionary concepts, preparatory to more advanced courses.

CALENDAR NOTES: Recommended: SCIE 1111.03 Writing for the Sciences.

COREQUISITES:

PREREQUISITES: A grade of C or higher in BIOL 1010.03 or BIOL 1020.03 or BIOL 1031.03 or BIOA 1002.03 and BIOA 1003.03, or SCIE 1506.09 and SCIE 1507.09 or equivalent.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: none

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOL 2060 Introductory Ecology

CREDIT HOURS: 3

Ecology examines interactions of plants and animals, including humans, with each other and with their non-living world. Topics include

population growth, competition, predation, food webs, metapopulation dynamics, biodiversity and ecosystem function. The course has a quantitative approach providing a foundation for further work in ecology, marine biology and environmental science.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: A grade of C or higher in BIOL 1011.03, BIOL 1021.03, BIOA 1003.03, ENVS 1100.03, ENVS 1000.06, BIOL 1030.03, or (SCIE 1505.18); and a grade of D or higher in MATH/STAT 1060.03 or MATH/STAT 2080.03.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: BIOA 3001.03

FORMATS: Lecture | Lab | Tutorial

LAB HOURS PER WEEK:

BIOL 2601 The Flora of Nova Scotia

CREDIT HOURS: 3

Introduction to the biodiversity of flowering plants (Angiosperms) found in Nova Scotia. A wide range of plant communities are visited on several day-long field trips. A focus on plant identification is supplemented with lessons in plant ecology, floral biology, pollination mechanisms, natural history, and human uses (e.g., edible, poisonous, medicinal).

CALENDAR NOTES: Offered in summer through **SEASIDE**. An auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see seaside.science.dal.ca.

COREQUISITES:

PREREQUISITES: One year of university courses

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: BIOL 3219.03

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOL 2605 Introduction to Marine Life of Nova Scotia

CREDIT HOURS: 3

Introduction to the variety of marine life found in Nova Scotia. The diversity and zonation of invertebrates and macroalgae is explored on field trips to different shore environments, including a salt marsh, rocky shore and sandy beach. Lectures and laboratory-based investigations on live marine organisms complement the field trips.

CALENDAR NOTES: Offered in summer through **SEASIDE**. An auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see seaside.science.dal.ca. Marine Biology students may NOT use this course as part of their major degree requirements. This course is aimed at non-majors who have completed at least one year of university.

COREQUISITES:

PREREQUISITES: One year of university courses

LAB HOURS PER WEEK:

BIOL 3037 Life Rewritten: Applications and Implications of Gene Editing and Synthetic Biology

CREDIT HOURS: 3

This course introduces students to gene editing and synthetic biology tools (eg.CRISPR) as well as both current and future applications of those tools for conservation, medicine, and food production. This course empowers students to develop informed opinions about the ethics of using such tools in science and society.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: A mark of B- or better in both BIOL 2020 (Cell Biology) and BIOL 2030 (Genetics and Molecular Biology) or instructor's consent.

CROSSLISTED:

RESTRICTIONS: E1 and E2. Reservation for Biology majors to register first.

EXCLUSIONS:

FORMATS: Lecture | Discussion | Other (explain in comments)

LAB HOURS PER WEEK:

BIOL 3042 Molecular Ecology

CREDIT HOURS: 3

We survey techniques of molecular genetic analysis and consider how they can be used to identify species, populations, sexes, individuals and family relationships, and study population attributes such as historical dispersal, contemporary connectivity, mating behaviour and effective population size. Evaluation is based on assignments, a test and a final exam.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: A grade of B- or better in each of BIOL 2030.03 (or GENE 2000.03), BIOL 2040.03, and BIOL 2060.03.

CROSSLISTED: MARI 3042.03

RESTRICTIONS:

EXCLUSIONS: BIOL 4042.03

FORMATS: Lecture

LAB HOURS PER WEEK:

BIOL 3044 Ecological Genetics

CREDIT HOURS: 3

An advanced examination of genetic variation in ecologically important (especially quantitative) traits. Topics will include determining whether a trait is inherited; natural selection in the wild; specialist vs. generalist strategies; how variation is maintained in the face of selection; trade-offs between competing selective pressures and selection for diversification.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 2040.03 or BIOL 3041.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: BIOL 4044.03

FORMATS: Lecture

LAB HOURS PER WEEK:

BIOL 3046 Molecular Evolution

CREDIT HOURS: 3

This course examines the process of evolutionary change at the molecular level. It begins with the sources of mutation, and moves on to dynamics of population variation. The course culminates with a macro-evolutionary perspective on topics such as adaptive evolution and genetic co-option. This course is complementary to BIOC 4010.03 (Bioinformatics).

CALENDAR NOTES:

COREQUISITES:
PREREQUISITES: BIOL 2030.03 (or GENE 2000.03) and BIOL 2040.03
CROSSLISTED:
RESTRICTIONS:
EXCLUSIONS:
FORMATS: Lecture
LAB HOURS PER WEEK:

BIOL 3050 Developmental Biology

CREDIT HOURS: 3
Lectures describe development as a sequence of processes and events, in which 'simple' structures such as fertilized eggs are progressively transformed into complex organisms. These events are governed by developmental 'rules' which have been determined through experimental study of animal and plant model organisms. Laboratories use live material whenever possible.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: BIOL 2020.03 (or BIOA 2001.03) and BIOL 2030.03 (or GENE 2000.03)
CROSSLISTED:
RESTRICTIONS:
EXCLUSIONS:
FORMATS: Lecture | Lab | Discussion
LAB HOURS PER WEEK:

BIOL 3060 Environmental Ecology

CREDIT HOURS: 3
The ecological effects of pollution, disturbance, and other stressors, both anthropogenic and natural. Major subject areas are air pollutants, toxic metals, acidification, eutrophication, oil spills, pesticides, forestry, warfare, urban ecology, risks to biodiversity, and resource degradation. The overarching context of the course is ecological sustainability of the human economy.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: BIOL 2060.03 (or BIOA 3001.03) (or see instructor)
CROSSLISTED:
RESTRICTIONS:
EXCLUSIONS:
FORMATS: Lecture | Tutorial
LAB HOURS PER WEEK:

BIOL 3061 Communities and Ecosystems

CREDIT HOURS: 3
Part 1 includes ecosystem history and theory, species interactions, modelling, complex systems theory, systems ecology, and quantitative approaches such as computer simulation. Part 2 discusses food webs, ecological networks, trophic cascades, ecological complexity and stability, and qualitative approaches such as loop analysis.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: BIOL 2060.03 (or BIOA 3001.03) or INTD 2001.03 or INTD 2002.03
CROSSLISTED:
RESTRICTIONS: E1, E2
EXCLUSIONS:
FORMATS: Lecture
LAB HOURS PER WEEK:

BIOL 3062 Behavioral Ecology

CREDIT HOURS: 3
This course examines animal behaviour from an evolutionary perspective. Using the theory of natural selection as a basis, we will examine foraging, grouping patterns, territorial behaviour, parenting, mating behaviour, social organization, aggression and cooperation. There will be tutorials and essay assignments.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: BIOL 2060.03 (or BIOA 3001.03)

CROSSLISTED:
RESTRICTIONS:
EXCLUSIONS:
FORMATS: Lecture
LAB HOURS PER WEEK:

BIOL 3063 Resource Ecology

CREDIT HOURS: 3

This course considers the ecology, utilization, and management of natural resources in fisheries, wildlife and forest management, agriculture and aquaculture. Topics include population dynamics, community interactions, and ecosystem support of resources as well as the history of resource utilization, practices of controlling production, pests, and predators, and sustainable management strategies.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 2060.03 (or BIOA 3001.03) and MATH 1000.03 (or MATH 1215.03 or SCIE 1505.18) and STAT 1060.03 (or SCIE 1505.18)

CROSSLISTED: MARI 3063.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

BIOL 3065 Conservation Biology

CREDIT HOURS: 3

This course offers an introduction to conservation biology: the science of understanding and conserving biodiversity on Earth. Students learn how biodiversity change is assessed and what tools are used to prevent the extinction of species and the disruption of ecosystems. Tutorials involve oral presentations as well as a written essay, and an in-depth discussion of controversial topics.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 2060.03 or BIOA 3001.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

BIOL 3078 Principles of Animal Physiology Part I

CREDIT HOURS: 3

Lectures on the mechanisms which coordinate the activities of cells within multicellular organisms and permit such organisms to remain in homeostatic balance. The emphasis is on the mechanisms most widely distributed throughout the animal kingdom. The laboratories are designed to illustrate these principles in a variety of organisms.

CALENDAR NOTES: Students must complete 3078.03 before 3079.03

COREQUISITES:

PREREQUISITES: BIOL 2003.03, and BIOL 2020.03 (or BIOA 2001.03)

CROSSLISTED: MARI 3074.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOL 3079 Principles of Animal Physiology Part II

CREDIT HOURS: 3

This course is a continuation of a discussion of the mechanisms which coordinate the activities of cells within multicellular organisms which began in BIOL 3078.03. This term emphasizes the urinary, cardiovascular and respiratory systems. The laboratories reflect the approaches taken to study these systems in a variety of organisms.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 3078.03 or MARI 3074.03

CROSSLISTED: MARI 3076.03

RESTRICTIONS:
EXCLUSIONS: BIOA 3005.03
FORMATS: Lecture | Lab
LAB HOURS PER WEEK:

BIOL 3080 The Ecology and Evolution of Fishes

CREDIT HOURS: 3

The class examines selected topics on the ecology and evolution of marine and freshwater fishes. Topics include: phylogeny and systematics; functional morphology and physiology; population biology; life-history evolution; behavior; fisheries science; and conservation biology.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: A cumulative GPA of 2.7 (B-) or better in BIOL 2003.03, BIOL 2040.03, BIOL 2060.02 (or BIOA 3001.03)

CROSSLISTED: MARI 3080.03

RESTRICTIONS:

EXCLUSIONS: BIOL 3067.03, MARI 3067.03, BIOL 5067.03

FORMATS: Lecture

LAB HOURS PER WEEK:

BIOL 3101 Microbial Ecology

CREDIT HOURS: 3

Lectures on the ecology of bacteria, viruses and protists. Community structure, food web nutrient cycling, biogeochemical cycles, competition, succession and symbiosis are discussed with examples from marine, fresh-water and soil habitats. There is an emphasis on marine organisms.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 2004.03 (or MICI 2100.03), and BIOL 2060.03 (or BIOA 3001.03)

CROSSLISTED: MARI 3101.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

BIOL 3102 Microbial Eukaryotes: Biodiversity and Evolution

CREDIT HOURS: 3

Microbial eukaryotes are of tremendous ecological, evolutionary and medical/veterinary importance. This course provides a comprehensive understanding of the biodiversity and evolution of both algal and protozoan eukaryotes, and examines important aspects of their organismal biology, including cell and genome organization, life histories, trophic strategies, locomotion and symbiosis.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 2020.03 (or BIOA 2001.03) and BIOL 2004.03 (or MICI 2100.03)

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOL 3219 Flora of Nova Scotia

CREDIT HOURS: 3

Hands-on introduction to the plants of Nova Scotia, with an emphasis on taxonomy and a focus on the flowering plants. Includes identification, morphology, distribution, habitat, and ecology. Takes several day-long and half-day field trips. Evaluation includes a plant collection, field notebook, field report, presentation, and lecture and lab exams.

CALENDAR NOTES: Instructor approval required. Offered in summer through SEASIDE. An auxiliary fee is charged to cover field expenses.

COREQUISITES:

PREREQUISITES: BIOL 2004.03, and 2060.03, or equivalents

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: BIOL 2601.03
FORMATS: Lecture | Lab | Other (explain in comments)
LAB HOURS PER WEEK:

BIOL 3221 Diversity of Algae

CREDIT HOURS: 3

This is a taxonomic introduction to the major algal groups (macrophytic and microscopic) with an emphasis on the marine seaweeds. Basic taxonomic differences are covered, along with an introduction to macrophyte ecology, human uses and symbioses. Laboratory sessions focus on morphology and reproduction.

CALENDAR NOTES: Also offered in summer through SEASIDE. An auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see <http://www.seaside.science.dal.ca>

COREQUISITES:

PREREQUISITES: BIOL 2004.03 or equivalent

CROSSLISTED: MARI 3221.03

EXCLUSIONS: BIOL 3212.03, MARI 3212.03

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOL 3225 Plants in the Human Landscape

CREDIT HOURS: 3

The use of plants for human recreation and aesthetic purposes in gardens, public parks, suburban and urban landscapes. Topics include: history of gardens, garden design, plant materials, edible landscaping, plants and human health. The course includes field trips and group work and students complete a design project.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 1010.03 or BIOL 1020.03 (C+ or better) and BIOL 1011.03 or BIOL 1021.03 (C+ or better); or SCIE 1505.18 (C+ or better) or PLAN 2001.03 (C+ or better) or instructor permission

CROSSLISTED: ENVS 3225, PLAN 3225

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

BIOL 3226 Economic Botany: Plants & Civilization

CREDIT HOURS: 3

The story of the human use of plants for food, fibre and fuel including the botany, domestication, development, distribution, production, processing, history, economic and social impacts of the major world crops (cereals, fruits, vegetables, flowers and industrial crops) and the importance of plants in medicine and conservation.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: A grade of B- or higher in BIOL 1010.03 or (BIOL 1020.03 or BIOA 1002.03 or BIOL 1030.03) and BIOL 1011.03 or (BIOL 1021.03, BIOA 1003.03, or BIOL 1031.03); or SCIE 1505.18

CROSSLISTED: ENVS 3226.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

BIOL 3301 Invertebrate Biology

CREDIT HOURS: 3

A survey of the diversity, ecology and evolutionary history of the major invertebrate groups. Lectures will emphasize phylogenetics and diversity of body plans. Labs will emphasize identification and anatomy through dissections and observations.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 2003.03

CROSSLISTED: MARI 3301.03

RESTRICTIONS:

EXCLUSIONS: BIOL 3321X/Y.06

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOL 3322 Parasitology

CREDIT HOURS: 3

The course emphasizes the parasite-host relationships, evolution of the parasites and adaptations to the host, modifications of physiology, structure and life cycle for a parasitic existence. Since the most extensive research pertains to parasites of man, the emphasis is on human parasites.

CALENDAR NOTES: Students who took a Biology 1000 level prerequisite prior to September 2013 and did not get a grade of C+ or higher should contact an advisor in the Biology Department preferably before registration begins.

COREQUISITES:

PREREQUISITES: A grade of C+ or higher in BIOL 1010 (or BIOL 1020.03 or BIOA 1002.03) and BIOL 1011.03 (or BIOL 1021.03 or BIOA 1003.03) or SCIE 1505.18

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOL 3326 Vertebrate Design: Evolution and Function

CREDIT HOURS: 3

Vertebrate Design explores 600 million years of vertebrate evolution and phylogenetic relationships, with particular attention to origins of major groups and the anatomical and functional innovations associated with their rise and diversification. Functional morphology and physiology of swimming, flying and terrestrial locomotion is also covered.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 2003.03 and BIOL 2040.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

BIOL 3327 Entomology

CREDIT HOURS: 3

The course is an introduction to the study of insects. Topics include insect classification, evolutionary diversity, biology, ecology, behaviour, and various applied aspects. Through this survey of the insects, students will gain an appreciation of insect biodiversity as well as their economic and ecological importance.

CALENDAR NOTES: Offered in summer through **SEASIDE**. An auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see seaside.science.dal.ca.

COREQUISITES:

PREREQUISITES: BIOL 2003.03

CROSSLISTED:

LAB HOURS PER WEEK:

BIOL 3624 Urban Freshwater Systems

CREDIT HOURS: 3

Ecology of urban freshwater systems with a focus on understanding how they respond to human-caused stresses within their watersheds. Students conduct case studies at nearby lakes and/or streams to monitor water quality and characterize resident communities of plants and animals. Evaluation is based on individual and group research reports.

CALENDAR NOTES: Offered in summer through **SEASIDE**. An auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see seaside.science.dal.ca.

COREQUISITES:

PREREQUISITES: BIOL 2060.03 or BIOA 3001.03 and MATH 1060.03 (or STAT 1060.03 or DISP) or permission of instructor

CROSSLISTED: ENVS 3624.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOL 3626 Field Studies of Marine Mammals

CREDIT HOURS: 3

Hands-on introduction to research on marine mammals. Lectures provide an overview of marine mammal adaptations, evolution, population biology, social organization, conservation, and management. Labs include a necropsy and techniques of photographic identification of individuals. On a several-day camping trip, students observe marine mammals from whale-watch boats and conduct research projects.

CALENDAR NOTES: Offered in summer through **SEASIDE**. An auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see seaside.science.dal.ca.

COREQUISITES:

PREREQUISITES: BIOL 2060.03 (or BIOA 3001.03) and BIOL 3062.03 (or BIOL 3630.03 or PSYO 2160.03), and MATH 1060.03/STAT

1060.03

CROSSLISTED: MARI 3626.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOL 3628 Marine Ornithology

CREDIT HOURS: 3

Overview of the biology of birds in marine environments. Seabird ecology, evolution, adaptations, identification, and natural history. Tools and techniques for studying their behaviour, diet, and populations in the field. Lectures, exercises, and a week-long field trip to Maritime seabird breeding colonies. Student team and independent research projects and presentations.

CALENDAR NOTES: Offered in summer through SEASIDE. An auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see: seaside.science.dal.ca.

COREQUISITES:

PREREQUISITES: BIOL 1010 or BIOL 1020 or equivalent, and BIOL 1011 or BIOL 1021 or equivalent, or SCIE 15XX, one of BIOL 2003 or BIOL 2004, and BIOL 2060, or instructor's permission. Knowledge of statistics, Geographic Information Systems (GIS), and familiarity with Excel spreadsheets are helpful, but not required, for research projects.

CROSSLISTED: MARI 3628.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

BIOL 3630 Field Methods in Animal Behaviour

CREDIT HOURS: 3

First-hand experience in studying animal behaviour in the field. Day-long field exercises teach basic methods, then students plan, conduct, write up, and orally present a 5-day project of their own.

CALENDAR NOTES: Offered in summer through **SEASIDE**. An auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see seaside.science.dal.ca.

COREQUISITES:

PREREQUISITES: BIOL 3062.03 or PSYO 2160.03 or PSYO 3160X/Y.06 or permission of instructor

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOL 3632 Applied Field Methods in Fish Ecology

CREDIT HOURS: 3

Practical experience conducting field research on fishes with field trips to streams and shallow water marine/freshwater habitats. Techniques include collecting fish, designing and conducting surveys, studying behaviour, measuring phenotypic variability, quantifying temporal and spatial variation, planning for statistical analysis, and weighing tradeoffs between data quality, quantity, costs and ethical/environmental considerations.

CALENDAR NOTES: Offered in summer through **SEASIDE**. An auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see seaside.science.dal.ca.

COREQUISITES:

PREREQUISITES: BIOL 2060.03 (or BIOA 3001.03) and STAT 1060.03 (or MATH 1060.03 or SCIE 1505), or their equivalents, or permission of instructor. STAT 2080 is recommended.

CROSSLISTED: MARI 3632.03, ENVS 3632.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOL 3633 Spatial Information and GIS in Ecology

CREDIT HOURS: 3

A hands-on approach to understanding and using spatial information, this course introduces students to Geographic Information

Systems (GIS) as a tool to answer ecological questions. Together, students conduct a major field project, collecting data, creating maps using GIS, and interpreting spatial patterns, to address an applied problem in ecology.

CALENDAR NOTES: Offered in the summer through **SEASIDE**. an auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see seaside.science.dal.ca.

COREQUISITES:

PREREQUISITES: BIOL 2060.03 or BIOA 3001.03

CROSSLISTED: ENVS 3633.03, GEOG 3633.03, MARI 3633.03

RESTRICTIONS:

EXCLUSIONS: PLAN 2006.03, GEOG 2006.03

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOL 3634 Agroforestry

CREDIT HOURS: 3

Agroforestry is a land-use system in which trees or shrubs are grown in association with agricultural crops or livestock. As practiced in the tropics, agroforestry generates numerous ecological, environmental and economic benefits. This hands-on, field-intensive course provides a foundation for understanding this traditional practice and its applications in North America.

CALENDAR NOTES: Offered in summer through **SEASIDE**. An auxiliary fee is charged to cover field expenses. For dates, times, and special registration procedures, see seaside.science.dal.ca

COREQUISITES:

PREREQUISITES: BIOL 2060.03 or AGRI 1000.03 or BIOA 3001.03 or permission of the Instructor. An additional class on the biology, ecology, diversity or physiology of plants is recommended.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

BIOL 3639 Herpetology

CREDIT HOURS: 3

Through a combination of lectures, labs and field activities, this course provides an overview of the global diversity, evolution, ecology and conservation of herpetofauna (amphibians and reptiles), and the natural history and identification of Nova Scotian herpetofauna. Students gain experience with common field research and monitoring techniques for herpetofauna.

CALENDAR NOTES: Offered in summer through **SEASIDE**. An auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see seaside.science.dal.ca

COREQUISITES:

PREREQUISITES: BIOL 2060.03, BIOL 2003.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab | Other (explain in comments)

LAB HOURS PER WEEK:

BIOL 3640 Tropical Ecology and Biodiversity Field Class

CREDIT HOURS: 6

Hands-on introduction to tropical ecology, biodiversity, and conservation. Includes an 18-day field trip to Sri Lanka to visit a variety of tropical terrestrial and aquatic ecosystems, quantify habitats, identify species, and study agroforestry, ecological interactions and animal behavior. Evaluation includes lecture tests, field notebooks, class research projects, presentations and reports.

CALENDAR NOTES: Offered in summer through **SEASIDE**. Special application procedure. An auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see: seaside.science.dal.ca.

COREQUISITES:

PREREQUISITES: BIOL 2003.03 and BIOL 2004.03 or equivalent and BIOL 2060 or equivalent or instructor's permission. An introductory course in statistics (STAT 1060.03 or similar) is recommended.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

BIOL 3664 Intertidal Ecology and Diversity

CREDIT HOURS: 3

Hands-on, intensive introduction to ecological research on rocky shores, tidal flats, and sandy beaches. Relevant ecological concepts, sampling techniques for flora and fauna, and statistical skills are learned. Field sampling on day and camping trips is followed by lab work (e.g., identification of seaweeds, invertebrates), statistical analysis, and report preparation.

CALENDAR NOTES: Offered in summer through **SEASIDE**. An auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see seaside.science.dal.ca.

COREQUISITES:

PREREQUISITES: BIOL 2060.03 (or BIOA 3001.03), and STAT 1060.03 (or MATH 1060.03 or SCIE 15xx), and BIOL 2003.03

CROSSLISTED: ENVS 3664.03, MARI 3664.03

RESTRICTIONS:

EXCLUSIONS: BIOL 3662.03, BIOL 3663.03

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOL 3680 Scientific Diving Methods for Marine Ecology

CREDIT HOURS: 3

This course introduces students that are certified divers to the practice of underwater research using SCUBA. It combines lectures with supervised dives in various marine habitats to demonstrate the application of standard sampling and experimental procedures in marine ecology, with an emphasis on logistical considerations and diving safety.

CALENDAR NOTES: Offered in summer through **SEASIDE**. An auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see seaside.science.dal.ca.

COREQUISITES:

PREREQUISITES: BIOL 2003.03, BIOL 2060.03 or BIOA 3001.03, STAT 1060.03 or DISP, internationally recognized diving certification, diving physical; recommended: BIOL 3321.03, BIOL 3301.03

CROSSLISTED: MARI 3680.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOL 3761 Marine Ecology

CREDIT HOURS: 3

Building upon an understanding of basic ecological and evolutionary principles, and a familiarity with the major marine invertebrate and algal taxa, this course examines patterns and processes at the organismal, population and community levels that determine the diversity and distribution of life in the sea.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 2060.03 (or BIOA 3001.03) and (BIOL 2003.03 or BIOL 2004.03), and OCEA 2000X/Y.06 or (OCEA 2001.03 and OCEA 2002.03)

CROSSLISTED: MARI 3761.03

RESTRICTIONS: This course is restricted to 3rd and 4th year students.

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

BIOL 3762 Terrestrial Ecology

CREDIT HOURS: 3

This course provides a conceptual framework for understanding the function of terrestrial ecosystems. One week at a field station in Nova Scotia provides practical experience with forest, bog and agroecosystems. Topics include soil profiles and nutrients; plant productivity and interactions; and ecological roles of microorganisms, lichens, fungi, insects, and vertebrates.

CALENDAR NOTES: Offered in summer through **SEASIDE**. An auxiliary fee is charged to cover field expenses. For dates, times, and special registration procedures see seaside.science.dal.ca

COREQUISITES:

PREREQUISITES: BIOL 2003.03 or BIOL 2004.03 , and BIOL 2060.03 (or BIOA 3001.03), or instructor's permission.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOL 3800 Experiential Learning

CREDIT HOURS: 3

Experiential Learning recognizes the learning experience relevant to the program outside the scheduled curriculum. Students are responsible for drafting a learning agreement with the course coordinator and supervisor to specify learning outcomes, activities designed to accomplish these outcomes, a quantifiable assessment strategy and a timetable.

CALENDAR NOTES: To register in this course, a student must first find a suitable supervisor and sign a learning agreement between the course coordinator, the student and the supervisor.

COREQUISITES:

PREREQUISITES: Students must be registered in a Biology or Marine Biology program, have completed a minimum of 18 credit hours in Biology above the 1000 level and have a minimum cumulative GPA of 2.4 or permission of course coordinator.

CROSSLISTED: MARI 3800.03

RESTRICTIONS:

EXCLUSIONS: Scheduled courses at a learning institution, study that would qualify for a Special Topics course, an Honours project, co-op work terms and paid work. Only one experiential learning course per degree is permitted.

FORMATS:

LAB HOURS PER WEEK:

BIOL 3872 The Biologist's Toolkit

CREDIT HOURS: 3

Best practices for scientific computing and data handling, theory of visualisation, and scripting, teaching students how to create, store, and manipulate data using the object-oriented programming language R. Examples and projects will be drawn from a wide variety of biological areas, covering typical problems encountered with computer use.

CALENDAR NOTES: This course is aimed at biology and marine biology majors who are looking to pursue future research in any discipline.

COREQUISITES:

PREREQUISITES: BIOL 2030.03 or BIOL 2040.03 or BIOL 2060.03 or permission of Instructor

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

BIOL 4001 Environmental Impact Assessment

CREDIT HOURS: 3

This course serves as the capstone to the EIA certificate. It is a hands-on training course that guides students through a nine-step framework for preparing individual EIAs on a physical project as well as a Strategic Environmental Assessment on a policy. International, national, provincial examples illustrate the framework.

CALENDAR NOTES: All students taking BIOL 4001.03 or ENVS 4001.03 must have completed 90 credit hours and be in their fourth year of study, or have permission of instructor.

COREQUISITES:

PREREQUISITES: ENVS 1100.03 and 1200.03 (or ENVS 1000X/Y.06) or BIOL 2060.03 (or BIOA 3001.03) or EARTH 2410.03 or GEOG 2100X/Y.06 or GEOG 2201.03 or GEOG 2202.03 or INTD 2001.03 or INTD 2002.03 or OCEA 2000X/Y.06 (or OCEA 2001.03 and OCEA 2002.03) or SUST 2000.06 or SUST 2001.06

CROSSLISTED: ENVS 4001.03

RESTRICTIONS: E1, E2, and E3 This course is open to all students with the necessary prerequisites regardless of whether they are applying for the EIA certificate or not.

EXCLUSIONS:

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

BIOL 4002 The Science of Wetland Ecosystems

CREDIT HOURS: 3

See ENVS 4002.03 in the Environmental Science section of the calendar.

LAB HOURS PER WEEK:

BIOL 4065 Sustainability and Complexity

CREDIT HOURS: 3

Sustainability is a transdisciplinary area integrating equitable societies, protected environments, and robust economies. Achieving sustainability is a challenge that has only had limited success in our complex world. Complexity studies offer new approaches for achieving sustainability beyond the traditional ones mostly focused upon reducing unsustainability.

CALENDAR NOTES: Course open to students in: Faculty of Science, College of Sustainability, and International Development students in FASS

COREQUISITES:

PREREQUISITES: BIOL 2060.03 (or BIOA 3001.03) or EARTH 2410.03 or GEOG 2100X/Y.06 or GEOG 2201.03 or GEOG 2202.03 or INTD 2001.03 or INTD 2002.03 or OCEA 2001.03/2002.03 (or OCEA 2000X/Y.06) or SUST 2000.06 or SUST 2001.06

CROSSLISTED:

LAB HOURS PER WEEK:

BIOL 4850 Geographic Information Science Research Project

CREDIT HOURS: 3

Students learn how to design, manage and complete a research project in Geographic Information Science (GIS). Projects must include a substantive analytical component where GIS is central to methods employed. Evaluation includes a written report, oral presentation and digital data. Required for completion of the Certificate in GIS.

CALENDAR NOTES:

COREQUISITES: EARTH 4520.03/GEOG 4520.03

PREREQUISITES: ENVS 3500 or EARTH3500 or GEOG 3500; and permission of instructor.

CROSSLISTED: ENVS 4850/ERTH 4850/GEOG 4850/SCIE 4850

RESTRICTIONS: This course is restricted to 3rd and 4th year students.

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

BIOL 4901 Honours Research and Thesis I

CREDIT HOURS: 3

This course is required of, and restricted to, all Biology Honours programs in which Biology is the major area of study. Students conduct a research project supervised by a research scientist and attend weekly meetings of the class. The classes (4901 and 4902) are taken in the students' final year.

CALENDAR NOTES: BIOL 4901 and BIOL 4902 must be taken in consecutive fall/winter terms, or winter/fall terms (co-op only). Grades will not be recorded for either course until both have been completed, and the final Honours Thesis has been evaluated.

Introduction

Chemistry is often called the central science because of its relevance to so many other disciplines. Understanding the composition and properties of matter, as well as the manner in which one substance is transformed into another, is essential to the study of our physical and natural worlds. As such, chemistry is often a starting point for many different careers in science. A variety of programs are available, ranging from focused studies to interdisciplinary options to suit the interests of the student.

A chemistry degree involves considerable breadth of training in the major branches of chemistry. These include organic, inorganic, physical, analytical and biological chemistry. In addition to establishing a solid foundation in the fundamental principles of chemistry, students who undertake a chemistry degree develop essential skills that include problem solving, critical thinking, organization, data analysis, and written and oral communication. The laboratories associated with courses develop the necessary experience with laboratory procedures, equipment and safety, and serve to reinforce the concepts learned in lecture.

Degree Programs

The Department of Chemistry offers the following degree programs in Chemistry

- BSc or BA (120 credit hour) Honours (Concentrated)*
- BSc or BA (120 credit hour) Combined Honours*
- BSc or BA (120 credit hour) Major*
- BSc or BA (120 credit hour) Double Major*
- BSc or BA (90 credit hour) Minor in Chemistry
- Minor in Chemistry

* BSc [Co-op option available](#)

* May be combined with Minor programs from other disciplines

Departmental requirements for each degree program can be seen by following the links in the menu to the right.

In addition to departmental requirements, students must satisfy the requirements outlined in the [Academic Regulations](#) and the [College of Arts and Science Degree Requirements](#) sections. Students are advised that a number of requirements differ for the BA and BSc degrees.

A student is governed by the academic regulations in place at the time of initial enrolment in the Faculty of Science, as long as the degree is completed within the time permitted (10 years). Subsequent changes in regulations shall apply only if the student so elects; otherwise the student should consult the calendar of the appropriate year.

The 120 credit hour Concentrated Honours and Major degrees, as well as corresponding Co-op programs, are accredited by the Canadian Society for Chemistry (CSC). CSC accreditation ensures that graduates of these programs have met certain criteria concerning the quantity and quality of their instruction. It qualifies such graduates for membership in the CSC and to practice chemistry as professionals.

Students should plan their programs of study carefully and are strongly encouraged to do so in consultation with a Chemistry undergraduate academic advisor.

Students who participated in the Integrated Science Program in their first year should consult the Undergraduate Calendar for first year course equivalencies.

Staff

Dean

Moore, C., BA (Hons), PhD (Cambridge), Professor (Psychology)

Chairperson of Department

Schepp, N. P., BSc, PhD (Toronto)

Undergraduate Advising

To contact a Chemistry academic advisor, please go to the Chemistry Main Office (Chemistry Room 212), phone 902 494-3305 or visit the Chemistry Website (www.dal.ca/faculty/science/chemistry.html)

Professors Emeriti

Aue, W. A., PhD (Vienna), FCIC

Becke, A. D., BSc (Queen's), MSc, PhD (McMaster), FRSC, FRS, FCIC, Harry Shirreff Professor of Chemical Research (Emerita)

Boyd, R. J., BSc (UBC), PhD (McGill), FCIC

Burnell, D. J., BSc, MSc (Carleton), PhD (UNB)

Coxon, J. A., BA (Cambridge), MSc, PhD (East Anglia)

Kwak, J. C. T., BSc, MSc, PhD (Amsterdam), FCIC

White, M. A., BSc (Univ of Western Ontario), PhD (McMaster), OC, FRSC, Harry Shirreff Professor of Chemical Research (Emerita) and cross-appointment with Physics and Atmospheric Sciences

Professors

Bearne, S. L., BSc (Acadia), PhD (Toronto), MDCM (McGill), cross-appointment from Biochemistry and Molecular Biology

Dahn, J. R., BSc (Dalhousie), MSc, PhD (UBC), Canada Research Chair in Battery and Fuel Cell Materials, NSERC/3M Canada Inc. Industrial Research Chair and cross-appointment from Physics and Atmospheric Science

Doucette, A. A., BSc (Dalhousie), PhD (Alberta)

Jakeman, D. L., BSc, PhD (Sheffield), cross-appointment from College of Pharmacy

Johnson, E. R., BSc (Carleton), PhD (Queen's), Herzberg-Becke Chair in Theoretical Chemistry, cross-appointment with Physics and Atmospheric Science

Martin, R. V., BS (Cornell), MSc (Oxford), PhD (Harvard), cross-appointment from Physics and Atmospheric Science

Obrovac, M. N., BSc (Simon Fraser), MSc, PhD (Dalhousie), Industrial Research Chair in Materials Science, cross-appointment with Physics and Atmospheric Science

Rainey, J. K., BSc (Guelph), MSc, PhD (Toronto) Director of NMR-3, cross-appointment from Biochemistry and Molecular Biology

Stradiotto, M., BSc, PhD (McMaster), FRSC, Alexander McLeod Professor of Chemistry

Thompson, A., BSc (Leicester), PhD (Sheffield), Faculty of Science Killam Professor

Wentzell, P. D., BSc (Dalhousie), PhD (Michigan State)

Zhang, P., BSc, MSc (Jilin Univ, China), PhD (Western), cross appointment with School of Biomedical Engineering

Zwanziger, J. W., BA (Chicago), PhD (Cornell), Canada Research Chair in NMR Studies of Materials, cross-appointment with Physics and Atmospheric Science

Associate Professors

Andreas, H. A., BSc, PhD (Calgary)

Cozens, F. L., BSc (York), PhD (Toronto)

Schepp, N. P., BSc, PhD (Toronto)

Speed, A. W., BSc (Dalhousie), PhD (Harvard)

Turculet, L., BSc (Massachusetts Institute of Technology), PhD (Berkeley)

Assistant Professors

Dasog, M., BSc (Saskatchewan), PhD (Alberta)

Chitnis, S. S., BAsC (McMaster), PhD (Victoria)

Kelly, A. T., BSc (Memorial), PhD (Toronto)

Senior Instructors

Alemán Milán, G., BEng (Superior Polytechnic Institute of Havana), MSc, PhD (Dalhousie)

Moya Barrios, R., BSc (Univ of Havana, Cuba), MSc, PhD (Dalhousie)

Instructors

Aish, G. A., ACBT dip. (Camosun College), BSc, MSc (Dalhousie)

Bates, J. I., BSc (Queen's), PhD (UBC)

Chisholm, R. A., BSc (St. Mary's), PhD (Alberta)

Crane, A. K., BSc (Memorial), PhD (UBC)

MacDonald, J. L., BSc, BTech (Cape Breton Univ), PhD (Dalhousie)

Whalen, J. M., BSc (Dalhousie), PhD (McMaster)

Adjunct Professors

Becke, A. D., BSc (Queen's), MSc, PhD (McMaster), FRSC, FRS, FCIC, Harry Shirreff Professor of Chemical Research (Emerita)

Boyd, R. J., BSc (UBC), PhD (McGill), FCIC

Burnell, D. J., BSc, MSc (Carleton), PhD (UNB)

Chatt, A., BSc (Calcutta), MSc (Roorkee), MSc (Waterloo), PhD (Toronto), FCIC

Grindley, T. B., BSc, MSc, PhD (Queen's), FCIC

Grossert, J. S., BSc, MSc, PhD (Natal), FCIC

Kompany-Zareh, M., MSc (Shiraz, Iran), PhD (Shahid B., Iran), IASBS, Zanjan, Iran

Matta, C., BPharm Sci (Alexandria Univ, Egypt), Graduate Diploma in Health and Hospital Administration (National Institute of Management, Egypt), PhD (McMaster), Mount Saint Vincent University

Pinto, D. M., BSc (McGill), PhD (Alberta), Institute for Marine Biosciences

Quilliam, M., BSc, PhD (Manitoba), National Research Council, Institute for Marine Biosciences

Ramaley, L., BA (Colorado), MA, PhD (Princeton), FCIC

Werner-Zwanziger, U., Vordiplom (Mathematics), Diploma (Chemistry), PhD (Westfälische Wilhelms-Universität Münster, Germany)

White, M. A., BSc (Univ of Western Ontario), PhD (McMaster), OC, FRSC, Harry Shirreff Professor of Chemical Research (Emerita) and cross-appointment with Physics and Atmospheric Sciences

Part-time Academics

Perrott, A., BSc (Dalhousie), BEd (Acadia), PhD (Dalhousie)

Postdoctoral Fellows, Research Associates/Assistants

Cao, Y., BS, PhD (Tsinghua Univ, China)

Dale, S., BSc (UWA, Australia), PhD (UC, Merced)

Figliola, C., BSc, MSc (Univ of Parma, Italy), PhD (Univ of Birmingham)

Garaga Nagendrchar, M., BSc (Sahyadri Science College, Shimoga, Karnataka state, India), MSc (Kuvempu Univ, Shankaraghatta, Karnataka state, India), PhD (Univ of Orleans, France)

Hatchard, T., BSc, BComm (St. Mary's), MSc, PhD (Dalhousie)

Hall, D., BSc (Western), PhD (Ottawa)

Johnson, M., BSc (Dalhousie), MSc (Univ of Western Ontario)

Juhan, N., BSc, MSc (Univ of Karachi, Pakistan), PhD (HEJ Research Inst of Chem, Pakistan)

Kahwaji, S., MSc (American Univ of Beirut), PhD (Dalhousie)

Li, Z., BSc, PhD (Univ of Science and Technology, China)
Ma, X., BSc, ME (Tongji Univ, China), PhD (Florida State)
Ogawa, T., BEng, MEng, PhD (Nagoya Institute of Technology, Nagoya, Japan)
Ramao, C., BSc (McGill), PhD (Dalhousie)
Todorova, T., BSc, MSc (Univ of Sofia, Bulgaria), PhD (Sheffield)
Werner-Zwanziger, U., Vordiplom (Mathematics), Diploma (Chemistry), PhD (Westfälische Wilhelms-Universität Münster, Germany)

BSc or BA (120 credit hour) Concentrated Honours in Chemistry

Students who want a challenging program resulting in a broad and in-depth background in Chemistry that includes an independent research experience may want to enroll in an Honours program. Students interested in eventually pursuing graduate studies are particularly encouraged to consider the Honours program. Honours students complete a minimum of 54 credit hours above the 1000 level in Chemistry with a minimum GPA of 3.0 and write a research-based Honours thesis. The Honours thesis and Qualifying Examination requirements are satisfied through completion of CHEM 4902.03 and CHEM 4903.03. The Honours program is accredited by the Canadian Society for Chemistry.

A Co-op option is available for students enrolled in a BSc Concentrated Honours in Chemistry. See [Co-operative Education Program](#).

Admission to Honours

Students must apply for admission to Honours programs. Students considering Honours in Chemistry should consult with a Chemistry Academic Advisor early in their studies.

Departmental requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a BSc or BA Concentrated Honours program in Chemistry must complete the following courses:

1000 level

- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity/CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium, or CHEM 1021.03: Engineering Chemistry I/CHEM 1022.03: Engineering Chemistry II, or equivalent
- MATH 1000.03: Differential and Integral Calculus I/MATH 1010.03: Differential and Integral Calculus II, or equivalent
- PHYC 1190.03/PHYC 1290.03: Introduction to Physics or PHYC 1310.03/PHYC 1320.03: Physics In and Around You, or equivalent

2000 level

- CHEM 2101.03: Introductory Inorganic Chemistry
- CHEM 2201.03: Introductory Analytical Chemistry
- CHEM 2301.03: Introduction to Physical Chemistry I and CHEM 2304.03: Introductory Physical Chemistry II
- CHEM 2401.03: Introductory Organic Chemistry: Structure, Concepts of Mechanisms and Spectroscopy and CHEM 2402.03: Introductory Organic Chemistry: Reactivity of Functional Groups

3000 level

- CHEM 3103.03: Intermediate Inorganic Chemistry
- CHEM 3203.03: Advanced Analytical Laboratory
- CHEM 3301.03: Quantum Mechanics and Chemical Bonding
- CHEM 3401.03: Intermediate Organic Chemistry or CHEM 3404.03: Intermediate Organic Chemistry - Physical Organic and Spectroscopy
- CHEM 3601.03: Chemistry of Living Systems

4000 level

- CHEM 4902.03: Honours and Major Research Project I and CHEM 4903.03: Honours and Major Research Project II (minimum grade of B-)

Additional Requirements

- MATH 1030.03 (or MATH 2030.03): Matrix Theory and Linear Algebra I and MATH 2001.03: Intermediate Calculus
- A minimum of 15 additional credit hours in CHEM courses at or above the 2000 level
- Combined lab hours across CHEM 3XXX and 4XXX must be >190.
- Minimum grade of C in all Honours subject courses (except CHEM 4902.03 and CHEM 4903.03, which require a minimum grade of B-)

BSc or BA (120 credit hour) Combined Honours in Chemistry and another subject

Students who wish to study Chemistry in conjunction with another subject may wish to pursue a Combined Honours degree program. The other subject may be any discipline from the Faculty of Science, the Faculty of Arts and Social Sciences, the Faculty of Computer Science, or the College of Sustainability. Chemistry may be the primary subject (defined as the subject with the larger number of honours credits), or the secondary subject. The Combined Honours program is not accredited by the Canadian Society for Chemistry.

Students planning to enroll in a Combined Honours program should consult with academic advisors from both programs early in their studies. Students must have their program of study approved by Academic Advisors in both subject areas. Students complete an Honours Qualifying Examination in one of the two subject areas, a requirement normally completed in the primary subject area. For Chemistry, this requirement is satisfied through CHEM 4902.03 and CHEM 4903.03.

A Co-op option is available for students enrolled in BSc Combined Honours with Chemistry as the primary subject. See [Co-operative Education Program](#).

Departmental requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a BSc or BA Combined Honours program in Chemistry and another subject must complete the following:

Chemistry as the primary subject

- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity/CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium, or CHEM 1021.03: Engineering Chemistry I/CHEM 1022.03: Engineering Chemistry II, or equivalent
- MATH 1000.03: Differential and Integral Calculus I/MATH 1010.03: Differential and Integral Calculus II, or equivalent
- CHEM 2101.03: Introductory Inorganic Chemistry

- CHEM 2201.03: Introductory Analytical Chemistry
- CHEM 2301.03: Introduction to Physical Chemistry I and CHEM 2304.03: Introductory Physical Chemistry II
- CHEM 2401.03: Introductory Organic Chemistry: Structure, Concepts of Mechanisms and Spectroscopy and CHEM 2402.03: Introductory Organic Chemistry: Reactivity of Functional Groups
- A minimum of 18 additional CHEM credit hours above the 2000 level (including CHEM 4902.03 and CHEM 4903.03 if applicable).

Chemistry as the secondary subject

- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity/CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium, or CHEM 1021.03: Engineering Chemistry I/CHEM 1022.03: Engineering Chemistry II, or equivalent
- MATH 1000.03: Differential and Integral Calculus I/MATH 1010.03: Differential and Integral Calculus II, or equivalent
- A minimum of 30 CHEM credit hours above the 1000 level, including at least 18 CHEM credit hours above the 2000 level.

BSc or BA (120 credit hour) Major in Chemistry

The 120 credit hour Major is suited to students who want to focus on Chemistry, but wish to have a program that is somewhat less constrained than the Honours program. Chemistry Majors complete a minimum of 45 credit hours in Chemistry courses above the 1000 level. Research and other experiential learning opportunities are available through laboratories and research project classes. Like the Honours degree, the 120 credit hour Major program is accredited by the Canadian Society for Chemistry.

A Co-op option is available for students enrolled in a 120 credit hour BSc Major program in Chemistry. See [Co-operative Education Program](#).

Departmental requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a BSc or BA Major program in Chemistry must complete the following courses:

1000 level

- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity/CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium, or CHEM 1021.03: Engineering Chemistry I/CHEM 1022.03: Engineering Chemistry II, or equivalent
- MATH 1000.03: Differential and Integral Calculus I/MATH 1010.03: Differential and Integral Calculus II, or equivalent
- PHYC 1190.03/PHYC 1290.03: Introduction to Physics, or PHYC 1310.03/PHYC 1320.03: Physics In and Around You, or equivalent

2000 level

- CHEM 2101.03: Introductory Inorganic Chemistry
- CHEM 2201.03: Introductory Analytical Chemistry
- CHEM 2301.03: Introduction to Physical Chemistry I and CHEM 2304.03: Introductory Physical Chemistry II
- CHEM 2401.03: Introductory Organic Chemistry: Structure, Concepts of Mechanisms and Spectroscopy and CHEM 2402.03: Introductory Organic Chemistry: Reactivity of Functional Groups

3000 level

- CHEM 3103.03: Intermediate Inorganic Chemistry
- CHEM 3203.03: Advanced Analytical Laboratory
- CHEM 3305.03: Materials Science
- CHEM 3401.03: Intermediate Organic Chemistry or CHEM 3404.03: Intermediate Organic Chemistry - Physical Organic and Spectroscopy
- CHEM 3601.03: Chemistry of Living Systems

Additional Requirements

- Six additional hours from a combination of MATH 1030.03, MATH 2XXX, any STAT course, CSCI 1100.03, CSCI 1101.01, CSCI 1105.03, CSCI 1110.03
- A minimum of 12 additional CHEM credit hours at or above the 2000 level, including at least 3 credit hours at or above the 3000 level
- Combined lab hours across CHEM 3XXX and 4XXX must be >190.

BSc or BA (120 credit hour) Double Major in Chemistry and another subject

The Double Major degree program allows students to combine a study of Chemistry with another subject. The other subject may be any discipline from the Faculty of Science, the Faculty of Arts and Social Sciences, the Faculty of Computer Science or the College of Sustainability. Chemistry may be the primary subject (defined as the subject with the larger number of credits), or the secondary subject. If the primary subject area is from the Faculty of Arts and Social Sciences, the degree granted will be a BA. The Double Major program is not accredited by the Canadian Society for Chemistry.

A Co-op option is available for students enrolled in BSc Double Major with Chemistry as the primary subject. See [Co-operative Education Program](#).

Departmental requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a Double Major program in Chemistry and another subject must complete the following:

Chemistry as the primary subject

- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity/CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium, or CHEM 1021.03: Engineering Chemistry I/CHEM 1022.03: Engineering Chemistry II, or equivalent
- MATH 1000.03: Differential and Integral Calculus I
- MATH 1010.03: Differential and Integral Calculus I or MATH 1030.03: Matrix Theory and Linear Algebra I or MATH 1060.03/STAT 1060.03: Introductory Statistics for Science and Health Sciences
- CHEM 2101.03: Introductory Inorganic Chemistry and CHEM 2201.03: Introductory Analytical Chemistry
- CHEM 2301.03: Introduction to Physical Chemistry I or CHEM 2304.03: Introductory Physical Chemistry II
- CHEM 2401.03: Introductory Organic Chemistry: Structure, Concepts of Mechanisms and Spectroscopy
- A minimum of 18 additional CHEM credit hours above the 2000 level.

Chemistry as the secondary subject

- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity/CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium, or CHEM 1021.03: Engineering Chemistry I/CHEM 1022.03: Engineering Chemistry II, or equivalent
- MATH 1000.03: Differential and Integral Calculus I
- MATH 1010.03: Differential and Integral Calculus I or MATH 1030.03: Matrix Theory and Linear Algebra I or MATH 1060.03/STAT 1060.03: Introductory Statistics for Science and Health Sciences
- A minimum of 30 CHEM credit hours above the 1000 level, including at least 18 CHEM credit hours above the 2000 level.

BSc or BA (90 credit hour) Minor in Chemistry

The 90 credit hour degree with Minor in Chemistry is appropriate for students who want to study some Chemistry but do not wish to complete the conventional four-year program. The degree is best suited for students who want a general science degree with some specialization in Chemistry. A 90 credit hour degree program is not suitable for students who wish to pursue graduate studies and is not accredited by the Canadian Society for Chemistry. With additional study, the degree may be upgraded to a 120 credit hour Major or Honours degree at a later date.

A 90 credit hour BSc or BA in Chemistry is usually the preferred option for students who wish to combine studies in Chemistry with a degree in Engineering (see [BSc/BEng or BA/BEng Concurrent Program](#)).

See [Minor in Chemistry](#) section.

Minor in Chemistry

This minor is available to students registered in a 120 credit hour Bachelor of Applied Computer Science, Bachelor of Arts, Bachelor of Commerce, Bachelor of Community Design, Bachelor of Computer Science, Bachelor of Informatics, Bachelor of Management, Bachelor of Music, Bachelor of Science or Bachelor of Science (Medical Sciences) program.

A BSc or BA (90 credit hour) degree program with a Minor in Chemistry is available to students in the Faculty of Science.

Requirements

- A minimum of 18 credit hours in Chemistry (CHEM) courses at the 2000 level or higher to a maximum of 36 credit hours, not including any course that cannot be used toward a Chemistry degree

Please note that entry into upper level Chemistry (CHEM) courses requires completion of six credit hours at the first year level (CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity/CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium)

Contact [Chemistry](#) for more information.

Co-op, Minors, Certificates and Engineering Concurrent Programs for Students

Co-operative Education Program (Science Co-op) in Chemistry

Co-op Academic Advisor: Dr. Alan Doucette alan.doucette@dal.ca

Science Co-op is a program where academic study in a science subject is combined with paid career-related work experience. Students undertake three work-terms interspersed with their academic study terms. Science Co-op degree programs enable students to apply their knowledge directly while providing them with work experience that assists in making educated career choices.

Science Co-op is available to students in BSc (120 credit hour) Honours or Major programs, or in Combined Honours or Double Major programs. The number of students admitted into Science Co-op each year is limited. A minimum GPA of 3.00 is required for admission and for continuation in the Co-op program. Students must be eligible to work in Canada.

Students normally apply to join Science Co-op during their first year of study. Students must apply before April 15, and it is strongly recommended that interested students meet with their Departmental Co-op advisor early in the Winter term of their first year. If accepted into Science Co-op, students must register for, and attend the Science Co-op Seminar Series (SCIE 2800.00) at least four months prior to the first work term.

Details are available from the Chemistry Co-op Academic Advisor and from the Co-operative Education office www.dal.ca/academics/cooperative_education.html. For more information on Co-op Education in Chemistry please see the departmental page www.dal.ca/faculty/science/chemistry/programs/undergraduate-studies/degree-programs/co-operative-education.html

Minors available to students in Chemistry

Minor programs allow students to develop subject specialties in addition to their major or honours subjects. Minors in other subjects are normally added to 120 credit hour BSc or BA programs (including Science Co-op).

Students in a BSc or BA (120 credit hour) program in Chemistry may choose to include a Minor selected from the [list of approved Minors](#). Courses counted toward a Major or Honours subject cannot be used to fulfill the requirements of a Minor program.

Certificates

In combination with a BSc or BA in Chemistry, students may obtain one or more Certificates. A Certificate indicates that a student has achieved a certain level of proficiency in a given area or subspecialty. Courses counted toward a Major, Honours or Minor subject may also be used to fulfill the requirements of a Certificate. Students must apply to the Certificate Coordinator to be considered for a Certificate. Certificates are awarded upon graduation and are noted on the student's academic transcript.

A complete list of [Faculty of Science Certificates](#) and requirements is available. Students may also work toward obtaining Certificates offered by other Faculties; some of these are listed in the [College of Arts and Science Degree Requirements](#) section of the calendar.

Certificates of particular interest to student enrolled in a BSc or BA in Chemistry include:

- [Certificate in Materials Science](#)
- [Certificate in Medicinal Chemistry](#)
- [Certificate in Science Leadership and Communication](#)

BSc/BEng Concurrent Program (Chemistry)

Chemistry is known as the central science because its main theme is transformations of matter and energy that are at the core of many fields of science and engineering. A strong background in Chemistry has direct relevance to fields such as biological/biomedical engineering, chemical engineering, environmental and resource engineering, food science technology, materials engineering, mining/petroleum engineering and process engineering. Following is the recommended sequence of courses for students wishing to obtain a concurrent BEng and BSc (90 credit hour) degree with Minor in Chemistry. Interested students must consult with the Assistant

Dean, Faculty of Science, and the Associate Dean, Faculty of Engineering prior to enrolling in a concurrent BEng/BSc degree.

It is recommended that students also discuss their selection of courses with an undergraduate advisor in the Department of Chemistry. A concurrent BEng/BSc Major or Honours in Chemistry (120 credit hours) can be designed for interested candidates.

One social science course^c	One social science or humanities course^c
Year 3	
IENG 2005 <i>Engineering economics</i>	ENGI 2203 <i>Engineering design II</i>
ECED 2000 <i>Electric circuits</i>	^d Two Engineering electives
ENGI 2102 <i>Thermo-Fluid Engineering I</i>	One 2000 level (or higher) CHEM course
One 2000 level (or higher) CHEM course	One Science/FASS course (may be CHEM)
One Science/FASS course (may be CHEM)	
Graduate with Diploma in Engineering and BSc 90 credit degree	
Year 4	
Continue in BEng program	
Year 5	
Complete BEng program	

^aTo meet the BSc 90 credit hour Minor in Chemistry requirements, students complete 30 credit hours in addition to their Engineering requirements: a minimum of 18 credit hours of CHEM courses at or above the 2000 level, 6 credit hours of social science/humanities courses, and 6 additional credit hours in Science/FASS courses (which may be CHEM). Students may not select CHEM courses that cannot be counted toward a Chemistry Major degree.

^b Writing requirement: choose from eligible writing courses in CLAS, ENGL, GERM, HIST, PERF, PHIL, RELS, or RUSN to fulfill writing and humanities requirements [College of Arts and Science]

^c Choose from CANA, CTMP, ECON, EMSP, EURO, GWST, HIST, HSTC, INTD, POLI, PSYO, SOSA, SUST for social science courses. Choose from ARBC, CANA, CHIN, CLAS, CTMP, CRWR, EMSP, EURO, SWST, GERM, HIST, HTSC, ITAL, PERF, PHIL, RELS, RUSN, SPAN and THEA for humanities courses

^dSee Engineering section of the calendar for details

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are typically available to students in the second, third, and fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not obtain credit for both courses as designated.

Not all courses are offered each year. Please consult the current [timetable](#) for this year's offering. For further information please contact the department, or visit the department's website.

Course Notes

Undergraduate courses that are regularly offered by the Chemistry Department are briefly described in this section. More detailed information can be found on the departmental web site at <http://chemistry.dal.ca>. Students should note the following.

- Not all courses are offered every year. Please consult the Academic Timetable for the details of courses offered in a particular academic year.
- The first digit of the course number is the year of a student's program that a course would typically be taken, but this is not meant to be restrictive if a student has the necessary prerequisites or permission of the instructor. For example, a 3000 level course can be taken in the fourth year and 4000 level course can be taken in the third year.
- The second digit of the course number defines the general sub-discipline:

0 = General Chemistry

5 = Interdisciplinary

1 = Inorganic Chemistry

6 = Biological Chemistry

2 = Analytical Chemistry

8,9 = Research Classes

3 = Physical Chemistry

4 = Organic Chemistry

- The extension following the course number (e.g. XXXX.03) indicates the number of credit hours assigned to the course (e.g. three credit hours). Note that six credit hours are equivalent to one credit.
- All chemistry courses, unless stated otherwise, have a minimum grade requirement of C- for their prerequisite chemistry courses. Students with grades below C- in the prerequisite chemistry courses can only register with the permission of the instructor for the course.
- Unless stated otherwise, the minimum grade requirement for credit in a chemistry course is a D, except for Honours programs, where the minimum grade requirement for chemistry credit is a C (B- for Honours Qualifying Examination).

Chemistry Resource Centres

First-Year and Advanced Chemistry Resource Centres are located in Rooms 122 and 115, respectively. The former is staffed with advanced undergraduate and graduate students to help with both lab and course material. First-year students are encouraged to make use of the Concept Room, which is located in the First-Year Resource Centre. Here, first-year Instructors will be available at regularly scheduled times to provide aid with course material in a small group or one-on-one atmosphere.

The First-Year Chemistry Resource Centre also houses a number of computers with chemistry-specific programs for students to use. Additionally, there is a selection of resource materials such as molecular model kits and reference texts available to students.

Course Descriptions

CHEM 1011 Concepts in Chemistry: Structure and Reactivity

CREDIT HOURS: 3

The electronic structures of atoms and molecules are used to explain the reactivity and properties of chemicals. Topics include atomic structure, bonding models, structure and shape of molecules and ions, and acid/base chemistry. It is recommended that students have Nova Scotia grade 12 chemistry or equivalent before taking this course.

COORDINATOR: A. Crane

CALENDAR NOTES:

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: CHEM 1021.03

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

CHEM 1012 Concepts in Chemistry: Energy and Equilibrium

CREDIT HOURS: 3

The principles of thermodynamics and kinetics are used to explain chemical reactivity and the principles of organic chemistry are used to develop an understanding of organic synthesis. Special topics include electrochemistry, spectroscopy, chirality, polymers, and the chemistry of living systems to illustrate the relevance of chemistry in everyday life.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 1011.03 or equivalent

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: CHEM 1022.03

FORMATS: Lecture | Lab
LAB HOURS PER WEEK:

CHEM 1021 Engineering Chemistry I

CREDIT HOURS: 3

The electronic structures of atoms and molecules are used to explain the reactivity and properties of chemicals. Topics include atomic structure, bonding models, structure and shape of molecules and ions, and acid/base chemistry. It is recommended that students have Nova Scotia grade 12 chemistry or equivalent before taking this course.

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: CHEM 1011.03

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

CHEM 1022 Engineering Chemistry II

CREDIT HOURS: 3

The principles of thermodynamics and kinetics are used to explain chemical reactivity and the principles of organic chemistry are used to develop an understanding of organic synthesis. Special topics include electrochemistry, spectroscopy, chirality, polymers, and the chemistry of living systems to illustrate the relevance of chemistry in everyday life.

COORDINATOR: A. Crane

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 1021.03 or equivalent

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: CHEM 1012.03

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

CHEM 2101 Introductory Inorganic Chemistry

CREDIT HOURS: 3

The fundamentals of inorganic chemistry are covered. Specific topics include ionic bonding and the nature of solids, the structure of atoms and simple bonding theory, coordination chemistry of the transition metals, and selected topics in main group chemistry. The preparation, analysis and observation of inorganic compounds are the laboratory assignments.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 1011.03/CHEM 1012.03 or equivalent (grade of C- or better)

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

CHEM 2201 Introductory Analytical Chemistry

CREDIT HOURS: 3

The basic principles of analytical chemistry are presented, including chemical and instrumental methods of analysis. Topics include chemical equilibria, spectroscopy, electrochemistry and chromatography. Laboratory experiments explore all of these topics, and illustrate the techniques with practical examples.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 1011.03 and CHEM 1012.03 or equivalent (grade of C- or better)

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab
LAB HOURS PER WEEK:

CHEM 2301 Introduction to Physical Chemistry I

CREDIT HOURS: 3

The physical principles underlying chemical systems and reactivity are explored, with an emphasis on the forces between molecules and the properties of matter. Principles of thermodynamics are presented, including thermochemistry, entropy and free-energy relationships. Applications include phase equilibria, chemical equilibria, solutions, colligative properties and electrochemistry.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 1011.03/CHEM 1012.03 or equivalent; MATH 1000.03 or equivalent (grade of C- or better). PHYC 1190.03/PHYC 1290.03 or PHYC 1310.03/PHYC 1320.03 is strongly recommended.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

CHEM 2304 Introductory Physical Chemistry II

CREDIT HOURS: 3

The physical properties of chemical systems at the level of atoms and molecules are examined. Topics include the quantum mechanical description of atoms and molecules, chemical bonding, experimental and computational methods for studying molecular systems, and the kinetics of chemical processes.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 1011.03/CHEM 1012.03 or equivalent; MATH 1000.03 and MATH 1010.03 or equivalent (grade of C- or better). PHYC 1190.03/PHYC 1290.03 or PHYC 1310.03/PHYC 1320.03 is strongly recommended.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

CHEM 2401 Introductory Organic Chemistry: Structure, Concepts of Mechanisms and Spectroscopy

CREDIT HOURS: 3

Organic chemistry is introduced through an examination of bonding, conformation and stereochemistry. Spectroscopic methods (MS, IR, ¹H and ¹³C NMR) are used to determine the structures of compounds. Alkanes, alkenes, alkynes and alkyl halides are presented with an emphasis on the mechanisms of their reactions.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 1011.03/CHEM 1012.03 or equivalent (grade of C- or better)

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

CHEM 2402 Introductory Organic Chemistry: Reactivity of Functional Groups

CREDIT HOURS: 3

Building on CHEM 2401, the properties and reactions of alcohols, ethers, amines, nitriles, the carbonyl-containing functional groups and aromatic compounds are examined. The reactions are used in synthetic sequences, and reaction mechanisms are stressed. The concepts of resonance and aromaticity become familiar. The use of spectroscopic methods is reinforced.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 2401.03 (grade of C+ or better)

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab
LAB HOURS PER WEEK:

CHEM 2442 Organic Chemistry for Pharmacy Students

CREDIT HOURS: 3

Aspects of organic chemistry relevant to the requirements for the degree of Bachelor of Science in Pharmacy are presented. This course does not serve as a prerequisite for any other chemistry course.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS: Restricted to students in the Bachelor of Science in Pharmacy program.

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

CHEM 2488 Our Organic World

CREDIT HOURS: 3

Pharmaceuticals, plastics, and some fuels are organic compounds with dramatic roles in our health and economy. Drugs or poisons? Caraway or spearmint? Bendable or stiff? Aspects of organic chemistry are surveyed so that issues such as these can be debated and the chemical facts applied to the world around us.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 1011.03 or equivalent

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: CHEM 2488.03 does not serve as a prerequisite for any other chemistry class nor does it count as a chemistry credit towards any degree with a major in chemistry.

FORMATS: Lecture

LAB HOURS PER WEEK:

CHEM 3103 Intermediate Inorganic Chemistry

CREDIT HOURS: 3

Modern bonding theories are developed using symmetry concepts. These are applied to understanding the molecular structure, reactivity and spectroscopic properties of inorganic compounds, including coordination compounds and organometallic complexes. The compounds prepared in the laboratory introduce more advanced synthetic procedures for the preparation of inorganic compounds.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 2101.03 (grade of C- or better). Recommended: CHEM 2402.03.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: CHEM 3101.03, CHEM 3102.03

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

CHEM 3203 Advanced Analytical Laboratory

CREDIT HOURS: 3

An introduction to the fundamentals of instrumental chemical analysis is presented in a laboratory environment, with emphasis on selection of appropriate analytical techniques, sample treatment, data handling, and communication of experimental results. Instrumental techniques include chromatography, spectrophotometry, mass spectrometry, and electrochemistry, with applications in biological, environmental, forensic and health-related areas.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 2201.03 (grade of C- or better)

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: CHEM 3201

FORMATS: Lecture | Lab | Tutorial

LAB HOURS PER WEEK:

CHEM 3301 Quantum Mechanics and Chemical Bonding

CREDIT HOURS: 3

The fundamentals and postulates of quantum mechanics are developed from first principles, with applications to illustrative model systems, vibrations, rotations, atoms, and molecules.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: MATH 2001.03 and MATH 1030.03, and CHEM 2304.03, (grade of C-or better), and PHYC 1190.03/PHYC 1290.03 or PHYC 1310.03/PHYC 1320.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

CHEM 3305 Materials Science

CREDIT HOURS: 3

This course emphasizes understanding the principles behind materials' physical properties, such as thermal and mechanical stability, and electrical and optical properties. Materials discussed include liquid crystals, perfect crystals, defective solids, polymers and glasses. Applications, such as the use of materials in displays, gas sensors, and lasers, are discussed.

CALENDAR NOTES: This course is the same as PHYC 3303, except CHEM 3305 has a lab and PHYC 3303 has a major term paper.

COREQUISITES:

PREREQUISITES: CHEM 1012.03, and (CHEM 2301.03 and CHEM 2304.03) or PHYC 3200.03 (can be a corequisite) or (ERTH 2001.03 and ERTH 2002.03)

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: PHYC 3303.03, CHEM 3303.03

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

CHEM 3401 Intermediate Organic Chemistry

CREDIT HOURS: 3

Topics presented include aromatics, heterocycles, amines, enolate anions and other methods for forming C-C bonds, concerted reactions, carbohydrates and some heteroatom chemistry. There is a continuing emphasis on the principles of mechanistic organic chemistry. Students work independently in the laboratory on the preparation of organic compounds.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 2402.03 (grade of C- or better)

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

CHEM 3404 Intermediate Organic Chemistry—Physical Organic and Spectroscopy

CREDIT HOURS: 3

This course provides an introduction to concepts in physical organic chemistry that are used to explain structure reactivity relationships. Spectroscopic techniques are also described with an emphasis on NMR spectroscopy. The organic laboratory will focus on organic compound separation and identification.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 2402.03 (grade of C- or better)

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: CHEM 3402.03

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

CHEM 3601 Chemistry of Living Systems

CREDIT HOURS: 3

The chemical principles governing a wide variety of biological processes are discussed. Structure and mechanism are emphasized in explanations and predictions of the behavior of organic compounds in nature. Specific topics include proteins, activation of carboxyl groups, peptide synthesis and biosynthesis, enzyme catalysis, coenzymes and prochirality.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 2402.03 (grade of C- or better)

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

CHEM 3801 Experiential Learning in Chemistry

CREDIT HOURS: 3

This is an outside-the-classroom learning experience in which students work to acquire knowledge and skills relevant to chemistry under the direction of a supervisor. Suitable work environments can be located at Dalhousie or in a commercial/industrial setting.

CALENDAR NOTES: To register for this course, each student must first find a supervisor willing to supervise the chemistry work experience. The student and supervisor must sign a learning agreement that has been approved by the course coordinator.

COREQUISITES:

PREREQUISITES: At least four of the following courses: CHEM 2101.03, CHEM 2201.03, CHEM 2301.03, CHEM 2304.03, CHEM 2401.03 and CHEM 2402.03.

CROSSLISTED:

RESTRICTIONS: Restricted to students in third year and above.

EXCLUSIONS: The following may not be used towards CHEM 3801: work that is part of another scheduled course at a learning institution; study that would qualify for Special Topics course; co-op work terms; and paid work.

FORMATS:

LAB HOURS PER WEEK:

CHEM 4101 Advanced Main Group Chemistry

CREDIT HOURS: 3

Following a brief overview of the fundamental aspects of preparation, structure and bonding for familiar systems, selected topics are examined in some detail. An emphasis is placed on novel structure and bonding arrangements in comparison with carbon chemistry.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 3103.03 (grade of C- or better)

CROSSLISTED: CHEM 5101.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

CHEM 4102 Advanced Transition Metal Chemistry

CREDIT HOURS: 3

Various themes of modern transition metal chemistry are examined, including but not restricted to: fundamental structure and bonding; spectroscopic characterization methods; as well as reactivity and reaction mechanisms.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 3103.03 (grade of C- or better)

CROSSLISTED: CHEM 5102.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

CHEM 4105 Inorganic Materials Synthesis

CREDIT HOURS: 3

Methods for the preparation of advanced functional inorganic materials for energy, optoelectronics, catalysis and other applications are presented. Topics in the course include solid-state chemistry, sol-gel synthesis, nucleation and growth of nanoparticles, thin film fabrication, and soft lithography.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 2101.03, CHEM 2301.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: CHEM 5105.03

FORMATS: Lecture

LAB HOURS PER WEEK:

CHEM 4120 Advanced Organometallic Chemistry

CREDIT HOURS: 3

Catalytic and stoichiometric transition metal mediated reactions of fundamental significance in synthetic chemistry are surveyed. Molecular orbital theory is used to understand structure and bonding in metal complexes and the reactivity properties of these species. Relevant examples from the current chemical literature are introduced.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 3103.03 (grade of C- or better)

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

CHEM 4201 Advanced Topics in Separations

CREDIT HOURS: 3

Classical methods (solvent extraction and ion exchange) are reviewed for pre-concentration of metal ions prior to their determination by spectroscopic methods. Chromatographic topics include gas, liquid, and supercritical chromatography with emphasis on multidimensional techniques. Examples in environmental and biological analysis are drawn from the current literature.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 2201.03

CROSSLISTED: CHEM 5201.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

CHEM 4205 Chemometrics

CREDIT HOURS: 3

The application of statistical tools to univariate and multivariate chemical measurements is explored. Topics include descriptive statistics, probability and probability distributions, propagation of errors, hypothesis testing, analysis of variance, experimental design, univariate and multivariate calibration, pattern recognition, exploratory data analysis and mixture analysis. Students are introduced to programming in MatLab.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 2201.03 (grade of C- or better)

CROSSLISTED: CHEM 5205.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

CHEM 4206 Analytical Mass Spectrometry

CREDIT HOURS: 3

This course offers a thorough treatment of modern analytical mass spectrometry instrumentation, with applications towards chemical and biochemical analysis. Specific examples include characterization of pharmaceuticals and biomolecules (proteins, carbohydrates), and discussion of field portable instruments. Reaction mechanisms and spectral interpretation are discussed, but are not emphasized in this applied course.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 2201.03 (grade of C- or better)

CROSSLISTED: CHEM 5206.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

CHEM 4301 Theory of Chemical Bonding

CREDIT HOURS: 3

This course develops molecular orbital theory from both qualitative and quantitative perspectives. Topics include the basic principles of the LCAO (Linear Combination of Atomic Orbitals) MO method, qualitative understanding of MOs in simple molecules, orbital symmetries, through to state-of-the-art techniques for computer computations of molecular properties.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 3301.03 (grade of C- or better)

CROSSLISTED: CHEM 5301.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

CHEM 4302 Introduction to Surface Science

CREDIT HOURS: 3

The fundamental theory and principles of surface science are introduced. Topics include the atomic structure of solid surfaces, thermodynamic and kinetic properties of surfaces, electronic and bonding behavior of surfaces, catalytic processes by surfaces, and typical surface analysis techniques.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 2301.03 and CHEM 2304 or PHYC 3200.03 and PHYC 3640.03

CROSSLISTED: CHEM 5302.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

CHEM 4311 Fundamental and Applied Electrochemistry

CREDIT HOURS: 3

This course provides a broad introduction to the fundamentals of electrochemistry, including electrochemical theory, double layer modelling and electrochemical methods. Additionally, important electrochemical applications are discussed, including corrosion, energy production and energy storage (fuel cells, batteries and supercapacitors).

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 2301.03 and CHEM 2304.03 (grade of C- or better)

CROSSLISTED: CHEM 5311.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

CHEM 4401 Synthesis in Organic Chemistry

CREDIT HOURS: 3

A number of important organic reactions are examined in depth with particular attention to regioselectivity and the development of relative or absolute stereochemistry. Applications of these reactions in the synthesis of complex molecules are illustrated with recent examples from the literature.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 3401.03 (grade of C- or better)

CROSSLISTED: CHEM 5401.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

CHEM 4402 Organic Structure Determination

CREDIT HOURS: 3

Nuclear magnetic resonance spectroscopy and mass spectrometry are emphasized in solving structural problems. Topics include 2D NMR, correlation of structure with chemical shifts and coupling constants, operation of NMR spectrometers, NMR relaxation, analysis of spectral patterns, the vector model of 1D and 2D experiments and ionization methods in mass spectrometry.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 3404.03 (grade of C- or better)

CROSSLISTED: CHEM 5402.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

CHEM 4502 Polymer Science

CREDIT HOURS: 3

Aspects of synthesis, analysis, characterization, structure and uses of synthetic and naturally occurring macromolecules are explored. Emphasis is on the application of standard methods of organic synthesis, analytical separations, and physico-chemical characterization. There is no laboratory, but students will do an independent literature project.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 2201.03 and CHEM 2301.03 and CHEM 2304.03 and CHEM 2402.03 (grade of C- or better)

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

CHEM 4504 Diffraction Techniques in Solid State Chemistry

CREDIT HOURS: 3

All chemical elements and compounds can exist as crystalline solids. This course studies the arrangements of atoms and molecules in such solids and examines the methods used to determine these structures. Particular emphasis is placed on the techniques of X-ray crystallography.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 2101.03 (grade of C- or better) and MATH 2001.03 and MATH 1030.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

CHEM 4595 Atmospheric Chemistry

CREDIT HOURS: 3

Fundamental introduction to the physical and chemical processes determining the composition of the atmosphere and its implications for climate, ecosystems, and human welfare. Origin of the atmosphere. Nitrogen, oxygen, carbon, sulfur cycles. Atmospheric transport and turbulence. Stratospheric ozone. Oxidizing power of the atmosphere. Regional air pollution: aerosols, smog, acid rain.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: MATH 1000.03, PHYC 1190.03/PHYC 1290.03 or PHYC 1310.03/PHYC 1320.03, and CHEM 1012.03 (grade of C- or better)

CROSSLISTED: PHYC 4595.03, OCEA 4595.03, OCEA 5595.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

CHEM 4601 Principles of Biomolecular and Drug Molecule Design

CREDIT HOURS: 3

The course covers both general principles and biochemical considerations in drug design. The fundamental goal is to give students the necessary tools to design new chemical structures as putative therapeutics for a human or veterinarian pathological problem. Students in chemistry are strongly recommended to take CHEM 3601.03 prior to registering in this course.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 2402.03 (grade of C- or better)

CROSSLISTED: CHEM 5601

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

CHEM 4602 Biophysical Characterization of Macromolecules

CREDIT HOURS: 3

Covers methods allowing determination of sub-molecular and atomic-level structure and dynamics of biomacromolecules in physiological settings (e.g. solution-state or lipid bilayers) including: fluorescence, electronic and vibrational circular dichroism and NMR spectroscopy; light vs. X-ray vs. neutron scattering; and, single molecule methods.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOC 3700.03 or (CHEM 3601.03 and CHEM 2301.03 and CHEM 2304.03), all with grades of B or higher, or permission of instructor. Recommended: PHYC 1190.03/PHYC 1290.03 or PHYC 1310.03/PHYC 1320.03.

CROSSLISTED: BIOC 4702.03, CHEM 5602.03, BIOC 5702.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

CHEM 4603 Structural Biology

CREDIT HOURS: 3

This course covers theoretical and practical aspects of determining and assessing the quality of atomic-resolution biomolecular structures. The underlying theory and applications of X-ray diffraction, NMR spectroscopy, and cryo-electron microscopy are discussed in detail.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOC 3700.03 or CHEM 3601.03

CROSSLISTED: BIOC 4703.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

CHEM 4801 Research Project in Chemistry I

CREDIT HOURS: 3

Students carry out research projects under the supervision of a faculty member, and submit a report and make an oral presentation.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 2101.03, 2201.03, 2301.03, 2304.03, 2401.03 and 2402.03 plus at least one full credit at the 3000 or 4000 level in the area of interest with an average grade of at least B-, or permission of instructor; GPA 3.0

CROSSLISTED:

LAB HOURS PER WEEK:

CHEM 4902 Honours and Major Research Project I

CREDIT HOURS: 3

Together with CHEM 4903, this is an honours program requirement to develop research skills. Research is carried out under the direction of a faculty member and evaluated through supervisor assessment, a written report and oral presentation.

CALENDAR NOTES: Students should apply for this course in the winter term prior to their final year by contacting the Honours Coordinator. A grade will not be assigned for CHEM 4902 until both CHEM 4902 and CHEM 4903 have been completed. To receive credit, CHEM 4902 and 4903 must be completed in the same academic year.

COREQUISITES:

PREREQUISITES: Minimum GPA of 3.0 and permission of Honours Coordinator.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: CHEM 4901.06

FORMATS: Experiential Learning

LAB HOURS PER WEEK:

CHEM 4903 Honours and Major Research Project II

CREDIT HOURS: 3

Together with CHEM 4902, this is an honours program requirement to develop research skills. Research is carried out under the direction of a faculty member and evaluated through supervisor assessment, an honours thesis and oral presentation.

Introduction

For information concerning programs and courses in Earth Sciences, please refer to the [Earth Sciences](#) section of this calendar. For Environmental Science, please refer to the [Environmental Science](#) section.

Staff

Dean

Moore, C., BA (Hons), PhD (Cambridge), Professor (Psychology)

Chair of Earth and Environmental Sciences

Brenan, J. M., BSc Honours (McGill), PhD (Rensselaer)

Graduate Program Coordinator (Earth Sciences)

Fedortchouk, Y., MSc (Moscow State Univ), PhD (Victoria)

Undergraduate Program Coordinator (Earth Sciences)

Ryan, A. M., BSc (Univ College Dublin), MSc, BEd (Acadia), MEd (MSVU), PhD (Dalhousie)

Undergraduate Program Coordinator (Environmental Science)

Rainham, D., PhD (Ottawa)

Undergraduate Advisor (Earth Sciences)

Young, M., BSc (Dalhousie), MSc (Queen's)

Undergraduate Advisor (Environmental Science)

Gass, S., PhD (Open Univ, UK)

Mui, A., PhD (Toronto)

Co-op Academic Advisor (EES)

Wright, T., PhD (Alberta)

Faculty

Arnott, A., BSc (Acadia), PhD (Dalhousie)

Brenan, J. M., BSc Honours (McGill), PhD (Rensselaer)

Coutand, L., BSc, PhD, (Univ of Rennes, France)

Cox, R., BSc Hons, MSc (Glasgow Univ), PhD (Memorial)

Fedortchouk, Y., MSc (Mosow State Univ), PhD (Victoria)

Gass, S., PhD (Open Univ, UK)

Gosse, J. C., BSc Honours (Memorial), PhD (Lehigh)

Green, C., BSc Honours (Acadia), MES (York), MSA, PhD (Ryerson)

Grujic, D., BSc (Belgrade), PhD (ETH Zurich)

Maselli, V., BSc (Bologna), MSc (Trieste), PhD (Bologna)

Mui, A., PhD (Toronto)

Nedimovic, M., BSc (Belgrade), MSc, PhD (Toronto)

Plug, L., BA (McGill), PhD (Univ of Alaska - Fairbanks)

Rainham, D., PhD (Ottawa)

Ryan, A. M., BSc (Univ College Dublin), MSc, BEd (Acadia), MEd (MSVU), PhD (Dalhousie) cross appointed with Environmental Science

Sherwood, O., BSc, MSc (McMaster), PhD (Dalhousie)

Sterling, S., PhD (Duke Univ)

Wach, G. D., BA (Hons) (Western Ontario), MSc (South Carolina), DPhil (Oxford)

Wright, T., PhD (Alberta)

Young, M., BSc (Dalhousie), MSc (Queen's)

Zhang, M., BSc (Henan Normal University), PhD (University of Science and Technology of China)

Professors Emeriti

Gibling, M. R., BA (Oxon), PhD (Ottawa)

Jamieson, R. A., BSc (Dalhousie), PhD, (Memorial)

Scott, D. B., BSc (Washington), MSc (Washington State), PhD (Dalhousie)

Zentilli, M., BSc (Chile), PhD (Queen's), PGeo

Adjunct Faculty

Adam, Jurgen, MSc (Clausthal), PhD (Technical University of Berlin), University of London

Brown, D., BSc (Dalhousie) Canada-NS Offshore Petroleum Board (CNSOPB)

Calder, J., BSc (SMU), PhD (Dalhousie), Nova Scotia Department of Natural Resources

Campbell, C., BSc Honours (SMU), PhD (Dalhousie), Geological Survey of Canada Atlantic

Clarke, B., BSc, MSc (Toronto), PhD (Edinburgh)
Culshaw, N. G., BA (Keele), PhD (Ottawa)
Deptuck, M., BSc (St. Mary's), PhD (Dalhousie), CNSOPB
Dyke, A., BSc Honours (Carleton), MA, PhD (Univ of Colorado)
Easton, R., PhD, Ontario Geological Survey
Fedak, T. J., BA (NSCAD), PhD (Dalhousie), Fundy Geological Museum
Fowler, M., BSc Honours (Leicester Univ.), MSc, PhD (Univ of Newcastle upon Tyne)
Gerbi, C., AB (Amherst College), MS (UC Davis), PhD (Univ of Maine)
Gibling, M., BA (Oxon), PhD (Ottawa)
Gibson, D., BA (Colgate Univ), MSc, PhD (Carleton), Simon Fraser University
Godin, L., BSc, MSc (Univ du Que a Montreal), PhD (Carleton), Queen's University
Hanley, J., BAsC, MSc, PhD (Toronto), Saint Mary's University
Jamieson, R. A., BSc (Dalhousie), PhD, (Memorial)

Kellet, D., BSc (UBC), MSc (Queen's), PhD (Dalhousie), GSC
Kellman, L., BA (McMaster), MSc (McGill), PhD (Univ du Quebec à Montreal), St. Francis Xavier University
Kettanah, Y., BSc (Baghdad Univ), PhD (Southampton Univ, UK)
Kirby, E., BA Honours (Hamilton College), MSc (Univ of New Mexico), PhD (MIT)
Kopp, H., BSc, MSc, PhD (Kiel), GEOMAR
Louden, K. E., BA (Oberlin), MEd (Temple), PhD (MIT)

Martel, T., BSc Honours, PhD (Dalhousie), Corridor Resources Inc.
Melchin, M., MSc (Waterloo), PhD (Western), St. Francis Xavier University
Mosher, D., BSc (Acadia), MSc (Memorial), PhD (Dalhousie), GSC Atlantic
Mudie, P. J., BSc (Cape Town), BSc (Leicester), PhD (Dalhousie), National Research Council
Mukhopadhyay, P., BSc, MSc, PhD (Jadavpur Univ), Global Geoenergy Research Limited
Murphy, J. B., BSc (Dublin), MSc (Acadia), PhD (McGill), St. Francis Xavier University
Neuweiler, F., Diplom, Dr. rer. nat. (FU Berlin), Laval University

Normandeau, A., BSc, MSc, PhD (Laval), GSC

Normandeau, P., BSc (École Polytechnique de Montréal), MSc (UQÁM), PhD (McGill), NWT Geological Survey
Parsons, M., BSc (Dalhousie), PhD (Stanford), GSC Atlantic
Piper, D. J. W., BA Honours (St. Catharine's Col, Cantab), MA (Cantab), PhD (Darwin Col, Cantab), GSC Atlantic
Pufhal, P., BSc Honours, MSc, PhD, Acadia University
Richards, F. W., BSc Honour (Bristol), MSc (Imperial College), ESSO
Shaw, C. S. J., BSc Honours (Univ of London), MSc, PhD (UWO), University of New Brunswick
Shimeld, J., BApplied Sci (Waterloo), MSc (Dalhousie), GSC Atlantic
Silva, R., BSc, PhD (Univ of Coimbra), University of Exeter
Simpson, D. W., BSc Honours, MSc (Dalhousie), PhD (Australian National Univ), IRIS Consortium
Swinden, S., BSc (Dalhousie), MSc, PhD (Memorial)

van Rooyen, D., BSc, PhD (Carleton), CBU
Vincent, H., BSc (Univ of West Indies), MSc (Imperial College), PhD (Dalhousie), BP Trinidad and Tobago
Waldron, J., BA (Cambridge), PhD (Edinburgh), University of Alberta
Warren, C., BA (Oxford), MSc (Univ College London), DPhil (Oxford)
Whipp, D. M., BSc, PhD (Univ of Michigan), University of Helsinki
Wilson, B., BSc Honours (Univ College of Whales), MSc, PhD (Univ of Whales), The University of West Indies
Zentilli, M., BSc (Univ of Chile), PhD (Queen's)

Introduction

Earth Science is a holistic discipline whose focus of study is the Earth System. It includes the geosciences which address the solid earth, but necessarily also extends to study of the atmosphere, hydrosphere, oceans and biosphere. Broadly, Earth scientists work to understand

1. how the Earth System works;
2. how it evolved to its current state;
3. the processes for and distribution of Earth's physical resources such as fossil fuels, minerals, and water; and
4. limits to and consequences of the use of physical resources by humans.

Examples of specific questions within Earth Sciences include: How was the Earth formed? What is its composition? Where do we look for oil? Where do we look for reliable water supplies? What are the relationships between glaciers, rivers, and climate, both now and in the deep past? To answer questions such as these, Earth scientists typically use methods from the foundation sciences -- physics, chemistry, biology, mathematics - along with discipline-specific methods and modern tools including computing and satellite mapping. Some Earth scientists also consider or draw expertise from the social sciences, particularly as humans collectively become a significant agent in modifying components of the Earth System.

Career paths

Earth Science is of tremendous importance to Canadians and can be an immensely satisfying profession. Earth scientists are employed in universities, government agencies, the oil, gas and mineral industries, environmental consulting, and beyond. The Earth Sciences department offers programs and courses designed to meet the needs of students with varying goals for her/his undergraduate education. In general, the following summary recommendations can be made:

- To prepare to become a professional geoscientist, students should enroll in a 120 credit hour BSc or BA degree (Major, Honours or Combined) and meet the knowledge requirements for professional registration by following the Geoscience Knowledge and Experience handbook available at <https://geoscientistscanada.ca>.
- To prepare for postgraduate study (MSc or PhD) in Earth Sciences or a related field, students should pursue a BSc Concentrated Honours in Earth Sciences or Combined Honours with a related subject, and consider meeting requirements of professional registration (above).

- Students seeking an undergraduate preparation for Law, Education, or another professional program outside of Earth Sciences, or to complement another subject, should consider a BSc or BA Major or Double Major.
- Electives courses and Minors: Earth Sciences is about understanding how the Earth 'works'. As such it makes an excellent general education subject. Several EARTH courses that may be suitable electives are listed below.

General interest courses

These courses are designed to be accessible to students who want to know something about the Earth, but whose major field of study is not Earth Sciences. For example, the course may be of interest to an economics student concerned with resources, a history student interested in the role played by Canada's geological framework in the development of transportation, a biology student interested in faunal environments on the seafloor.

Courses without prerequisites

- EARTH 1030.03: Introduction to Physical Geography
- EARTH 1060.03: Earthquakes, Volcanoes and Natural Disasters
- EARTH 1080.03: Geology I (lab course)

Courses with prerequisites

- EARTH 1090.03: Geology II (with lab)
- EARTH 1091.03: Geology II (non-lab course)
- EARTH 2410.03: Environmental Issues in Earth Sciences
- EARTH 2420.03: Dinosaurs
- EARTH 2205.03: Introduction to Paleontology (lab course)
- EARTH 3440.03: Geomorphology

High School Preparation

Students in high school who plan a career in Earth Sciences, should have Advanced Math or Pre-calculus Math, plus Chemistry and Physics. Note that only Mathematics is required as a prerequisite, but the others are strongly recommended. A student should ideally aim to make up deficiencies in high school preparation in the first year at Dalhousie.

Degree Programs

The Department of Earth Sciences offers the following degree programs in Earth Sciences

- BSc or BA (120 credit hour) Honours (Concentrated)*
- BSc or BA (120 credit hour) Combined Honours*
- BSc or BA (120 credit hour) Major*
- BSc or BA (120 credit hour) Double Major*
- BSc or BA (90 credit hour) Minor in Earth Sciences
- Minor in Earth Sciences

* BSc [Co-op option available](#)

* May be combined with Minor programs from other disciplines

Departmental Requirements for these programs are described below. In addition to departmental requirements, students must satisfy the requirements outlined in the [Academic Regulations](#) and the [College of Arts and Science Degree Requirements](#) sections. Students are advised that a number of requirements differ for the BA and BSc degrees.

A student is governed by the academic regulations in place at the time of initial enrolment, as long as the degree is completed within the time permitted (10 years). Subsequent changes in regulations shall apply only if the student so elects. Student applying the old academic regulations should consult the calendar of the appropriate year.

Students should plan their programs of study carefully and are strongly encouraged to do so in consultation with an Earth Sciences undergraduate academic advisor.

Wright, T., PhD (Alberta)

Young, M., BSc (Dalhousie), MSc (Queen's)

Zhang, M., BSc (Henan Normal University), PhD (University of Science and Technology of China)

Core Requirements for all BSc and BA (120 credit hour) Degrees

All 120 credit hour degrees in Earth Sciences (Concentrated Honours, Combined Honours, Major, Double Major) share the following required courses:

1000 level

- EARTH 1080.03: Geology I and EARTH 1090.03 (recommended) or EARTH 1091.03: Geology II
- MATH 1000.03: Differential and Integral Calculus I (recommended) or MATH 1215.03: Life Sciences Calculus or equivalent
- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity AND CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium

Students in the Integrated Science Program should contact the department regarding first year equivalencies.

2000 level

- EARTH 2001.03: Mineralogy
- EARTH 2002.03: Introduction to Petrology
- EARTH 2110.03: Field Methods
- EARTH 2203.03: Sediments and Sedimentary Rocks
- EARTH 2380.03: Geochemistry

3000 level

- EARTH 3001.03: Field School
- EARTH 3140.03: Structural Geology
- EARTH 3303.03: Stratigraphy

Field Work

Field excursions are part of many courses and are conducted at appropriate times during the session. In addition, some optional field excursions may be held each year. Note that some mandatory field trips may be held on Saturdays or Sundays. Field Schools EARTH 3001 is required for most degree programs and is offered for about 15 days in late August, just before the start of the University fall term.

BSc or BA (120 credit hour) Concentrated Honours in Earth Sciences

Students who want a challenging program that includes an in-depth background in Earth Sciences and an independent research experience may want to enroll in an Honours program. Students interested in eventually

pursuing graduate studies are particularly encouraged to consider Honours. Honours students complete a minimum of 54 credit hours above the 1000 level in Earth Sciences with a minimum GPA of 3.5 and write a research-based Honours thesis. The Honours thesis and Qualifying Examination requirements are satisfied through completion of EARTH 4200.06.

A [Co-op option](#) is available for students enrolled in a BSc Concentrated Honours in Earth Sciences.

Admission to Honours

Students must apply for admission to Honours programs, usually by the end of their third year. Students considering Honours in Earth Sciences should consult with an Earth Sciences Academic Advisor early in their studies.

Departmental Requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#), students in the Concentrated Honours program in Earth Sciences must complete the following:

[Core Requirements](#) (Section A)

1000 level

- MATH 1010.03: Differential and Integral Calculus II, or MATH 2030.03: Matrix Theory and Linear Algebra I, or MATH 2300.03: Mathematical Modelling, or STAT 1060.03: Introductory Statistics for Science and Health Sciences or STAT 2060.03: Introduction to Probability and Statistics
- PHYC 1190.03: Introduction to Physics and PHYC 1290.03: Introduction to Physics (recommended), or PHYC 1300XY.06: Physics In and Around You

2000 level and higher

- EARTH 2270.03: Introduction to Applied Geophysics
- EARTH 4200XY.06: Honours Thesis
- Minimum of 21 additional credit hours of EARTH courses at or above the 2000 level, of which at least 15 credit hours must be at or above the 3000 level

Additional Requirements

- Minimum GPA of 3.5 in Honours subject courses, with no grade less than a C
- First-class Honours; Minimum GPA of 3.7 in Honours subject courses, with at least an A- in EARTH 4200.06

BSc or BA (120 credit hour) Combined Honours in Earth Sciences and another subject

Students who wish to study Earth Sciences in conjunction with another subject may wish to pursue a Combined Honours degree program. The other subject may be any discipline from the Faculty of Science, the Faculty of Arts and Social Sciences, the Faculty of Computer Science, or the College of Sustainability. Earth Sciences may be the primary subject (defined as the subject with the larger number of honours credits), or the secondary subject.

Students planning to enroll in a Combined Honours program should consult with academic advisors from both programs early in their studies. Students must have their program of study approved by Academic Advisors in both subject areas. Students complete an Honours Qualifying Examination in one of the two subject areas, a requirement normally completed in the primary subject area. For Earth Sciences, this requirement is satisfied through EARTH 4201.03/ERTH 4202.03.

A [Co-op option](#) is available for students enrolled in BSc Combined Honours with Earth Sciences as the primary subject.

Departmental requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a Combined Honours program in Earth Sciences and another subject must complete the following:

Earth Sciences as primary subject

- [Core requirements](#) (Section A)

1000 level

- One of MATH 1010.03, MATH 1030.03, MATH 2030.03, MATH 2300.03, STAT 1060.03, or STAT 2060.03
- PHYC 1190.03 and PHYC 1290.03

2000 level and higher

- EARTH 2270.03: Introduction to Applied Geophysics
- A minimum of nine additional credit hours in EARTH at or above the 3000 level, which includes EARTH 4200XY.06 (Honours Thesis)

Students in Combined Honours should consult the department when choosing courses. Exceptions to requirements may be made where justified by a student's particular subject combination.

Earth Sciences as secondary subject

- [Core requirements](#) (Section A)

1000 level

- One of MATH 1010.03, MATH 1030.03, MATH 2030.03, MATH 2300.03, STAT 1060.03, or STAT 2060.03
- PHYC 1190.03 and PHYC 1290.03

2000 level and higher

- EARTH 2270.03: Introduction to Applied Geophysics
- A minimum of three additional credit hours in EARTH at or above the 3000 level

Students in Combined Honours should consult the department when choosing courses. Exceptions to requirements may be made where justified by a student's particular subject combination.

BSc or BA (120 credit hour) Major in Earth Sciences

The 120 credit hour Major is suited to students who want to focus on Earth Sciences, but wish to have a program that is somewhat less constrained than the Honours program. Earth Sciences Majors complete a minimum of 42 credit hours in Earth Sciences courses above the 1000 level. Research and other experiential learning opportunities are available through laboratories and research project classes.

A [Co-op option](#) is available for students enrolled in a 120 credit hour BSc Major program in Earth Sciences.

Departmental requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a Major program in Earth Sciences must complete the following courses:

- [Core requirements](#) (Section A)

1000 level

- One of MATH 1010.03, MATH 1030.03, MATH 2030.03, MATH 2300.03, STAT 1060.03, or STAT 2060.03 (BSc only)

2000 level and higher

- A minimum of 15 credit hours in EARTH at or above the 3000 level

BSc or BA (120 credit hour) Double Major in Earth Sciences and another subject

The Double Major degree program allows students to combine a study of Earth Sciences with another subject. The other subject may be any discipline from the Faculty of Science, the Faculty of Arts and Social Sciences, the Faculty of Computer Science or the College of Sustainability. Earth Sciences may be the primary subject (defined as the subject with the larger number of credits), or the secondary subject. If the primary subject area is from the Faculty of Arts and Social Sciences, the degree granted will be a BA.

It is recommended that students enrolled in a Double Major program consult with advisors in both subject areas.

A [Co-op option](#) is available for students enrolled in BSc Double Major with Earth Sciences as the primary subject.

Departmental requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a Double Major program in Earth Sciences and another subject must complete the following:

Earth Sciences as the primary or secondary subject

- [Core requirements](#) (Section A)

1000 level

- One of MATH 1010.03, MATH 1030.03, MATH 2030.03, MATH 2300.03, STAT 1060.03, or STAT 2060.03 (BSc only)

2000 level and higher

- A minimum of nine additional credit hours in EARTH at or above the 3000 level

Students in Double Major programs should consult the department when choosing courses. Exceptions to requirements may be made where justified by a student's particular subject combination.

BSc or BA (90 credit hour) Minor in Earth Sciences

The 90 credit hour degree with Minor in Earth Sciences is appropriate for students who want to study some Earth Sciences but do not wish to complete the conventional four-year program. The degree is best suited for students who want a general science degree with some specialization in Earth Sciences. A 90 credit hour degree program is not suitable for students who wish to pursue graduate studies. With additional study, the degree may be upgraded to a 120 credit hour Major or Honours degree at a later date.

A 90 credit hour BSc or BA in Earth Sciences is usually the preferred option for students who wish to combine studies in Earth Sciences with a degree in Engineering (see [BSc/BEng or BA/BEng Concurrent Program](#)).

See [Minor in Earth Sciences](#) section.

Minor in Earth Science

This minor is available to students registered in a 120 credit hour Bachelor of Applied Computer Science, Bachelor of Arts, Bachelor of Commerce, Bachelor of Community Design, Bachelor of Computer Science, Bachelor of Informatics, Bachelor of Management, Bachelor of Music, Bachelor of Science or Bachelor of Science (Medical Sciences) program.

A BSc or BA (90 credit hour) degree program with a Minor in Earth Sciences is available to students in the Faculty of Science.

Requirements

Students starting in 2014-15 or later:

- EARTH 1080.03: Geology I and EARTH 1090.03 or EARTH 1091.03: Geology II
- A minimum of 18 credit hours in Earth Sciences courses at the 2000 level or higher, must include at least six credit hours at the 3000 level or higher

Students starting prior to Fall 2014-15:

- EARTH 1080.03: Geology I and one of EARTH 1030.03: Introduction to Physical Geography, EARTH 1060.03: Natural Disasters, EARTH 1090.03: Geology II, EARTH 1091.03: Geology II
- A minimum of 18 credit hours in Earth Sciences courses at the 2000 level or higher, must include at least six credit hours at the 3000 level or higher

Contact [Earth Sciences](#) for more information.

Co-op, Minors, Certificates and Engineering Concurrent Programs for Students

Co-operative Education Program (Science Co-op) in Earth Sciences

Co-op Academic Advisor: Dr. Richard Cox richard.cox@dal.ca

Science Co-op is a program of academic study in a science subject, combined with paid career-related work experience. Students undertake three work-terms interspersed with their academic study terms. Science Co-op degree programs enable students to apply their knowledge directly while providing them with work experience that assists in making educated career choices.

Science Co-op is available to students in BSc (120 credit hour) Honours or Major programs in Earth Sciences, or in Combined Honours or Double Major programs with Earth Sciences as the primary subject. The number of students

admitted into Science Co-op each year is limited. A minimum GPA of 3.00 is required for admission and for continuation in the Co-op program. Students must be eligible to work in Canada.

Students normally apply to join Science Co-op during their first year of study. Students must apply before April 15, and it is strongly recommended that interested students meet with their Departmental Co-op advisor early in the Winter term of their first year. If accepted into Science Co-op, students must register for, and attend the Science Co-op Seminar Series (SCIE 2800.00) at least four months prior to the first work term.

Details are available from the Earth Sciences Co-op Academic Advisor and from the Co-operative Education office www.dal.ca/academics/cooperative_education.html

Minors available to students in Earth Sciences

Minor programs allow students to develop subject specialties in addition to their major or honours subjects. Minors in other subjects are normally added to 120 credit hour BSc or BA programs (including Science Co-op).

Students in a BSc or BA (120 credit hour) program in Earth Sciences may choose to include a Minor selected from the [list of approved Minors](#). Courses counted toward a Major or Honours subject cannot be used to fulfill the requirements of a Minor program.

Certificates

In combination with a BSc or BA in Earth Sciences, students may obtain one or more Certificates. A Certificate indicates that a student has achieved a certain level of proficiency in a given area or subspecialty. Courses counted toward a Major, Honours or Minor subject may also be used to fulfill the requirements of a Certificate. Students must apply to the Certificate Coordinator to be considered for a Certificate. Certificates are awarded upon graduation and are noted on the student's academic transcript.

A complete list of [Faculty of Science Certificates](#) and requirements can be found at the beginning of the [Faculty of Science](#) section. Students may also work toward obtaining Certificates offered by other Faculties; some of these are listed in the [College of Arts and Science Degree Requirements](#) section.

Certificates of particular interest to students enrolled in a BSc or BA program in Earth Sciences include:

- [Certificate in Environmental Impact Assessment](#) (EIA) (contact: Dr. Patricia Lane, Biology, patricia.lane@dal.ca)
- [Certificate in Geographic Information Science](#) (GIS) (contact: Dr. Chris Greene, Earth Sciences, csgreene@dal.ca)
- [Certificate in Materials Science](#) (contact: Dr. Mita Dasog, Chemistry, mita.dasog@dal.ca)
- [Certificate in Science Leadership and Communication](#) (contact: Dr. Anne-Marie Ryan, Earth Sciences, AMRyan@dal.ca)

Knowledge Requirements for Professional Practice as a Geoscientist

Geoscience is a regulated profession in most of Canada. Individual provinces and territories have acts that restrict the practice of geoscience to individuals who are registered members of professional associations. In Nova Scotia, the Association of Professional Geoscientists of Nova Scotia (APGNS) is the licensing body which fulfils this mandate. APGNS and other provincial geoscience associations, under the guidance of Geoscientists Canada, ensure high standards of geoscience practice and education.

Students who intend to pursue geoscience as a profession, or simply want the most in-depth education in geoscience, should follow the guidelines laid out in the Geoscience Knowledge and Experience handbook provided by Geoscientists Canada. The Geoscience Knowledge and Experience handbook outlines comprehensive sequences of courses intended to prepare a student for professional practice in modern geoscience, and to meet formal requirements for registration in the Geology and Environmental Geoscience streams.

Professional geoscience knowledge requirements are more specific and stringent than degree requirements in terms of the courses required in Earth Sciences and in the Foundation Sciences (mathematics and physics in particular). Earth Science students can meet the knowledge requirements within a 120 credit hour degree by careful selection of EARTH courses and Foundation Science courses, and this should begin in the first year. Less than judicious course selection, and/or combining Earth Science with another subject which also has numerous specific course requirements, may result in a student needing extra courses (beyond the 120 credit hours) in order to meet knowledge requirements for registration. Consult the professional associations -- Geoscientists Canada and APGNS - for additional information on registration.

BSc/BEng or BA/BEng Concurrent Program

Students interested in combining their interest in Program with a degree in Engineering may choose a BSc/BEng or BA/BEng Concurrent Program, normally completed in a 5 year period. Over the first three years, students complete the requirements for a 90 credit hour BSc or BA degree in Earth Sciences and a Diploma of Engineering (the first two years of engineering studies). Two more years of engineering studies are then required to obtain a BEng. Interested students should see undergraduate advisors from Earth Sciences and from the Faculty of Engineering in their first year of study.

Field Work

Field excursions are part of many courses and are conducted at appropriate times during the session. In addition, some optional field excursions may be held each year. Note that some mandatory field trips may be held on Saturdays or Sundays. Field School, EARTH 3001, which is required for most degree programs, is offered for about 15 days in late August, just before the start of the University fall term.

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are typically available to students in the second, third, and fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not obtain credit for both courses as designated.

Not all courses are offered each year. Please consult the current [timetable](#) for this year's offering. For further information please contact the department, or visit the department's website.

Course Notes

NOTE: Some mandatory field trips may be held on Saturdays or Sundays. Check with Instructor.

Course Descriptions

ERTH 1030 Introduction to Physical Geography

CREDIT HOURS: 3

This non-lab science course examines the nature of weather and climate, Earth's surface features and processes, and internal processes that contribute to landform development. An integral component of the course is an exploration of the representation and interpretation of physical geographic data through the examination of a variety of maps.

CALENDAR NOTES: There are no pre-requisites for this course, and students may take this course in addition to any other first year Earth Science course.

COREQUISITES:

PREREQUISITES:

CROSSLISTED: GEOG 1030.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

ERTH 1060 Earthquakes, Volcanoes and Natural Disasters

CREDIT HOURS: 3

Earthquakes, meteorite impacts, rapid climate change, volcanic eruptions, hurricanes, landslides, solar flares, and floods are natural disasters that affect our economy, public policy, and safety. Where, why and how frequently do natural disasters occur? Are predictions possible? Are media portrayals of risk and damage realistic? This course, aimed at the nonspecialist, investigates these intriguing questions. Excerpts of "disaster films", in conjunction with lectures and discussions are used to identify the causes, consequences and sometimes erroneous perceptions of natural hazards. Examples from Atlantic Canada and contemporary disasters are used to assess local risk and real-time events worldwide.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES:

CROSSLISTED: GEOG 1060.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ERTH 1080 Geology I

CREDIT HOURS: 3

This course focuses on the solid earth (geosphere) and how it evolved throughout earth's vast history, and continues to evolve today. The processes involved are recorded in the rocks and minerals of our earth, and we explore these natural processes and materials as a way to understanding our earth. The course meets the needs of students who require a science course with a lab component, is a required prerequisite course for all Earth Science majors, and serves as an introduction for all those interested in Earth Science. No previous knowledge of geology is required.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: Credit will be given for only one of ERTH 1080, 1010, 1040 or 1041.

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

ERTH 1090 Geology II

CREDIT HOURS: 3

Earth systems introduced in Geology I are explored in greater detail, with an emphasis on change through time, earth resources, and on geologic systems that are connected to human actions. This course provides a strong background to pursue further work in the environmental sciences and is the required course for Earth Sciences majors.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ERTH 1080 is a pre- or co-requisite for ERTH 1090 or ERTH 1091.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: credit will only be given for one of ERTH 1090, 1091, 1020, or 1050

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

ERTH 1091 Geology II

CREDIT HOURS: 3

ERTH 1091 builds on the earth systems introduced in Geology I and explores them in greater detail. The emphasis is on change through time, earth resources, and on geologic systems that are connected to human actions. This non-lab course provides a strong background to pursue further work in the environmental sciences and is the required course for earth sciences majors.

CALENDAR NOTES: This course is required for Earth Sciences majors. ERTH 1080.03 is a pre- or co-requisite.

COREQUISITES: ERTH 1080.03

PREREQUISITES: ERTH 1080.03 or permission of instructor.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: Credit will be given for only one of ERTH 1091.03, ERTH 1090.03, ERTH 1020.03 or ERTH 1050.03.

FORMATS: Lecture

LAB HOURS PER WEEK:

ERTH 2001 Mineralogy

CREDIT HOURS: 3

Earth Materials Science I ERTH 2001 introduces the chemical/physical properties of minerals, their origins and distribution. Labs include mineral identification, crystal chemistry, crystallography, and optical mineralogy. X-ray diffraction and electron microprobe methods are introduced.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ERTH 1080.03 (or SCIE 1505) and (ERTH 1090.03 or ERTH 1091.03 or permission of instructor) (or SCIE 1515 or SCIE 1530) and CHEM 1011.03/CHEM 1012.03 or CHEM 1021.03/CHEM 1022.03: Chemistry majors should consult the department. Students who have not taken CHEM 1010.03 (or equivalent) are encouraged to take this concurrently.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

ERTH 2002 Introduction to Petrology

CREDIT HOURS: 3

Through a thorough and systematic examination of hand specimens and thin sections, and the detailed description of mineral assemblages and textures, students will be able to formally classify a wide range of igneous, metamorphic and sedimentary rock types. Case studies representing the geology of Nova Scotia will also be presented.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ERTH 2001.03 and CHEM 1011.03/CHEM 1012.03 or CHEM 1021.03/CHEM 1022.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

ERTH 2020 Journey Through The Solar System

CREDIT HOURS: 3

An introduction to the geological features of the planets, asteroid belt, and major satellites of our solar system, and the current understanding as to their formation. The course uses the earth as an analog to compare the landforms, and both the measured and inferred geology of the solar system.

CALENDAR NOTES: There are no prerequisites, however a basic understanding of mathematics and the physical sciences is required.

COREQUISITES:

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS: Restricted from students in first year (E1).

EXCLUSIONS:

FORMATS: Lecture | Online Delivery

LAB HOURS PER WEEK:

ERTH 2110 Field Methods

CREDIT HOURS: 3

This is intended as an introduction to field techniques useful to the practicing geologist, particularly those concepts essential for the accurate field description and identification of rocks and the use and construction of geological maps. Computer techniques and elementary structural geology are also considered.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: EARTH 1080.03 (or SCIE 1505) and (ERTH 1090.03 or EARTH 1091.03 or permission of instructor)

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

ERTH 2203 Sediments and Sedimentary Rocks

CREDIT HOURS: 3

The course deals with physical, chemical and biological processes that generate modern sediments, and their conversion to sedimentary rocks through time. Labs provide a practical introduction to sediment analysis and to a range of sedimentary structures and rock types. Fieldwork may include description of beaches and bedrock in Nova Scotia.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: EARTH 1080.03 (or SCIE 1506.09/1507.09 or SCIE 1505.18) and (ERTH 1090.03 or EARTH 1091.03)

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

ERTH 2270 Introduction to Applied Geophysics

CREDIT HOURS: 3

An Introduction to using physical principles to explore the Earth's subsurface, with an emphasis on near-surface applications. Topics include seismic, gravity, magnetic, electrical, and electromagnetic surveying techniques, and their application in prospecting, hydrogeology, environmental assessments, and well-logging. The geophysics field school, normally conducted during the last week of April, is an integral part of this course.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: EARTH 1080 (or SCIE 1505 or SCIE 1506/SCIE 1507) and first year Mathematics (MATH 1000) and Physics (PHYC 1190/1290 or PHYC 1300X/Y), or SCIE 1515Y, or SCIE 1530Y

CROSSLISTED: PHYC 2270.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

ERTH 2380 Geochemistry

CREDIT HOURS: 3

An introduction to the principles of chemistry applied to geologic systems, including an overview of the chemistry of rocks and minerals, isotopes in the geologic environment, processes that control the mobility of elements in geologic environments, and the use of geochemical data in solving geological and paleo- environmental problems.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: EARTH 1080 /(ERTH 1090 or 1091) or SCIE 1506/SCIE 1507 and EARTH 2001 & CHEM 1011/CHEM 1012 or equivalent, or permission of the instructor

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Tutorial
LAB HOURS PER WEEK:

ERTH 2410 Environmental Issues in Earth Sciences

CREDIT HOURS: 3

Geology underlies many of the environmental problems facing humans today. Topics include environmental aspects of energy and mineral resource, geologic hazards, geologic connections to pollution and waste disposal, and the role that water plays in its various guises. Canadian examples are incorporated where appropriate. Approved with Canadian Studies.

CALENDAR NOTES: This course is not offered every year. Please consult department in the spring for further information.

COREQUISITES:

PREREQUISITES: One of: EARTH 1080, EARTH/GEOG 1030, EARTH/GEOG 1060, ENVS 1000 or ENVS 1100 or ENVS 1200, SUST 1001 with a grade of B or above, or DISP with Earth Sciences

CROSSLISTED: ENVS 2410

RESTRICTIONS:

EXCLUSIONS: This class is not available for Earth Sciences Majors

FORMATS: Lecture

LAB HOURS PER WEEK:

ERTH 2420 Dinosaurs

CREDIT HOURS: 3

Students will consider the origin, evolution and extinction of non-avian dinosaurs. What are dinosaurs? Why were some dinosaurs so big? What did dinosaurs eat? How fast could dinosaurs run? Were dinosaurs good parents? To answer these questions, we will examine the nature of evidence gathered from dinosaur fossils and their surrounding rocks.

CALENDAR NOTES: This course may not be offered every year. Please consult spring timetable or Department on whether course will be offered.

COREQUISITES:

PREREQUISITES: EARTH 1080.03 or any two of EARTH 1010, EARTH 1020, EARTH 1030, EARTH 1040, EARTH 1041, EARTH 1050, EARTH 1060, EARTH 1090, EARTH 1091, or SCIE 1515, SCIE 1515 or SCIE 1530, or permission of instructor

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ERTH 2430 Forensic and Medical Geology

CREDIT HOURS: 3

Designed for non-earth sciences majors, this course explores the evolving fields within the realm of geosciences. Forensic and medical geology share a common thread in that both depend upon identifying potential geologic and geoenvironmental sources of evidence, and applying this information to solve a larger problem, either legal or health-related.

CALENDAR NOTES: This course is not offered every year. Please consult department in the spring for further information.

COREQUISITES:

PREREQUISITES: EARTH 1080 and one other Earth Sciences course or instructor's permission.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

ERTH 3001 Field School

CREDIT HOURS: 3

This field-intensive course provides two weeks of geological mapping in northern Nova Scotia and entails: (1) identifying, measuring and localizing rocks and geological structures; (2) drawing geological maps from field observations and (3) writing a report describing and interpreting the data.

CALENDAR NOTES: The class is held for two weeks at the end of summer just prior to the start of the fall term and is required for the BSc Major and Honours programs. It can be a physically demanding course involving day-long traverses - prior consultation with instructors is required

COREQUISITES:

PREREQUISITES: EARTH 2002.03, EARTH 2110.03, EARTH 2203.03 and permission of the instructor.

CROSSLISTED:
RESTRICTIONS:
EXCLUSIONS:
FORMATS:
LAB HOURS PER WEEK:

ERTH 3010 Igneous Petrology

CREDIT HOURS: 3

Igneous petrology is the study of the field relations, mineralogy, texture, and geochemistry of volcanic and plutonic rocks. Lectures discuss the classification and graphical representation of igneous rocks; the production, differentiation, and emplacement of magma in different tectonic environments. Practical work consists of laboratory petrographic examination and weekend field trips.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ERTH 2002.03 and ERTH 2380.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

ERTH 3020 Metamorphic Petrology

CREDIT HOURS: 3

Metamorphic petrology is the study of the way in which pre-existing igneous, sedimentary, and metamorphic rocks respond to changes in pressure, temperature, and geochemical environment. Metamorphic reactions, deformation and recrystallization, the stability relations of minerals and mineral assemblages under various physical and chemical conditions, and the concept of metamorphic facies are discussed. The relationship of metamorphism to other geological processes is considered. In the labs, microscopic mineralogy and texture are used to decipher the metamorphic history of rocks.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ERTH 3010.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

ERTH 3140 Structural Geology

CREDIT HOURS: 3

Introduction to the behaviour of rocks during deformation, stressing the geometrical aspects of rock structures. Students learn: (a) geometrical principles to identify, describe, and interpret common types of structures in outcrop and hand sample; (b) to interpret the mechanical properties of rocks based on their microstructure; (c) construction techniques to calculate and interpret stress and strain in deformed rocks.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ERTH 2002.03, ERTH 2110.03, ERTH 2203.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

ERTH 3205 Paleobiology

CREDIT HOURS: 3

This course examines fossil plants and animals and their interactions with the physical world throughout Earth's history. Lectures and lab encompass the concepts of fossil preservation, fossil morphology, fossil identification, systematics, evolution, extinction, paleoecology and biostratigraphy.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: EARTH 2203.03 or permission of the instructor.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: EARTH 2205.03

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

ERTH 3302 Quaternary Sedimentary Environments

CREDIT HOURS: 3

The student is exposed to fluvial, alluvial, subglacial, glaciolacustrine, hillslope, eolian, coastal, shallow marine, rift, wedge top, retroarc, and foreland basin environments. Field trips and labs provide experience in methods used to distinguish the environments, including sedimentology, geomorphology, geochronology and thermochronology, and analysis of soils, cores, pebble fabrics, and section-scale non-petroleum sedimentary facies. Quaternary paleoclimatology and tectonic controls on weathering and deposition are discussed and debated.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: EARTH 2203.03

CROSSLISTED: GEOG 3302

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

ERTH 3303 Stratigraphy

CREDIT HOURS: 3

Stratigraphy is the backbone of the geological sciences; it brings together sedimentology, paleontology, petrology and structural geology to reconstruct Earth history. We survey the impact of sea-level change, tectonics and climate on sediment accumulation, with emphasis on seismic and sequence stratigraphy. Case studies focus on sedimentary basins across Canada, and practical work includes laboratory and class exercises, as well as field excursions.

LAB HOURS PER WEEK:

ERTH 3440 Geomorphology

CREDIT HOURS: 3

Geomorphology is the quantitative study of Earth's surface processes and landforms with applications in geology, civil engineering, hydrogeology, and environmental management. We investigate slope stability, weathering and soils, sediment production, wind-driven and coastal environments, tectonic landforms, and river, glacial and permafrost processes.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: EARTH 1080 (or SCIE 1506/1507 or SCIE 1505) and (EARTH 1090 or EARTH 1091); OR completion of (or concurrent enrolment in) a 1000-level mathematics class, a 1000-level physics class, a 1000-level chemistry class AND permission of instructor

CROSSLISTED: GEOG 3440.03

RESTRICTIONS:**EXCLUSIONS:**

FORMATS: Lecture

LAB HOURS PER WEEK:

ERTH 3500 Geoscience Information Management

CREDIT HOURS: 3

Geographic Information Systems (GIS), as a tool for the management of georeferenced data, have become indispensable for disciplines where location of objects and pattern of processes is important. GIS plays a fundamental role for a wide range of applications, from modeling, to analysis and predictions, to decision making. The course is designed for a broad base of potential users and draws on examples of the role of GIS in global climate change, mineral exploration, preservation of biodiversity, coastal zone management, resource depletion, and many other present and future environmental issues. The course material will be of interest to those studying geoscience, environmental science, ecology, marine biology, oceanography, epidemiology, urban and rural planning, civil engineering, and any other field involving spatial data. Laboratory exercises emphasize the principles of raster and vector GIS, and the integration of databases and GPS (global positioning systems) data into GIS. Exercises draw on the diversity of GIS applications in a number of topical areas.

CALENDAR NOTES:**COREQUISITES:**

PREREQUISITES: Two years of university study or equivalent or instructor's permission

CROSSLISTED: EARTH 5600, GEOG 3500, ENVS 3500

RESTRICTIONS:

EXCLUSIONS: Credit will only be given for one of EARTH 3500.03, EARTH 5600.03, GEOG 3500.03, SCIE 3600.03 or ENVS 3500

LAB HOURS PER WEEK:

ERTH 3601 Global Biogeochemical Cycles

CREDIT HOURS: 3

We currently face daunting environmental challenges at the global scale that are expected to worsen in the 21st century, including a global water crisis, climate change and pollution of our waters and atmosphere; this course examines the science behind these environmental issues from the multidisciplinary framework of global biogeochemical cycling. With the global scale as the focus, this course pulls together the many disparate fields that are encompassed by the broad reach of biogeochemistry. You will learn about the processes that drive the movement of carbon, water, nitrogen, phosphorus, and sulphur, through the earth system, and the residency of these elements in the atmosphere, soils, lithosphere, oceans and freshwaters. In the quantitative and analytical exercises you calculate and compare the effects of industrial emissions, land clearing, agriculture, and rising population on the processes driving the Earth's chemical cycles. Weekly journal readings for discussion in laboratory group cover the latest developments in this exciting and rapidly changing field. This course provides an excellent framework for those interested in the science of global change.

CALENDAR NOTES:**COREQUISITES:**

PREREQUISITES: CHEM 1011/ CHEM 1012 or equivalent, and one of ENVS 1000, SUST 1001, EARTH 1080, or one of SCIE 1502XY/SCIE 1504/ SCIE 1510XY, and completion of 2 years of an undergraduate degree.

CROSSLISTED: ENVS 3601.03

RESTRICTIONS:**EXCLUSIONS:**

FORMATS:

LAB HOURS PER WEEK:

ERTH 3701 Fundamentals of Hydrology

CREDIT HOURS: 3

This course is an introduction to hydrology, emphasizing surface processes and watershed responses. In this course we learn about both the pure and applied uses of hydrology. The course is quantitative and introduces hydrologic processes in the atmosphere, on the land surface, in groundwater and in stream channels.

CALENDAR NOTES:**COREQUISITES:**

PREREQUISITES: MATH 1000.03 or MATH 1215.03, AND one of ENVS 1100/1200 (or ENVS 1000), SUST 1001.06, EARTH 1080.03, SCIE 1506/1507 (or 1505), AND completion of 2 years of an undergraduate degree. PHYC 1190 and PHYC 1290.03 (or PHYC 1310/1320) are

recommended.

ERTH 4153 Petroleum Geology

CREDIT HOURS: 3

The course provides an introduction to petroleum geology (gas and oil) with some discussion of alternative energy sources. The course provides an introduction to petroleum geology and petroleum systems with discussion of basin analysis, source rock evaluation, seismic and well log sequence stratigraphy, core and outcrop description, depositional facies analysis, oil sands geology, biostratigraphy, drilling and completions, petrophysics and well log analysis in addition to other topics.

CALENDAR NOTES:

LAB HOURS PER WEEK:

ERTH 4201 Honours Thesis

CREDIT HOURS: 3

This course covers many aspects of written and oral communication of scientific material. In particular, it covers the scientific method, the elements of scientific style, the logical organization and development of ideas and scientific writing. Individual research presentations form a key component.

CALENDAR NOTES: This is a compulsory course for students writing an Honours thesis in Earth Sciences, but is open to students from other disciplines. Field work may be part of thesis research. Credit can only be given for this course if ERTH 4201.03 and 4202.03 are completed in consecutive terms. No grade is assigned for ERTH 4201 until ERTH 4202 has also been completed.

LAB HOURS PER WEEK:

ERTH 4350 Tectonics

CREDIT HOURS: 3

This is a required course for Earth Sciences honours students. It is intended to synthesize the various aspects of geology covered in the third year core program. The focus of the course is on tectonic processes and the ways in which these processes create and modify the Earth's crust. We cover the fundamental geological, geophysical, and geochemical controls that operate today, including plate tectonics, and the ways in which these might have differed in the geological past. The tectonic evolution of specific orogenic belts is discussed, including both modern and ancient examples in Canada and other parts of the world.

CALENDAR NOTES:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ERTH 4410 Environmental Geoscience

CREDIT HOURS: 3

Environmental geoscience integrates various aspects of earth sciences to critically examine the interaction between humans and the geologic environment. Topics include: environmentally sensitive elements and minerals, geologic hazards, water, soil, mineral and energy issues, use of isotopes as tracers, as well as waste management, radioactivity, and the urban environment.

CALENDAR NOTES: This course is not offered every year. Please consult department in the spring for further information.

COREQUISITES: ERTH 2380.03

PREREQUISITES: ERTH 2380.03, ERTH 3303.03 and two additional ERTH courses at the 3000 level or above, or permission of instructor

CROSSLISTED:

RESTRICTIONS: Restricted to students in third year or above.

EXCLUSIONS:

FORMATS: Lecture | Tutorial
LAB HOURS PER WEEK:

ERTH 4470 Introduction to Seismic Imaging

CREDIT HOURS: 3

This course teaches the basic techniques of the reflection seismic method for imaging of earth structures such as those used in hydrocarbon exploration. Lectures introduce concepts and techniques that are applied in computer lab to the processing of a multi-channel seismic dataset. Concepts covered include: source and receiver geometry, digital filtering, deconvolution, velocity analysis, stacking, and migration.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ERTH 2270.03 or consent of instructor

CROSSLISTED: ERTH 5470.03, OCEA 4470.03, PHYC 4470.03, PHYC 5470.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

ERTH 4480 Advanced Seismic Imaging

CREDIT HOURS: 3

This course teaches more advanced techniques of seismic imaging of earth structures. Lectures introduce techniques that will be applied in the computer lab to the processing of multi-channel reflection and wide-angle refraction seismic datasets. Concepts covered include: multiple removal, pre-stack migration in time and depth, amplitude analysis, velocity modeling and inversion.

CALENDAR NOTES: This course is not offered every year. Please consult department in the spring for further information.

COREQUISITES:

PREREQUISITES: ERTH 4470.03 or consent of instructor

ERTH 4520 GIS Applications to Environmental and Geological Sciences

CREDIT HOURS: 3

Geographic information systems (GIS) provide a rich set of new tools to the geologist and environmental scientist, not only to solve conventional problems, but also to explore transdisciplinary questions not readily answered by other means. This course builds on the fundamentals of GIS taught in EARTH 3500.03 to explore analytical tools that aid in decision-making processes encountered in mineral exploration, hydrogeology, site selection, environmental assessment, and global change analysis. The course concentrates on case studies and problem solving, including those requiring multi-criteria and multi-objective decision making processes.

CALENDAR NOTES: This course is not offered every year. Please consult department in the spring for further information.

COREQUISITES:

PREREQUISITES: GEOG 3500.03, ENVS 3500, EARTH 3500.03; EARTH 5600, or SCIE 3600.03; STAT 1060.03

CROSSLISTED: GEOG 4520.03, EARTH 5520.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

ERTH 4530 Environmental Remote Sensing

CREDIT HOURS: 3

The goal of this course is to introduce students to the role of remote sensing as a technique provide environmental and geologic information. Particular emphasis will be placed on examining the potential and limitations of remote sensing methods and data in this context. The lectures discuss the fundamentals of remote sensing with an emphasis on optical multispectral satellite systems. In the lab, students use computerized techniques of digital image enhancement and thematic information extraction to process images derived from a range of remote-sensing systems. The integration of remote-sensing information with GIS (Geographic Information Systems) is stressed in both the labs and lectures.

CALENDAR NOTES: This course is not offered every year. Please consult department in the spring for further information.

COREQUISITES:

PREREQUISITES: EARTH 3500.03, GEOG 3500.03, ENVS 3500.03 or EARTH 5600.03 or SCIE 3600.03

CROSSLISTED: GEOG 4530.03, EARTH 5530.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

ERTH 4850 Geographic Information Science Research Project

CREDIT HOURS: 3

Students learn how to design, manage and complete a research project in Geographic Information Science (GIS). Projects must include a substantive analytical component where GIS is central to methods employed. Evaluation includes a written report, oral presentation and digital data. Required for completion of the Certificate in GIS.

CALENDAR NOTES:

COREQUISITES: EARTH 5420.03/GEOG 4520.03/ERTH4520.03

PREREQUISITES: ENVS 3500.03/ERTH 3500.03/GEOG 3500.03 and permission of instructor

CROSSLISTED: SCIE 4850.03, ENVS 4850.03, EARTH 4850.03, GEOG 4850.03

RESTRICTIONS:

EXCLUSIONS: Restricted to 3rd and 4th year students

Introduction

Economics is a social science - a science because it involves a rigorous intellectual effort to derive logical conclusions from basic facts and propositions; a social science because it has human beings and their welfare as its ultimate concern. The basic facts of Economics cannot be knowable and measurable with the same precision as those of the physical sciences - human society and its motivations are far too complex to permit this - but none of the sciences surpasses economics in its relevance to our needs, problems and goals.

Economics analyzes the equity, efficiency, and sustainability of human behavior in the production, distribution, and consumption of commodities. Economics is not an easy science; indeed, it is one of the most complex, difficult (and fascinating) areas of study when you pursue it beyond its elementary levels, but some basic knowledge of economics is essential for any educated person. A more extensive knowledge of the subject is an invaluable complement to other fields of specialization such as law, commerce, politics and other studies in social sciences or humanities, and a specialization in the field can lead to a variety of interesting career opportunities.

Degree Programs

The Department of Economics offers the following degree programs in Economics

- BSc or BA (120 credit hour) Honours (Concentrated)*
- BSc or BA (120 credit hour) Combined Honours*
- BSc or BA (120 credit hour) Major*
- BSc or BA (120 credit hour) Double Major*
- BSc or BA (90 credit hour) Minor in Economics
- Minor in Economics

* May be combined with Minor programs from other disciplines

Departmental Requirements for each degree program can be seen by following the links in the menu to the right.

In addition to departmental requirements, students must satisfy the requirements outlined in the [Academic Regulations](#) and the [College of Arts and Science Degree Requirements](#) sections. Students are advised that a number of requirements differ for the BA and BSc degrees.

A student is governed by the academic regulations in place at the time of initial enrolment, as long as the degree is completed within the time permitted (10 years). Subsequent changes in regulations shall apply only if the student so elects. Student applying the old academic regulations should consult the calendar of the appropriate year.

Students should plan their programs of study carefully and are strongly encouraged to do so in consultation with an Economics undergraduate academic advisor.

Staff

Dean

Moore, C., BA (Hons), PhD (Cambridge), Professor (Psychology)

Chairperson of Department

Iscan, T., BA (Middle East Tech), MA, PhD (Cornell)

Faculty Advisors

Ntantamis, C., Co-op Academic Advisor and Undergraduate Coordinator, econadvisor@dal.ca

Rosenblum, D., Graduate Coordinator (MDE), BA (Williams College), MA, MPhil, PhD (Yale), econgrad@dal.ca

Warman, C., Graduate Coordinator (MA/PhD), BA (Combined Hons), MA, PhD (Carleton), econgrad@dal.ca

Professors Emeriti

Lesser, B. BComm (Dalhousie), MA, PhD (Cornell)

Sinclair, A., BA (Dalhousie), MA, BPhil (Oxon), PhD (Harvard)

Professors

Akbulut-Yuksel, M., BS (Middle East Tech), MA, PhD (Houston)

Burton, P., BSc (Saskatchewan), MA, PhD (UBC)

Iscan, T., BA (Middle East Tech), MA, PhD (Cornell)

Osberg, L., BA (Hons) (Queen's), MPhil, PhD (Yale), McCulloch Professor of Economics

Phipps, S. A., BA (Hons) (Victoria), MA, PhD (UBC), Maxwell Chair of Economics

Tumennasan, N., BA (Univ of Mongolia), MA (Colorado-Denver), AM, PhD (Brown)

Xu, K., Dip. (Beijing Teachers' Univ), MBA, PhD (Concordia)

Associate Professors

Cyrus, T., BA (UCLA), PhD (Berkeley)

Giusto, A., Laurea in Economics (Bologna), PhD (Oregon)

Kotlyarova, Y., Dip. Software Eng (Lviv Poly Inst), MSc (Univ of Illinois - Urbana), PhD (McGill)

Okoye, D., BA Hons, PhD (UWO)

Rosenblum, D., BA (Williams College), MA, MPhil, PhD (Yale)

Warman, C., BA (Combined Hons), MA, PhD (Carleton)

Yuksel, M., BSc (METU), MA, PhD (Houston)

Zhou, W., BE, MA (Tokyo Inst of Technology), PhD (UBC)

Adjunct Professors

Amirkhalkhali, S. I., BA Hons (Shiraz), MA, PhD (Dalhousie), St. Mary's

Cross, M. L., AA (Dawson College), BA (Montana), MA (SFU), PhD (Texas A&M)

Dasgupta, S., BA (Calcutta), MA (Delhi), MA, PhD (Rochester)

Kivinen, S., BA Hons (Lakehead), MA (SFU), PhD (Queen's)

McAllister, R. I., MA (Oxon), MA (Cantab), LLD (Dalhousie)

Rankaduwa, W., BA, MSc (Sri Lanka), MA, PhD (Dalhousie), UPEI

Senior Instructors

Boulatoff, C., MS (Université Catholique de l'Ouest), PhD (Utah State)

Forsdyke, R., BSc (Hons) Biochemistry, BEd, MA (Queen's), PhD (Simon Fraser)

Instructors

Ntantamis, C., Dip. Naval Architecture & Marine Eng. (Athens), MSc (Piraeus), PhD (McGill)

Shamsuddin, M., BA (Lafayette), PhD (Georgetown)

Cross-Appointed Faculty

Clark, S., BA (Guelph), MSc (Saskatchewan), PhD (North Carolina), Faculty of Agriculture

Yiridoe, E. I., BSc (Univ Science and Tech Ghana), MSc, PhD (Guelph), Faculty of Agriculture

Zhao, Y., MSc (Western Kentucky), PhD (British Columbia), Professor of Finance, Faculty of Management

BSc or BA (120 credit hour) Concentrated Honours in Economics

Students who want a challenging program that results in a broad background in Economics and includes an independent research experience, may want to enroll in an Honours program. Students interested in eventually pursuing graduate studies are particularly encouraged to consider Honours. Honours students complete a minimum of 54 credit hours above the 1000 level in Economics with a minimum GPA of 3.3 and write a research-based Honours thesis. The Honours Qualifying Examination requirement is satisfied through completion of ECON 4201.03 / ECON 4202 : Honours Thesis I and II.

Students interested in eventually pursuing a Masters in Economics are advised to choose the BSc Honours option in order to acquire the needed analytical skills. In contrast, the the BA Honours program provides a broad background in Economics which is excellent preparation for a wide variety of other post-graduate programs.

Admission to Concentrated Honours

Students must apply for admission to Honours programs. Students considering Honours in Economics should consult with an Economics Undergraduate Advisor early in their studies.

To be admitted to the **BSc Concentrated Honours program**, students must

- Have at least a B+ average (GPA of 3.3 or above) in Economics courses at the 2000 level and above, with no grade lower than a C
- Have completed ECON 2200.03: Intermediate Microeconomics, ECON 2201.03: Intermediate Macroeconomics, ECON 3338.03: Econometrics I, and ECON 3700.03: Mathematics for Economists
- It is highly recommended that BSc students complete ECON3339.03: Econometrics II prior to applying to Honours
- Have completed the Dalhousie writing requirement with a grade of B or higher
- Submit the Economics Department honours application by the end of their third year of studies

To be admitted to the **BA Concentrated Honours program**, students must

- Have at least a B+ average (GPA of 3.3 or above) in Economics courses at the 2000 level and above, with no grade lower than a C
- Have completed ECON 2200.03: Intermediate Microeconomics, ECON 2201.03: Intermediate Macroeconomics, ECON 3338.03: Econometrics I
- Have completed at least 12 credit hours of additional advanced Economics courses including 3000-level courses.
- Have completed the Dalhousie writing requirement with a grade of B or higher
- Submit the Economics Department honours application by the end of their third year of studies

Departmental requirements

All students must fulfill the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections. Students are advised that a number of requirements differ for the BA and BSc degrees. In addition, students in a Concentrated Honours program in Economics must complete the following courses:

BSc Concentrated Honours Requirements:

1000 level

- ECON 1101.03: Principles of Microeconomics/ECON 1102.03: Principles of Macroeconomics
- MATH 1000.03: Differential and Integral Calculus I/MATH 1010.03: Differential and Integral Calculus II

- MATH 1030.03: Matrix Theory and Linear Algebra I
- MATH 1060.03/STAT 1060.03: Introductory Statistics for Science and Health Sciences or STAT 2060.03/MATH 2060.03: Introduction to Probability and Statistics

2000 level and higher

- ECON 2200.03: Intermediate Microeconomics/ECON 2201.03: Intermediate Macroeconomics
- STAT 2060.03/MATH 2060.03: Introduction to Probability and Statistics
- ECON 3338.03: Econometrics I/ECON 3339.03: Econometrics II
- ECON 3700.03: Mathematics for Economists
- One of ECON 2233.03: Canadian Economic History, ECON 2239.03: The European Economy Since 1900, ECON 3310.03: Economic Growth in Historical Perspective, or ECON 3349.03: History of Economic Thought
- ECON 4420.03: Microeconomic Theory/ECON 4421.03: Macroeconomic Theory
- ECON 4201.03: Honours Thesis I/ ECON 4202.03: Honours Thesis II
- An additional 24 credit hours in Economics at or above the 2000 level

BA Concentrated Honours Requirements:

1000 level

- ECON 1101.03: Principles of Microeconomics/ECON 1102.03: Principles of Macroeconomics
- MATH 1000.03: Differential and Integral Calculus I
- MATH 1060.03/STAT 1060.03: Introductory Statistics for Science and Health Sciences or STAT 2060.03/MATH 2060.03: Introduction to Probability and Statistics

2000 level and higher

- ECON 2200.03: Intermediate Microeconomics/ECON 2201.03: Intermediate Macroeconomics
- STAT 2060.03/ MATH 2060.03: Introduction to Probability and Statistics
- ECON 3338.03: Econometrics I
- One of ECON 2233.03: Canadian Economic History, ECON 2239.03: The European Economy Since 1900, ECON 3310.03: Economic Growth in Historical Perspective, or ECON 3349.03: History of Economic Thought
- ECON 4201.03: Honours Thesis I/ ECON 4202.03: Honours Thesis II
- An additional 36 advanced credit hours in Economics of which 12 credit hours must be at the 3000-level or higher

BSc or BA (120 credit hour) Combined Honours in Economics and another subject

Students who wish to study Economics in conjunction with another subject may wish to pursue a Combined Honours degree program. The other subject may be any discipline from the Faculty of Science, the Faculty of Arts and Social Sciences, the Faculty of Computer Science, or the College of Sustainability. Economics may be the primary subject (defined as the subject with the larger number of honours credits), or the secondary subject.

Students planning to enroll in a Combined Honours program should consult with academic advisors from both programs early in their studies. In addition, students must have their program of study approved by Academic Advisors in both subject areas. Students must complete an Honours Qualifying Examination in one of the two subject areas, a requirement normally completed in the primary subject area. For Economics, this requirement is satisfied through ECON 4201.03/ECON 4202.03: Honours Thesis.

Combined Honours students interested in eventually pursuing a Masters in Economics, are advised to choose the BSc option (with Economics as the primary subject) in order to acquire the needed analytical skills. To contrast, the BA Combined Honours program or BSc or BA (with Economics as a secondary subject) provides a broad background in Economics and another subject which is excellent preparation for a wide variety of other post-graduate programs.

Admission to Combined Honours

Students must apply for admission to Combined Honours programs. Students considering Combined Honours in Economics should consult with an Economics Undergraduate Advisor early in their studies.

To be admitted to the **BSc Combined Honours program (Economics as primary subject)**, students must

- Have at least a B+ average (GPA of 3.3 or above) in Economics courses at the 2000 level and above, with no grade lower than a C
- Have completed ECON 2200.03: Intermediate Microeconomics, ECON 2201.03: Intermediate Macroeconomics, ECON 3338.03: Econometrics I, and ECON 3700.03: Mathematics for Economists
- It is highly recommended that BSc students complete ECON3339.03: Econometrics II prior to applying to Combined Honours
- Have completed the Dalhousie writing requirement with a grade of B or higher
- Submit the Economics Department honours application by the end of their third year of studies

To be admitted to the **BA Combined Honours program (Economics as primary subject) or BA/BSc Combined Honours program (Economics as secondary subject)** students must

- Have at least a B+ average (GPA of 3.3 or above) in Economics courses at the 2000 level and above, with no grade lower than a C
- Have completed ECON 2200.03: Intermediate Microeconomics, ECON 2201.03: Intermediate Macroeconomics, ECON 3338.03: Econometrics I
- Have completed the Dalhousie writing requirement with a grade of B or higher
- Submit the Economics Department honours application by the end of their third year of studies

Departmental requirements

All students must fulfill the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections. Students are advised that a number of requirements differ for the BA and BSc degrees. In addition, students in a Combined Honours program in Economics and another subject must complete the following:

BSc Combined Honours Requirements:

Economics as primary subject

1000 level

- ECON 1101.03: Principles of Microeconomics/ECON 1102.03: Principles of Macroeconomics
- MATH 1000.03: Differential and Integral Calculus I/MATH 1010.03: Differential and Integral Calculus II
- MATH 1030.03: Matrix Theory and Linear Algebra I
- MATH 1060.03/STAT 1060.03: Introductory Statistics for Science and Health Sciences or STAT 2060.03/MATH 2060.03: Introduction to Probability and Statistics

2000 level and higher

- ECON 2200.03: Intermediate Microeconomics/ECON 2201.03: Intermediate Macroeconomics
- STAT 2060.03/MATH2060.03: Introduction to Probability and Statistics

- ECON 3338.03: Econometrics I/ECON 3339.03: Econometrics II
- ECON 3700.03: Mathematics for Economists
- One of ECON 2233.03: Canadian Economic History, ECON 2239.03: The European Economy Since 1900, ECON 3310.03: Economic Growth in Historical Perspective, or ECON 3349.03: History of Economic Thought
- ECON 4420.03: Microeconomic Theory/ECON 4421.03: Macroeconomic Theory
- ECON 4201.03: Honours Thesis I/ ECON 4202.03: Honours Thesis II
- An additional 3 credit hours in Economics at or above the 2000 level

Economics as secondary subject

1000 level

- ECON 1101.03: Principles of Microeconomics/ECON 1102.03: Principles of Macroeconomics
- MATH 1000.03: Differential and Integral Calculus I
- MATH 1060.03/STAT 1060.03: Introductory Statistics for Science and Health Sciences or STAT 2060.03/MATH 2060.03: Introduction to Probability and Statistics

2000 level and higher

- ECON 2200.03: Intermediate Microeconomics/ECON 2201.03: Intermediate Macroeconomics
- STAT 2060.03/MATH2060.03: Introduction to Probability and Statistics
- ECON 3338.03: Econometrics I
- One of ECON 2233.03: Canadian Economic History, ECON 2239.03: The European Economy Since 1900, ECON 3310.03: Economic Growth in Historical Perspective, or ECON 3349.03: History of Economic Thought
- An additional 18 credit hours in Economics at or above the 2000-level, 12 of which must be at or above the 3000-level if (ECON3310.03 or ECON3349.03) is chosen or 15 of which must be at or above the 3000-level if (ECON2233.03 or ECON2239.03) is chosen.

BA Combined Honours Requirements:

Economics as primary subject

1000 level

- ECON 1101.03: Principles of Microeconomics/ECON 1102.03: Principles of Macroeconomics
- MATH 1000.03: Differential and Integral Calculus I
- MATH 1060.03/STAT 1060.03: Introductory Statistics for Science and Health Sciences or STAT 2060.03/MATH 2060.03: Introduction to Probability and Statistics

2000 level and higher

- ECON 2200.03: Intermediate Microeconomics/ECON 2201.03: Intermediate Macroeconomics
- STAT 2060.03/MATH 2060.03: Introduction to Probability and Statistics
- ECON 3338.03: Econometrics I
- One of ECON 2233.03: Canadian Economic History, ECON 2239.03: The European Economy Since 1900, ECON 3310.03: Economic Growth in Historical Perspective, or ECON 3349.03: History of Economic Thought
- ECON 4201.03: Honours Thesis I/ ECON 4202.03: Honours Thesis II
- An additional 15 advanced credit hours in Economics of which 12 credit hours must be at the 3000-level or higher

Economics as secondary subject

- Same requirements as for BSc. Combined Honours with Economics as a secondary subject

BSc or BA (120 credit hour) Major in Economics

The 120 credit hour Major is suited to students who want to focus on Economics, but wish to have a program that is somewhat less constrained than the Honours program. BSc Economics Majors complete a minimum of 42 credit hours in Economics courses above the 1000 level; BA Economics majors complete a minimum of 36 credit hours in Economics courses above the 1000 level. Research and other experiential learning opportunities are available through special topics and experiential classes.

Departmental requirements

All students must fulfill the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections. Students are advised that a number of requirements differ for the BA and BSc degrees.

BSc Major requirements:

1000 level

- ECON 1101.03: Principles of Microeconomics/ECON 1102.03: Principles of Macroeconomics
- MATH 1000.03: Differential and Integral Calculus I/MATH 1010.03: Differential and Integral Calculus II
- MATH 1030.03: Matrix Theory and Linear Algebra I
- MATH 1060.003/STAT 1060.03: Introductory Statistics for Science and Health Sciences or STAT 2060.03/MATH 2060.03: Introduction to Probability and Statistics

2000 level

- ECON 2200.03: Intermediate Microeconomics/ECON 2201.03: Intermediate Macroeconomics
- STAT 2060.03/MATH2060.03: Introduction to Probability and Statistics
- An additional 9 credit hours in Economics at or above the 2000 level

3000 level and higher

- ECON 3338.03: Econometrics I
- An additional 21 credit hours in Economics at or above the 3000 level

BA Major requirements:

1000 level

- ECON 1101.03: Principles of Microeconomics/ECON 1102.03: Principles of Macroeconomics
- MATH 1000.03: Differential and Integral Calculus I
- MATH 1060.03/STAT 1060.03: Introductory Statistics for Science and Health Sciences

2000 level

- ECON 2200.03: Intermediate Microeconomics/ECON 2201.03: Intermediate Macroeconomics
- An additional 12 credit hours in Economics at or above the 2000 level

3000 level and higher

- An additional 18 credit hours in Economics at or above the 3000 level

BSc or BA (120 credit hour) Double Major in Economics and another subject

The Double Major degree program allows students to combine a study of Economics with another subject. The other subject may be any discipline from the Faculty of Science, the Faculty of Arts and Social Sciences, the Faculty of Computer Science or the College of Sustainability. Economics may be the primary subject (defined as the subject with the larger number of credits), or the secondary subject. If the primary subject area is from the Faculty of Arts and Social Sciences, the degree granted will be a BA.

It is recommended that students enrolled in a Double Major program consult with advisors in both subject areas.

Departmental requirements

All students must fulfill the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections. Students are advised that a number of requirements differ for the BA and BSc degrees.

BSc requirements (Economics as primary or secondary subject)

1000 level

- ECON 1101.03: Principles of Microeconomics/ECON 1102.03: Principles of Macroeconomics
- MATH 1000.03: Differential and Integral Calculus I/MATH 1010.03: Differential and Integral Calculus II
- MATH 1030.03: Matrix Theory and Linear Algebra I
- MATH 1060.03/STAT 1060.03: Introductory Statistics for Science and Health Sciences or STAT 2060.03/MATH 2060.03: Introduction to Probability and Statistics

2000 level

- ECON 2200.03: Intermediate Microeconomics/ECON 2201.03: Intermediate Macroeconomics

- MATH 1000.03: Differential and Integral Calculus I
- MATH 1060.03/STAT 1060.03: Introductory Statistics for Science and Health Sciences

2000 level

- ECON 2200.03: Intermediate Microeconomics/ECON 2201.03: Intermediate Macroeconomics

- An additional 6 credit hours in Economics at or above the 2000 level

3000 level and higher

- An additional 18 additional credit hours in Economics at or above the 3000 level

BSc or BA (90 credit hour) Minor in Economics

The 90 credit hour degree with Minor in Economics is appropriate for students who want to study some Economics but do not wish to complete the conventional four-year program. The degree is best suited for students who want a general arts or science degree with some specialization in Economics. A 90 credit hour degree program is not suitable for students who wish to pursue graduate studies. With additional study, the degree may be upgraded to a 120 credit hour Major or Honours degree at a later date.

A 90 credit hour BSc or BA in Economics is usually the preferred option for students who wish to combine studies in Economics with a degree in Engineering (see [BSc/BEng or BA/BEng Concurrent Program](#)).

See the [Minor in Economics](#) section of this Calendar.

Minor in Economics

This minor is available to students registered in a 120 credit hour Bachelor of Applied Computer Science, Bachelor of Arts, Bachelor of Commerce, Bachelor of Community Design, Bachelor of Computer Science, Bachelor of Informatics, Bachelor of Management, Bachelor of Music, Bachelor of Science or Bachelor of Science (Medical Sciences) program.

A BSc or BA (90 credit hour) degree program with a Minor in Economics is available to students in the Faculty of Science and in the Faculty of Arts and Social Sciences.

Requirements

- ECON 1101.03: Principles of Microeconomics/ECON 1102.03: Principles of Macroeconomics
- Must complete between 18 and 36 credit hours in Economics courses at the 2000 level or higher

Contact [Economics](#) for more information.

Co-op, Minors, Certificates and Engineering Concurrent Programs for Students

Co-operative Education Program in Economics

Co-op Academic Advisor: Dr. Christos Ntantamis (econadvisor@dal.ca)

Co-operative Education in Science is a program where academic study in a science subject is combined with paid career-related work experience. Students undertake three work-terms interspersed with their academic study terms. Science Co-op degree programs enable students to apply their knowledge directly while providing them with work experience that assists in making educated career choices.

Science Co-op is available to students in **BSc (120 credit hour) Honours or Major programs** in Economics, or in Combined Honours (with Economics as the primary subject) or Double Major programs. A minimum GPA of 3.00 is required for admission and for continuation in the Co-op program. Students must be eligible to work in Canada.

Students normally apply to join Co-op during their first year of study, but application during the second year of study is possible. Students must apply before April 15, and it is strongly recommended that interested students meet with their Department Co-op advisor early in the Winter term of their first year. If accepted into Science Co-op, students must register for, and attend the Science Co-op Seminar Series (SCIE 2800.00) at least four months prior to the first work term.

Details are available from the Co-operative Education office dal.ca/academics/cooperative_education.html. For more information on Co-op Education in Economics, please see the Department webpage dal.ca/faculty/science/economics/programs/co-operative-education.html.

Minors available to students in Economics

Minor programs allow students to develop subject specialties in addition to their major or honours subjects. Minors in other subjects are normally added to 120 credit hour BSc or BA programs (including Science Co-op).

Students in a BSc or BA (120 credit hour) program in Economics may choose to include a Minor selected from the [list of approved Minors](#). Courses counted toward a Major or Honours subject cannot be used to fulfill the requirements of a Minor program.

Certificates

In combination with a BSc or BA in Economics, students may obtain one or more Certificates. A Certificate indicates that a student has achieved a certain level of proficiency in a given area or subspecialty. Courses counted toward a Major, Honours or Minor subject may also be used to fulfill the requirements of a Certificate. Students must apply to the Certificate Coordinator to be considered for a Certificate. Certificates are awarded upon graduation and are noted on the student's academic transcript.

A complete list of [Faculty of Science Certificates](#) and requirements can be found at the beginning of the [Faculty of Science](#) section of this calendar. Students may also work toward obtaining Certificates offered by other Faculties; some of these are listed in the [College of Arts and Science Degree Requirements](#) section of the calendar.

Certificates of particular interest to students enrolled in a BSc or BA in Economics include:

[Certificate in Data Analytics](#)

[Certificate in Science Leadership and Communication](#)

BEng/BSc (90 credit hour) concurrent degree (Economics)

This degree prepares students for careers in engineering by providing students with a better understanding of: the costs and benefits of projects (including externalities and opportunity costs), the business side of projects and financing, and economic policy frameworks. Following is a recommended sequence of courses for students wishing to obtain a concurrent BEng and BSc (90 credit hour) degree with Minor in Economics. Interested students must consult with the Assistant Dean, Faculty of Science, and the Associate Dean, Faculty of Engineering prior to enrolling in a concurrent BEng/BSc degree.

It is recommended that students also discuss their selection of courses with an undergraduate advisor in the Department of Economics. A concurrent BEng/BSc Major in Economics (120 credit hours) can be designed for interested candidates.

	Fall	Winter

Graduate Studies

The Department offers a graduate program leading to the MA, MDE and PhD degrees. Details of these programs, including a list of graduate courses, are given in the Calendar of the Faculty of Graduate Studies. Senior undergraduates may be admitted to some graduate courses at the discretion of the instructors concerned.

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are typically available to students in the second, third, and fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not obtain credit for both courses as designated.

Not all courses are offered each year. Please consult the current [timetable](#) for this year's offering. For further information please contact the department, or visit the department's website.

Course Notes

Recent course outlines are available on the department's website (<http://economics.dal.ca>)

All Economics courses, unless stated otherwise, have a minimum grade requirement of C for their prerequisite courses.

Course Descriptions

ECON 1101 Principles of Microeconomics

CREDIT HOURS: 3

How do you decide whether or not to go to university? Why does the price of pizza change so much less than the price of oil? What will better help prevent climate change: a carbon tax, or a cap-and-trade system? Microeconomic analysis, which considers the behaviour of individuals and businesses, can answer questions like these.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 1102 Principles of Macroeconomics

CREDIT HOURS: 3

Why are some countries rich and others poor? If high oil prices cause the loonie to rise, how are Ontario manufacturers affected? Why were mortgage interest rates above 20% in 1981 but below 5% in 2013? Macroeconomic analysis, which considers the behaviour of the entire economy, can answer questions like these.

CALENDAR NOTES: ECON 1101.03 is not required before taking ECON 1102.03. ECON 1101.03 and ECON 1102.03 (together) satisfy the Principles of Economics requirement for Economics majors and for Bachelor of Commerce and Bachelor of Management students.

COREQUISITES:

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 2064 Economic History of the Early Modern West 1500 - 1800

CREDIT HOURS: 3

The course provides an overview of Europe's growing economic power - agriculture, manufacturing, commerce, consumption and fiscal policy - in the centuries between the first overseas exploration and the onset of the Industrial Revolution. Along with the lectures, students are introduced to a variety of period sources, transcribed and translated.

CALENDAR NOTES: This class cannot be used to meet the life or physical science subject requirement for the BA degree.

COREQUISITES:

PREREQUISITES:

CROSSLISTED: HIST2064.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Seminar

LAB HOURS PER WEEK:

ECON 2200 Intermediate Microeconomics

CREDIT HOURS: 3

This course covers consumer behaviour, the theory of the firm, factor markets, and general equilibrium welfare analysis. The course serves as the microeconomic prerequisite for higher-level courses in economics.

CALENDAR NOTES: All Economics courses, unless stated otherwise, have a minimum grade requirement of C for their prerequisite courses.

COREQUISITES:

PREREQUISITES: ECON 1101.03 with a minimum grade of C.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: ECON 2220.03, ECON 2210.03

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 2201 Intermediate Macroeconomics

CREDIT HOURS: 3

An extension of macroeconomic theory of income, unemployment, the exchange rate, inflation and financial markets that satisfies the minimum macroeconomic theory requirement for majors in economics. Serves as the macroeconomic prerequisite for higher-level courses in economics.

CALENDAR NOTES: All Economics courses, unless stated otherwise, have a minimum grade requirement of C for their prerequisite courses.

COREQUISITES:

PREREQUISITES: ECON 1102.03 with a minimum grade of C.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 2210 Managerial Microeconomics

CREDIT HOURS: 3

An extension of microeconomic theory and its applications that satisfies the minimum microeconomic theory requirements for Majors in economics. Especially of interest to Commerce students or others not majoring in economics, it pays particular attention to applications of theory in a practical context. Serves as the microeconomic prerequisite for higher-level classes in economics.

CALENDAR NOTES: Credit cannot be received for BOTH ECON 2200.03 and ECON 2210.03.

COREQUISITES:

PREREQUISITES: ECON 1101.03 or ECOA 1000.03 with minimum grade of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: ECON 2200.03, ECON 2220.03

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 2211 Economics of Innovation

CREDIT HOURS: 3

Innovation involves the creation and diffusion of new products, processes and methods that drive productivity increases and sustainable growth. This course uses microeconomics to examine the public sector's role in promoting innovation and firms' receptor capacity to recognize and address productivity gaps with investments in innovative products, processes and methods.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 1101 or ECON 1102 with minimum grade of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 2212 Law and Economics

CREDIT HOURS: 3

Law and Economics is the study of optimal legal frameworks. This course uses microeconomic theory to study the efficiencies of property, contract, tort, criminal, and antitrust law. A critical analysis of the role of the Competition Bureau in Canadian markets is presented, along with the tools used to evaluate transactions.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 1101 with minimum grade of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 2213 Emerging Giants: The Economic Rise of China and India

CREDIT HOURS: 3

This course examines the economic history, current issues, and future trends of China and India, answering such questions as: What explains China's and India's growth? How is climate change affected by this growth? How are global labour markets affected? Must growth lead to rising inequality? Is democracy required for development?

CALENDAR NOTES: The student is recommended to have some knowledge of Statistics prior to taking this course.

COREQUISITES:

PREREQUISITES: ECON 1101.03, ECON 1102.03 with minimum grades of C

CROSSLISTED: CHIN 2290.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 2216 Economics of Global Warming

CREDIT HOURS: 3

This course uses economic principles to investigate such questions as: What are the benefits and costs of various time paths for abating emissions? How do we value the well-being of future generations? How do we balance helping the poor with environmental sustainability? What policies can align incentives with environmental sustainability?

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 1101.03 with minimum grade of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: ECON2850.06, PHYC2850.06

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 2217 Women and the Economy

CREDIT HOURS: 3

This course studies questions such as: Have economic conditions improved for women in Canada over the past 30 years? Is there gender discrimination in the Canadian labour market? What are the economic consequences of divorce? Are women more likely than men to be poor? Are there inequalities within families?

CALENDAR NOTES: Approved with Canadian Studies.

COREQUISITES:

PREREQUISITES: ECON 1101.03, ECON 1102.03 with minimum grades of C

CROSSLISTED: GWST 2217.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 2218 Canadian Economy: Policy Issues

CREDIT HOURS: 3

Canada's economy today faces many problems: unemployment, productivity, income distribution, environmental protection, trade relations, federal-provincial fiscal relations, maintenance of social programs, etc. What are the most important economic policy issues that Canada now faces? What is the appropriate policy role for government?

CALENDAR NOTES: Approved with Canadian Studies.

COREQUISITES:

PREREQUISITES: ECON 1101.03, ECON 1102.03, with minimum grades of C

CROSSLISTED: CANA 2218.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 2219 Euros and Cents: From Common Market to European Union

CREDIT HOURS: 3

The European Union is a grand experiment to unite countries in a single market. The stepwise evolution from customs union to common market to economic and monetary union with a single currency, the Euro, is reviewed and analyzed. Learn more about an economic integration that is unparalleled in history.

CALENDAR NOTES: All Economics courses, unless stated otherwise, have a minimum grade requirement of C for their prerequisite courses.

COREQUISITES:

PREREQUISITES: ECON 1101.03, ECON 1102.03 with minimum grades of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 2220 Microeconomic Theory

CREDIT HOURS: 3

This course covers the economic behaviour of individual decision makers, such as a consumer, a worker or a firm. Emphasis is on theoretical ideas, while applications of these ideas are also considered. Of particular interest to those planning to major or to do honours in economics.

CALENDAR NOTES: Students may not receive credit for both 2200.03 and 2220.03. All Economics courses, unless stated otherwise, have a minimum grade requirement of C for their prerequisite courses.

COREQUISITES:

PREREQUISITES: Econ 1101.03, MATH 1000.03 (or equivalent) with minimum grades of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: Credit cannot be received for BOTH ECON 2200.03 and ECON 2210.03.

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 2231 Perspectives in Health Economics

CREDIT HOURS: 3

This course introduces students to the economics of health, health care, and health policy. It surveys major topics in health economics and the ongoing debate over health care policy. Topics include the economic determinants of health, markets for medical care and health insurance and the government's role in health care.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 1101.03 and any MATH or STAT course with minimum grades of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 2233 Canadian Economic History

CREDIT HOURS: 3

An examination of the economic history of Canada from the time of Confederation to WWI. Major topics explored include: the economic reasons for Confederation, the building of the CPR, the Wheat Boom, foreign trade and investment and the roots of regional disparities.

CALENDAR NOTES: Approved with Canadian Studies. The student is recommended to have some knowledge of history prior to taking this course.

COREQUISITES:

PREREQUISITES: ECON 1101.03, ECON 1102.03 with minimum grades of C

CROSSLISTED: CANA 2233.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 2239 The European Economy Since 1900

CREDIT HOURS: 3

This course applies economic theories to interpret quantitative economic changes in major European countries during the turbulent 20th century. Issues addressed include sources of growth and unevenly improved welfare, war, inflation, depression; Nazi economy; Communism's nature, success, and ultimate failure; reparations and the transfer 'problem'; and the 'transition.'

CALENDAR NOTES: Approved with Canadian Studies.

COREQUISITES:

PREREQUISITES: ECON 1101.03, ECON 1102.03 with minimum grades of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 2326 Money and Banking

CREDIT HOURS: 3

The course concerns the nature and operation of the financial system with particular reference to the Canadian experience. It investigates financial instruments (including money) and institutions and the social control of the supply of money and credit.

CALENDAR NOTES: Approved with Canadian Studies

COREQUISITES:

PREREQUISITES: ECON1101.03, ECON1102.03 with minimum grades of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: ECON3326.03

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 2334 Perspectives on Economic Development

CREDIT HOURS: 3

Economists have long debated whether the task of development should be entrusted largely to market forces, or whether there is a role for the state in directing a nation's economic affairs. These debates continue. We assess critiques of economic analysis of development and students are encouraged to debate these issues.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 1101.03, ECON 1102.03 with minimum grades of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 2336 Regional Development

CREDIT HOURS: 3

Why are some countries or regions poor? Why have the relative positions of different countries and regions shifted over the last several decades? Economic development issues, policies, and theories are analyzed to answer these questions.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 1101.03, 1102.03 with minimum grades of C

CROSSLISTED: GEOG 2336.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 2400 Economic Demography

CREDIT HOURS: 3

This course investigates the economic determinants and consequences of the size, growth, and age structure of human populations.

Topics include: why and how households save for retirement and related policy; how age structure affects the employment and well-being of particular generations; and how demographic change and economic growth interact.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 1101.03, ECON 1102.03 with minimum grades of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 2850 The Science and Economics of Climate Change

CREDIT HOURS: 6

This course examines how climate change will impact the environment and human activities, and how to formulate and implement economically realistic solutions. It integrates the physical and biological science with economics in order to analyze the response options as we move towards a carbon-neutral society.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 1101.03 or ECON 1102.03 or any First year MATH or STAT course

CROSSLISTED: PHYC 2850.06

RESTRICTIONS:

EXCLUSIONS: PHYC 2800.03, ECON 2216.03

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 3111 Writing in Economics

CREDIT HOURS: 3

This course provides instruction in principles and practice of good writing about economics. Students read and examine writing samples and practice writing for various venues (such as government, firms, and news media) in various formats (such as opinion editorials, government policy papers, proposal writing and journal articles).

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 2200.03 or (ECON 2210.03 or ECON 2220.03) with a minimum grade of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

ECON 3231 Topics in Health Economics

CREDIT HOURS: 3

This course comprises a survey of major topics in health economics and introduces the issues, theory and practice of health economics.

The course frames health care as an input into the production of health. It thus differentiates the concepts of healthcare and health addressing both throughout the term.

CALENDAR NOTES: ECON 2231.03 is a recommended prerequisite

COREQUISITES:

PREREQUISITES: ECON 2200.03 (or ECON 2210.03 or ECON 2220.03), and ECON 2280.03/STAT 2080.03/MATH 2080.03, with minimum grades of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 3310 Economic Growth in Historical Perspective

CREDIT HOURS: 3

This course examines the sources of long-run economic growth and development in a historical perspective. Topics covered include invention, innovation, culture, legal institutions governing access to resources, demography, fertility, mortality, and alternative modes of production.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 2200.03 (or ECON 2210.03 or ECON 2220.03) and ECON 2201.03 with minimum grades of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 3315 Labour Economics

CREDIT HOURS: 3

This course considers the theory, evidence and policy of labour economics from a Canadian perspective. Topics include: How does EI affect the Canadian labour market? Do minimum wages reduce employment? What is economic discrimination and does it exist in Canada? How well do immigrants fare in the Canadian labour market?

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 2200.03 (or ECON 2210.03 or ECON 2220.03), and ECON 2201.03 with minimum grades of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 3319 Industrial Organization

CREDIT HOURS: 3

The course provides an overview of the organization of production. Market structure, firm conduct, and performance affect each other in complex ways; the degree of horizontal and vertical integration affects the ability to set prices, for example. Governments regulate firms in order to reduce socially harmful anticompetitive behaviour.

CALENDAR NOTES: Approved with Canadian Studies.

COREQUISITES:

PREREQUISITES: ECON 2200.03 (or ECON 2210.03 or ECON 2220.03) with minimum grade of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 3320 The Economics of Professional Sports

CREDIT HOURS: 3

This course applies microeconomic theory to explain the peculiar nature of professional sports. Topics may include the organization of leagues, ticket pricing, advertising, competitive balance, franchise valuation, stadium financing, broadcasting and sports labour

markets. “Controversial” topics, such as gambling, cheating, performance enhancing drugs (PEDs) and discrimination may also be covered.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON1102.03, ECON 2200.03 (or ECON2210.03 or ECON2220.03) and (STAT1060.03/MATH1060.03 or STAT2060.03/MATH2060.03) each with minimum grades of C.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 3330 International Trade

CREDIT HOURS: 3

This course examines the theory and empirics of international trade, including standard historical trade theories, more recent theories, and evidence regarding these theories. The course investigate factor movements, the welfare effects of trade policies in both industrial and developing countries, and the institutions that have developed to regulate those policies.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 2200.03 (or ECON 2210.03 or ECON 2220.03) with minimum grade of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 3331 International Finance

CREDIT HOURS: 3

This course covers the theory and empirics of international macroeconomics. It examines the determination of exchange rates, international capital flows, and risk; the effectiveness of fiscal and monetary policy in an open economy; modern international policy coordination; and the determination of the current account and net foreign assets.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 2201.03 with minimum of grade C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 3332 Resource Economics

CREDIT HOURS: 3

This course focuses on intertemporal economics and the economics of market failure as they pertain to the use of natural resources. A selection of resource sectors will also be discussed. Fisheries, agriculture, forestry, and energy represent possibilities, but this will vary from year to year.

CALENDAR NOTES: Approved with Canadian Studies.

COREQUISITES:

PREREQUISITES: ECON 2200.03 (or ECON 2210.03 or ECON 2220.03), MATH 1000.03 or equivalent with minimum grades of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 3333 Economic Development

CREDIT HOURS: 3

This course surveys current applications of economic theory to the problem of economic development. Topics covered include recent advances in theory of economic growth, theories of poverty and inequality and their relation to economic performance, theories of

fertility and population growth, and the microeconomics of peasant agriculture.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 2200.03 (or ECON 2210.03 or ECON 2220.03), ECON 2201.03, with minimum grades of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 3335 Environmental Economics

CREDIT HOURS: 3

This course serves as an introduction to environmental economics. Topics include social decision making, externalities and public goods, regulatory approaches (standards, charges, tradable permits), forms of value derived from the environment and measurement techniques.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 2200.03 (or ECON 2210.03 or ECON 2220.03) with minimum grade of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 3338 Econometrics I

CREDIT HOURS: 3

The theory of some quantitative methods commonly used by economists is discussed in the context of the classical linear model. Estimation problems caused by violations of the assumptions of the classical model are studied including heteroscedasticity and autocorrelation.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: MATH 1000.03 (or equivalent) and STAT 2060.03/MATH 2060.03 with minimum grades of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 3339 Econometrics II

CREDIT HOURS: 3

This course is an extension of ECON 3338.03 and covers a range of econometric methods that are used in economic research. The topics for this course include: panel data, binary-choice models, instrumental variables, time series and forecasting.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 3338.03 with minimum grade of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 3345 Public Finance

CREDIT HOURS: 3

This class studies the economics of taxes and transfers. Equity and efficiency effects of both are considered. Approved with Canadian Studies.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 2200.03 (or ECON 2210.03 or ECON 2220.03) and ECON 2201.03 with minimum grades of C

CROSSLISTED:
RESTRICTIONS:
EXCLUSIONS:
FORMATS: Lecture
LAB HOURS PER WEEK:

ECON 3349 History of Economic Thought

CREDIT HOURS: 3

This course will examine theories of value, production, distribution, and growth as developed in classical political economy and neoclassical economics. Theories of equilibrium and stability, the links between classical political economy and macroeconomic theory, and reactions to classical and neoclassical economics will be considered as time permits.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 2200.03 (or ECON 2210.03 or ECON 2220.03) and ECON 2201.03 with minimum grades of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 3426 Monetary Policy

CREDIT HOURS: 3

Assuming a basic knowledge of monetary institutions and macroeconomics, a critical analysis of the objectives and effectiveness of monetary policy is developed. Particular attention is given to the Canadian experience and the effectiveness of Canadian policy.

CALENDAR NOTES: Approved with Canadian Studies.

COREQUISITES:

PREREQUISITES: ECON 2201.03 and ECON 2326.03 with minimum grades of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: ECON4426

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 3500 Public Economics

CREDIT HOURS: 3

Analyzes the role of government in problems of resource allocation due to market failure. Concentrates on theories of public goods, collective choice, potential of conflict and cooperation in individually-motivated actions, incentive structures capable of realizing rational, cooperative, group outcomes. Provides theoretical underpinnings of many applied fields. Involves mathematical methods.

CALENDAR NOTES: While a background of ECON 3700 is helpful, it is not a prerequisite.

COREQUISITES:

PREREQUISITES: ECON 2200.03 (or ECON 2210.03 or ECON 2220.03), and MATH 1000.03 or equivalent with minimum grades of C or instructor permission

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 3600 Strategic Behaviour in Economics

CREDIT HOURS: 3

Many economic questions (such as price competition, tax policy, research and development decision, bargaining) can be interpreted as games, in which each player's action affects payoffs of other players. The students learn how to recognize various strategic interactions in economics, and how to evaluate the outcomes of such interactions.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 2200.03 (or ECON 2210.03 or ECON 2220.03), MATH 1000.03 or equivalent with minimum grades of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:
FORMATS: Lecture
LAB HOURS PER WEEK:

ECON 3700 Mathematics for Economists

CREDIT HOURS: 3

This course presents mathematical methods used in modern economics. The lectures concentrate on the basic concepts of analysis, comparative statics and optimization theory. Topics include an introduction to set theory and matrix algebra, the implicit function theorem, unconstrained optimization, constrained optimization with equality and inequality constraints, and intertemporal choice.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 2200.03 (or ECON 2210.03 or ECON 2220.03), ECON 2201.03, and MATH 1000.03 or equivalent with minimum grades of C or permission of the instructor

CROSSLISTED: MATH 3700.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 3800 Financial Economics

CREDIT HOURS: 3

This course is an introduction to decision making by investors under uncertainty, portfolio theory, asset pricing, financial markets, and instruments. The course covers both the theoretical and practical aspects of investment, surveys the techniques available for economists, and emphasizes “hands-on” learning using Canadian and international case studies.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 2200.03 (or ECON 2210.03 or ECON 2220.03), ECON 2201.03 with minimum grades of C

CROSSLISTED: MATH 3800.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 3900 Financial Mathematics

CREDIT HOURS: 3

See course description for MATH 3900.03 in the Mathematics section of this calendar.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: MATH 2060.03 and (MATH 2120.03 or MATH 3110.03 or MATH 2135.03) with minimum grades of C or instructor's permission

CROSSLISTED: MATH 3900.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 4002 Experiential Learning (in Economics)

CREDIT HOURS: 3

Experiential learning recognized the learning experience relevant to the program outside the scheduled curriculum. Students are responsible for drafting a learning agreement with the course coordinator and supervisor to specify learning outcomes, activities designed to accomplish these outcomes, a quantifiable assessment strategy and timetable.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 1101.03, ECON 1102.03, ECON 2200.03 (or ECON 2210.03 or ECON 2220.03), ECON 2201.03, ECON 3338.03, ECON 3339.03 with minimum grades of C. To be eligible, students should have a minimum average GPA of 3.0 in Economics.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: Scheduled classes at a learning institution, study that would qualify for co-op work terms and paid work. Only one

experiential learning class per degree is permitted.

FORMATS:

LAB HOURS PER WEEK:

ECON 4201 Honours Thesis I

CREDIT HOURS: 3

This course is required for honours students, and helps students define, research, and write an original research project under the supervision of an economics faculty member. Students develop a topic, critique current literature, run statistical tests, or research and write a policy paper, and present results in a public conference.

CALENDAR NOTES: Students must complete both ECON4201.03 and 4202.03, and are assigned a common grade for both courses after both have been completed. To be given permission to take the Honours Thesis courses, students should have completed the Dalhousie writing requirement, with a grade of B or higher in at least one Dalhousie writing course. ECON3339 is a recommended prerequisite for B.Sc. students.

COREQUISITES:

PREREQUISITES: ECON 2200.03 (or ECON 2210.03 or ECON 2220.03), ECON 2201.03, ECON 3338.03, with minimum grades of C and permission of instructor

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: ECON4200.06 X/Y

FORMATS: Seminar

LAB HOURS PER WEEK:

ECON 4202 Honours Thesis II

CREDIT HOURS: 3

This course is required for honours students, and helps students define, research, and write an original research project under the supervision of an economics faculty member. Students develop a topic, critique current literature, run statistical tests, or research and write a policy paper, and present results in a public conference.

CALENDAR NOTES: Students must complete both ECON4201.03 and ECON4202.03, and are assigned a common grade for both courses after both have been completed. To be given permission to take the Honours Thesis course, students should have completed the Dalhousie writing requirement, with a grade of B or higher in at least one Dalhousie writing course. ECON3339 is a recommended prerequisite for B.Sc. students.

COREQUISITES:

PREREQUISITES: ECON 2200.03 (or ECON 2210.03 or ECON 2220.03), ECON 2201.03, ECON 3338.03, ECON4201.03, all with minimum grades of C, and permission of instructor

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: ECON4200.06 X/Y

FORMATS: Seminar

LAB HOURS PER WEEK:

ECON 4317 Poverty and Inequality

CREDIT HOURS: 3

Why are some people poor, while others are rich? Why do some nations have more poverty or inequality than others? What can or should be done? This course examines the extent of poverty and inequality in contemporary societies, and the theories underlying alternative measures and explanations.

CALENDAR NOTES: Approved with Canadian Studies. The student is advised to take ECON 3315 before taking ECON 4317.

COREQUISITES:

PREREQUISITES: ECON 2200.03 (or ECON 2210.03 or ECON 2220.03), and ECON2201.03, with minimum grades of C.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: ECON 3317.03; ECON 5317.03

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 4350 Social Cost Benefit Analysis

CREDIT HOURS: 3

Social cost benefit analysis is used to evaluate public projects and private sector regulations. It is similar to the revenue cost accounting used by firms but takes into account external costs and benefits such as environmental damages. This course explains the methodology

in the context of case studies after which students apply the method to evaluate a public policy problem.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 2200.03 (or ECON 2210.03 or ECON 2220.03), and ECON 3335.03 (or ECON 3330.03 or ECON 3319.03 or ECON 3332.03), with minimum grades of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: ECON3350.03

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 4360 Ethics, Justice, and Economics

CREDIT HOURS: 3

Assumptions of Neoclassical economic theory are critically examined with a focus on the ethical and distributional consequences of using markets as an allocation mechanism. We discuss the major conceptions of economic justice, including utilitarianism and social choice theory, Rawlsian egalitarianism Nozickian libertarianism, Sen's capabilities approach and equality of opportunity.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 2200.03 (or ECON 2210.03 or ECON 2220.03), and ECON 2201.03, with minimum grades of C

CROSSLISTED: PHIL 4360.03

RESTRICTIONS:

EXCLUSIONS: ECON 3360.03, ECON 5360.03, PHIL 3361.03

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 4420 Microeconomic Theory

CREDIT HOURS: 3

In-depth study of outcomes of decision-making by agents, individually, collectively or as an interdependent system. Selects topics from: linear and non-linear optimization and applications to theory of consumers and firms, general equilibrium, game theory, alternative solution concepts, comparative statics, stability, welfare, market failures, collective choice, intertemporal economics, uncertainty.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 2200.03 (or ECON 2210.03 or ECON 2220.03), ECON 3700.03, MATH 1000.03 or equivalent, MATH 1010.03 with minimum grades of C

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ECON 4421 Macroeconomic Theory

CREDIT HOURS: 3

Students are introduced to contemporary issues in macroeconomics including aggregate growth accounting; neoclassical growth models; monetary policy, inflation and unemployment; theories of consumption and investment; and trade and exchange rates. Mathematical methods are applied extensively and their application to economic problems will be stressed at both the theoretical and intuitive levels.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 2201.03, ECON 3700.03, MATH 1000.03 (or equivalent), MATH 1010.03 with minimum grades of C

Degree Programs

The College of Sustainability offers a BSc Double Major, Combined Honours and Minor in Environment, Sustainability and Society with any major/honours subject in the Faculty of Science and the Faculty of Computer Science. For complete details about the College, its programs and courses please see the [College of Sustainability](#).

Students in the ESS Program are eligible to pursue the following Certificates offered by the Faculty of Science:

- [Certificate in Environmental Impact Assessment](#)
- [Certificate in Geographical Information Systems](#)

BSc Combined Honours, Environment, Sustainability and Society

The BSc Combined Honours degree program allows students to combine a study of Environment, Sustainability and Society (ESS) with another subject (Allied Subject). The Allied Subject may be any Honours subject from the Faculty of Science or the Faculty of Computer Science. An Honours Thesis is completed in either ESS or in the Allied Subject. Students intending to complete a Combined Honours program must consult with academic advisors in both subject areas. This degree may also be combined with Minor(s).

Admission to ESS Honours (ESS as primary subject):

Students must apply for admission to the ESS Honours Program by completing the “Intent to Register for ESS Honours Thesis” form before the end of the winter term prior to starting the ESS Honours Thesis course. A cumulative GPA of 3.3 is required in all SUST and ESS Elective courses at 2000 level or above, with no individual grade less than C. Students must also complete the Dalhousie Honours Application Form before the deadline in September of their Honours year.

BSc Combined Honours Graduation Requirements

Students must fulfill the requirements for the 120 credit hour degree requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections. A cumulative GPA of 3.0 is required in all Honours Subject courses at 2000 level or above, with no individual grade less than C.

Course Requirements

In addition to fulfilling the 120 credit hour degree requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a BSc Combined Honours program in ESS and another subject must complete the following:

ESS Course Requirements:

1000-level Requirements:

- SUST 1000.06: *What is Sustainability?* or SUST 1400.03 *Exploring Sustainability* (online)
- SUST 1001.06: *A Sustainable Future*
- With **Foundation Year Program (FYP)** or **Dalhousie Integrated Science Program (DISP)**: Any 1000-level SUST course (minimum 3 credit hours)

Upper-level requirements:

- SUST 2000.06: *Local Governance, Citizen Engagement and Sustainability*
- SUST 2001.06: *Global Environmental Governance*
- SUST 3000.03: *Environmental Decision Making*
- 9 more credit hours SUST at 3000 level or above (SUST 4001.03 and SUST 4002.03 *ESS Capstone* recommended)
- **ESS as primary subject in BSc Combined Honours:**
 - 6 more credit hours SUST or ESS Electives at **2000 level or above**
 - SUST 4901.03 and SUST 4902.03: *ESS Honours Thesis*
- **ESS as secondary subject in BSc Combined Honours:**
 - 6 more credit hours SUST or ESS Electives at **3000 level or above**

- The courses listed above fulfill the minimum requirements of 30 credit hours at 2000-level or above and 18 credit hours at 3000-level or above
- Students may take no more than 54 credit hours in SUST/ESS Electives at 2000-level or above

Allied Subject Requirements:

Please consult the Academic Calendar and Academic Advisor for your Allied Subject. If ESS is the secondary subject, the Honours Thesis is typically completed in the Allied (primary) Subject. Even if ESS is the primary subject, there may be additional course requirements for the Allied Subject to satisfy their Combined Honours degree requirements.

General Degree Requirements satisfied by SUST courses:

SUST 1000.06 satisfies the 6 credit hours writing requirement (SUST 1400.03 and SUST 1001.06 do not satisfy the Writing Requirement). For BSc students either SUST 1000.06 or SUST 1001.06 satisfy the Social Science requirement. For BA students either SUST 1000.06 or SUST 1001.06 satisfy the Life and Physical Sciences requirement. For all General Degree Requirements please see [College of Arts and Science Degree Requirements](#).

BSc Double Major, Environment, Sustainability and Society

The BSc Double Major degree program allows students to combine a study of Environment, Sustainability and Society (ESS) with another subject (Allied Subject). The Allied Subject may be any Major subject from the Faculty of Science or the Faculty of Computer Science. It is recommended that students enrolled in a Double Major program consult with academic advisors in both subject areas. This degree may also be combined with Minor(s).

Course Requirements

In addition to fulfilling the 120 credit hour degree requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a BSc Double Major program in ESS and another subject must complete the following:

ESS Requirements:

1000-level requirements:

- SUST 1000.06: *What is Sustainability?* or SUST 1400.03 *Exploring Sustainability* (online)
- SUST 1001.06: *A Sustainable Future*
- With **Foundation Year Program (FYP)** or **Dalhousie Integrated Science Program (DISP)**: Any 1000-level SUST course (minimum 3 credit hours)

Upper-level requirements:

- SUST 2000.06: *Local Governance, Citizen Engagement and Sustainability*
- SUST 2001.06: *Global Environmental Governance*
- SUST 3000.03: *Environmental Decision-Making*
- SUST 4001.03: *Environment, Sustainability and Society Capstone Part 1*
- SUST 4002.03: *Environment, Sustainability and Society Capstone Part 2*
- 9 more credit hours SUST or ESS Electives at 3000 level or above

- The courses listed above fulfill the minimum requirements of 30 credit hours at 2000-level or above and 18 credit hours at 3000-level or above
- Students may take up to 18 more credit hours in SUST/ESS Electives at 2000-level or above, to a maximum of 48 credit hours

* SUST 4001 and SUST 4002 must be taken in consecutive Fall and Winter terms. Credit will not be granted for SUST 4001 until completion of SUST 4002.

Allied Subject Requirements:

Please consult the Calendar and Academic Advisor for your Allied Subject.

General Degree Requirements satisfied by SUST courses:

SUST 1000.06 satisfies the 6 credit hours Writing Requirement (SUST 1400.03 and SUST 1001.06 do not satisfy the Writing Requirement). For BA students either SUST 1000.06 or SUST 1001.06 satisfy the Life and Physical Sciences requirement. For BSc students either SUST 1000.06 or SUST 1001.06 satisfy the Social Science requirement. For all General Degree Requirements please see [College of Arts and Science Degree Requirements](#).

Minor in Environment, Sustainability and Society

The Environment, Sustainability and Society (ESS) Minor is available to students registered in a 120 credit hour Bachelor of Arts, Bachelor of Science, Bachelor of Commerce, Bachelor of Computer Science, Bachelor of Applied Computer Science, Bachelor of Management, Bachelor of Music, Bachelor of Journalism, or Bachelor of Science (Medical Sciences) program.

A BA (90 credit hour) degree program with a Minor in Environment, Sustainability and Society (ESS) is also available.

Requirements for Minor in ESS:

- any 1000-level SUST course
- a minimum of 18 credit hours and a maximum of 27 credit hours at the 2000 level or above in SUST courses.

Contact [College of Sustainability](#) for more information.

Introduction

Environmental Science in the Department of Earth and Environmental Sciences offers several programs. These include a BSc Honours/Major in Environmental Science, a Minor in Environmental Science, a Double Major in Environmental Science and Community Design, and a BSc or BA Double Major or Combined Honours in Environmental Science and any Major/Honours subject in the Faculty of Science, Faculty of Arts and Social Sciences (FASS) or with the College of Sustainability. The Faculty of Arts and Social Sciences (FASS), the Faculty of Science, the Faculty of Computer Science and the Faculty of Architecture and Planning also offer a Minor in Environmental Studies which is administered through Environmental Science.

Environmental Science applies the findings and principles from multiple disciplines to environmental questions and problems. Environmental Science, by nature, is multidisciplinary and interdisciplinary. Most environmental scientists develop expertise in a particular discipline, and work co-operatively with specialists in other disciplines to solve environmental problems. They work in a variety of institutions in both the public and private sectors: municipal, provincial and federal government departments, consulting and engineering companies, development aid organizations in the non-governmental sector and activist community organizations. In all of these institutions they must integrate their scientific knowledge into the prevailing political, economic and legal systems.

The courses required for the BSc Environmental Science stress the links among the fields of study that the students acquire. Thus, students graduate with a combination of depth and breadth of knowledge and the ability to solve problems in the real world.

Degree Programs

The Faculty of Science offers the following degree programs in Environmental Science

- BSc (120 credit hour) Honours (Concentrated)*
- BSc or BA (120 credit hour) Combined Honours*
- BSc (120 credit hour) Major*
- BSc or BA (120 credit hour) Double Major*
- Minor in Environmental Science
- Minor in Environmental Studies

* BSc [Co-op option](#) available

* May be combined with Minor programs from other disciplines

Program Requirements can be seen by following the links to the right. In addition to the program requirements, students must satisfy the requirements outlined in the [Academic Regulations](#) and the [College of Arts and Science Degree Requirements](#) sections. Students are advised that a number of requirements differ for the BA and BSc degrees.

A student is governed by the academic regulations in place at the time of initial enrolment, as long as the degree is completed within the time permitted (10 years). Subsequent changes in regulations shall apply only if the student so elects. Student applying the old academic regulations should consult the calendar of the appropriate year.

Students should plan their programs of study carefully and are strongly encouraged to do so in consultation with the Environmental Science undergraduate academic advisor.

Staff

Dean

Moore, C., BA (Hons), PhD (Cambridge), Professor (Psychology)

Chair of Earth and Environmental Sciences

Brenan, J. M., BSc Honours (McGill), PhD (Rensselaer)

Undergraduate Program Coordinator

Rainham, D., PhD (Ottawa)

Undergraduate Advisors

Gass, S., PhD (Open Univ, UK)

Mui, A., PhD (Toronto)

Faculty

Gass, S., PhD (Open Univ, UK)

Mui, A., PhD (Toronto)

Rainham, D., PhD (Ottawa)

Ryan, A. M., BSc (Univ College Dublin), MSc, BEd (Acadia), MEd (MSVU), PhD (Dalhousie)

Sterling, S., PhD (Duke Univ)

Wright, T., PhD (Alberta)

Supporting Faculty

Environmental Science draws on faculty from the departments below:

Biology

Chemical Engineering

Chemistry

Earth Sciences

Economics

Environmental Engineering

International Development Studies

Mathematics

Oceanography

Philosophy

Physics and Atmospheric Science

Political Science

School for Resource and Environmental Studies

School of Planning

Sociology and Social Anthropology

Statistics

Note: This field is rapidly expanding. Students interested in these types of programs should ask about courses related to the environment, other than those listed on the following pages, through the departmental contacts noted above.

BSc (120 credit hour) Major in Environmental Science

The 120 credit hour Major is suited to students who want to focus on Environmental Science, but wish to have a program that is somewhat less constrained than the Honours program. Environmental Science Majors complete 36 credit hours in Environmental Science courses. Research and other experiential learning opportunities are available through laboratories, field, special topics and internship courses.

A Co-op option is available for students enrolled in a 120 credit hour BSc Major program in Environmental Science. See [Co-operative Education Program](#).

Program requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#), students in a BSc Major program in Environmental Science must complete the 1000 level courses (listed below) and the Common Core courses - Majors (also listed below).

1000 Level Courses (to be taken in first year, if possible)

- SCIE 1505.18: Integrated Science or (1506.09 and 1507.09) and (CHEM 1011.03 and CHEM 1012.03) and (MATH 1000.03 or MATH 1215.03)

Or

- BIOL 1010.03: Principles of Biology Part I or BIOL 1020.03: Introductory Biology I: Cells, Genetics and Evolution
- MATH 1000.03: Differential and Integral Calculus I or MATH 1215.03: Life Sciences Calculus
- STAT 1060.03: Introductory Statistics for Science and Health Sciences
- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity
- CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium
- EARTH 1080.03: Geology I
- ENVS 1100.03: Foundations of Environmental Science: Ecosphere, Resources and Sustainability (grade of B- or higher)
- ENVS 1200.03: Current Environmental Challenges: Analysis and Solutions (grade of B- or higher)

Students are encouraged to take three credit hours of their Language and Humanities requirement in their first year.

Also required but usually taken in the second year:

- ECON 1101.03: Principles of Microeconomics or ECON 1102.03: Principles of Macroeconomics*

Common Core Courses - Majors

To be completed over the course of a four year degree program: Common Core Courses introduce students to the scope and magnitude of Environmental Science and are designed to provide students with an appreciation of the scientific, historic, legal and social aspects of environmental issues.

- STAT 2080.03: Statistical Methods of Data Analysis and Inference*
- BIOL 2060.03: Introductory Ecology
- PHIL 2480.03: Environmental Ethics**
- ENVS 2310.03: Energy and the Environment
- ENVS 2000.03: Urban Field School or ENVS 2500.03 Field Methods in Environmental Science
- ENVS 2100.03: Environmental Informatics
- ENVS 3001.03: Environmental Science Field School
- ENVS 3100.03: Environmental Analytics
- ENVS 3200.03: Introduction to Environmental Law
- ENVS 3500.03: Geoscience Information Management
- ENVS 3501.03: Environmental Problem Solving I
- ENVS 3502.03: Environmental Problem Solving II
- ENVS 3601.03: Global Biogeochemical Cycles
- ENVS 4001.03: Environmental Impact Assessment
- ENVS 4100.03: Environmental Science Capstone

*STAT 2080.03: Statistical Methods of Data Analysis and Inference and ECON 1101.03: Principles of Microeconomics or ECON 1102.03: Principles of Macroeconomics together satisfy the College of Arts and Science requirement for six credit hours in Social Science.

**PHIL 2480.03: Environmental Ethics satisfies half of the College of Arts and Science requirement for six credit hours in Languages and Humanities.

BA (120 credit hour) Major in Environmental Science

BA Major in Environmental Science

1000 Level

- ENVS 1100.03: Foundations of Environmental Science: Ecosphere, Resources and Sustainability (grade of B- or higher)
- ENVS 1200.03: Current Environmental Challenges: Analysis and Solutions (grade of B- or higher)
- Six credit hours in a single first year science subject chosen from BIOL, CHEM, PHYC, EARTH, ECON
- STAT 1060.03: Introductory Statistics for Science and Health Sciences

2000 Level

- ENVS 2000.03: Urban Field School or ENVS 2500.03 Field Methods in Environmental Science
- ENVS 2100.03: Environmental Informatics
- Six credit hours chosen from:
 - BIOL 2003.03: Diversity of Life I
 - BIOL 2004.03: Diversity of Life II
 - BIOL 2060.03: Introductory Ecology
 - GEOG 2800.03: Climate Change
 - CHEM 2505.03
 - OCEA 2001.03: The Blue Planet 1
 - OCEA 2002.03: The Blue Planet 2
 - ECON 2216.03: Economics of Global Warming
 - EARTH 2410.03: Environmental Issues in Earth Sciences
 - ENVS 2310.03: Energy and the Environment
 - PHIL 2480.03: Environmental Ethics
 - Any additional ENVS 2000- level course. Please note this may include ENVS 2000 or ENVS 2500.

3000 and 4000 Level

- ENVS 3200.03: Introduction to Environmental Law
- ENVS 3501.03: Environmental Problem Solving I
- ENVS 3502.03: Environmental Problem Solving II*
- ENVS 4001.03: Environmental Impact Assessment
- At least six additional credit hours from:
 - Any additional 3000 or 4000 level ENVS courses
 - BIOL 3060.03: Environmental Ecology
 - BIOL 3061.03: Communities and Ecosystems
 - BIOL 4160.03: Political Ecology

BSc Double Major in Environmental Science and Community Design

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#), students in a BSc Double Major program in Environmental Science and Community Design must complete the following:

1000 Level

- SCIE 1505.18: Integrated Science or (1506.09 and 1507.09) and (CHEM 1011.03 and CHEM 1012.03) and (MATH 1000.03 or MATH 1215.03)
- ECON 1101.03: Principles of Microeconomics or ECON 1102.03: Principles of Macroeconomics
- PLAN 1001.03: Introduction to Community Design I and PLAN 1002.03: Introduction to Community Design II

OR

- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity and CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium
- MATH 1000.03: Differential and Integral Calculus I or MATH 1215.03: Life Sciences Calculus
- STAT 1060.03: Introductory Statistics for Science and Health Sciences
- EARTH 1030.03: Introduction to Physical Geography
- ECON 1101.03: Principles of Microeconomics or ECON 1102.03: Principles of Macroeconomics
- PLAN 1001.03 and PLAN 1002.03
- ENVS 1100.03: Foundations of Environmental Science: Ecosystems, Resources and Sustainability and ENVS 1200.03: Current Environmental Challenges: Analysis and Solutions

Common Core Courses - as listed for BSc Major, except:

- ENVS 2310.03: Energy and the Environment not required
- Choice of ENVS 2000.03: Urban Field School or ENVS 2500.03 Field Methods in Environmental Science or ENVS 3001.03: Environmental Science Field School

Community Design Courses

- PLAN 2001.03: Landscape Analysis
- PLAN 2002.03: Community Design Methods
- PLAN 2005.03: Community Design Context
- PLAN 3001.03: Landscape Ecology
- PLAN 3002.03: Reading the City
- PLAN 3005.03: Cities and the Environment in History
- PLAN 3006.03: Reading the Landscape
- An additional three credit hours in PLAN

BSc or BA (120 credit hour) Double Major in Environmental Science and another subject

The Double Major degree program allows students to combine a study of Environmental Science with another subject. The other subject may be any discipline from the Faculty of Science, the Faculty of Arts and Social Sciences, the Faculty of Computer Science, the College of Sustainability or Community Design in the Faculty of Architecture and Planning. Environmental Science may be the primary subject (defined as the subject with the larger number of credits), or the secondary subject. If the primary subject area is from the Faculty of Arts and Social Sciences, the degree granted will be a BA.

Students enrolled in a Double Major program must have their program of study approved by advisors in both subject areas.

A Co-op option is available for students enrolled in BSc Double Major with Environmental Science as the primary subject. See [Co-operative Education Program](#).

Program Requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#), students in a BSc or BA Double Major program in Environmental Science and another subject must complete the following (BSc requirements are listed first followed by those for a BA):

BSc Double Major, ENVS as primary or secondary subject

Students must complete the following:

1000 Level (to be taken the first year, if possible)

- SCIE 1505.18: Integrated Science or (1506.09 and 1507.09) and (CHEM 1011.03 and CHEM 1012.03) and (MATH 1000.03 or MATH 1215.03)

OR

- MATH 1000.03: Differential and Integral Calculus I or MATH 1215.03: Life Sciences Calculus
- STAT 1060.03: Introductory Statistics for Science and Health Sciences
- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity
- CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium
- ENVS 1100.03: Foundations of Environmental Science: Ecosphere, Resources and Sustainability (grade of B- or higher)
- ENVS 1200.03: Current Environmental Challenges: Analysis and Solutions (grade of B- or higher)

Students are encouraged to take three credit hours of their Language and Humanities requirement in their first year.

Also required but usually taken in the second year:

- ECON 1101.03: Principles of Microeconomics or ECON 1102.03: Principles of Macroeconomics*

Common Core Courses as listed for BSc Major except:

- ENVS 2310.03: Energy and the Environment is not required
- Choice of ENVS 2000.03: Urban Field School or ENVS 2500.03 Field Methods in Environmental Science or ENVS 3001.03: Environmental Science Field School

BA Double Major, ENVS as primary or secondary subject

1000 Level

- ENVS 1100.03: Foundations of Environmental Science: Ecosphere, Resources and Sustainability (grade of B- or higher)
- ENVS 1200.03: Current Environmental Challenges: Analysis and Solutions (grade of B- or higher)
- Six credit hours in a first year science subject chosen from BIOL, CHEM, PHYC, EARTH, ECON
- STAT 1060.03: Introductory Statistics for Science and Health Sciences

2000 Level

- ENVS 2000.03: Urban Field School or ENVS 2500.03 Field Methods in Environmental Science
- ENVS 2100.03: Environmental Informatics
- Six credit hours chosen from:
 - BIOL 2003.03: Diversity of Life I
 - BIOL 2004.03: Diversity of Life II
 - BIOL 2060.03: Introductory Ecology
 - GEOG 2800.03: Climate Change
 - CHEM 2505.03
 - OCEA 2001.03: The Blue Planet I
 - OCEA 2002.03: The Blue Planet II
 - ECON 2216.03: Economics of Global Warming
 - EARTH 2410.03: Environmental Issues in Earth Sciences
 - ENVS 2310.03: Energy and the Environment
 - PHIL 2480.03: Environmental Ethics

3000 and 4000 Level

- ENVS 3200.03: Introduction to Environmental Law
- ENVS 3501.03: Environmental Problem Solving I
- ENVS 3502.03: Environmental Problem Solving II*
- ENVS 4001.03: Environmental Impact Assessment
- At least six additional credit hours from:
 - Any additional 3000 or 4000 level ENVS courses
 - BIOL 3060.03: Environmental Ecology
 - BIOL 3061.03: Communities and Ecosystems
 - BIOL 4160.03: Political Ecology

*If ESS is the A subject ENVS 3502.03: Environmental Problem Solving II: The Campus as a Living Laboratory is waived, and should be replaced with another ENVS course at or above the 3000 level.

BSc or BA (120 credit hour) Combined Honours in Environmental Science and another subject

Students who wish to study Environmental Science in conjunction with another subject may wish to pursue a Combined Honours degree program. The other subject may be any discipline from the Faculty of Science, the Faculty of Arts and Social Sciences, the Faculty of Computer Science, or the College of Sustainability. Environmental Science may be the primary subject (defined as the subject with the larger number of honours credits), or the secondary subject.

Students planning to enroll in a Combined Honours program should consult with academic advisors from both programs early in their studies. The same standards and conditions for admission apply as for entry into a Concentrated Honours program (see above). In addition, students must have their program of study approved by Academic Advisors in both subject areas. Students must complete an Honours Qualifying Examination in one of the two subject areas, a requirement normally completed in the primary subject area. For Environmental Science, this requirement is satisfied through ENVS 4901.03 and ENVS 4902.03.

A Co-op option is available for students enrolled in BSc Combined Honours with Environmental Science as the primary subject. See [Co-operative Education Program](#).

Program Requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#), students in a BSc or BA Combined Honours program in Environmental Science and another subject must complete the following (BSc requirements are listed first followed by those for a BA):

BSc Combined Honours in Environmental Science and another subject

ENVS as primary or secondary subject

1000 Level (to be taken in first year, if possible)

- SCIE 1505.18: Integrated Science or (1506.09 and 1507.09) and (CHEM 1011.03 and CHEM 1012.03) and (MATH 1000.03 or MATH 1215.03)

OR

- MATH 1000.03: Differential and Integral Calculus I or MATH 1215.03: Life Sciences Calculus
- STAT 1060.03: Introductory Statistics for Science and Health Sciences
- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity
- CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium
- ENVS 1100.03: Foundations of Environmental Science: Ecosphere, Resources and Sustainability (grade of B- or higher)
- ENVS 1200.03: Current Environmental Challenges: Analysis and Solutions (grade of B- or higher)

Students are encouraged to take three credit hours of their Language and Humanities requirement and/or their writing requirement in their first year.

Also required but normally taken in the second year:

- ECON 1101.03: Principles of Microeconomics or ECON 1102.03: Principles of Macroeconomics

Common Core Courses as listed for BSc Concentrated Honours except:

- ENVS 2310.03: Energy and the Environment not required
- Choice of ENVS 2000.03: Urban Field School or or ENVS 2500.03 Field Methods in Environmental Science or ENVS 3001.03: Environmental Science Field School

If ENVS is the primary subject: a minimum of six additional credit hours of ENVS or ENVS-equivalent courses, which may be ENVS 4901.03/ENVS 4902.03 (Honours Thesis and Qualifying Exam).

If ESS (Environment, Sustainability and Society) is the primary subject, ENVS 3502.03: Environmental Problem Solving II is waived and should be replaced with another ENVS course at or above the 3000 level.

BA Combined Honours in Environmental Science and another subject

Requirements are the same for ENVS as primary or secondary subject. Students must complete the following:

1000 Level

- ENVS 1100.03: Foundations of Environmental Science: Ecosphere, Resources and Sustainability (grade of B- or higher)
- ENVS 1200.03: Current Environmental Challenges: Analysis and Solutions (grade of B- or higher)
- Six credit hours in a single first-year science subject chosen from BIOL, CHEM, PHYC, EARTH, ECON

- STAT 1060.03: Introductory Statistics for Science and Health Sciences

2000 Level

- ENVS 2000.03: Urban Field School or ENVS 2500.03: Field Methods in Environmental Science
- ENVS 2100.03: Environmental Informatics
- Six credit hours chosen from:
 - BIOL 2003.03: Diversity of Life
 - BIOL 2004.03: Diversity of Life II
 - BIOL 2060.03: Introductory Ecology
 - GEOG 2800.03: Climate Change
 - CHEM 2505.03
 - OCEA 2000.06: The Blue Planet
 - ECON 2216.03: Economics of Global Warming
 - EARTH 2410.03: Environmental Issues in Earth Sciences
 - ENVS 2310.03: Energy and the Environment
 - PHIL 2480.03: Environmental Ethics

3000 and 4000 Level

- ENVS 3200.03: Introduction to Environmental Law
- ENVS 3501.03: Environmental Problem Solving I
- ENVS 3502.03: Environmental Problem Solving II*
- ENVS 4001.03: Environmental Impact Assessment
- At least six additional credit hours from:
 - Any ENVS course
 - BIOL 3060.03: Environmental Ecology
 - BIOL 3061.03: Communities and Ecosystems
 - BIOL 4160.03: Political Ecology

If ENVS is the primary subject, a minimum of six additional credit hours of ENVS or ENVS equivalent courses, which may be ENVS 4901.03, ENVS 4902.03 (Honours Thesis and Qualifying Exam).

*If ESS is the primary subject, ENVS 3502.03: Environmental Problem Solving II is waived and should be replaced with another ENVS course at or above the 3000 level.

BSc (120 credit hour) Concentrated Honours in Environmental Science

Students who want a challenging program resulting in a broad background in Environmental Science, including an independent research experience may want to enroll in an Honours program. Students interested in eventually pursuing graduate studies are particularly encouraged to consider Honours. Honours students complete a minimum of 54 credit hours above the 1000 level in Environmental Science or Environmental Science Equivalent Courses with a minimum GPA of 3.0, and each ENVS and ENVS Equivalent Course above the 1000-level must be passed with a grade of "C" or better. Honours students write a research-based Honours thesis and the Honours Qualifying Examination requirement is satisfied through completion of ENVS 4901.03 and ENVS 4902.03.

A Co-op option is available for students enrolled in a BSc Concentrated Honours in Environmental Science. See [Co-operative Education Program](#).

Admission to Honours

Students must apply for admission to Honours programs. Students considering Honours in Environmental Science should consult with an Environmental Science Advisor early in their studies. To be admitted, students must have a cumulative GPA of 3.5 in the first two years of study. More information on applying to the Environmental Science Honours program can be found at www.dal.ca/environmentalscience.

Program Requirements

In addition to fulfilling the requirements outline in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#), students in a BSc Concentrated Honours program in Environmental Science must complete the following:

1. 1000 level courses (below)
2. Common Core courses (Honours) (below)
3. ENVS 4901.03 and ENVS 4902.03 (Honours thesis and Qualifying Exam)
4. An additional 12 credit hours of ENVS or ENVS-equivalent courses at or above the 2000 level

1000 Level

- SCIE 1505.18: Integrated Science or Integrated Science I and II (SCIE 1506.09 and 1507.09) and (CHEM 1011.03 and CHEM 1012.03) and (MATH 1000.03 or MATH 1215.03)

OR

- BIOL 1010.03: Principles of Biology Part I or BIOL 1020.03: Introductory Biology I: Cells, Genetics and Evolution
- MATH 1000.03: Differential and Integral Calculus I or MATH 1215.03: Life Sciences Calculus
- STAT 1060.03: Introductory Statistics for Science and Health Sciences
- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity
- CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium
- EARTH 1080.03: Geology I
- ENVS 1100.03: Foundations of Environmental Science: Ecosphere, Resources and Sustainability (grade of B- or higher)
- ENVS 1200.03: Current Environmental Challenges: Analysis and Solutions (grade of B- or higher)

Students are encouraged to take three credit hours of their Language and Humanities requirement and/or their writing requirement in their first year.

The courses listed above should be taken in the first year, if possible, if ENVS 1100.03: Foundations of Environmental Science: Ecosphere, Resources and Sustainability and ENVS 1200.03: Current Environmental Challenges: Analysis and Solutions are not taken in the first year, it should be taken in the second year.

Also required but usually taken in the second year.

- ECON 1101.03: Principles of Microeconomics* or ECON 1102.03: Principles of Macroeconomics*

Common Core Courses

Completed at various times over a four year degree program, the Common Core Courses introduce students to the scope and magnitude of Environmental Science and are designed to provide students with an appreciation of the scientific, historic, legal and social aspects of environmental issues.

- STAT 2080.03: Statistical Methods for Data Analysis and Inference*
- BIOL 2060.03: Introductory Ecology
- PHIL 2480.03: Environmental Ethics**

- ENVS 2000.03: Urban Field School or ENVS 2500.03 Field Methods in Environmental Science
- ENVS 2100.03: Environmental Informatics
- ENVS 2310.03: Energy and the Environment
- ENVS 3001.03: Environmental Science Field School
- ENVS 3100.03: Environmental Analytics
- ENVS 3200.03: Introduction to Environmental Law
- ENVS 3500.03: Geoscience Information Management
- ENVS 3501.03: Environmental Problem Solving I
- ENVS 3502.03: Environmental Problem Solving II
- ENVS 3601.03: Global Biogeochemical Cycles
- ENVS 4001.03: Environmental Impact Assessment
- ENVS 4100.03: Environmental Science Capstone

*STAT 2080.03: Statistical Methods for Data Analysis and Inference and ECON 1101.03: Principles of Microeconomics or ECON 1102.03: Principles of Macroeconomics together satisfy the College of Arts and Science requirement for six credit hours in social science.

**PHIL 2480.03: Environmental Ethics satisfies half of the College of Arts and Science requirement for six credit hours in Language and Humanities.

BA (120 credit hour) Concentrated Honours in Environmental Science

BA Concentrated Honours in Environmental Science

Students who want a challenging program resulting in a broad background in Environmental Science, including an independent research experience may want to enroll in an Honours program. Students interested in eventually pursuing graduate studies are particularly encouraged to consider Honours. Honours students complete a minimum of 54 credit hours above the 1000 level in Environmental Science or Environmental Science Equivalent Courses with a minimum GPA of 3.0, and each ENVS and ENVS Equivalent Course above the 1000-level must be passed with a grade of "C" or better. Honours students write a research-based Honours thesis and the Honours Qualifying Examination requirement is satisfied through completion of ENVS 4901.03 and ENVS 4902.03.

Admission to Honours

Students must apply for admission to Honours programs. Students considering Honours in Environmental Science should consult with an Environmental Science Advisor early in their studies. To be admitted, students must have a cumulative GPA of 3.5 in the first two years of study. More information on applying to the Environmental Science Honours program can be found at www.dal.ca/environmentalscience.

1000 Level

- ENVS 1100.03: Foundations of Environmental Science: Ecosphere, Resources and Sustainability (grade of B- or higher)
- ENVS 1200.03: Current Environmental Challenges: Analysis and Solutions (grade of B- or higher)
- Six credit hours in a single first year science subject chosen from BIOL, CHEM, PHYC, EARTH, ECON
- STAT 1060.03: Introductory Statistics for Science and Health Sciences

2000 Level

- ENVS 2000.03: Urban Field School or ENVS 2500.03 Field Methods in Environmental Science
- ENVS 2100.03: Environmental Informatics
- Six credit hours chosen from:

- BIOL 2003.03: Diversity of Life I
- BIOL 2004.03: Diversity of Life II
- BIOL 2060.03: Introductory Ecology
- GEOG 2800.03: Climate Change
- CHEM 2505.03
- OCEA 2001.03: The Blue Planet 1
- OCEA 2002.03: The Blue Planet 2
- ECON 2216.03: Economics of Global Warming
- EARTH 2410.03: Environmental Issues in Earth Sciences
- ENVS 2310.03: Energy and the Environment
- PHIL 2480.03: Environmental Ethics

3000 and 4000 Level

- ENVS 3200.03: Introduction to Environmental Law
- ENVS 3501.03: Environmental Problem Solving I
- ENVS 3502.03: Environmental Problem Solving II*
- ENVS 4001.03: Environmental Impact Assessment
- At least six additional credit hours from:
 - Any additional 3000 or 4000 level ENVS courses
 - BIOL 3060.03: Environmental Ecology
 - BIOL 3061.03: Communities and Ecosystems
 - BIOL 4160.03: Political Ecology

*If ESS is the A subject ENVS 3502.03: Environmental Problem Solving II: The Campus as a Living Laboratory is waived, and should be replaced with another ENVS course at or above the 3000 level.

Minor in Environmental Science

This minor is available to students registered in a 120 credit hour Bachelor of Applied Computer Science, Bachelor of Arts, Bachelor of Commerce, Bachelor of Computer Science, Bachelor of Informatics, Bachelor of Management, Bachelor of Music, Bachelor of Science, or Bachelor of Science (Medical Sciences) program.

Requirements:

- Between 18 and 36 credit hours in Environmental Science (ENVS) courses at the 2000 level or higher.

Minor in Environmental Studies

This minor is available to students registered in a 120 credit hour Bachelor of Applied Computer Science, Bachelor of Arts, Bachelor of Commerce, Bachelor of Community Design, Bachelor of Computer Science, Bachelor of Informatics, Bachelor of Management, Bachelor of Music, Bachelor of Science or Bachelor of Science (Medical Sciences) program.

BA Minor

BA students must take 12 credit hours of required courses and 18 elective credit hours from the list of approved courses below. The following rules apply to the selection of courses for the Minor:

- A maximum of three credit hours in the Major subject (e.g. a course beyond those required for the Major) can count instead toward the Minor.
- At least six credit hours from the Approved Electives list must be in FASS courses and at least six credit hours must be from Science Approved Electives courses.

- In addition to ENVS 3200.03: Introduction to Environmental Law, at least nine credit hours must be at the 3000 level or above.

Required Courses:

- ENVS 1000X/Y.06: Introduction to Environmental Science or ENVS 1100.03: Foundations of Environmental Science and ENVS 1200.03: Current Environmental Challenges
- PHIL 2480.03: Environmental Ethics
- ENVS 3200.03: Introduction to Environmental Law

BA Approved Electives in Environmental Studies:

Additions to the following lists will be made, as relevant courses become available.

Faculty of Science:

- BIOL 2060.03: Introductory Ecology
- BIOL 2601.03: The Flora of Nova Scotia
- BIOL 2605.03: Introduction to Marine Life in Nova Scotia
- BIOL 3060.03: Environmental Ecology
- BIOL 3061.03: Communities and Ecosystems
- BIOL 3225.03: Plants in the human landscape
- BIOL 3226.03: Economic Botany, Plants and Civilization
- BIOL 3601.03: Nature Conservation
- BIOL 3615.03: Methods in Ecology
- BIOL 4065.03: Sustainability and Global Change
- ECON 2336.03: Regional Development
- ECON 3332.03: Resource Economics
- ECON 3335.03: Environmental Economics
- EARTH 2410.03: Environmental and Resource Geology I
- EARTH 3500.03: Geoscience Information Management
- GEOG 2800.03: Climate Change
- MARI 4665.03: Hacking the Blue Planet
- OCEA 2001.03: The Blue Planet I
- OCEA 2002.03: The Blue Planet II
- OCEA 2800.03: Climate Change
- PHYC 2451.03: Astronomy I: The Sky and Planets
- PHYC 2800.03: Climate Change
- ENVS 2100.03: Environmental Informatics
- ENVS 2310.03: Energy and the Environment
- ENVS 3000.03: Environmental Science Internship
- ENVS 3100.03: Environmental Analytics
- ENVS 3210.03: Environmental Law II: Natural Justice and Unnatural Acts
- ENVS 3220.03: International Environmental Law for Scientists
- ENVS 3226.03: Economic Botany, Plants and Civilization
- ENVS 3300.03: Contaminated Site Management
- ENVS 3400.03: Human Health and Sustainability
- ENVS 3501.03: Environmental Problem Solving I
- ENVS 3502.03: Environmental Problem Solving II: The Campus as a Living Laboratory
- ENVS 3702.03: Sustainable Industries
- ENVS 4001.03: Environmental Impact Assessment
- ENVS 4004.03: Pathways to Sustainable Energy

- ENVS 4100.03: Environmental Science Capstone

Faculty of Arts and Social Sciences (FASS):

- CTMP 3000.06: Science and Culture
- CTMP 3150.03: Nature and History
- CTMP 3210.03: Intersecting Bodies, Selves and Environments
- CTMP 3411.03: Studies in Contemporary Science and Technology
- EMSP 2310.03: Women and Gender in Early Modern Science
- EMSP 2330.03: Nature Imagined
- EMSP 3000.06: The Study of Nature in Early Modern Europe
- ENGL 4005.03: Green Reading: Nature, Culture, Canada
- ENGL 4400.03: Nature of America
- HSTC 3000.03: The Scientific Revolution
- HSTC 4000.06: Science and Nature in the Modern Period
- HSTC 4300.03: Nature and Romanticism
- HIST 3073.03: History of Marine Sciences
- HIST 3210/CANA 3020/GEOG 3020.03: Canadian Cultural Landscapes
- HIST 3302.03: Technology and History in North America
- HIST 3370.03: North American Landscapes
- HIST 3750.03: History of Seafaring
- HIST 4271.03: The Fisheries of Atlantic Canada - Society and Ecology in Historical Perspective
- HIST 4350.03: People and Things - Material Culture
- INTD 2001.03: Introduction to Development I
- INTD 2002.03: Introduction to Development II
- INTD 3002.03: Seminar in Development: Development Practice
- INTD 3114.03: Environment and Development
- INTD 3304.03: Sustainable Development in Cuba
- INTD 4013.03: Environmental Conflict & Security
- PHIL 2475.03: Justice in Global Perspective
- PHIL 2485.03: Technology and the Environment
- PHIL 3670.03: Philosophy of Science
- PHIL 4120.03: Theory of Rational Decision-Making
- POLI 3585.03: Politics of the Environment
- POLI 4228.03: Interest Groups
- POLI 4380.03: Politics of Climate Change
- SOSA 2100.06: Environment and Culture
- SOSA 3185.03: Issues in the Study of Indigenous Peoples of North America
- SOSA 3190.03: Social Movements
- SOSA 3200.03: Environment and Society
- SOSA 3220.03: Coastal Communities
- SOSA 4210.03: Tourism and Development
- SPAN 2070.03: Area Studies on Mexico and Central America
- GWST 3310.03: Gender and Development in Africa

Other Electives

- PLAN 2001.03: Landscape Analysis
- PLAN 3001.03: Landscape Ecology
- PLAN 3002.03: Reading the City
- PLAN 3005.03: Cities and the Environment in History

- PLAN 3010.03: Urban Ecology
- PLAN 3020.03: Landscape Design
- PLAN 4106.03: Transportation Planning

BACSc, BSc, BCSc, BInf, BComm, BMgmt Minor

Students in these programs must take 18 credit hours of required courses, plus 12 credit hours from the approved list of elective courses below. Note: In planning their programs students must take into account the prerequisites which apply to many of the elective courses listed below. The following rules apply to the selection of courses for the Minor:

- No course can fulfill a requirement of both the Major or Honours subject and the Minor.
- A maximum of three credit hours in the Major/Honours subject (e.g. a course beyond those required for the Major/Honours) can count toward the Minor.
- At least three credit hours beyond the required courses must be at the 3000 level or above.

Additions to the Electives list will be made as relevant courses become available.

Required Courses:

- ENVS 1000X/Y.06: Introduction to Environmental Science or ENVS 1100.03: Foundations of Environmental Science and ENVS 1200.03: Current Environmental Challenges
- PHIL 2480.03: Environmental Ethics
- ENVS 3501.03: Environmental Problem Solving I
- ENVS 3502.03: Environmental Problem Solving II
- ENVS 3200.03: Introduction to Environmental Law

Electives (12 credit hours from the list):

- BIOL 2601.03: The Flora of Nova Scotia
- BIOL 2605.03: Introduction the Marine Life of Nova Scotia
- BIOL 3063.03 Resource Ecology
- BIOL 3225.03: Plants in the Human Landscape
- BIOL 3226.03: Economic Botany, Plants and Civilization
- BIOL 3601.03: Nature Conservation
- BIOL 3xxx.03: Any ecology-related course at 3000-level or above
- BIOL 4065.03: Sustainability and Global Change
- BIOL 4104.03: Environmental Microbiology
- BIOL 4160.03: Political Ecology
- CHEM 2505.03: Environmental Chemistry I
- CHEM 4203.03: Environmental Chemistry II
- CHEM 4595.03: Atmospheric Chemistry
- CTMP 3210.03: Intersecting Bodies, Selves and Environment
- CTMP 3220.03: The Aesthetics of Nature
- EARTH 2203.03: Sediments and Sedimentary Rocks
- EARTH 2410.03: Environmental and Resource Geology I
- EARTH 3302.03: Quaternary Sedimentary Environments
- EARTH 3400.03: Fundamentals of Hydrogeology
- EARTH 3402.03: Practical Hydrogeology
- EARTH 3410.03: Environmental Geology 2
- EARTH 3420.03: Geochemistry of Aquatic Environments
- EARTH 3440.03: Geomorphology

- EARTH 3500.03: Geoscience Information Management
- EARTH 4450.03: Introduction to Landscape Simulation
- EARTH 4502.03: Micropaleontology and Global Change
- EARTH 4520.03: GIS Applications to Environmental and Geological Sciences
- EARTH 4530.03: Environmental Remote Sensing
- ECON 2210.03: Emerging Giants: the Economic Rise of China and India
- ECON 2216.03: Economics of Global Warming
- ECON 3332.03: Resource Economics
- ECON 3335.03: Environmental Economics
- ENVS 2100.03: Environmental Informatics
- ENVS 2310.03: Energy and the Environment
- ENVS 3000.03: Environmental Science Internship
- ENVS 4210.03: Administrative Environmental Law: Natural Justice and Unnatural Acts
- ENVS 3220.03: International Law for Environmental Scientists
- ENVS 3225.03: Plants in the Human Landscapes
- ENVS 3226.03: Economic Botany, Plants and Civilization
- ENVS 3300.03: Contaminated Site Management
- ENVS 3301.03: Enterprise Sustainability
- ENVS 3400.03: Human Health and Sustainability
- ENVS 3500.03: Geoscience Information Management
- ENVS 3615.03: Methods in Ecology
- ENVS 3632.03: Applied Field Methods in Fish Ecology
- ENVS 3801.03: Directed Readings in Environmental Science
- ENVS 3702.03: Sustainable Industries
- ENVS 4001.03: Environmental Impact Assessment
- ENVS 4100.03: Environmental Science Capstone
- ENVS 4004.03: Pathways to Sustainable Energy
- GEOG 2800.03: Climate Change

- POLI 3385.03: Politics of the Environment
- POLI 3589.03: Politics of the Sea I
- POLI 3590.03: Politics of the Sea II
- SOSA 2100.06: Environment and Culture
- SOSA 3200.03: Environment and Society
- SOSA 3211.03: Continuity and Change in Rural Society
- SOSA 3220.03: Coastal Communities in the North Atlantic

BCD Minor

The Minor in Environmental Studies is a 30 credit hour Minor taken in conjunction with the Bachelor of Community Design Honours (It is not available within the three year BCD program). The Minor in Environmental Studies provides a student with an appreciation of the scientific, cultural, economic, historic, legal and social aspects of environmental issues. The student will have the opportunity to earn an additional credential on the degree to recognize the special concentration of courses in environmental studies. Approval for the program is required from the School of Planning and from the Coordinator of Environmental Programs. Students complete all requirements for their Honours Major in addition to these required courses for the minor. Students may count the course ENVS 1000 towards both the BCD requirements and towards the requirement for the Minor. Other courses cannot be counted towards both sets of requirements.

Required Courses:

- ENVS 1000.06: Introduction to Environmental Studies (or DISP) or ENVS 1100.03: Foundations of Environmental Science and ENVS 1200.03: Current Environmental Challenges
- PHIL 2480.03: Environmental Ethics
- ENVS 3200.03: Environmental Law
- ENVS 3501.03: Environmental Problem Solving I
- ENVS 3502.03: Environmental Problem Solving II

Elective requirements:

12 credit hours of courses from the following list:

- BIOL 2605.03: Introduction to Marine Life of Nova Scotia
- BIOL 3601.03: Nature Conservation
- CHEM 2505.03: Environmental Chemistry I
- CHEM 4203.03: Environmental Chemistry II
- ECON 2216.03: Economics of Global Warming
- ECON 2336.03: Regional Development
- ECON 3332.03: Resource Economics
- ECON 3335.03: Environmental Economics
- ENVS 3000.03: Environmental Science Internship
- ENVS 3200.03: Introduction to Environmental Law
- ENVS 3226.03: Economic Botany, Plants and Civilization
- ENVS 3300.03: Contaminated Site Management
- ENVS 3301.03: Enterprise Sustainability
- ENVS 3220.03: International Environmental Law for Scientists
- ENVS 3400.03: Environment and Human Health

- ENVS 3500.03: Exploring Geographic Information Systems
- ENVS 4001.03: Environmental Impact Assessment
- ESMP 2330.03: Nature Imagined
- ESMP 3000.06: The Study of Nature in Early Modern Europe
- EARTH 3302.03: Quaternary Sedimentary Deposits
- EARTH 3440/GEOG 3440: Geomorphology
- HIST 3370.03: North American Landscapes
- INTD 2001.03: Introduction to Development I
- INTD 2002.03: Introduction to Development II
- MARI 4665.03: Hacking the Blue Planet
- OCEA 2001.03: The Blue Planet I
- OCEA 2002.03: The Blue Planet II
- OCEA 2800.03: Climate Change
- OCEA 3001.03: Introduction to Physical Oceanography
- OCEA 3002.03: Introduction to Chemical Oceanography
- PHIL 2485.03: Technology and the Environment
- POLI 3385.03: Politics of the Environment
- POLI 3589.03: Politics of the Sea I
- SOSA 2100.06: Environment and Culture
- SOSA 3200.03: Environment and Society
- SOSA 3211.03: Continuity and Change in Rural Society
- SOSA 3220.03: Coastal Communities in the North Atlantic
- SOSA 4072.03: Naturalistic Approaches to the Social Sciences
- STAT 3345.03: Environmental Risk Assessment

Co-op, Minors, Certificates and Engineering Concurrent Programs for Students

Co-operative Education Program (Science Co-op) in Environmental Science

Co-op Academic Advisor: Dr. Tarah Wright tarah.wright@dal.ca

Science Co-op is a program where academic study in a science subject is combined with paid career-related work experience. Students undertake three work-terms interspersed with their academic study terms. Science Co-op degree programs enable students to apply their knowledge directly while providing them with work experience that assists in making educated career choices.

Science Co-op is available to students in BSc (120 credit hour) Honours or Major programs in Environmental Science, or in Combined Honours or Double Major programs with Environmental Science as the primary subject. The number of students admitted into Science Co-op each year is limited. A minimum GPA of 3.00 is required for admission and for continuation in the Co-op program. Students must be eligible to work in Canada.

Students normally apply to join Science Co-op during their first year of study. Students must apply before April 15, and it is strongly recommended that interested students meet with their Departmental Co-op advisor early in the Winter term of their first year. If accepted into Science Co-op, students must register for, and attend the Science Co-op Seminar Series (SCIE 2800.00) at least four months prior to the first work term.

Details are available from the Environmental Science Co-op Academic Advisor and from the Co-operative Education office http://www.dal.ca/academics/cooperative_education.html. For more information on Co-op Education in Environmental Science, please see www.dal.ca/environment.

Minors available to students in Environmental Science

Minor programs allow students to develop subject specialties in addition to their major or honours subjects. Minors in other subjects are normally added to 120 credit hour BSc or BA programs (including Science Co-op).

Students in a BSc or BA (120 credit hour) program in Environmental Science may choose to include a Minor selected from the [list of approved Minors](#). Courses counted toward a Major or Honours subject cannot be used to fulfill the requirements of a Minor program.

Certificates

In combination with a BSc or BA in Environmental Science, students may obtain one or more Certificates. A Certificate indicates that a student has achieved a certain level of proficiency in a given area or subspecialty. Courses counted toward a Major, Honours or Minor subject may also be used to fulfill the requirements of a Certificate. Students must apply to the Certificate Coordinator to be considered for a Certificate. Certificates are awarded upon graduation and are noted on the student's academic transcript.

A complete list of [Faculty of Science Certificates](#) and requirements can be found at the beginning of the [Faculty of Science](#) section. Students may also work toward obtaining Certificates offered by other Faculties; some of these are listed in the [College of Arts and Science Degree Requirements](#).

Certificates of particular interest to student enrolled in a BSc or BA in Environmental Science include:

- [Certificate in Animal Behaviour](#)
- [Certificate in Environmental Impact Assessment](#)
- [Certificate in Geographic Information Science](#)
- [Certificate in Science Leadership and Communication](#)

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are typically available to students in the second, third, and fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not obtain credit for both courses as designated.

Not all courses are offered each year. Please consult the current [timetable](#) for this year's offering. For further information please contact the department, or visit the department's website.

Course Descriptions

ENVS 1100 Foundations of Environmental Science: Ecosphere, Resources & Sustainability

CREDIT HOURS: 3

This course introduces students to key topics in Environmental Science including science literacy, environmental ethics, principles of ecology, evolution, biodiversity, human population growth, soil, agriculture, forestry, and oceans and freshwater systems. Tutorials reinforce and supplement lectures and allow for small group discussion and debate.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: ENVI 1100.06, ENVS 1000.06, MGMT 1702.03

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

ENVS 1200 Current Environmental Challenges: Analysis and Solutions

CREDIT HOURS: 3

This course introduces current issues and challenges in Environmental Science including air pollution and climate change, non-renewable and renewable energy, waste, urbanization, environmental law, and sustainability and education. Tutorials reinforce and supplement lectures and allow for small group discussion and debate.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: ENVI 1100.06, ENVS 1000.06, MGMT 1702.03

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

ENVS 2000 Urban Field School

CREDIT HOURS: 3

This field course offers an introduction to urban environmental science by examining the role of humans in ecosystems and how humans change ecosystem processes and functions within urban areas. Students gain hands-on experience in environmental science techniques during excursions in different urban settings within the Halifax Regional Municipality.

CALENDAR NOTES: Offered in early May. Daily field trips and/or labs. An auxiliary fee is charged to cover field expenses.

COREQUISITES:

PREREQUISITES: ENVS 1000.06 or SCIE 1505.18 or ENVS 1100.03 and ENVS 1200.03, or equivalent and open only to students in the BSc or BA Environmental Science Programs

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

ENVS 2100 Environmental Informatics

CREDIT HOURS: 3

Environmental Informatics is the knowledge, skills and tools which enable information to be collected, managed and disseminated to support research in environmental science. Students develop analytical skills using a variety of software including spatial querying in GIS. Identification of fallacies in the media and effective science communication are introduced and applied to current environmental issues.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ENVS 1100.03 and ENVS 1200.03, and STAT 1060.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

ENVS 2310 Energy and the Environment

CREDIT HOURS: 3

The physical principles and limitations of renewable energy source utilization and energy conversion. A quantitative introduction to energy conversion and storage systems, including solar power and heating, wind, tidal, geothermal, hydroelectric, nuclear power, hydrogen technology, electrical and mechanical energy storage. The input of these energy options on the global climate and environment will be discussed.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PHYC 1190.03/1290.03 or PHYC 1300X/Y.06 or CHEM 1011.03/1012 and MATH 1000.03 or MATH 1215.03 or permission of the instructor.

CROSSLISTED: PHYC 2310.03

RESTRICTIONS:

EXCLUSIONS: Students who have previously taken PHYC 3330 can not take PHYC 2310.

FORMATS: Lecture

LAB HOURS PER WEEK:

ENVS 2410 Environmental Issues in Earth Sciences

CREDIT HOURS: 3

Geology underlies many of the environmental problems facing humanity today. Topics include environmental aspects of energy and mineral resource, geologic hazards, geologic connections to pollution and waste disposal, and the role that water plays in its various guises. Canadian examples are incorporated where appropriate. Approved with Canadian Studies.

CALENDAR NOTES: This course is not offered every year. Please consult department in the spring for further information.

COREQUISITES:

PREREQUISITES: One of: EARTH 1080, EARTH/GEOG 1030, EARTH/GEOG 1060, ENVS 1100.03 and ENVS 1200.03, or ENVS 1000.06, SUST 1001 with a grade of B or above, or DISP with Earth Sciences

CROSSLISTED: CANA 2410.03, EARTH 2410.03

RESTRICTIONS:

EXCLUSIONS: This class is not available for Earth Sciences Majors

FORMATS: Lecture

LAB HOURS PER WEEK:

ENVS 2500 Field Methods in Environmental Science

CREDIT HOURS: 3

A field-based immersion into environmental field sampling methods. Students gain skills in flora and fauna identification and inventory, assessment of ecosystem health, and sampling methods for air and soil. GPS, GIS, and basic remote sensing skills are utilized in sampling design, collection and visualization of results.

CALENDAR NOTES: Includes a number of field trips. An auxiliary fee is charged to cover field expenses.

COREQUISITES:

PREREQUISITES: ENVS 1100.03 and ENVS 1200.03, (or ENVS 1000.06)

CROSSLISTED:

RESTRICTIONS: Restricted to students in BSc and BA Environmental Science programs

EXCLUSIONS:

FORMATS: Lab

LAB HOURS PER WEEK:

ENVS 3000 Environmental Science Internship

CREDIT HOURS: 3

This course allows students to gain hands-on experience while addressing a question of personal and academic interest relevant to the field of environmental science by working as interns for 8 hours a week over a twelve-week period on a specific project at a sponsoring agency.

CALENDAR NOTES: It is the student's responsibility to consult with Environmental Program at least 3 weeks prior to the term in which the internship will take place to arrange for a placement and to make sure that the details of the internship are in accordance with university standards.

COREQUISITES:

PREREQUISITES: Open ONLY to students in Minor in Environmental Studies, Honours/Major/Double Major/Combined Honours in Environmental Science

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

ENVS 3001 Environmental Science Field School

CREDIT HOURS: 3

Daily field trips introduce methods used in environmental science and environmental processes at diverse sites within Nova Scotia. Involves full-day trips from Halifax and a multi-day camping trip away from Halifax. Offered during the last 2 weeks before Labour Day.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ENVS 2100 and must be an ENVS student

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS:
LAB HOURS PER WEEK:

ENVS 3100 Environmental Analytics

CREDIT HOURS: 3

This course takes a hands-on approach to data analysis to support environmental conservation. Topics include experimental design, spatial pattern analysis, visualization of 3D data, ecological modelling, and animated mapping of time series data. Emphasis is placed on learning skills directly applicable to conducting environmental research in a variety of settings.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ENVS 2100.03 and STAT 2080.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

ENVS 3200 Introduction to Environmental Law

CREDIT HOURS: 3

This course will take a look at how environmental law operates in Nova Scotia within the Federal framework and it will illustrate some of the multi-disciplinary aspects which make this area of law part science, part art and part soothsaying.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Must be a third year student

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ENVS 3225 Plants in the Human Landscape

CREDIT HOURS: 3

The use of plants for human recreation and aesthetic purposes in gardens, public parks, suburban and urban landscapes. Topics include: history of gardens, garden design, plant materials, edible landscaping, plants and human health. The course includes field trips and group work and students complete a design project.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 1010.03 or BIOL 1020.03 (C+ or better) and BIOL 1011.03 or BIOL 1021.03 (C+ or better) or DISP or PLAN 2001.03

CROSSLISTED: PLAN 3225, BIOL 3225

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

ENVS 3226 Economic Botany, Plants and Civilization

CREDIT HOURS: 3

The story of the human use of plants for food, fibre and fuel including the botany, domestication, development, distribution, production, processing, history, economic and social impacts of the major world crops (cereals, fruits, vegetables, flowers and industrial crops) and the importance of plants in medicine and conservation.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: A grade of C+ or higher in BIOL 1010.03 or (BIOL 1020.03 or BIOA 1002.03 or BIOL 1030.03) and BIOL 1011.03 or (BIOL 1021.03, BIOA 1003.03, or BIOL 1031.03); or SCIE 1505.18

CROSSLISTED: BIOL 3226.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

ENVS 3300 Contaminated Site Management

CREDIT HOURS: 3

Scientists, engineers and planners should have a basic understanding of the issues surrounding environmental site assessment given the potential environmental and socio-economic impacts. Topics include phased assessments, risk assessment, remediation and monitoring. Case studies, projects, guest speakers and field trips augment the class.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 1011.03 and 1012.03 (or equivalent) AND EARTH 1080.03; OR permission of the instructor

CROSSLISTED:

RESTRICTIONS: Restricted to 3rd year students and above or permission of instructor.

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ENVS 3400 Environment and Human Health

CREDIT HOURS: 3

This course examines the relationships between the health of populations and health determinants in the context of environmental sustainability. Weekly laboratory exercises will teach students how geomatics (GIS, GPS, and remote sensing technologies) and epidemiological tools can be used to assess the links between the health of human populations and the health of the environment, and how to use these tools for environmental health research.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Must be a third year student or have permission of instructor

CROSSLISTED: GEOG 3400.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

ENVS 3500 Geoscience Information Management

CREDIT HOURS: 3

See course description for EARTH 3500 in the Earth Sciences section of the calendar.

LAB HOURS PER WEEK:

ENVS 3501 Environmental Problem Solving I

CREDIT HOURS: 3

This course introduces students to concepts and methods for analyzing environmental problems. Students will learn analytical approaches for problem solving that are appropriate for a wide range of environmental issues and apply these to the analysis of case studies.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ENVS 1100.03 and ENVS 1200.03 (with a grade of B- or higher in each) or SUST 1000.06 or SUST 1001.06 (with a grade of B- or higher). Must be a 3rd year student OR have permission of instructor.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

ENVS 3502 Environmental Problem Solving II: The Campus as a Living Laboratory

CREDIT HOURS: 3

In this course the campus serves as a living laboratory for identifying, evaluating and assessing indicators of progress toward greater campus sustainability. Working in groups, students apply problem solving models to case studies using qualitative and quantitative research methods and make recommendations for improvements on campus based on their analyses.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ENVS 1100.03 and ENVS 1200.03 (with a grade of B- or higher in each) or SUST 1000.06 or SUST 1001.06 (with a grade of B- or higher). Must be a 3rd year student OR have permission of instructor.

CROSSLISTED: SUST 3502.03

RESTRICTIONS:

EXCLUSIONS: MGMT 3701.03

FORMATS:

LAB HOURS PER WEEK:

ENVS 3601 Global Biogeochemical Cycles

CREDIT HOURS: 3

An interdisciplinary course that examines example global cycles of water, carbon, nitrogen, phosphorus, and sulphur, and human impacts on these cycles, as manifested in our atmospheric, soil, ocean and freshwater environments. This course involves discussion of the latest developments in this rapidly changing field and will provide a framework for those interested in global change.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: An introductory Chemistry class and one of ENVS 1000.06 or ENVS 1100.03 and ENVS 1200.03, SUST 1001.06, EARTH 1080.03, or EARTH 1090.03, or OCEA 2000.06, or OCEA 2001.03 and OCEA 2002.03

CROSSLISTED: EARTH 3601.03

LAB HOURS PER WEEK:

ENVS 3633 Spatial Information and GIS in Ecology

CREDIT HOURS: 3
A hands-on approach to understanding and using spatial information, this course introduces students to Geographic Information Systems (GIS) as a tool to answer ecological questions. Together, students conduct a major field project, collecting data, creating maps using GIS, and interpreting spatial patterns, to address an applied problem in ecology.
CALENDAR NOTES: Offered in the summer through SEASIDE. an auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see seaside.science.dal.ca.
COREQUISITES:

ENVS 3701 Fundamentals of Hydrology

CREDIT HOURS: 3
This course is an introduction to hydrology, emphasizing surface processes and watershed responses. In this course we learn about both the pure and applied uses of hydrology. The course is quantitative and introduces hydrologic processes in the atmosphere, on the land surface, in groundwater and in stream channels.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: MATH 1000.03 or MATH 1215.03 and one of ENVS 1000.06 or ENVS 1100.03 and ENVS 1200.03, SUST 1001.06, EARTH 1080.03, or EARTH 1090.03 or one of SCIE 1515X/Y.21, SCIE 1530.27, SCIE 1540X/Y.33 and completion of 2 years of an undergraduate degree. PHYC 1280 and PHYC 1290.03 (or PHYC 1300X/Y.06) and MATH 1010.03 are recommended.
CROSSLISTED: EARTH 3701.03

RESTRICTIONS:
EXCLUSIONS:
FORMATS: Lecture | Tutorial
LAB HOURS PER WEEK:

ENVS 3702 Sustainable Industries

CREDIT HOURS: 3

This course introduces concepts and methods for analyzing industrial sustainability through an interdisciplinary lens including economic, social and environmental considerations. The business case for industrial sustainability, the tools necessary to decouple economic growth of our business sectors from resource use and environmental degradation, and the role of sustainable industries in the sustainable development agenda are explored.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: (ENVS 1100.03 and ENVS 1200.03) or MGMT 1700.06 or ENVI 1100.06 or ENVS 1000.06 or SUST 2000.06 or SUST 2001.06 or (MGMT 1702.03 and MGMT 2702.03)

CROSSLISTED: MGMT 3702.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ENVS 3801 Directed Readings in Environmental Science

CREDIT HOURS: 3

This course is intended for third and fourth-year students who wish to study in an area of environmental science not covered in other courses offered at the university. It involves independent study supervised by a faculty member. Class content and marking scheme must be approved by the Director of Environmental Programs during the first week of the academic term in which the credit is being sought. It is the student's responsibility to consult with Environmental Programs at least 2 weeks prior to the term in which the Directed Readings course will take place.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ENVS 1000X/Y.06 or ENVS 2001.03 or (ENVS 1100.03 and ENVS 1200.03) and third year student status.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

ENVS 4001 Environmental Impact Assessment

CREDIT HOURS: 3

This course provides an opportunity to explore all aspects of environmental impact assessment (EIA) as practiced in Canada and in other countries. The course traces the development of EIA over the past 30 years and critically examines the scientific, procedural and political dimensions.

CALENDAR NOTES: All students taking BIOL 4001.03 or ENVS 4001.03 must have completed 90 credits and be in their fourth year of study or have permission of instructor.

COREQUISITES:

PREREQUISITES: ENVS 1000X/Y.06 or ENVS 1100.03 and ENVS 1200.03 or BIOL 2060.03 or EARTH 2410.03 or GEOG 2100X/Y.06 or GEOG 2201.03 or GEOG 2202.03 or INTD 2001.03 or INTD 2002.03 or OCEA 2000X/Y.06 (or OCEA 2001.03 and OCEA 2002.03) or SUST 2000.06 or SUST 2001.06.

CROSSLISTED: BIOL 4001.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

ENVS 4002 The Science of Wetland Ecosystems

CREDIT HOURS: 3

An interdisciplinary introduction to wetland ecosystems, with emphasis on the relationship between wetlands and the surrounding watershed. This relationship determines wetland type, function and in developed landscapes, wetland health. Inversely, wetland type,

function and health can affect the developed landscapes. Students will gain an appreciation of the physical relationship through an examination of wetland hydrology, chemical cycling, and ecology. Management of wetlands in the landscape through policy and engineering will also be studied.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 1011.03/1012.03 or CHEM 1021.03/1022.03 and BIOL 2060.03

CROSSLISTED: BIOL 4002.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ENVS 4003 Coral Reefs and Environmental Change

CREDIT HOURS: 3

Coral reefs are iconic marine ecosystems both biologically and economically. This class introduces students to the biology of both tropical and cold-water corals, key characteristics of their abiotic environments, human impacts at both local and global scales, and management options for sustainable resource use and the protection of biodiversity.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Chem 1011/Chem 1012 and Biol 2060. Also restricted to students with 6 credit hours in Environmental Science or Biology or Marine Biology at or above the 3000 level.

CROSSLISTED: MARI 4003

RESTRICTIONS: Restricted to exclude E1, E2, E3.

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

ENVS 4004 Pathways to Sustainable Energy

CREDIT HOURS: 3

Students gain a practical understanding of how to move towards a low-carbon energy future. Students learn about international, national, and subnational policies that drive adoption of renewable energy, energy efficiency, and carbon capture and storage technologies and how the technologies work. The technological barriers to their widespread adoption and how to overcome these barriers are also discussed.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 1101.03 or ECON 1102.03 or SUST 2006.06 and be a 4th year student, or have permission of instructor.

CROSSLISTED: SUST 4004.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

ENVS 4100 Environmental Science Capstone

CREDIT HOURS: 3

Students apply the multidisciplinary knowledge they have acquired during their program of study to real world environmental issues. Students work individually and in groups in preparation towards a formal debate. They evaluate evidence from science, economics, philosophy and other ways of understanding the world to develop mastery and nuance among current environmental topics.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: (ECON 1101.03 or ECON 1102.03), PHIL 2480.03, STAT 2080.03, ENVS 2100.03, ENVS 3200.03, and ENVS 3501. Must be a fourth year student.

CROSSLISTED:

RESTRICTIONS: E1, E2, E3

EXCLUSIONS:

FORMATS: Seminar | Discussion

LAB HOURS PER WEEK:

ENVS 4850 Geographic Information Science Research Project

CREDIT HOURS: 3

Students learn how to design, manage and complete a research project in Geographic Information Science (GIS). Projects must include a substantive analytical component where GIS is central to methods employed. Evaluation includes a written report, oral presentation and digital data. Required for completion of the Certificate in GIS.

CALENDAR NOTES:

COREQUISITES: EARTH 5420.03/GEOG 4520.03/ERTH 4520.03

PREREQUISITES: ENVS 3500.03/ERTH 3500.03/GEOG 3500.03 and permission of instructor

CROSSLISTED: BIOL 4850.03, SCIE 4850.03, EARTH 4850.03, GEOG 4850.03

RESTRICTIONS:

EXCLUSIONS: Restricted to 3rd and 4th year students.

FORMATS: Lecture

LAB HOURS PER WEEK:

ENVS 4901 Honours Thesis Part A

CREDIT HOURS: 3

Mastery of the basic skills of problem definition, proposal preparation and project implementation is the key to dealing with a wide range of "real-life" situations, both on and off the career path. Includes lectures and tutorials on proposal writing, research design and methodologies, and an independent environmental science research project carried out under the supervision of an approved faculty member. Required for Honours Environmental Science.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Fourth year Environmental Science and permission of Instructor/Director

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Seminar

LAB HOURS PER WEEK:

ENVS 4902 Honours Thesis Project Part B

CREDIT HOURS: 3

Independent research project carried out under the supervision of an approved faculty member or affiliated research scientists. Required for Honours Environmental Science.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ENVS 4901.03 with a grade of B+ or higher

CROSSLISTED:

First Year Interest Groups (FIGs)

First Year Interest Groups (FIGs)

What is a FIG and why sign up?

A First Year Interest Group, or FIG, is a group of students who meet weekly for an hour during the fall term of their first year at Dal. Groups are composed of about 15 students who have similar academic interests or goals, and who are enrolled in one or more of the same first year courses.

FIGs are designed to complement the classroom experience. It's a place to meet other first year students, and to discuss some of the big ideas emerging in your future field of study. Signing up for a FIG can help you get involved, meet people, and maybe even form lasting friendships. FIGs are free, informal, interactive groups that will help you make the most out of your first year at Dal.

What will you do in a FIG?

- Get to know other first year students with similar interests (maybe you'll find a study partner)
- Meet Dal faculty or professionals who work in your area of interest
- Find out how to get involved (volunteer opportunities, events, clubs)
- Learn about future opportunities for students with your interests (scholarships, summer research, co-op, study abroad)
- Talk!

Who should enrol in a FIG?

Any student in the Faculty of Science who has been accepted as an undeclared Science student and is in their first year of studies can enrol in a FIG.

How do I enrol in a FIG?

You enroll in a FIG when you registered for your regular courses, using the same registration procedure. First, make sure that the time slot of the FIG doesn't conflict with the lecture, lab or tutorial times of your other courses. Then register for the appropriate FIG section (FIGS 0001, 0002, etc.).

Does a FIG count toward my degree?

The FIG will appear on your academic transcript – it can be seen by future employers along with the credit courses you complete. However, because it is not for credit, a FIG does not count as part of the 90 or 120 credit hours you must complete for a BSc degree.

Will I receive a grade for my FIG?

If you complete the FIG, it will appear on your academic transcript with Pass noted beside it. Letter grades are not given for FIGs, and FIGs are not included in calculation of your GPA. However, to receive a Pass you must participate in the FIG sessions.

What if I don't like my FIG?

We expect that most students will enjoy their FIG, and will feel that the time has been well spent. However, if for some reason you find that you do not want to participate in your FIG, you may withdraw. The FIG will then not appear on your transcript.

Can I sign up for more than one FIG?

No. We want to offer the opportunity to participate in a FIG to as many students as possible, and so students may not register in more than one FIG.

FIG options for science students

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are available to students in the second, third, and fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not take both courses as designated.

Not all courses are offered each year. Please consult the current timetable for this year's offering. For further information please contact the department.

Course Descriptions

FIGS 0001 Mental Health and Behaviour

CREDIT HOURS: 0

Mental Health & Behaviour is a group for first year science students with interests in human behaviour, the brain, and mental health. In this FIG, you will meet other first year students and will have opportunities to explore your interests. FIGS are a great way to gain unique access and exposure to experts, professors, labs and facilities during your first year in science.

CALENDAR NOTES: Note: For first year students enrolled in the Faculty of Science as Undeclared Science majors. FIG courses are zero credit hours, but will appear on the academic transcript if completed.

COREQUISITES:

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS: Restricted to UNDS and Foundation Year (King's) students who have fewer than 16 credit hours.

EXCLUSIONS:

FORMATS: Seminar

LAB HOURS PER WEEK:

FIGS 0002 Neuroscience of the Brain

CREDIT HOURS: 0

Neuroscience of the Brain is a group for first year science students who are coming to Dal to learn about the brain, how it works and why that matters. In this FIG, you will meet first year students and will have opportunities to explore your interests. FIGS are a great way to gain unique access and exposure to experts, professors, labs and facilities during your first year in science.

CALENDAR NOTES: Note: For first year students enrolled in the Faculty of Science as Undeclared Science majors. FIG courses are zero credit hours, but will appear on the academic transcript if completed.

COREQUISITES:

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS: Restricted to UNDS and Foundation Year (King's) students with fewer than 16 credit hours.

EXCLUSIONS:

FORMATS: Seminar

LAB HOURS PER WEEK:

FIGS 0003 Health and Medicine

CREDIT HOURS: 0

Health & Medicine is a group for first year science students who are coming to Dal to learn about physiology and/or disease and are

interested in pursuing a medical profession. In this FIG, you will meet first year students and will have opportunities to explore your interests. FIGS are a great way to gain unique access and exposure to experts, professors, labs and facilities during your first year in science.

CALENDAR NOTES: Note: For first year students enrolled in the Faculty of Science as Undeclared Science majors. FIG courses are zero credit hours, but will appear on the academic transcript if completed.

COREQUISITES:

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS: Restricted to UNDS and Foundation Year (King's) students with fewer than 16 credit hours.

LAB HOURS PER WEEK:

FIGS 0004 Oceans

CREDIT HOURS: 0

Oceans is a group for first year science students who are coming to Dal to learn more about ocean life, including marine mammal conservation, climate change, sustainable fishery, and the living organisms found in ocean environments. In this FIG, you will meet first year students and will have opportunities to explore your interests. FIGS are a great way to gain unique access and exposure to experts, professors, labs and facilities during your first year in science.

CALENDAR NOTES: Note: For first year students enrolled in the Faculty of Science as Undeclared Science majors. FIG courses are zero credit hours, but will appear on the academic transcript if completed.

EXCLUSIONS:

FORMATS: Seminar

LAB HOURS PER WEEK:

FIGS 0005 Earth and Environment

CREDIT HOURS: 0

Who should register: You are coming to Dal with an interest in the natural world. You may want to focus your studies on how our world came to be as it is today – continental drift, mountain building, ice ages, river migration, paleobiology, or you may be most interested in how we as humans are changing that world – our impacts on climate, land, water and ecosystems. In this FIG, you will meet first year students with similar interests. You will have the opportunity to explore your interests and the options for shaping your academic pathway, with senior peers and with experts, all in a small group setting. Relevant Science programs: Earth Sciences, Environmental Science, Biology, Chemistry, Economics, Marine Biology, Physics, Statistics, Sustainability

CALENDAR NOTES: Note: For first year students enrolled in the Faculty of Science as Undeclared Science majors or as BSc students in the College of Sustainability. FIG courses are zero credit hours, but will appear on the academic transcript if completed.

COREQUISITES: One Science course or SUST 1000

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS: Restricted to UNDS or BSc (College of Sustainability) students with fewer than 16 credit hours.

EXCLUSIONS:

FORMATS: Seminar

LAB HOURS PER WEEK:

FIGS 0007 Genes, Proteins and Technology

CREDIT HOURS: 0

Who should register: You are coming to Dal with a curiosity about genetics and the technologies of molecular biology: how do genes and proteins work and what can they tell us? You may want to study how genetic information can be used to diagnose and cure diseases and how new technologies are revolutionizing the field of medicine. You may be curious about how genomics are used in forensics or to trace the ancient routes of humans as they spread through the world. Or you may be most interested in how genetic signatures are used in the areas of ecology and behaviour, to assess paternity in chimpanzee societies, to discover sea turtle migration patterns and to measure biodiversity. In this FIG, you will meet first year students with similar interests. You will have the opportunity to explore your interests and the options for shaping your academic pathway, with senior peers and with experts, all in a small group setting. Relevant Science programs: Biochemistry & Molecular Biology, Chemistry, Physics, Statistics Note: For first year students enrolled in the Faculty of Science as Undeclared Science majors. FIG courses are zero credit hours, but will appear on the academic transcript if completed.

CALENDAR NOTES:

COREQUISITES: CHEM 1011 or BIOL 1010

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS: Restricted to UNDS and Foundation Year (King's) students with fewer than 16 credit hours.

EXCLUSIONS:

FORMATS: Seminar

LAB HOURS PER WEEK:

FIGS 0008 Logic and Problem Solving

CREDIT HOURS: 0

Logic & Problem Solving is a group for first year students with an interest in mathematics, statistics or related areas of study such as economics or physics. In this FIG, you will meet first year students with similar interests. We will not only talk about opportunities with a mathematical focus, but we will work through challenges and puzzles of varying complexity and talk about math in the real world.

CALENDAR NOTES: Note: For first year students enrolled in the Faculty of Science as Undeclared Science majors or in Computer Science. FIG courses are zero credit hours, but will appear on the academic transcript if completed.

LAB HOURS PER WEEK:

FIGS 0009 Navigate Your Science Degree

CREDIT HOURS: 0

This is a not-for-credit course for first year Science students. The class meets seven times throughout the winter semester leading up to the March course registration date. We start by matching you with career goals based on your interests. Throughout the seven workshop sessions you explore career options based on these interests, identify employable skills required for 21st century careers, and match these skills with academic courses, co-curricular experiences, work and volunteering opportunities.

LAB HOURS PER WEEK:

FIGS 0010 Indigenous Ways of Knowing

CREDIT HOURS: 0

This is a group for first year students who want to know more about the intersection between Science and Indigenous ways of knowing, as both a learner and participant. In this FIG you will meet first year students and have opportunities to explore concepts such as holistic approaches, life-long and land-based learning, and Indigenous medicine. We will also discuss ideas around reconciliation, relationships among communities, and how diversity and inclusion may be experienced in science. There will be guests, field trips, and activities.

CALENDAR NOTES: Note: For first year students enrolled in the Faculty of Science as Undeclared Science majors. FIG courses are zero credit hours, but will appear on the academic transcript if completed.

Geography

Geography

Note: There is no Geography program at Dalhousie; however, several courses taught in various departments are commonly recognized as Geography courses. Only courses which are cross-listed in Science departments may be used to meet the life or physical science subject requirement for the BA degree.

Staff

Deans

Macy, C., BA (Arch) (Calif. At Berkeley), MArch (MIT)

Moore, C., BA (Hons), PhD (Cambridge)

Harvey, F., BA, MA, PhD (McGill)

Geography Coordinators

Architecture and Planning: **Manuel, P.**, BA (Carleton), MSc (McGill), PhD (Dalhousie), MCIP, LPP
(patricia.manuel@dal.ca)

Arts and Social Sciences: **TBD**

Science: **Ryan, A. M.**, BSc (Univ College Dublin), MSc, BEd (Acadia), MEd (MSVU), PhD (Dalhousie) (amryan@dal.ca)

Minor in Geography

This minor is available to students registered in a 120 credit hour Bachelor of Applied Computer Science, Bachelor of Arts, Bachelor of Commerce, Bachelor of Community Design, Bachelor of Computer Science, Bachelor of Informatics, Bachelor of Management, Bachelor of Music, Bachelor of Science or Bachelor of Science (Medical Science) program.

To fulfill the requirements for a Minor in Geography, students must complete 24 credit hours, including the following:

- GEOG 1030.03/ERTH 1030.03: Introduction to Physical Geography
- GEOG 1035.03: Introduction to Human Geography
- GEOG 2000.03: Cartography

Additional 15 credit hours from the following list: at least 6 of which must be at the 3000 level or higher.

- GEOG 2001.03/PLAN 2001.03: Landscape analysis
- GEOG 2006.03/PLAN 2006.03: Space, Place, and Geographic Information Systems
- GEOG 2070.03/PLAN 2070.03: Area Studies on Mexico and Central America
- GEOG 2100X/Y.06/SOSA 2100.06: Environment and Culture
- GEOG 2201.03/INTD 2001.03: Introduction to Development
- GEOG 2202.03/INTD 2002.03: Introduction to Development II
- GEOG 2206.03/INTD 2106.03: Africa: An Introduction
- GEOG 2336.03/ECON 2336.03: Regional Development
- GEOG 2800.03/PHYC 2800.03: Climate Change
- GEOG 3001.03/PLAN 3001.03: Landscape Ecology
- GEOG 3002.03/PLAN 3002.03: Reading the City
- GEOG 3005.03/PLAN 3005.03: Cities and the Environment

- GEOG 3006.03/PLAN 3006.03: Reading the Landscape
- GEOG 3110.03/INTD 3110.03: Migration and Development
- GEOG 3114.03/INTD 3114.03: Environment and Development
- GEOG 3165.03/SOSA 3165.03: Peoples and Cultures of the World: Selected Area Studies
- GEOG 3210.03/HIST 3210.03/CANA 3020.03: Canadian Cultural Landscapes
- GEOG 3220.03/SOSA 3220.03: Coastal Communities in the North Atlantic
- GEOG 3284.03/SOSA 3284.03: Living in cities
- GEOG 3370.03/HIST 3370.03: North American Landscapes
- GEOG 3400.03/ENVS 3400.03: Human Health and Sustainability
- GEOG 3440.03/ERTH 3440.03: Geomorphology
- GEOG 3500.03/ERTH 3500.03/ENVS 3500.03/ERTH 5600.03: Exploring Geographic Information Systems
- GEOG 3633.03/ENVS 3633.03/BIOL 3633.03: Spatial Information and GIS in Ecology
- GEOG 4440.03/ERTH 4440.03: Geomorphology and Landscape Evolution
- GEOG 4450.03/ERTH 4450.03: Introduction to Landscape Simulation
- GEOG 4520.03/ERTH 4520.03: GIS Applications to Environmental and Geological Sciences
- GEOG 4530.03/ERTH 4530.03: Environmental Remote Sensing

NOTE: Students in the BCD program may not select PLAN cross-listed courses that are required courses for their degree program

Contact [Geography](#) for more information.

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are typically available to students in the second, third, and fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not obtain credit for both courses as designated.

Not all courses are offered each year. Please consult the current [timetable](#) for this year's offering. For further information please contact the department, or visit the department's website.

Course Descriptions

GEOG 1030 Introduction to Physical Geography

CREDIT HOURS: 3

This non-lab science course examines the nature of weather and climate, earth's surface features and processes, and internal processes that contribute to landform development. An integral component of the course is an exploration of the representation and interpretation of physical geographic data through the examination of a variety of maps.

CALENDAR NOTES: There are no pre-requisites for this course and students may take this class in addition to any other first year Earth Sciences class.

COREQUISITES:

FORMATS: Lecture | Tutorial
LAB HOURS PER WEEK:

GEOG 1035 Introduction to Human Geography

CREDIT HOURS: 3

Human geography examines the ways that people perceive, use, and alter the landscapes they occupy. This course considers aspects of culture that characterize different social groups, as well as the systems of production, livelihood, spatial organization, and administration that societies erect. The class introduces the principal tools of human geographers: maps, demography, and analysis of cultural patterns.

CALENDAR NOTES: This class cannot be used to meet the life or physical science subject requirement for the BA degree.

LAB HOURS PER WEEK:

GEOG 1060 Earthquakes, Volcanoes and Natural Disasters

CREDIT HOURS: 3

Earthquakes, meteorite impacts, rapid climate change, volcanic eruptions, hurricanes, landslides, solar flares, and floods are natural disasters that affect our economy, public policy, and safety. Where, why and how frequently do natural disasters occur? Are predictions possible? Are media portrayals of risk and damage realistic? This course, aimed at the nonspecialist, investigates these intriguing questions. Excerpts of “disaster films”, in conjunction with lectures and discussions are used to identify the causes, consequences and sometimes erroneous perceptions of natural hazards. Examples from Atlantic Canada and contemporary disasters are used to assess local risk and real-time events worldwide.

LAB HOURS PER WEEK:

GEOG 2001 Landscape Analysis

CREDIT HOURS: 3

Designers and planners need to understand the influence of physical, biological, and cultural systems in landscape evolution, and the relevance of that information in analyzing land capability. Students develop inventory and analysis tools for understanding

environmental processes and their implications for design and planning. There will be field trips and a lab component.

CALENDAR NOTES:

LAB HOURS PER WEEK:

GEOG 2006 Space, Place and Geographic Information Systems

CREDIT HOURS: 3

Planners use Geographical Information systems (GIS) for data collection, coordination, and analysis. Properly interpreted, GIS data contribute to informed decision-making. This course explores the application of GIS in planning within a project-centred setting. Students learn to use GIS to address and use and site planning issues. The course also considers mapping standards used within the field of planning, and examines legal, privacy, and ethical implications of using GIS data in the public realm.

CALENDAR NOTES:

LAB HOURS PER WEEK:

GEOG 2070 Area Studies on Mexico and Central America

CREDIT HOURS: 3

Following an examination of the indigenous heritage, and the colonial legacy of the conquistadors, the class deals principally with the contemporary period, examining the Mexican Revolution and its aftermath, the Somoza dynasty, Nicaragua under the Sandinistas, the U.S. role in the region, the human rights situation in Central America, and probable developments in the region. The class is designed to provide an understanding of the contemporary reality of this volatile region, in many ways a microcosm of the crucial situation of Latin America as a whole.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: No prerequisites. Open to students in all departments. No knowledge of Spanish necessary

CROSSLISTED: HIST 2383.03. SPAN 2070.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Discussion

LAB HOURS PER WEEK:

GEOG 2100 Environment and Culture

CREDIT HOURS: 6

Concern about the environment is a widespread phenomenon as virtually everyone is confronted by environmental issues -- be they global warming, the depletion of the ozone layer or the continuing problems of water pollution and solid waste disposal. Furthermore, we are becoming increasingly aware of that environmental issues often have global implications. The efforts of cities in Canada to deal with environmental pollution, for example, may lead to conflicts with rural regions. Similarly, rural regions, in their use of various chemical agents, may find themselves affecting the lives of city dwellers. This class will explore key relationships between human culture and the physical environment. Topics to be examined include: historical, social, and legal aspects of contemporary environmentalism, food and agriculture, environmental ethics, health, traditional ecological knowledge, sustainable forestry, waste management, public participation and environmental movements.

CALENDAR NOTES: Credit can only be given for this class if X and Y are completed in consecutive terms and partial credit cannot be given for a single term.

COREQUISITES:

PREREQUISITES: One of SOSA 1000X/Y.06, SOSA 1050X/Y.06, SOSA 1100X/Y.06, SOSA 1200 X/Y.06

CROSSLISTED: SOSA 2100.06

FORMATS: Lecture

LAB HOURS PER WEEK:

GEOG 2201 Introduction to Development I

CREDIT HOURS: 3

Poverty, inequality and injustice are widespread throughout the contemporary developing world. This course will examine how this situation came to be. It begins by analyzing the different meanings of the term “development” and then examines the major approaches that have shaped practical development initiatives on the ground in the Global South over the past 60 years. The course also examines the legacies of history for contemporary development efforts in the Global South through specific case studies.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Completion of five full credits at the 1000 level or permission of the instructor

CROSSLISTED: INTD 2001.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

GEOG 2202 Introduction to Development II

CREDIT HOURS: 3

This course builds upon the core concepts and approaches studied in INTD 2001 (i.e. different theoretical approaches to development and the historical creation of underdevelopment). The course examines key contemporary issues in the field of development and analyses the connections between them: debt, global trade rules, foreign aid, hunger and malnutrition, rural and urban livelihoods, population growth. The course also examines the principle actors involved in development and the strategies they have used to promote and resist development, including: governments, non-governmental organizations (NGOs), the World Bank and IMF, and popular social movements in the Global South and North.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Completion of five credits at the 1000 level or permission of the instructor

CROSSLISTED: INTD 2002.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

GEOG 2206 Africa: An Introduction

CREDIT HOURS: 3

This course will focus on contemporary Africa. Stereotypical portrayals of Africa will be examined and critiqued with the goal of emphasizing the immensity, diversity and complexity of the continent in order to better understand the opportunities and challenges of African development in the twenty-first century.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES:

CROSSLISTED: INTD 2106.03

LAB HOURS PER WEEK:

GEOG 2336 Regional Development

CREDIT HOURS: 3

Most countries have richer and poorer regions. Economic development issues, policies, and theories facing more industrialized nations are analyzed with particular focus on Canada (especially the Atlantic region), the European Economic Community, U.S.A., Japan, and Australia. Approved with Canadian Studies. In addition to the prerequisites, the student is advised to take one class in Political Science and one class in Canadian History before taking ECON 3336.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 1101.03 and 1102.03

CROSSLISTED: ECON 2336.03

RESTRICTIONS:
EXCLUSIONS:
FORMATS: Tutorial | Seminar
LAB HOURS PER WEEK:

GEOG 2800 Climate Change

CREDIT HOURS: 3

Most models of the atmosphere predict that increasing concentrations of greenhouse gases will continue to warm the surface of the earth and the oceans in the twenty-first century. The magnitude of the warming and its consequences are still very controversial. This class will discuss, mainly from a nonmathematical viewpoint, the reasons for the greenhouse effect, the current warming in the context of the historical record of climate change, and sources of natural climate variability such as the El Nino Southern Oscillation. It will also review arguments that attribute the warming that has occurred in the Twentieth century to natural variability, and those that attribute the warming to increased human emission of greenhouse gases.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES:

CROSSLISTED: PHYC 2800.03 and OCEA 2800.03

RESTRICTIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

GEOG 3102 Coastal Change and Adaptation

CREDIT HOURS: 3

Human activities alter coastal environments directly and by influencing natural processes. We analyze the drivers of change and impacts on environment, economy and society. Mitigation and management strategies for sustainable adaptation are investigated. Lectures are integrated with student presentations, guest lectures and discussion of current coastal and marine research.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Must be third year standing or above

CROSSLISTED: SUST 3102.03

RESTRICTIONS:

EXCLUSIONS: SUST 3952.03 (winter 2016 and winter 2017)

FORMATS:

LAB HOURS PER WEEK:

GEOG 3106 The Canadian North

CREDIT HOURS: 3

This course introduces the Canadian North through an examination of the challenges faced by northern peoples. Emphasis is placed on the causes and consequences of global environmental change, and interactions with ecological processes and challenges for the human environment. Inuit perspectives of ecological knowledge will complement discussions on planning and development in a warming future. Principles of ecosystem management and emergent challenges for a sustainable future will also be addressed.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Third year status or above, or permission of instructor.

CROSSLISTED: SUST 3106.03

RESTRICTIONS:

EXCLUSIONS: SUST 3956.03 (offered in Winter 2019) ENVI 5106.03

FORMATS: Lecture

LAB HOURS PER WEEK:

GEOG 3110 Migration and Development

CREDIT HOURS: 3

The purpose of this course is to explore and better understand the connections between migration and development in contemporary societies. Classes will introduce or further explore one main theme or issue, such as development-induced displacement, labour migration, and HIV/AIDS and migration. Each class will centre on one or more discussion questions, exchange insights from relevant experiences of class participants or focus on a case study

CALENDAR NOTES:

LAB HOURS PER WEEK:

GEOG 3165 Peoples and Cultures of the World: Selected Area Studies

CREDIT HOURS: 3

This class examines a specific geographic and/or culture area. The class begins with background material on geography and history. Its focus is on the people themselves, their social organization and political, economic, and cultural systems. How they relate to globalization and development will also be examined. Consult the Department to find which region is to be covered in a particular year.

Approved with International Development Studies.

CALENDAR NOTES:

GEOG 3220 Coastal Communities in the North Atlantic

CREDIT HOURS: 3

Coastal communities as a social/ecological type are examined as populations, and social structures (territorial, economic, occupational, political) as they have developed in response to particular ecological and social circumstances. Various perspectives which have been applied to coastal communities are examined with regard to the contribution they may make to understanding the dynamics of these communities. The focus is on North Atlantic communities.

LAB HOURS PER WEEK:

GEOG 3284 Living in Cities

CREDIT HOURS: 3

2008 marked the first time in history that more of the global population lived in cities than in rural areas. What perspectives to anthropology and sociology offer on cities and their inhabitants? This course explores the social dynamics that constitute 'the city' and surveys how social scientists have studied and engaged with cities and city-dwellers. It approached 'the city' both as a whole and through its constituent parts: people and places. Examples may be drawn from cities large and small, near and far - including Halifax.

LAB HOURS PER WEEK:

GEOG 3302 Quaternary Sedimentary Environments

CREDIT HOURS: 3

The student is exposed to fluvial, alluvial, subglacial, glaciolacustrine, hillslope, eolian, coastal, shallow marine, rift, wedge top, retroarc, and foreland basin environments. Field trips and labs provide experience in methods used to distinguish the environments, including sedimentology, geomorphology, geochronology and thermochronology, and analysis of soils, cores, pebble fabrics, and section-scale non-petroleum sedimentary facies. Quaternary paleoclimatology and tectonic controls on weathering and deposition are discussed and debated.

LAB HOURS PER WEEK:

GEOG 3370 North American Landscapes

CREDIT HOURS: 3

Landscapes are the product of human culture ordering nature for economic, social, political, religious, recreational, and artistic purposes. Landscape history analyzes and interprets the use and design of such features as fields and woodlands, roads and waterways, settlements and buildings, towns and suburbs, and parks and cities. This class examines the use and meaning of the spatial environment among the various societies in North America from the sixteenth to the twentieth centuries. Among the topics are the meaning of area resources for indigenous peoples, the occupation and settlement of colonial populations, transportation and continental expansion, town planning, the politics of water and land in the West, preservation movements, scenic tourism, and the literary and artistic stylization of landscapes. The class welcomes non-history students with an interdisciplinary interest in issues regarding planning and design, cultural ecology, and the governance of resources.

LAB HOURS PER WEEK:

GEOG 3500 Exploring Geographic Information Systems

CREDIT HOURS: 3

Geographic Information Systems (GIS), as a tool for the management of georeferenced data, have become indispensable for disciplines where location of objects and pattern of processes is important. GIS plays a fundamental role for a wide range of applications, from modeling, to analysis and predictions, to decision making. The class is designed for a broad base of potential users and draws on examples of the role of GIS in global climate change, mineral exploration, preservation of biodiversity, coastal zone management, resource depletion, and many other present and future environmental issues. The course material will be of interest to those studying geoscience, environmental science, ecology, marine biology, oceanography, epidemiology, urban and rural planning, civil engineering, and any other field involving spatial data. Laboratory exercises emphasize the principles of raster and vector GIS, and the integration of databases and GPS (global positioning systems) data into GIS. Exercises draw on the diversity of GIS applications in a number of topical areas.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Two years of university study or equivalent or instructor's permission

CROSSLISTED: EARTH 3500, EARTH 5600, ENVS 3500

RESTRICTIONS:

EXCLUSIONS: Credit will only be given for one of GEOG 3500, SCIE 3600, EARTH 3500, EARTH 5600, ENVS 3500

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

GEOG 3633 Spatial Information and GIS in Ecology

CREDIT HOURS: 3

A hands-on approach to understanding and using spatial information, this course introduces students to Geographic Information Systems (GIS) as a tool to answer ecological questions. Together, students conduct a major field project, collecting data, creating maps using GIS, and interpreting spatial patterns, to address an applied problem in ecology.

CALENDAR NOTES: Offered in the summer through SEASIDE. An auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see seaside.science.dal.ca.

COREQUISITES:

PREREQUISITES: BIOL 2060.03

CROSSLISTED: ENVS 3633.03, BIOL 3633.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

GEOG 4520 GIS Applications to Environmental and Geological Sciences

CREDIT HOURS: 3

Geographic information systems (GIS) provide a rich set of new tools to the geologist and environmental scientist, not only to solve conventional problems, but also to explore transdisciplinary questions not readily answered by other means. This class builds on the fundamentals of GIS taught in EARTH 3500.03 to explore analytical tools that aid in decision-making processes encountered in mineral exploration, hydrogeology, site selection, environmental assessment, and global change analysis. The class concentrates on case studies and problem solving, including those requiring multi-criteria and multi-objective decision making processes.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: GEOG 3500.03, ENVS 3500, EARTH 3500.03; EARTH 5600, or SCIE 3600.03; STAT 1060.03

CROSSLISTED: EARTH 4520.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

GEOG 4530 Environmental Remote Sensing

CREDIT HOURS: 3

The goal of this class is to introduce students to the role of remote sensing as a technique provide environmental and geologic information. Particular emphasis will be placed on examining the potential and limitations of remote sensing methods and data in this context. The lectures discuss the fundamentals of remote sensing with an emphasis on optical multispectral satellite systems. In the lab, students use computerized techniques of digital image enhancement and thematic information extraction to process images derived from a range of remote-sensing systems. The integration of remote-sensing information with GIS (Geographic Information Systems) is stressed in both the labs and lectures.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: EARTH 3500.03, ENVS 3500.03, or EARTH 5600.03 or SCIE 3600.03 or GEOG 3500.03

CROSSLISTED: EARTH 4530.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

GEOG 4850 Geographic Information Science Research Project

CREDIT HOURS: 3

Students learn how to design, manage and complete a research project in Geographic Information Science (GIS). Projects must include a substantive analytical component where GIS is central to methods employed. Evaluation includes a written report, oral presentation and digital data. Required for completion of the Certificate in GIS.

CALENDAR NOTES:

COREQUISITES: EARTH 5420.03/GEOG 4520.03/EARTH 4520.03

PREREQUISITES: ENVS 3500.03/EARTH 3500.03/GEOG 3500.03 and permission of instructor

CROSSLISTED: BIOL 4850.03, ENVS 4850.03, SCIE 4850.03, EARTH 4850.03

RESTRICTIONS:

EXCLUSIONS: Restricted to 3rd and 4th year students

FORMATS: Lecture

LAB HOURS PER WEEK:

Humanistic Studies in Science

Humanistic Studies in Science

Attention is drawn to the following courses, offered in several departments. All of these courses are concerned with the humanistic aspects of scientific thought and its development. For complete course descriptions please consult the appropriate department listing in this calendar.

NOTE: Not all courses are offered every year. Please consult the current timetable for this year's offerings.

History of the Sciences

- BIOL 3503.06, HSTC 2200.06, SCIE 2000.06: Introduction to the History of Science
- BIOL 4664.03/OCEA 4331.03/SCIE 4001.03/HIST 3073.03/HSTC 3331.03: History of Marine Sciences

Philosophy of the Sciences

- PHIL 3420.03, BIOL 3580.03: Philosophy of Biology
- PHIL 2560.03: Minds & Machines: Introduction to cognitive Science
- PHIL 2660.03 Logic: Understanding Scientific Reasoning
- BIOL 3601.03: Nature Conservation
- PHIL 2130.03: Logic
- PHIL 3051.03: Epistemology
- PHIL 3670.03: Philosophy of Science

Introduction

Dalhousie's Integrated Science Program is a unique and engaging way for a serious and well-prepared student to complete the first year of a BSc degree. In addition to learning the core material of several first-year science

subjects, students gain an interdisciplinary perspective, develop transferrable skills, and conduct research, all in their first year. The goals of the program are:

1. To engage students in the process of scientific inquiry with hands-on experience in scientific research skills.
2. To provide a strong academic background for second-year courses in the subjects covered by the program.
3. To identify links among the science disciplines.
4. To learn effective team skills.
5. To explore the relevance of science for society at large.

The Integrated Science program exposes first year students to a broad range of science disciplines in an integrated manner, and provides a strong foundation for most BSc programs. Students learn from a team of instructors with expertise in particular subject areas, who also highlight the natural links among disciplines. Integrated Science students are members of a small cohort (maximum 80) who take the majority of their lectures, labs and field trips together.

The Integrated Science program has a strong emphasis on research-relevant training. Students study experimental design, collect and analyze data in the laboratory and during field trips, work on communication skills, including scientific writing, and are introduced to some of the ethical questions that arise in the practice of science. In the winter term, students undertake an independent research project under the supervision of a Dalhousie-affiliated researcher, which culminates in a presentation at a conference-style event.

Integrated Science consists of a core program taken only by IS students, and auxiliary courses taken together with other first year BSc students. The core program covers Biology, Psychology, Earth Sciences, Statistics, and Ethics in Science. Auxiliary courses include Chemistry, Math and Physics (optional). Exposure to multiple science disciplines can also be helpful for students who are unsure which subjects interest them most, and early training in research is especially valuable for those considering an Honours program. Integrated Science is also excellent preparation for professional graduate programs, such as Law or Medicine.

Integrated Science candidates should be highly-motivated, have a strong interest in science, and be willing to think across discipline boundaries. They should be enthusiastic about being part of a small cohort of students intent on learning how to work and think like scientists; they should want to learn to be cooperative and effective team members; they should have good study, work, and time-management skills; and they should welcome the challenge to work hard, to think critically, and to solve problems.

Students wishing to enter this program normally must have a minimum Grade 12 average of 80%, with a minimum of 80% in Mathematics and 70% English, and a minimum of 75% in two of Grade 12 Chemistry, Biology or Physics. The average high school mark of incoming Integrated Science students is around 90%. Students must be accepted to the Integrated Science Program as well as be accepted to the BSc at Dalhousie University.

Choosing an Integrated Science Option

Integrated Science is a full-time, first-year program designed to prepare BSc students for second year courses in multiple science programs. The IS program emphasizes the connections among the different science disciplines, and provides students with research training and experience. Students take the core program as a cohort (max 80 students).

The core consists of two 9-credit-hour courses, Integrated Science I (SCIE 1506.09), and Integrated Science II (SCIE 1507.09), as well as Ethics in Science (PHIL 1050.03). In the fall, students have lectures, laboratories and field trips in Biology, Psychology and Statistics, and receive training in research skills (experimental design, analysis, scientific writing). The winter term consists of lectures and laboratories in Biology, Psychology and Earth Sciences, and students conduct a 10-week independent research project in a Dalhousie or Dalhousie-affiliated research lab. Students present the results of their research at a conference-style event.

Integrated Science I and II are equivalent to two terms of Biology and Psychology, and one term of Earth Sciences and Statistics. Together with PHIL 1050: Ethics in Science, the core fulfills the writing requirement for BSc students.

Students also register for several auxiliary or co-requisite courses; these are taken along with other BSc students, typically in larger classes. Students take a full year of Chemistry (CHEM 1011.03/CHEM 1012.03) and a half year of Calculus (MATH 1000.03 or MATH 1215.03). Students have the option to enroll in a second term of Calculus (MATH 1010.03) and to take Physics (full year or half year). See co-requisite details below:

Fall term* co-requisite courses taken at the same time as Integrated Science I (SCIE 1506.09)

Required:

1. Ethics in Science (PHIL 1050.03)
2. Concepts in Chemistry: Structure and Reactivity (CHEM 1011.03)
3. Differential and Integral Calculus I (MATH 1000.03) **OR** Life Sciences Calculus (MATH 1215.03)

Optional:

1. Introduction to Physics I (PHYC 1190.03) **OR** Physics in and Around You I (PHYC 1310.03)

Winter term** co-requisite courses taken at the same time as Integrated Science II (SCIE 1507.09)

Required:

1. Concepts in Chemistry: Energy and Equilibrium (CHEM 1012.03)

Optional:

1. Differential and Integral Calculus II (MATH 1010.03).
2. Introduction to Physics II (PHYC 1290.03) **OR** Physics in and Around You II (PHYC 1320.03)

**In the fall term Integrated Science students take a course overload with 18-21 credit hours (21 credit hours if Physics is included). 15 credit hours is a full course load for regular BSc students. Students enrolling in 21 credit*

hours can expect a significantly heavier work load. Students planning to take only one term of calculus have the option of taking MATH 1000.03 in the winter to lighten their fall course load.

***In the winter term, Integrated Science students may take an overload (18 credit hours), a regular full course load (15 credit hours,) or a lighter course load of 12 credit hours (if they choose not to take MATH or PHYSICS in winter).*

Choice of Math and Physics courses

Prior to selecting Math or Physics courses please consult the course descriptions in the Dalhousie Academic Calendar.

- PHYC 1190/PHYC 1290 is designed for students in Physical Sciences and Engineering, and PHYC 1310/PHYC 1320 is designed for students in Life Sciences.
- MATH 1000 should be taken by students interested in math, economics or the physical sciences, while MATH 1215 is designed for life sciences students.
- One calculus course (MATH 1000.03 or MATH 1215.03) together with SCIE 1506.09 (Statistics) satisfies the full math requirement for BSc students. Students who do not require MATH 1010 for their programs have the option to take only one calculus course.

BSc Programs	First year Math courses	First year Physics courses
Actuarial Science	MATH 1000/MATH 1010	
Biochemistry & Molecular Biology	MATH 1000 (or MATH 1215) MATH1010 (recommended)	
Biology	MATH 1215 (or MATH1000)	
Chemistry	MATH 1000/MATH 1010	PHYC 1190/PHYC 1290 or PHYC 1310/PHYC 1320
Economics	MATH 1000/MATH 1010	
Earth Science	MATH 1000 (or MATH 1215) and MATH 1010	PHYC 1190/PHYC 1290 or PHYC 1310/PHYC 1320 *
Environmental Science	MATH 1215 (or MATH 1000)	
Mathematics	MATH 1000/MATH 1010	
Marine Biology	MATH 1215 (or MATH 1000)	PHYC 1310/PHYC 1320** or PHYC 1190/PHYC 1290 (recommended)
Microbiology & Immun.	MATH 1215 (or MATH 1000)	
Medical Sciences	MATH 1215	PHYC 1310 (required), PHYC 1320 recommended
Neuroscience	MATH 1000 (or MATH 1215)	

Ocean Sciences	MATH 1000/MATH 1010	PHYC 1190/PHYC 1290 or PHYC 1310/PHYC 1320
Physics	MATH 1000/MATH 1010	PHYC 1190/PHYC 1290
Psychology	MATH 1215 (or MATH 1000)	
Statistics	MATH 1000/MATH 1010	

** Physics is required for all Earth Science Honours programs. PHYC 1190/PHYC 1290 is recommended, as PHYC 1310/PHYC 1320 may not be recognized for PGeo (Professional Geologist) certification. Physics is not required for Earth Sciences Major programs.*

*** Marine Biology students who wish to include 2nd year courses in Ocean Sciences (other than OCEA 2001/OCEA 2002: The Blue Planet) in their programs should take PHYC 1310/PHYC 1320 (or PHYC 1190/PHYC 1290).*

BSc degree requirements and the Integrated Science program

The Integrated Science program core satisfies the Writing requirement, the Social Science and Science subject requirements, and with MATH 1000 or MATH 1215, the Math requirement for BSc students at Dalhousie. It satisfies *half* of the Humanities/Language requirement; another Humanities or Language course is needed before graduation.

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are available to students in the second, third, fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not take both courses so designated.

Not all courses are offered each year. Please consult the current timetable for this year's offering. For further information please contact the department.

Course Descriptions

SCIE 1506 Integrated Science I

CREDIT HOURS: 9

This course comprises the first half of the Integrated Science Program, a challenging first year option for BSc students interested in exploring connections among science disciplines. SCIE 1506 consists of lectures, laboratories, and field trips in Biology, Psychology and Statistics, as well as integrated lectures and workshops that cut across disciplines. It also has an interdisciplinary Writing in Science component that prepares students for research projects in SCIE 1507. Together, SCIE 1506 and SCIE 1507 provide comprehensive first-year preparation for major or honours degrees in science. Students in Integrated Science I must also register for CHEM 1011.03 and

PHIL 1050.03 (Ethics in Science). Registration in PHYC 1190.03 or PHYC 1310.03 is recommended for students considering programs that require Physics. For calculus, students register in MATH 1000.03 (fall or winter) or MATH 1215.03 (fall or winter). Students taking MATH 1010.03 in fall term have the option to additionally take MATH 1010.03 in winter term.

CALENDAR NOTES: SCIE 1506 and SCIE 1507 are to be taken in consecutive terms. Both must be completed to receive credit for the Writing in Science component (equivalent to SCIE 1111.03).

COREQUISITES: PHIL 1050.03, CHEM 1011.03

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS: Registration is restricted to Integrated Science students.

EXCLUSIONS: BIOL 1011.03, BIOL 1021.03, PSYO 1011.03, STAT 1060.03

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

SCIE 1507 Integrated Science II

CREDIT HOURS: 9

This course comprises the second half of the Integrated Science Program, a challenging first year option for BSc students interested in exploring connections among science disciplines. SCIE 1507 consists of lectures, laboratories, and field trips in Biology, Psychology and Earth Sciences, as well as integrated lectures and workshops that cut across disciplines. The Writing in Science component, continued from Integrated Science I, includes a 10-week research project in which students apply the research design concepts and statistical analyses covered in Integrated Science I. Together, SCIE 1506 and SCIE 1507 provide comprehensive first-year preparation for major or honours degrees in science. Students in Integrated Science II must also register for CHEM 1012.03. Registration in MATH 1010.03 and in one of PHYC 1290.03 or PHYC 1320.03 is recommended for students considering programs with those requirements. For calculus, students must register in either MATH 1000 (fall or winter) or MATH 1215 (fall or winter).

CALENDAR NOTES: SCIE 1506 and SCIE 1507 are to be taken in consecutive terms. Both must be completed to receive credit for the Writing in Science component (equivalent to SCIE 1111.03).

COREQUISITES: CHEM 1012.03

PREREQUISITES: SCIE 1506.09, CHEM 1011.03, PHIL 1050.03

CROSSLISTED:

RESTRICTIONS: Registration is restricted to Integrated Science students

EXCLUSIONS: BIOL 1010.03, BIOL 1020.03, PSYO 1012.03, EARTH 1080.03, SCIE 1111.03

Introduction

The Marine Biology Program offers students the opportunity to study and experience marine life, from the tiny plankton that drive ocean ecosystems to the sharks and marine mammals at the top of the food chain. In the first two years of the program, Marine Biology students obtain a basic grounding in Biology and start to learn the basics of how the ocean works. They then use their third and fourth years to study in greater depth the diversity, physiology, ecology, and evolution of marine animals and plants. Many students combine their studies of marine biology with courses in the chemistry or physics of the ocean. Marine Biology students are offered a Co-op option, where three work terms in industry, government or university laboratories, or ecotourism are included within the program.

The Biology department is located adjacent to the sea in the Life Sciences Centre. All eight floors have running sea water, and we have a 15m pool tank and a 10m deep tower tank. Within a 30 km radius there are salt marshes, rocky shores, estuaries, and sand beaches for field work.

Our students have many opportunities to participate in marine-related research; examples can be viewed on our website. "Ocean studies" is an area of special emphasis for Dalhousie University, and thus many faculty members have active research programs in marine science. In addition, many marine scientists at local research institutions, including the Bedford Institute of Oceanography and the Institute for Marine Biosciences serve as supervisors for our Honours students.

An undergraduate major in Marine Biology at Dalhousie qualifies you for technical positions in places like government fisheries laboratories, aquaculture farms, and consulting firms. In the Marine Biology program's summer field courses or in the honours research courses, you'll get plenty of hands-on opportunities to explore the ocean—preparing you for the exciting challenges of diverse marine-related careers.

Degree Programs

The Department of Biology offers the following degree programs in Marine Biology

- BSc (120 credit hour) Honours (Concentrated)*
- BSc (120 credit hour) Combined Honours*
- BSc (120 credit hour) Major*
- BSc (120 credit hour) Double Major*
- Minor in Marine Biology

* BSc [Co-op option available](#)

* May be combined with Minor programs from other disciplines

Departmental requirements for each degree program can be seen by following the links in the menu at the right.

In addition to departmental requirements, students must satisfy the requirements outlined in the [Academic Regulations](#) and the [College of Arts and Science Degree Requirements](#) sections.

A student is governed by the academic regulations in place at the time of initial enrolment, as long as the degree is completed within the time permitted (10 years). Subsequent changes in regulations shall apply only if the student so elects. Student applying the old academic regulations should consult the calendar of the appropriate year.

Students should plan their programs of study carefully and are strongly encouraged to do so in consultation with a Marine Biology undergraduate academic advisor.

Prospective Marine Biology students should be aware that to advance to the second year Biology courses in the Marine Biology program, they must achieve at least a C grade in the prerequisite first year Biology courses. Students with exceptional extenuating circumstances may appeal this requirement to the Biology Undergraduate Curriculum Committee. Students should go to the Biology Main Office for further details.

Program Advisors

For Marine Biology program advising, please email biology.advising@dal.ca and indicate whether you are interested in Majors or Honours advising.

BSc or BA (120 credit hour) Concentrated Honours in Marine Biology

Students who want a challenging program resulting in a broad background in Marine Biology, including an independent research experience may want to enroll in an Honours program. Students interested in eventually pursuing graduate studies are particularly encouraged to consider Honours.

To graduate with Honours, students must complete a minimum of 54 credit hours with a grade of C or better above the 1000 level in Marine Biology/Biology. A minimum B+ average (GPA of 3.3), with no grade less than C, is required in the Core Biology and Core Marine Biology courses. Students must also have a cumulative B average (GPA of 3.0) in courses in the honours subject at the time of graduation. Students write a research-based Honours thesis. The Honours Qualifying Examination requirement is satisfied through completion of MARI 4901.03 AND MARI 4902.03.

A Science Co-op option is available for students enrolled in a BSc Concentrated Honours in Marine Biology. See [Co-operative Education Program](#).

Admission to Honours

Students must apply for admission to Honours programs. Students considering Honours should consult with a Marine Biology Honours Advisor early in their studies. To be admitted, students must:

- Have a minimum B+ average (GPA of 3.3) in Core Biology and Core Marine Biology courses with no grade less than C. A maximum of two of these core courses may be repeated once to achieve this requirement.
- Have a minimum B average (GPA of 3.0) across all courses in the honours subject.
- Identify and gain the support of a thesis supervisor during their third year of studies (see Honours webpage for supervisor eligibility)
- With the supervisor's input, draft and submit a thesis proposal to the Honours Committee no later than May 15th of their third year of studies. See Honours webpage for thesis proposal guidelines, and admission procedures for Honours Co-op students.

Marine Biology/Biology Honours webpage <https://www.dal.ca/faculty/science/biology/honours.html>

Course Requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a Concentrated Honours program in Marine Biology must complete the following courses:

1000 level

- BIOL 1010.03: Principles of Biology Part I (or BIOL 1020.03: Introductory Biology I: Cells, Genetics and Evolution or SCIE 1505X/Y.18 or SCIE 1506.09: Integrated Science I and SCIE 1507.09 Integrated Science II or equivalent)
- BIOL 1011.03: Principles of Biology Part II (or BIOL 1021.03: Introductory Biology II: Organismal Biology and Ecology or SCIE 1505X/Y.18 or SCIE 1506.09: Integrated Science I and SCIE 1507.09 Integrated Science II or equivalent)
- MATH 1060.03/STAT 1060.03: Introductory Statistics for Science and Health Sciences (or SCIE 1505X/Y.18 or SCIE 1506.09: Integrated Science I and SCIE 1507.09 Integrated Science II or equivalent)
- MATH 1000.03: Differential and Integral Calculus I or MATH 1215.03: Life Sciences Calculus or MATH 1030.03: Matrix Theory and Linear Algebra 1
- CHEM 1011.03: Concepts of Chemistry: Structure and Reactivity
- CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium

Note: Marine Biology students wishing to incorporate **Ocean Sciences** into their program should include MATH 1000.03: Differential and Integral Calculus I or MATH 1215.03: Life Sciences Calculus and PHYC 1190.03/PHYC 1290.03 Introduction to Physics (or PHYC 1310.03/PHYC 1320.03 or PHYC 1300.06 Physics in & Around You)

2000 level

Core Biology courses

- BIOL 2003.03: Animal Diversity
- BIOL 2004.03: Diversity of Plants and Microorganisms
- BIOL 2020.03: Cell Biology
- BIOL 2030.03: Genetics and Molecular Biology
- BIOL 2040.03: Evolution
- BIOL 2060.03: Introductory Ecology

Other required courses

- OCEA 2000.06: The Blue Planet or OCEA 2001.03: The Blue Planet I and OCEA 2002.03: The Blue Planet II
- MATH 2080.03/STAT 2080.03: Statistical Methods for Data Analysis and Inference

3000/4000 level

Core Biology/Core Marine Biology Courses

- BIOL 3101/MARI 3101 OR BIOL 3761/MARI 3761

Students must choose **15** credit hours from any of the following courses:

- BIOL 3042/MARI 3042 Molecular Ecology
- BIOL 3063/MARI 3063 Resource Ecology
- MARI 3074 Physiology of Marine Animals Part I
- MARI 3076 Physiology of Marine Animals Part II
- BIOL 3080/MARI 3080 The Ecology and Evolution of Fishes
- MARI 3090 Marine Mammalogy OR BIOL 3626/MARI 3626 Field Studies of Marine Mammals
- BIOL 3101/MARI 3101 Microbial Ecology
- BIOL 3221/MARI 3221 Diversity of Algae
- BIOL 3301/MARI 3301 Invertebrate Biology
- MARI 3602 Introduction to Aquaculture
- BIOL 3761/MARI 3761 Marine Ecology
- MARI 4350 Cutting Edge in Marine Science

- MARI 4665 Hacking the Blue Planet
- Any two MARI SEASIDE course
- Any two OCEA course cross-listed as MARI

In addition, students must complete an Honours Thesis:

- MARI 4901.03: Honours Research and Thesis I and MARI 4902.03: Honours Research and Thesis II

In addition, students must complete at least another **12** credits hours in MARI or MARI-Equivalent courses to achieve the minimum of 54 credit hours in their honours subject above the 1000 level. This may include additional SEASIDE courses or any courses cross-listed as MARI.

BSc or BA (120 credit hour) Combined Honours in Marine Biology and another subject

Students who wish to study Marine Biology in conjunction with another subject may wish to pursue a Combined Honours degree program. The other subject may be any discipline from the Faculty of Science (other than Biology), the Faculty of Arts and Social Sciences, the Faculty of Computer Science, or the College of Sustainability. Marine Biology may be the primary subject (defined as the subject with the larger number of honours credits), or the secondary subject. Students planning to enroll in a Combined Honours program should consult with academic advisors from both programs early in their studies. Students must have their program of study approved by Academic Advisors in both subject areas.

To graduate with Honours, students must complete a minimum of 36 credit hours above the 1000 level in Marine Biology/Biology, whether Marine Biology is the primary or the secondary subject. A minimum B+ average (GPA of 3.3), with no grade less than C, is required in the Core Biology/Core Marine Biology courses. Students must also have a cumulative B average (GPA of 3.0) in courses in the honours subject at the time of graduation. Students write a research-based Honours thesis and complete an Honours Qualifying Examination in their primary subject area. For Marine Biology, this requirement is satisfied through MARI 4901.03/MARI 4902.03.

A Co-op option is available for students enrolled in a BSc Combined Honours in Marine Biology. See [Co-operative Education Program](#).

Admission to Honours

Students must apply for admission to Honours programs. Students considering Honours should consult with a Marine Biology Honours Advisor early in their studies. To be admitted, students must:

- Have a minimum B+ average (GPA of 3.3) in Core Biology/Core Marine Biology courses with no grade less than C. A maximum of two of these core courses may be repeated once to achieve this requirement.
- Have a minimum B average (GPA of 3.0) across all courses in the honours subject.
- If Marine Biology is to be the primary subject area, students must
 - Identify and gain the support of a thesis supervisor during their third year of studies (see Honours webpage for supervisor eligibility)
 - With the supervisor's input, draft and submit a thesis proposal to the Honours Committee preferably no later than May 15th of their third year of studies. See Honours webpage for thesis proposal guidelines, and admission procedures for Honours Co-op students.

Marine Biology/Biology Honours webpage <https://www.dal.ca/faculty/science/biology/honours.html>

Course Requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a Combined Honours program in Marine Biology and another subject must complete the following:

1000 level

- BIOL 1010.03: Principles of Biology Part I (or BIOL 1020.03: Introductory Biology I: Cells, Genetics and Evolution or SCIE 1505X/Y.18 or SCIE 1506.09: Integrated Science I and SCIE 1507.09 Integrated Science II or equivalent)
- BIOL 1011.03: Principles of Biology Part II (or BIOL 1021.03: Introductory Biology II: Organismal Biology and Ecology or SCIE 1505X/Y.18 or SCIE 1506.09: Integrated Science I and SCIE 1507.09 Integrated Science II or equivalent)
- MATH 1060.03/STAT 1060.03: Introductory Statistics for Science and Health Sciences or SCIE 1505X/Y.18 or SCIE 1506.09: Integrated Science I and SCIE 1507.09 Integrated Science II or equivalent)
- MATH 1000.03: Differential and Integral Calculus I or MATH 1215.03: Life Sciences Calculus or MATH 1030.03: Matrix Theory and Linear Algebra 1
- CHEM 1011.03: Concepts of Chemistry: Structure and Reactivity
- CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium

Note: Marine Biology students wishing to incorporate **Ocean Sciences** into their program should include MATH 1000.03: Differential and Integral Calculus I or MATH 1215.03: Life Sciences Calculus and PHYC 1190.03/PHYC 1290.03 Introduction to Physics (or PHYC 1310.03/PHYC 1320.03 or PHYC 1300.06 Physics in & Around You)

2000 level

Core Biology courses

- BIOL 2003.03: Animal Diversity
- BIOL 2004.03: Diversity of Plants and Microorganisms
- BIOL 2020.03: Cell Biology
- BIOL 2030.03: Genetics and Molecular Biology
- BIOL 2040.03: Evolution
- BIOL 2060.03: Introductory Ecology

Other recommended courses

- OCEA 2000.06: The Blue Planet or OCEA 2001.03: The Blue Planet I and OCEA 2002.03: The Blue Planet II
- MATH 2080.03/STAT 2080.03: Statistical Methods for Data Analysis and Inference

3000 and 4000 levels

Core Biology/Core Marine Biology Courses

- BIOL 3101/MARI 3101 OR BIOL 3761/MARI 3761

If Marine Biology is the primary subject, students must choose an additional **9** credit hours from any of the following courses. If Marine Biology is the secondary subject, you must choose an additional **15** credit hours from any of the following courses:

- BIOL 3042/MARI 3042 Molecular Ecology
- BIOL 3063/MARI 3063 Resource Ecology
- MARI 3074 Physiology of Marine Animals Part I
- MARI 3076 Physiology of Marine Animals Part II

- BIOL 3080/MARI 3080 The Ecology and Evolution of Fishes
- MARI 3090 Marine Mammalogy OR BIOL 3626/MARI 3626 Field Studies of Marine Mammals
- BIOL 3101/MARI 3101 Microbial Ecology
- BIOL 3221/MARI 3221 Diversity of Algae
- BIOL 3301/MARI 3301 Invertebrate Biology
- MARI 3602 Introduction to Aquaculture
- BIOL 3761/MARI 3761 Marine Ecology
- MARI 4350 Cutting Edge in Marine Science
- MARI 4665 Hacking the Blue Planet
- Any two MARI SEASIDE courses
- Any two OCEA courses cross-listed as MARI

If Marine Biology is the primary subject, students will also complete

- MARI 4901.03: Honours Research and Thesis I and MARI 4902.03: Honours Research and Thesis II

BSc or BA (120 credit hour) Major in Marine Biology

The 120 credit hour Major is suited to students who want to focus on Marine Biology, but wish to have a program that is more flexible than the Honours program. It provides a four-year survey of Marine Biology, and is designed for students not anticipating subsequent experimental graduate-level training in Marine Biology or related disciplines. Marine Biology Majors complete a minimum of 42 credit hours in Marine Biology courses above the 1000 level and do not have thesis (or related) requirements. Research and other experiential learning opportunities are available through laboratories, independent research courses, special topics courses and experiential learning courses. Students should plan their programs carefully and obtain advice from an academic advisor in the Biology Department.

A Science Co-op option is available for students enrolled in a Major program in Marine Biology. See [Co-operative Education Program](#).

Course Requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a Major program in Marine Biology must complete the following courses:

1000 level

- BIOL 1010.03: Principles of Biology Part I (or BIOL 1020.03: Introductory Biology I: Cells, Genetics and Evolution or SCIE 1505X/Y.18 or SCIE 1506.09: Integrated Science I and SCIE 1507.09 Integrated Science II)
- BIOL 1011.03: Principles of Biology Part II (or BIOL 1021.03: Introductory Biology II: Organismal Biology and Ecology or SCIE 1505X/Y.18 or SCIE 1506.09: Integrated Science I and SCIE 1507.09 Integrated Science II or equivalent)
- MATH 1060.03/STAT 1060.03: Introductory Statistics for Science and Health Sciences (or SCIE 1505X/Y.18 or SCIE 1506.09: Integrated Science I and SCIE 1507.09 Integrated Science II or equivalent)
- MATH 1000.03: Differential and Integral Calculus I or MATH 1215.03: Life Sciences Calculus or MATH 1030.03: Matrix Theory and Linear Algebra I
- CHEM 1011.03: Concepts of Chemistry: Structure and Reactivity
- CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium

Note: Marine Biology students wishing to incorporate **Ocean Sciences** into their program should include MATH 1000.03: Differential and Integral Calculus I (or MATH 1215.03: Life Sciences Calculus) and PHYC 1190 and PHYC 1290.03 Introduction to Physics (or PHYC 1310.03 and PHYC 1320.03 or PHYC 1300.06 Physics in & Around You)

2000 level

- BIOL 2003.03: Animal Diversity
- BIOL 2004.03: Diversity of Plants and Microorganisms
- BIOL 2020.03: Cell Biology
- BIOL 2030.03: Genetics and Molecular Biology
- BIOL 2040.03: Evolution
- BIOL 2060.03: Introductory Ecology
- OCEA 2000.06: The Blue Planet or OCEA 2001.03: The Blue Planet I and OCEA 2002.03: The Blue Planet II

3000/4000 level

- A minimum of 24 credit hours, of which at least 3 credit hours must be at the 4000 level, of Marine Biology (MARI) or MARI-equivalent courses. This may include any MARI SEASIDE courses or any courses cross-listed as MARI.

BSc or BA (120 credit hour) Double Major in Marine Biology and another subject

BSc or BA (120 credit hour) Double Major in Marine Biology and another subject

The Double Major degree program allows students to combine a study of Marine Biology with another subject. The other subject may be any discipline from the Faculty of Science (other than Biology), the Faculty of Arts and Social Sciences, the Faculty of Computer Science or the College of Sustainability. Marine Biology may be the primary subject (defined as the subject with the larger number of credits), or the secondary subject. If the primary subject area is from the Faculty of Arts and Social Sciences, the degree granted will be a BA.

Regardless of whether Marine Biology is the primary or secondary subject, the Biology departmental requirements are the same (see below). Students must complete a minimum of 33 credit hours in Marine Biology/Biology courses above the 1000 level. It is recommended that students enrolled in a Double Major program consult with advisors in both subject areas.

A Science Co-op option is available for students enrolled in a Double Major with Marine Biology as the primary subject. See [Co-operative Education Program](#).

Course Requirements

In addition to fulfilling the requirements outlined in the Academic Regulations and College of Arts and Science Degree Requirements sections, students in a Double Major program in Marine Biology and another subject must complete the following:

1000 level

- BIOL 1010.03: Principles of Biology Part I (or BIOL 1020.03: Introductory Biology I: Cells, Genetics and Evolution or SCIE 1505X/Y.18 or SCIE 1506.09: Integrated Science I and SCIE 1507.09 Integrated Science II or equivalent)

- BIOL 1011.03: Principles of Biology Part II (or BIOL 1021.03: Introductory Biology II: Organismal Biology and Ecology or SCIE 1505X/Y.18 or SCIE 1506.09: Integrated Science I and SCIE 1507.09 Integrated Science II or equivalent)
- MATH 1060.03/STAT 1060.03: Introductory Statistics for Science and Health Sciences (or SCIE 1505X/Y.18 or SCIE 1506.09: Integrated Science I and SCIE 1507.09 Integrated Science II or equivalent)
- MATH 1000.03: Differential and Integral Calculus I or MATH 1215.03: Life Sciences Calculus or MATH 1030.03: Matrix Theory and Linear Algebra I
- CHEM 1011.03: Concepts of Chemistry: Structure and Reactivity
- CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium

Note: Marine Biology students wishing to incorporate **Ocean Sciences** into their program should include MATH 1000.03: Differential and Integral Calculus I (or MATH 1215.03: Life Sciences Calculus) and PHYC 1190 and PHYC 1290.03 Introduction to Physics (or PHYC 1310.03 and PHYC 1320.03 or PHYC 1300.06 Physics in & Around You)

2000 level

- BIOL 2003.03: Animal Diversity
- BIOL 2020.03: Cell Biology
- BIOL 2030.03: Genetics and Molecular Biology
- BIOL 2040.03: Evolution
- BIOL 2060.03: Introductory Ecology

3000/4000 level

- A minimum of **18** credit hours of Marine Biology (MARI) or MARI-equivalent courses at or above the 3000 level whether Marine Biology is the primary or secondary subject. This may include any MARI SEASIDE courses or any courses cross-listed as MARI.

Please note that a double major in Biology and Marine Biology is not offered.

Minor in Marine Biology

This minor is available to students registered in a 120 credit hour Bachelor of Applied Computer Science, Bachelor of Arts, Bachelor of Commerce, Bachelor of Community Design, Bachelor of Computer Science, Bachelor of Informatics, Bachelor of Management, Bachelor of Music, Bachelor of Science or Bachelor of Science (Medical Science) program.

Requirements

- A minimum of 18 to a maximum of 36 credit hours in Marine Biology (MARI) courses at the 2000 level or higher

Contact [Marine Biology](#) for more information.

Co-op, Minors, Certificates and Engineering Concurrent Programs for Students

Co-operative Education Program (Science Co-op) in Marine Biology

Co-op Academic Advisor: Dr. N McAllister-Irwin (nancy.mcallister-irwin@dal.ca)

Science Co-op is a program where academic study in a science subject is combined with paid career-related work experience. Students undertake three work-terms interspersed with their academic study terms. Science Co-op degree programs enable students to apply their knowledge directly while providing them with work experience that assists in making educated career choices.

Science Co-op is available to students in **BSc (120 credit hour) Honours or Major programs** in Marine Biology, or in Combined Honours or Double Major programs with Marine Biology as the primary subject. The number of students admitted into Science Co-op each year is limited. A minimum GPA of 3.00 is required for admission and for continuation in the Co-op program. For entry into Marine Biology Co-op, a minimum grade of B+ in BIOL 1010.03 is required. Students must be eligible to work in Canada.

Students normally apply to join Science Co-op during their first year of study, but application during the second year of study is possible. Students must apply before April 15, and it is recommended that interested students meet contact their Departmental Co-op advisor early in the Winter term of their first year. If accepted into Science Co-op, students must register for, and attend the Science Co-op Seminar Series (SCIE 2800.00) at least four months prior to the first work term.

Details are available from the Marine Biology/Co-op Academic Advisor and from the Co-operative Education office www.dal.ca/academics/cooperative_education.html. For more information on Co-op Education in Marine Biology, please see the Departmental webpage www.dal.ca/academics/programs/undergraduate/marinebio/what_will_i_learn/coop_work_terms.html

Minors available to students in Marine Biology

Minor programs allow students to develop subject specialties in addition to their major or honours subjects. Minors in other subjects are normally added to 120 credit hour BSc or BA programs (including Science Co-op).

Students in a BSc (120 credit hour) program in Marine Biology may choose to include a Minor selected from the [list of approved Minors](#). Courses counted toward a Major or Honours subject cannot be used to fulfill the requirements of a Minor program.

Certificates

In combination with a BSc in Marine Biology, students may obtain one or more Certificates. A Certificate indicates that a student has achieved a certain level of proficiency in a given area or subspecialty. Courses counted toward a Major, Honours or Minor subject may also be used to fulfill the requirements of a Certificate. Students must apply to the Certificate Coordinator to be considered for a Certificate. Certificates are awarded upon graduation and are noted on the student's academic transcript.

A complete list of [Faculty of Science Certificates](#) and requirements can be found at the beginning of the [Faculty of Science](#) section. Students may also work toward obtaining Certificates offered by other Faculties; some of these are listed in the [College of Arts and Science Degree Requirements](#) section.

Certificates of particular interest to student enrolled in a BSc in Marine Biology include:

- [Certificate in Animal Behaviour](#)
- [Certificate in Aquaculture and the Environment](#)
- [Certificate in Environmental Impact Assessment](#)
- [Certificate in Genetics](#)
- [Certificate in Geographic Information Science](#)
- [Certificate in Science Leadership and Communication](#)

MARI-Equivalent Courses

The following courses given by other departments may be taken as a Marine Biology course toward a BA, BSc and BSc (Honours) Marine Biology degrees.

Please note that MARI-equivalent courses will not count towards a minor program in Marine Biology.

Any course cross-listed as a MARI course

Aquaculture (AQUA)

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are typically available to students in the second, third, and fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not obtain credit for both courses as designated.

Not all courses are offered each year. Please consult the current [timetable](#) for this year's offering. For further information please contact the department, or visit the department's website.

Course Notes

The normal entry requirement for upper level courses in Biology and Marine Biology is a grade of C or better in BOTH terms of first year Biology or in SCIE 1506.09 and SCIE 1507.09. Students with extenuating circumstances may appeal to the departmental Undergraduate curriculum committee. Students should go to the Biology Main Office for further details.

Course Descriptions

MARI 3003 Introduction to Field Oceanography

CREDIT HOURS: 3

See course description for OCEA 3003.03 in the Oceanography section of the calendar.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

MARI 3042 Molecular Ecology

CREDIT HOURS: 3

We survey techniques of molecular genetic analysis and consider how they can be used to identify species, populations, sexes, individuals and family relationships, and study population attributes such as historical dispersal, contemporary connectivity, mating behaviour and effective population size. Evaluation is based on assignments, a test and a final exam.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: A grade of B- or better in each of BIOL 2030.03 (or GENE 2000.03), BIOL 2040.03, and BIOL 2060.03

CROSSLISTED: BIOL 3042.03

RESTRICTIONS:

EXCLUSIONS: BIOL 4042.03

FORMATS: Lecture

LAB HOURS PER WEEK:

MARI 3063 Resource Ecology

CREDIT HOURS: 3

This course considers the ecology, utilization, and management of natural resources in fisheries, wildlife and forest management, agriculture and aquaculture. Topics include population dynamics, community interactions, and ecosystem support of resources as well as the history of resource utilization, practices of controlling production, pests, and predators, and sustainable management strategies.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 2060.03 (or BIOA 3001.03), MATH 1000.03 (or MATH 1215.03 or SCIE 15xx), STAT 1060.03 (or SCIE 15xx)

CROSSLISTED: BIOL 3063.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

MARI 3074 Physiology of Marine Animals, Part I

CREDIT HOURS: 3

Animals in a marine environment are quite different from those found in air or fresh water, but the “physiological principles” are similar. This course deals with the same principles as BIOL 3078, but emphasizes the special characteristics of marine animals and the techniques necessary to study them in laboratories. Note: Students must complete MARI 3074.03 before MARI 3076.03

CALENDAR NOTES:

COREQUISITES:
PREREQUISITES: BIOL 2003.03 and BIOL 2020.03 (or BIOA 2001.03)
CROSSLISTED: BIOL 3078.03
RESTRICTIONS:
EXCLUSIONS:
FORMATS: Lecture | Lab
LAB HOURS PER WEEK:

MARI 3076 Physiology of Marine Animals Part II

CREDIT HOURS: 3
Animals in a marine environment are quite different from those found in air or fresh water, but the “physiological principles” are similar. This course deals with the same principles as BIOL 3079, but emphasizes the special characteristics of marine animals and the techniques necessary to study them in laboratories.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: MARI 3074.03 OR BIOL 3078.03
CROSSLISTED: BIOL 3079.03
RESTRICTIONS: BIOA 3005.03
EXCLUSIONS:
FORMATS: Lecture | Lab
LAB HOURS PER WEEK:

MARI 3080 The Ecology and Evolution of Fishes

CREDIT HOURS: 3
The course examines selected topics on the ecology and evolution of marine and freshwater fishes. Topics include: phylogeny and systematics; functional morphology and physiology; population biology; life-history evolution; behavior; fisheries science; and conservation biology.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: A cumulative GPA of 2.7 (B-) or better in BIOL 2003.03, BIOL 2040.03, BIOL 2060.03 (or BIOA 3001.03)
CROSSLISTED: BIOL 3080.03
RESTRICTIONS:
EXCLUSIONS: BIOL 3067.03, MARI 3067.03, BIOL 5067.03
FORMATS: Lecture
LAB HOURS PER WEEK:

MARI 3090 Marine Mammalogy

CREDIT HOURS: 3
This course examines the characteristics of marine mammals, the roles of marine mammals in oceanic ecosystems and general principles of marine mammal population biology. Students use information on the biology of marine mammals to explore conservation/management issues. They learn of these animals and explore how they interact with humans.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: BIOL 2060.03 or BIOA 3001.03
CROSSLISTED:
RESTRICTIONS:
EXCLUSIONS: BIOL 4060.03, MARI 4060.03
FORMATS: Lecture
LAB HOURS PER WEEK:

MARI 3101 Microbial Ecology

CREDIT HOURS: 3
Lectures on the ecology of bacteria, viruses, protists. Community structure, food web nutrient cycling, biogeochemical cycles, competition, succession and symbiosis are discussed with examples from marine, fresh-water and soil habitats. There is an emphasis on marine organisms.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: BIOL 2004.03 (or MICI 2100.03) and BIOL 2060.03 (or BIOA 3001.03)

CROSSLISTED: BIOL 3101.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

MARI 3221 Diversity of Algae

CREDIT HOURS: 3

This course is a taxonomic introduction to the major algal groups (macrophytic and microscopic) with an emphasis on the marine seaweeds. Basic taxonomic differences are covered, along with an introduction to macrophyte ecology, human uses and symbioses. Laboratory sessions focus on morphology and reproduction.

CALENDAR NOTES: Also offered in summer through SEASIDE. An auxiliary fee is charged to cover field expenses. For dates, times, and special registration procedures, see <http://www.seaside.science.dal.ca>

COREQUISITES:

PREREQUISITES: BIOL 2004.03 or equivalent

CROSSLISTED: BIOL 3221.03

RESTRICTIONS:

EXCLUSIONS: BIOL 3212.03, MARI 3212.03

FORMATS:

LAB HOURS PER WEEK:

MARI 3301 Invertebrate Biology

CREDIT HOURS: 3

A survey of the diversity, ecology and evolutionary history of the major invertebrate groups. Lectures will emphasize phylogenetics and diversity of body plans. Labs will emphasize identification and anatomy through dissections and observations.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 2003.03

CROSSLISTED: BIOL 3301.03

RESTRICTIONS: This course is restricted to MARI majors.

EXCLUSIONS: BIOL 3321X/Y.06

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

MARI 3602 Introduction to Aquaculture

CREDIT HOURS: 3

This course offers an introductory overview of aquaculture, the culturing of aquatic plants and animals. The following topics are covered with both a Maritimes and global perspective: overview physico-chemistry of water, engineering, culture techniques, health, nutrition, genetics, environmental and socio-economic considerations.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 2003.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: BIOL 3600.03, MARI 3600.03

FORMATS: Lecture

LAB HOURS PER WEEK:

MARI 3603 Practical Aquaculture

CREDIT HOURS: 3

This course provides students with aquaculture practical experience. Two field trips expose students to real life issues for aquaculturists. The laboratories help students acquire skills useful for experiments with aquatic animals (e.g., marking, measuring, anaesthesia, etc.). Students collect real data and learn to conduct exploratory graphical and statistical analyses.

CALENDAR NOTES:

COREQUISITES: MARI 3602.03

PREREQUISITES: STAT 1060.03 and BIOL 2003.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: BIOL 3600.03, MARI 3600.03

FORMATS: Lab

LAB HOURS PER WEEK:

MARI 3604 Field Aquaculture

CREDIT HOURS: 3

Hands-on learning of aquaculture techniques through field trips to several aquaculture-related facilities (e.g. farms, hatcheries, research institutes, government offices) in the Maritimes and through laboratory exercises in water quality analysis, necropsies, fish processing, knots/rope handling, and culturing of artemia, rotifers, microalgae and other species in the Aquatron's on-going research. CALENDAR NOTES: Offered in summer through SEASIDE. An auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see seaside.science.dal.ca. Not offered every year.

COREQUISITES:

PREREQUISITES: BIOL 2003.03 or Instructor's approval. MARI 3602.03 is recommended.

CROSSLISTED:

RESTRICTIONS: Restricted from students with fewer than 60 credit hours.

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

MARI 3623 Applied Coastal Ecology

CREDIT HOURS: 3

Coastal Ecology explores anthropogenic impacts on the structure and function of coastal ecosystems. Through field trips, laboratories and guest demonstrations, students examine ecosystem health, e.g. communities on rocky shores, salt marshes and sandy shores, and will learn basic experimental design, principles of environmental assessment and monitoring, and coastal habitat remediation. CALENDAR NOTES: Offered in summer through SEASIDE. An auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see seaside.science.dal.ca

COREQUISITES:

PREREQUISITES: BIOL 2003.03 and BIOL 2060.03 (or BIOA 3001.03)

CROSSLISTED: BIOL 3623.03, ENVS 3623.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

MARI 3626 Field Studies of Marine Mammals

CREDIT HOURS: 3

Hands-on introduction to research on marine mammals. Lectures provide an overview of marine mammal adaptations, evolution, population biology, social organization, conservation, and management. Labs include a necropsy and techniques of photographic identification of individuals. On a several-day camping trip, students observe marine mammals from whale-watch boats and conduct research projects.

CALENDAR NOTES: Offered in summer through SEASIDE. An auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see seaside.science.dal.ca.

COREQUISITES:

PREREQUISITES: BIOL 2060.03 (or BIOA 3001.03), and BIOL 3062.03 (or BIOL 3630.03 or PSYO 2160.03), and STAT 1060.03 (or equivalent)

CROSSLISTED: BIOL 3626.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

MARI 3627 Biology and Conservation of Sharks, Skates and Rays

CREDIT HOURS: 3

This course offers a combination of lectures, labs, and field trips that explore the elements of elasmobranchs (shark, skate and ray) biology and conservation. Students are introduced to current methods used in shark research, such as tagging, and learn about the role of sharks in ecosystems.

CALENDAR NOTES: Offered in summer through SEASIDE. An auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see seaside.science.dal.ca

COREQUISITES:
PREREQUISITES: BIOL 2060.03 (or BIOA 3001.03) and BIOL 2003.03
CROSSLISTED:
RESTRICTIONS:
EXCLUSIONS:
FORMATS: Lecture | Lab
LAB HOURS PER WEEK:

MARI 3628 Marine Ornithology

CREDIT HOURS: 3

Overview of the biology of birds in marine environments. Seabird ecology, evolution, adaptations, identification, and natural history. Tools and techniques for studying their behaviour, diet, and populations in the field. Lectures, exercises, and a week-long field trip to Maritime seabird breeding colonies. Student team and independent research projects and presentations.

CALENDAR NOTES: Offered in summer through SEASIDE. An auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see: seaside.science.dal.ca.

COREQUISITES:

PREREQUISITES: BIOL 1010 or BIOL 1020 or equivalent, and BIOL 1011 or BIOL 1021 or equivalent, or SCIE 15XX, one of BIOL 2003 or BIOL 2004, and BIOL 2060, or instructor's permission. Knowledge of statistics, Geographic Information Systems (GIS), and familiarity with Excel spreadsheets are helpful, but not required, for research projects.

CROSSLISTED: BIOL 3628.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

MARI 3632 Applied Field Methods in Fish Ecology

CREDIT HOURS: 3

Practical experience conducting field research on fishes with field trips to streams and shallow water marine/freshwater habitats.

Techniques include collecting fish, designing and conducting surveys, studying behaviour, measuring phenotypic variability, quantifying temporal and spatial variation, planning for statistical analysis, and weighing tradeoffs between data quality, quantity, costs and ethical/environmental considerations.

CALENDAR NOTES: Offered in summer through SEASIDE. An auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see seaside.science.dal.ca.

COREQUISITES:

PREREQUISITES: BIOL 2060.03 or BIOL 2003.03 or BIOA 3001.03 and STAT 1060.03 or their equivalents or permission of instructor. STAT 2080 is recommended.

CROSSLISTED: BIOL 3632.03, ENVS 3632.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

MARI 3633 Spatial Information and GIS in Ecology

CREDIT HOURS: 3

A hands-on approach to understanding and using spatial information, this course introduces students to Geographic Information Systems (GIS) as a tool to answer ecological questions. Together, students conduct a major field project, collecting data, creating maps using GIS, and interpreting spatial patterns, to address an applied problem in ecology.

CALENDAR NOTES: Offered in the summer through **SEASIDE**. an auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see seaside.science.dal.ca.

COREQUISITES:

PREREQUISITES: BIOL 2060.03 or BIOA 3001.03

CROSSLISTED: ENVS 3633.03, GEOG 3633.03, BIOL 3633.03

RESTRICTIONS:

EXCLUSIONS: PLAN 2006.03, GEOG 2006.03

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

MARI 3664 Intertidal Ecology and Diversity

CREDIT HOURS: 3

Hands-on, intensive introduction to ecological research on rocky shores, tidal flats, and sandy beaches. Relevant ecological concepts, sampling techniques for flora and fauna, and statistical skills are learned. Field sampling on day and camping trips is followed by lab work (e.g., identification of seaweeds, invertebrates), statistical analysis, and report preparation.

CALENDAR NOTES: Offered in summer through SEASIDE. An auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see seaside.science.dal.ca.

COREQUISITES:

PREREQUISITES: BIOL 2060.03 (or BIOA 3001.03) and BIOL 2003.03 and (MATH 1060.03/STAT 1060.03 or SCIE 15xx)

CROSSLISTED: BIOL 3664.03, ENVS 3664.03

RESTRICTIONS:

EXCLUSIONS: BIOL 3662.03, BIOL 3663.03

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

MARI 3680 Scientific Diving Methods for Marine Ecology

CREDIT HOURS: 3

This course introduces students that are certified divers to the practice of underwater research using SCUBA. It combines lectures with supervised dives in various marine habitats to demonstrate the application of standard sampling and experimental procedures in marine ecology, with an emphasis on logistical considerations and diving safety.

CALENDAR NOTES: Offered every other summer through the SEASIDE program. An auxiliary fee is charged to cover costs of dive trips. For dates, times and special registration procedures, see seaside.science.dal.ca.

COREQUISITES:

PREREQUISITES: BIOL 2003.03 and BIOL 2060.03 (or BIOA 3001.03) and STAT 1060.03 or SCIE 15xx, and an internationally recognized diving certification, and a diving physical. Recommended: BIOL 3221.03/MARI 3221.03, BIOL 3301.03

CROSSLISTED: BIOL 3680.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

MARI 3682 Tropical Marine Biology

CREDIT HOURS: 3

This course provides a practical introduction to tropical marine biology, including a multi-day field trip to tropical marine ecosystems (reef, mangrove, seagrass). Identification of species, ecological interactions and tropical marine conservation will be discussed.

Evaluation includes, but is not limited to, lecture and field tests, presentations, field observations and reports.

CALENDAR NOTES: Field work involves snorkeling; students must be comfortable swimming for extended periods in open water. Offered in summer through SEASIDE. Special application procedure. An auxiliary fee is charged to cover field expenses. For dates, times and special registration procedures, see: seaside.science.dal.ca.

COREQUISITES:

PREREQUISITES: BIOL 2003.03 and BIOL 2060.03 or equivalent courses; or Instructor's permission. An introductory course in statistics and familiarity with spreadsheets (e.g. Excel) will be useful.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

MARI 3685 The Gulf of Eilat Ecosystem: Coral Reef and Subtropical Sea

CREDIT HOURS: 3

Introduction to physical, chemical, and biological oceanography, marine geology, biogeochemistry, and coral-reef biology. Focus is on subtropical seas, the coral reef ecosystem, and the unique characteristics of the Gulf of Eilat. Lectures, laboratories, demonstrations, field trips, exam, group field research projects in the sea, oral presentation, and scientific research paper.

CALENDAR NOTES: This is a field course given at the Eilat Ocean Studies Centre in Israel. Entry is restricted and requires submission of an application form

COREQUISITES:

PREREQUISITES: OCEA 2000, STAT 1060 or permission of instructor

CROSSLISTED: OCEA 3685.03

RESTRICTIONS:

EXCLUSIONS:
FORMATS: Lecture | Lab
LAB HOURS PER WEEK:

MARI 3761 Marine Ecology

CREDIT HOURS: 3

Building upon an understanding of basic ecological and evolutionary principles, and a familiarity with the major marine invertebrate and algal taxa, this course examines patterns and processes at the organismal, population and community levels that determine the diversity and distribution of life in the sea.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 2060.03 (or BIOA 3001.03), and (BIOL 2003.03 or BIOL 2004.03) and OCEA 2000X/Y.06 or (OCEA 2001.03 and OCEA 2002.03)

CROSSLISTED: BIOL 3761.03

RESTRICTIONS: This course is restricted to 3rd and 4th year students.

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

MARI 3800 Experiential Learning

CREDIT HOURS: 3

Experiential Learning recognizes the learning experience relevant to the program outside the scheduled curriculum. Students are responsible for drafting a learning agreement with the course coordinator and supervisor to specify learning outcomes, activities designed to accomplish these outcomes, a quantifiable assessment strategy and a timetable.

CALENDAR NOTES: To register in this course, a student must first find a suitable supervisor and sign a learning agreement between the course coordinator, the student and the supervisor.

COREQUISITES:

PREREQUISITES: Students must be registered in a Biology or Marine Biology program, have completed a minimum of 18 credit hours in Biology or Marine Biology above the 1000 level and have a minimum cumulative GPA of 2.4 or permission of the course coordinator.

CROSSLISTED: BIOL 3800.03

RESTRICTIONS:

EXCLUSIONS: Scheduled courses at a learning institution, study that would qualify for a Special Topics class, an Honours project, co-op work terms and paid work. Only one experiential learning course per degree is permitted.

FORMATS:

LAB HOURS PER WEEK:

MARI 4003 Coral Reefs and Environmental Change

CREDIT HOURS: 3

Coral reefs are iconic marine ecosystems both biologically and economically. This course introduces students to the biology of both tropical and cold-water corals, key characteristics of their abiotic environments, human impacts at both local and global scales, and management options for sustainable resource use and the protection of biodiversity.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 1011.03/CHEM 1012.03 and BIOL 2060.03 and 6 credit hours in ENVS or BIOL or MARI at or above the 3000 level.

CROSSLISTED: ENVS 4003

RESTRICTIONS: This course is restricted to fourth year students.

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

MARI 4080 Laboratory Studies of Fishes

CREDIT HOURS: 3

Through a series of laboratory exercises, the course provides students with practical experience on various topics related to the study of ichthyology. Topics shall include the following: species identification; meristics and morphometrics; use of dichotomous keys; internal and external morphology; ageing and growth determination; ecomorphological attributes; data collection and analysis.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 3080.03 or MARI 3080.03
CROSSLISTED: BIOL 4080.03
RESTRICTIONS:
EXCLUSIONS: BIOL 3067.03, MARI 3067.03, BIOL 5067.03
FORMATS: Lab
LAB HOURS PER WEEK:

MARI 4090 Evolutionary ecology of marine mammals

CREDIT HOURS: 3

Mammals evolved on land and then made their way into the ocean. The course considers how marine mammals adapted to this major change in habitat, so that they are now highly successful participants in the marine ecosystem. Students examine adaptations ranging from the cellular to social structure.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: One of MARI 3090.03, BIOL 3626.03, MARI 3626.03, BIOL 4060.03, MARI 4060.03 or permission of Instructor

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: BIOL 5651

FORMATS: Lecture

LAB HOURS PER WEEK:

MARI 4323 Biologging in Ecology

CREDIT HOURS: 3

This course explores the fundamentals and applications of biologging and biotelemetry: the use of electronic tags to study free-ranging animals and their environment. Students are introduced to the wide range of tags and their diverse applications in biology.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 2060.03 or BIOA 3001.03 or PSYO/NESC 2160.03 or permission of the instructor.

CROSSLISTED: BIOL 4323.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

MARI 4335 Environmental Impacts in Marine Ecosystems

CREDIT HOURS: 3

See course description for OCEA 4335.03, in the Oceanography section of this calendar.

CALENDAR NOTES:

FORMATS:

LAB HOURS PER WEEK:

MARI 4350 Cutting Edge in Marine Science

CREDIT HOURS: 3

This course focuses on current, often hotly debated topics in marine science. We discuss recently published papers and current research initiatives on urgent issues, including biodiversity, fisheries, conservation, management, climate change, and human-ocean interactions. Class format includes lectures, case-studies, as well as active discussion, debates, group work and hands-on assignments.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 2060.03 and OCEA 2000X/Y.06 (or OCEA 2001.03 and OCEA 2002.03) and one of any of the following: BIOL 3065.03, MARI 3063.03, BIOL 3067.03, MARI 3067.03, MARI 3080.03, BIOL 3600.03, MARI 3600.03, MARI 3602.03 or MARI 3761.03.

CROSSLISTED: MARI 5350.03

RESTRICTIONS:

EXCLUSIONS:

LAB HOURS PER WEEK:

MARI 4665 Hacking the blue planet: The scientific and social dimensions of ocean fertilization

CREDIT HOURS: 3

This course explores the biology, ecology, biogeochemistry and ethical and legal dimensions of purposeful ocean fertilization. Through lectures, discussion, case studies, and group projects, students consider the biological and oceanographic basis of ocean fertilization and its use as a 1) scientific tool and 2) controversial geoengineering strategy for climate change mitigation.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: One of the BIOL 3101.03, OCEA 2000X/Y.06, EARTH 3601.03, BIOL 3060.03 or instructor's permission

MARI 4806 Independent Research I

CREDIT HOURS: 3

Students conduct supervised, independent research in Marine Biology. The student and faculty supervisor together develop a course outline, with a proposal for original research and the method of evaluation, including a formal research paper. Outline must be approved by the course coordinator before the student is permitted to register.

CALENDAR NOTES: This course is intended for Biology or Marine Biology majors in their fourth year of study. The signature required to register can only be given by the Chair of the Biology Undergraduate Curriculum Committee or their designate. The course outline must be submitted for approval no later than one week after the start of the term in which the student wishes to register. For forms and more information see <https://www.dal.ca/faculty/science/biology/programs/undergraduate.html>

MARI 4901 Honours Research and Thesis I

CREDIT HOURS: 3

This course is required for, and restricted to, all Marine Biology Honours programs in which Marine Biology is the major area of study. Students conduct a research project supervised by a research scientist and attend weekly meetings of the class. The classes (4901 and 4902) are normally taken in the students' final year. See Marine Biology and Biology Honours webpage for more details (<https://www.dal.ca/faculty/science/biology/honours.html>).

CALENDAR NOTES: MARI 4901 and MARI 4902 must be taken in consecutive fall/winter or winter/fall terms (Co-op only). Grades will not be recorded for either course until both have been completed, and the final Honours Thesis has been evaluated.

Introduction

The Mathematics division offers a full range of programs aimed at students of diverse interests and levels. This includes honours, major, minor and joint degree programs. We work closely with students to choose a program that is the right fit for their interests and goals. Mathematics is a creative activity with its own intrinsic value and beauty. Mathematics also provides a solid foundation for every scientific field. A degree in mathematics can prepare students for a career in academia, industry, management, information technology, banking, teaching, and other areas.

General Interest Courses

We offer a number of courses for students not majoring in Mathematics:

- MATH 1000.03/MATH 1010.03: These core calculus courses are the starting point for any degree program in the sciences.
- MATH 1030.03 This course along with 2040.03 serve as introductions to matrix theory, linear equations and linear algebra, topics of importance in many fields.
- MATH 1060.03: This course serves as an introduction to the basic ideas of statistics, through examples drawn from a wide variety of disciplines.
- MATH 1115.03: Linear algebra and calculus are arranged to meet the needs of commerce students, but of interest to anyone wishing a brief introduction to these topics.
- MATH 1215.03: This course emphasizes the application of calculus to the life sciences.

- MATH 2112.03: Whereas calculus deals with continuous phenomena, this course deals with discrete objects, especially varieties of ways to count.
MATH 2040.03: This course along with 1030.03 serve as introductions to matrix theory, linear equations and linear algebra, topics of importance in many fields.
- MATH 2300.03: Topics from science and technology are used to motivate and illustrate basic mathematical tools of linear algebra and calculus. Mathematical software such as Matlab and Maple is also introduced.

Six credit hours of Mathematics or Statistics are required for a BSc degree. The following courses may not be used to satisfy this requirement: MATH 1001.03, MATH 1002.03, MATH 1003.03, MATH 1115.03.

Degree Programs

The Department of Mathematics and Statistics offers the following degree programs in Mathematics

- BSc (120 credit hour) Honours (Concentrated)*
- BSc (120 credit hour) Combined Honours*
- BSc (120 credit hour) Major*
- BSc or BA (120 credit hour) Double Major*
- BSc (90 credit hour) Minor in Mathematics
- Minor in Mathematics (added to a 120 credit hour degree)

* May be combined with Minor programs from other disciplines

Departmental requirements for each degree program can be seen by following the links in the menu to the right.

In addition to departmental requirements, students must satisfy the requirements outlined in the [Academic Regulations](#) and the [College of Arts and Science Degree Requirements](#) sections.

A BSc degree is the choice of most students in Mathematics; however, a BA degree option is also available for each of the programs listed below. The Departmental requirements for each BA degree program are the same as those of the corresponding BSc degree program; however, students are advised that some of the general College of Arts and Science requirements differ for the BA and BSc degrees. Minors and certificates that can be combined with a BSc degree can also be combined with a BA degree.

A student is governed by the academic regulations in place at the time of initial enrolment, as long as the degree is completed within the time permitted (10 years). Subsequent changes in regulations shall apply only if the student so elects. Students applying the old academic regulations should consult the calendar of the appropriate year.

Students should plan their programs of study carefully and are strongly encouraged to do so in consultation with a Mathematics undergraduate academic advisor. Students who participated in the Integrated Science Program in their first year should consult the Undergraduate Calendar for first year course equivalencies.

Students in any Mathematics program are strongly encouraged to include CSCI 1100.03 and CSCI 1101.03 in their programs.

Staff

Dean

Moore, C., BA (Hons), PhD (Cambridge), Professor (Psychology)

Chairperson of the Department

Janssen, J. C., MSc (Eindhoven), PhD (Lehigh)

Director of Division

Smirnov, R., BSc (Kyiv), PhD (Queen's)

Faculty Advisor

Smirnov, R., BSc (Kyiv), PhD (Queen's), Undergraduate Advisor

Pronk, D., MSc, PhD (Utrecht), Honours Advisor

Brown, J., MSc, PhD (Toronto), Co-op Coordinator

Professors Emeriti

BSc (120 credit hour) Concentrated Honours in Mathematics

An Honours degree offers an in-depth preparation in undergraduate mathematics, including an independent research experience. This degree option is recommended for students interested in eventually pursuing graduate studies in mathematics. Honours students complete a minimum of 54 credit hours above the 1000 level in Mathematics with a minimum GPA of 3.0 and write an Honours Comprehensive Examination.

Admission to Honours

Students must apply for admission to Honours programs. Students considering Honours in Mathematics should consult with a Mathematics Honours Advisor early in their studies to have their programs approved.

Departmental requirements

The Department offers two Honours streams in Mathematics: (A) Pure Mathematics and (B) Applied Mathematics. Stream A emphasizes the power and beauty of mathematics as an independent academic discipline. Stream B emphasizes the connections between mathematics and other scientific disciplines. Both streams follow the same courses for the first two years. Students decide which stream to pursue during their second year.

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a BSc Concentrated Honours program in Mathematics must complete the following courses:

1000 level

- Math 1030.03: Matrix Theory and Linear Algebra

2000 level

- MATH 2001.03: Intermediate Calculus I/MATH 2002.03: Intermediate Calculus II
Math 2135.03: Linear Algebra and Math 2505.03: Introductory Analysis
- Fifteen additional credit hours in mathematics at or above the 2000 level - not including courses listed below

3000 level

- MATH 3031.03: Abstract Algebra I and MATH 3501.03: Intermediate Analysis I
- Students in Stream A are required to take MATH 3032.03: Abstract Algebra II and MATH 3502.03: Intermediate Analysis II
- Students in Stream B are required to take MATH 3080.03: Introduction to Complex Variables and (MATH 3120.03: Differential Equations or MATH 3260.03: Applied Differential Equations)

4000 level

- MATH 4950.03: Honours Research Project
- Twelve additional credit hours at or above the 4000 level

Note: Students will not receive credit for taking MATH 1115.03 after receiving credit for MATH 1000.03, MATH 1500X, or MATH 1215.03

Programming requirement

- Students must complete a 3-credit course that incorporates computer programming. Suggested course is one of CSCI 2202, MATH/STAT 2300, PHYC2050/MATH2052, or permission of advisor.

Students in Stream A are advised to include a selection of courses from the following list in their programs:

- MATH 2051.03: Problems in Geometry
- MATH 2113.03: Discrete Structures II
- MATH 3045.03: Curves and Surfaces
- MATH 3070.03: Theory of Numbers
- MATH 3080.03: Introduction to Complex Variables
- MATH 3120.03: Differential Equations
- MATH 3330.03: Applied Graph Theory
- MATH 3360.03: Probability

Students in Stream B are advised to include a selection of courses from the following list in their programs:

- MATH 2060.03: Introduction to Probability and Statistics
- MATH 2300.03: Mathematical Modelling
- MATH 3032.03: Abstract Algebra II
- MATH 3045.03: Curves and Surfaces
- PHYC 3050.03: Introduction to Numerical Programming
- MATH 3300.03: Optimization
- MATH 3330.03: Applied Graph Theory
- MATH 3360.03: Probability
- MATH 3400.03: Classical Game Theory
- MATH 3502.03: Intermediate Analysis II
- MATH 3900.03: Financial Mathematics

Honours Comprehensive Examination

The Honours Comprehensive Examination in mathematics consists of a written paper of about 20-30 pages researched and prepared by the student. The topic is decided on in conjunction with the Honours advisor. The paper is also presented to the honours seminar. The work for this paper is done as part of the required course MATH 4950.03: Honours Research Project.

BSc (120 credit hour) Combined Honours in Mathematics and another subject

Students who wish to study Mathematics in conjunction with another subject may wish to pursue a Combined Honours degree program. The other subject may be any discipline from the Faculty of Science, the Faculty of Arts and Social Sciences, the Faculty of Computer Science, or the College of Sustainability. Mathematics may be the primary subject (defined as the subject with the larger number of honours credits), or the secondary subject. Students contemplating a Combined Honours program in Mathematics and another subject should bear in mind, however, that the work in either subject may be insufficient for admission to a regular graduate program.

Students planning to enrol in a Combined Honours program should consult with academic advisors from both programs early in their studies. The same standards and conditions for admission apply as for entry into a Concentrated Honours program (see above). In addition, students must have their program of study approved by

Academic Advisors in both subject areas. Students must complete an Honours Qualifying Examination in one of the two subject areas, a requirement normally completed in the primary subject area. For Mathematics, this requirement is satisfied through MATH 4950.03.

Departmental Requirements

Students in a BSc Combined Honours program in Mathematics and another subject must fulfill the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections. A combined total of 66 credit hours above the 1000 level must be completed in two subjects, with a minimum of 30 credit hours above the 1000 level in each subject. In addition, students must complete a minimum of 18 credit hours at the 3000 level or above in each of the primary and secondary subjects.

Mathematics as the primary subject

The Mathematics part of a Combined Honours program in Mathematics and another subject will be designed to suit the needs and interests of the student. However, the program must be approved by a Mathematics Honours Advisor and an Honours advisor from the other subject. Students will normally complete MATH 4950.03 Honours Research Project.

Mathematics as the secondary subject

The Mathematics part of a Combined Honours program in Mathematics and another subject will be designed to suit the needs and interests of the student. However, the program must be approved by a Mathematics Honours Advisor and an Honours advisor from the other subject.

Note: Students will not receive credit for taking MATH 1115.03 after receiving credit for MATH 1000.03, MATH 1500X, or MATH 1215.03

BSc (120 credit hour) Major in Mathematics

The 120 credit hour Major is suited to students who want to focus on Mathematics, but wish to have a program that is somewhat less constrained than the Honours program. Students in a Major program normally choose to concentrate in Pure Mathematics, Applied Mathematics or Mathematics Education.

Departmental Requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a BSc Major program in Mathematics must complete the following courses:

1000 level

- MATH 1030.03: Matrix Theory and Linear Algebra I

2000 level

- MATH 2001.03: Intermediate Calculus I/MATH 2002.03: Intermediate Calculus II
- MATH 2040.03: Matrix Theory and Linear Algebra II (or MATH 2135.03: Linear Algebra)
- At least one of MATH 2112.03: Discrete Structures I, MATH 2051.03: Problems in Geometry or MATH 2505.03: Introductory Analysis
- Six additional credit hours in MATH at or above 2000 level
- Three credit hours in a STAT course at or above 2000 level

3000 level

- 24 additional credit hours in MATH at or above the 3000 level. This selection may not include MATH 3700.03: Mathematics for Economists, MATH 3800.03: Financial Economics.

Programming requirement

- Students must complete a 3-credit course that incorporates computer programming. Suggested course is one of CSCI 2202, MATH/STAT 2300, PHYC2050/MATH2052, or permission of advisor.

Students wishing to concentrate in Applied Mathematics should choose the additional MATH courses from

- MATH 2060.03: Introduction to Probability and Statistics/MATH 2080.03: Statistical Methods for Data Analysis and Inference
- MATH 2120.03: Methods for Ordinary Differential Equations/MATH 3120.03: Differential Equations
- MATH 2300.03: Mathematical Modelling
- MATH 3210.03: Introduction to Numerical Analysis
- MATH 3260.03: Applied Differential Equations
- MATH 3300.03: Optimization
- MATH 3330.03: Applied Graph Theory
- MATH 3400.03: Classical Game Theory

Students wishing to concentrate in Pure Mathematics should choose the additional MATH courses from

- MATH 2060.03: Introduction to Probability and Statistics/MATH 2080.03
- MATH 2120.03: Methods for Ordinary Differential Equations/MATH 3120.03: Differential Equations
- MATH 3031.03: Abstract Algebra I/MATH 3032.03: Abstract Algebra II
- MATH 3045.03: Curves and Surfaces
- MATH 3070.03: Theory of Numbers
- MATH 3080.03: Introduction to Complex Variables

Students contemplating a career in Mathematics Education should choose the additional MATH courses from

- MATH 2051.03: Problems in Geometry
- MATH 2060.03: Introduction to Probability and Statistics/MATH 2080.03
- MATH 2112.03: Discrete Structures I/MATH 2113.03: Discrete Structures II
- MATH 2300.03: Mathematical Modelling
- MATH 3031.03: Abstract Algebra I/MATH 3032.03: Abstract Algebra II
- MATH 3070.03: Theory of Numbers
- MATH 3080.03: Introduction to Complex Variables
- MATH 3140.03: Introduction to Wavelets
- MATH 3300.03: Optimization
- MATH 3330.03: Applied Graph Theory
- MATH 3400.03: Classical Game Theory

Note: Students will not receive credit for taking MATH 1115.03 after receiving credit for MATH 1000.03, MATH 1500X, or MATH 1215.03

BSc or BA (120 credit hour) Double Major in Mathematics and another subject

The Double Major degree program allows students to combine the study of Mathematics with another subject. The other subject may be any discipline from the Faculty of Science, the Faculty of Arts and Social Sciences, the Faculty of Computer Science or the College of Sustainability. Mathematics may be the primary subject (defined as the subject with the larger number of credits), or the secondary subject. If the primary subject area is from the Faculty of Arts and Social Sciences, the degree granted will be a BA.

Students enrolled in a Double Major program are advised to review their proposed program of study with advisors in both subject areas.

Departmental requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a BSc or BA Double Major program in Mathematics and another subject must complete the following:

Mathematics as the primary subject

Student completing a double major with Mathematics as the primary subject can fulfill the Mathematics requirements by following one of two programs below.

Pure Mathematics

2000 level

- MATH 2001.03: Intermediate Calculus I and MATH 2002.03: Intermediate Calculus II
- MATH 2040.03: Matrix Theory and Linear Algebra II (or MATH 2135.03: Linear Algebra)
- At least two of MATH 2112.03: Discrete Structures I, MATH 2051.03: Problems in Geometry, MATH 2505.03: Introductory Analysis

3000 level

- 18 additional MATH credit hours at or above the 3000 level. This selection may not include MATH 3700.03: Mathematics for Economists, MATH 3800.03: Financial Economics.

Programming requirement

- Students must complete a 3-credit course that incorporates computer programming. Suggested course is one of CSCI 2202, MATH/STAT 2300, PHYC2050/MATH2052, or permission of advisor.

Applied Mathematics

2000 level

- MATH 2001.03: Intermediate Calculus I
- MATH 2040.03: Matrix Theory and Linear Algebra II (or MATH 2135.03: Linear Algebra)
- MATH 2120.03: Methods for Ordinary Differential Equations and MATH 2002.03: Intermediate Calculus II
- MATH 2060.03: Introduction to Probability and Statistics or MATH 2080.03: Statistical Methods for Data Analysis and Inference

3000 and 4000 level

- MATH 3045 : Curves and Surfaces, MATH 3120.03: Differential Equations or MATH 3260.03: Applied Differential Equations, MATH 3340 : Regression Analysis and Variance, MATH 3360 : Probability.
- At least 15 credit hours selected from MATH 3080.03: Introduction to Complex Variables, MATH 3210.03: Statistical Mechanics, MATH 3300.03: Optimization, MATH 3330.03: Applied Graph Theory, MATH 3400.03: Classical Game Theory, MATH 3900.03: Financial Mathematics, MATH 4190.03: Ordinary Differential Equations, MATH 4220.03: Introduction to Partial Differential Equations, MATH 4230.03: Partial Differential Equations, MATH 4250.03: Asymptotic Analysis, MATH 4320.03: Combinatorial Optimization, MATH 4370.03: Combinatorics: Techniques and Structures, MATH 4540.03: Applied Analysis

Programming requirement

- Students must complete a 3-credit course that incorporates computer programming. Suggested course is one of CSCI 2202, MATH/STAT 2300, PHYC2050/MATH2052, or permission of advisor.

Mathematics as the secondary subject

A student enrolled in a Double Major with Mathematics as the secondary subject also fulfills the Mathematics requirements by following one of the programs listed above for a Double Major with Mathematics as the primary subject.

Note: Students will not receive credit for taking MATH 1115.03 after receiving credit for MATH 1000.03, MATH 1500X, or MATH 1215.03.

BSc (90 credit hour) Minor in Mathematics

The 90 credit hour Minor in Mathematics is appropriate for students who want to study some Mathematics but do not wish to complete the conventional four-year program. The degree is best suited for students who want a general science degree with some specialization in Mathematics. A 90 credit hour degree program is not suitable for students who wish to pursue graduate studies. With additional study, the degree may be upgraded to a 120 credit hour Major or Honours degree at a later date.

A 90 credit hour BSc in Mathematics is usually the preferred option for students who wish to combine studies in Mathematics with a degree in Engineering (see BSc/BEng Concurrent Program).

See the [Minor in Mathematics](#) section of this Calendar.

Minor in Mathematics

This minor is available to students registered in a 120 credit hour Bachelor of Applied Computer Science, Bachelor of Arts, Bachelor of Commerce, Bachelor of Community Design, Bachelor of Computer Science, Bachelor of Informatics, Bachelor of Management, Bachelor of Music, Bachelor of Science or Bachelor of Science (Medical Sciences) program.

BA or BSc (90 credit hour) degree program with a Minor in Mathematics is also available.

Requirements

* A minimum of 18 credit hours in MATH courses at the 2000 level or higher to a maximum of 36 credit hours.

* It is recommended that students take MATH 1010 and MATH 1030. These are prerequisites for many other upper-level MATH courses.

Contact [Mathematics and Statistics](#) for more information.

Co-op, Minors, Certificates and Engineering Concurrent Programs for Students

Minors available to students in Mathematics

Minor programs allow students to develop subject specialties in addition to their Major or Honours subjects. Minors in other subjects are normally added to 120 credit hour BSc or BA programs (including Science Co-op).

Students in a BSc (120 credit hour) program in Mathematics may choose to include a Minor selected from the [list of approved Minors](#). Courses counted toward a Major or Honours subject cannot be used to fulfill the requirements of a Minor program.

Certificates

In combination with a BSc in Mathematics, students may obtain one or more Certificates. A Certificate indicates that a student has achieved a certain level of proficiency in a given area or subspecialty. Courses counted toward a Major, Honours or Minor subject may also be used to fulfill the requirements of a Certificate. Students must apply to the Certificate Coordinator to be considered for a Certificate. Certificates are awarded upon graduation and are noted on the student's academic transcript.

A complete list of [Faculty of Science Certificates](#) and requirements can be found at the beginning of the [Faculty of Science](#) section. Students may also work toward obtaining Certificates offered by other Faculties; some of these are listed in the [College of Arts and Science Degree Requirements](#) section of the calendar.

Certificates of particular interest to students enrolled in a BSc in Mathematics include:

- [Certificate in Actuarial and Financial Mathematics](#)
- [Certificate in Applied and Computational Mathematics](#)

BSc/BEng Concurrent Program

BEng/BSc (90 credit hour) concurrent degree (Mathematics)

This degree combines an engineering degree with a deeper knowledge of mathematics, and provides a strong foundation for students interested in areas such as robotics, telecommunications, systems analysis and modelling. Following is the recommended sequence of courses for students wishing to obtain a concurrent BEng and BSc (90 credit hour) degree with Minor in Mathematics. Interested students must consult with the Assistant Dean, Faculty of Science, and the Associate Dean, Faculty of Engineering prior to enrolling in a concurrent BEng/BSc degree.

It is recommended that students also discuss their selection of courses with an undergraduate advisor in the Department of Mathematics and Statistics. A concurrent BEng/BSc Honours Mathematics program can be designed for interested candidates.

One 3000 level (or higher) MATH^e course (may not be MATH 2001 or MATH 2120)	One Science/FASS course (may be MATH)
One Science/FASS course (may be MATH)	

Graduate with Diploma in Engineering and BSc 90 credit degree

Year 4 Continue in BEng program

Year 5 Complete BEng program

^aTo meet the BSc 90 credit hour Minor in Mathematics requirements, students complete 30 credit hours in addition to their Engineering requirements: 12 credit hours of MATH courses at or above the 2000 level, as specified above, 6 MATH credit hours at or above the 3000 level, 6 credit hours of social science/humanities courses, and 6 credit hours in Science/FASS courses (which may be MATH)

^b Writing requirement: choose from eligible writing courses in CLAS, ENGL, GERM, HIST, PERF, PHIL, RELS, or RUSN to fulfill writing and humanities requirements [College of Arts and Science]

^c Choose from CANA, CTMP, ECON, EMSP, EURO, GWST, HIST, HSTC, INTD, POLI, PSYO, SOSA, SUST for social science courses. Choose from ARBC, CANA, CHIN, CLAS, CTMP, CRWR, EMSP, EURO, SWST, GERM, HIST, HTSC, ITAL, PERF, PHIL, RELS, RUSN, SPAN and THEA for humanities courses

^d See Engineering section of the calendar for details

^e Upper level courses that may be of particular interest to Engineering students include MATH 4220, MATH 4230 and MATH 4165

Notes:

- For a BEng/BSc with Minor in Math, students will not receive credit for MATH 1030, MATH 2001 or MATH 2120
- Completion of ENGM 2101, ENGM 2022 and ENGM 2032 fulfill the Math Minor requirements for MATH 2001 and MATH 2120
- ENGM 1041 fulfills the MATH 1030 requirement for the Math minor

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are available to students in the second, third, fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not take both courses so designated.

Not all courses are offered each year. Please consult the current timetable for this year's offering. For further information please contact the department.

Course Notes

Course descriptions for Statistics can be found in the calendar under Statistics.

Credit may not be obtained twice for the same course even if the numbers have been changed.

Courses with the designation (MLC) are supported by the tutorial services of the Math Learning Centre.

The following three courses below the 1000 level are offered by the College of Continuing Education. Students register and pay for them at the College of continuing Education located at 1220 LeMarchant Street, 2nd Floor or by calling (902) 494-2375 (see [College of Continuing Education](#) for more details).

Course Descriptions

MATH 0009 Academic Math

CREDIT HOURS: 0

Academic Math has been developed to prepare you for the math involved in non-calculus courses. If you have solid math skills (at least grade 11 academic level) and want to develop them to the university level necessary for entrance to the Faculty of Arts, Bachelor of Commerce, Management, or Nursing programs, this course is designed for you. MATH 0009.00 is accepted by Dalhousie University in place of NS Math 12 Academic.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: At least grade 10 academic math or equivalent

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

MATH 0010 Pre-Calculus Accelerated

CREDIT HOURS: 0

This single-term accelerated course has been designed for calculus bound students, who have a firm grasp of grade 11 and 12 math skills. Focus is placed on pre-calculus key concepts, assuming students have current knowledge of grade 11 and 12 math concepts. Students requiring review of grade 11 and 12 concepts should take Pre-Calculus Plus (MATH 0011.00). Topics are explored in class following a clear, logical progression, with mastery generally occurring after assignments are completed.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Recommend at least 80% in grade 11 and 12 math

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

MATH 0011 Pre-calculus Plus

CREDIT HOURS: 0

This full year course has been designed for the majority of students either requiring pre-calculus to gain admittance to the Dalhousie BSc program or as preparation for MATH 1000.03. This course provides a more in depth coverage of math concepts than found in the accelerated 1 term class, and adds a review of relevant 11 and 12 material, as well as a study of area under a curve. Students who have been away from math for 2 or more years, or have a heavy schedule, will find this course a better fit than the accelerated MATH 0010.00. Throughout the course, algebra, and applied geometric problem solving skills needed for calculus, are emphasized.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Grade 11 and 12 math or equivalent

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

MATH 1000 Differential and Integral Calculus I

CREDIT HOURS: 3

This course offers a self-contained introduction to differential and integral calculus. The topics include functions, limits, differentiation of polynomial, trigonometric, exponential and logarithmic functions, product, quotient and chain rules, applications of differentiation, antiderivatives and definite integrals, integration by substitution. A sequel to this course is MATH 1010.03.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Nova Scotia Mathematics advanced 11 and 12 or pre-calculus. Pre-calculus is highly recommended.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: MATH 1215.03, MATH 1280.03, MATH 1500X/Y.06

FORMATS: Lecture

LAB HOURS PER WEEK:

MATH 1010 Differential and Integral Calculus II

CREDIT HOURS: 3

A continuation of the study of calculus with topics including: Riemann sums, techniques of integration, elementary differential equations and applications, parametric equations and polar coordinates, sequences and series, Taylor series.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: MATH 1000.03, or MATH 1215.03 with a grade of B or better

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

MATH 1030 Matrix Theory and Linear Algebra 1

CREDIT HOURS: 3

This course is a self-contained introduction to Matrix Theory and Linear Algebra. Topics include : subspaces, linear transformations, determinants, eigenvalues and eigenvectors, systems of linear equations.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Nova Scotia Advanced Mathematics 11 or 12 (or equivalent)

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: Math 2030.03

FORMATS: Lecture

LAB HOURS PER WEEK:

MATH 1060 Introductory Statistics for Science and Health Sciences

CREDIT HOURS: 3

See course description for STAT 1060.03 in the Statistics section of this calendar.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

MATH 1115 Mathematics for Commerce

CREDIT HOURS: 3

An introduction to matrices, linear programming, mathematics of finance, probability and differential calculus. All topics are taught with an emphasis on applications to business. This course cannot be used to partially satisfy the BSc Mathematics requirement.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Nova Scotia Advanced Mathematics 11 or 12 or equivalent

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: MATH 1110.03, MATH 1120.03 Note: Students will not receive credit for taking MATH 1115.03 after receiving credit for MATH 1000.03, MATH 1500X, Math 1280.03 or MATH 1215.03.

FORMATS: Lecture

LAB HOURS PER WEEK:

MATH 1215 Life Sciences Calculus

CREDIT HOURS: 3

This course emphasizes the application of calculus to the life sciences. The concepts and content studied include derivatives, techniques of differentiation, logarithmic and exponential functions, optimization, basic ordinary differential equations, integration, and techniques and applications of integration.

CALENDAR NOTES: Students who have already received credit for MATH 1215.03 cannot subsequently receive credit for MATH 1115.03.

COREQUISITES:

PREREQUISITES: Nova Scotia Mathematics 11 and 12 or pre-calculus is highly recommended.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: MATH 1000.03, MATH 1280.03, MATH 1500.06

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

MATH 1280 Engineering Mathematics I

CREDIT HOURS: 3

This forms an introduction to differential and integral calculus for Engineering students. All topics of MATH 1000.03 are covered, but in greater depth. In addition, this course covers functions, differentiation of polynomial, trigonometric, exponential and logarithmic functions, product, quotient and chain rules, Taylor series, antiderivatives and definite integrals, Riemann sums, polynomial approximations, and numerical approximations of integrals.

CALENDAR NOTES: Students who have already received credit for MATH 1280.03 cannot subsequently receive credit for MATH 1000.03 or MATH 1115.03

COREQUISITES:

PREREQUISITES: Nova Scotia Mathematics advanced 11 and 12 or pre-calculus. Pre-calculus is highly recommended.

CROSSLISTED:
RESTRICTIONS:
EXCLUSIONS: MATH 1000.03, MATH 1215.03
FORMATS: Lecture | Tutorial
LAB HOURS PER WEEK:

MATH 1290 Engineering Mathematics II

CREDIT HOURS: 3
This course is a sequel to MATH 1280. All topics of MATH 1010.03 are covered, but in greater depth. This course also introduces the students to the application of mathematics in engineering problems.
CALENDAR NOTES: 1: Students who have already received credit for MATH 1290.03 cannot subsequently receive credit for MATH 1010.03 2: MATH 1010.03 is not equivalent to MATH 1290.03
COREQUISITES:
PREREQUISITES: MATH 1280.03
CROSSLISTED:
RESTRICTIONS:
EXCLUSIONS:
FORMATS: Lecture | Tutorial
LAB HOURS PER WEEK:

MATH 2001 Intermediate Calculus I

CREDIT HOURS: 3
Topics include review of parametric equations, polar coordinates, conic sections, coordinate systems and vectors, dot product and cross product, vector functions, derivatives and integrals of vector functions, arc length and curvature, functions of several variables and partial derivatives, directional derivatives and double and triple integrals.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: MATH 1010.03
CROSSLISTED:
RESTRICTIONS:
EXCLUSIONS:
FORMATS: Lecture
LAB HOURS PER WEEK:

MATH 2002 Intermediate Calculus II

CREDIT HOURS: 3
Topics include multiple integrals and changes of variables, and vector calculus, with an emphasis on Green's and Stokes' theorems. The course also includes an introduction to second order ordinary differential equations.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: MATH 2001.03

LAB HOURS PER WEEK:

MATH 2113 Discrete Structures II

CREDIT HOURS: 3

This course continues CSCI 2112.03/MATH 2112.03. This course covers some basic concepts in discrete mathematics which are of particular relevance to students of computer science, engineering, and mathematics. The topics to be covered will include solution of recurrence relations, generating functions, number theory, Chinese remainder theorem, trees and graphs, finite state machines, abstract algorithms, Boolean algebra.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CSCI 2112.03 or MATH 2112.03

CROSSLISTED: CSCI 2113.03

LAB HOURS PER WEEK:

MATH 2120 Methods for Ordinary Differential Equations

CREDIT HOURS: 3

A comprehensive introduction to the theory of ordinary differential equations (ODEs), which is a broad field in pure and applied mathematics with numerous applications in other sciences. The topics include: special types of ODEs of 1st order, homogeneous and inhomogeneous linear ODEs with constant coefficients, Laplace transforms, systems of ODEs.

CALENDAR NOTES:

COREQUISITES: MATH 1030.03 or 2030.03

PREREQUISITES: MATH 1010.03 or permission of the instructor

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

MATH 2135 Linear Algebra

CREDIT HOURS: 3

This course is a continuation of MATH 1030.03 or 2030.03 with an emphasis on foundations and the theory of vector spaces and linear transformations. Additional topics include inner product spaces, symmetric and orthogonal transformations, bilinear forms, similarity and diagonalization, the solution of linear differential equations, and various applications in mathematics, physics and computer science.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: MATH 1030.03 (or MATH 2030.03) and MATH 1000.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: MATH 2040.03

FORMATS: Lecture

LAB HOURS PER WEEK:

MATH 2300 Mathematical Modelling

CREDIT HOURS: 3

By using fundamental calculus concepts in a modelling framework, the student investigates practical problems chosen from common experiences encompassing many academic disciplines, including the mathematical sciences, operations research, engineering and the

management and life sciences. A significant part of the course is learning to use MAPLE as a mathematical tool.

CALENDAR NOTES:

COREQUISITES: MATH 1030.03 or 2030.03

PREREQUISITES: MATH 1000.03

CROSSLISTED: STAT 2300.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

MATH 2505 Introductory Analysis

CREDIT HOURS: 3

This course is for honours students and other serious students of mathematics. Topics include: the axioms for the real number system, geometry and topology of Euclidean space, limits, continuity, differentiability, the inverse and implicit function theorems.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: MATH 2001.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

EXCLUSIONS: MATH 3030X/Y.06
FORMATS: Lecture
LAB HOURS PER WEEK:

MATH 3045 Curves and Surfaces

CREDIT HOURS: 3

The course is designed as an introduction to differential geometry, the study of geometric objects by means of analysis. It presents a comprehensive study of curves and surfaces in Euclidean space. Topics include: Frenet frame and equations, curvature, torsion, first and second fundamental forms, shape operator, Gauss-Weingarten equations.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: MATH 2002.03 and (MATH 2040.03 or MATH 2135.03) or consent of instructor

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

MATH 3070 Theory of Numbers

CREDIT HOURS: 3

Topics include: congruences and residues; elementary properties of congruences, linear congruences, theorems of Fermat, Euler and Wilson, Chinese remainder theorem, quadratic residues, law of quadratic reciprocity, Legendre, Jacobi and Kronecker symbols, arithmetic functions, algebraic fields, algebraic numbers and integers, uniqueness of factorization, elementary properties of ideals, and class number.

CALENDAR NOTES:

MATH 4045 Advanced Algebra I

CREDIT HOURS: 3

Introduction to module theory: modules, submodules, quotient modules, module homomorphisms, generators for modules, direct sums, free modules, tensor products, exact sequences, projective modules, injective modules, and flat modules. Modules over principal ideal domains. Additional topics may include homological algebra, Ext and Tor Functors, symmetric and exterior algebras.

MATH 4070 Algebraic Number Theory

CREDIT HOURS: 3
An introduction to algebraic number theory, with special emphasis on quadratic and cyclotomic fields. A more general study of rings of integers of algebraic number fields focuses on divisibility properties. Other topics include Dedekind domains, ideals and their factorization into prime ideals, and class groups and class numbers.
CALENDAR NOTES:

LAB HOURS PER WEEK:

MATH 4540 Applied Analysis

CREDIT HOURS: 3

This course is an introduction to the methods of modern applied analysis. This course is suitable for advanced undergraduate and graduate students. The topics include classification of planar dynamical systems, nonlinear dynamics, and equilibria, global nonlinear techniques, closed orbits and limit cycles. Calculus of Variations: first and second variations, symmetries, conservation laws and Noether's theorem, Hamiltonian formalism. Time permitting, other topics in Applied Analysis such as tensor calculus will be covered.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: (MATH 3120.03 or MATH 3260.03) and MATH 3501.03, or consent of instructor

CROSSLISTED: MATH 5540.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

MATH 4650 General Relativity

CREDIT HOURS: 3

A review of differential geometry will be given followed by an introduction to the general theory of relativity. Various topics will be discussed, including: linearized theory and gravitational radiation, spherically symmetric metrics and the Schwarzschild solution, gravitational collapse, black holes, and cosmology.

CALENDAR NOTES:

COREQUISITES:

MATH 4680 Topics in Logic and Computation

CREDIT HOURS: 3
This course covers topics of current interest in logic and/or the foundations of computation. Suitable topics include: formal logic, soundness and completeness, Gödel's incompleteness theorem, formal set theory, the Zermelo-Fraenkel axioms, non-standard models, independence of axioms, lambda calculus and foundations of functional programming languages, proof theory, semantics.
CALENDAR NOTES: Please consult the instructor for the topics offered in a particular year. This course is suitable for advanced undergraduates and graduate students from both mathematics and computer science.
COREQUISITES:
Suggested prerequisites for math students are algebra or analysis at honours undergraduate level. Students from computer science should be familiar with formal language theory and concepts of programming languages. All students should be comfortable with writing mathematical proofs. When in doubt about prerequisites, please consult the instructor.
CROSSLISTED: MATH 5680.03

Introduction

The Medical Sciences program is a 4-year Bachelor of Science aimed at students who wish to initiate studies in medical science as undergraduates. The program will introduce students to subjects such as human anatomy, physiology, neuroscience, epidemiology, and health ethics.

In the first two years of the program, students take core courses in Biology, Chemistry, Mathematics, Statistics, Psychology, Microbiology, Sociology, Neuroscience, Biochemistry, and Physiology. These courses will not only provide a solid background in basic sciences, but will prepare students for admission tests for various medical sciences disciplines (such as the MCAT, DAT, PCAT, GRE), meet (or exceed) the early prerequisites for acceptance into medically related professional programs (such as Medicine, Dentistry, Pharmacy, Nursing, Physiotherapy, Optometry, Ultrasound Technology, Radiological Therapy etc.) locally and across the country, and meet (or exceed) the early prerequisites required for acceptance into biomedical sciences graduate programs at Dalhousie and across the country. In their third and fourth years, students take core and selective courses in various subjects within the medical sciences. These courses come from Pharmacology, Microbiology & Immunology, Physics, Anatomy, Pathology, Philosophy, and Community Health & Epidemiology departments. In fourth year, students will either pursue an Honours, with an associated research project, or a one-term case-based Capstone course.

Career path advising and the course selection process are critical to the success of the Medical Sciences undergraduate program. In addition to guidance with respect to health-related programs and their entry requirements, academic advising is provided so that students are aware of what courses are required should they want to enter graduate programs in the various biomedical science disciplines. Opportunities are available to concentrate in areas of special interest, explore scientific curiosities further, or fulfil professional school

prerequisites. Students will graduate with a broad biomedical science background that will prepare them for a variety of clinical professional programs, graduate school, employment in the biotechnology industry, health administration, and in government.

Degree Programs

The curriculum offers core courses from 14 different departments, providing a broad background in biomedical science and a guided learning experience throughout the program. Students are also required to take a minimum of 21 credit-hours in “Selective” courses (chosen from a predetermined list provided by the program) in relevant medical sciences fields. These selective courses allow students to focus their interests in a particular area (including advanced courses in year 4), explore their interests further, and fulfil professional school prerequisites. Furthermore, for those interested, selectives will aptly prepare students in pursuit of senior research projects, subsequently providing the necessary groundwork to be excellent candidates for graduate programs in a specialized field at Dalhousie or elsewhere in Canada.

NOTE: Most second and third year core courses in the Medical Sciences curriculum have prerequisites with minimum grade requirements in those prerequisite courses. Please consult the appropriate calendar section for these requirements.

The program also offers 21 credit hours in open “Electives”, which allows students to take any course offered at Dalhousie (at the appropriate level). Students are encouraged to fulfil the Writing requirement using one or both Electives in the first year and it is recommended that students take the writing course from the English department, since some professional schools require six credit hours in ENGL courses.

Students can choose to do a concentrated Honours in their fourth year, where they have the option of completing the research project at any Dalhousie research site, provided the Medical Sciences Honours Committee approves the project and supervisor. Despite the research site where students complete the project, they will still receive an Honours degree in Medical Sciences. If students do not choose Honours, they will take a case-based Capstone course that integrates multiple medical sciences disciplines by examining 5 medically-related cases, through expert lectures, group discussions, and student presentations.

The Medical Sciences program offers the following degree options:

- BSc (Medical Sciences) Honours - 120 credit hour
- BSc (Medical Sciences) - 120 credit hour

Students also have the option of doing a [Minor](#). Core courses and required selectives may not be double-counted as Minor courses; extra selectives and electives may be used towards the minor. If a minor is added, students may find that they need to take more than 120 credit hours to complete all of their degree requirements.

Students should plan their programs of study carefully and are strongly encouraged to do so in consultation with a Medical Sciences undergraduate academic advisor.

Program requirements can be seen by following the links to the right. In addition, students must satisfy the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections of this calendar.

A student is governed by the academic regulations in place at the time of initial enrolment, as long as the degree is completed within the time permitted (10 years). Subsequent changes in regulations shall apply only if the student so elects. Students applying the old academic regulations should consult the calendar of the appropriate year.

Staff

Dean

Moore, C., BA (Hons), PhD (Cambridge), Professor (Psychology)

Assistant Dean

Wells, S. M., BSc (Western), PhD (Toronto), Associate Professor (Biomedical Engineering), joint appointment in Physics & Atmospheric Sciences

Program & Honours Coordinator

Jordan, J., BSc (St. FX), PhD (Dalhousie)

BSc (Medical Sciences)

The Bachelor of Science (Medical Sciences) degree is a 120 credit hour program, typically completed in 4 years. It will provide an educational experience that offers a broad, interdisciplinary background in all relevant subjects in biomedical sciences. The degree also meets the general degree requirements for the Faculty of Science. This program may fulfill the Dalhousie Faculty of Graduate Studies requirements for graduate school, but may not satisfy department-specific or other school-specific graduate school entry requirements.

Requirements

In addition to the courses listed below, students must ensure that they satisfy the requirements outlined in the "[Degree Requirements](#)" section for the [College of Arts and Science](#). For the required Writing class, students can choose from the list of approved writing classes in the Academic Calendar. Before selecting a writing course, students are encouraged to consult the advising sheet available on the Medical Sciences program website, as some professional schools require an ENGL course as a prerequisite for entry.

BSc (Medical Sciences) Honours

Students who want a challenging program resulting in a broad background in medical sciences, including independent research experience, may want to enrol in the Honours program. An Honours degree in the Medical Sciences program aims to prepare students for future thesis-based graduate studies in a number of medically related fields. In addition to specific core course requirements with a minimum GPA of 3.0, students must identify a faculty member who has agreed to be their research supervisor. Students will have the flexibility to do their Honours research at a Dalhousie Research site of their choice (Faculty of Science, Faculty of Medicine, Faculty of Arts & Social Sciences, or other), subject to the approval of the Honours class coordinator. All students conduct an independent research project in their final year under the supervision of a faculty member. Students must attend weekly classes, submit a satisfactory Interim Report and thesis, and deliver a satisfactory symposium presentation of the thesis research in a Medical Sciences student research forum.

Students should consult with an advisor and choose their electives and selectives carefully in their second, third and fourth years to ensure that they are prepared for Honours and potentially graduate studies in their field of interest. Students with an Honours degree will also be well prepared for entry into professional schools.

- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity *and* CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium
- MATH 1215.03: Life Sciences Calculus *or* MATH 1000.03: Differential and Integral Calculus I
- STAT 1060.03: Introductory Statistics for Science and Health Sciences *or* SCIE 1506.09 + 1507.09: Integrated Science
- PSYO 1011.03: Introduction to Psychology and Neuroscience I: From Neuron to Person *or* PSYO 1031.03: Introduction to Psychology and Neuroscience I: From Neuron to Person *with* PSYO 1012.03: Introduction to Psychology and Neuroscience II: From Social Interaction to Psychopathology *or* PSYO 1032.03: Introduction to Psychology and Neuroscience II: From Social Interaction to Psychopathology, *or* SCIE 1506.09 + 1507.09: Integrated Science
- PHYC 1310.03: Physics In and Around You I *or* PHYC 1310 + 1320: Physics In and Around You I & II

- Writing course (6 credit hours) *

2000 Level

- BIOL 2020.03: Cell Biology
- BIOL 2030.03: Genetics and Molecular Biology
- CHEM 2401.03: Introductory Organic Chemistry: Structure, Concepts of Mechanisms and Spectroscopy *and* CHEM 2402.03: Introductory Organic Chemistry: Reactivity of Functional Groups
- BIOC 2300.03: Introduction to Biochemistry
- PHYL 2044.03: Human Systems Physiology
- PHYL 2041.03: Human Neurophysiology
- MICI 2100.03: Introductory Microbiology and Immunology (in-class or distance)
- PHIL 2805.03: Ethics and Health Care: Patient Care *or* PHIL 2810.03: Ethics and Health Care: Social Policy
- SOSA 2503.03: Health and Society

3000 and 4000 Level

- MICI 3115.03: Immunology
- PHAC 3001.03: Pharmacology I (in-class or distance)
- ANAT 3010.03: Introductory Human Anatomy
- PATH 3000.03: Introduction to Pathology
- CH&E 4010.03: Epidemiology Principles
- SCIE 4901.03 + SCIE 4902.03: Medical Sciences Honours Research and Thesis I and II

21 credit hours of Selectives (see list below), including at least 3 credit hours of Advanced Selectives

Required standing for graduation:

GPA 3.0 in core courses

GPA 3.70 in core and selective courses for first class

* See [Writing Course Requirements](#). Before selecting a writing course, students are encouraged to consult the advising sheet available on the Medical Sciences program website, as some professional schools require an ENGL course as a prerequisite for entry.

[List of Selectives and Advanced Selectives](#)

List of Selectives and Advanced Selectives

Medical Sciences Honours students must include in their program at least 21 credit hours in the following courses. Students not in the honours program must include at least 24 credit hours of these courses. In both cases, at least one of the Selectives must be an Advanced Selective.

Selectives:

Biochemistry and Molecular Biology

- BIOC 2610: Introductory Biochemistry Lab
- BIOC 3300: Intermediary Metabolism
- BIOC 3400: Nucleic Acid Biochemistry & Molecular Biology
- BIOC 3610: Laboratory Techniques in Biomedical Sciences
- BIOC 3700: Biomolecular Chemistry

Biology

- BIOL 2003: Animal Diversity
- BIOL 2040: Evolution
- BIOL 2060: Introductory Ecology
- BIOL 3046: Molecular Evolution
- BIOL 3050: Developmental Biology
- BIOL 3078: Animal Physiology I
- BIOL 3322: Parasitology
- BIOL 3328: Medical Entomology (only offered in Summer)
- BIOL 3336: Vertebrate Functional Morphology
- BIOL 3421/ANAT 3421: Comparative Vertebrate Histology
- BIOL 3430/ANAT 2160: Introduction to Human Histology

Biomedical Engineering

- BMNG 3000: Technology in Medicine

Chemistry

- CHEM 2301: Introduction to Physical Chemistry I
- CHEM 2304: Introduction to Physical Chemistry II
- CHEM 3601: Chemistry of Living Systems

Economics

- ECON 2231: Perspective in Health Economics
- ECON 3231: Topics in Health Economics

Environmental Science

- ENVS 3400: Environment and Human Health

Humanities and Social Sciences

- ENGL 2030: Literature, Health, and Healing (offered in alternate years to ENGL 3320)
- ENGL 3320: Literature and the History of Medicine (offered in alternate years to ENGL 2030)
- HSTC 2102 : Origins of Modern Medicine
- HSTC 2200: Introduction to History of Science
- HSTC 2202: The Beginnings of Western Medicine: The Birth of the Body
- HSTC 2206: Biopolitics: Human Nature In Contemporary Thought
- HSTC 2350: The Body in Early Modern Europe
- HSTC 3101/CTMP 3204: Human Experiments
- HSTC 3121: In Search of the Philosopher's Stone: The History of European Alchemy
- INTD 3115: Global Health in the 21st Century
- PHIL 2805: Ethics and Health Care: Patient Care (students can only count PHIL 2805 or 2810 as selective and other as core ethics course)

- PHIL 2810: Ethics and Health Care: Social Policy (students can only count PHIL 2805 *or* 2810 as selective and other as core ethics course)
- PHIL 3800: Philosophy of Medicine
- SOSA 2502: Biomedicine and the Illness Experience
- SOSA 3135: The Social Organization of Health Care
- SOSA 3143: Health, Illness, and the World System
- SOSA 3145/GWST 3145: Gender and Health
- SOSA 3147: Aging Cross Culturally
- SOSA 3148: The Sociology of Addiction/ Drugs, Health, and Society
- SOSA 3403: Qualitative and Field Methods

Interprofessional Health Education

- IPHE 2201/IDHS 2201: Introduction to Aboriginal Peoples' Health and Healing

Kinesiology

- KINE 2465: Introductory Biomechanics

Mathematics

- MATH 1010: Differential and Integral Calculus II

Medical Neuroscience

- ANAT 2160/BIOL 3430: Introduction to Human Histology
- ANAT 3421/BIOL 3421: Comparative Vertebrate Histology

Microbiology and Immunology

- MICI 2400: Laboratory Methods in Microbiology and Immunology
- MICI 3114: Virology
- MICI 3119: Physiology of Prokaryotic Cell
- MICI 4115: Medical Immunology
- MICI 4218: Clinical Microbiology

Neuroscience

- NESC 2130/PSYO 2130: Introduction to Cognitive Psychology
- NESC 2570/PSYO 2570/PHYL 2570: Cellular Neuroscience
- NESC 3043/PSYO 3043: Neurobiology of Learning
- NESC 3170/PSYO 3170: Hormones and Behaviour
- NESC 3227/PSYO 3227: Principles of Human Neuropsychology
- NESC 3670: Genes, Brain and Behaviour

Physics

- PHYC 1290: Introduction to Physics

- PHYC 1320: Physics In and Around You II
- PHYC 2250: Physics of Biological and Medical Technology
- PHYC 2610: Introduction to Biomechanics

Physiology and Biophysics

- PHYL 3120: Exercise Physiology in Health & Disease
- PHYL 3320: Human Cell Physiology
- PHYL 3420: Sensory Physiology
- PHYL 3520: Core Concepts in Medical Physiology
- PHYL 3600: Directed Project in Physiology
- PHYL 3620: Human Physiology Lab

Psychology

- PSYO 2080: Social Psychology
- PSYO 2090: Developmental Psychology
- PSYO 2130/NESC 2130: Introduction to Cognitive Psychology
- PSYO 2220: Abnormal Behaviour
- PSYO 2770: Brain & Behaviour (offered in alternate years)
- PSYO 3043/NESC 3043: Neurobiology of Learning
- PSYO 3129: Childhood Psychopathology
- PSYO 3170/NESC 3170: Hormones and Behaviour
- PSYO 3227/NESC 3227: Principles of Human Neuropsychology

Science

- SCIE 3100: Experiential Learning in Medical Sciences

Advanced Selectives:

Biochemistry and Molecular Biology

- BIOC 4010: Bioinformatics (offered in alternate years)
- BIOC 4302: Biochemistry of Lipids
- BIOC 4305: Mechanisms of Signal Transduction
- BIOC 4403: Genes and Genomes
- BIOC 4501: Medical Biotechnology I
- BIOC 4700: Proteins
- BIOC 4701: Enzymes
- BIOC 4835/BIOL 4035: Human Genetics

Biology

- BIOL 3079: Animal Physiology II
- BIOL 4020: Advanced Cell Biology
- BIOL 4035/BIOC 4835: Human Genetics

Computer Science

- CSCI 4180: Introduction to Computational Biology and Bioinformatics
- CSCI 4181: Algorithms in Bioinformatics

Humanities and Social Sciences

- SOSA 4006: Issues in Critical Health Studies
- PHIL 4801: Topics in Ethics and Healthcare (offered every 3-4yr)
- POLI 4260: The Politics of Health Care

Medical Neuroscience

- ANAT 4010: Advanced Human Anatomy

Microbiology and Immunology

- MICI 4027: Molecular Mechanisms of Cancer (offered in alternate years)
- MICI 4033: Advanced Microbial Genetics
- MICI 4100: Processes & Mediators of Inflammation
- MICI 4114: Advanced Topics in Molecular & Medical Virology
- MICI 4116: Current Topics in Mucosal Immunology
- MICI 4302: Clinical and Molecular Immunology (alternate years)

Neuroscience

- NESC 3180/PSYO 3180: Psychoneuroimmunology/Ecological Immunology (offered in alternate years)
- NESC 3970/PSYO 3970: Molecular Neuroscience
- NESC 4185/PHYL 4000: Current Advances in Synaptic Function or Plasticity

Pathology

- PATH 4100: Critical Thinking in Neuropathology

Pharmacology

- PHAC 4001: Pharmacology II

Physiology and Biophysics

- PHYL 4000/NESC 4185: Current Advances in Synaptic Function and Plasticity
- PHYL 4324: Endocrine Physiology
- PHYL 4504: Respiratory Physiology
- PHYL 4680: Cardiovascular Physiology (alternate years)

Psychology

- PSYO 3180/NESC 3180: Psychoneuroimmunology/Ecological Immunology (offered in alternate years)

- PSYO 3224: Forensic Psychology
- PSYO 3970/NESC 3970: Molecular Neuroscience

Science

- SCIE 4101 & SCIE 4102: Directed Project in Medical Sciences I and II

Microbiology and Immunology

Microbiology and Immunology

Location:

Website: medicine.dal.ca/departments/department-sites/microbiology.html

Introduction

Microbiologists study small cells (microorganisms) and viruses. Among other things, immunologists want to know how larger organisms (such as humans) respond to foreign objects, many of which are very small. These two disciplines are thus inextricably linked, and when taken together comprise a major strength of the Dept. Another focus of the department is cancer biology, a natural fit with other interests, as cancers can be thought of as foreign objects, and many are caused by bacteria and viruses.

Degree programs in Microbiology and Immunology at Dalhousie focus on education and training in bacteriology, virology and immunology, with an understanding that biochemistry, genetics, and cell and molecular biology are also essential elements of a comprehensive academic program. A degree in Microbiology and Immunology provides a firm foundation for future employment in a variety of laboratory environments, for the pursuit of an advanced post-graduate degree, and/or for entry into the health professions (e.g. medicine).

Degree Programs

The Department offers the following degree programs in Microbiology and Immunology

- BSc (120 credit hour) Honours (Concentrated)*
- BSc (120 credit hour) Combined Honours*
- BSc (120 credit hour) Major*
- BSc (120 credit hour) Double Major*
- BSc (90 credit hour) Minor in Microbiology and Immunology

- * BSc [Co-op option](#) available
- * May be combined with Minors from other disciplines.

Departmental requirements for each degree program can be seen by following the links in the menu to the right.

In addition to departmental requirements, students must satisfy the requirements outlined in the [Academic Regulations](#) and the [College of Arts and Science Degree Requirements](#) sections.

A student is governed by the academic regulations in place at the time of initial enrolment, as long as the degree is completed within the time permitted (10 years). Subsequent changes in regulations shall apply only if the student so elects. Student applying the old academic regulations should consult the calendar of the appropriate year.

Students should plan their programs of study carefully. It is recommended that students considering an Honours or Major program consult with a Microbiology and Immunology Academic Advisor prior to registering for second year classes.

Students who participated in the Integrated Science Program in their first year should consult the Undergraduate Calendar for first year course equivalencies. The following options fulfill the first year requirements for any Microbiology and Immunology program:

- SCIE 1515.36
- SCIE 1520.30
- SCIE 1540.27
- SCIE 1505.18
- SCIE 1506.09 and SCIE 1507.09

Staff

Dean

Moore, C., BA (Hons), PhD (Cambridge), Professor (Psychology)

Head of Department

Makrigiannis, A. P.

Advising

MicroImm.Advising@dal.ca

Professors

Duncan, R., PhD (Guelph), Graduate Studies Coordinator (Molecular Virology)

Haldane, D. J. M., MBChB (Dundee), FRCP(C) (Medical Microbiology)

Hoskin, D. W., PhD (McGill) (Tumour Immunology; Cancer Biology)

Issekutz, T. B., MD (Dalhousie), FRCP(C), Prof., Pediatrics (Lymphocytes in Autoimmune Disease)

Johnston, B., PhD (Calgary) (Inflammation and Immune Response)

Johnston, G. C., PhD (York)

Kelvin, D., PhD (Toronto) (Immunology)

Lee, S. F., PhD (Guelph) (Oral Microbiology; Microbial Pathogenesis, Mucosal Vaccines)

Makrigiannis, A. P., PhD (Dalhousie) (Natural Killer Cells in Infection and Cancer)

Marshall, J. S., PhD (Manchester) (Mast Cells in Inflammation and Cancer)

McCormick, C., PhD (UBC) (Viral Oncology)

Richardson, C. D., PhD (UBC) (Molecular Virology)

Stadnyk, A. W., PhD (McMaster) (Intestinal Inflammation; Cytokines)

Stoltz, D. B., PhD (McMaster) (Biology of Parasitic Insects; Polydnaviruses)

Associate Professors

Davidson, R. J., PhD (Manitoba) (Antimicrobial Mechanisms of Action and Resistance)

Hatchette, T. F., MD (Memorial) Pathology (Clinical Virology and Influenza)

LeBlanc, J., PhD, FCCM, (ABMM) (Dalhousie) (Clinical and Molecular Microbiology)

Li, Y. H., PhD (Manitoba) (Bacteriology and Molecular Biology)

Rohde, J., PhD (British Columbia) (Bacterial Pathogenesis and Ubiquitin)

Thomas, N., PhD (Queen's) (Molecular Bacterial Pathogenesis)

Wang, J., PhD (McMaster) (Host Defense Mechanisms Against Infection and Cancer and Vaccine Development)

Assistant Professors

Boudreau, J., PhD (McMaster)

Cheng, Z., PhD (Waterloo) (Host-bacterial Interactions, Cancer Biology)

DiCara, F., PhD (Naples) (Role of Peroxisome Biogenesis in Innate Immunity)

Gujar, S., PhD (Memorial)

Kelvin, A., PhD (Queens University Belfast) (Pediatrics)

Khaspersky, D., PhD (State University of New York, Buffalo) (Host Pathogen Interaction, Influenza A virus, Cellular Stress Responses)

Senior Instructor

Murray, L. E., PhD (Dalhousie) (Molecular Genetics)

BSc (120 credit hour) Concentrated Honours in Microbiology and Immunology

Students who want a challenging program that results in a broad and in-depth background in Microbiology and Immunology, and includes an independent research experience, may want to enroll in an Honours program. Students interested in eventually pursuing graduate studies are particularly encouraged to consider Honours. Honours students complete a minimum of 54 credit hours above the 1000 level in Microbiology and Immunology subject courses, with a minimum GPA of 3.0 and write a research-based Honours thesis. The Honours thesis and Qualifying Examination requirements are satisfied through completion of MICI 4901/4902.06. Certain specified courses from other departments (BIOC, BIOL, CHEM, NESC) count as MICI-subject courses (see below).

A [Co-op option](#) is available for students enrolled in a BSc Concentrated Honours in Microbiology and Immunology.

Admission to Honours

Students who wish to enrol in a Microbiology and Immunology Honours program should apply for admission after receiving their 2nd year Fall term grades. To be admitted, students must have:

- Consulted with a departmental academic advisor
- Completed the required 1000 level classes
- A GPA of B+ at the time of application

Departmental requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a BSc Concentrated Honours program in Microbiology and Immunology must complete the following courses:

1000 level

- BIOL 1010.03: Principles of Biology Part I/BIOL 1011.03: Principles of Biology Part II or BIOL 1020.03: Introductory Biology I: Cells, Genetics and Evolution/BIOL 1021.03: Introductory Biology II: Organismal Biology and Ecology

- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity/CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium
- MATH 1000.03: Differential and Integral Calculus I or MATH 1215.03: Life Sciences Calculus
- MATH 1010.03: Differential and Integral Calculus II or STAT 1060.03: Introductory Statistics for Science and Health Sciences

Or Integrated Science Program: One of SCIE 1515.36, SCIE 1520.30, SCIE 1540.27, SCIE 1505.18

2000 level

- MICI 2100.03: Introductory Microbiology and Immunology and MICI 2400.03: Laboratory Methods in Microbiology and Immunology
- BIOL 2020.03: Cell Biology and BIOL 2030.03: Genetics and Molecular Biology
- BIOC 2300.03: Introduction to Biochemistry and BIOC 2610.03: Introductory Biochemistry Lab
- CHEM 2401.03: Introductory Organic Chemistry: Structure, Concepts of Mechanisms and Spectroscopy and CHEM 2402.03: Introductory Organic Chemistry: Reactivity of Functional Groups

3000 level

- BIOC 3400.03: Nucleic Acid Biochemistry and Molecular Biology
- MICI 3114.03: Virology
- MICI 3115.03: Immunology
- MICI 3119.03: Physiology of the Prokaryotic Cell

4000 level

- MICI 4901/4902.06: Honours Research and Thesis*
- One additional 4000-level MICI course
- A minimum of three additional courses from the list below, at least one of which is at the 4000 level
 - MICI 2115.03: Human Organs and Tissues, MICI 3024.03: Microscopy, MICI 3620.03: Experiential Learning in Microbiology and Immunology, MICI 4027.03: Molecular Mechanisms of Cancer, MICI 4033.03: Advanced Microbial Genetics, MICI 4100.03: Processes and Mediators of Inflammation, MICI 4114.03: Advanced Topics in Molecular and Medical Virology, MICI 4115.03: Immunology of the Host Resistance, MICI 4116.03: Current Topics in Mucosal Immunology, MICI 4118.03: Molecular Bacterial Pathogenesis, MICI 4119.03: Host Pathogen Interactions, MICI 4218.03: Clinical Microbiology, MICI 4302.03: Molecular Immunology
 - BIOC 4010.03: Bioinformatics, BIOC 4403.03: Genes and Genomes, BIOC 4404.03: Gene Expression, BIOC 4501.03: Medical Biotechnology, BIOC 4835.03/BIOL 4035.03: Human Genetics
 - BIOL 2004.03: Diversity of Life II, BIOL 3037.03 Gene Editing, and Synthetic Biology, BIOL 3101.03: Microbial Ecology, BIOL 3102.03: Microbial Eukaryotes, BIOL 3322.03: Parasitology, BIOL 4020.03 Advanced Cell Biology
 - PSYO 3180.03/NESC 3180.03: Psychoneuroimmunology/Ecological Immunology
 - FOSC 3080.03: Food Microbiology

* The Honours research thesis (MICI 4901/4902.06) is normally supervised by a faculty member from Microbiology and Immunology or from Biochemistry and Molecular Biology (including joint and cross appointments). Students who wish to undertake their honours research project in another department must first have the project approved by the Microbiology and Immunology Undergraduate Studies Committee.

Grade requirements for Honours:

- In the following core courses, MICI 2100.03: Introductory Microbiology and Immunology, MICI 2400.03: Laboratory Methods in Microbiology and Immunology, MICI 3114.03: Virology, MICI 3115.03: Immunology, MICI 3119.03: Physiology of the Prokaryotic Cell and MICI 4901/4902.06: Honours Research and Thesis, a minimum grade of B in five and a minimum grade of B- in the sixth course. In the other MICI or required courses a grade of C or greater is required.

BSc (120 credit hour) Combined Honours in Microbiology and Immunology and another subject

Students who wish to study Microbiology and Immunology in conjunction with another subject may wish to pursue a Combined Honours degree program. The other subject may be any discipline from the Faculty of Science, the Faculty of Arts and Social Sciences, the Faculty of Computer Science, or the College of Sustainability. Microbiology and Immunology may be the primary subject (defined as the subject with the larger number of honours credits), or the secondary subject.

Students planning to enroll in a Combined Honours program should consult with academic advisors from both programs early in their studies. The same standards and conditions for admission apply as for entry into a Concentrated Honours program (see above). In addition, students must have their program of study approved by Academic Advisors in both subject areas. Students must complete an Honours Qualifying Examination in one of the two subject areas, a requirement normally completed in the primary subject area. For Microbiology and Immunology, this requirement is satisfied through MICI 4901/4902.06.

A [Co-op option](#) is available for students enrolled in BSc Combined Honours with Microbiology and Immunology as the primary subject.

Departmental requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a Combined Honours program in Microbiology and Immunology and another subject must complete the following:

Microbiology and Immunology as the primary subject

- 1000-level as for Concentrated Honours (above)
- MICI 2100.03: Introductory Microbiology and Immunology and MICI 2400.03: Laboratory Methods in Microbiology and Immunology
- BIOL 2020.03: Cell Biology and BIOL 2030.03: Genetics and Molecular Biology
- CHEM 2401.03: Introductory Organic Chemistry: Structure, Concepts of Mechanisms and Spectroscopy and CHEM 2402.03: Introductory Organic Chemistry: Reactivity of Functional Groups
- BIOC 2300.03: Introduction to Biochemistry and BIOC 2610.03: Introductory Biochemistry Lab
- BIOC 3400.03: Nucleic Acid Biochemistry and Molecular Biology
- MICI 3114.03: Virology, MICI 3115.03: Immunology, MICI 3119.03: Physiology of the Prokaryotic Cell
- MICI 4901/4902.06: Honours Research and Thesis
- One additional MICI course at the 4000 level

Requirements for a Combined Honours with Biochemistry & Molecular Biology as the secondary subject can be met by completing the following courses in addition to the above list:

- BIOC 3300.03: Intermediate Metabolism, BIOC 3700.03: Biomolecular Chemistry
- Two courses from BIOC 40XX, 43XX, 44XX, 45XX, or 47XX
- Three additional MICI or BIOC courses at or above the 2000 level

Microbiology & Immunology as the secondary subject

- 1000-level as for Concentrated Honours (above)
- MICI 2100.03: Introductory Microbiology and Immunology and MICI 2400.03: Laboratory Methods in Microbiology and Immunology
- BIOL 2020.03: Cell Biology and BIOL 2030.03: Genetics and Molecular Biology
- CHEM 2401.03: Introductory Organic Chemistry: Structure, Concepts of Mechanisms and Spectroscopy and CHEM 2402.03: Introductory Organic Chemistry: Reactivity of Functional Groups
- BIOC 2300.03: Introduction to Biochemistry and BIOC 2610.03: Introduction Biochemistry Lab
- BIOC 3400.03: Nucleic Acid Biochemistry and Molecular Biology MICI 3114.03: Virology, MICI 3115.03: Immunology, MICI 3119.03: Physiology of the Prokaryotic Cell
- One additional MICI or MICI-approved course at or above the 3000 level.
- One additional MICI course at the 4000 level

Grade requirements for Combined Honours:

In the following core courses, MICI 2100.03: Introductory Microbiology and Immunology, MICI 2400.03: Laboratory Methods in Microbiology and Immunology, MICI 3114.03: Virology, MICI 3115.03: Immunology, MICI 3119.03: Physiology of the Prokaryotic Cell and MICI 4901/4902.06: Honours Research and Thesis, a minimum of B in five and a minimum of B- in the sixth course. In the other MICI or required courses a grade of C or greater is required.

BSc (120 credit hour) Major in Microbiology and Immunology

The 120 credit hour Major is suited to students who want to focus on Microbiology and Immunology, but wish to have a program that is somewhat less constrained than the Honours program. Microbiology and Immunology Majors complete a minimum of 42 credit hours in program courses above the 1000 level. Certain specified courses from other departments (BIOC, BIOL, CHEM, NESC) count as program courses (see below). Research and other experiential learning opportunities are available through laboratories, and through direct research and experiential classes.

A [Co-op option](#) is available for students enrolled in a 120 credit hour BSc Major program in Microbiology and Immunology.

It is required that a student consult with a MICI departmental advisor.

Departmental requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a Major program in Microbiology and Immunology must complete the following courses:

1000 level

- BIOL 1010.03: Principles of Biology Part I/BIOL 1011.03: Principles of Biology Part II or BIOL 1020.03: Introductory Biology I: Cells, Genetics and Evolution/BIOL 1021.03: Introductory Biology II: Organismal Biology and Ecology
- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity/CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium
- MATH 1000.03: Differential and Integral Calculus I or MATH 1215.03: Life Sciences Calculus
- MATH 1010.03: Differential and Integral Calculus II or STAT 1060.03: Introductory Statistics for Science and Health Sciences

Or Integrated Science Program: One of SCIE 1515.36, SCIE 1520.30, SCIE 1540.27, SCIE 1505.18

2000 level

- MICI 2100.03: Introductory Microbiology and Immunology and MICI 2400.03: Laboratory Methods in Microbiology and Immunology
- BIOL 2020.03: Cell Biology and BIOL 2030.03: Genetics and Molecular Biology
- BIOC 2300.03: Introduction to Biochemistry and BIOC 2610.03: Introductory Biochemistry Lab
- CHEM 2401.03: Introductory Organic Chemistry: Structure, Concepts of Mechanisms and Spectroscopy and CHEM 2402.03: Introductory Organic Chemistry: Reactivity of Functional Groups

3000 level

- BIOC 3400.03: Nucleic Acid Biochemistry and Molecular Biology
- MICI 3114.03: Virology
- MICI 3115.03: Immunology
- MICI 3119.03: Physiology of the Prokaryotic Cell

4000 level

- One of the following courses: MICI 4033.03: Advanced Microbial Genetics, MICI 4100.03: Processes and Mediators of Inflammation, MICI 4114.03: Advanced Topics in Molecular and Medical Virology, MICI 4115.03: Immunology of the Host Resistance, MICI 4116.03: Current Topics in Mucosal Immunology, MICI 4118.03: Molecular Bacterial Pathogenesis, MICI 4119.03: Host Pathogen Interactions, MICI 4218.03: Clinical Microbiology, or MICI 4302.03: Molecular Immunology
- Three additional credit hours in MICI-approved courses at or above the 3000 level

Grade requirements for Majors:

For all MICI or required courses you must obtain a grade of C- or better. In some cases, you will need a grade of B- as a prerequisite for entry into 3000 or 4000 level courses.

BSc (120 credit hour) Double Major in Microbiology and Immunology and another subject

The Double Major degree program allows students to combine a study of Microbiology and Immunology with another subject. The other subject may be any discipline from the Faculty of Science, the Faculty of Arts and Social Sciences, the Faculty of Computer Science or the College of Sustainability. Microbiology and Immunology may be the primary subject (defined as the subject with the larger number of credits), or the secondary subject. If the primary subject area is from the Faculty of Arts and Social Sciences, the degree granted will be a BA.

It is recommended that students enrolled in a Double Major program consult with advisors in both subject areas.

A [Co-op option](#) is available for students enrolled in BSc Double Major with Microbiology and Immunology as the primary subject.

Departmental requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a Double Major program in Microbiology and Immunology and another subject must complete the following set of core courses:

1000 level

- BIOL 1010.03: Principles of Biology Part I/BIOL 1011.03: Principles of Biology Part II or BIOL 1020.03: Introductory Biology I: Cells, Genetics and Evolution/BIOL 1021.03: Introductory Biology II: Organismal Biology and Ecology

- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity/CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium
- MATH 1000.03: Differential and Integral Calculus I or MATH 1215.03: Life Sciences Calculus
- MATH 1010.03: Differential and Integral Calculus II or STAT 1060.03: Introductory Statistics for Science and Health Sciences

Or Integrated Science Program: One of SCIE 1515.36, SCIE 1520.30, SCIE 1540.27, SCIE 1505.18

2000 level

- MICI 2100.03: Introductory Microbiology and Immunology and MICI 2400.03: Laboratory Methods in Microbiology and Immunology
- BIOL 2020.03: Cell Biology and BIOL 2030.03: Genetics and Molecular Biology
- BIOC 2300.03: Introduction to Biochemistry and BIOC 2610.03: Introductory Biochemistry Lab
- CHEM 2401.03: Introductory Organic Chemistry: Structure, Concepts of Mechanisms and Spectroscopy and CHEM 2402.03: Introductory Organic Chemistry: Reactivity of Functional Groups

3000/4000 level

- BIOC 3400.03: Nucleic Acid Biochemistry and Molecular Biology
- MICI 3114.03: Virology
- MICI 3115.03: Immunology
- MICI 3119.03: Physiology of the Prokaryotic Cell
- MICI 3XXX-4XXX (or MICI approved): one course or 6 credit hours if the second subject is Biochemistry
- One of MICI 4033.03: Advanced Microbial Genetics, MICI 4100.03: Processes and Mediators of Inflammation, MICI 4114.03: Advanced Topics in Molecular and Medical Virology, MICI 4115.03: Immunology of the Host Resistance, MICI 4116.03: Current Topics in Mucosal Immunology, MICI 4118.03: Molecular Bacterial Pathogenesis, MICI 4119.03: Host Pathogen Interactions, MICI 4218.03: Clinical Microbiology, or MICI 4302.03: Molecular Immunology

The same set of core courses is required in a Double Major with Microbiology and Immunology as the primary or secondary subject.

Grade requirements for Double Major:

For all MICI or required courses you must obtain a grade of C- or better. In some cases, you will need a grade of B- as a prerequisite for entry into 3000 or 4000 level courses.

Minor in Microbiology and Immunology

The 90 credit hour degree is suited to students who want to focus on Microbiology and Immunology, but wish to graduate in three years rather than four in the event of acceptance into a professional school that has the prerequisite of an undergraduate degree. Students will complete a minimum of 18 credit hours in Microbiology and Immunology above the 1000 level. Certain specified courses from other departments (BIOC, CHEM) are also required.

Departmental Requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a 90 credit BSc Minor program in Microbiology and Immunology must complete the following courses:

1000 level

BIOL 1010 and 1011 or BIOL 1020 and 1021

CHEM 1011 and 1012

2000 level and above

MICI 2100.03: Introductory Microbiology and Immunology, and MICI 2400.03: Laboratory Methods in Microbiology and Immunology, plus 12 additional credit hours in MICI (or MICI-approved) courses above the 1000 level. Note that 3000 level MICI courses will, for the most part, require certain prerequisite grades within courses provided by other departments, such as BIOL 2020, BIOL 2030 and BIOC 2300.

It is required that a student considering the 90 credit hour degree consult with a MICI departmental advisor.

Contact [Microbiology and Immunology](#) for more information.

Co-op, Minors, Certificates and Engineering Concurrent Programs for Students

Co-operative Education Program (Science Co-op) in Microbiology and Immunology

Co-op Academic Advisor: Dr. D.B. Stoltz (dstoltz@dal.ca)

Science Co-op is a program where academic study in a science subject is combined with paid career-related work experience. Students undertake three work-terms interspersed with their academic study terms. Science Co-op degree programs enable students to apply their knowledge directly while providing them with work experience that assists in making educated career choices.

Science Co-op is available to students in BSc (120 credit hour) Honours or Major programs in Microbiology and Immunology, or in Combined Honours or Double Major programs with Microbiology and Immunology as the primary subject. The number of students admitted into Science Co-op each year is limited. A minimum GPA of 3.3 is required for admission and for continuation in the Co-op program as is a grade of B+ in MICI 2100.03. Students must be eligible to work in Canada.

Students normally apply to join Science Co-op during their first year of study. Students must apply before April 15, and it is strongly recommended that interested students meet with their Departmental Co-op advisor early in the Winter term of their first year. If accepted into Science Co-op, students must register for, and attend the Science Co-op Seminar Series (SCIE 2800.00) in the Fall term of the year they join.

Details are available from the Microbiology and Immunology Co-op Academic Advisor and from the Co-operative Education office www.dal.ca/academics/cooperative_education.html For more information on Co-op Education in Microbiology and Immunology, please see the Department webpage www.dal.ca/academics/programs/undergraduate/mbim/what_will_i_learn/coop_work_terms.html

Minors available to students in Microbiology and Immunology

Minor programs allow students to develop subject specialties in addition to their Major or Honours subjects. Minors in other subjects are normally embedded within 120 credit hour programs (including Science Co-op).

Students in a BSc (120 credit hour) program in Microbiology and Immunology may choose to include a Minor selected from the [list of approved Minors](#). Courses counted toward a Major or Honours subject cannot be used to fulfill the requirements of a Minor program.

Certificates

In combination with a BSc in Microbiology and Immunology, students may obtain one or more Certificates. A Certificate indicates that a student has achieved a certain level of proficiency in a given area or subspecialty. Courses counted toward a Major, Honours or Minor subject may also be used to fulfill the requirements of a Certificate. Students must apply to the Certificate Coordinator to be considered for a Certificate. Certificates are awarded upon graduation and are noted on the student's academic transcript.

A complete list of [Faculty of Science Certificates](#) and requirements can be found at the beginning of the [Faculty of Science](#) section. Students may also work toward obtaining Certificates offered by other Faculties; some of these are listed in the [College of Arts and Science Degree Requirements](#) section.

Certificates of particular interest to students enrolled in a Microbiology and Immunology Major or Honours program include:

- [Certificate in Genetics](#)
- [Certificate in Medicinal Chemistry](#)

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are typically available to students in the second, third, and fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not obtain credit for both courses as designated.

Not all courses are offered each year. Please consult the current [timetable](#) for this year's offering. For further information please contact the department, or visit the department's website.

Course Notes

For more detailed information on the following courses please see the departmental webpage <http://microbiology.medicine.dal.ca>

NOTE: Owing to the combined pressures of student numbers and a dearth of available space, the names of students absent from the first day of course may be deleted from course lists; students are therefore advised that being signed into a course is no guarantee of continued registration.

Course Descriptions

MICI 1050 Basic Microbiology and Immunology for Pharmacy

CREDIT HOURS: 3

This course is only for pharmacy students and involves problem based learning tutorials, lectures and laboratory sessions (demonstrations and exercises). Topics include: concepts of antibiotics and immunity, basic principles of microbial structure,

physiology, and genetics in relation to microbial pathogenesis.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 1010.03 or BIOL 1020.03 and BIOL 1011.03 or BIOL 1021.03 or instructor's consent

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab | Tutorial

LAB HOURS PER WEEK:

MICI 1100 Health Science Microbiology

CREDIT HOURS: 3

An introduction to microbiology and infectious diseases only for healthcare professionals. It includes a study of the structure and physiology of microorganisms, the ways microorganisms cause disease in man and the way they affect human's well being.

CALENDAR NOTES: This course is also offered by distance education to all students.

COREQUISITES:

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS: This course is restricted to Nursing and Kinesiology students. It is not for students registered in the Faculty of Science.

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

MICI 1200 Introduction to General and Oral Microbiology

CREDIT HOURS: 3

See course description in the Dental Hygiene section of the Dentistry, Law and Medicine Calendar (DEHY 2850.03).

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

MICI 2100 Introductory Microbiology and Immunology

CREDIT HOURS: 3

An introduction to the basic concepts of microbiology and immunology. Topics include: structure, genetics and biology of microorganisms, basic immunology and host defence mechanisms. The class is designed to interrelate the major research themes within the Department (bacteriology and microbial pathogenesis, immunology, microbial and molecular genetics, virology and cancer biology).

CALENDAR NOTES: This class is also offered by distance education with online labs.

COREQUISITES:

PREREQUISITES: Grade of B- or better in BIOL 1010.03 and 1011.03, (or BIOL 1020.03 and BIOL 1021.03) and CHEM 1011.03 and CHEM 1012.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab | Online Delivery

LAB HOURS PER WEEK:

MICI 2115 Human Organs and Tissues

CREDIT HOURS: 3

Using a histology approach, students learn how tissues and organs are constructed and function at the cellular level normally and in disease. The course does not cover all histology topics. Instead, the subject matter has been selected for its relevance and potential for complementing advanced courses in microbiology, immunology, physiology, and pathology.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Grade of B- or better in BIOL 1010.03 and BIOL 1011.03 (or BIOL 1020.03 and BIOL 1021.03)

CROSSLISTED: PATH 2115.03

RESTRICTIONS: Bachelor of Medical Sciences students cannot take this course

EXCLUSIONS: ANAT 2160.03/BIOL 3430.03, PATH 3000.03

FORMATS: Lecture

LAB HOURS PER WEEK:

MICI 2400 Laboratory Methods in Microbiology and Immunology

CREDIT HOURS: 3

An introduction to techniques in Microbiology and Immunology through a rigorous wet laboratory experience that includes training in how to explore safely and effectively the properties of viruses, bacteria and immune cells. This course is directed to students in Microbiology and Immunology, Biochemistry & Molecular Biology, and Biology programs.

CALENDAR NOTES:

COREQUISITES: BIOL 2020.03 and BIOL 2030.03

PREREQUISITES: Grade of B- or better in MICI 2100 or instructor's consent

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lab

LAB HOURS PER WEEK:

MICI 3024 Microscopy

CREDIT HOURS: 3

Biological ultrastructural analysis concentrating on transmission and scanning electron microscopy. Topics include: physical and chemical principles governing technical procedures such as fixation, staining, freeze-fracture, immunocytochemistry, autoradiography, X-ray microanalysis and photography. During laboratory periods, students have the opportunity through individual projects to participate in some techniques covered in lectures.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Grades of B- or better in MICI 2100.03 and BIOL 2020.03

CROSSLISTED: BIOL 3024.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

MICI 3114 Virology

CREDIT HOURS: 3

Viruses play important roles in infectious diseases and cancer as well as in model systems for gene regulation, molecular evolution and gene therapy. Topics include: virus structure, assays, classification, gene organization and expression, host-cell interactions, cell transformation, gene therapy and molecular mechanisms of pathogenesis.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: MICI 2100.03, BIOC 2300.03, BIOL 2020.03 and BIOL 2030.03 (a minimum of B- in each of these courses). BIOC 3400.03 should be taken either prior to or concurrently with this course; the same grade requirement applies.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

MICI 3115 Immunology

CREDIT HOURS: 3

An introduction to cellular and molecular immunology. Topics include: cells and tissues of the immune system, the structure and synthesis of antibodies, complement pathways, lymphocyte subsets and their functions, hypersensitivity reactions, and the genetics of the immune response.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: MICI 2100.03, BIOC 2300.03, BIOL 2020.03 and BIOL 2030.03 (a minimum of B- in each of these courses)

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

MICI 3119 Physiology of the Prokaryotic Cell

CREDIT HOURS: 3

An introduction to the bacterial physiological processes required for interactions with other organisms and the environment. Topics include: molecular architecture and assembly of bacterial cell components, metabolism and energy production, utilization of energy, adaptation responses to host and environmental challenges, and host-pathogen interactions.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: MICI 2100.03, BIOC 2300.03, BIOL 2020.03 and BIOL 2030.03, (a minimum of B- in each of these courses).

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

MICI 3620 Experiential Learning in Microbiology and Immunology

CREDIT HOURS: 3

This lab-based course is designed to give students an introduction to general microbiological lab procedures along with molecular and cellular techniques. Topics are centered around major research themes in the Department and are hosted in Faculty laboratories and may include bacteriology, genetics, virology, immunology, and cancer biology. In collaboration with a Faculty supervisor and course coordinator, students draft a learning agreement specifying learning outcomes and how these will be achieved. A separate dedicated team project aligned to the Tiny Earth format (tinyearth.wisc.edu) is also possible through this course offering and will aim to isolate and characterize microbes that produce antimicrobial compounds.

CALENDAR NOTES: To register in this course students will need to find a research supervisor and contact the course coordinator to receive approval before registration. Registration must be completed by the last day of fall term - this is an internal departmental deadline.

COREQUISITES:

PREREQUISITES: MICI 2100.03, BIOC 2300.03, BIOC 2610.03, BIOL 2020.03 and BIOL 2030.03 (a minimum of B- in each of these courses). Permission of instructor required.

CROSSLISTED:

RESTRICTIONS: Normally restricted to students registered in a Majors or Honours degree in Microbiology and Immunology; any other students interested should consult the course coordinator.

EXCLUSIONS: The following may not be used towards MICI 3620: lab work that is part of another scheduled class, co-op workterms, and paid employment. Only one experiential learning course per degree is permitted. Students may not take MICI 3620 concurrently with MICI 4900, MICI 4700, MICI 4901, MICI 4902, or a co-op work term.

FORMATS:

LAB HOURS PER WEEK:

MICI 4033 Advanced Microbial Genetics

CREDIT HOURS: 3

This advanced course focuses on select aspects of bacterial gene regulation including bacterial viruses. Topics include gene transfer, transposon biology, bacterial cell signaling, activators and repressors, molecular and chemical approaches to genetic analysis and regulation of bacterial gene expression.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Grade of B- or better in MICI 3119.03 or instructor's consent.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: MICI 5033.03

FORMATS: Lecture

LAB HOURS PER WEEK:

MICI 4100 Processes and Mediators of Inflammation

CREDIT HOURS: 3

This advanced course focuses on the cellular and molecular mechanisms of inflammation and consists of lectures and student presentations based on review articles and current research papers. Topics include: inflammatory mediators and receptors, complement, steroids, tissue remodeling. Current research questions and emerging treatments are emphasized.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Grade of B+ or better in MICI 3115.03 and instructor's consent

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: MICI 5100.03, PATH 5100.03

FORMATS: Lecture | Discussion

LAB HOURS PER WEEK:

MICI 4114 Advanced Topics in Molecular and Medical Virology

CREDIT HOURS: 3

This advanced course focuses on selected aspects of molecular and medical virology and consists of lectures and student presentations based on review articles and current research papers. Topics include: Hepatitis C virus and innate immunity, influenza virus pathogenesis, virus interactions with host cells, viruses as vectors for gene therapy and applications.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Students enrol in the Fall semester, but must attend the first class where final admittance is determined. Restricted enrollment based on performance in MICI 3114.03 (minimum A- or instructor's consent)

CROSSLISTED: MICI 5114.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Discussion

LAB HOURS PER WEEK:

MICI 4115 Medical Immunology

CREDIT HOURS: 3

This advanced course focuses on mechanisms involved in the host immune response to pathogens and tumour cells and consists of lectures and student presentations based on review articles and current research papers. Topics also include: allergic inflammation and transplantation immunology.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Minimum grade of B in MICI 3115.03 or instructor's consent

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Discussion

LAB HOURS PER WEEK:

MICI 4116 Current Topics in Mucosal Immunology

CREDIT HOURS: 3

This advanced course focuses on the mucosal immune system, which maintains a state of tolerance to environmental antigens while mounting a strong immune response to infectious agents. The course consists of lectures and student presentations based on review articles and research papers. Topics include: immune mechanisms in the gastrointestinal tract and respiratory and genitourinary systems.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: MICI 3115.03 with a grade of B or better or instructor's consent

CROSSLISTED: MICI 5116.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

MICI 4118 Molecular Bacterial Pathogenesis

CREDIT HOURS: 3

This advanced course focuses on the molecular basis of bacterial pathogenesis and consists of lectures and student presentations based on landmark articles and current research papers. Topics include: the regulation of genes encoding virulence factors, the function of these factors in surface colonization, invasion, intracellular growth and toxin production.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Grade of B or better in MICI 3119.03 or instructor's consent

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: MICI 5118.03

FORMATS:

LAB HOURS PER WEEK:

MICI 4119 Host Pathogen Interactions

CREDIT HOURS: 3

This is an advanced undergraduate course, focusing on how pathogens modify, disrupt or utilize cellular functions for their own purposes and the significance of these interactions in both pathogenesis and host defense. It will help students critically evaluate the scientific literature, develop hypotheses and design experiments to test these hypotheses.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Students must have taken 2 out of 3 of the following: MICI 3114, MICI 3115, MICI 3119, or receive permission from the instructor. Students require a B average in these classes, with a minimum B- in any one.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

MICI 4218 Clinical Microbiology

CREDIT HOURS: 3

This advanced course covers all aspects of clinical microbiology including bacteriology, virology, parasitology, mycology and molecular diagnostics. The emphasis will be placed on bacteriology. Topics include epidemiology and transmission, laboratory management and identification, antimicrobial testing and resistance, treatment and prevention of infectious diseases.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Grade of B- or better in MICI 3119.03 or instructor's consent

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

MICI 4701 Advanced Topics in Microbiology and Immunology

CREDIT HOURS: 3

This advanced course is an independent studies course that is not part of the regular BSc program. Approval is required from the departmental undergraduate committee.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Permission of the Undergraduate Studies Committee and a member of the Department who will supervise the independent study program.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

MICI 4702 Advanced Topics in Microbiology and Immunology

CREDIT HOURS: 3

This advanced course is an independent studies course that is not part of the regular BSc program. Approval is required from the departmental undergraduate committee.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Permission of the Undergraduate Studies Committee and a member of the Department who will supervise the independent study program.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

MICI 4703 Directed Research Project 1

CREDIT HOURS: 3

Students spend at least one day per week performing laboratory research in the lab of approved departmental faculty. This course is not for students in a regular BSc Honours program. Approval is required from the departmental undergraduate committee.

CALENDAR NOTES: Credit can only be given for this course if MICI 4703 and MICI 4704 are completed in consecutive terms, and partial credit cannot be given for a single term.

COREQUISITES:

PREREQUISITES: Permission of the Undergraduate Studies Committee and a member of the Department who will serve as a supervisor. At least a B average for MICI, 3114.03, 3115.03 and 3119.03.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: MICI 4700.06

MICI 4704 Directed Research Project 2

CREDIT HOURS: 3

Students spend at least one day per week performing laboratory research in the lab of approved departmental faculty. This course is not for students in a regular BSc Honours program. Approval is required from the departmental undergraduate committee.

CALENDAR NOTES: Credit can only be given for this course if MICI 4703 and MICI 4704 are completed in consecutive terms and partial credit cannot be given for a single term.

COREQUISITES:

PREREQUISITES: Permission of the Undergraduate Studies Committee and a member of the Department who will serve as supervisor. At least a B average for MICI 3114.03, 3115.03, and 3119.03.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: MICI 4700.06

FORMATS:

LAB HOURS PER WEEK:

MICI 4901 Honours Research and Thesis 1

CREDIT HOURS: 3

This advanced course requires at least one day per week (or equivalent) of laboratory research in the laboratory of an approved departmental faculty member. This course is for students in a MICI or combined MICI B.Sc. Honour's program. Students must meet the course instructor prior to registering for the course.

CALENDAR NOTES: This course must be taken consecutively with MICI 4902. No grade is provided until both MICI 4901 and MICI 4902 are completed.

COREQUISITES:

PREREQUISITES: B average in at least three of MICI 3114, 3115, 3119 and BIOC 3400 with no grade lower than B- (AND instructor's permission); and a member of the department who will serve as a supervisor. Students must have completed all second year course requirements.

Introduction

The primary goal of the field of Neuroscience is to understand the brain. Neuroscientists examine all aspects of the structure and function of nervous systems and use a variety of experimental strategies to understand them, including molecular, biochemical, behavioural, anatomical, physiological, and developmental approaches. The programs outlined below represent all of these approaches, with an emphasis on behaviour as the adaptive product of neural activity and neuroplasticity. Knowledge obtained from research in Neuroscience may be applied to a variety of human health problems, including Alzheimer's disease, Parkinson's disease, and a variety of drug- or injury-induced behavioural disorders.

Degree Programs

The Department of Psychology and Neuroscience offers the following degree programs in Neuroscience:

- BSc (120 credit hour) Honours (Concentrated)*
- BSc (120 credit hour) Combined Honours*
- BSc (120 credit hour) Major*
- BSc (120 credit hour) Double Major*
- Minor in Neuroscience

* May be combined with Minor programs from other disciplines (except Psychology).

Departmental requirements for each degree program can be seen by following the links in the menu at the right.

In addition to departmental requirements, students must satisfy the requirements outlined in the [Academic Regulations](#) and the [College of Arts and Science Degree Requirements](#) sections.

A student is governed by the academic regulations in place at the time of initial enrolment, as long as the degree is completed within the time permitted (10 years). Subsequent changes in regulations shall apply only if the student so elects. Students applying the old academic regulations should consult the calendar of the appropriate year.

Students should plan their programs of study carefully and are strongly encouraged to do so in consultation with a Neuroscience undergraduate academic advisor.

Eskes, G. A., BA, PhD (Berkeley), joint appointment in Psychiatry

Finley, G. A., BSc, MD (Dalhousie), FRCPC, major appointment in Anaesthesia

Kay-Raining Bird, E., BA (Queen's), MSc (Columbia), PhD (Univ Wisconsin - Madison), major appointment in the School of Human Communication Disorders

Kieft, M., BA (Memorial), MSc, PhD (Alberta), major appointment in the School of Human Communication Disorders

Klein, R. M., BA (SUNY), MA, PhD (Oregon), FRSC, University Research Professor

McMullen, P., BSc, MSc (Toronto), PhD (Waterloo)

Meinertzhagen, I. A., BSc (Aberdeen), PhD, DSc (St. Andrews), University Research Professor

Moore, C. L., BA, PhD (Cantab)

Newman, A. J., BA (Winnipeg), MSc, PhD (Oregon)

Perrot, T. S., BSc, PhD (Western)

Rusak, B., BA (Toronto), PhD (Berkeley), FRSC, joint appointment in Psychiatry

Semba, K., BEd, MA (Tokyo), PhD (Rutgers), major appointment in Medical Neuroscience

Smith, I. M., BA (Dalhousie), MSc (Brown), PhD (Dalhousie), major appointment in Pediatrics, Joan and Jack Craig Chair in Autism Research

Stewart, S., BSc (Dalhousie), PhD (McGill), joint appointment in Psychiatry

Taylor-Helmick, T. L., BA (Calgary), MSc, PhD (Dalhousie)

Ungar, M., BA, BSW, MSW (McGill), PhD (Wilfrid Laurier), major appointment in the School of Social Work

Westwood, D. A., BSc, MA, PhD (Waterloo), major appointment in the School of Health and Human Performance

Associate Professors

Abbass, A., BSc (Ottawa), MD (Dalhousie), FRCPC (Toronto), major appointment in Psychiatry

Aiken, S., BA, MSc (Western), PhD (Toronto), major appointment in the School of Human Communication Disorders

Bardouille, T., BSc (Queen's), MSc (Dalhousie), PhD (Toronto) major appointment in Psychiatry

Boe, S., BPhEd (Brock), PhD, MPT (Western), major appointment in the School of Physiotherapy

Crowder, N. A., BSc, PhD (Alberta)

Fisher, D., BSc (Ottawa), MSc, PhD (Carleton), major appointment in Psychiatry
Fisk, J., BSc, MA, PhD (Western), major appointment in Psychiatry
Good, K., BSc (UNB), MSc, PhD (UBC), major appointment in Psychiatry
Jacques, S., BA (McGill), MA, PhD (Toronto)
Johnson, S., BA (Kalamazoo), MSc, PhD (Victoria)
Phillmore, L., BA (UWO), MA, PhD (Queen's), Undergraduate Program Coordinator
Robinson, L., BSc (Victoria), MA, PhD (Simon Fraser), major appointment in the School of Health and Human Performance
Rosen, N. O., BA (Queen's), PhD (McGill)
Sherry, S. B., BA (York), MA (UBC), PhD (Saskatchewan)
Uher, R., MRCPsych (Royal College of Psychiatrists), CCT (London Deanery, UK), PhD, MUDr. (Charles Univ), major appointment in Psychiatry

Assistant Professors

Bombay, A., BSc (Ottawa), MSc, PhD (Carleton), major appointment is held jointly with the School of Nursing and Psychiatry
Campbell-Yeo, M., BSc, MScN (Dalhousie), PhDN (McGill), major appointment in the School of Nursing
Chorney, J., BSc (Dalhousie), MA, PhD (West Virginia), major appointment in Anesthesiology
Dithurbide, L., BA (St. Mary's), MA (Brock), PhD (Michigan State), major appointment in the School of Health and Human Performance
Filliter, J., BSc, MSc, PhD (Dalhousie) major appointment in Pediatrics
Franklin, T., BSc (King's), MSc (Dalhousie), PhD (Swiss Federal Institute of Technology)
Hashimi, J., BSc (Punjab), MSc (Western), PhD (Toronto), major appointment in Anesthesia
Ilie, G., BSc, MA (York), PhD (Toronto), major appointment in Community Health and Epidemiology
Neyedli, H., BSc Hons (Dalhousie), MSc, PhD (Toronto), major appointment in Health and Human Performance
Lovas, D., BSc, MD (Dalhousie), major appointment in Psychiatry
Town, J., BSc (York), DClínPsy (Univ of Sheffield), major appointment in Psychiatry
Weaver, I. C. G., BSc (Alberdeen), MSc (Bristol), PhD (McGill)

University Teaching Fellows

Gadbois, S., BP, MAPs (Moncton), PhD (Dalhousie)
Stamp, J., BSc (Dalhousie), PhD (Cambridge)

Senior Instructors

Juckes, T., BA, MA (Natal), PhD (Dalhousie)
Ply, E., BS Education (Univ of N Texas), MA, PhD (Texas Women's Univ)

Instructor

Christie, J., BSc, MSc, PhD (Dalhousie)
Mackinnon, S., BA(H) (UCCB), MSc (Wildred Laurier), PhD (Dalhousie)
Stevens, L., BSc (Acadia), MSc, PhD (Dalhousie)

Adjunct Professors

Backman, J., BA (Dalhousie), MA, PhD (Carleton), Erica Baker Psychological Services
Barresi, J., BSc (Brown), MA (S Calif), MS, PhD (Wisc), Psychology and Neuroscience/Dalhousie
Chipman, K., BA (UPEI), MA, PhD (Western), Neuropsychology Service/Nova Scotia Hospital
Church, E., BA (St. John's), MA, PhD (Toronto), School Psychology/Mount Saint Vincent
Cohen, A., BA (McGill), MA, PhD (Queen's), Psychology/University of Prince Edward Island
Conrad, N., BA (St. Mary's), PhD (McMaster), Psychology/Saint Mary's
Ellsworth, C., BA (McMaster), MA, PhD (Queen's), Psychology/IWK Health Centre
Flanagan, H., BA, BSc (McMaster), MA, PhD (York)
Gilin Oore, D., BSc (Northern Michigan), MA, PhD (Missouri-St. Louis), Psychology/Saint Mary's

Hauf, P., PhD (Johann Wolfgang Goethe Univ, Frankfurt), Psychology/St. Francis Xavier
Ivanoff, J., BSc, MA (Guelph), PhD (Dalhousie), Psychology/Saint Mary's
Krigolson, O. E., BEd (Victoria), MSc (Indiana), PhD (Victoria), School of Exercise Science, Health and Physical Education/Univ of Victoria
LoLordo, V. M., AB (Brown), PhD (Penn), Psychology and Neuroscience/Dalhousie
MacDonald, G. W., BA (St. FX), MA, PhD (Windsor), Private Practice
Marchand, Y., MCS (Univ of Paris), PhD (Compiègne)
Mitchell, D. E., BSc, MAppSc (Melb), PhD (Berkeley), Psychology and Neuroscience/Dalhousie
Omisade, A., BA (York), PhD (Dalhousie), Neuropsychology/QEII Health Sciences Centre
O'Neill, P., MSc, PhD (Yale), Professor Emeritus/Acadia
Pohlmann-Eden, B., MD, PhD (Univ of Heidelberg), major appointment in Neurology
Robertson, E., BA (Mt. A), MA, PhD (Western), Psychology/Cape Breton Univ
Rodger, R. S., MA (Edin), PhD (Queen's, Belfast)
Saint-Aubin, J., BA (Sherbrooke), MPs, PhD (Laval), École de psychologie/ Université de Moncton
Schellinck, H., BSc, MSc, PhD (Dalhousie), Psychology and Neuroscience/Dalhousie
Shaw, S. R., BSc (London), PhD (St. Andrews), Psychology and Neuroscience/Dalhousie
Smith, S. M., BA (Bishop's), MA, PhD (Queen's), Psychology/Saint Mary's
Vallis, T. M., BSc (Dalhousie), MA, PhD (Western), Psychology/QEII Health Sciences Centre
Watt, M., BA (St. FX), PhD (Dalhousie), Psychology/St. Francis Xavier
Yoon, M. G., BS (Seoul), PhD (Berkeley)

Postdoctoral Fellows

Corsini-Munt, S., PhD (Montréal)
Gaililee, A., PhD (Birmingham)
Levesque, K., PhD (Dalhousie)
Miyashita, A., PhD (Tokyo)
Rigney, G., PhD (South Australia)
Ryan, K., PhD (Dalhousie)
Sorenson-Duncan, T., PhD (Alberta)
Tagarelli, K., PhD (Georgetown)
Vannier, S., PhD (UNB)

BSc (120 credit hour) Concentrated Honours in Neuroscience

The Honours program is intended to serve as a preparation for graduate work in Neuroscience, biological psychology, medicine, human communication disorders and related fields. Its interdisciplinary nature is reflected in the participation of faculty from several departments in the program. In the first year of study, students take courses which provide a firm grounding in the physical and biological sciences. In subsequent years, the program includes credits in courses drawn from Neuroscience, Psychology and Biology. These include a number of required core courses that emphasize the acquisition and application of laboratory skills.

Honours students complete a minimum of 54 credit hours above the 1000 level in Neuroscience with a minimum GPA of 3.0 and write a research-based Honours thesis. The Honours thesis and Qualifying Examination requirements are satisfied through completion of NESC 4501.03 and NESC 4502.03.

Admission to Honours

Students must apply for admission to Honours programs. Students wishing to enrol in Honours in Neuroscience should consult with the Neuroscience Honours Advisor in January of their third year. Students may not apply for Honours before January of their third year of studies. A detailed description of the Honours application process can be found on the departmental website www.dal.ca/psychandneuro.

Admission requirements include:

- A grade of B+ or better in NESC 2000.03: Methods in Experimental Psychology & Neuroscience (or equivalent)
- A minimum of A- or better in the most recently completed:
 - 18 credit hours of NESC courses (for admission in January of 3rd year)
 - OR
 - 27 credit hours of NESC courses (for admission at end of 3rd year)

Departmental requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a Concentrated Honours program in Neuroscience must complete the following:

1000 level

- Introduction to Psychology and Neuroscience I: From Neuron to Person (PSYO 1011.03 or equivalent) with grade of B- or better
- Introduction to Psychology and Neuroscience II: From Social Interaction to Psychopathology (PSYO 1012.03 or equivalent) with grade of B- or better
- Principles of Biology I (BIOL 1010.03; or equivalent) with a grade of B- or better
- Principles of Biology II (BIOL 1011.03; or equivalent) with a grade of B- or better
- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity
- CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium
- MATH 1215.03: Life Science Calculus (recommended) or MATH 1000.03: Differential and Integral Calculus I
- An additional three credit hours in mathematics or statistics

2000 level

- NESC 2000.03: Methods in Experimental Psychology & Neuroscience (or equivalent)
- NESC 2470.03: Systems Neuroscience
- NESC 2570.03: Cellular Neuroscience
- PSYO 2501.03: Statistical Methods I
- BIOL 2020.03: Cell Biology
- Six credit hours selected from: NESC 2130.03: Introduction to Cognitive Psychology, NESC 2140.03: Learning, NESC 2150.03: Perceptual Processes, NESC 2160.03: Animal Behaviour, BIOC 2300.03: Introduction to Biochemistry, BIOL 2030.03: Genetics and Molecular Biology, PHYC 2250.03: Physics of Biological and Medical Technology

Note: It is recommended that NESC 2000.03: Methods in Experimental Psychology & Neuroscience (or equivalent) and PSYO 2501.03: Statistical Methods I be taken concurrently.

3000 level

- PSYO 3502.03: Statistical Methods II (**must be taken in third year**)
- Six credit hours of laboratory courses selected from NESC 3044.03: Laboratory Methods of Learning and Conditioning, NESC 3051.03: Sensory Neuroscience I Vision, NESC 3131.03: Research Methods in Attention, NESC 3132.03: Research Methods in Visual Cognition, NESC 3133.03: Research Methods in Memory, NESC 3134.03: Research Methods in Psycholinguistics, NESC 3137.03: Research Methods in Cognitive Neuroscience, NESC 3161.03: Measuring Behaviour, NESC 3165.03: Neuroethology, NESC 3370.03: Neuroscience Laboratory I, NESC 3371.03: Neuroscience Laboratory II, NESC 3440.03: Neuroanatomy, NESC 3775.03: Behavioural Neuroscience Laboratory, NESC: 3100.03/3101.03

Independent Research Project (Note: The full-year Independent Research Project may only be used to fulfill three-credit hours of 'laboratory courses')

- Six additional credit hours selected from NESC 3043.03: Neurobiology of Learning, NESC 3052.03: Sensory Neuroscience II Hearing and Speech, NESC 3131.03: Research Methods in Attention, NESC 3132.03: Research Methods in Visual Cognition, NESC 3133.03: Research Methods in Memory, NESC 3134.03: Research Methods in Psycholinguistics, NESC 3162.03: Advanced Animal Behaviour, NESC 3170.03: Hormones and Behaviour, NESC 3180.03: Psychoneuroimmunology/Ecological Immunology, NESC 3190.03: Psycholinguistics, NESC 3227.03: Principles of Human Neuropsychology, NESC 3237.03: Drugs and Behaviour, NESC 3260.03: Biological Rhythms, NESC 3264.03: The Science of Sleep, NESC 3270.03: Developmental Neuroscience, NESC 3670.03: Genes, Brain and Behaviour, NESC 3770.03: Behavioural Neuroscience, NESC 3790.03: Neurolinguistics, NESC 3970.03: Molecular Neuroscience, BIOL 3020.03: Advanced Cell Biology, PHAC 3001.03: Pharmacology, PHYL 3420.03: Sensory Physiology

4000 level

- NESC 4501.03 and NESC 4502.03: Honours Thesis and Qualifying Exam
- Six credit hours selected from NESC 4000.03: Senior Seminar, NESC 4007.03: Contemporary Issues in Neuroscience, NESC 4008.03: Topics in Neuroscience, NESC 4050.03: Topics in Perception, NESC 4070.03: Chemical Neurobiology, NESC 4130.03: Topics in Cognition, NESC 4140.03: Animal Learning Topics, NESC 4160.03: Topics in Behavioural Biology, NESC 4170.03: Topics in Behavioural Neuroendocrinology, NESC 4177.03: Theoretical Neuroscience, NESC 4185.03: Current Advances in Synaptic Function and Plasticity, NESC 4230.03: Human Performance Topics, NESC 4670.03: Behavioural Neuro(epi)genetics and Genomics, NESC 4740.03: Topics in the Neurobiology of Learning and Memory, PHAC 4001.03: Pharmacology II, BIOL 4510.03: Cultural Evolution
- Six additional credit hours from Neuroscience 3000-level or 4000-level courses

Other regulations

- Students in the Honours program should find a thesis supervisor and begin the preparation for their Honours research (reading, learning laboratory methodology, submitting ethics forms) no later than the summer preceding their thesis year.
- Courses that are counted towards the Honours program requirements must be a minimum grade of C.

BSc (120 credit hour) Combined Honours in Neuroscience and another subject

Students who wish to study Neuroscience in conjunction with another subject may wish to pursue a Combined Honours degree program. The other subject may be from any discipline in the Faculty of Science (other than Psychology), the Faculty of Arts and Social Sciences, the Faculty of Computer Science, or the College of Sustainability. Neuroscience may be the primary subject (with a minimum of 45 credit hours beyond the 1000 level), or the secondary subject (30 credit hours).

Students planning to enroll in a Combined Honours program should consult with academic advisors from both programs early in their studies. Students must have their program of study approved by Academic Advisors in both subject areas. Students complete an Honours Qualifying Examination in one of the two subject areas, a requirement normally completed in the primary subject area. For Neuroscience, this requirement is satisfied through NESC 4501.03 and NESC 4502.03.

Departmental requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a Combined Honours program in Neuroscience and another subject must complete the following:

1000 level

- Introduction to Psychology and Neuroscience I: From Neuron to Person (PSYO 1011.03 or equivalent) with grade of B- or better
- Introduction to Psychology and Neuroscience II: From Social Interaction to Psychopathology (PSYO 1012.03 or equivalent) with grade of B- or better
- Principles of Biology I (BIOL 1010.03; or equivalent) with a grade of B- or better
- Principles of Biology II (BIOL 1011.03; or equivalent) with a grade of B- or better
- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity
- CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium
- MATH 1215.03: Life Science Calculus (recommended) or MATH 1000.03: Differential and Integral Calculus I
- An additional three credit hours in mathematics or statistics

Neuroscience as the primary subject

2000 level

- NESC 2000.03: Methods in Experimental Psychology & Neuroscience (or equivalent) with grade of B+ or better
- NESC 2470.03: Systems Neuroscience
- NESC 2570.03: Cellular Neuroscience
- PSYO 2501.03: Statistical Methods I
- BIOL 2020.03: Cell Biology*
- Additional three credit hours of NESC courses at the 2000-level or above

Note: It is recommended that NESC 2000.03: Methods in Experimental Psychology & Neuroscience and PSYO 2501.03: Statistical Methods I be taken concurrently.

3000 level

- PSYO 3502.03: Statistical Methods II (**must be taken in third year**)
- Six credit hours of laboratory courses selected from NESC 3044.03: Laboratory Methods of Learning and Conditioning, NESC 3051.03: Sensory Neuroscience I Vision, NESC 3131.03: Research Methods in Attention, NESC 3132.03: Research Methods in Visual Cognition, NESC 3133.03: Research Methods in Memory, NESC 3134.03: Research Methods in Psycholinguistics, NESC 3137.03: Research Methods in Cognitive Neuroscience, NESC 3161.03: Measuring Behaviour, NESC 3165.03: Neuroethology, NESC 3370.03: Neuroscience Laboratory I, NESC 3371.03: Neuroscience Laboratory II, NESC 3440.03: Neuroanatomy, NESC 3775.03: Behavioural Neuroscience Laboratory, NESC: 3100.03/3101.03 Independent Research Project (Note: The full-year Independent Research Project may only be used to fulfill three-credit hours of 'laboratory courses')
- Three additional credit hours selected from NESC 3043.03: Neurobiology of Learning, NESC 3052.03: Sensory Neuroscience II Hearing and Speech, NESC 3131.03: Research Methods in Attention, NESC 3132.03: Research Methods in Visual Cognition, NESC 3133.03: Research Methods in Memory, NESC 3134.03: Research Methods in Psycholinguistics, NESC 3162.03: Advanced Animal Behaviour, NESC 3170.03: Hormones and Behaviour, NESC 3180.03: Psychoneuroimmunology/Ecological Immunology, NESC 3190.03: Psycholinguistics, NESC 3227.03: Principles of Human Neuropsychology, NESC 3237.03:

Drugs and Behaviour, NESC 3260.03: Biological Rhythms, NESC 3264.03: The Science of Sleep, NESC 3270.03: Developmental Neuroscience, NESC 3670.03: Genes, Brain and Behaviour, NESC 3770.03: Behavioural Neuroscience, NESC 3790.03: Neurolinguistics, NESC 3970.03: Molecular Neuroscience, BIOL 3020.03: Advanced Cell Biology, PHAC 3001.03: Pharmacology, PHYL 3420.03: Sensory Physiology

4000 level

- NESC 4501.03 and NESC 4502.03: Honours thesis and Qualifying Exam
- Six credit hours selected from NESC 4000.03: Senior Seminar, NESC 4007.03: Contemporary Issues in Neuroscience, NESC 4008.03: Topics in Neuroscience, NESC 4050.03: Topics in Perception, NESC 4070.03: Chemical Neurobiology, NESC 4130.03: Topics in Cognition, NESC 4160.03: Topics in Behavioural Biology, NESC 4170.03: Topics in Behavioural Neuroendocrinology, NESC 4177.03: Theoretical Neuroscience, NESC 4185.03: Current Advances in Synaptic Function and Plasticity, NESC 4230.03: Human Performance Topics, NESC 4670.03: Behavioural Neuro(epi)genetics and Genomics, NESC 4740.03: Topics in the Neurobiology of Learning and Memory, PHAC 4001.03: Pharmacology II, BIOL 4510.03: Cultural Evolution
- Six additional credit hours from Neuroscience 3000-level or 4000-level courses

Neuroscience as the secondary subject

2000 level

- NESC 2000.03: Methods in Experimental Psychology & Neuroscience (or equivalent)
- NESC 2470.03: Systems Neuroscience
- NESC 2570.03: Cellular Neuroscience
- PSYO 2501.03: Statistical Methods I
- BIOL 2020.03: Cell Biology*
- Additional three credit hours of NESC courses at the 2000-level or above

Note: It is recommended that NESC 2000.03: Methods in Experimental Psychology & Neuroscience and PSYO 2501.03: Statistical Methods I be taken concurrently.

3000/4000 level

- Six credit hours of laboratory courses selected from NESC 3044.03: Laboratory Methods of Learning and Conditioning, NESC 3051.03: Sensory Neuroscience I Vision, NESC 3137.03: Research Methods in Cognitive Neuroscience, NESC 3161.03: Measuring Behaviour, NESC 3370.03: Neuroscience Laboratory I, NESC 3371.03: Neuroscience Laboratory II, NESC 3440.03: Neuroanatomy, NESC 3775.03: Behavioural Neuroscience Laboratory
- 12 additional credit hours selected from NESC courses at the 3000 or 4000 level, including BIOL 3020.03: Advanced Cell Biology, PHAC 3001.03: Pharmacology, PHAC 4001.03: Pharmacology II, BIOL 4510.03: Cultural Evolution

* If students undertake another program of study that requires BIOL 2020.03: Cell Biology, they should substitute another three credit hour elective in a Neuroscience topic at the 2000 level for BIOL 2020.03.

Other regulations

- Students in the Honours program should find a thesis supervisor and begin the preparation for their Honours research (reading, learning laboratory methodology, submitting ethics forms) no later than the summer preceding their thesis year.
- Courses that are counted towards the Honours program requirements must be a minimum grade of C.

BSc (120 credit hour) Major in Neuroscience

The 120 credit hour Major is suited to students who want to focus on Neuroscience, but wish to have a program that is somewhat less constrained than the Honours program. It provides a four-year survey of Neuroscience, and is designed for students not anticipating subsequent graduate-level training in Neuroscience or related disciplines. Neuroscience Majors complete a minimum of 45 credit hours in Neuroscience courses above the 1000 level and do not have thesis (or related) requirements.

Students should plan their programs carefully and, if required, obtain advice from an academic advisor. Advisors can be consulted by contacting the Psychology and Neuroscience Main Office (Life Sciences Centre, Room 3263 or (902) 494-3417), or by visiting the [Psychology and Neuroscience website](#).

Departmental requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a Major program in Neuroscience must complete the following courses:

1000 level

- Introduction to Psychology and Neuroscience I: From Neuron to Person (PSYO 1011.03 or equivalent) with grade of B- or better
- Introduction to Psychology and Neuroscience II: From Social Interaction to Psychopathology (PSYO 1012.03 or equivalent) with grade of B- or better
- Principles of Biology I (BIOL 1010.03; or equivalent) with a grade of B- or better
- Principles of Biology II (BIOL 1011.03; or equivalent) with a grade of B- or better
- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity
- CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium
- MATH 1215.03: Life Science Calculus (recommended) or MATH 1000.03: Differential and Integral Calculus I
- An additional three credit hours in mathematics or statistics

2000 level

- NESC 2000.03: Methods in Experimental Psychology & Neuroscience (or equivalent)
- NESC 2470.03: Systems Neuroscience
- NESC 2570.03: Cellular Neuroscience
- PSYO 2501.03: Statistical Methods I
- BIOL 2020.03: Cell Biology
- Six credit hours selected from: NESC 2130.03: Introduction to Cognitive Psychology, NESC 2140.03: Learning, NESC 2150.03: Perceptual Processes, NESC 2160.03: Animal Behaviour, BIOC 2300.03: Introduction to Biochemistry, BIOL 2030.03: Genetics and Molecular Biology, PHYC 2250.03: Physics of Biological and Medical Technology

Note: It is recommended that NESC 2000.03: Methods in Experimental Psychology & Neuroscience and PSYO 2501.03: Statistical Methods I be taken concurrently.

3000/4000 level

Six credit hours of laboratory courses selected from NESC 3044.03: Laboratory Methods of Learning and Conditioning, NESC 3051.03: Sensory Neuroscience I Vision, NESC 3131.03: Research Methods in Attention, NESC 3132.03: Research Methods in Visual Cognition, NESC 3133.03: Research Methods in Memory, NESC 3134.03: Research Methods in Psycholinguistics, NESC 3137.03: Research Methods in Cognitive Neuroscience, NESC 3161.03: Measuring Behaviour, NESC 3165.03: Neuroethology, NESC 3370.03: Neuroscience Laboratory I, NESC 3371.03: Neuroscience Laboratory II, NESC 3440.03: Neuroanatomy, NESC 3775.03: Behavioural Neuroscience Laboratory, NESC: 3100.03/3101.03 Independent Research Project

(Note: The full-year Independent Research Project may only be used to fulfill three-credit hours of 'laboratory courses')

Six more credit hours selected from NESC 3043.03: Neurobiology of Learning, NESC 3052.03: Sensory Neuroscience II Hearing and Speech, NESC 3131.03: Research Methods in Attention, NESC 3132.03: Research Methods in Visual Cognition, NESC 3133.03: Research Methods in Memory, NESC 3134.03: Research Methods in Psycholinguistics, NESC 3162.03: Advanced Animal Behaviour, NESC 3170.03: Hormones and Behaviour, NESC 3180.03: Psychoneuroimmunology/Ecological Immunology, NESC 3190.03: Psycholinguistics, NESC 3227.03: Principles of Human Neuropsychology, NESC 3237.03: Drugs and Behaviour, NESC 3260.03: Biological Rhythms, NESC 3264.03: The Science of Sleep, NESC 3270.03: Developmental Neuroscience, NESC 3670.03: Genes, Brain and Behaviour, NESC 3770.03: Behavioural Neuroscience, NESC 3790.03: Neurolinguistics, NESC 3970.03: Molecular Neuroscience, BIOL 3020.03: Advanced Cell Biology, PHAC 3001.03: Pharmacology, PHAC 4001.03: Pharmacology II, PHYL 3420.03: Sensory Physiology

- An additional 12 credit hours from Neuroscience 3000-level or 4000-level courses, including BIOL 3020.03: Advanced Cell Biology, PHAC 3001.03: Pharmacology, PHAC 4001.03: Pharmacology II, PHYL 3420.03: Sensory Physiology, BIOL 4510.03: Cultural Evolution

BSc (120 credit hour) Double Major in Neuroscience and another subject

The Double Major degree program allows students to combine a study of Neuroscience with another subject. The other subject may be from any discipline in the Faculty of Science (other than Psychology), the Faculty of Arts and Social Sciences, the Faculty of Computer Science or the College of Sustainability. Neuroscience may be the primary subject (defined as the subject with the larger number of credits), or the secondary subject. If the primary subject area is from the Faculty of Arts and Social Sciences, the degree granted will be a BA.

Students enrolled in a Double Major program must have their program of study approved by advisors in both subject areas.

Departmental requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a Double Major program in Neuroscience and another subject must complete the following:

1000 level

- Introduction to Psychology and Neuroscience I: From Neuron to Person (PSYO 1011.03 or equivalent) with grade of B- or better
- Introduction to Psychology and Neuroscience II: From Social Interaction to Psychopathology (PSYO 1012.03 or equivalent) with grade of B- or better
- Principles of Biology I (BIOL 1010.03; or equivalent) with a grade of B- or better
- Principles of Biology II (BIOL 1011.03; or equivalent) with a grade of B- or better
- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity
- CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium
- MATH 1215.03: Life Science Calculus (recommended) or MATH 1000.03: Differential and Integral Calculus I
- An additional three credit hours in mathematics or statistics

Neuroscience as the primary subject

2000 level

- NESC 2000.03: Methods in Experimental Psychology & Neuroscience (or equivalent)
- NESC 2470.03: Systems Neuroscience
- NESC 2570.03: Cellular Neuroscience
- PSYO 2501.03: Statistical Methods I
- BIOL 2020.03: Cell Biology*
- Additional three credit hours of NESC courses at the 2000-level or above

Note: It is recommended that NESC 2000.03: Methods in Experimental Psychology & Neuroscience and PSYO 2501.03: Statistical Methods I be taken concurrently.

3000/4000 level

Six credit hours of laboratory courses selected from NESC 3044.03: Laboratory Methods of Learning and Conditioning, NESC 3051.03: Sensory Neuroscience I Vision, NESC 3131.03: Research Methods in Attention, NESC 3132.03: Research Methods in Visual Cognition, NESC 3133.03: Research Methods in Memory, NESC 3134.03: Research Methods in Psycholinguistics, NESC 3137.03: Research Methods in Cognitive Neuroscience, NESC 3161.03: Measuring Behaviour, NESC 3165.03: Neuroethology, NESC 3370.03: Neuroscience Laboratory I, NESC 3371.03: Neuroscience Laboratory II, NESC 3440.03: Neuroanatomy, NESC 3775.03: Behavioural Neuroscience Laboratory, NESC: 3100.03/3101.03 Independent Research Project (Note: The full-year Independent Research Project may only be used to fulfill three-credit hours of 'laboratory courses')

Six more credit hours selected from NESC 3043.03: Neurobiology of Learning, NESC 3052.03: Sensory Neuroscience II Hearing and Speech, NESC 3131.03: Research Methods in Attention, NESC 3132.03: Research Methods in Visual Cognition, NESC 3133.03: Research Methods in Memory, NESC 3134.03: Research Methods in Psycholinguistics, NESC 3162.03: Advanced Animal Behaviour, NESC 3170.03: Hormones and Behaviour, NESC 3180.03: Psychoneuroimmunology/Ecological Immunology, NESC 3190.03: Psycholinguistics, NESC 3227.03: Principles of Human Neuropsychology, NESC 3237.03: Drugs and Behaviour, NESC 3260.03: Biological Rhythms, NESC 3264.03: The Science of Sleep, NESC 3270.03: Developmental Neuroscience, NESC 3670.03: Genes, Brain and Behaviour, NESC 3770.03: Behavioural Neuroscience, NESC 3790.03: Neurolinguistics, NESC 3970.03: Molecular Neuroscience, BIOL 3020.03: Advanced Cell Biology, PHAC 3001.03: Pharmacology, PHAC 4001.03: Pharmacology II, PHYL 3420.03: Sensory Physiology

- An additional six credit hours from Neuroscience 3000-level or 4000-level courses

Neuroscience as the secondary subject

2000 level

- NESC 2000.03: Methods in Experimental Psychology & Neuroscience (or equivalent)
- NESC 2470.03: Systems Neuroscience
- NESC 2570.03: Cellular Neuroscience
- PSYO 2501.03: Statistical Methods I
- BIOL 2020.03: Cell Biology*
- Additional three credit hours of NESC courses at the 2000-level or above

Note: It is recommended that NESC 2000.03: Methods in Experimental Psychology & Neuroscience and PSYO 2501.03: Statistical Methods I be taken concurrently.

3000/4000 level

- Six credit hours of laboratory courses selected from NESC 3044.03: Laboratory Methods of Learning and Conditioning, NESC 3051.03: Sensory Neuroscience I Vision, NESC 3137.03: Research Methods in

Cognitive Neuroscience, NESC 3161.03: Measuring Behaviour, NESC 3165.03: Neuroethology, NESC 3370.03: Neuroscience Laboratory I, NESC 3371.03: Neuroscience Laboratory II, NESC 3440.03: Neuroanatomy, NESC 3775.03: Behavioural Neuroscience Laboratory

- 12 additional credit hours selected from NESC courses at the 3000 or 4000 level, including BIOL 3020.03: Advanced Cell Biology, PHAC 3001.03: Pharmacology, PHAC 4001.03: Pharmacology II, PHYL 3420.03: Sensory Physiology, BIOL 4510.03: Cultural Evolution

* If students undertake another program of study that requires BIOL 2020.03: Cell Biology, they should substitute another three credit hour elective in a Neuroscience topic at the 2000 level for BIOL 2020.03.

Minor in Neuroscience

This Minor is available to non-Neuroscience/Psychology students registered in a 120 credit hour Bachelor of Applied Computer Science, Bachelor of Arts, Bachelor of Commerce, Bachelor of Community Design, Bachelor of Computer Science, Bachelor of Informatics, Bachelor of Management, Bachelor of Music, Bachelor of Science or Bachelor of Science (Medical Science) program.

Requirements

- A minimum of 18 to a maximum of 36 credit hours in Neuroscience courses at the 2000 level or higher, other than NESC 2000.03: Methods in Experimental Psychology and Neuroscience and PSYO 2501.03: Statistical Methods I, which are available only to students in a Major/Honours program.

Contact [Neuroscience](#) for more information.

Co-op, Minors, Certificates and Engineering Concurrent Programs for Students

Minors available to students in Neuroscience

Minor programs allow students to develop subject specialties in addition to their Major or Honours subjects. Minors in other subjects are normally added to 120 credit hour BSc or BA programs (including Science Co-op).

Students in a BSc (120 credit hour) program in Neuroscience may choose to include a Minor selected from the [list of approved Minors](#) (except Psychology). Courses counted toward a Major or Honours subject cannot be used to fulfill the requirements of a Minor program.

Certificates

In combination with a BSc in Neuroscience, students may obtain one or more Certificates. A Certificate indicates that a student has achieved a certain level of proficiency in a given area or subspecialty. Courses counted toward a Major, Honours or Minor subject may also be used to fulfill the requirements of a Certificate. Students must apply to the Certificate Coordinator to be considered for a Certificate. Certificates are awarded upon graduation and are noted on the student's academic transcript.

A complete list of [Faculty of Science Certificates](#) and requirements can be found at the beginning of the [Faculty of Science](#) section. Students may also work toward obtaining Certificates offered by other Faculties; some of these are listed in the [College of Arts and Science Degree Requirements](#) section.

Certificates of particular interest to students enrolled in a BSc in Neuroscience include:

- [Certificate in Animal Behaviour](#)
- [Certificate in Science Leadership and Communication](#)

BSc/BEng Concurrent Program

Students wishing to combine their interest in Neuroscience with a degree in Engineering may choose a BSc/BEng Concurrent Program. Students take courses toward, and complete the requirements for a BSc 120 credit hour Major in Neuroscience, at the same time as they fulfill their BEng requirements. Such a program normally takes 5 years (or longer) to complete. Interested students should see undergraduate advisors from Neuroscience and from the Faculty of Engineering in their first year of study.

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are typically available to students in the second, third, and fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not obtain credit for both courses as designated.

Not all courses are offered each year. Please consult the current [timetable](#) for this year's offering. For further information please contact the department, or visit the department's website.

Course Notes

Students going on in Neuroscience are recommended to take PSYO 1011.03 or PSYO 1031.03 and PSYO 1012.03 or PSYO 1032.03 with the lab component.

4000-Level Seminars

These seminars are intended for fourth-year Honours students. Third-year Honours students are eligible provided they obtain permission from the instructor, and the needs of all the fourth-year Honours students have been met. The topics covered in these courses vary from year to year. Go to the departmental website www.dal.ca/psychandneuro for more detail about the topics to be covered in the current academic year.

Course Descriptions

NESC 2000 Methods in Experimental Psychology and Neuroscience

CREDIT HOURS: 3

This course provides a thorough grounding in scientific research methods used by experimental psychologists and neuroscientists. Lectures explore concepts, methods, and analytic tools employed to investigate human and animal behaviour and neurophysiology. Students also complete assignments and write reports on a series of supervised laboratory experiments to illustrate concepts presented in lectures.

CALENDAR NOTES: Restricted to students registered in Neuroscience Major or Honours programs. It is highly recommended that students take PSYO 2501.03, Statistical Methods I, concurrently with NESC 2000.03. Students must attend the first lecture section.

COREQUISITES:

PREREQUISITES: (PSYO 1011.03 or PSYO 1031.03 or equivalent) and (PSYO 1012.03 or PSYO 1032.03 or equivalent) with a grade of B- or better, OR SCIE 1506.09/1507.09 or equivalent with a grade of B- or better in the Psychology portion.

CROSSLISTED: PSYO 2000.03

RESTRICTIONS: Neuroscience Majors

EXCLUSIONS: NESC 2007.03

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

NESC 2007 Neuroscience Principles and Methods

CREDIT HOURS: 3

This course introduces methods used to investigate contemporary issues in Neurobiology. Characteristics of these methods, including their strengths and limitations, are presented conceptually in lectures, and then practically in the form of supervised laboratory experiments where students implement in the lab what they encountered first in lectures.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Introduction to Psychology I (PSYO 1011.03 or PSYO 1021.03 or PSYO 1031.03) and Introduction to Psychology II (PSYO 1012.03 or PSYO 1022.03 or PSYO 1032.03) EACH with a grade of B- or better AND Principles of Biology I (BIOL 1010.03 or BIOL 1020.03) and Principles of Biology II (BIOL 1011.03 or BIOL 1021.03) EACH with a grade of B- or better. Or SCIE 1506.09/1507.09 (or SCIE 1505X/Y.18) with a grade of B- or better.

CROSSLISTED:

RESTRICTIONS: Students registered in Neuroscience Major or Honours programs.

EXCLUSIONS: PSYO 2000.03

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

NESC 2130 Introduction to Cognitive Psychology

CREDIT HOURS: 3

Lectures focus on the processes involved in transforming sensory information into the meaningful everyday world that we know. Initially, emphasis is on the visual system, and how information within that system is structured and organized, followed by a consideration of the character of internal representations used in thinking and remembering.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 1011.03 (or PSYO 1021.03 or PSYO 1031.03) and PSYO 1012.03 (or PSYO 1022.03 or PSYO 1032.03); OR SCIE 1506.09/1507.09 (or SCIE1505X/Y.18). All prerequisite courses must have a grade of B- or better.

CROSSLISTED: PSYO 2130.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

NESC 2140 Learning

CREDIT HOURS: 3

Lectures focus on several goals: (1) providing general principles of learning; (2) understanding the behaviour of particular species; (3) direct application to human problems. Emphasis is on understanding why researchers in animal learning do what they are currently doing (given the goals and the historical context).

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 1011.03 (or PSYO 1021.03 or PSYO 1031.03) and PSYO 1012.03 (or PSYO 1022.03 or PSYO 1032.03); OR SCIE 1506.09/1507.09 (or SCIE1505X/Y.18). All prerequisite courses must have a grade of B- or better.

CROSSLISTED: PSYO 2140.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

NESC 2150 Perceptual Processes

CREDIT HOURS: 3

Perception deals with the way in which our senses provide us with information about our environment. This course focuses on the process by which sensory experiences are coded, how they are interpreted by the nervous system, and how experience modifies perception.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 1011.03 (or PSYO 1021.03 or PSYO 1031.03) and PSYO 1012.03 (or PSYO 1022.03 or PSYO 1032.03); OR SCIE 1506.09/1507.09 (or SCIE1505X/Y.18) OR BIOL 1010.03 (or BIOL 1020.03) and BIOL 1011.03 (or BIOL 1021.03). All prerequisite courses must have a grade of B- or better.

CROSSLISTED: PSYO 2150.03

RESTRICTIONS:

EXCLUSIONS: NESC/PSYO 3005.03

FORMATS: Lecture

LAB HOURS PER WEEK:

NESC 2160 Animal Behaviour

CREDIT HOURS: 3

Using concepts from behavioural biology and psychology, animal behaviourists attempt to explain why animals behave the way they do. The course examines topics such as mating and social systems, mate choice, the evolution of behaviour, and animal communication. The behaviour of a wide range of animals is studied.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 1011.03 (or PSYO 1021.03 or PSYO 1031.03) and PSYO 1012.03 (or PSYO 1022.03 or PSYO 1032.03); OR SCIE 1506.09/1507.09 (or SCIE1505X/Y.18) OR BIOL 1010.03 (or BIOL 1020.03) and BIOL 1011.03 (or BIOL 1021.03). All prerequisite courses must have a grade of B- or better.

CROSSLISTED: PSYO 2160.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

NESC 2470 Systems Neuroscience

CREDIT HOURS: 3

This lecture class examines the brain's role in controlling experience and behaviour in both animals and humans. The course will focus on the functional anatomy of several psychological systems, in particular the brain pathways involved in sensation, perception, movement, motivation, mood, memory, sleep, emotion, and language. There will be emphasis on recent research findings and understanding methodology for asking questions in neuroscience.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Introduction to Psychology I (PSYO 1011.03 or PSYO 1021.03 or PSYO 1031.03) and Introduction to Psychology II (PSYO 1012.03 or PSYO 1022.03 or PSYO 1032.03) EACH with a grade of B- or better OR Principles of Biology I (BIOL 1010.03 or BIOL 1020.03) and Principles of Biology II (BIOL 1011.03 or BIOL 1021.03) EACH with a grade of B- or better OR SCIE 1506.09 and SCIE 1507.09 EACH with a grade of B- or better or SCIE 1505X/Y.18 with a grade of B- or better.

CROSSLISTED: PSYO 2470.03

RESTRICTIONS: Restricted to students registered in Neuroscience or Psychology Major or Honours programs.

EXCLUSIONS: PSYO 2770.03, PHYL 2041.03

FORMATS: Lecture

LAB HOURS PER WEEK:

NESC 2570 Cellular Neuroscience

CREDIT HOURS: 3

This course explores the brain at the neuronal level. Material covered includes: the ionic basis of resting potentials; the electrical activity of neurons; synaptic transmission and plasticity; synthesis and action of synaptic transmitters; and drug actions. Cellular phenomena relevant to healthy and neurologically-dysfunctional systems are also discussed.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Introduction to Psychology I (PSYO 1011.03 or PSYO 1021.03 or PSYO 1031.03) and Introduction to Psychology II (PSYO 1012.03 or PSYO 1022.03 or PSYO 1032.03) EACH with a grade of B- or better, or Principles of Biology I (BIOL 1010.03 or BIOL 1020.03) and Principles of Biology II (BIOL 1011.03 or BIOL 1021.03) EACH with a grade of B- or better, OR SCIE 1506.09 and SCIE 1507.09 EACH with a grade of B- or better, or SCIE 1505X/Y.18 with a grade of B- or better.

CROSSLISTED: PSYO 2570.03, PHYL 2570.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

NESC 3001 Directed Project in Neuroscience

CREDIT HOURS: 3

Primarily for Honours students wishing research experience. Requirements include a minimum grade of B in NESC 2000.03/PSYO 2000.03, a high level of performance in other Neuroscience courses, an overall B+ (GPA 3.30) average, and securing a faculty advisor to supervise the research project. Note: This course cannot be used to fulfill the department's research laboratory requirement.

SIGNATURE REQUIRED Contact: pnistud@dal.ca

CALENDAR NOTES: This course provides only a half-year research experience. Students wanting a full-year research experience in a lab should register for NESC 3100.03/NESC 3101.03

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2000.03, AND PSYO 2501.03 and previous or concurrent enrolment in two other 3000-level courses.

CROSSLISTED: PSYO 3001.03

RESTRICTIONS: Restricted to Neuroscience Majors and Honours Students

EXCLUSIONS: NESC 3000X/Y.06, PSYO 3000X/Y.06, NESC 3100.03, NESC 3101.03, PSYO 3100.03, PSYO 3101.03

FORMATS: Lab

LAB HOURS PER WEEK:

NESC 3011 Experiential Learning in Science Communication I

CREDIT HOURS: 3

An experiential learning class for suitably-qualified senior students. This is a fundamentally 'learn by doing' course in which students have the opportunity to develop and consolidate teaching and communications skills in Psychology and Neuroscience. Students develop these skills through a series of communication-based projects, in-class instruction, and preparing, delivering, and marking lab materials for PSYO1011 and PSYO1012 lab groups (approx. 25 students). SIGNATURE REQUIRED.

CALENDAR NOTES: This course must be taken in the same academic year as NESC 3012.03 and no credit can be given for one course without the other. A grade will be given for NESC 3011.03 only after NESC 3012.03 is completed.

COREQUISITES:

PREREQUISITES: B+ or better in NESC 2007 (or equivalent), advanced courses in Psychology or Neuroscience, and Instructor's consent.

CROSSLISTED: PSYO 3011.03

RESTRICTIONS:

EXCLUSIONS: PSYO 3010.06

FORMATS: Lecture | Lab | Seminar

LAB HOURS PER WEEK:

NESC 3012 Experiential Learning in Science Communication II

CREDIT HOURS: 3

An experiential learning class for suitably-qualified senior students. This is a fundamentally 'learn by doing' course in which students have the opportunity to develop and consolidate teaching and communications skills in Psychology and Neuroscience. Students develop these skills through a series of communication-based projects, in-class instruction, and preparing, delivering, and marking lab materials for PSYO1011 and PSYO1012 lab groups (approx. 25 students). SIGNATURE REQUIRED.

CALENDAR NOTES: This course must be taken after, and in conjunction with, NESC 3011 in the same academic year and no credit can be given for one course without the other. A grade will be given for PSYO 3011.03 only after PSYO 3012.03 is completed.

COREQUISITES:

PREREQUISITES: NESC 3011.03

CROSSLISTED: PSYO 3012.03

RESTRICTIONS:

EXCLUSIONS: NESC 3010.06

FORMATS: Lecture | Lab | Seminar

LAB HOURS PER WEEK:

NESC 3043 Neurobiology of Learning

CREDIT HOURS: 3

This course examines the neurobiological processes underlying various forms of learning such as classical and operant conditioning, song learning by birds, spatial learning, and fear conditioning. Different methods used to study the neurobiology of learning, and the evolutionary origins of these systems are also considered.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: NESC 2470.03/PSYO 2470.03 or PSYO 2770.03 or PHYL 2041.03

CROSSLISTED: PSYO 3043.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

NESC 3044 Laboratory Methods of Learning and Conditioning

CREDIT HOURS: 3

A hands-on course on techniques used to test learning and memory in animals, including operant conditioning and spatial memory, and an exposure to the neurobiological systems involved. Students work in pairs to conduct a series of experiments, analyze data as a class, but write individual laboratory reports on each experiment.

CALENDAR NOTES: Students should be aware that some data collection occurs outside of class time.

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2007.03, PSYO 2501.03, and one of NESC 2140.03/PSYO 2140.03 or NESC 2470.03/PSYO 2470.03 or PSYO 2770.03

CROSSLISTED: PSYO 3044.03

RESTRICTIONS:

EXCLUSIONS: PSYO 3042.03

FORMATS: Lab

LAB HOURS PER WEEK:

NESC 3051 Sensory Neuroscience I Vision

CREDIT HOURS: 3

This course examines the neural basis for the perception of light, colour, movement, depth, and form. The course covers developmental events important for vision, and the extent to which vision is constrained by anatomical and physiological development.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2007.03, NESC 2470.03/PSYO 2470.03 or PSYO 2770.03, and NESC 2150.03/PSYO 2150.03

CROSSLISTED: PSYO 3051.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

NESC 3052 Sensory Neuroscience II Hearing and Speech

CREDIT HOURS: 3

This course explores hearing at levels that include stimulus parameters and their psychophysical correlates, middle ear function, cochlear biophysics, central auditory neurophysiology, and principles of speech perception. We emphasize mechanisms of normal hearing and speech, but address pathology wherever it helps us understand the relation between neurophysiology and perception.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2007.03, and NESC 2470.03/PSYO 2470.03

CROSSLISTED: PSYO 3052.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

NESC 3100 Independent Research in Neuroscience I

CREDIT HOURS: 3

Primarily for Honours students wishing research experience. Requirements include a minimum grade of B in NESC 2000.03/PSYO 2000.03, a high level of performance in other Neuroscience courses, an overall B+ (GPA 3.30) average, and securing a faculty advisor to supervise the research project. SIGNATURE REQUIRED. Contact: pnistud@dal.ca

CALENDAR NOTES: This course must be taken in the same academic year as NESC 3101.03 and no credit can be given for one course without the other. The work undertaken in NESC 3101.03 should be a continuation of that initiated in NESC 3100.03. A grade will be given for NESC 3100.03 only after NESC 3101.03 is completed.

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2007.03, PSYO 2501.03, previous or concurrent enrolment in two other Psychology or Neuroscience 3000-level courses, and Coordinator's consent.

CROSSLISTED: PSYO 3100.03

RESTRICTIONS: Restricted to Neuroscience Majors and Honours Students

EXCLUSIONS: NESC 3001.03, NESC 3000.06

FORMATS: Lab | Experiential Learning

LAB HOURS PER WEEK:

NESC 3101 Independent Research in Neuroscience II

CREDIT HOURS: 3

Primarily for Honours students wishing research experience. Requirements include a minimum grade of B in NESC 2007.03, a high level of performance in other Neuroscience courses, an overall B+ (GPA 3.30) average, and securing a faculty advisor to supervise the research project. SIGNATURE REQUIRED. COORDINATOR: L. Phillmore

CALENDAR NOTES: This course must be taken in the same academic year as NESC 3100.03 and no credit can be given for one course without the other. The work undertaken in NESC 3101.03 should be a continuation of that initiated in NESC 3100.03. A grade will be given for NESC 3011.03 only after NESC 3012.03 is completed.

COREQUISITES:

PREREQUISITES: NESC 3100.03 and Coordinator's consent

CROSSLISTED: PSYO 3101.03

RESTRICTIONS: Restricted to Neuroscience Majors and Honours Students

EXCLUSIONS: NESC 3001.03, NESC 3000.06

FORMATS: Lab | Experiential Learning

LAB HOURS PER WEEK:

NESC 3131 Research Methods in Attention

CREDIT HOURS: 3

The methods, findings, and theories that underpin our understanding of attention (alertness, preparation, selection, and control of information processing) are covered. Behavioural and neuroscientific evidence as well as computational models are examined in the lectures. Laboratories emphasize behavioural methods used to isolate and reveal the components of attention.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2007.03, PSYO 2501.03, and NESC 2130.03/PSYO 2130.03 or NESC 2150.03/PSYO 2150.03

CROSSLISTED: PSYO 3131.03

RESTRICTIONS:

EXCLUSIONS: NESC 3130.06/PSYO 3130.06

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

NESC 3132 Research Methods in Visual Cognition

CREDIT HOURS: 3

Visual cognition is the study of how we extract meaning from our visual environment and use it to direct our behaviour. Emphasis is placed on object, face, and word recognition as revealed by normal behaviour, and by neuroimaging techniques and neuropsychological studies of brain-damaged individuals who have lost these recognition abilities.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2007.03, PSYO 2501.03, and NESC 2130.03/PSYO 2130.03 or NESC 2150.03/PSYO 2150.03

CROSSLISTED: PSYO 3132.03

RESTRICTIONS:

EXCLUSIONS: NESC 3130.03/PSYO 3130.06

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

NESC 3133 Research Methods in Memory

CREDIT HOURS: 3

This course examines human memory from the perspective of cognitive psychology and, to a lesser extent, cognitive neuroscience. Lectures emphasize cognitive approaches to the study of memory with an explicit focus on empirical research methods, data, and interpretation of results.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2007.03, PSYO 2501.03, and NESC 2130.03/PSYO 2130.03

CROSSLISTED: PSYO 3133.03

RESTRICTIONS:

EXCLUSIONS: NESC 3130.03/PSYO 3130.06

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

NESC 3134 Research Methods in Psycholinguistics

CREDIT HOURS: 3

Provides hands-on experience with various methodologies employed in the study of language processing, and uses these to explore topics in psycholinguistics in greater depth. Methods covered may include reaction time, priming, self-paced reading, computational modeling, corpus-based research, and event-related brain potentials. Students serve as experimenters and participants in class experiments.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2007.03, PSYO 2501.03, and NESC 3190.03/PSYO 3190.03

CROSSLISTED: PSYO 3134.03

RESTRICTIONS:

EXCLUSIONS: NESC 3130.06/PSYO 3130.06

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

NESC 3137 Research Methods in Cognitive Neuroscience

CREDIT HOURS: 3

An overview of neuroimaging and other techniques of cognitive neuroscience (including fMRI, ERP, and others) focusing on how they work, how they are applied, and their inherent limitations. Labs include experience collecting and analyzing ERP data, demonstrations of fMRI scanning, and analysis of fMRI data.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2007.03, PSYO 2501.03, and NESC 2130.03/PSYO 2130.03

CROSSLISTED: PSYO 3137.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

NESC 3161 Measuring Behaviour

CREDIT HOURS: 3

Measuring behaviour is essential in the study of ethology, behavioural neuroscience, developmental, social and clinical psychology. The function of this laboratory course is to teach methods of observing and scoring behavior using qualitative and quantitative methods. Sampling methods, behaviour description and analysis will be done in laboratory and naturalistic settings.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2007.03

CROSSLISTED: PSYO 3161.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lab

LAB HOURS PER WEEK:

NESC 3162 Advanced Animal Behaviour: Theories and Applications

CREDIT HOURS: 3

This course focuses on advanced theories and applications of animal behaviour, with a focus on proximate, integrative and applied questions. It offers a more in-depth analysis of topics covered in NESC/PSYO 2160.03 and explores trends and issues in contemporary ethology, animal psychology and behavioural ecology.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2007 or BIOL 3062.03 or BIOL 3630.03, and NESC 2160.03/PSYO 2160.03

CROSSLISTED: PSYO 3162.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

NESC 3165 Neuroethology

CREDIT HOURS: 3

Neuroethology explores how assemblies of neurons work together to produce behaviour. The course typically uses a mix of simple model systems, including live animals (e.g., earthworms), virtual systems, and robotics to examine how nervous systems produce behaviour.

CALENDAR NOTES: All experiments in the accompanying lab involve invertebrates. Students are required to handle invertebrates during the lab.

COREQUISITES:

PREREQUISITES: NESC 2570.03/PSYO 2570.03, and either PSYO 2000.03 or NESC 2000.03 or BIOL 2020.03

CROSSLISTED: PSYO 3165.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lab

LAB HOURS PER WEEK:

NESC 3170 Hormones and Behaviour

CREDIT HOURS: 3

This course examines how chemical signals of the neural, endocrine, and immune systems interact to influence the brain and behaviour and how neurotransmitters, cytokines, and hormones control neural and behavioural development, sexual, aggressive, and maternal behaviour. Hormone receptors in the brain, reproduction, puberty, brain sex differences, and stress are also examined.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: NESC 2470.03/PSYO 2470.03 or PHYL 2041.03

CROSSLISTED: PSYO 3170.03

RESTRICTIONS:

EXCLUSIONS: NESC 2170.03/PSYO 2170.03

FORMATS:

LAB HOURS PER WEEK:

NESC 3180 Psychoneuroimmunology/Ecological Immunology

CREDIT HOURS: 3

Our behaviour can influence how well we resist disease, and infection can alter behaviour. This course examines how immune systems and nervous systems interact in both vertebrates and invertebrates. Evolutionary forces that have led to the existence of these interactions are also examined.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 1010.03 or BIOL 1020.03 and BIOL 1011.03 or BIOL 1021.03, and one of NESC 2470.03/PSYO 2470.03 or PSYO 2770.03 or PHYL 2041.03 or MICI 2100.03; or BIOL 2020.03

CROSSLISTED: PSYO 3180.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

NESC 3190 Psycholinguistics

CREDIT HOURS: 3

Explores the cognitive and neural bases of human language processing. Topics include: human language and other communication systems; phonology; morphology; semantics; syntax; discourse; first and second language acquisition; relationship of language to general cognitive functions such as music and mathematics; signed languages such as American Sign Language, and non-linguistic gesture.

CALENDAR NOTES:

COREQUISITES:
PREREQUISITES: PSYO 2000.03 or NESC 2007.03, and NESC 2130.03/PSYO 2130.03
CROSSLISTED: PSYO 3190.03
RESTRICTIONS:
EXCLUSIONS: NESC 2190.03/PSYO 2190.03
FORMATS: Lecture
LAB HOURS PER WEEK:

NESC 3227 Principles of Human Neuropsychology

CREDIT HOURS: 3
Clinical neuropsychologists study the organization of cognitive, emotional, and social functions in the brain to understand how brain damage alters human behaviour across the lifespan. We examine how clinicians diagnose and rehabilitate persons with brain diseases and disorders. Assignments emphasize application of textbook/lecture-based knowledge, critical thinking, and group presentation skills.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: NESC 2470.03/PSYO 2470.03 or PSYO 2770.03 or PHYL 2041.03, NESC/PSYO 2130 is recommended
CROSSLISTED: PSYO 3227.03
RESTRICTIONS:
EXCLUSIONS:
FORMATS: Lecture
LAB HOURS PER WEEK:

NESC 3237 Drugs and Behaviour

CREDIT HOURS: 3
An introduction to behavioural psychopharmacology. The lectures involve basic anatomy, physiology, and chemistry of the nervous system. Behavioural effects and underlying mechanisms of various psychoactive drugs are discussed. Specific topics covered are alcohol, tobacco, amphetamines, cocaine, opiates, hallucinogens, tranquilizers, and antipsychotic drugs.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: PSYO 2000.03 or NESC 2007.03, and one of NESC 2470.03/PSYO 2470.03, NESC 2570.03/PSYO 2570.03, or PSYO 2770.03
CROSSLISTED: PSYO 3237.03
RESTRICTIONS:
EXCLUSIONS:
FORMATS: Lecture
LAB HOURS PER WEEK:

NESC 3260 Biological Rhythms

CREDIT HOURS: 3
Daily (circadian) clocks generate rhythms in many functions, including sleep, reproduction, and intellectual performance. This course examines the nature of these biological clocks, their neural mechanisms, and their roles in regulating sleep and other aspects of physiology and in pathological conditions, including sleep disorders, jet lag, and psychiatric disorders.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: PSYO 2000.03 or NESC 2007.03, or BIOL 1010.03 or BIOL 1020.03 and BIOL 1011.03 or BIOL 1021.03, and NESC 2470.03/PSYO 2470.03 or PSYO 2770.03
CROSSLISTED: PSYO 3260.03
RESTRICTIONS:
EXCLUSIONS:
FORMATS: Lecture
LAB HOURS PER WEEK:

NESC 3264 The Science of Sleep

CREDIT HOURS: 3
This course reviews the history, methods and results of the scientific study of sleep. Topics include: circadian and homeostatic regulation; developmental and cultural impacts; normal and abnormal function of neural and other control mechanisms; effects of sleep loss on performance and health; theories of the functions of sleep.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2007.03, and either NESC 2470.03/PSYO 2470.03 or PSYO 2770.03; OR BIOL 2020.03

CROSSLISTED: PSYO 3264.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

NESC 3270 Developmental Neuroscience

CREDIT HOURS: 3

This course presents the fundamentals of development in complex and simple nervous systems. Cell differentiation, pattern regulation, proliferation, migration, and circuit development are discussed. Special attention is given to later developmental events such as neuronal growth cones, cell death, growth factors, neuron-target interactions, and synapse formation.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2007.03, NESC 2470.03/PSYO 2470.03 and NESC 2570.03/PSYO 2570.03

CROSSLISTED: PSYO 3270.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

NESC 3370 Neuroscience Laboratory I

CREDIT HOURS: 3

Introduction to several neurophysiological techniques used in contemporary neuroscience, employing extracellular and intracellular electrical recording and stimulation methods on nervous system preparations, both sensory and motor. After introductory instruction, students in groups of 2 or 3 get to perform quite sophisticated practical experiments themselves, enabled by computer-based data acquisition.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2007.03, NESC 2470.03/PSYO 2470.03 and NESC 2570.03/PSYO 2570.03

CROSSLISTED: PSYO 3370.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lab

LAB HOURS PER WEEK:

NESC 3371 Neuroscience Laboratory II

CREDIT HOURS: 3

Introduction to several techniques used in contemporary neuroscience. Students work under supervision in groups of 2 or 3 in regular labs that introduce neuroanatomical analyses using the following: Golgi impregnation, immunocytochemistry, dye-tracing of connections, electronmicroscopy of the retina, and neurotransmitter determinations using HPLC.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2007.03, NESC 2470.03/PSYO 2470.03 and NESC 2570.03/PSYO 2570.03

CROSSLISTED: PSYO 3371.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lab

LAB HOURS PER WEEK:

NESC 3440 Neuroanatomy

CREDIT HOURS: 3

This is a survey of the structure and function of the human central nervous system (CNS, the brain and spinal cord). The laboratory component provides the opportunity to dissect the human brain and to study the microscopic anatomy of the CNS. This course provides the lecture and laboratory component for the graduate course ANAT 5100 Human Neuroanatomy. ORGANIZER: W. Baldrige

CALENDAR NOTES:

Ocean Sciences

Ocean Sciences

Location:
Life Sciences Centre
Department of Oceanography
1355 Oxford Street
PO BOX 15000
Halifax NS
B3H 4R2

Phone Number: (902) 494-3557
Fax Number: (902) 494-3877
Email Address: oceanography@dal.ca
Website: www.dal.ca/oceanography

Introduction

Ocean Sciences includes the study of the physics, biology, geology, chemistry, and meteorology of the marine environment. Topic areas include ocean currents, waves, tides, marine sediments, oceanic crustal structure, nutrient cycling, acoustics, ocean-atmosphere coupling, biological production, marine biodiversity, and seawater properties, among others. Students enrolled in the Ocean Sciences program will be educated in the core oceanographic sub-disciplines of physical, geological, chemical, and biological oceanography, while also being exposed to issues in marine policy, law, and management. Graduates of the Ocean Sciences program will have gained an appreciation of the interdisciplinary and collaborative approaches often required to arrive at effective solutions to environmental problems relating to the oceans. They will have developed strong quantitative and practical skills, as well as a breadth of knowledge across ocean science disciplines. Ocean scientists are employed in research laboratories, universities, government agencies, and private industry. Career paths include environmental prediction, environmental monitoring and assessment, marine technology, marine surveying, marine resource use and extraction, and marine conservation.

NOTE: Not all courses are offered every year. Please consult the current timetable for this year's offerings.

Degree Programs

The Department of Oceanography offers the following degree programs in Ocean Sciences:

- [BSc \(120 credit hour\) Honours \(Concentrated\)](#)*
- [BSc \(120 credit hour\) Combined Honours](#)*
- [BSc \(120 credit hour\) Major](#)*
- [BSc \(120 credit hour\) Double Major](#)*
- [Minor in Ocean Sciences](#)

* May be combined with Minor programs from other disciplines

NOTE: There is no 90 credit hour (3 year) degree program in Ocean Sciences.

Departmental Requirements for these programs are described below. In addition to departmental requirements, students must satisfy the requirements outlined in the [Academic Regulations](#) and the [College of Arts and Science Degree Requirements](#) sections.

A student is governed by the academic regulations in place at the time of initial enrolment, as long as the degree is completed within the time permitted (10 years). Subsequent changes in regulations shall apply only if the student so elects. Student applying the old academic regulations should consult the calendar of the appropriate year.

Students should plan their programs of study carefully and are strongly encouraged to do so in consultation with an Ocean Sciences undergraduate academic advisor.

Students who participated in the Integrated Science Program in their first year should consult the Undergraduate Calendar for first year course equivalencies. The following options fulfill the first year requirements for any Ocean Sciences program:

- SCIE 1515.36
- SCIE 1520.30
- SCIE 1530.27
- SCIE 1540.27, MATH 1000.03/MATH 1010.03 and PHYC 1300.06 or PHYC 1310.03/PHYC 1320.03
- SCIE 1505.18, Option A or B (MATH 1000.03/MATH 1010.03, PHYC 1300.06 or PHYC 1310.03/PHYC 1320.03)

Taggart, C. T., BSc (Carleton), MSc (York), PhD (McGill)

BSc (120 credit hour) Concentrated Honours in Ocean Sciences

Students who want a challenging program that results in a broad and in-depth background in Ocean Sciences, and includes an independent research experience, may want to enroll in an Honours program. Students interested in eventually pursuing graduate studies are particularly encouraged to consider Honours. Honours students complete a minimum of 54 credit hours above the 1000 level in Ocean Sciences with a minimum GPA of 3.3 and write a research-based Honours thesis. The Honours Qualifying Examination requirement is satisfied through completion of OCEA 4201.03 and OCEA 4202.03.

Admission to Honours

Students considering Honours should consult with an Ocean Sciences Honours Advisor early in their studies.

Departmental Requirements

In addition to fulfilling the requirements outline in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#), students in a Concentrated Honours program in Ocean Sciences must complete the following courses:

1000 level

- PHYC 1190.03/PHYC 1290.03: Introduction to Physics or PHYC 1310.03/PHYC 1320.03 (or PHYC 1300.06): Physics In and Around You
- MATH 1000.03: Differential and Integral Calculus I/MATH 1010.03: Differential and Integral Calculus II
- MATH 1060.03/STAT 1060.03: Introductory Statistics for Science and Health Sciences or MATH 2060.03/STAT 2060.03: Introductory Probability & Statistics
- Any two of the following three course sequences: BIOL 1010.03/BIOL 1011.03: Principles of Biology, CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity/CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium, EARTH 1080.03: Geology I/ERTH 1090.03: Geology II

OR Integrated Science Program (options above)

A "B+" average (3.3) must be attained in the following 2000, 3000, and 4000 level courses.

2000 level

- OCEA 2001.03 and OCEA 2002.03: The Blue Planet (minimum grade of "B")
- OCEA 2020.03: Tools and Concepts in Ocean Sciences I/OCEA 2021.03: Tools and Concepts in Ocean Sciences II (minimum grade of "B")

3000 and 4000 level

- OCEA 3003.03: Introduction to Field Oceanography
- A minimum of six credit hours each from three of the four Ocean Science areas (18 credit hours total). See [Ocean Science Areas](#).
- One additional six credit hours from any of the four Ocean Science areas.
- OCEA 3001.03: Introduction to Physical Oceanography or OCEA 4120.03: Physical Oceanography must be included in one of the preceding two requirements.
- OCEA 4000.03: Oceans and Global Change

- OCEA 4401.03: Marine Management I/OCEA 4402.03: Marine Management II
- OCEA 4201.03 and OCEA 4202.03: Honours Research

BSc (120 credit hour) Combined Honours in Ocean Sciences and another subject

Students who wish to study Ocean Sciences in conjunction with another subject may wish to pursue a Combined Honours degree program. The other subject may be any discipline from the Faculty of Science, the Faculty of Arts and Social Sciences, the Faculty of Computer Science, or the College of Sustainability. Ocean Sciences may be the primary subject (defined as the subject with the larger number of honours credits), or the secondary subject.

Students planning to enroll in a Combined Honours program should consult with academic advisors from both programs early in their studies. The same standards and conditions for admission apply as for entry into a Concentrated Honours program (see above). In addition, students must have their program of study approved by Academic Advisors in both subject areas. Students must complete an Honours Qualifying Examination in one of the two subject areas, a requirement normally completed in the primary subject area. For Ocean Sciences, this requirement is satisfied through OCEA 4201.03 and OCEA 4202.03.

Departmental Requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#), students in a BSc or BA Combined Honours program in Ocean Sciences and another subject must complete the following:

Ocean Sciences as the primary subject

1000 level

- PHYC 1190.03/PHYC 1290.03: Introduction to Physics or PHYC 1310.03/PHYC 1320.03 Physics In and Around You (or PHYC 1300.06)
- MATH 1000.03: Differential and Integral Calculus I/MATH 1010.03: Differential and Integral Calculus II
- MATH 1060.03/STAT 1060.03: Introductory Statistics for Science and Health Sciences or MATH 2060.03/STAT 2060.03: Introductory Probability & Statistics
- Any two of the following three course sequences: BIOL 1010.03/BIOL 1011.03: Principles of Biology, CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity/CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium, EARTH 1080.03: Geology I/ERTH 1090.03: Geology II

OR Integrated Science Program (options above)

A “B+” average (3.3) must be attained in the following 2000-, 3000- and 4000- courses.

2000 level

- OCEA 2001.03 and OCEA 2002.03: The Blue Planet (minimum grade of "B")
- OCEA 2020.03: Tools and Concepts in Ocean Sciences I/OCEA 2021.03: Tools and Concepts in Ocean Sciences II (minimum grade of "B")

3000 and 4000 level

- OCEA 3003.03: Introduction to Field Oceanography
- OCEA 3001.03: Introduction to Physical Oceanography or OCEA 4120.03: Physical Oceanography
- Six credit hours selected from: OCEA 3002.03: Introduction to Chemical Oceanography, OCEA 4110.03: Geological Oceanography, OCEA 4140.03: Introduction to Biological Oceanography
- An additional nine credit hours from the Ocean Science areas. See [Ocean Science Areas](#).

- OCEA 4000.03: Oceans and Global Change
- OCEA 4401.03: Marine Management I/OCEA 4402.03: Marine Management II
- OCEA 4201.03 and OCEA 4202.03: Honours Research

Ocean Sciences as the secondary subject

1000 level

- PHYC 1190.03/PHYC 1290.03 or PHYC 1310.03/PHYC 1320.03 (or PHYC 1300.06)
- MATH 1000.03
- MATH 1060.03/STAT 1060.03 or MATH 2060.03/STAT 2060.03
- Any two of the following three course sequences: BIOL 1010.03/BIOL 1011.03, CHEM 1011.03/CHEM 1012.03, EARTH 1080.03/ERTH 1090.03

OR Integrated Science Program (options above)

A “B+” average (3.3) must be attained in the following 2000-, 3000- and 4000- courses.

2000 level

- OCEA 2001.03 and OCEA 2002.03: The Blue Planet
- OCEA 2020.03: Tools and Concepts in Ocean Sciences I/OCEA 2021.03: Tools and Concepts in Ocean Sciences II

3000 and 4000 level

- OCEA 3003.03: Introduction to Field Oceanography
- A minimum of six credit hours each from three of the four Ocean Sciences areas (18 credit hours total). See [Ocean Sciences areas](#).
- OCEA 4000.03: Oceans and Global Change

BSc (120 credit hour) Major in Ocean Sciences

The 120 credit hour Major is suited to students who want to focus on Ocean Sciences, but wish to have a program that is somewhat less constrained than the Honours program. Ocean Science Majors complete a minimum of 42 credit hours in OCEA courses. Research and other experiential learning opportunities are available through laboratories, special topics and experiential courses.

Departmental Requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#), students in a Major program in Ocean Sciences must complete the following courses:

1000 level

- PHYC 1190.03/PHYC 1290.03: Introduction to Physics or PHYC 1310.03/PHYC 1320.03 (or PHYC 1300.06): Physics In and Around You
- MATH 1000.03: Differential and Integral Calculus I/MATH 1010.03: Differential and Integral Calculus II
- MATH 1060.03/STAT 1060.03: Introductory Statistics for Science and Health Sciences or MATH 2060.03/STAT 2060.03: Introductory Probability & Statistics
- Any two of the following three course sequences: BIOL 1010.03/BIOL 1011.03: Principles of Biology, CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity/CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium, EARTH 1080.03: Geology I/ERTH 1090.03: Geology II

OR Integrated Science Program (options above)

2000 level

- OCEA 2001.03 and OCEA 2002.03: The Blue Planet
- OCEA 2020.03: Tools and Concepts in Ocean Sciences I/OCEA 2021.03: Tools and Concepts in Ocean Sciences II

3000 and 4000 level

- OCEA 3003.03: Introduction to Field Oceanography
- A minimum of six credit hours each from three of the four Ocean Science areas (18 credit hours total). See [Ocean Science Areas](#).
- OCEA 4000.03: Oceans and Global Change
- OCEA 4401.03: Marine Management I/OCEA 4402.03: Marine Management II

BSc or BA (120 credit hour) Double Major in Ocean Sciences and another subject

The Double Major degree program allows students to combine a study of Ocean Sciences with another subject. The other subject may be any discipline from the Faculty of Science, the Faculty of Arts and Social Sciences, the Faculty of Computer Science or the College of Sustainability. Ocean Sciences may be the primary subject (defined as the subject with the larger number of credits), or the secondary subject.

Departmental requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#), students must fulfill the requirements listed for the BSc (120 credit hour) Major in Ocean Sciences.

The Ocean Science course requirements for students in a Double Major program, with Ocean Sciences as the primary or secondary subject, are the same as for the Major program (above).

Minor in Ocean Sciences

This minor is available to students registered in a 120 credit hour Bachelor of Applied Computer Science, Bachelor of Arts, Bachelor of Commerce, Bachelor of Community Design, Bachelor of Computer Science, Bachelor of Informatics, Bachelor of Management, Bachelor of Music, Bachelor of Science or Bachelor of Science (Medical Sciences) program.

Requirements

- A minimum of 18 to a maximum of 36 credit hours in Ocean Sciences courses at the 2000 level or higher.

Please note that there are prerequisite requirements for entry into upper level Ocean Sciences courses (see [Department of Oceanography course listings](#)).

Contact [Ocean Sciences](#) for more information.

Ocean Science Areas

NOTE: Classes marked with an asterisk* are required in that area.

Physical Oceanography

OCEA 3001.03 and/or OCEA 4120.03*, OCEA 4210.03, OCEA 4220.03, OCEA 4222.03, OCEA 4311.03, OCEA 4411.03, OCEA 4412.03, OCEA 4505.03, OCEA 4520.03, OCEA 4541.03, OCEA 4550.03

Biological Oceanography

OCEA 3685.03, OCEA 4140.03*, OCEA 4160.03, OCEA 4230.03, OCEA 4330.03, OCEA 4335.03, OCEA 4370.03, OCEA 4380.03, OCEA 4665.03

Chemical Oceanography

OCEA 3002.03*, OCEA 3420.03 (NOTE: this course may fulfill a three credit hour requirement in either this Ocean Science Area or the Geological Oceanography Ocean Science Area, but not both), OCEA 4130.03, OCEA 4595.03

Geological Oceanography

OCEA 3004.03, OCEA 3420.03 (NOTE: this course may fulfill a three credit hour requirement in either this Ocean Science Area or the Chemical Oceanography Ocean Science Area, but not both), OCEA 4110.03*, OCEA 4115.03, OCEA 4470.03, OCEA 4480.03

See Oceanography section for course descriptions.

Co-op, Minors, Certificates and Engineering Concurrent Programs for Students

Minors available to students in Ocean Sciences

Minor programs allow students to develop subject specialties in addition to their major or honours subjects. Minors in other subjects are normally added to 120 credit hour BSc programs

Students in a BSc program in Ocean Sciences may choose to include a Minor selected from the [list of approved Minors](#). Courses counted toward a Major or Honours subject cannot be used to fulfill the requirements of a Minor program.

Certificates

In combination with a BSc in Ocean Sciences, students may obtain one or more Certificates. A Certificate indicates that a student has achieved a certain level of proficiency in a given area or subspecialty. Courses counted toward a Major, Honours or Minor subject may also be used to fulfill the requirements of a Certificate. Students must apply to the Certificate Coordinator to be considered for a Certificate. Certificates are awarded upon graduation and are noted on the student's academic transcript.

A complete list of Faculty of Science Certificates and requirements can be found at the beginning of the [Faculty of Science](#) section. Students may also work toward obtaining Certificates offered by other Faculties; some of these are listed in the [College of Arts and Science Degree Requirements](#) section.

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are available to students in the second, third, and fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not take both courses as designated.

Not all courses are offered each year. Please consult the current timetable for this year's offering. For further information please contact the department.

Course Descriptions

OCEA 1001 Conversations with Ocean Scientists: Part I

CREDIT HOURS: 3

Students engage with working ocean scientists about their research, its relevance, and how to communicate science to different audiences. In addition to regular writing exercises that include journaling, blogging, and lab reporting, students compose a research paper and follow it through the process of submission and peer-review for an in-class journal.

CALENDAR NOTES: College of Arts & Science writing requirement fulfilled if OCEA 1001 and OCEA 1002 are completed in the same academic year

COREQUISITES: MATH 1000.03 or MATH 1215.03 or MATH 1060.03/STAT 1060.03

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: OCEA 1000.06

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

OCEA 1002 Conversations with Ocean Scientists: Part II

CREDIT HOURS: 3

Students engage with working ocean scientists about their research, its relevance, and how to communicate science to different audiences. In addition to regular writing exercises that include journaling, blogging, and lab reporting, students compose a research paper and follow it through the process of submission and peer-review for an in-class journal.

CALENDAR NOTES: College of Arts & Science writing requirement fulfilled if OCEA 1001 and OCEA 1002 are completed in the same academic year

COREQUISITES:

PREREQUISITES: OCEA 1001.03 (must have been taken in same academic year)

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: OCEA 1000.06

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

OCEA 2001 The Blue Planet I

CREDIT HOURS: 3

This course provides a general survey of oceanography. It is designed to develop an understanding of the ocean and of the science of oceanography. Students learn about the geological, chemical, physical and biological processes at work in the sea.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: OCEA 2000.06, OCEA 2850.06, OCEA 2851.03/OCEA 2852.03

FORMATS: Lecture

LAB HOURS PER WEEK:

OCEA 2002 The Blue Planet II

CREDIT HOURS: 3

This course provides a general survey of biological oceanography. Students learn about marine biology and marine ecosystems. Consideration is also given to human impacts.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: OCEA 2001.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: OCEA 2000.06, OCEA 2850.06, OCEA 2851.03/OCEA 2852.03

FORMATS: Lecture

LAB HOURS PER WEEK:

OCEA 2020 Tools and Concepts in Ocean Sciences I

CREDIT HOURS: 3

Students gain practical insights into oceanographic concepts introduced in OCEA 2001.03/2002.03 through lab exercises. Labs focus on navigation and position, instruments and calibration, ocean optics and acoustics, water movement, and basic marine chemistry. Labs involve data acquisition and analyses to develop quantitative skills. Students will become familiar with the 'R' programming language.

CALENDAR NOTES:

COREQUISITES: OCEA 2001.03; or permission of instructor.

PREREQUISITES: MATH 1000.03; MATH 1060.03/STAT 1060.03 (or MATH 2060.03/STATS 2060.03); PHYC 1190/1290.03 (or PHYC 1310.03/1320.03 or PHYC 1300.06); at least one of: CHEM 1011.03/1012.03, EARTH 1080.03/1090.03, or BIOL 1010/1011 or (BIOL 1020.03/1021.03); or permission of instructor.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lab

LAB HOURS PER WEEK:

OCEA 2021 Tools and Concepts II

CREDIT HOURS: 3

Students gain practical insights into oceanographic concepts introduced in OCEA 2001/2002 through lab exercises. Labs focus on particle dynamics and life in the ocean and involve data acquisition and analysis to develop quantitative skills. At the end of the course, students observe a mesocosm to synthesize concepts from both OCEA 2020.03 and OCEA 2021.03. Students will continue to use the 'R' programming language.

CALENDAR NOTES:

COREQUISITES: OCEA 2002.03; or permission of instructor

PREREQUISITES: OCEA 2020.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lab

LAB HOURS PER WEEK:

OCEA 2800 Climate Change

CREDIT HOURS: 3

See course description for PHYC 2800.03 in the Physics and Atmospheric Science section of this calendar.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES:

CROSSLISTED: PHYC 2800.03, GEOG 2800.03

RESTRICTIONS:

EXCLUSIONS: ECON2850.06, PHYC2850.06

FORMATS:

LAB HOURS PER WEEK:

OCEA 3001 Introduction to Physical Oceanography

CREDIT HOURS: 3

This course introduces Ocean Physics, focusing on issues of interest to undergraduates in ocean-related disciplines. The approach is to bind facts together with ideas, often starting with thought experiments and proceeding to simple mathematical models.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: MATH 1000.03 or permission of Instructor

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

OCEA 3002 Introduction to Chemical Oceanography

CREDIT HOURS: 3

This course provides students with a basic understanding of the composition of seawater and the processes that leads to this composition. This understanding is both qualitative and quantitative through the use of thermodynamic, kinetic and box models to describe the balances that produce the observed chemical distributions.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 1011.03 and CHEM 1012.03 (or equivalent), OCEA 2001.03 and OCEA 2002.03 (or OCEA 2000.06); OCEA 2020.03 and OCEA 2021.03; or permission of instructor

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: OCEA 3170

FORMATS: Lecture

LAB HOURS PER WEEK:

OCEA 3003 Introduction to Field Oceanography

CREDIT HOURS: 3

This course explores interrelationships between living organisms in the sea and the ocean environment. Biological processes are introduced in the context of the physical and chemical oceanography. The emphasis is on sea-going field work on day trips in local marine waters and hands-on laboratory investigation.

CALENDAR NOTES: The OCEA 3003 requirement could be waived in light of equivalent course workload at another institution.

COREQUISITES:

PREREQUISITES: OCEA 2001.03 and OCEA 2002.03 (or OCEA 2000.06)

CROSSLISTED: MARI 3003.03, BIOL 3003.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

OCEA 3004 The Last Billion Years

CREDIT HOURS: 3

This course examines major events in Earth history. The geological and geochemical evidence will be described, and the hypothesized causes of the events will be examined. The goal of this course is to develop an understanding of the functioning of the earth/ocean/atmosphere system, how it has reacted to perturbations in the past and how it will react to current perturbations in the future.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: OCEA 2001.03 and OCEA 2002.03 (or OCEA 2000.06); or EARTH 1080.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

OCEA 3420 Geochemistry of Aquatic Environments

CREDIT HOURS: 3

This course is an introduction to the governing principles and processes of aquatic geochemistry. Specific topics will include physical chemistry of natural waters, kinetics of geochemical reactions, the hydrologic cycle, the carbonate system and pH, redox reactions, weathering and mineral-solution equilibria, controls on the composition of rainwater, rivers, and oceans.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: CHEM 1011.03/1012.03 or equivalent and EARTH 1080.03/1090.03

CROSSLISTED: EARTH 3420.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

OCEA 4000 Oceans and Global Change

CREDIT HOURS: 3

This course examines the role and response of the Oceans to global change, including alterations in currents and circulation, increases in sea level and storm surges, changes in ocean chemistry, modification to the types and patterns of sediment deposition, alterations in the abundances and distributions of organisms, and overall productivity. The course will discuss means of predicting these changes and their effects.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: OCEA 3001.03, OCEA 3002.03, OCEA 4110.03, OCEA 4140.03 or permission of Instructor

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

OCEA 4110 Geological Oceanography

CREDIT HOURS: 3

This course provides a broad survey of geology and geophysics as they apply to the oceans. The course content covers methods and observations with quantitative applications to an understanding of marine geophysical and geological processes. The topics covered include the origin of ocean basins, plate tectonics, heat flow, gravity, and magnetism (1/3 of the course); patterns and processes of sediment transport and deposition, and the paleoceanographic reconstruction of past climates (2/3 of the course).

CALENDAR NOTES: Training in calculus and statistics will prove to be advantageous to the student's outcome.

COREQUISITES:

PREREQUISITES: OCEA 2001.03 and OCEA 2002.03 (or OCEA 2000.06), OCEA 2020.03, OCEA 2021.03, and EARTH 1080.03; or permission of instructor.

CROSSLISTED: OCEA 5110.03, EARTH 4110.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

OCEA 4115 Micropaleontology and Global Change

CREDIT HOURS: 3

See course description for EARTH 4502 in the Earth Sciences section of this calendar.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES:

CROSSLISTED: EARTH 4502.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

OCEA 4120 Physical Oceanography

CREDIT HOURS: 3

This course introduces undergraduate students to the physical properties and dynamics of the oceans. Topics range from global circulation down to the small scales of turbulence. Fact and theory are blended throughout. Quantitative problem solving is emphasized in assignments.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: MATH 1000.03, MATH 1010.03, classic calculus or equivalent, and permission of the instructor

CROSSLISTED: OCEA 5120.03

RESTRICTIONS: Third- and fourth-year students only

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

OCEA 4130 Chemical Oceanography

CREDIT HOURS: 3

This course covers the major and minor constituents of sea water, the controls on its chemical composition, nutrient cycling, gas exchange and the influence of the oceans on atmospheric chemistry. Other topics included are chemical tracers, and radiochemical dating methods, stable isotope studies, chemical speciation and chemical models of sea water.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: OCEA 2001.03 and OCEA 2002.03 (or OCEA 2000.06), and OCEA 3002.03, or instructor's consent

CROSSLISTED: OCEA 5130.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

OCEA 4140 Biological Oceanography

CREDIT HOURS: 3

The goal is to describe how physical, chemical and biological processes interact to determine the species composition, biogeochemical activities, and trophic structure of marine communities. Outstanding problems currently facing biological oceanographers and earth systems scientists are discussed, as are current attempts and methodologies to address them.

CALENDAR NOTES: Biological oceanography is a quantitative science and extensive problem solving is required. Students should be competent in mathematics through calculus. Permission of instructor is required.

COREQUISITES:

PREREQUISITES: OCEA 2001.03 and OCEA 2002.03 (or OCEA 2000.06); OCEA 2020.03 and OCEA 2021.03; or permission of instructor

CROSSLISTED: OCEA 5140.03, BIOL 4661.03, 5661.03, MARI 4661.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

OCEA 4160 Fisheries Oceanography

CREDIT HOURS: 3

Oceanographic influences on ecology of marine fish: on population dynamics, distribution, abundance, reproduction, life history, feeding, growth, metabolism, mortality, and recruitment. Emphasis on contemporary hypotheses and primary literature and some on fishery management. Primary-publication-style research paper required. Competence with fundamental population dynamics, ecology, physical oceanography, mathematics, and statistical analyses expected.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: OCEA 2001.03 and OCEA 2002.03 (or OCEA 2000.06); BIOL 2060.03 or BIOL 3080.03 or equivalent; MATH 1060.03/STAT 1060.03 or STAT 2080.03 or MATH 2060.03/STAT 2060.03 or instructor's consent.

CROSSLISTED: BIOL 4369.03, MARI 4369.03, OCEA 5160.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

OCEA 4201 Honours Research - Part I

CREDIT HOURS: 3

This course is required for students enrolled in the Concentrated Honours in Ocean Sciences, and certain streams of the Combined Honours in Oceanography program. It consists of a research project under the supervision of a faculty member, and should include an original component in oceanography. Students are required to participate in weekly meetings of the class and make a presentation (oral or poster) at the annual CDOGS meeting in March.

CALENDAR NOTES: Credit can only be given for this course if OCEA 4201 and OCEA 4202 are completed in consecutive terms. Partial credit cannot be given for a single term.

COREQUISITES:

PREREQUISITES: Permission given by instructor.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: OCEA 4200.06

FORMATS:

LAB HOURS PER WEEK:

OCEA 4202 Honours Research - Part II

CREDIT HOURS: 3

This course is required for students enrolled in the Concentrated Honours in Ocean Sciences, and certain streams of the Combined Honours in Oceanography program. It consists of a research project under the supervision of a faculty member, and should include an original component in oceanography. Students are required to participate in weekly meetings of the class and make a presentation (oral or poster) at the annual CDOGS meeting in March.

CALENDAR NOTES: Credit can only be given for this course if OCEA 4201 and OCEA 4202 are completed in consecutive terms and partial credit cannot be given for a single term.

COREQUISITES:

PREREQUISITES: Permission given by instructor.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: OCEA 4200.06

FORMATS:

LAB HOURS PER WEEK:

OCEA 4210 Time Series Analysis in Oceanography and Meteorology

CREDIT HOURS: 3

See course description for STAT 4390.03 in the Statistics section of this calendar.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Instructor's consent

CROSSLISTED: STAT 4390.03

RESTRICTIONS:

EXCLUSIONS: STAT 5390.03, OCEA 5210.03

FORMATS: Lecture

LAB HOURS PER WEEK:

OCEA 4220 Numerical Modelling of Atmospheres and Oceans

CREDIT HOURS: 3

This course discusses numerical modelling techniques for simulating atmospheric and oceanic circulations. Material includes: review of governing equations; finite difference, finite element, and spectral methods; Eulerian, semi-implicit and semi-Lagrangian time integration techniques; accuracy and stability analyses; data assimilation and ensemble prediction methods; and boundary treatment for ocean models.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: 1000-level calculus course and instructor's consent

CROSSLISTED: OCEA 5220.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

OCEA 4221 Ocean Dynamics

CREDIT HOURS: 3

An advanced course for students in Physical Oceanography and Atmospheric Science that studies the basic equations governing rotating geophysical flows, plus applications. Topics include geostrophy, conservation of potential vorticity, quasi-geostrophic dynamics, geostrophic adjustment, response to surface forcing (steady and unsteady).

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES:

CROSSLISTED: OCEA 5221.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

OCEA 4222 Estuary, Coast and Shelf Dynamics

CREDIT HOURS: 3

This course discusses the physical processes that operate on continental shelves to create long waves, tides, tidal mixing, themohaline circulation, wind forcing, upwelling, etc. Both observations and models for these processes are discussed.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: OCEA 4120.03

CROSSLISTED: OCEA 5222.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

OCEA 4230 Biology of Phytoplankton

CREDIT HOURS: 3

This class presents the phytoplankton in the context of their evolutionary history and ecological diversity, with an emphasis on their adaptations and acclimation to different environments and their role in food webs and in biogeochemical cycling.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Instructor's consent

CROSSLISTED: BIOL 4662.03, OCEA 5230.03, MARI 4662.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

OCEA 4250 Acoustical Oceanography

CREDIT HOURS: 3

This class covers the basic theory of sound propagation and scattering in the ocean environment, and the applications to acoustic remote sensing of the ocean interior. Topics include: normal modes; ray theory; scattering from particles, bubbles and biota; sonar theory and operation.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: MATH 2001.03 and 2002.03 or equivalent and instructor's consent

CROSSLISTED: OCEA 5250.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

OCEA 4290 Advanced Chemical Oceanography

CREDIT HOURS: 3

This course presents research topics in chemical oceanography, taught as 3-4 self-contained modules. Examples include, the oceanic CO₂ system and its relation to climate change, chemical reactions in sediments, photochemistry in the upper ocean, and inferring the

chemistry of ancient oceans through the isotope record in sediments.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Students will have completed all required 3000 level courses in Oceanography, OCEA 4130, and have the consent of the instructor of this course.

CROSSLISTED: OCEA 5290.03

RESTRICTIONS: Open only to students enrolled in the combined Honours in Chemistry and Oceanography

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

OCEA 4301 Special Topics in Ocean Science

CREDIT HOURS: 3

This course provides upper level undergraduate students with the opportunity to study an area of Ocean Science that is not offered through the existing curriculum. Students consult with a faculty member to arrange the topic of study and together develop course proposal. The course proposal must be approved by the course coordinator before the student is permitted to register.

CALENDAR NOTES: Instructors are regular faculty members in the Department of Oceanography and serve as supervisors of the Special Topics course. A maximum of 3 credit hours can be taken as a Special Topics course. The Special Topics course cannot replace one of the required core OCEA courses. The course coordinator is the Chair of the Curriculum Committee or designate. The student, with approval from the instructor, must submit the the Registration Form and other documents to the course coordinator no later than 3 days after the start of the term in which the student wishes to register. For Registration Form and more information, please visit www.dal.ca/faculty/science/oceanography/programs.html

COREQUISITES:

PREREQUISITES: OCEA 2001.03, OCEA 2002.03, OCEA 2020.03, OCEA 2021.03, and at least two 3000-level OCEA course. An average grade of 'B' (GPA 3) must be attained in these OCEA courses. Signature required from the course coordinator.

CROSSLISTED:

RESTRICTIONS: Material produced during a Special Topics course cannot fulfill the requirements for an Honours thesis. For additional restrictions, please see <http://>

EXCLUSIONS: E3

FORMATS: Other (explain in comments)

LAB HOURS PER WEEK:

OCEA 4302 Independent Research in Ocean Science

CREDIT HOURS: 3

Students in their 3rd or 4th year of study conduct supervised, independent research in Ocean Science. The student and a faculty supervisor together develop a course outline, with a proposal for original research and the method of evaluation, including a formal research paper. The course outline must be approved by the course coordinator before the student is permitted to register. The course coordinator is the Chair of the Curriculum Committee or designate.

CALENDAR NOTES: This course builds on field work, lab experiment(s) or measurements, literature meta-analysis, and/or modeling exercise(s). The course is to be started and completed within one term. Supervisors are regular faculty in the department of Oceanography who conduct research in an area related to the course. A maximum of 3 credit hours can be taken as an Independent Research course. The Independent Research course cannot replace one of the required core OCEA courses. The student, with approval from the supervisor, must submit the the Registration Form and other documents to the course coordinator no later than 3 days after the start of the term in which the student wishes to register. For Registration Form and more information, please visit www.dal.ca/faculty/science/oceanography/programs.html

COREQUISITES:

PREREQUISITES: OCEA 2001.03, OCEA 2002.03, OCEA 2020.03, OCEA 2021.03, and at least one 3000-level OCEA course. An average grade of 'B' average (GPA 3) must be attained in these OCEA courses. Signature required from the course coordinator.

CROSSLISTED:

RESTRICTIONS: Material prepared for an Independent Research course cannot be used in an Honours thesis. Students cannot take OCEA 4302.03 and the Honours course (OCEA 4201.03 and OCEA 4202.03) in the same academic year. For additional restrictions, please see <http://>

EXCLUSIONS: E2

FORMATS: Other (explain in comments)

LAB HOURS PER WEEK:

OCEA 4311 Fluid Dynamics I

CREDIT HOURS: 3

An introduction to the theory of fluid dynamics, with some emphasis on geophysically important aspects. Contents: tensor

mathematics, flow kinematics, equations of motion, viscous flow, potential flow, convection, turbulence, and basic aerodynamics. Occasional reference will be made to current research topics, especially those in Physical Oceanography.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Intended for first-year graduate students in physical oceanography, but graduate students or senior undergraduates in Mathematics or Physics are invited to take it (subject to instructor approval)

CROSSLISTED: PHYC 4311.03, PHYC 5311.03, OCEA 5311.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

OCEA 4331 History of Marine Sciences

CREDIT HOURS: 3

In this course, we will trace the history of marine sciences from the ancients to the 20th century. Topics may include ancient cosmologies, voyages of discovery, ocean circulation, and a range of scientific perspectives and technological developments that have shaped human understanding of the oceans.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Instructor's consent

CROSSLISTED: BIOL 4664.03, OCEA 5331.03, SCIE 4001.03, HIST 3073.03, HSTC 3331.03, MARI 4664.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

OCEA 4370 Deep Sea Biology

CREDIT HOURS: 3

We focus on the biology of organisms inhabiting the deep sea: physiological adaptations to the physicochemical and geological environment; spatial and temporal distributions of biological assemblages; and regulatory factors of these assemblages, such as currents, food availability, reproduction and recruitment. Also, we delve into unique habitats, such as hydrothermal vents.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 2060.03, OCEA 2001.03 and OCEA 2002.03

CROSSLISTED: BIOL 4370.03, MARI 4370.03, OCEA 5370.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

OCEA 4380 Marine Modelling

CREDIT HOURS: 3

This course provides an overview of modelling techniques applied to biological and biogeochemical topics in oceanography, including the philosophy of modelling, population dynamics, linear and non-linear regression analysis, Principal Component Analysis, numerical approaches to solving differential equations, and visualization. All techniques are introduced with concrete examples and applied to specific problems.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: MATH 1000.03; MATH 1010.03; OCEA 2020.03; OCEA 2021.03; or permission of instructor.

CROSSLISTED: OCEA 5380.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

OCEA 4401 Marine Management I

CREDIT HOURS: 3

This course exposes students with a marine science background to the increasing need for marine scientists and ocean managers and

policy makers to work collaboratively to address the interdisciplinary nature of the problems confronting the world's oceans. This course is restricted to 4th year students with a marine science background.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: OCEA 2001.03 and OCEA 2002.03 (or OCEA 2000.06)

CROSSLISTED:

RESTRICTIONS: Restricted to 4th year students

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

OCEA 4402 Marine Management II

CREDIT HOURS: 3

Students focus on the linkages between ocean governance and ocean science to understand the role of marine science in informing and influencing decisions affecting coastal and marine space and resources at multiple geographic and jurisdictional scales. This course is restricted to 4th year students with a marine science background.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: OCEA 2001.03 and OCEA 2002.03 (or OCEA 2000.6); OCEA 4401.03

CROSSLISTED:

RESTRICTIONS: Restricted to 4th year students

EXCLUSIONS:

Introduction

How does the world work? What are the rules that govern how things happen? These are the questions that intrigue physicists who try to explain the great diversity of nature with the fewest and simplest hypotheses. They discover that there are underlying similarities between things that look very different on the surface. Good

physicists have the imagination to see these similarities, coupled with the understanding of the fundamentals of their science to determine the rules that govern the universe. Our programs are designed to allow you to learn physics in a systematic manner and understand how physics applies to the world around us.

Physicists are employed in many areas in universities, government departments and industry and are valued for their ability to discover and apply fundamental insights to a variety of situations.

This intellectual rigor can be applied in many fields beyond physics including meteorology, engineering, education, law, medicine, dentistry, health sciences, and business. Because practicing physicists often have knowledge of several fields, we have a number of combined programs with other science disciplines to provide that broader approach.

Our Honours program is our most comprehensive program aimed at those intending to become career physics specialists. Our various major and combined programs described below provide the opportunity to pursue a broad education in both physics and other areas.

First Year Courses

PHYC 1451/PHYC 1452 are general interest courses for BA students and are not acceptable as a prerequisites for further courses in physics. PHYC 1190/PHYC 1290, and PHYC 1310/PHYC 1320 both give a general introduction to physics, but each has its own particular approach and selection of topics.

PHYC 1190/PHYC 1290 is primarily for students intending to make a study of a physical science or engineering; it has regular labs, occasional tutorials, uses calculus, and is accepted as a prerequisite for advanced physics courses. Nova Scotia Grade XII Physics or its equivalent is a prerequisite. It is recommended that PHYC 1190/PHYC 1290 be taken consecutively, but PHYC 1190 is not a prerequisite for PHYC 1290.

PHYC 1310/PHYC 1320 is an introduction to physics that is oriented towards the health sciences and is primarily intended for students in biology, pre-medicine, pre-dentistry and allied health sciences. The course incorporates labs and tutorials, and is accepted as a prerequisite for advanced physics courses when MATH 1000.03 and MATH 1010.03 are taken concurrently. It is a good preparation for the Medical College Admission Test (MCAT). Nova Scotia Grade XII Physics or its equivalent is highly recommended.

Students who are participating in the Integrated Science Program, and are interested in continuing in Physics, should consult the Undergraduate Advisor.

Second Year Courses

There are five 2nd year core physics courses (PHYC 2050, PHYC 2140, PHYC 2150, PHYC 2510, PHYC 2515). These courses are also suitable for students in other disciplines who would like to enhance their knowledge of physics. In particular, PHYC 2150 provides an opportunity to gain more laboratory experience, which is extremely valuable in many jobs.

Third and Fourth Year Courses

Not all courses are offered each year. Students should take careful note of the year in which each of these courses is planned to be offered. This information can be found at the department website <http://www.physics.dal.ca>

Prizes are awarded to the top students in each year of the program. Please refer to [Awards](#).

Degree Programs

The Department of Physics and Atmospheric Science offers the following degree programs in Physics

- BSc or BA (120 credit hour) Honours (Concentrated)*
- BSc or BA (120 credit hour) Combined Honours*
- BSc or BA (120 credit hour) Major*
- BSc or BA (120 credit hour) Major combined with a Diploma in Meteorology*

- BSc or BA (120 credit hour) Double Major*
- BSc or BA (90 credit) Minor in Physics
- Minor in Physics
- One year Diploma in Meteorology

* BSc [Co-op option](#) available

* May be combined with Minor programs from other disciplines

Departmental requirements for each degree program can be seen by following the links in the menu to the right.

In addition to departmental requirements, students must satisfy the requirements outlined in the [Academic Regulations](#) and the [College of Arts and Science Degree Requirements](#) sections.

A student is governed by the academic regulations in place at the time of initial enrolment, as long as the degree is completed within the time permitted (10 years). Subsequent changes in regulations shall apply only if the student so elects. Student applying the old academic regulations should consult the calendar of the appropriate year.

Students should plan their programs of study carefully and are strongly encouraged to do so in consultation with a Physics undergraduate academic advisor.

BSc or BA (120 credit hour) Concentrated Honours in Physics

Students who want a challenging program resulting in a broad and in-depth background in Physics, including an independent research experience, may want to enroll in an Honours program. Students interested in eventually pursuing graduate studies are particularly encouraged to consider Honours. Honours students complete a minimum of 54 credit hours above the 1000 level in the Physics courses listed below with a minimum GPA of 3.0, and write a research-based Honours thesis. The thesis requirement is satisfied through completion of PHYC 4800.03/PHYC 4850.03.

A [Co-op option](#) is available for students enrolled in a BSc Concentrated Honours in Physics.

Admission to Honours

Students must apply for admission to Honours programs. Students considering Honours in Physics should consult with a Physics Undergraduate Advisor early in their second year.

Departmental requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a Concentrated Honours program in Physics must complete the following courses:

1000 level

- PHYC 1190.03/PHYC 1290.03: Introduction to Physics or PHYC 1310.03/PHYC 1320.03: Physics In and Around You
- MATH 1000.03: Differential and Integral Calculus I/MATH 1010.03: Differential and Integral Calculus II

- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity/CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium

Or Integrated Science Program (options above)

2000 level

- PHYC 2140.03: Physics Tools: Theory/PHYC 2150.03: Physics Tools: Experiment
- PHYC 2515.03: Modern Physics/PHYC 2510.03: Electricity and Magnetism
- MATH 2001.03: Intermediate Calculus I/MATH 2002.03: Intermediate Calculus II
- MATH 2030.03: Matrix Theory and Linear Algebra I/PHYC 2050.03: Computer Simulation in Science

3000 and 4000 level

- PHYC 3000.03: Experimental Physics I/PHYC 3010.03: Experimental Physics II
- PHYC 3640.03: Quantum Physics I/PHYC 3590.03: Advanced Classical Mechanics
- PHYC 3200.03: Thermodynamics/PHYC 3210.03: Statistical Mechanics
- MATH 3120.03: Differential Equations/PHYC 3100.03
- PHYC 4151.03: Quantum Physics II
- PHYC 4160.03: Mathematical Methods of Physics
- PHYC 4800.03/PHYC 4850.03: Honours Research Project
- An additional six credit hours of 3000 or 4000 level PHYC courses, other than PHYC 3160.03, PHYC 3170.03, PHYC 3330.03, PHYC 4540.03: Synoptic Meteorology I, PHYC 4550.03: Synoptic Meteorology II

* Up to 30 credit hours of general electives may be chosen from the Faculty of Engineering.

Honours Qualifying Exam

The Honours Qualifying Exam grade is the average of best ten grades obtained in 3000 and 4000 level Honours courses.

BSc or BA (120 credit hour) Combined Honours in Physics and another subject

Students who wish to study Physics in conjunction with another subject may wish to pursue a Combined Honours degree program. The other subject may be any discipline from the Faculty of Science, the Faculty of Arts and Social Sciences, the Faculty of Computer Science, or the College of Sustainability. Physics may be the primary subject (defined as the subject with the larger number of honours credits), or the secondary subject. In recent years, students have combined Physics with

- Mathematics
- Biology
- Earth Sciences
- Chemistry
- Computer Science
- History of Science and Technology
- Contemporary studies

Students planning to enroll in a Combined Honours program should consult with academic advisors from both programs early in their studies. The same standards and conditions for admission apply as for entry into a Concentrated Honours program (see above). In addition, students must have their program of study approved by Academic Advisors in both subject areas. Students must complete an Honours Qualifying Examination in one of the

two subject areas, a requirement normally completed in the primary subject area. For Physics, this requirement is satisfied through PHYC 4800.03/PHYC 4850.03.

A [Co-op option](#) is available for students enrolled in BSc Combined Honours with Physics as the primary subject.

Departmental requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a Combined Honours program in Physics and another subject must complete the courses listed below. Elective Physics courses should be chosen in consultation with a Physics undergraduate advisor. If courses are not selected carefully, students in a Combined Honours program may not be qualified to enter a regular graduate program in Physics after graduation.

Physics as the primary or secondary subject

1000 level

- PHYC 1190.03/PHYC 1290.03: Introduction to Physics or PHYC 1310.03/ PHYC 1320.03: Physics In and Around You
- MATH 1000.03: Differential and Integral Calculus I/MATH 1010.03: Differential and Integral Calculus II
- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity/CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium

Or Integrated Science Program (options above)

2000 level

- PHYC 2140.03: Physics Tools: Theory/PHYC 2150.03: Physics Tools: Experiment
- PHYC 2515.03: Modern Physics/PHYC 2510.03: Electricity and Magnetism
- MATH 2001.03: Intermediate Calculus I/MATH 2002.03: Intermediate Calculus II
- PHYC 2050.03: Computer Simulation in Science

3000 and 4000 levels

- A minimum of 15 credit hours in PHYC courses at or above the 3000 level

If Physics is the primary subject

- An additional six credit hours at or above the 3000 level, which may be PHYC 4800.03/PHYC 4850.03: Honours Research Project

BSc or BA (120 credit hour) Major in Physics

The 120 credit hour Major is suited to students who want to focus on *Physics*, but wish to have a program that is somewhat less constrained than the Honours program. Physics Majors complete a minimum of 42 credit hours in Physics courses past the 1000 level as listed below. Research and other experiential learning opportunities are available through laboratories, special topics and experiential classes.

A [Co-op option](#) is available for students enrolled in a 120 credit hour BSc Major program in Physics.

Departmental requirements

In addition to fulfilling the requirements outline in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a Major program in Physics must complete the following courses:

1000 level

- PHYC 1190.03/PHYC 1290.03: Introduction to Physics or PHYC 1310.03/PHYC 1320.03: Physics In and Around You
- MATH 1000.03: Differential and Integral Calculus I/MATH 1010.03: Differential and Integral Calculus II
- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity/CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium

Or Integrated Science Program (options above)

2000 level

- PHYC 2140.03: Physics Tools: Theory/PHYC 2150.03: Physics Tools: Experiment
- PHYC 2515.03: Modern Physics/PHYC 2510.03: Electricity and Magnetism
- MATH 2001.03: Intermediate Calculus I/MATH 2002.03: Intermediate Calculus II
- PHYC 2050.03: Computer Simulation in Science
- Six additional physics credit hours at or above the 2000 level

3000 and 4000 level

- A minimum of 21 additional physics credit hours at or above the 3000 level

BSc (120 credit hour) Major in Physics combined with a Diploma in Meterology

This is an integrated Physics/Meteorology program. In addition to fulfilling the requirements outlined in the Academic Regulations and College of Arts and Science Degree Requirements sections, students must complete the following courses:

1000 level

- PHYC 1190.03/PHYC 1290.03: Introduction to Physics or PHYC 1310.03/PHYC 1320.03: Physics In and Around You
- MATH 1000.03: Differential and Integral Calculus I/MATH 1010.03: Differential and Integral Calculus II
- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity/CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium

Or Integrated Science Program (options above)

2000 level

- PHYC 2140.03: Physics Tools: Theory/PHYC 2150.03: Physics Tools: Experiment
- PHYC 2515.03: Modern Physics/PHYC 2510.03: Electricity and Magnetism
- MATH 2001.03: Intermediate Calculus I/MATH 2002.03: Intermediate Calculus II
- PHYC 2050.03: Computer Simulation in Science
- Three additional physics credit hours at or above the 2000 level

3000 level

- PHYC 3100.03 or PHYC 3210.03: Statistical Mechanics or PHYC 3250.03: Computational Methods in Physics or PHYC 3590.03: Advanced Classical Mechanics or PHYC 4311.03: Fluid Dynamics I
- PHYC 3200.03: Thermodynamics

4000 level: Meteorology course requirements

- PHYC 4505.03: Atmospheric Physics/PHYC 4570.03: Light Scattering, Radiative Transfer, and Remote Sensing
- PHYC 4540.03: Synoptic Meteorology I/PHYC 4550.03: Synoptic Meteorology II
- PHYC 4411.03: Atmospheric Dynamics I/PHYC 4412.03: Atmospheric Dynamics II
- PHYC 4520.03: Introduction to Atmospheric Science/PHYC 4595.03: Atmospheric Chemistry
- OCEA 4120.03: Physical Oceanography
- OCEA 4220.03: Numerical Modelling of Atmospheres and Oceans or another three credit hour course approved by Program Coordinator

Students are encouraged to ensure that their program meets the requirements for the 90 credit hour BSc by the end of Year 3.

After completion of the Major in Physics and Diploma in Meteorology program, students are eligible to be considered for admission to a graduate program in Atmospheric Science at Dalhousie.

BSc or BA (120 credit hour) Double Major in Physics and another subject

The Double Major degree program allows students to combine a study of Physics with another subject. The other subject may be any discipline from the Faculty of Science, the Faculty of Arts and Social Sciences, the Faculty of Computer Science or the College of Sustainability. Physics may be the primary subject (defined as the subject with the larger number of credits), or the secondary subject. If the primary subject area is from the Faculty of Arts and Social Sciences, the degree granted will be a BA.

It is recommended that students enrolled in a Double Major program consult with advisors in both subject areas.

A [Co-op option](#) is available for students enrolled in BSc Double Major with Physics as the primary subject.

Departmental requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a Double Major program in Physics and another subject must complete the following:

Physics as the primary or secondary subject

1000 level

- PHYC 1190.03/PHYC 1290.03: Introduction to Physics or PHYC 1310.03/PHYC 1320.03: Physics In and Around You or equivalent
- MATH 1000.03: Differential and Integral Calculus I/MATH 1010.03: Differential and Integral Calculus II
- CHEM 1011.03: Concepts in Chemistry: Structure and Reactivity/CHEM 1012.03: Concepts in Chemistry: Energy and Equilibrium

Or Integrated Science Program (options above)

2000 level

- PHYC 2140.03: Physics Tools: Theory/PHYC 2150.03: Physics Tools: Experiment
- PHYC 2515.03: Modern Physics/PHYC 2510.03: Electricity and Magnetism
- PHYC 2050.03: Computer Simulation in Science

3000 and 4000 levels

- A minimum of 15 credit hours in PHYC courses at or above the 3000 level

BSc or BA (90 credit hour) Minor in Physics

The 90 credit hour degree with Minor in Physics is appropriate for students who want to study some Physics but do not wish to complete the conventional four-year program. The degree is best suited for students who want a general science degree with some specialization in Physics. A 90 credit hour degree program is not suitable for students who wish to pursue graduate studies. With additional study, the degree may be upgraded to a 120 credit hour Major or Honours degree at a later date.

A 90 credit hour BSc in Physics is usually the preferred option for students who wish to combine studies in Physics with a degree in Engineering (see BSc/BEng or BA/BEng Concurrent Program below). Students with a 90 credit hour BSc in Physics may also want to consider the one year [Diploma in Meteorology program](#).

See the [Minor in Physics](#) section of this Calendar.

Diploma in Meteorology

Students with a general 90 credit hour BSc degree in Physics, Mathematics, Chemistry, or other quantitative disciplines, may apply for admission into a one year Diploma in Meteorology program, provided they have completed the appropriate Physics and Mathematics courses. A strong background in Physics and Mathematics is necessary, and courses taken should cover Vector Calculus and differential equations. More information on the Diploma in Meteorology program is available at http://atm.dal.ca/Diploma_in_meteorology/.

Course requirements

- PHYC 4505.03: Atmospheric Physics/PHYC 4570.03: Light Scattering, Radiative Transfer, and Remote Sensing
- PHYC 4540.03: Synoptic Meteorology I/PHYC 4550.03: Synoptic Meteorology II
- PHYC 4411.03: Atmospheric Dynamics I/PHYC 4412.03: Atmospheric Dynamics II
- PHYC 4520.03: Introduction to Atmospheric Science/PHYC 4595.03: Atmospheric Chemistry
- OCEA 4120.03: Physical Oceanography
- OCEA 4220.03: Numerical Modelling of Atmospheres and Oceans or another three credit hour course approved by Program Coordinator

After completion of the Diploma program, students are eligible to be considered for admission to a graduate program in Atmospheric Science at Dalhousie.

Minor in Physics

This minor is available to students registered in a 120 credit hour Bachelor of Applied Computer Science, Bachelor of Arts, Bachelor of Commerce, Bachelor of Community Design, Bachelor of Computer Science, Bachelor of Informatics, Bachelor of Management, Bachelor of Music, Bachelor of Science or Bachelor of Science (Medical Sciences) program.

A BSc or BA (90 credit hour) degree program with a Minor in Physics is available to students in the Faculty of Science.

Departmental Requirements

A minimum of 18 credit hours in Physics (PHYC) courses at the 2000 level or higher, to a maximum of 36 credit hours, not including Physics (PHYC) courses that do not count toward a 120 credit hour degree in Physics.

Contact [Physics and Atmospheric Science](#) for more information.

Co-op, Minors, Certificates and Engineering Concurrent Programs for Students

Co-operative Education Program in Physics

Co-op Academic Advisor: Dr. D. Labrie (daniel.labrie@dal.ca)

Co-operative Education in Science is a program where academic study in a science subject is combined with paid career-related work experience. Students undertake three work-terms interspersed with their academic study terms. Science Co-op degree programs enable students to apply their knowledge directly while providing them with work experience that assists in making educated career choices.

Co-op is available to students in BSc (120 credit hour) Honours or Major programs in Physics, or in Combined Honours or Double Major programs with Physics as the primary subject. The number of students admitted into Co-op each year is limited. A minimum GPA of 3.00 is required for admission and for continuation in the Co-op program. Students must be eligible to work in Canada.

Students normally apply to join Co-op during their first year of study. Students must apply before April 15, and it is strongly recommended that interested students meet with their Departmental Co-op advisor early in the Winter term of their first year. If accepted into Science Co-op, students must register for, and attend the Science Co-op Seminar Series (SCIE 2800.00) at least four month prior to the first work term.

Details are available from the Physics Co-op Academic Advisor and from the Co-operative Education office www.dal.ca/academics/cooperative_education.html. For more information on Co-op Education in Physics, please see the departmental webpage www.dal.ca/academics/programs/undergraduate/pas/what_will_i_learn/coop_work_term.html.

Minors available to students in Physics

Minor programs allow students to develop subject specialties in addition to their major or honours subjects. Minors in other subjects are normally added to 120 credit hour BSc or BA programs (including Science Co-op).

Students in a BSc or BA (120 credit hour) program in Physics may choose to include a Minor selected from the [list of approved Minors](#). Courses counted toward a Major or Honours subject cannot be used to fulfill the requirements of a Minor program.

Certificates

In combination with a BSc or BA in Physics, students may obtain one or more Certificates. A Certificate indicates that a student has achieved a certain level of proficiency in a given area or subspecialty. Courses counted toward a Major, Honours or Minor subject may also be used to fulfill the requirements of a Certificate. Students must apply to the Certificate Coordinator to be considered for a Certificate. Certificates are awarded upon graduation and are noted on the student's academic transcript.

A complete list of [Faculty of Science Certificates](#) and requirements can be found at the beginning of the [Faculty of Science](#) section. Students may also work toward obtaining Certificates offered by other Faculties; some of these are listed in the [College of Arts and Science Degree Requirements](#) section.

Certificates of particular interest to student enrolled in a BSc or BA in Physics include:

- [Certificate in Information Technology](#)
- [Certificate in Materials Science](#)
- [Certificate in Science Leadership and Communication](#)

BSc/BEng or BA/BEng Concurrent Program

BEng/BSc (90 credit hour) concurrent degree (Physics)

This degree prepares students for research and development careers in a broad range of sectors such as materials engineering, optoelectronics and clean technologies. Following is the recommended sequence of courses for students wishing to obtain a concurrent BEng and BSc (90 credit hour) degree with Minor in Physics. Interested students must consult with the Assistant Dean, Faculty of Science, and the Associate Dean, Faculty of Engineering prior to enrolling in a concurrent BEng/BSc degree.

It is recommended that students also discuss their selection of courses with an undergraduate advisor in the Department of Physics. A concurrent BEng/BSc Honours Physics program can be designed for interested candidates.

Graduate with Diploma in Engineering and BSc 90 credit Minor in Physics degree

Year 4 Continue in BEng program

Year 5 Complete BEng program

^a To meet the BSc 90 credit hour Minor in Physics requirements, students complete 30 credit hours in addition to their Engineering requirements: 18 credit hours of PHYC courses at or above the 2000 level (excluding any PHYC course that does not count toward a 120 credit hour degree in Physics), 6 credit hours of social science/humanities courses, and 6 credit hours of elective courses from Science or FASS (may be additional PHYC courses)

^b Writing requirement: choose from eligible writing courses in CLAS, ENGL, GERM, HIST, PERF, PHIL, RELS, or RUSN to fulfill [writing and humanities requirements](#).

^c Choose from CANA, CTMP, ECON, EMSP, EURO, GWST, HIST, HSTC, INTD, POLI, PSYO, SOSA, SUST for social science courses. Choose from ARBC, CANA, CHIN, CLAS, CTMP, CRWR, EMSP, EURO, SWST, GERM, HIST, HTSC, ITAL, PERF, PHIL, RELS, RUSN, SPAN and THEA for humanities courses

^d Selection of engineering electives depends on engineering discipline. See [Engineering section](#) of the calendar for details.

Notes:

- ENGM 2101 and 2022 fulfill the MATH 2001/2002 requirement for the Physics Minor
- ENGM 1081 fulfills the PHYC 2050 requirement for the Physics Minor

Geophysics

For students interested in Geophysics, two options are recommended:

- Combined Honours program in Physics and Earth Sciences,

OR

- Concentrated Honours in Physics
- Elective courses: EARTH 2270.03, EARTH 3270.03, EARTH 4470.03, EARTH 4480.03.

PHYC-Equivalent Courses

Other Dalhousie departments offer courses in one or more areas of Physics. Students enrolled in a 120 credit hour BSc or BA program in Physics may count any of the following courses toward their Physics program course requirements:

Please note that PHYC-equivalent courses will not count towards a minor program in Physics.

Any course cross-listed as a PHYC course

Department	Courses
Electrical and Computer Engineering	ECED 4350

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are typically available to students in the second, third, and fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not obtain credit for both courses as designated.

Not all courses are offered each year. Please consult the current [timetable](#) for this year's offering. For further information please contact the department, or visit the department's website.

Course Descriptions

PHYC 0010 University Prep Physics

CREDIT HOURS: 0

This course can be used as a prerequisite for PHYC 1100X/Y.06 and PHYC 1300X/Y.06. The course will develop problem-solving techniques in preparation for topics to be covered in PHYC 1100X/Y.06 and PHYC 1300X/Y.06. This course is offered by the College of Continuing Education. Students may register and pay for this course at the College of Continuing Education located at 1220 LeMarchant

Street, 2nd Floor or by calling (902) 494-2375. This course is offered in the Fall and Summer sessions only (see College of Continuing Education for more details <http://collegeofcontinuinged.dal.ca>).

LAB HOURS PER WEEK:

PHYC 1190 Introduction to Physics

CREDIT HOURS: 3

This course concentrates on mechanics (forces and motion). Primarily for students interested in Physical Sciences and Engineering. Students entering this course must be familiar with algebra, graphs, and trigonometry, and should be taking calculus (MATH 1000.03/1010.03 or MATH 1280.03/1290.03) concurrently. Ideas are introduced through in-class demonstrations enabling students to relate physical theory to events in the real world. Students explore many concepts via hands-on labs.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: High School Physics equivalent to the Nova Scotia 12 level. Students not having a physics credit equivalent to Nova Scotia Grade 12 Physics are strongly advised to take PHYC 0010.00 available in the summer and in the fall term. See the College of Continuing Education at: <http://collegeofcontinuinged.dal.ca>.

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

PHYC 1310 Physics in and Around You I

CREDIT HOURS: 3

This is an introduction to physics for students in Biology, Psychology, Arts and Environmental Sciences, and for students preparing for MCAT, and Medicine, Dentistry and Applied Health Sciences. It is accepted as a prerequisite to advanced courses in physics when combined with PHYC1320, MATH 1000.03 and 1010.03. Basic concepts in mechanics, waves, sound and fluids are applied, where possible, to realistic biological models, e.g. forces and torques are related to muscles and joints.

CALENDAR NOTES: This course is not acceptable for the Engineering program

COREQUISITES:

PREREQUISITES: High School Physics equivalent to the Nova Scotia 12 level. Students not having a physics credit equivalent to Nova Scotia Grade 12 Physics are strongly advised to take PHYC 0010.00 available in the summer and in the fall term. See the College of Continuing Education at: <http://collegeofcontinuinged.dal.ca>.

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

PHYC 1320 Physics in and Around You II

CREDIT HOURS: 3

This is a continuation of the introduction to physics presented in PHYC 1310. Topics include optics, electricity, atomic and nuclear physics with applications to vision, cellular activity, imaging and radiation treatment. The course is designed for students in Biology, Psychology, Arts and Environmental Sciences, and for students preparing for MCAT, and Medicine, Dentistry and Applied Health Sciences. It is accepted as a prerequisite to advanced courses in physics when combined with PHYC 1310, MATH 1000.03 and 1010.03.

CALENDAR NOTES: This course is not acceptable for the Engineering program.

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

PHYC 1451 Astronomy I: The Sky and Planets

CREDIT HOURS: 3

An introduction to solar system astronomy for non-science students. This course introduces students to the night sky, and particularly, to the Sun, Moon and planets and their apparent motions in the sky. Naked eye astronomy, the revolution in our understanding of the nature of the solar system, and the underlying laws of nature derived from this discovery, are key aspects of the course. The focus will be on the planets of our solar system, and their major satellites.

CALENDAR NOTES: BSc students may not take this course for credit

COREQUISITES:

LAB HOURS PER WEEK:

PHYC 1452 Astronomy II: Stellar & Galactic Astronomy

CREDIT HOURS: 3

This companion course to PHYC 1451 continues the exploration of the universe with an introduction to stellar and galactic astronomy, and cosmology for non-science students. Exoplanets – extrasolar planets recently discovered around other stars – will be discussed, followed by the Sun as a star. The formation, evolution, and death of stars will be discussed. The hierarchy of structures of stars: star clusters, our own Milky Way Galaxy, the Local Group, and other clusters of galaxies making up the observable universe will be examined. The role of dark matter and dark energy, and the future of the universe will be studied.

FORMATS:

LAB HOURS PER WEEK:

PHYC 2140 Physics Tools: Theory

CREDIT HOURS: 3

The character of physical laws is most lucidly expressed in mathematical terms. The objective of this course is the acquisition of mathematical tools and gainful proficiency in their use. Topics will include complex numbers, partial derivatives, vector calculus, linear transformations and differential equations. Theorems and proofs will be kept to a minimum. Instead, lectures, homework and tutorials will be largely driven by example problems from a wide variety of physics fields. Text book: Boas, Mathematical Methods in the Physical Sciences.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PHYC 1190.03/1290.03 or 1300X/Y.06 and a 1000 level calculus class or permission from the instructor.

LAB HOURS PER WEEK:

PHYC 2150 Physics Tools: Experiment

CREDIT HOURS: 3

Introducing experimental tools and techniques within a theoretical framework, this course explores concepts in oscillations, waves, electricity and magnetism. The aim is to learn and apply techniques commonly used in Physics research. The following experimental tools and techniques are explored: Instrumentation; Fourier series; Data analysis; building AC and DC circuits; Detection and production of ultrasonic, acoustic, visible, microwaves; Mechanical systems. For example, the concept of resonance is applied to electronic (e.g. Radio), optical, acoustic (e.g. Music), mechanical and nuclear (e.g. MRI) systems in the lab. Textbook: An Introduction to Error Analysis, John R. Taylor.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PHYC 1190.03/1290.03 or 1300X/Y.06 or SCIE 1500X/Y.30 and a 1000-level calculus course, or permission of instructor

EXCLUSIONS: PHYC 1451

FORMATS: Lecture

LAB HOURS PER WEEK:

PHYC 2452 Stellar & Galactic Astrophysics

CREDIT HOURS: 3

This companion course to PHYC 2451 will serve as a general introduction to the astrophysics of stars and galaxies for science students. The basic properties of stars, star formation, stellar evolution, stellar populations, star clusters, and the late stages of stellar evolution will be discussed. The course will examine the interstellar medium, and galactic structure and evolution, and compact objects (neutron stars, black holes, quasars) at an introductory level. The role of dark matter and dark energy in the formation of the universe, and in establishing the present-day large scale structure of the universe will be reviewed.

CALENDAR NOTES:

EXCLUSIONS:

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

PHYC 2515 Modern Physics

CREDIT HOURS: 3

This course introduces two physics revolutions: Einstein's theory of special relativity and the theory of quantum mechanics. Important early experiments are considered throughout the course. We consider length contraction, time dilation, and relativistic kinematics. Then, to account for wave-like properties of matter, we introduce complex wave functions in one-dimension and show how they lead to energy quantization, Schrodinger's equation, and penetration into classically forbidden regions. Other topics of modern physics, such as random walks (transport theory) may be introduced. A tutorial is offered.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PHYC 1190.03/1290.03 or PHYC 1300.06 or SCIE 1500.03, and a 1000 level calculus course

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

LAB HOURS PER WEEK:

PHYC 2610 Introduction to Biomechanics

CREDIT HOURS: 3

This course provides an introduction to mechanical and analytical concepts applied to the study of biological systems, particularly human movements and tissues. It expands on the knowledge acquired in PHYC 1310, the mechanics as it applies to the human body. It deals with the muscle forces required for the different tasks, the role of the centre of mass in balance and motion and the stresses and strains endured by the different biological tissues. The primary goal of the course is to learn to apply basic mechanical concepts to human movements.

CALENDAR NOTES:

COREQUISITES:

EXCLUSIONS: ECON2850.06, PHYC2850.06

FORMATS:

LAB HOURS PER WEEK:

PHYC 2850 The Science and Economics of Climate Change

CREDIT HOURS: 6

This course examines how climate change will impact the environment and human activities, and how to formulate and implement economically realistic solutions. It integrates the physical and biological science with economics in order to analyze the response options as we move towards a carbon-neutral society.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: ECON 1101.03 or ECON 1102.03 or any first year science or math course or permission of the instructor.

CROSSLISTED: ECON 2850.03

RESTRICTIONS:

EXCLUSIONS: PHYC 2800, ECON 2216

FORMATS: Lecture

LAB HOURS PER WEEK:

PHYC 3000 Experimental Physics I

CREDIT HOURS: 3

This course introduces students to electronics and measuring techniques. Topics include digital electronics: logic gates, clocks, shift registers, counters, memory; analog electronics; R.C.L. circuits, operational amplifiers; electronic systems: A/D and D/A chips, computer chips, and displays. The course also introduces students to modern data acquisition methods (including LabVIEW), skills which will be applied in the design and execution of experiments that illustrate fundamental concepts in physics. This course is open to Honours students only.

CALENDAR NOTES: This course has no final examination. Student evaluation is through performance on assignments and projects, and evaluation of written lab reports.

COREQUISITES:

PREREQUISITES: PHYC 2150.03 and PHYC 2515.03, or permission of the instructor.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

LAB HOURS PER WEEK:

PHYC 4570 Light Scattering, Radiative Transfer, and Remote Sensing

CREDIT HOURS: 3
The equations of radiative transfer through the atmosphere will be developed and used. Special topics include transfer of infrared radiation. Mie scattering, absorption by atmospheric gases and aerosols, transfer through clear and cloudy atmospheres. Also remote sensing techniques and radiative transfer models are covered.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: PHYC 2140.03, PHYC 2510.03
CROSSLISTED: PHYC 5570.03, OCEA 5570.03
RESTRICTIONS:
EXCLUSIONS:
FORMATS: Lecture
LAB HOURS PER WEEK:

PHYC 4595 Atmospheric Chemistry

CREDIT HOURS: 3
A fundamental introduction to the physical and chemical processes determining the composition of the atmosphere and its implications for climate, ecosystems, and human welfare. Origin of the atmosphere. Nitrogen, oxygen, carbon, sulfur cycles. Climate and the greenhouse effect. Atmospheric transport and turbulence. Stratospheric ozone. Oxidizing power of the atmosphere. Regional air pollution: aerosols, smog, acid rain.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: MATH 1000.03, PHYC 1190.03/1290.03 (or PHYC 1310.03/1320.03 or 1300.06) and CHEM 1011.03/1012.03
CROSSLISTED: PHYC 5595.03, CHEM 4595.03, OCEA 4595.03/5595.03
RESTRICTIONS:
EXCLUSIONS:
FORMATS: Lecture
LAB HOURS PER WEEK:

PHYC 4650 General Relativity

CREDIT HOURS: 3
A review of differential geometry will be given followed by an introduction to the general theory of relativity. Various topics will be discussed, including: linearized theory and gravitational radiation, spherically symmetric metrics and the Schwarzschild solution, gravitational collapse, black holes, and cosmology.
CALENDAR NOTES:
COREQUISITES:

PREREQUISITES: MATH 3045.03 or permission of the instructor
CROSSLISTED: PHYC 5650.03, MATH 4650.03/5650.03
RESTRICTIONS:
EXCLUSIONS:
FORMATS: Lecture
LAB HOURS PER WEEK:

PHYC 4660 Cosmology

CREDIT HOURS: 3

A self-contained introduction to cosmology will be given and no prior knowledge of differential geometry or general relativity will be assumed (although some knowledge of elementary differential equations will be useful). A cosmological model is a model of the universe, as a whole, on the largest scales; the emphasis of the course will be on the modeling aspects of cosmology.

LAB HOURS PER WEEK:

PHYC 4800 Honours Research Project I

CREDIT HOURS: 3

Students in the honours stream in Physics and Atmospheric Science will do a research project under the direction of a faculty member. A research plan, interim progress reports and a formal final report are required. The final grade will be based on an evaluation of the reports and an oral presentation. Students in the major stream can apply to the department to take this course.

More Information

For information concerning programs and courses in Psychology, please refer to the [Psychology](#) section of this calendar. For Neuroscience, please refer to the [Neuroscience](#) section.

Staff

Dean

Moore, C. L., BA, PhD (Cantab)

Chairperson of Department

Newman, A. J., BA (Winnipeg), MSc, PhD (Oregon)

Academic Advisors

To contact an academic advisor, please go to the Psychology and Neuroscience Main Office (LSC 3263), telephone (902) 494-3417, or visit the [Psychology and Neuroscience website](#).

Professors Emeriti

Brown, R. E., BSc (Victoria), MA, PhD (Dalhousie)
Klein, R. M., BA (SUNY), MA, PhD (Oregon)
LoLordo, V. M., AB (Brown), PhD (Penn)
Mitchell, D. E., BSc, MAppSc (Melb), PhD (Berkeley)

Professors

Adamo, S., BSc (Toronto), PhD (McGill), Graduate Coordinator
Barrett, S. P., BA (St. FX), PhD (McGill)
Campbell-Yeo, M., BSc, MScN (Dalhousie), PhDN (McGill), major appointment in the School of Nursing
Chambers, C. T., BSc (Dalhousie), MA, PhD (UBC), joint appointment in Pediatrics, Faculty of Science Killam Professor in Psychology
Corkum, P. V., BSc (Dalhousie), MA, PhD (OISE at Toronto)
Crowder, N. A., BSc, PhD (Alberta)
Deacon, S. H., BSc (UPEI), PhD (Oxon)
Duffy, K., BA (St. Thomas), PhD (McMaster)
Eskes, G. A., BA, PhD (Berkeley), joint appointment in Psychiatry
Finley, G. A., BSc, MD (Dalhousie), FRCPC, major appointment in Anaesthesia
Kay-Raining Bird, E., BA (Queen's), MSc (Columbia), PhD (Univ Wisconsin - Madison), major appointment in the School of Human Communication Disorders
Kieft, M., BA (Memorial), MSc, PhD (Alberta), major appointment in the School of Human Communication Disorders
Meinertzhagen, I. A., BSc (Aberdeen), PhD, DSc (St. Andrews), University Research Professor
Moore, C. L., BA, PhD (Cantab)
Newman, A. J., BA (Winnipeg), MSc, PhD (Oregon)
Perrot, T. S., BSc, PhD (Western)
Pohlmann-Eden, B., PhD MD (Univ. of Heidelberg)

Phillmore, L., BA (UWO), MA, PhD (Queen's)
Rusak, B., BA (Toronto), PhD (Berkeley), FRSC, joint appointment in Psychiatry
Semba, K., BEd, MA (Tokyo), PhD (Rutgers), major appointment in Medical Neuroscience
Sherry, S. B., BA (York), MA (UBC), PhD (Saskatchewan), Clinical PhD Program Director of Training
Smith, I. M., BA (Dalhousie), MSc (Brown), PhD (Dalhousie), major appointment in Pediatrics, Joan and Jack Craig Chair in Autism Research
Stewart, S., BSc (Dalhousie), PhD (McGill), joint appointment in Psychiatry
Taylor-Helmick, T. L., BA (Calgary), MSc, PhD (Dalhousie)
Ungar, M., BA, BSW, MSW (McGill), PhD (Wilfrid Laurier), major appointment in the School of Social Work
Westwood, D. A., BSc, MA, PhD (Waterloo), major appointment in the School of Health and Human Performance

Associate Professors

Abbass, A., BSc (Ottawa), MD (Dalhousie), FRCPC (Toronto), major appointment in Psychiatry
Aiken, S., BA, MSc (Western), PhD (Toronto), major appointment in the School of Human Communication Disorders
Bardouille, T., BSc (Queen's), MSc (Dalhousie), PhD (Toronto) major appointment in Psychiatry
Boe, S., BPhEd (Brock), PhD, MPT (Western), major appointment in the School of Physiotherapy
Bombay, A., BSc (Ottawa), MSc, PhD (Carleton), major appointment is held jointly with the School of Nursing and Psychiatry
Chorney, J., BSc (Dalhousie), MA, PhD (West Virginia), major appointment in Anesthesiology
Fisher, D., BSc (Ottawa), MSc, PhD (Carleton), major appointment in Psychiatry
Fisk, J., BSc, MA, PhD (Western), major appointment in Psychiatry
Franklin, T., BSc (King's), MSc (Dalhousie), PhD (Swiss Federal Institute of Technology)
Good, K., BSc (UNB), MSc, PhD (UBC), major appointment in Psychiatry
Jacques, S., BA (McGill), MA, PhD (Toronto)
Johnson, S., BA (Kalamazoo), MSc, PhD (Victoria)
Meier, S., BSc, MSc (Universitat Basel, Switzerland), PhD (Ruprecht Karls Universitat, Germany)
Neyedli, H., BSc Hons (Dalhousie), MSc, PhD (Toronto), major appointment in Health and Human Performance
Robinson, L., BSc (Victoria), MA, PhD (Simon Fraser), major appointment in the School of Health and Human Performance
Rosen, N. O., BA (Queen's), PhD (McGill)
Uher, R., MRCPsych (Royal College of Psychiatrists), CCT (London Deanery, UK), PhD, MUDr. (Charles Univ), major appointment in Psychiatry
Weaver, I. C. G., BSc (Aberdeen), MSc (Bristol), PhD (McGill)

Assistant Professors

Dithurbide, L., BA (St. Mary's), MA (Brock), PhD (Michigan State), major appointment in the School of Health and Human Performance
Filliter, J., BSc, MSc, PhD (Dalhousie) major appointment in Pediatrics
Hashimi, J., BSc (Punjab), MSc (Western), PhD (Toronto), major appointment in Anesthesia
Ilie, G., BSc, MA (York), PhD (Toronto), major appointment in Community Health and Epidemiology
Lee-Bagley, D., BSc (Calgary), MSc, PhD (UBC), major appointment in Family Medicine
Lovas, D., BSc, MD (Dalhousie), major appointment in Psychiatry
Pavlova, B., MSc (Palacky Univ., Czech Republic), PhD (Charles Univ., Czech Republic), DCLinPsy (Inst. of Psychiatry, King's College)
Town, J., BSc (York), DCLinPsy (Univ of Sheffield), major appointment in Psychiatry
Yakovenko, I., BSc (Toronto), MSc (Calgary), PhD (Yale), joint appointment in Psychiatry

University Teaching Fellows

Gadbois, S., BP, MAPs (Moncton), PhD (Dalhousie)
Stamp, J., BSc (Dalhousie), PhD (Cambridge)
Stevens, L., BSc (Acadia), MSc, PhD (Dalhousie), Undergraduate Program Coordinator

Senior Instructors

Borycz, J., PhD (Inst. of Pharmacology, Krakow, Poland)
Christie, J., BSc, MSc, PhD (Dalhousie)
Juckes, T., BA, MA (Natal), PhD (Dalhousie)
Mackinnon, S., BA(H) (UCCB), MSc (Wildred Laurier), PhD (Dalhousie)
Pencer, A., BSc (St. FX), MSc, PhD (Calgary)
Ply, E., BS Education (Univ of N Texas), MA, PhD (Texas Women's Univ)

Adjunct Professors

Barresi, J., BSc (Brown), MA (S Calif), MS, PhD (Wisc), Psychology and Neuroscience/Dalhousie
Chipman, K., BA (UPEI), MA, PhD (Western), Neuropsychology Service/Nova Scotia Hospital
Church, E., BA (St. John's), MA, PhD (Toronto), School Psychology/Mount Saint Vincent
Cohen, A., BA (McGill), MA, PhD (Queen's), Psychology/University of Prince Edward Island
Conrad, N., BA (St. Mary's), PhD (McMaster), Psychology/Saint Mary's
Day, A., BA (Manitoba), MSc, PhD (Waterloo), Psychology/Saint Mary's
DiGiorgio, C., BA (UCCB), BSc, BEd (Dalhousie), MEd (St. FX) PHD (Univ. South Australia)
Ellsworth, C., BA (McMaster), MA, PhD (Queen's), Psychology/IWK Health Centre
Flanagan, H., BA, BSc (McMaster), MA, PhD (York)
Gilin Oore, D., BSc (Northern Michigan), MA, PhD (Missouri-St. Louis), Psychology/Saint Mary's
Ivanoff, J., BSc, MA (Guelph), PhD (Dalhousie), Psychology/Saint Mary's
LoLordo, V. M., AB (Brown), PhD (Penn), Psychology and Neuroscience/Dalhousie
Marchand, Y., MCS (Univ of Paris), PhD (Compiègne)
Mitchell, D. E., BSc, MAppSc (Melb), PhD (Berkeley), Psychology and Neuroscience/Dalhousie
Omisade, A., BA (York), PhD (Dalhousie), Neuropsychology/QEII Health Sciences Centre
O'Neill, P., MSc, PhD (Yale), Professor Emeritus/Acadia
Robertson, E., BA (Mt. A), MA, PhD (Western), Psychology/Cape Breton Univ
Rodger, R. S., MA (Edin), PhD (Queen's, Belfast)
Roy-Charland, A., BPs, MAPs and PhD (Moncton), Psychologie/Univ. de Moncton
Saint-Aubin, J., BA (Sherbrooke), MPs, PhD (Laval), École de psychologie/ Université de Moncton
Schellinck, H., BSc, MSc, PhD (Dalhousie), Psychology and Neuroscience/Dalhousie
Shaw, S. R., BSc (London), PhD (St. Andrews), Psychology and Neuroscience/Dalhousie
Smith, S. M., BA (Bishop's), MA, PhD (Queen's), Psychology/Saint Mary's
Vallis, T. M., BSc (Dalhousie), MA, PhD (Western), Psychology/QEII Health Sciences Centre
Watt, M., BA (St. FX), PhD (Dalhousie), Psychology/St. Francis Xavier

Postdoctoral Fellows

Corbit, J. PhD (Simon Fraser)
Dawson, S., PhD (Queen's)
Ferguson, L., PhD (Western)
Keys, E., PhD (Calgary)
Levesque, K., PhD (Dalhousie)
Nogueria-Argoria, R., PhD (Univ. Malaga)
Romero-Sanchiz, P., PhD (Univ. Malaga)
Ryan, K., PhD (Dalhousie)

Introduction

Psychology is an experimental science: Its purpose is to discover the conditions that control the activities of animals and people, to measure these conditions and the responses they produce, and to use this knowledge to predict and change behaviour. It is a subject for inventive but also scientifically rigorous people, better suited to those who want to find out for themselves than to those who want to be told what to believe.

Psychology at Dalhousie treats behaviour as a natural phenomenon, and in that sense shares much with the other life sciences. The boundaries that historically separated psychology from zoology, physiology, and cellular biology are blurred. As well, important ties are being made to such disciplines as anthropology, sociology, and philosophy. The student will find that the diverse subject matter includes three major levels of analysis: the organism, the organism's biological machinery, and the broader social-environmental context in which particular behaviour patterns are expressed. Meaningful integration of these diverse levels and forms of analysis is an intellectual challenge of major proportions. Similarly, the time perspectives of immediate causation, development, evolution, and function all contribute to the modern approach to behavioural science and each must be evaluated in relation to the others.

A. Enrolment Limitations

Psychology is a popular program, and we have a high enrolment of students. Potential Major and Honours students, and those intending to enrol in the 90 credit hour BA or BSc Minor program in Psychology should note that there are limitations on the number of students that can be accepted into these programs in any given year. Passing introductory psychology courses with the required grade of B- and declaring an intent to Major in Psychology does not guarantee a place in any of these programs. Students are advised to register as early as possible for required courses to secure a space within a program.

There are strict size restrictions on individual courses. Lecture courses are limited by room size. Enrolment in laboratory courses is further restricted because of equipment limitations and requirements for supervision. All Major and Honours students, and those enrolled in a 90 credit hour program, should review carefully program requirements and choose prerequisite courses accordingly. Laboratory courses fill rapidly, and not all laboratory courses are offered every year.

B. Enrolment of Other Students

Only Major and Honours students in Psychology may enrol in PSYO 2000.03, PSYO 2470.03, and PSYO 2501.03, and such students are given preference in other second-year courses. All students must have at least a B- in both the

introductory psychology courses, or a B- in the psychology component of the Integrated Science Program, to be permitted to register in any second-year course in Psychology.

C. Laboratories

Psychology laboratories typically involve data collection and interpretation, and writing reports on the results. All Major and Honours students must take the second-year research methods course (PSYO 2000.03) and at least one third-year research laboratory course (six credit hours for Honours students).

Degree Programs

The Department of Psychology and Neuroscience offers the following degree programs in Psychology:

- BSc or BA (120 credit hour) Honours (Concentrated)*
- BSc or BA (120 credit hour) Combined Honours*
- BSc or BA (120 credit hour) Major*
- BSc or BA (120 credit hour) Double Major*
- BSc or BA (90 credit hour) Minor in Psychology
- Minor in Psychology

* May be combined with Minor programs from other disciplines (except Neuroscience).

Departmental requirements for each degree program can be seen by following the links in the menu to the right.

In addition to departmental requirements, students must satisfy the requirements outlined in the [Academic Regulations](#) and the [College of Arts and Science Degree Requirements](#) sections. Students are advised that a number of requirements differ between the BA and BSc degrees.

A student is governed by the academic regulations in place at the time of initial enrolment, as long as the degree is completed within the time permitted (10 years). Subsequent changes in regulations shall apply only if the student so elects. Students applying the old academic regulations should consult the calendar of the appropriate year.

Students should plan their programs of study carefully and are strongly encouraged to do so in consultation with a Psychology undergraduate academic advisor.

A detailed description of the Psychology programs is available in a pamphlet titled "A Student's Guide to Psychology Classes". The pamphlet is available from the Psychology and Neuroscience Main Office (Life Sciences Centre, Room 3263) and online from the Department's website (www.dal.ca/psychandneuro).

BSc or BA (120 credit hour) Concentrated Honours in Psychology

Students who want a challenging program resulting in a broad background in Psychology, including an independent research experience, may want to enroll in an Honours program. Students interested in eventually pursuing graduate studies are particularly encouraged to consider Honours. Honours students complete a minimum of 54 credit hours above the 1000 level in Psychology with a minimum GPA of 3.0 and write a research-based Honours thesis. The Honours thesis and Qualifying Examination requirements are satisfied through completion of PSYO 4501.03 and PSYO 4502.03.

Admission to Honours

Students must apply for admission to Honours programs. Students wishing to enrol in Honours in Psychology should consult with an Honours Advisor. Students may not apply for Honours before January of their third year of studies. A detailed description of the Honours application process can be found on the departmental website www.dal.ca/psychandneuro. Admission requirements include:

- A grade of B+ or better in PSYO 2000.03: Methods in Experimental Psychology
- A minimum of A- or better in the most recently completed:
 - 18 credit hours of PSYO courses (for admission in January of 3rd year)
 - OR
 - 27 credit hours of PSYO courses (for admission at end of 3rd year)

Departmental requirements

All students must fulfill the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections. Students are advised that a number of requirements differ between the BA and BSc degrees. In addition, students in a Concentrated Honours program in Psychology must complete the following:

1000 level

Introduction to Psychology and Neuroscience I and II (six credit hours)

- Introduction to Psychology and Neuroscience I: From Neuron to Person (PSYO 1011.03 or equivalent) with grade of B- or better
- Introduction to Psychology and Neuroscience II: From Social Interaction to Psychopathology (PSYO 1012.03 or equivalent) with grade of B- or better
- OR
- a B- in the Psychology component of SCIE 1506.09 and 1507.09: Integrated Science Program I and II, or equivalent

2000 level

- PSYO 2000.03: Methods in Experimental Psychology & Neuroscience (with grade of B+ or better)
- PSYO 2501.03: Statistical Methods I
- PSYO 2470.03: Systems Neuroscience (or equivalent)
- Additional nine credit hours, selected from:
 - PSYO 2080.03: Social Psychology
 - PSYO 2090.03: Developmental Psychology
 - PSYO 2130.03: Introduction to Cognitive Psychology
 - PSYO 2140.03: Learning
 - PSYO 2150.03: Perceptual Processes
 - PSYO 2160.03: Animal Behaviour
 - PSYO 2220.03: Abnormal Behaviour
 - PSYO 2570.03: Cellular Neuroscience

Note: It is recommended that PSYO 2000.03: Methods in Experimental Psychology and PSYO 2501.03: Statistical Methods I be taken concurrently.

Care should be taken in selecting second-year courses to ensure they provide the necessary prerequisites for courses intended to be taken in third and fourth years of study.

3000 level

- PSYO 3502.03: Statistical Methods II (**must be taken in third year**)
- Six credit hours of designated LAB courses, selected from PSYO 3044.03, PSYO 3051.03, PSYO 3082.03, PSYO 3091.03, PSYO 3122.03, PSYO 3131.03, PSYO 3132.03, PSYO 3133.03, PSYO 3134.03, PSYO 3137.03, PSYO 3161.03, PSYO 3165.03, PSYO 3370.03, PSYO 3371.03, PSYO 3775.03, PSYO 3100.03/3101.03 (Note: PSYO 3100/3101 full-year Independent Research Project may only be used to fulfill 3 credit hours of lab course requirement)
- Additional nine credit hours of 3000/4000-level PSYO courses

Students are encouraged to consider PSYO 3100.03/3101: Independent Research in Psychology or PSYO 3001.03: Directed Project in Psychology, as preparation for their thesis work in fourth year.

4000 level

- PSYO 4501.03 and PSYO 4502.03.: Honours Thesis and Qualifying Exam
- Six credit hours of 4000-level seminar courses
- Six additional credit hours of 3000/4000-level PSYO courses

Other regulations

- Students in the Honours program should find a thesis supervisor and begin the preparation for their Honours research (reading, learning laboratory methodology, submitting ethics forms) no later than the summer preceding their thesis year.
- Laboratory courses focusing on human psychology typically require students to serve as participants and/or as experimenters in course projects. Students who do not wish to participate in such projects should ensure that they have the prerequisites necessary to register in alternative laboratory courses.
- Courses that are counted towards the Honours program requirements must be a minimum grade of C.

BSc or BA (120 credit hour) Combined Honours in Psychology and another subject

Students who wish to study Psychology in conjunction with another subject may wish to pursue a Combined Honours degree program. The other subject may be from any discipline in the Faculty of Science (other than Neuroscience), the Faculty of Arts and Social Sciences, the Faculty of Computer Science, or the College of Sustainability. Psychology may be the primary subject (with a minimum of 45 credit hours beyond the 1000 level), or the secondary subject (30 credit hours).

Students planning to enroll in a Combined Honours program should consult with academic advisors from both programs early in their studies. Students must have their program of study approved by Academic Advisors in both subject areas. Students complete an Honours Qualifying Examination in one of the two subject areas, a requirement normally completed in the primary subject area. For Psychology, this requirement is satisfied through PSYO 4501.03 and PSYO 4502.03..

Departmental requirements

All students must fulfill the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections. Students are advised that a number of requirements differ between the BA and BSc degrees. In addition, students in a Combined Honours program in Psychology and another subject must complete the following program requirements:

Psychology as the **primary** subject

1000 level

Introduction to Psychology and Neuroscience I and II (six credit hours):

- Introduction to Psychology and Neuroscience I: From Neuron to Person (PSYO 1011.03 or equivalent) with grade of B- or better
 - Introduction to Psychology and Neuroscience II: From Social Interaction to Psychopathology (PSYO 1012.03 or equivalent) with grade of B- or better
- OR
- a B- in the Psychology component of SCIE 1506.09 and 1507.09: Integrated Science Program I and II, or equivalent

2000 level

- PSYO 2000.03: Methods in Experimental Psychology (with grade of B+ or better)
- PSYO 2501.03: Statistical Methods I
- PSYO 2470.03: Systems Neuroscience (or equivalent)
- Additional nine credit hours, selected from:
 - PSYO 2080.03: Social Psychology
 - PSYO 2090.03: Developmental Psychology
 - PSYO 2130.03: Introduction to Cognitive Psychology
 - PSYO 2140.03: Learning
 - PSYO 2150.03: Perceptual Processes
 - PSYO 2160.03: Animal Behaviour
 - PSYO 2220.03: Abnormal Behaviour
 - PSYO 2570.03: Cellular Neuroscience

Note: It is recommended that PSYO 2000.03: Methods in Experimental Psychology and PSYO 2501.03: Statistical Methods I be taken concurrently.

3000 level

- PSYO 3502.03: Statistical Methods II (**must be taken in third year**)
- Six credit hours of designated LAB courses, selected from PSYO 3044.03, PSYO 3051.03, PSYO 3082.03, PSYO 3091.03, PSYO 3122.03, PSYO 3131.03, PSYO 3132.03, PSYO 3133.03, PSYO 3134.03, PSYO 3137.03, PSYO 3161.03, PSYO 3165.03, PSYO 3370.03, PSYO 3371.03, PSYO 3775.03, PSYO 3100.03/3101.03 (Note: PSYO 3100/3101 full-year Independent Research Project may only be used to fulfill 3 credit hours of lab course requirement)
- An additional six credit hours in 3000-level PSYO courses

4000 level

- PSYO 4501.03 and PSYO 4502.03.: Honours Thesis and Qualifying Exam
- Six credit hours of 4000-level seminar courses

Other regulations

- Students in the Honours program should find a thesis supervisor and begin the preparation for their Honours research (reading, learning laboratory methodology, submitting ethics forms) no later than the summer preceding their thesis year.
- Laboratory courses focusing on human psychology typically require students to serve as participants and/or as experimenters in course projects. Students who do not wish to participate in such projects should ensure that they have the prerequisites necessary to register in alternative laboratory courses.
- Courses that are counted towards the Honours program requirements must be a minimum grade of C.

Psychology as the **secondary** subject

1000 level

Introduction to Psychology and Neuroscience I and II (six credit hours):

- Introduction to Psychology and Neuroscience I: From Neuron to Person (PSYO 1011.03 or equivalent) with grade of B- or better

- Introduction to Psychology and Neuroscience II: From Social Interaction to Psychopathology (PSYO 1012.03 or equivalent) with grade of B- or better
OR
a B- in the Psychology component of SCIE 1506.09 and 1507.09: Integrated Science Program I and II, or equivalent

2000 level

- PSYO 2000.03: Methods in Experimental Psychology (with grade of B+ or better)
- PSYO 2501.03: Statistical Methods I
- PSYO 2470.03: Systems Neuroscience (or equivalent)
- Additional nine credit hours, selected from:
PSYO 2080.03: Social Psychology
PSYO 2090.03: Developmental Psychology
PSYO 2130.03: Introduction to Cognitive Psychology
PSYO 2140.03: Learning
PSYO 2150.03: Perceptual Processes
PSYO 2160.03: Animal Behaviour
PSYO 2220.03: Abnormal Behaviour
PSYO 2570.03: Cellular Neuroscience

Note: It is recommended that PSYO 2000.03: Methods in Experimental Psychology and PSYO 2501.03: Statistical Methods I be taken concurrently.

3000/4000 level

- Three credit hours in 3000 level LAB courses, selected from PSYO 3044.03, PSYO 3051.03, PSYO 3082.03, PSYO 3091.03, PSYO 3122.03, PSYO 3131.03, PSYO 3132.03, PSYO 3133.03, PSYO 3134.03, PSYO 3137.03, PSYO 3161.03, PSYO 3165.03, PSYO 3370.03, PSYO 3371.03, PSYO 3775.03, PSYO 3100.03/3101.03 (Note: PSYO 3100/3101 full-year Independent Research Project may only be used to fulfill 3 credit hours of lab course requirement)
- An additional 15 credit hours in 3000/4000 level PSYO courses

BSc or BA (120 credit hour) Major in Psychology

The 120 credit hour Major is suited to students who want to focus on Psychology, but wish to have a program that is somewhat less constrained than the Honours program. Psychology Majors complete a minimum of 42 credit hours in Psychology courses above the 1000 level. Research and other experiential learning opportunities are available through laboratories and research project classes.

Students should plan carefully and, if required, obtain advice from an academic advisor. Advisors can be consulted by contacting the Psychology and Neuroscience Main Office (Life Sciences Centre, Room 3263 or (902) 494-3417) or by visiting the [department's website](#).

Departmental requirements

All students must fulfill the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections of this calendar. Students are advised that a number of requirements differ for the BA and BSc degrees. In addition, students in a Major program in Psychology must complete the following courses:

1000 level

Introduction to Psychology and Neuroscience I and II (six credit hours)

- Introduction to Psychology and Neuroscience I: From Neuron to Person (PSYO 1011.03 or equivalent) with grade of B- or better
 - Introduction to Psychology and Neuroscience II: From Social Interaction to Psychopathology (PSYO 1012.03 or equivalent) with grade of B- or better
- OR
- a B- in the Psychology component of SCIE 1506.09 and 1507.09: Integrated Science Program I and II, or equivalent

2000 level

- PSYO 2000.03: Methods in Experimental Psychology
- PSYO 2501.03: Statistical Methods I
- PSYO 2470.03: Systems Neuroscience (or equivalent)
- Additional nine credit hours, selected from:
 - PSYO 2080.03: Social Psychology
 - PSYO 2090.03: Developmental Psychology
 - PSYO 2130.03: Introduction to Cognitive Psychology
 - PSYO 2140.03: Learning
 - PSYO 2150.03: Perceptual Processes
 - PSYO 2160.03: Animal Behaviour
 - PSYO 2220.03: Abnormal Behaviour
 - PSYO 2570.03: Cellular Neuroscience

Note: It is recommended that PSYO 2000.03: Methods in Experimental Psychology and PSYO 2501.03: Statistical Methods I be taken concurrently.

Care should be taken in selecting second-year courses to ensure they provide the necessary prerequisites for courses intended to be taken in third and fourth years of study.

3000 level

A minimum of 24 credit hours at or above the 3000 level, of which:

- Three credit hours of designated LAB courses, selected from PSYO 3044.03, PSYO 3051.03, PSYO 3082.03, PSYO 3091.03, PSYO 3122.03, PSYO 3131.03, PSYO 3132.03, PSYO 3133.03, PSYO 3134.03, PSYO 3137.03, PSYO 3161.03, PSYO 3165.03, PSYO 3370.03, PSYO 3371.03, PSYO 3775.03, PSYO 3100.03/3101.03 (Note: PSYO 3100/3101 full-year Independent Research Project may only be used to fulfill 3 credit hours of lab course requirement)
- Additional 21 credit hours of 3000/4000-level PSYO courses

BSc or BA (120 credit hour) Double Major in Psychology and another subject

The Double Major degree program allows students to combine a study of Psychology with another subject. The other subject may be from any discipline in the Faculty of Science (other than Neuroscience), the Faculty of Arts and Social Sciences, the Faculty of Computer Science or the College of Sustainability. A Double Major in Psychology requires 30 credit hours beyond the 1000 level. Psychology may be the primary subject (defined as the subject with the larger number of credits), or the secondary subject. If the primary subject area is from the Faculty of Arts and Social Sciences, the degree granted will be a BA.

Students enrolled in a Double Major program must have their program of study approved by advisors in both subject areas.

Departmental requirements

All students must fulfill the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections. Students are advised that a number of requirements differ for the BA and BSc degrees. In addition, students in a Double Major program in Psychology and another subject must complete the following:

Psychology as the **primary** or **secondary** subject

1000 level

Introduction to Psychology and Neuroscience I and II (six credit hours)

- Introduction to Psychology and Neuroscience I: From Neuron to Person (PSYO 1011.03 or equivalent) with grade of B- or better
- Introduction to Psychology and Neuroscience II: From Social Interaction to Psychopathology (PSYO 1012.03 or equivalent) with grade of B- or better
- OR
- a B- in the Psychology component of SCIE 1505.18: Integrated Science Program, or equivalent

2000 level

- PSYO 2000.03: Methods in Experimental Psychology
- PSYO 2501.03: Statistical Methods I
- PSYO 2470.03: Systems Neuroscience (or equivalent)
- Additional nine credit hours selected from:
- PSYO 2080.03: Social Psychology
- PSYO 2090.03: Developmental Psychology
- PSYO 2130.03: Introduction to Cognitive Psychology
- PSYO 2140.03: Learning
- PSYO 2150.03: Perceptual Processes
- PSYO 2160.03: Animal Behaviour
- PSYO 2220.03: Abnormal Behaviour
- PSYO 2570.03: Cellular Neuroscience

Note: It is recommended that PSYO 2000.03: Methods in Experimental Psychology and PSYO 2501.03: Statistical Methods I be taken concurrently.

3000 level

A minimum of 18-credit hours of 3000/4000-level PSYO courses, of which:

- Three credit hours of a 3000 level LAB course, selected from PSYO 3044.03, PSYO 3051.03, PSYO 3082.03, PSYO 3091.03, PSYO 3122.03, PSYO 3131.03, PSYO 3132.03, PSYO 3133.03, PSYO 3134.03, PSYO 3137.03, PSYO 3161.03, PSYO 3165.03, PSYO 3370.03, PSYO 3371.03, PSYO 3775.03, PSYO 3100.03/3101.03 (Note: PSYO 3100/3101 full-year Independent Research Project may only be used to fulfill 3 credit hours of lab course requirement)
- An additional 15 credit hours of 3000/4000-level PSYO courses

BSc or BA (90 credit hour) Minor in Psychology

The 90 credit hour degree with a Minor in Psychology is appropriate for students who want to study some Psychology but do not wish to complete the conventional four-year program. The degree is best suited for students who want a general Science degree with some specialization in Psychology. A 90 credit hour degree program is not suitable for students who wish to pursue graduate studies. With additional study, the degree may be upgraded to a 120 credit hour Major or Honours degree at a later date.

A 90 credit hour BSc or BA in Psychology is usually the preferred option for students who wish to combine studies in Psychology with a degree in Engineering (see [BSc/BEng or BA/BEng Concurrent Program](#) below).

See the [Minor in Psychology](#) section of this Calendar.

Minor in Psychology

This Minor is available to non-Neuroscience/Psychology students registered in a 120 credit hour Bachelor of Applied Computer Science, Bachelor of Arts, Bachelor of Commerce, Bachelor of Community Design, Bachelor of Computer Science, Bachelor of Informatics, Bachelor of Management, Bachelor of Music, Bachelor of Science or Bachelor of Science (Medical Science) program.

A BSc or BA (90 credit hour) degree program with a Minor in Psychology is also available.

Requirements

- A minimum of 18 to a maximum of 36 credit hours in Psychology courses at the 2000 level or higher, other than PSYO 2000.03: Methods in Experimental Psychology and PSYO 2501.03: Statistical Methods I, which are restricted to students in a Major/Honours program

Please note that entry into upper level Psychology (PSYO) courses requires completion of six credit hours, with a minimum grade of B-, at the first year level:

Introduction to Psychology and Neuroscience I: From Neuron to Person (PSYO 1011.03 or PSYO 1021.03 or PSYO 1031.03)

and

Introduction to Psychology and Neuroscience II: From Social Interaction to Psychopathology (PSYO 1012.03 or PSYO 1022.03 or PSYO 1032.03)

or SCIE 1506.09 and 1507.09: Integrated Science Program I and II, or equivalent.

Contact [Psychology](#) for more information.

Co-op, Minors, Certificates and Engineering Concurrent Programs for Students

Minors available to students in Psychology

Minor programs allow students to develop subject specialties in addition to their Major or Honours subjects. Minors in other subjects are normally added to 120 credit hour BSc or BA programs (including Science Co-op).

Students in a BSc or BA (120 credit hour) program in Psychology may choose to include a Minor selected from the [list of approved Minors](#) (except Neuroscience). Courses counted toward a Major or Honours subject cannot be used to fulfill the requirements of a Minor program.

Certificates

In combination with a BSc or BA in Psychology, students may obtain one or more Certificates. A Certificate indicates that a student has achieved a certain level of proficiency in a given area or subspecialty. Courses counted toward a Major, Honours or Minor subject may also be used to fulfill the requirements of a Certificate. Students must apply to the Certificate Coordinator to be considered for a Certificate. Certificates are awarded upon graduation and are noted on the student's academic transcript.

A complete list of [Faculty of Science Certificates](#) and requirements can be found at the beginning of the [Faculty of Science](#) section. Students may also work toward obtaining Certificates offered by other Faculties; some of these are listed in the [College of Arts and Science Degree Requirements](#) section.

Certificates of particular interest to student enrolled in a BSc or BA in Psychology include:

- [Certificate in Animal Behaviour](#) (Biology, Psychology and Neuroscience)
- [Certificate in Science Leadership and Communication](#)
- [Certificate in Neurotechnology](#)

BSc/BEng or BA/BEng Concurrent Program

Students interested in combining their interest in Psychology with a degree in Engineering may choose a BSc/BEng or BA/BEng Concurrent Program, normally completed in a 5 year period. Over the first three years, students complete the requirements for a 90 credit hour BSc or BA degree in Psychology and a Diploma of Engineering (the first two years of engineering studies). Two more years of engineering studies are then required to obtain a BEng. Interested students should see an undergraduate advisor from Psychology and from the Faculty of Engineering in their first year of study.

Required Psychology courses for a BSc/BEng or BA/BEng program in Psychology

1000 level

- Introduction to Psychology and Neuroscience I and II (six credit hours):
 - PSYO 1011.03 or PSYO 1021.03 or PSYO 1031.03 (with grade of B- or better)
 - PSYO 1012.03 or PSYO 1022.03 or PSYO 1032.03 (with grade of B- or better)
- OR
- a B- in the Psychology component of SCIE 1506.09 and 1507.09: Integrated Science Program I and II, or equivalent.
- A minimum of 18 credit hours in Psychology courses at the 2000 level or higher, other than PSYO 2000.03 and PSYO 2501.03, which are restricted to students in the Major and Honours programs

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are typically available to students in the second, third, and fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not obtain credit for both courses as designated.

Not all courses are offered each year. Please consult the current [timetable](#) for this year's offering. For further information please contact the department, or visit the department's website.

Course Notes

Students going on in Psychology are recommended to take Introduction to Psychology I and II courses with the lab component.

4000-Level Seminars

These seminars are intended for fourth-year Honours students. Third-year Honours students are eligible provided they obtain permission from the instructor, and the needs of all the fourth-year Honours students have been met. Courses offered and the topics covered vary from year to year. Go to the departmental website (www.dal.ca/psychandneuro) for more detail about course offerings and the topics to be covered in the current academic year.

Course Descriptions

PSYO 1011 Introduction to Psychology and Neuroscience I: From Neuron to Person

CREDIT HOURS: 3

Material covered includes historical background, research methodology, neural mechanisms that underlie behaviour, sensory and perceptual processes, states of consciousness, learning, and memory. The course is taught by several different instructors with expertise in the topics covered. Biweekly labs add depth to the material covered in lectures.

CALENDAR NOTES: To enrol in 2000-level Psychology courses, a grade of B- is required in Intro to Psychology I (PSYO 1011.02 or PSYO 1021.03 or PSYO 1031.03) AND Intro to Psychology II (PSYO 1012.03 or PSYO 1022.03 or PSYO 1032.03). COORDINATOR: L. Stevens

FORMATS: Online Delivery

LAB HOURS PER WEEK:

PSYO 2000 Methods in Experimental Psychology and Neuroscience

CREDIT HOURS: 3

This course provides a thorough grounding in scientific research methods used by experimental psychologists and neuroscientists. Lectures explore concepts, methods, and analytic tools employed to investigate human and animal behaviour and neurophysiology. Students also complete assignments and write reports on a series of supervised laboratory experiments to illustrate concepts presented in lectures.

CALENDAR NOTES: Restricted to students registered in Psychology programs. It is highly recommended that students take PSYO 2501.03, Statistical Methods I, concurrently with PSYO 2000.03. Students must attend the first lecture session.

COREQUISITES:

PREREQUISITES: PSYO 1011.03 (or PSYO 1021.03 or PSYO 1031.03) and PSYO 1012.03 (or PSYO 1022.03 or PSYO 1032.03); OR SCIE 1506.09/1507.09 (or SCIE1505X/Y.18). All prerequisite courses must have a grade of B- or better.

CROSSLISTED: NESC 2000.03

RESTRICTIONS:

EXCLUSIONS: NESC 2007.03

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

PSYO 2080 Social Psychology

CREDIT HOURS: 3

The course undertakes a critical analysis of social theory and research promoting a close and skeptical evaluation of our knowledge, our obedience and rebellion, our affections and hostilities, our willingness to help and injure, our attempts to explain ourselves and others, our erotic orientations, and our gender roles.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 1011.03 or PSYO 1021.03 or PSYO 1031.03 and PSYO 1012.03 or PSYO 1022.03 or PSYO 1032.03, OR SCIE 1506.09/1507.09 (or SCIE1505X/Y.18). All prerequisite courses must have a grade of B- or better.

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 2130 Introduction to Cognitive Psychology

CREDIT HOURS: 3

Lectures focus on the processes involved in transforming sensory information into the meaningful everyday world that we know. Initially, emphasis is on the visual system, and how information within that system is structured and organized, followed by a consideration of the character of internal representations used in thinking and remembering.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 1011.03 (or PSYO 1021.03 or PSYO 1031.03) and PSYO 1012.03 (or PSYO 1022.03 or PSYO 1032.03); OR SCIE 1506.09/1507.09 (or SCIE1505X/Y.18). All prerequisite courses must have a grade of B- or better.

CROSSLISTED: NESC 2130.03

PSYO 2160 Animal Behaviour

CREDIT HOURS: 3

Using concepts from behavioural biology and psychology, animal behaviourists attempt to explain why animals behave the way they do. The course examines topics such as mating and social systems, mate choice, the evolution of behaviour, and animal communication. The behaviour of a wide range of animals is studied.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 1011.03 (or PSYO 1021.03 or PSYO 1031.03) and PSYO 1012.03 (or PSYO 1022.03 or PSYO 1032.03); OR SCIE 1506.09/1507.09 (or SCIE1505X/Y.18) each with a grade of B- or better, or BIOL 1010.03 or BIOL 1020.03 and BIOL 1011.03 or BIOL 1021.03

CROSSLISTED: NESC 2160.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 2220 Abnormal Behaviour

CREDIT HOURS: 3

This course involves the study of a broad range of manifestations of abnormal behaviour in adults (e.g., anxiety disorders, substance abuse/dependence, schizophrenia, affective disorders, personality disorders). Causes of abnormal behaviour and the scientific techniques developed to better understand and intervene with various forms of behavioural dysfunction are appraised.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 1011.03 (or PSYO 1021.03 or PSYO 1031.03) and PSYO 1012.03 (or PSYO 1022.03 or PSYO 1032.03); OR SCIE 1506.09/1507.09 (or SCIE1505X/Y.18). All prerequisite courses must have a grade of B- or better.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 2470 Systems Neuroscience

CREDIT HOURS: 3

This course provides an introduction to the functional systems of the brain. We examine neural systems (e.g., the sensory systems, motor system, neurotransmitter-specific systems) individually. We explore their anatomy and function, neurobiological properties that make each unique, and factors that are common to all neural systems (e.g., development and plasticity).

CALENDAR NOTES: Restricted to students registered in Psychology or Neuroscience Major or Honours programs.

COREQUISITES:

PREREQUISITES: Introduction to Psychology I (PSYO 1011.03 or PSYO 1021.03 or PSYO 1031.03) and Introduction to Psychology II (PSYO 1012.03 or PSYO 1022.03 or PSYO 1032.03) EACH with a grade of B- or better, or Principles of Biology I (BIOL 1010.03 or BIOL 1020.03) and Principles of Biology II (BIOL 1011.03 or BIOL 1021.03) EACH with a grade of B- or better, OR SCIE 1506.09 and SCIE 1507.09 EACH with a grade of B- or better, or SCIE 1505X/Y.18 with a grade of B- or better.

CROSSLISTED: NESC 2470.03

RESTRICTIONS:

EXCLUSIONS: PHYL 2041.03, PSYO 2770.03

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 2501 Statistical Methods I

CREDIT HOURS: 3

This course provides an introduction to research design and statistics within Neuroscience and Psychology. Particular emphasis is placed on conducting and interpreting various statistical procedures, including descriptive and inferential statistics (z-test, t-test, ANOVA, chi-square tests), frequently used in these fields.

CALENDAR NOTES: Only students undertaking a Major or Honours degree in Psychology or Neuroscience are eligible for enrolment. This course does not fulfil any part of the Faculty of Science Mathematics requirement.

COREQUISITES: PSYO 2000.03 or NESC 2007.03 or instructor's consent

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: PSYO 3501.03

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 2570 Cellular Neuroscience

CREDIT HOURS: 3

This course explores the brain at the neuronal level. Material covered includes: the ionic basis of resting potentials; the electrical activity of neurons; synaptic transmission and plasticity; synthesis and action of synaptic transmitters; and drug actions. Cellular phenomena relevant to healthy and neurologically-dysfunctional systems are also discussed.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Introduction to Psychology I (PSYO 1011.03 or PSYO 1021.03 or PSYO 1031.03) and Introduction to Psychology II (PSYO 1012.03 or PSYO 1022.03 or PSYO 1032.03) EACH with a grade of B- or better, or Principles of Biology I (BIOL 1010.03 or BIOL 1020.03) and Principles of Biology II (BIOL 1011.03 or BIOL 1021.03) EACH with a grade of B- or better, OR SCIE 1506.09 and SCIE 1507.09 EACH with a grade of B- or better, or SCIE 1505X/Y.18 with a grade of B- or better.

CROSSLISTED: NESC 2570.03, PHYL 2570.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 3001 Directed Project in Psychology

CREDIT HOURS: 3

Primarily for Honours students wishing research experience. Requirements include a minimum grade of B in PSYO 2000.03, a high level of performance in other Psychology courses, an overall B+ (GPA 3.30) average, and securing a faculty advisor to supervise the research project. Note: This course cannot be used to fulfill the department's research laboratory requirement. **SIGNATURE REQUIRED Contact: pnistud@dal.ca**

CALENDAR NOTES: This course provides only a half-year research experience. Students wanting a full-year research experience in a lab should register for PSYO 3100.03 and PSYO 3101.03

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2000.03, PSYO 2501.03, previous or concurrent enrolment in two other Psychology or Neuroscience 3000-level courses, and Coordinator's consent.

CROSSLISTED: NESC 3001.03

RESTRICTIONS:

EXCLUSIONS: PSYO 3000.06, NESC 3000.06, PSYO 3100.03, PSYO 3101.03, NESC 3100.03, NESC 3101.03

FORMATS: Lab

LAB HOURS PER WEEK:

PSYO 3011 Experiential Learning in Science Communication I

CREDIT HOURS: 3

An experiential learning class for suitably-qualified senior students. This is a fundamentally 'learn by doing' course in which students have the opportunity to develop and consolidate teaching and communications skills in Psychology and Neuroscience. Students develop these skills through a series of communication-based projects, in-class instruction, and preparing, delivering, and marking lab materials for PSYO1011 and PSYO1012 lab groups (approx. 25 students). **SIGNATURE REQUIRED.**

CALENDAR NOTES: This course must be taken in the same academic year as PSYO 3012.03 and no credit can be given for one course without the other. A grade will be given for PSYO 3011.03 only after PSYO 3012.03 is completed.

COREQUISITES:

PREREQUISITES: B+ or better in PSYO 2000 (or equivalent), advanced courses in Psychology or Neuroscience, and Instructor's consent.

CROSSLISTED: NESC 3011.03

RESTRICTIONS:

EXCLUSIONS: NESC 3010.06

FORMATS: Lecture | Lab | Seminar

LAB HOURS PER WEEK:

PSYO 3012 Experiential Learning in Science Communication II

CREDIT HOURS: 3

An experiential learning class for suitably-qualified senior students. This is a fundamentally 'learn by doing' course in which students have the opportunity to develop and consolidate teaching and communications skills in Psychology and Neuroscience. Students develop these skills through a series of communication-based projects, in-class instruction, and preparing, delivering, and marking lab materials for PSYO1011 and PSYO1012 lab groups (approx. 25 students). **SIGNATURE REQUIRED.**

CALENDAR NOTES: This course must be taken after, and in conjunction with, PSYO 3011 in the same academic year and no credit can be given for one course without the other. A grade will be given for PSYO 3011.03 only after PSYO 3012.03 is completed.

COREQUISITES:

PREREQUISITES: PSYO 3011.03

CROSSLISTED: NESC 3012.03

RESTRICTIONS:

EXCLUSIONS: PSYO 3010.06

FORMATS: Lecture | Lab | Seminar

LAB HOURS PER WEEK:

PSYO 3043 Neurobiology of Learning

CREDIT HOURS: 3

This course examines the neurobiological processes underlying various forms of learning such as classical and operant conditioning, song learning by birds, spatial learning, and fear conditioning. Different methods used to study the neurobiology of learning, and the evolutionary origins of these systems are also considered.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2470.03/NESC 2470.03 or PSYO 2770.03 or PHYL 2041.03

CROSSLISTED: NESC 3043.03

RESTRICTIONS:

EXCLUSIONS: PSYO 3041.03

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 3044 Laboratory Methods of Learning and Conditioning

CREDIT HOURS: 3

A hands-on course on techniques used to test learning and memory in animals, including operant conditioning and spatial memory, and an exposure to the neurobiological systems involved. Students work in pairs to conduct a series of experiments, analyze data as a class, but write individual laboratory reports on each experiment.

CALENDAR NOTES: Students should be aware that some data collection occurs outside of class time.

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2007.03, PSYO 2501.03, and one of PSYO 2140.03/NESC 2140.03 or PSYO 2470.03/NESC 2470.03 or PSYO 2770.03

CROSSLISTED: NESC 3044.03

RESTRICTIONS:

EXCLUSIONS: PSYO 3042.03

FORMATS: Lab

LAB HOURS PER WEEK:

PSYO 3051 Sensory Neuroscience I Vision

CREDIT HOURS: 3

This course examines the neural basis for the perception of light, colour, movement, depth, and form. The course covers developmental events important for vision, and the extent to which vision is constrained by anatomical and physiological development.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2000.03, PSYO 2470.03/NESC 2470.03, and PSYO 2150.03/NESC 2150.03

CROSSLISTED: NESC 3051.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

PSYO 3052 Sensory Neuroscience II Hearing and Speech

CREDIT HOURS: 3

This course explores hearing at levels that include stimulus parameters and their psychophysical correlates, middle ear function, cochlear biophysics, central auditory neurophysiology, and principles of speech perception. We emphasize mechanisms of normal hearing and speech, but address pathology wherever it helps us understand the relation between neurophysiology and perception.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2007.03, and PSYO 2470.03/NESC 2470.03

CROSSLISTED: NESC 3052.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 3060 Psychological Perspectives of Sex & Gender

CREDIT HOURS: 3

Students will explore how the different areas of psychology understand, inform, and at times contradict, knowledge of and diversity in sex and gender.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 1011.03 and PSYO 1012.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Discussion

LAB HOURS PER WEEK:

PSYO 3082 Experimental Social Psychology

CREDIT HOURS: 3

This course attempts to develop students' skill level in empirical analysis of social psychology phenomena. Students complete two research projects during the term. The projects involve testing subjects, coding data, computer data analysis, and report writing. Familiarity with computer-based statistical analysis and text processing is strongly recommended.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2000.03, PSYO 2501.03, and PSYO 2080.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

PSYO 3084 Social Cognition

CREDIT HOURS: 3

This course focuses on the understanding people develop of themselves and others as social beings. The contributions of evolution, historical, and cultural factors are considered. The ways in which human development of social perception and cognition differs from that of other species are also examined.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2007.03, and one of PSYO 2080.03 or PSYO 2090.03 or PSYO 2220.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 3091 Methods in Developmental Psychology

CREDIT HOURS: 3

This course provides a survey of research methods in developmental psychology. It assumes knowledge of basic methodology and design, and concentrates on methods of relevance to the study of human development. In addition to lectures, students conduct a number of research exercises to gain experience in conducting research with children.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2000.03, PSYO 2501.03, and PSYO 2090.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

PSYO 3092 Early Development

CREDIT HOURS: 3

This course examines development in infancy and the preschool period. The main theme of the course is to examine the integration of perceptual, cognitive, emotional, social, and linguistic changes occurring during the first five years of life.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2007.03, and PSYO 2090.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 3093 Development of Language and Literacy Abilities

CREDIT HOURS: 3

This course examines the cognitive and linguistic processes underlying language acquisition and how they interact in influencing the development of language and literacy abilities.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2000.03, and PSYO 2090.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 3100 Independent Research in Psychology I

CREDIT HOURS: 3

Primarily for Honours students wishing research experience. Requirements include a minimum grade of B in PSYO 2000.03/NESC 2000.03, a high level of performance in other Psychology courses, an overall B+ (GPA 3.30) average, and securing a faculty advisor to supervise the research project. SIGNATURE REQUIRED. Contact: pnistud@dal.ca

CALENDAR NOTES: This course must be taken in the same academic year as PSYO 3101.03 and no credit can be given for one course without the other. The work undertaken in PSYO 3101.03 should be a continuation of that initiated in PSYO 3100.03. A grade will be given for PSYO 3100.03 only after PSYO 3101.03 is completed.

COREQUISITES:

PREREQUISITES: PSYO 2000.00 or NESC 2000.03 and PSYO 2501.03

CROSSLISTED: NESC 3100.03

RESTRICTIONS: Restricted to Psychology Majors and Honours Students

EXCLUSIONS: PSYO 3001.03, PSYO 3000.06

FORMATS: Lab | Experiential Learning

LAB HOURS PER WEEK:

PSYO 3101 Independent Research in Psychology II

CREDIT HOURS: 3

Primarily for Honours students wishing research experience. Requirements include a minimum grade of B in PSYO 2000.03/NESC 2000.03, a high level of performance in other Psychology courses, an overall B+ (GPA 3.30) average, and securing a faculty advisor to supervise the research project. SIGNATURE REQUIRED.

CALENDAR NOTES: This course must be taken in the same academic year as PSYO 3100.03 and no credit can be given for one course without the other. The work undertaken in PSYO 3101.03 should be a continuation of that initiated in PSYO 3100.03. A grade will be given for PSYO 3100.03 only after PSYO 3101.03 is completed.

EXCLUSIONS: PSYO 3000.06, PSYO 3001.03

FORMATS: Lab | Experiential Learning

LAB HOURS PER WEEK:

PSYO 3122 Methods in Experimental Clinical Psychology

CREDIT HOURS: 3

Students learn how to conduct research on topics in applied clinical psychology. Students conduct a series of research projects in the laboratory by serving both as subjects and experimenters, and analyze the results of these studies in written lab reports. Research studies serve to illustrate concepts discussed in class.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2000.03, PSYO 2501.03, and PSYO 2220.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

PSYO 3129 Childhood Psychopathology

CREDIT HOURS: 3

This course examines a wide range of mental health disorders in children (e.g., reading disability, autism, ADHD). The goal is to gain a better understanding of the nature of these disorders, to learn about evidence-based assessment and treatment, and to review research findings in relation to children's mental health.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2000.03; PSYO 2220.03 is recommended

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 3131 Research Methods in Attention

CREDIT HOURS: 3

The methods, findings, and theories that underpin our understanding of attention (alertness, preparation, selection, and control of information processing) are covered. Behavioural and neuroscientific evidence as well as computational models are examined in the lectures. Laboratories emphasize behavioural methods used to isolate and reveal the components of attention.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03/NESC 2000.03, PSYO 2501.03, and PSYO 2130.03/NESC 2130.03 or PSYO 2150.03/NESC 2150.03

CROSSLISTED: NESC 3131.03

RESTRICTIONS:

EXCLUSIONS: PSYO/NESC 3130.06

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

PSYO 3132 Research Methods in Visual Cognition

CREDIT HOURS: 3

Visual cognition is the study of how we extract meaning from our visual environment and use it to direct our behaviour. Emphasis is placed on object, face, and word recognition as revealed by normal behaviour, and by neuroimaging techniques and neuropsychological studies of brain-damaged individuals who have lost these recognition abilities.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2007.03, PSYO 2501.03, and PSYO 2130.03/NESC 2130.03 or PSYO 2150.03/NESC 2150.03

CROSSLISTED: NESC 3132.03

RESTRICTIONS:

EXCLUSIONS: PSYO 3130.06/NESC 3130.06

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

PSYO 3133 Research Methods in Memory

CREDIT HOURS: 3

This course examines human memory from the perspective of cognitive psychology and, to a lesser extent, cognitive neuroscience. Lectures emphasize cognitive approaches to the study of memory with an explicit focus on empirical research methods, data, and interpretation of results.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2007.03, and PSYO 2501.03, and PSYO 2130.03/NESC 2130.03

CROSSLISTED: NESC 3133.03

RESTRICTIONS:

EXCLUSIONS: PSYO 3130.06/NESC 3130.06

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

PSYO 3134 Research Methods in Psycholinguistics

CREDIT HOURS: 3

Provides hands-on experience with various methodologies employed in the study of language processing, and uses these to explore topics in psycholinguistics in greater depth. Methods covered may include reaction time, priming, self-paced reading, computational modeling, corpus-based research, and event-related brain potentials. Students serve as experimenters and participants in class experiments.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2007.03, PSYO 2501.03, and PSYO 3190.03/NESC 3190.03

CROSSLISTED: NESC 3134.03

RESTRICTIONS:

EXCLUSIONS: PSYO 3130.06/NESC 3130.06

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

PSYO 3137 Research Methods in Cognitive Neuroscience

CREDIT HOURS: 3

An overview of neuroimaging and other techniques of cognitive neuroscience (including fMRI, ERP, and others) focusing on how they work, how they are applied, and their inherent limitations. Labs include experience collecting and analyzing ERP data, demonstrations of fMRI scanning, and analysis of fMRI data.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03/NESC 2000.03, PSYO 2501.03, and PSYO 2130.03/NESC 2130.03

CROSSLISTED: NESC 3137.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

PSYO 3161 Measuring Behaviour

CREDIT HOURS: 3

Measuring behaviour is essential in the study of ethology, behavioural neuroscience, developmental, social and clinical psychology. The function of this laboratory course is to teach methods of observing and scoring behaviour using qualitative and quantitative methods. Sampling methods, behaviour description and analysis will be done in laboratory and naturalistic settings.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03/NESC 2000.03

CROSSLISTED: NESC 3161.03

RESTRICTIONS:

EXCLUSIONS:

LAB HOURS PER WEEK:

PSYO 3162 Advanced Animal Behaviour: Theories and Applications

CREDIT HOURS: 3

This course focuses on advanced theories and applications of animal behaviour, with a focus on proximate, integrative and applied questions. It offers a more in-depth analysis of topics covered in PSYO 2160.03/NESC 2160.03 and explores trends and issues in contemporary ethology, animal psychology and behavioural ecology.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03/NESC 2000.03 or BIOL 3062.03 or BIOL 3630.03, and PSYO 2160.03/NESC 2160.03

CROSSLISTED: NESC 3162.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 3165 Neuroethology

CREDIT HOURS: 3

Neuroethology explores how assemblies of neurons produce behaviour. The course typically uses a mix of simple model systems, including live animals (e.g., earthworms), visual systems, and robotics to examine how nervous systems produce behaviour.

CALENDAR NOTES: All experiments in the accompanying lab involve invertebrates. Students are required to handle invertebrates during the lab.

COREQUISITES:

PREREQUISITES: PSYO 2570.03/NESC 2570.03, and either PSYO 2000.03 or NESC 2000.03 or BIOL 2020.03

CROSSLISTED: NESC 3165.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lab

LAB HOURS PER WEEK:

PSYO 3170 Hormones and Behaviour

CREDIT HOURS: 3

This course examines how chemical signals of the neural, endocrine, and immune systems interact to influence the brain and behaviour and how neurotransmitters, cytokines, and hormones control neural and behavioural development, sexual, aggressive, and maternal behaviour. Hormone receptors in the brain, reproduction, puberty, brain sex differences, and stress are also examined.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2470.03/NESC 2470.03 or PHYL 2041.03

CROSSLISTED: NESC 3170.03

RESTRICTIONS:

EXCLUSIONS: PSYO 2170.03/NESC 2170.03

FORMATS:

LAB HOURS PER WEEK:

PSYO 3180 Psychoneuroimmunology/Ecological Immunology

CREDIT HOURS: 3

Our behaviour can influence how well we resist disease, and infection can alter behaviour. This course examines how immune systems and nervous systems interact in both vertebrates and invertebrates. Evolutionary forces that have led to the existence of these interactions are also examined.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: BIOL 1010.03 or BIOL 1020.03 and BIOL 1011.03 or BIOL 1021.03, and one of PSYO 2770.03 or PSYO 2470.03/NESC 2470.03 or PHYL 2041.03 or MICI 2100.03; OR BIOL 2020.03

CROSSLISTED: NESC 3180.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 3190 Psycholinguistics

CREDIT HOURS: 3

Explores the cognitive and neural bases of human language processing. Topics include: human language and other communication systems; phonology; morphology; semantics; syntax; discourse; first and second language acquisition; relationship of language to general cognitive functions such as music and mathematics; signed languages such as American Sign Language; and non-linguistic gesture.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03/NESC 2000.03 and PSYO 2130.03/NESC 2130.03

CROSSLISTED: NESC 3190.03

RESTRICTIONS:

EXCLUSIONS: PSYO/NESC 2190.03

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 3220 Clinical Psychology

CREDIT HOURS: 3

A survey of professional issues relevant to the practice of clinical psychology in hospitals, private practice, schools, the court system, and the community. Students gain knowledge about psychological services, and an understanding of the training, ethics, and expertise that clinical psychology brings to the delivery of mental health and healthcare.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03/NESC 2000.03, and PSYO 2220.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: PSYO 2120.03

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 3224 Forensic Psychology

CREDIT HOURS: 3

This course provides an introduction to the application of psychology to the various areas of the criminal justice system (i.e., courts, corrections, policing). In addition, consideration is given to professional and ethical issues that arise when psychological knowledge is applied in forensic contexts.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 1011.03 or PSYO 1021.03 or PSYO 1031.03 and PSYO 1012.03 or PSYO 1022.03 or PSYO 1032.03, or SCIE 1505X/Y.18, SCIE 1515X/Y.36, 1520X/Y.30 or 1540X/Y.27 (with a grade of B- or better), AND any 2000-level Psychology class, or PHYL 2041.03 or SOSA 2503.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 3225 Health Psychology

CREDIT HOURS: 3

A study of psychological influences on how people stay healthy and how they respond when they become ill. Using a biopsychosocial model, this course examines topics such as health behaviours and prevention, stress and coping, the patient in treatment settings, and management of chronic and terminal illness.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03/NESC 2000.03, and PSYO 2220.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 3227 Principles of Human Neuropsychology

CREDIT HOURS: 3

Clinical neuropsychologists study the organization of cognitive, emotional, and social functions in the brain to understand how brain damage alters human behaviour across the lifespan. We examine how clinicians diagnose and rehabilitate persons with brain diseases and disorders. Assignments emphasize application of textbook/lecture-based knowledge, critical thinking, and group presentation skills.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: NESC 2470.03/PSYO 2470.03 or PSYO 2770.03 or PHYL 2041.03, NESC/PSYO 2130.03 is recommended

CROSSLISTED: NESC 3227.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 3237 Drugs and Behaviour

CREDIT HOURS: 3

An introduction to behavioural psychopharmacology. The lectures involve basic anatomy, physiology, and chemistry of the nervous system. Behavioural effects and underlying mechanisms of various psychoactive drugs are discussed. Specific topics covered are alcohol, tobacco, amphetamines, cocaine, opiates, hallucinogens, tranquilizers, and antipsychotic drugs.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03/NESC 2000.03, and PSYO 2470.03/NESC 2470.03 or PSYO 2570.03/NESC 2570.03

CROSSLISTED: NESC 3237.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 3260 Biological Rhythms

CREDIT HOURS: 3

Daily (circadian) clocks generate rhythms in many functions, including sleep, reproduction, and intellectual performance. This course examines the nature of these biological clocks, their neural mechanisms, and their roles in regulating sleep and other aspects of physiology and in pathological conditions, including sleep disorders, jet lag, and psychiatric disorders.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03/NESC 2000.03 OR BIOL 1010.03 or BIOL 1020.03 and BIOL 1011.03 or BIOL 1021.03, and PSYO 2470.03/NESC 2470.03

CROSSLISTED: NESC 3260.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 3264 The Science of Sleep

CREDIT HOURS: 3

This course reviews the history, methods and results of the scientific study of sleep. Topics include: circadian and homeostatic regulation; developmental and cultural impacts; normal and abnormal function of neural and other control mechanisms; effects of sleep loss on performance and health; theories of the functions of sleep.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03/NESC 2000.03, and PSYO 2470.03/NESC 2470.03; OR BIOL 2020.03

CROSSLISTED: NESC 3264.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 3270 Developmental Neuroscience

CREDIT HOURS: 3

This course presents the fundamentals of development in complex and simple nervous systems. Cell differentiation, pattern regulation, proliferation, migration, and circuit development are discussed. Special attention is given to later developmental events such as neuronal growth cones, cell death, growth factors, neuron-target interactions, and synapse formation.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03/NESC 2000.03, and PSYO 2470.03/NESC 2470.03 and PSYO 2570.03/NESC 2570.03

CROSSLISTED: NESC 3270.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 3280 Personality

CREDIT HOURS: 3

Personality deals with questions such as: Is a science of persons possible? Are there types of personalities, or is each individual's personality unique? Is an individual's life history an expression of his or her personality, or is personality description merely a summary statement of behaviour whose cause lies elsewhere?

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03/NESC 2000.03, and one of PSYO 2080.03 or PSYO 2090.03 or PSYO 2220.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 3370 Neuroscience Laboratory I

CREDIT HOURS: 3

Introduction to several neurophysiological techniques used in contemporary neuroscience, employing extracellular and intracellular electrical recording and stimulation methods on nervous system preparations, both sensory and motor. After introductory instruction, students in groups of 2 or 3 get to perform quite sophisticated practical experiments themselves, enabled by computer-based data acquisition.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03/NESC 2000.03, PSYO 2470.03/NESC 2470.03 and PSYO 2570.03/NESC 2570.03

CROSSLISTED: NESC 3370.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lab

LAB HOURS PER WEEK:

PSYO 3371 Neuroscience Laboratory II

CREDIT HOURS: 3

Introduction to several techniques used in contemporary neuroscience. Students work under supervision in groups of 2 or 3 in regular labs that introduce neuroanatomical analyses using the following: Golgi impregnation, immunocytochemistry, dye-tracing of connections, electronmicroscopy of the retina, and neurotransmitter determinations using HPLC.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03/NESC 2000.03, PSYO 2470.03/NESC 2470.03 and PSYO 2570.03/NESC 2570.03

CROSSLISTED: NESC 3371.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lab

LAB HOURS PER WEEK:

PSYO 3390 Cognitive Development

CREDIT HOURS: 3

In this course we trace the development of the child's knowledge from birth to adolescence. Piaget's theory provides the background for the study of recent progress in our understanding of children's concepts of the physical world.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or NESC 2007.03, and PSYO 2090.03

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 3502 Statistical Methods II

CREDIT HOURS: 3

This course is the continuation of PSYO 2501.03, with the examination of more complex, but commonly used, inferential statistics. Topics include factorial ANOVA, ANCOVA, and multiple regression. This course is for prospective Honours students in Psychology or Neuroscience. Class work includes computer-based assignments.

CALENDAR NOTES: PSYO 3502.03 is to be taken **prior** to enrolling in PSYO 4501.03/NESC 4501.03 and PSYO 4502.03 and NESC 4502.03.

COREQUISITES:

PREREQUISITES: PSYO 2000.03/NESC 2000.03 (with a grade of B or above), PSYO 2501.03, or instructor's consent

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture | Lab

LAB HOURS PER WEEK:

PSYO 3581 History of Psychology I

CREDIT HOURS: 3

Drawing on writings from antiquity to the early years of the 20th century, we explore the nature of historical explanation, explanation in science, knowledge and truth, life, human nature, the domains of animal and man, neuroscience, and personality. Usually offered in the Fall term.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 1011.03 or PSYO 1012.03 or equivalent, or Instructor's consent

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: PSYO 3580.06

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 3582 History of Psychology II

CREDIT HOURS: 3

Drawing on writings from antiquity to the early years of the 20th century, we explore the nature of learning, thinking, memory, intelligence, mental illness and treatment, the unconscious, dreams, development, and the self. Usually offered in the Winter term. Familiarity with ideas developed in PSYO 3581 is helpful.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 1011.03 or PSYO 1012.03 or equivalent, or instructor's consent

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: PSYO 3580.06

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 3670 Genes, Brain and Behaviour

CREDIT HOURS: 3

The application of genetic techniques to the study of cognitive abilities, psychopathology, personality disorders, stress-related illnesses, and ethical issues in genetic research. The role of genetic factors in eating and drug abuse problems, as well as methods used to study gene-environment interactions are explored.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2470.03/NESC 2470.03 or PSYO 2770.03 or PHYL 2041.03, AND BIOL 1010.03 or BIOL 1020.03 and BIOL 1011.03 or BIOL 1021.03, or SCIE 1505X/Y.18, SCIE 1515.X/Y36, SCIE 1520X/Y.30, or SCIE 1540X/Y.27 (with a grade of B- or better); BIOL 2020.03 and BIOL 2030.03 are recommended.

CROSSLISTED: NESC 3670.03

RESTRICTIONS:

EXCLUSIONS: PSYO/NESC 2670.03

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 3770 Behavioural Neuroscience

CREDIT HOURS: 3

Behavioural neuroscience explores the neural and hormonal mechanisms underlying a variety of behavioural phenomena. The course focuses on neural correlates of social and emotional behaviour, motor behaviour and patterns, and behavioural toxicology processes (neurotoxins and endocrine disruptors).

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03/NESC 2000.03, and PSYO 2470.03/NESC 2470.03

CROSSLISTED: NESC 3770.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

PSYO 3775 Behavioural Neuroscience Laboratory

CREDIT HOURS: 3

Students motivated to pursue a career in Neuroscience, or in a related biomedical discipline, gain direct experience studying the nervous system in relation to behaviour. Students acquire skills in animal handling, ethics, and measuring behaviour. Emphasis is placed on histological/molecular analysis of the brain including examining protein and/or mRNA levels. SIGNATURE REQUIRED

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: PSYO 2000.03/NESC 2000.03, PSYO 2470.03/NESC 2470.03, PSYO 2501.03, and one of PSYO 2160.03/NESC 2160.03 or PSYO 3237.03/NESC 3237.03 or PSYO 3770.03/NESC 3770.03, and instructor's consent

PSYO 4501 Honours Thesis I

CREDIT HOURS: 3

Under a staff member's supervision, each student conducts original research in psychology. Students meet as a class to describe their proposed research and progress. A formal written report of the completed research is required. The final grade is based on originality and skill with emphasis on the written and oral reports. Please note: admission requires that the student has secured a willing supervisor. SIGNATURE REQUIRED.

CALENDAR NOTES: This course must be taken in the same academic year as PSYO 4502.03 and no credit can be given for one course without the other. The work undertaken in PSYO 4502.03 should be a continuation of that initiated in PSYO 4501.03. A grade will be given for PSYO 4501.03 only after PSYO 4502.03 is completed.

COREQUISITES:

PREREQUISITES: PSYO 2000.03 or equivalent with a grade of B+ or higher, PSYO 3502.03, admission to the honours program, and instructor's consent.

Science, Interdisciplinary

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are available to students in the second, third, and fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not take both courses as designated.

Not all courses are offered each year. Please consult the current timetable for this year's offering. For further information please contact the department.

Course Descriptions

SCIE 1111 Writing for the Sciences

CREDIT HOURS: 3

This course satisfies the Faculty of Science Writing Requirement. The course covers the history of writing and information theory, grammar and punctuation, sentences and paragraphs, scientific style, proposals, the scientific paper, citations and references, graphics, posters, and ethics. Weekly assignments/quizzes develop and reinforce writing skills introduced in lectures.

LAB HOURS PER WEEK:

SCIE 1506 Integrated Science I

CREDIT HOURS: 9

This course comprises the first half of the Integrated Science Program, a challenging first year option for BSc students interested in exploring connections among science disciplines. SCIE 1506 consists of lectures, laboratories, and field trips in Biology, Psychology and Statistics, as well as integrated lectures and workshops that cut across disciplines. It also has an interdisciplinary Writing in Science component that prepares students for research projects in SCIE 1507. Together, SCIE 1506 and SCIE 1507 provide comprehensive first-year preparation for major or honours degrees in science. Students in Integrated Science I must also register for CHEM 1011.03 and PHIL 1050.03 (Ethics in Science). Registration in PHYC 1190.03 or PHYC 1310.03 is recommended for students considering programs that require Physics. For calculus, students register in MATH 1000.03 (fall or winter) or MATH 1215.03 (fall or winter). Students taking MATH 1010.03 in fall term have the option to additionally take MATH 1010.03 in winter term.

CALENDAR NOTES: SCIE 1506 and SCIE 1507 are to be taken in consecutive terms. Both must be completed to receive credit for the Writing in Science component (equivalent to SCIE 1111.03).

COREQUISITES: PHIL 1050.03, CHEM 1011.03

LAB HOURS PER WEEK:

SCIE 1507 Integrated Science II

CREDIT HOURS: 9

This course comprises the second half of the Integrated Science Program, a challenging first year option for BSc students interested in exploring connections among science disciplines. SCIE 1507 consists of lectures, laboratories, and field trips in Biology, Psychology and Earth Sciences, as well as integrated lectures and workshops that cut across disciplines. The Writing in Science component, continued from Integrated Science I, includes a 10-week research project in which students apply the research design concepts and statistical analyses covered in Integrated Science I. Together, SCIE 1506 and SCIE 1507 provide comprehensive first-year preparation for major or honours degrees in science. Students in Integrated Science II must also register for CHEM 1012.03. Registration in MATH 1010.03 and in one of PHYC 1290.03 or PHYC 1320.03 is recommended for students considering programs with those requirements. For calculus, students must register in either MATH 1000 (fall or winter) or MATH 1215 (fall or winter).

CALENDAR NOTES: SCIE 1506 and SCIE 1507 are to be taken in consecutive terms. Both must be completed to receive credit for the

Writing in Science component (equivalent to SCIE 1111.03).

LAB HOURS PER WEEK:

SCIE 2001 Introduction to the History of Science I

CREDIT HOURS: 3

This course is a broad introductory survey of the central developments in the history of science, open to first and higher level students whatever their fields, and may be an introduction to further study in the history of science. It examines the most revolutionary figures from the Greeks to the modern period. The work of each of these had such a profound influence upon their own era and upon subsequent times that students in the humanities will find this course clarifies the nature of science and its cultural importance. Students in the sciences will recognize that their contributions have been permanently woven into the fabric we call science. In uncovering the sources and character of each of these transformations in the theory and practice of science, the course will challenge conventional views about the nature and place of science. This course may be taken as an arts or science credit.

CALENDAR NOTES: Credit can only be given for this course if SCIE 2001.03 and SCIE 2002.03 are completed in consecutive terms and partial credit cannot be given for a single term.

LAB HOURS PER WEEK:

SCIE 2800 Science Co-op Seminar Orientation

CREDIT HOURS: 0

This course is designed to introduce Science Co-op students to aspects of career development and preparation for their work terms.

This course is a prerequisite to the first work term and is a mandatory component of the Science-Cooperative Education program; all Science Co-operative Education students are required complete this course at least four months prior to the first workterm. A grade of Pass is required before students undertake the first work term experience.

LAB HOURS PER WEEK:

SCIE 3100 Experiential Learning in Medical Sciences

CREDIT HOURS: 3

This is an outside-the-classroom learning experience in which the student works to acquire knowledge and skills relevant to medical sciences under the direction of a supervisor. Suitable work environments may be located at any Dalhousie-affiliated site. Supervisors may be in any department/Faculty. This course is intended for students with no prior research experience.

CALENDAR NOTES: Open only to students in the Bachelor of Science Medical Sciences Program. Students are advised to take SCIE 3100 prior to SCIE 4901/4902 (Honours Project) or SCIE 4101/4102 (Directed Project). To register for this class, a student must find a supervisor willing to supervise the work experience. The student and supervisor must sign a learning agreement that has been approved by the course coordinator.

COREQUISITES:

PREREQUISITES: Permission of course coordinator required. To register for this class, a student must find a supervisor willing to supervise the work experience. This course is intended for students in their third year with no prior research experience. It is strongly recommended that students take SCIE 3100 prior to SCIE 4901/4902 or SCIE 4101/4102.

CROSSLISTED:

RESTRICTIONS: Open only to students in the Bachelor of Science Medical Sciences Program.

EXCLUSIONS: Lab work that is part of another scheduled class or paid employment cannot be used towards SCIE 3100. Only one experiential learning course per degree is permitted. Cannot be taken concurrently with PHYL 3600, SCIE 4901/4902 (Honours Project) or SCIE 4101/4102 (Directed Project).

FORMATS: Other (explain in comments)

LAB HOURS PER WEEK:

SCIE 3111 Communicating Science

CREDIT HOURS: 3

A course for senior science students to hone communication skills. Students (1) learn to communicate scientific information to various non-specialist audiences, and (2) prepare and deliver tutorials to small groups of SCIE 1111.03 students. The course allows students to use different communication styles and topics to build a portfolio.

LAB HOURS PER WEEK:

SCIE 3333 Science Education: Introduction to Principles and Practices

CREDIT HOURS: 3

Students investigate and apply key principles related to teaching and learning in sciences. Emphasized are: (1) conveying how science works; (2) the nature of learning; (3) the science-society connection; (4) teaching concepts that cross the sciences such as patterns, scale, visualization, complexity, uncertainty, bias, and multiple perspectives. Experiential learning is an integral component.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Minimum of 4 courses at or above the second year level AND permission of the Instructor.

CROSSLISTED:

RESTRICTIONS: E1 and E2

EXCLUSIONS:

FORMATS: Tutorial | Seminar | Experiential Learning

LAB HOURS PER WEEK:

SCIE 3600 Exploring Geographic Information Systems

CREDIT HOURS: 3

This course provides a general overview of Geographic Information Systems (GIS), examining what GIS is, what it can do, and how it works. The course is aimed at students studying in all disciplines and will involve creating, understanding, manipulating and displaying

geographic data. Topics will include data models, analysis of vector and raster data, creation of spatial databases, the Global Positioning System and other aspects of spatial data. Lectures (3 per week) will explore basic aspects of GIS in detail and introduce material to be covered in the labs. Labs are held once per week and will provide practical experience in data manipulation and problem solving.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Two years of university study

LAB HOURS PER WEEK:

SCIE 4005 Major Capstone Course in Medical Sciences

CREDIT HOURS: 3

Integration of multiple Medical Sciences disciplines through in-depth analysis of a series of 5 medical "cases" through expert lectures, group discussion, and small group presentations. Cases are selected from across all biomedical disciplines (Medicine, Dentistry, Nursing, Physiotherapy, Occupational Therapy, etc), reflecting a wide range of patient ages and demographics. This course is required by Medical Sciences students not pursuing Honours. Medical Science Honours students take SCIE 4900X/Y.06 instead.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Writing requirement, PHAC 3001.03, MICI 3115.03, ANAT 3010.03, PATH 3000.03, PHIL 2810.03

CROSSLISTED:

RESTRICTIONS: Open only to fourth year Major students in the Bachelor of Sciences Medical Sciences Program

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

SCIE 4100 Directed Project in Medical Sciences

CREDIT HOURS: 6

This is an outside-the-classroom learning experience in which the student works on a research project relevant to medical sciences under the direction of a supervisor. Suitable work environments may be located at any Dalhousie-affiliated site. Supervisors may be in any department/Faculty.

CALENDAR NOTES: To register for this class, a student must find a supervisor willing to supervise the work experience. The student and supervisor must sign a learning agreement that has been approved by the course coordinator.

COREQUISITES:

PREREQUISITES: Permission of coordinator required. Students are advised to have at least 2 senior (3000- or 4000-level) courses on topics relevant to the research area, including SCIE3100 (Research Skills in Medical Sciences). Minimum B average (GPA 3.0) in at least three of the following Medical Sciences 3rd Year core courses (PHAC 3001, MICI 3115, ANAT 3010, PATH 3000, PHIL 2810).

CROSSLISTED:

RESTRICTIONS: Open only to Major students in the Bachelor of Science Medical Sciences Program.

EXCLUSIONS: Lab work that is part of another scheduled class or paid employment cannot be used towards SCIE 4100X/Y. Cannot be taken concurrently with SCIE3100. Cannot be taken with SCIE 4900X/Y.

FORMATS: Other (explain in comments)

LAB HOURS PER WEEK:

SCIE 4101 Directed Project in Medical Sciences I

CREDIT HOURS: 3

This is the first half of an outside-the-classroom learning experience in which the student works on a research project relevant to medical sciences under the direction of a supervisor. Suitable work environments may be located at any Dalhousie-affiliated site. Supervisors may be in any department/Faculty.

CALENDAR NOTES: Open only to Major students in the Bachelor of Science Medical Sciences Program. To register for this class, a student must find a supervisor willing to supervise the work experience. The student and supervisor must sign a learning agreement that has been approved by the course coordinator. Grades will not be assigned for SCIE 4101 until SCIE 4102 has also been completed.

COREQUISITES:

PREREQUISITES: Permission of coordinator required. Students are advised to have at least 2 senior (3000- or 4000-level) courses on topics relevant to the research area, including SCIE 3100 (Experiential Learning in Medical Sciences). Minimum B average (GPA 3.0) in at least three of the following Medical Sciences 3rd year core courses (PHAC 3001, MICI 3115, ANAT 3010, PATH 3000, PHIL 2805 or 2810).

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: Open only to Major students in the Bachelor of Science Medical Sciences Program. Research work that is part of another scheduled class or paid employment cannot be used towards SCIE 4101. Cannot be taken concurrently with SCIE 3100. Cannot be taken with SCIE 4901 or SCIE 4902.

FORMATS: Other (explain in comments)

LAB HOURS PER WEEK:

SCIE 4102 Directed Project in Medical Sciences II

CREDIT HOURS: 3

This is an outside-the-classroom learning experience in which the student works on a research project relevant to medical sciences under the direction of a supervisor. Suitable work environments may be located at any Dalhousie-affiliated site. Supervisors may be in any department/Faculty.

CALENDAR NOTES: Open only to Major students in the Bachelor of Science Medical Sciences Program. To register for this class, a student must find a supervisor willing to supervise the work experience. The student and supervisor must sign a learning agreement that has been approved by the course coordinator. No grade will appear for SCIE 4101 until SCIE 4102 has also been completed.

COREQUISITES:

PREREQUISITES: Permission of coordinator required. Students are advised to have at least 2 senior (3000- or 4000-level) courses on topics relevant to the research area, including SCIE 3100 (Experiential Learning in Medical Sciences). Minimum B average (GPA 3.0) in at least three of the following Medical Sciences 3rd year core courses (PHAC 3001, MICI 3115, ANAT 3010, PATH 3000, PHIL 2805 or 2810).

FORMATS: Other (explain in comments)

LAB HOURS PER WEEK:

SCIE 4444 Leadership in Science

CREDIT HOURS: 3

Students will develop leadership skills and build confidence while applying their scientific knowledge. Through in-class activities and a science-based practicum, students gain experience with various aspects of leadership, allowing for integration and application of their expertise.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Instructor permission. Students should have completed at least three (3) third year courses in their declared major and have a minimum of B+ average in their major.

CROSSLISTED: BIOL 4444.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

SCIE 4445 Science Leadership and Communication Portfolio

CREDIT HOURS: 0

This zero-credit course is the final component of the Science Leadership and Communication Certificate requirement. Students should only register for this course in the semester that they are submitting their completed portfolio for evaluation. The portfolio represents an opportunity for you to highlight and synthesize your learning about leadership and communication in science throughout your undergraduate years in a concise package, and includes reflection on each of the required Certificate courses, their interconnections, and the practica involved.

CALENDAR NOTES: 1. This is a zero-credit course, carrying a pass-fail grading scheme. 2. Deadline for submission of the portfolio is 6 weeks prior to graduation.

COREQUISITES:

PREREQUISITES: Registration in the Science Leadership and Communication Certificate. Completion or co-completion of the required Certificate courses.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Other (explain in comments)

LAB HOURS PER WEEK:

SCIE 4701 Science and Technology Innovation, Commercialization, and Entrepreneurship I

CREDIT HOURS: 3

Capstone course providing an introduction to the processes and mindsets around innovation and commercialization of science and technology, including entrepreneurship. Experiential learning format; teams work to develop and pitch a viable business model for a scientific solution to a real-world problem. Complemented by lectures, case studies, and guest presentations.

CALENDAR NOTES: This course must be taken in the same academic year as SCIE 4702.03 and no credit can be given for one course without the other. The work undertaken in SCIE 4702.03 should be a continuation of that initiated in SCIE 4701.03.

COREQUISITES: SCIE 4702.03

PREREQUISITES: Registration by instructor's permission. Undergraduates should have completed at least three full years (90 credit hours) of university study, and have previous exposure to innovation and entrepreneurship such as events offered by Dalhousie sandbox programs.

CROSSLISTED:

RESTRICTIONS: Registration by instructor's permission.

EXCLUSIONS: NESC/PSYO 4705.03, SCIE 5701.06

FORMATS: Lecture | Lab | Tutorial | Experiential Learning

LAB HOURS PER WEEK:

SCIE 4702 Science and Technology Innovation, Commercialization, and Entrepreneurship II

CREDIT HOURS: 3

Capstone course providing an introduction to the processes and mindsets around innovation and commercialization of science and technology, including entrepreneurship. Experiential learning format; teams work to develop and pitch a viable business model for a scientific solution to a real-world problem. Complemented by lectures, case studies, and guest presentations.

CALENDAR NOTES: This course must be taken in the same academic year as SCIE 4701.03 and no credit can be given for one course without the other. The work undertaken in SCIE 4702.03 should be a continuation of that initiated in SCIE 4701.03.

COREQUISITES:

PREREQUISITES: SCIE 4701.03. Registration by instructor's permission.

CROSSLISTED:

LAB HOURS PER WEEK:

SCIE 4705 Neurotechnology Innovation, Commercialization, and Entrepreneurship

CREDIT HOURS: 3

An introduction to neurotechnology, clinical neuroscience, and commercialization. Topics include neuroimaging methods; diagnosis, assessment, and treatment of nervous system-related disorders; the process of innovation; and business fundamentals. Features guest lectures by successful scientists and entrepreneurs, as well as hands-on workshops and lab exercises on business and neurotechnology topics **SIGNATURE REQUIRED**

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: Two full years of undergraduate University study, plus instructor's consent.

CROSSLISTED: PSYO 4705.03, NESC 4705.03

RESTRICTIONS:

EXCLUSIONS: PSYO 7705.06

FORMATS: Lecture

LAB HOURS PER WEEK:

SCIE 4850 Geographic Information Science Research Project

CREDIT HOURS: 3

Students learn how to design, manage and complete a research project in Geographic Information Science (GIS). Projects must include a substantive analytical component where GIS is central to methods employed. Evaluation includes a written report, oral presentation and digital data. Required for completion of the Certificate in GIS.

CALENDAR NOTES:

COREQUISITES: EARTH 5420.03/GEOG 4520.03/ERTH4520.03

PREREQUISITES: ENVS 3500.03/ERTH 3500.03/GEOG 3500.03 and permission of instructor

CROSSLISTED: BIOL 4850.03, ENVS 4850.03, EARTH 4850.03, GEOG 4850.03

RESTRICTIONS:

EXCLUSIONS: Restricted to 3rd and 4th year students

LAB HOURS PER WEEK:

SCIE 4901 Medical Sciences Honours Research & Thesis I

CREDIT HOURS: 3

The course is required of, and restricted to, students in the Medical Sciences Honours program. Students conduct a research project in the laboratory or research site of an approved faculty member and attend weekly meetings of the class. Students have the flexibility to undertake their research in a department of their choice, subject to the approval of the Honours Committee. Class participation, an interim report, a written thesis, and a presentation at the Annual Medical Sciences Symposium are required for completion. No grade will appear for the course in the Fall term; grade for the course will appear in the Winter term.

CALENDAR NOTES: Students will not receive a grade for SCIE 4901 until both SCIE 4901 and SCIE 4902 have been completed.

COREQUISITES:

PREREQUISITES: An approved research project supervisor (as determined by the Medical Sciences Honours Committee) and minimum average GPA of 3.3 calculated from the following core courses: BIOL 2020, BIOL 2030, PHYL 2041, PHYL 2044, MICI 2100, BIOC 2300, SOSA 2503, PHIL 2810 or 2805, PHAC 3001, MICI 3115, ANAT 3010, PATH 3000, CHEM 2401, and CHEM 2402. At the time of application, you are unlikely to have completed all the listed core courses; therefore, your GPA of the completed courses at the time of application must be equal to or greater than 3.3 (B+ average). A GPA of at least 3.3 is also required for all core courses at the time of graduation.

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS: SCIE 4900.06

FORMATS: Other (explain in comments)

LAB HOURS PER WEEK:

SCIE 4902 Medical Sciences Honours Research & Thesis II

CREDIT HOURS: 3

The course is required of, and restricted to, students in the Medical Sciences Honours program. Website: www.dal.ca/faculty/science/math-stats.html

Introduction

It doesn't matter if you want to design computer games, study the safety of nuclear power plants, analyze the stock market or conduct political polls: scientists of all kinds work with numbers to measure and explore the world. That's where statistics comes in. Statistics is the study of the collection, organization, analysis, interpretation and presentation of data. Extracting knowledge from data helps us plan for the future and improve our quality of life.

The Dalhousie Statistics program is the only program in the Maritimes that offers a full range of undergraduate and graduate programs. Our undergraduate courses are also approved by the accreditation committee of the Statistics Society of Canada, so that our graduates can apply for the Associate Statistician designation.

Statistics makes a great undergraduate degree with wide applicability and is an essential component of any program in the sciences or social sciences.

Degree Programs

The Department of Mathematics and Statistics offers the following degree programs in Statistics

- BSc or BA (120 credit hour) Honours (Concentrated)*
- BSc or BA (120 credit hour) Combined Honours*
- BSc or BA (120 credit hour) Major*
- BSc or BA (120 credit hour) Double Major*
- BSc or BA (90 credit hour) Minor in Statistics
- Minor in Statistics

* May be combined with Minor programs from other disciplines

Departmental requirements for each degree program can be seen by following the links in the menu to the right.

In addition to departmental requirements, students must satisfy the requirements outlined in the [Academic Regulations](#) and the [College of Arts and Science Degree Requirements](#) sections. Students are advised that a number of requirements differ for the BA and BSc degrees.

A student is governed by the academic regulations in place at the time of initial enrolment, as long as the degree is completed within the time permitted (10 years). Subsequent changes in regulations shall apply only if the student so elects. Students applying the old academic regulations should consult the calendar of the appropriate year.

Students should plan their programs of study carefully and are strongly encouraged to do so in consultation with a Statistics undergraduate academic advisor.

Staff

Dean

Moore, C., BA (Hons), PhD (Cambridge), Professor (Psychology)

Chair of the Department

Janssen, J. C., MSc (Eindhoven), PhD (Lehigh)

Director of Division

Dowd, M., PhD (Dalhousie)

Faculty Advisor

Smith, B., MSc (Calgary), PhD (Berkeley), Honours and Undergraduate Advisor, Statistics

Kenney, T., BA (Hons), MMath, PhD (Cambridge), Honours and Undergraduate Advisor, Actuarial Science

Brown, J., MSc, PhD (Toronto) Co-op Coordinator

Professor Emeritus

Field, C. A., MSc, PhD (Northwestern)

Hamilton, D. C., MA, PhD (Queen's)

Professors

Beiko, R., PhD (Ottawa), cross appointment with Computer Science

Bielewski, J., MA, PhD (Texas A & M), jointly with Biology

Dowd, M., PhD (Dalhousie)

Gu, H., MSc (Peking), PhD (Hong Kong)

Mills-Flemming, J., MSc (TUNS), PhD (Dalhousie), Graduate Advisor Statistics

Sarhan, A., PhD (Gdansk)

Smith, B., MSc (Calgary), PhD (Berkeley)

Susko, E., PhD (Waterloo)

Thompson, K., MSc (Manchester), PhD (Liverpool) (CRC Chair), jointly with Oceanography

Zhao, Y., MSc (Western Kentucky), PhD (UBC), cross appointment with Management

Assistant Professors

Kenney, T., BA (Hons), MMath, PhD (Cambridge), cross appointment with Mathematics

Ho, L., PhD (Univ of Wisconsin)

University Teaching Fellows

Sarhan, A., PhD (Gdansk)

Adjunct Professors

Gupta, R. P., PhD (Delhi) Dalhousie

Herbinger, C., MSc (Paris), PhD (Dalhousie), jointly with Biology

Millar, M., PhD (Dalhousie) MSVU
Sneddon, G., PhD (Dalhousie) MSVU
Wang, X., PhD (Waterloo) St. FX

Statistical Consultant

Wang, H., PhD (Ottawa)

Please refer to the entry for the [Department of Mathematics and Statistics](#) for a full listing of the members of the Department and information on other programs offered by the Department.

BSc or BA (120 credit hour) Concentrated Honours in Statistics

Students who want a challenging program resulting in comprehensive knowledge of both theoretical and applied Statistics may want to enroll in an Honours program. Students interested in eventually pursuing graduate studies are particularly encouraged to consider Honours. Honours students must write a research-based Honours thesis. The research thesis and the Honours Qualifying Examination requirement are satisfied through completion of STAT 4950.03.

Admission to Honours

Students must apply for admission to Honours programs. Students considering Honours in Statistics should consult with a Statistics Honours Advisor early in their studies.

Departmental requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a BSc or BA Concentrated Honours program in Statistics must complete the following courses:

1000 level

- MATH 1000.03: Differential and Integral Calculus I/MATH 1010.03: Differential and Integral Calculus II or MATH 1215.03: Life Sciences Calculus/MATH 1010.03: Differential and Integral Calculus II
- STAT 1060.03: Introductory Statistics for Science and Health Sciences¹
- MATH 1030.03: Matrix Theory and Linear Algebra I

2000 level

- CSCI 2202.03: Computer Modelling for Scientists
- MATH 2001.03: Intermediate Calculus I
- MATH 2002.03: Intermediate Calculus II
- MATH 2040.03: Matrix Theory and Linear Algebra II or MATH 2135.03: Linear Algebra
- STAT 2060.03: Introduction to Probability and Statistics
- STAT 2080.03: Statistical Methods for Data Analysis and Inference³
- STAT 2450.03 Introduction to Data Mining with R
- At least two additional statistics⁴ courses at or above the 2000 level (6 credit hours)

3000 level

- STAT 3340.03: Regression and Analysis of Variance
- STAT 3350.03: Design of Experiments
- STAT 3360.03: Probability

- STAT 3380.03: Sample Survey Methods
- STAT 3460.03: Intermediate Statistical Theory
- At least two mathematics⁵ courses at the 3000 level (6 credit hours)

4000 level

- STAT 4066.03: Advanced Statistical Theory I
- One of STAT 4350.03: Applied Multivariate Analysis, STAT 4390.03: Time Series Analysis and STAT 4620.03: Data Analysis
- STAT 4950.03: Honours Research Project

¹The requirement to take STAT 1060.03: Introductory Statistics for Science and Health Sciences may be waived for students entering the program in their second year.

²Some students may take STAT 2080.03 in the first year of their degree program.

³Statistics courses are any courses listed or cross-listed as STAT : Note that the following math courses count toward the required credit hours in statistics

- MATH 2001.03: Intermediate Calculus I
- MATH 2002.03: Intermediate Calculus II
- MATH 2040.03: Matrix Theory and Linear Algebra II

⁴3000 level mathematics courses can be chosen from the following list, and count toward the required credit hours in statistics:

- MATH 3045: Curves and Surfaces
- MATH 3080: Introduction to Complex Variables
- MATH 3120: Differential Equations
- MATH 3140: Introduction to Wavelets
- MATH 3210: Introduction to Numerical Analysis
- MATH 3260: Applied Differential Equations
- MATH 3300: Optimization
- MATH 3330: Applied Graph Theory
- MATH 3400: Classical Game Theory
- MATH 3500X/Y.06: Intermediate Analysis
- MATH 3501: Intermediate Analysis I
- MATH 3502: Intermediate Analysis II
- MATH 3900: Financial Mathematics

BSc or BA (120 credit hour) Combined Honours in Statistics and another subject

Students who wish to study Statistics in conjunction with another subject may wish to pursue a Combined Honours degree program. The other subject may be any discipline from the Faculty of Science, the Faculty of Arts and Social Sciences, the Faculty of Computer Science, or the College of Sustainability. Statistics may be the primary subject (defined as the subject with the larger number of credits at the second year or above), or the secondary subject.

Students planning to enroll in a Combined Honours program should consult with academic advisors from both programs early in their studies. Students must have their program of study approved by Academic Advisors in both subject areas. Students must complete a research thesis and an Honours Qualifying Examination in one of the two

subject areas, a requirement normally completed in the primary subject area. For Statistics, this requirement is satisfied through STAT 4950.03.

Departmental requirements

Students in a BSc or BA Combined Honours program in Statistics and another subject must fulfill the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections.

- Courses must include:
- Math 1030.03: Matrix Theory and Linear Algebra I
- MATH 2001.03: Intermediate Calculus I
- STAT 2060.03: Introduction to Probability and Statistics
- STAT 2080.03: Statistical Methods for Data Analysis and Inference
- STAT 3340.03: Regression and Analysis of Variance
- STAT 3360.03: Probability
- STAT 3460.03: Intermediate Statistical Theory
- At least one STAT course (3 credit hours) at the 4000 level

If Statistics is the primary subject, students will also complete

- STAT 4950.03: Honours Research Project
- At least nine additional credit hours of Statistics⁴ courses at or above the 2000 level, at least three of which must be a MATH course at the 3000 level.

If Statistics is the secondary subject, students will also complete

- At least 9 credit hours at or above the 2000 level, at least 6 credit hours of which must be at the 3000 level (and may include a 3 credit hour 3000 level MATH course).

⁴Statistics courses are any courses listed or cross-listed as STAT. The following can also be counted towards statistics credit hours:

- MATH 2002.03: Intermediate Calculus II
- MATH 2040.03: Matrix Theory and Linear Algebra II or Math 2135.03 Linear Algebra

BSc or BA (120 credit hour) Major in Statistics

The 120 credit hour Major is suited to students who want to focus on Statistics, but wish to have a program that is somewhat less constrained than the Honours program.

Departmental requirements

In addition to fulfilling the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections, students in a BSc or BA Major program in Statistics must complete the following courses:

1000 level

- MATH 1000.03: Differential and Integral Calculus I/MATH 1010.03: Differential and Integral Calculus II or MATH 1215.03: Life Sciences Calculus/MATH 1010.03: Differential and Integral Calculus II
- STAT 1060.03: Introductory Statistics for Science and Health Sciences¹
- Math 1030.03: Matrix Theory and Linear Algebra I

2000 level

- CSCI 2202.03: Computer Modelling for Scientists
- MATH 2001.03: Intermediate Calculus I
- MATH 2002.03: Intermediate Calculus II
- MATH 2040.03: Matrix Theory and Linear Algebra II or MATH 2135.03: Linear Algebra
- STAT 2060.03: Introduction to Probability and Statistics
- STAT 2080.03: Statistical Methods for Data Analysis and Inference³
- [STAT 2450.03](#): Introduction to Data Mining with R

3000 level

- STAT 3340.03: Regression and Analysis of Variance
- STAT 3360.03: Probability
- STAT 3380.03: Sample Survey Methods or STAT 3350.03: Design of Experiments
- STAT 3460.03: Intermediate Statistical Theory
- At least 2 additional Statistics⁴ courses (6 credit hours) at or above the 3000 level, including at least one course (3 credit hours) at the 4000 level

¹The requirement to take STAT 1060.03: Introductory Statistics for Science and Health Sciences may be waived for students entering the program in their second year.

³Some students may take STAT 2080.03 in the first year of their degree program.

⁴Statistics courses are any courses listed or cross-listed as STAT. Note that the following math courses count toward the required credit hours in Statistics :

- MATH 2001.03: Intermediate Calculus I
- MATH 2002.04: Intermediate Calculus II
- MATH 2040.03: Matrix Theory and Linear Algebra II or Math 2135.03 Linear Algebra

BSc or BA (120 credit hour) Double Major in Statistics and another subject

The Double Major degree program allows students to combine a study of Statistics with another subject. The other subject may be any discipline from the Faculty of Science, the Faculty of Arts and Social Sciences, the Faculty of Computer Science or the College of Sustainability. Statistics may be the primary subject (defined as the subject with the larger number of credits), or the secondary subject. If the primary subject area is from the Faculty of Arts and Social Sciences, the degree granted will be a BA.

It is recommended that students enrolled in a Double Major program consult with advisors in both subject areas.

Departmental requirements

Students in a BSc or BA Double Major in Statistics and another subject must fulfill the requirements outlined in the [Academic Regulations](#) and [College of Arts and Science Degree Requirements](#) sections.

- Courses must include:
- Math 1030.03: Matrix Theory and Linear Algebra I
- MATH 2001.03: Intermediate Calculus I
- STAT 2060.03: Introduction to Probability and Statistics
- STAT 2080.03: Statistical Methods for Data Analysis and Inference
- STAT 3340.03: Regression and Analysis of Variance
- STAT 3360.03: Probability
- STAT 3460.03: Intermediate Statistical Theory

- At least 4 additional statistics courses⁴ at or above the 2000 level (12 credit hours), including at least 9 credit hours at or above the 3000 level (these 9 credit hours must comprise at least 3 credit hours of STAT, with the remaining 6 credit hours being in either STAT or MATH).

⁴Statistics courses are any courses listed or cross-listed as STAT. The following can also be counted towards statistics credit hours:

- MATH 2002.03: Intermediate Calculus II
- MATH 2040.03: Matrix Theory and Linear Algebra II or Math 2135.03 Linear Algebra

BSc or BA (90 credit hour) Minor in Statistics

The 90 credit hour Minor in Statistics is appropriate for students who want to study some Statistics but do not wish to complete the conventional four-year program. The degree is best suited for students who want a general science degree with some specialization in Statistics. A 90 credit hour degree program is not suitable for students who wish to pursue graduate studies. With additional study, the degree may be upgraded to a 120 credit hour Major or Honours degree at a later date.

A 90 credit hour BSc or BA in Statistics is usually the preferred option for students who wish to combine studies in Statistics with a degree in Engineering (see [BSc/BEng or BA/BEng Concurrent Program](#)).

See the [Minor in Statistics](#) section of this Calendar.

Minor in Statistics

This minor is available to students registered in a 120 credit hour Bachelor of Applied Computer Science, Bachelor of Arts, Bachelor of Commerce, Bachelor of Community Design, Bachelor of Computer Science, Bachelor of Informatics, Bachelor of Management, Bachelor of Music, Bachelor of Science or Bachelor of Science (Medical Sciences) program.

A BSc or BA (90 credit hour) degree program with a minor in Statistics is also available.

Requirements

A minimum of 18 to a maximum of 36 credit hours in Statistics, which must include:

- MATH 1030.03: Matrix Theory and Linear Algebra
- STAT 2060.03: Introduction to Probability and Statistics
- STAT 2080.03: Statistical Methods for Data Analysis and Inference
- STAT 3340.03: Regression and Analysis of Variance
- At least two additional statistics¹ course (6 credit hours) at the 2000 level or above
- At least one additional statistics course (3 credit hours) at the 3000 level or above

¹Statistics courses are any courses listed or cross-listed as STAT. The following can also be counted as 2000 level statistics credit hours:

- MATH 2001.03: Intermediate Calculus
- MATH 2002.03: Intermediate Calculus II
- MATH 2040.03: Matrix Theory and Linear Algebra II or Math 2135.03 Linear Algebra
- BIOL 4062.03: Analysis of Biological Data

Contact [Statistics](#) for more information.

Co-op, Minors, Certificates and Engineering Concurrent Programs for Students

Minors available to students in Statistics

Minor programs allow students to develop subject specialties in addition to their Major or Honours subjects. Minors in other subjects are normally added to 120 credit hour BSc or BA programs.

Students in a BSc or BA (120 credit hour) program in Statistics may choose to include a Minor selected from the [list of approved Minors](#). Courses counted toward a Major or Honours subject cannot be used to fulfill the requirements of a Minor program.

Certificates

In combination with a BSc or BA in Statistics, students may obtain one or more Certificates. A Certificate indicates that a student has achieved a certain level of proficiency in a given area or subspecialty. Courses counted toward a Major, Honours or Minor subject may also be used to fulfill the requirements of a Certificate. Students must apply to the Certificate Coordinator to be considered for a Certificate. Certificates are awarded upon graduation and are noted on the student's academic transcript.

A complete list of [Faculty of Science Certificates](#) and requirements can be found at the beginning of the [Faculty of Science](#) section. Students may also work toward obtaining Certificates offered by other Faculties; some of these are listed in the [College of Arts and Science Degree Requirements](#) section.

Certificates of particular interest to student enrolled in a BSc or BA in Statistics include:

- [Certificate in Actuarial and Financial Mathematics](#)
- [Certificate in Applied and Computational Mathematics](#)

BSc/BEng or BA/BEng Concurrent Program

Students interested in combining their interest in Program with a degree in Engineering may choose a BSc/BEng or BA/BEng Concurrent Program, normally completed in a 5 year period. Over the first three years, students complete the requirements for a 90 credit hour BSc or BA degree in Statistics and a Diploma of Engineering (the first two years of engineering studies). Two more years of engineering studies are then required to obtain a BEng. Interested students should see an undergraduate advisor from Statistics and from the Faculty of Engineering in their first year of study.

Required Statistics courses for a BSc/BEng or BA/BEng program in Statistics

- A minimum of 18 credit hours in Statistics courses at the 2000 level or higher, which must include STAT 2060.03, STAT 2080.03, STAT 3340.03 and at least one other STAT course⁴ at or above the 3000 level

⁴Statistics courses are any courses listed or cross-listed as STAT. The following can also be counted towards statistics credit hours:

- MATH 2001.03
- MATH 2002.03
- MATH 2030.03
- MATH 2040.03 or Math 2135.03

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are typically available to students in the second, third, and fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not obtain credit for both courses as designated.

Not all courses are offered each year. Please consult the current [timetable](#) for this year's offering. For further information please contact the department, or visit the department's website.

Course Descriptions

Course Notes

Certain courses have been approved for use in fulfilling the educational requirements of the Associate Statistician (A.Stat.) designation of the Statistical Society of Canada (SSC). See the Department or the SSC website (<http://ssc.ca/en/accreditation/apply/suggested-courses-use-towards-astat-designation>) for details.

Credit may not be obtained twice for the same course even if the numbers have been changed.

Statistics

STAT 1060 Introductory Statistics for Science and Health Sciences

CREDIT HOURS: 3

This course gives an introduction to the basic concepts of statistics through extensive use of examples. The topics include experimental design, descriptive statistics, simple linear regression and the basics of statistical inference. Students will learn to use the statistical package MINITAB. NOTE: Students who have already taken university level Calculus should consider taking STAT 2060.03 instead of STAT 1060.03.

CALENDAR NOTES: Students will not receive credit for taking STAT 1060.03 after receiving credit for STAT 2060.03.

COREQUISITES:

PREREQUISITES: Academic or advanced Grade 12 Mathematics (or pre-calculus) or equivalent

CROSSLISTED: MATH 1060.03

RESTRICTIONS:

EXCLUSIONS: COMM 2501.03, MGMT 1501.03, DISP

FORMATS: Lecture | Tutorial

LAB HOURS PER WEEK:

STAT 2060 Introduction to Probability and Statistics

CREDIT HOURS: 3

Rigorous introduction to probability and statistical theory. Topics covered include elementary probability, random variables, distributions, estimation and hypothesis testing. Estimation and testing are introduced using maximum likelihood and the generalized likelihood ratio. Natural sequels for this course are STAT 2080.03 and 3360.03

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: MATH 1000.03 or MATH 1215.03 or MATH 1550 OR MATH 1500X/Y

CROSSLISTED: MATH 2060.03, ECON 2260.03

RESTRICTIONS:

EXCLUSIONS: ENGM 2032.03

FORMATS: Lecture

LAB HOURS PER WEEK:

STAT 2080 Statistical Methods for Data Analysis and Inference

CREDIT HOURS: 3

The usual sequel to STAT 1060.03 or STAT 2060.03. This course introduces a number of techniques for data analysis and inference commonly used in the experimental sciences. Topics covered include two-sample inference one-way and two-way analysis of variance, correlation, linear regression, and the analysis of categorical and count data. A natural sequel for this course is STAT 3340.03.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: STAT 1060.03 or STAT 2060.03 or DISP

CROSSLISTED: MATH 2080.03, ECON 2280.03

RESTRICTIONS:

EXCLUSIONS: COMM 2502.03, MGMT 2502.03

FORMATS: Lecture

LAB HOURS PER WEEK:

STAT 2300 Introduction to Mathematical Modelling I

CREDIT HOURS: 3

See course description for MATH 2300.03 in the Mathematics section of this calendar.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

STAT 2450 Introduction to Data Mining with R

CREDIT HOURS: 3

This course provided as introduction to data mining and R programming, suited for science students. Data mining methods include a vast set of tools developed in different areas for identifying the patterns in data. Students will learn programming methods for manipulating and exploring data through learning the basic ideas of some clustering, regression and classification methods. No prior programming knowledge is assumed.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: MATH 1000.03 or MATH 1215.03 and either (STAT 1060.03 or MATH 1060.03) or (STAT 2060.03 or MATH 2060.03)

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

STAT 2600 Theory of Interest

CREDIT HOURS: 3

See course description for MATH 2600.03 in the Mathematics section of this calendar.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

STAT 3340 Regression and Analysis of Variance

CREDIT HOURS: 3

A thorough treatment of the theory and practice of regression analysis. Topics include: fitting general linear models using matrices, optimality of least squares estimators (Gauss-Markov theorem), inferences, simple and partial correlation, analysis of residuals, case-deletion diagnostics, polynomial regression, transformations, use of indicator variables for analysis of variance and covariance problems, model selection, and an introduction to nonlinear least squares. This course makes extensive use of computer packages.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: STAT 2080.03, MATH 2030.03 or Math 1030.03, and one of MATH 1010.03, STAT 2060.03 or DISP (except SCIE 1540X/Y.27)

CROSSLISTED: MATH 3340.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

STAT 3345 Environmental Risk Assessment

CREDIT HOURS: 3

Statistical methods for assessing risk are discussed, including dose-response models, survival analysis, relative risk analysis, bioassay, estimating methods for zero risk trend analysis and association risks. Case studies are used to illustrate the methods.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: MATH 1000.03 or MATH 1215.03, STAT 2080.03 or equivalent

CROSSLISTED:

RESTRICTIONS:

EXCLUSIONS:

FORMATS:

LAB HOURS PER WEEK:

STAT 3350 Design of Experiments

CREDIT HOURS: 3

The aim of the course is to develop the fundamental statistical concepts required for designing efficient experiments to answer real questions. The first main subject is unit variation and control. The basic concepts of replication, blocking and randomization are each examined. The second main subject is treatment questions and structure. The ideas of factorial designs, split-plot and incomplete plot designs are presented. We conclude with a look at response surface methodology.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: STAT 2080.03, MATH 2030.03 or Math 1030.03, and one of MATH 1010.03, STAT 2060.03 or DISP (except SCIE 1540X/Y.27)

CROSSLISTED: MATH 3350.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

STAT 3360 Probability

CREDIT HOURS: 3

The concepts and application of probability. Topics include the classical discrete and continuous distributions, including the binomial, hypergeometric, multinomial, Poisson, uniform, exponential and normal; definitions and properties of random variables; independence; sums of independent random variables, including the law of large numbers and central limit theorem; conditional probability; and the bivariate normal distribution. Examples will be taken from the natural and physical sciences.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: STAT 2060.03 and MATH 2001.03

CROSSLISTED: MATH 3360.03

RESTRICTIONS:

EXCLUSIONS:
FORMATS: Lecture
LAB HOURS PER WEEK:

STAT 3380 Sample Survey Methods

CREDIT HOURS: 3
The development of design and analysis techniques for sample surveys. Topics include simple, stratified and systematic random sampling, ratio and regression estimation, sub-sampling with units of equal and unequal size, double-multistage and multiphase sampling, non-sample errors and non-respondents.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: STAT 2060.03
CROSSLISTED: MATH 3380.03
RESTRICTIONS:
EXCLUSIONS:
FORMATS: Lecture
LAB HOURS PER WEEK:

STAT 3460 Intermediate Statistical Theory

CREDIT HOURS: 3
This course provides an intermediate level coverage of statistical theory to provide a framework for valid inferences from sample data. The methods developed are based on the likelihood function and are discussed from the frequentist, likelihood, and Bayesian approaches. The problems of point estimation, interval estimation and hypothesis testing and the related topics of sampling distributions, sufficiency, and Fisher Information are discussed.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: STAT 3360.03
CROSSLISTED: MATH 3460.03
RESTRICTIONS:
EXCLUSIONS:
FORMATS: Lecture
LAB HOURS PER WEEK:

STAT 3703 Actuarial Models I

CREDIT HOURS: 3
This class builds on the material in STAT 3360 to develop the theoretical basis for construction and evaluation of actuarial models. Topics covered include survival models, probability distributions, deductibles and limits, and aggregate loss models, with application to insurance. This course covers the part of the syllabus for the professional actuarial examination concerned with the Construction and Evaluation of Actuarial Models.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: STAT 3360.03 OR MATH 3360.03
CROSSLISTED: ACSC 3703.03
RESTRICTIONS:
EXCLUSIONS: STAT 4701.03
FORMATS: Lecture
LAB HOURS PER WEEK:

STAT 3720 Life Contingencies I

CREDIT HOURS: 3
This course introduces the student to the mathematical models for valuation of life contingencies (e.g. life insurance policies). The course covers both the statistical aspects of modelling survival data, and the financial aspects of valuing uncertain future cash-flows.
CALENDAR NOTES:
COREQUISITES:
PREREQUISITES: STAT 3360.03, STAT 2600.03
CROSSLISTED: ACSC 3720.03
RESTRICTIONS:
EXCLUSIONS:

FORMATS: Lecture
LAB HOURS PER WEEK:

STAT 3750 Credibility Theory

CREDIT HOURS: 3

Credibility theory deals with the difficulty in combining information from two samples, one of which is small but very relevant, the other is large but less relevant. In this course, we will study different approaches to dealing with this problem.

CALENDAR NOTES:

COREQUISITES: ACSC 3703.03

LAB HOURS PER WEEK:

STAT 4066 Advanced Statistical Theory I

CREDIT HOURS: 3

This course, together with STAT 5067.03 provides a solid basis in the theory of statistical inference. After a review of some probability and distribution theory, the Bayesian and classical theories of estimation and testing are introduced.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: STAT 3460.03 or instructor's consent

CROSSLISTED: MATH 4066.03/5066.03, STAT 5066.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

STAT 4100 Survival Analysis

CREDIT HOURS: 3

This course is an introduction to survival analysis methods and will cover both the statistical theory behind the methods, and the application of various techniques. Topics to be discussed include survivorship and hazard functions and their relationship to lifetime distributions and densities; modes of censoring; the Kaplan-Meier estimate of the survivor function; parametric survival time distributions; proportional hazard models and their semi-parametric estimation; accelerated life models, log rank tests, including the Mantel-Haenszel test; and goodness of fit measures.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: STAT 3340.03 and STAT 3460.03, or equivalent

CROSSLISTED: STAT 5100.03

RESTRICTIONS:

EXCLUSIONS:

LAB HOURS PER WEEK:

STAT 4130 Bayesian Data Analysis

CREDIT HOURS: 3

This course introduces the student to the Bayesian methods in applied statistics. The course covers all the fundamental concepts of Bayesian methods, and works from the simplest ideas (characterizations of probability; comparative inference; prior, posterior and predictive distributions) up through hierarchical models applied to various data. Computational methods include MCMC for posterior simulation.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: MATH 2030.03 or Math 1030.03, and STAT 3460.03

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

STAT 4360 Robust Statistics

CREDIT HOURS: 3

Robust statistics are those which provide protection against violation of assumptions underlying the statistical procedure. We will develop basic concepts including sensitivity, influence and breakdown of estimates and tests. Classical procedures will be evaluated in terms of robustness and alternate techniques developed based on weighted least squares and/or median based generalizations. We will also consider robust techniques in time series.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: STAT 3340.03 and STAT 3460.03

LAB HOURS PER WEEK:

STAT 4370 Stochastic Processes

CREDIT HOURS: 3

The theory and application of stochastic processes. Topics to be discussed include the Poisson process, renewal theory, discrete and continuous time Markov processes, and Brownian motion. Applications will be taken from the biological and physical sciences, and queueing theory.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: STAT 3360.03 or instructor's consent

CROSSLISTED: STAT 5370.03

RESTRICTIONS:

EXCLUSIONS:

FORMATS: Lecture

LAB HOURS PER WEEK:

STAT 4390 Time Series Analysis

CREDIT HOURS: 3

Time series analysis in both the time and frequency domain is introduced. The course is applied and students are required to develop their own computer programs in the analysis of real time series with an emphasis on oceanographic data. Topics to be discussed include the nature of time series, stationarity, auto and cross covariance, ARMA models, spectral analysis, and state space models (the Kalman filter and the particle filter).

CALENDAR NOTES:

COREQUISITES:

Journalism (University of King's College)

Minor in Journalism Studies

This minor is available to students registered in a 120 credit hour Bachelor of Arts, Bachelor of Management, Bachelor of Music, Bachelor of Science, or Bachelor of Science (Medical Science) program.

Bachelor of Arts and Bachelor of Management

Minimum requirement of 24 credit hours in Journalism which must include:

Core Requirements

- JOUR 1001.06: Foundations of Journalism, or J1002.03 Foundations of Journalism I & J1003.03 Foundations of Journalism II
- JOUR 2700.03: Introduction to Reporting

Elective Requirements

Students must complete 15 credit hours in electives from the list below:

- JOUR 2006.03: Is it true? Journalism Verification Techniques
- JOUR 2400.03: Science and the Media
- JOUR 2701.03: Intermediate Reporting
- JOUR 3002.03 Introduction to Audio
- JOUR 3304.03: Through Her Eyes: Women and the Documentary Tradition
- JOUR 3339.03: Ethics and Law for Journalists
- JOUR 3440.03: Creative Nonfiction
- JOUR 3441.03: Advanced Creative Nonfiction
- JOUR 3540.03: Feature Writing
- JOUR 3542.03: Business Reporting for Journalists
- JOUR 3550.03: Copy Editing
- JOUR 3560.03: Great Journalists
- JOUR 3660.03: Photojournalism
- JOUR 3661.03 Sports Journalism
- JOUR 3662.03: Journalist as Documentarian
- JOUR 3670.03: Opinion Writing
- JOUR 3671.03: Freelance Journalism

Bachelor of Science

Minimum requirement of 24 credit hours in Journalism which must include:

Core Requirements

- JOUR 1001.06: Foundations of Journalism, or J1002.03 Foundations of Journalism I & J1003.03 Foundations of Journalism II
- JOUR 2700.03: Introduction to Reporting
- JOUR 2400.03: Science and the Media

Elective Requirements

Students must complete 12 credit hours in electives from the list below:

- JOUR 2006.03: Is it true? Journalism Verification Techniques
- JOUR 2701.03: Intermediate Reporting
- JOUR 3002.03: Introduction to Audio
- JOUR 3304.03: Through Her Eyes: Women and the Documentary Tradition
- JOUR 3339.03 Ethics and Law for Journalists
- JOUR 3440.03: Creative Nonfiction
- JOUR 3441.03: Advanced Creative Nonfiction
- JOUR 3540.03: Feature Writing
- JOUR 3542.03: Business Reporting for Journalists
- JOUR 3550.03: Copy Editing
- JOUR 3560.03: Great Journalists
- JOUR 3660.03: Photojournalism
- JOUR 3661.03: Sports Journalism
- JOUR 3662.03: Journalist as Documentarian
- JOUR 3670.03: Opinion Writing
- JOUR 3671.03: Freelance Journalism

Courses

Courses

Below you will find descriptions for courses offered in this field of study. You will find a general overview of the topics covered and any prerequisite course or grade requirements, credit value and exclusions.

The first digit of the course indicates the general level. Those in the 1000 series are introductory degree level. Courses at the 2000, 3000, 4000 series are available to students in the second, third, and fourth year. Courses numbered at the 5000 level or above are graduate level. Courses listed at the 0100 or 0200 series are technology level courses. Courses below the 0100 level are generally non credit courses.

Some courses are listed as exclusionary to one another. This means that students may not take both courses as designated.

Not all courses are offered each year. Please consult the current timetable for this year's offering. For further information please contact the department.

Course Descriptions

Core Requirements

Students must complete one and a half full credits of core courses:

JOUR 1001X/Y.06 Foundations of Journalism, or JOUR 1002.03 Foundations of Journalism I and JOUR 1003.03

Foundations of Journalism II

JOUR 2700.03 Introduction to Reporting

Elective Requirements

Students must complete an additional 15 credit hours in electives from the complete list of Journalism 'Course Descriptions' above

Course Descriptions

JOUR 1002 Foundations of Journalism I

CREDIT HOURS: 3

This course gives students a theoretical and practical introduction to journalism as it's practiced today. In the Thinking component, students examine the principles and evolution of journalism and its role in society. The Writing part of the course helps students hone the skills of simple, tight, bright journalistic writing. Students will complete frequent writing assignments, read news with a critical eye and work in small groups with professional journalistic instructors.

JOUR 1003 Foundations of Journalism II

CREDIT HOURS: 3

This course builds on Foundations of Journalism I and delves deeper into an understanding of the role of journalists in society, and the political and legal environments in which they operate. In the Thinking component, students will consider the situations journalists find themselves navigating and the broader responsibility they hold as journalists in a democracy. The Writing part of the course builds on students' nonfiction writing practice, emphasizing precision and clarity. Students will complete frequent writing assignments, read news with a critical eye and work in small groups with professional journalist instructors.

JOUR 2006 Fake News: Journalism Verification Techniques

CREDIT HOURS: 3

Reporters and news consumers face a barrage of questionable information every day. This course will explore the sources and range of disinformation from honest mistakes to inaccurate and "fake" news. It will also give students basic tools to query and verify - or debunk - news stories on social media and elsewhere.

JOUR 2400 Science and the Media

CREDIT HOURS: 3

From the first Babylonian astronomical records on cuneiform to the public understanding of science on television, the various media have long been crucial to the success and spread of science. This course provides a history of science in the media from the ancient and medieval use of geometrical diagrams, astronomical figures and anatomical illustration through early modern printed texts, popular broadsheets and color botanical plates all the way to the ubiquity of science in literature, cinema and on the Internet. This expanding presence of science in the media is examined against the backdrop of three revolutions: literary and artistic (ancient and medieval worlds), mechanical (early modern period) and electronic (contemporary age). Specific themes considered include the increasing accuracy of scientific illustration, the rise of scientific journals, public scientific demonstrations, science in poetry and prose fiction, science and art, radio and television documentaries, the advertising and marketing of science, scientific apocalypses and techno-utopias, bioethics, Soviet era technological iconography, environmentalism and science-religion relations in the journalistic press, science fiction from H.G. Wells' *War of the Worlds* to *Star Wars* and *Jurassic Park*, and science in computing and cyberspace.

JOUR 2700 Introduction to Reporting

CREDIT HOURS: 3

This course builds on the writing foundation provided in JOUR 1001X/Y.06 and gives students a comprehensive introduction to news reporting in a digital environment. Students will learn how to develop and pitch original story ideas, and ground them with research. They learn how to write with minimal factual and grammatical error, and craft a story with nuance.

CALENDAR NOTES:

COREQUISITES:

LAB HOURS PER WEEK:

JOUR 2701 Intermediate Reporting

CREDIT HOURS: 3

The course builds on the essential reporting skills learned in JOUR 2700.03 (Introduction to Reporting) to help students craft publishable pieces of multimedia journalism. Students will pitch, research and publish news and feature stories for the public. They will focus on headlines, editing and online publishing practices. Students will demonstrate an ability to keep abreast of changing news and technology environments.

JOUR 3002 Introduction to Audio

CREDIT HOURS: 3

This course will introduce students to writing and reporting for the ear, emphasizing skills such as writing to deadline, interviewing and live performance. In the process students will learn ethical and professional standards of audio production. This course will focus on radio reporting and podcasting.

CALENDAR NOTES:

COREQUISITES:

JOUR 3304 Through her Eyes: Women and the Documentary Tradition

CREDIT HOURS: 3

This course will explore the rarely examined historical and contemporary involvement of women in the field of documentary filmmaking. Women documentary makers have produced extensive bodies of engaging work that challenge many societal assumptions about gender, class, race, the function of political power, sexuality and peace-war. They have worked at every level within the process: as directors, cinematographers, editors, sound recordists, producers, writers and fund-raisers. A variety of documentaries made by women from diverse backgrounds will be screened and analyzed along with a close reading of selected critical texts. Students will identify the similarities and differences in subjects, themes, style, aesthetics, and approached to creation, production and distribution.

JOUR 3339 Ethics & Law for Journalists

CREDIT HOURS: 3

This course will give students the ethical and legal knowledge they need to operate as journalists in the field. Students will develop an understanding of the criminal court process and the journalistic protocol for working with sources. Discussion will focus on topics such as the law regarding defamation, the process for civil proceedings and restrictions imposed by public bans.

JOUR 3440 Creative Nonfiction

CREDIT HOURS: 3

Narrative nonfiction writing includes literary journalism, memoir and essay. In this introductory course, students will learn about the historic development of this genre as well as read and discuss some of the best examples of historical and contemporary narrative nonfiction. The goal is to make students better informed readers as well as to provide them with the tools to produce this kind of writing themselves.

LAB HOURS PER WEEK:

JOUR 3540 Feature Writing

CREDIT HOURS: 3

This course will introduce students to the more creative writing aspects of journalism - the writing of stories behind the breaking news of the day, or the small human dramas that make up the world around us. Students will study feature writing styles and techniques, and experiment with several feature formats, from color stories and personality profiles to substantial background articles. Students will produce a major, term-end feature story and several smaller assignments.

LAB HOURS PER WEEK:

JOUR 3550 Copy Editing

CREDIT HOURS: 3

In this course, students will edit real stories selected for their potential as well as their problems. They will work on them for tightness, polish, accuracy and style. The goal is to help students develop the copy editor's "double vision" - the ability to see the story as a whole and line by line as a collection of parts, to see both the forest and the trees. This course is not only for students who want to become copy editors, but also for students who want to become better editors of their own writing.

CALENDAR NOTES:

LAB HOURS PER WEEK:

JOUR 3560 Great Journalists

CREDIT HOURS: 3

This course provides an introduction to some of the greatest journalists of all time. Students will discover the beautiful work these journalists created, and learn how and why they did it. This course also focuses on improving students' writing. By carefully considering great journalists' work, students learn techniques that make them better writers. Amazing characters students will meet include James Cameron, the only journalist to have a ringside seat at three atomic bomb blasts. Students get to know Ida B. Wells, who founded a newspaper exposing lynchings and racism when most media were ignoring the truth. Students will consider the work of Joan Didion, Martha Gellhorn, Peter Gzowski, Seymour Hersh, and many more. By the end of the course students will have a strong understanding of journalism's honourable legacy. They will know the brilliant qualities of great journalists, how hard they work, and how they changed the world.

LAB HOURS PER WEEK:

JOUR 3660 Photojournalism

CREDIT HOURS: 3

This course will explore visual perception as applied to photojournalism. Students will be taught to "see" photos and explore ideas visually, especially as applied to the essence of news photography. Students will also examine the beginnings of news photography and modern developments in the business. Students must have their own digital or smartphone camera to take this course.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES:

CROSSLISTED:

RESTRICTIONS: BJH students are not eligible to take this course.

EXCLUSIONS: JOUR 2702.03

FORMATS:

LAB HOURS PER WEEK:

JOUR 3661 Sports Journalism

CREDIT HOURS: 3

Students will study and discuss excellence in sports writing. They will learn how to craft lively and well-researched narratives about players, teams and the environment they operate in. The course will use real-life examples in an examination of various storytelling formats, from long-form narratives to on-deadline game reports to social media updates. It will also look at ethical issues related to sports reporting and the challenges of covering specific beats.

CALENDAR NOTES:

COREQUISITES:

PREREQUISITES: JOUR 2700.03 or permission of the instructor.

JOUR 3662 The Journalist as Documentarian

CREDIT HOURS: 3

This course is about the journalist as a visual long-form storyteller, in short, a documentarian. Students will watch, analyze, and write about a curated program of Canadian and international documentaries. Discussion topics will include research, documentary structure and approach, editorial decision making, and journalistic and ethical considerations.

CALENDAR NOTES:

LAB HOURS PER WEEK:

Centres and Institutes

Centres and Institutes

A number of centres and institutes for study and research in specific fields are based at the University. These are:

Atlantic Institute of Criminology

Director: D.H. Clairmont, BA, MA, PhD

The Atlantic Institute of Criminology (AIC) is a research institute that is heavily policy-oriented in the field of crime and the criminal justice system. Its mandate is to foster the exchange of information among researchers and policy makers in those areas. Consultative services are provided to fellow scholars and researchers, including graduate students and visiting professors, with respect to the planning and execution of research projects and related undertakings. The AIC is an entity that itself conducts extensive research in criminology, especially with respect to policing, the administration of justice, youth justice issues, race, ethnic and equity issues in justice. It has produced a significant body of policy-oriented research on Aboriginal and African-Canadian justice issues. The AIC Dalhousie website (Dalhousie - SOSA-AIC), which is regularly updated, provides a clear indication of the research products of recent years even though the website is largely restricted to research output that does not include articles in professional journals or edited books available elsewhere.

Atlantic Research Centre (ARC)

Director: Neale Ridgway

Phone: (902) 494-7133

Website: <http://arc.medicine.dal.ca/>

Established in 1967, the ARC conducts basic biomedical research in the fields of lipid metabolism and cell signalling, areas of fundamental importance to a variety of disorders including cancer, neurological, heart and infectious diseases. It also provides education and expertise in these fields to undergraduate and graduate students, other researchers, and the general public. The ARC houses state-of-the-art facilities for biochemical and molecular biological research. The Centre's staff hold appointments in the Departments of Pediatrics and Biochemistry and Molecular Biology in the Faculty of Medicine. Research at the ARC is supported by agencies such as the CIHR, NSERC, CFI, Heart and Stroke Foundation, National Cancer Institute, Atlantic Innovation Fund, and the IWK Health Centre.

Beatrice Hunter Cancer Research Institute

Director: Dr. Gerry Johnston

Administrative Director: Cindy Pettipas

Telephone: 902 494-4513

Fax: 902 494-8472

Email: cpettipas@dal.ca

Website: www.bhcrci.ca

In 1999, Beatrice Hunter bequeathed \$12.5 million to the Dalhousie Medical Research Foundation for cancer research, in memory of her parents, Dr. Owen and Mrs. Pearle Cameron. The bequest was placed in the Cameron Endowment Fund, with the annual earnings supporting cancer research at Dalhousie Faculty of Medicine. Early on, Beatrice Hunter's generosity sparked the creation of the Dalhousie Cancer Research Program (DCRP) that united key players within charitable, University and government sectors to create and support a thriving cancer research community. Over a short period of time, talented researchers and trainees were recruited to the region and collectively now secure millions of dollars of cancer research funding from outside granting agencies.

In 2009, the DCRP and its funding partners took the next bold step to become the Beatrice Hunter Cancer Research Institute (BHCRI), which was created to foster a more powerful, productive and collaborative cancer research environment throughout Atlantic Canada. The Institute provides regular workshops, lectures and symposia that serve as a common forum for researchers to share ideas and forge new collaborations within Atlantic Canada and beyond. The Institute also provides a key entry point for members of the public who want to learn more about cancer research in the region. The Institute represents the major resource within our region for those seeking training and careers in cancer research as well as those interested in supporting cancer research. The BHCRI has over 300 active members (both principal investigators and trainees at all career stages) throughout Atlantic Canada. BHCRI is supported by advisory committees populated by cancer experts and informed members of the public that provide advice on all aspects of cancer research and training. BHCRI receives financial support from a broad range of local and national organizations and the Institute takes responsibility for allocation of financial resources that support all aspects of cancer research and training, with funds allocated through peer-review processes that meet international standards.

Researchers within the Beatrice Hunter Cancer Research Institute share a collective vision and work toward the same goal: to save lives and ease the burden of cancer on individuals, families and society. Even though our funding comes from many sources, all of this funding stays in Atlantic Canada to build and support cancer research within our own region.

The Beatrice Hunter Cancer Research Institute was approved as an institution by Dalhousie on November 29, 2017.

Brain Repair Centre

Chair: Dr. Victor Rafuse, Director
Website: <http://www.brainrepair.ca/>

The Brain Repair Centre (BRC) is a collaboration of Dalhousie University, the Capital District Health Authority and the IWK Health Centre. The BRC is a multi-disciplinary unit focusing on research that can lead to the diagnosis, treatment, and repair of the brain to overcome the effects of neurological and psychiatric disorders such as Parkinson's disease, Huntington's disease, Amyotrophic Lateral Sclerosis (ALS), Epilepsy, Muscular Sclerosis (MS), stroke and spinal cord injury. The BRC grew out of the clinical Neural Transplantation Program, collaboration between basic neuroscientists and clinicians interested in treating Parkinson's disease. The success of the Neural Transplantation Program led clinical and basic neuroscientists to decide to form the Brain Repair Centre. The BRC was formed in 1999 and has focused on stem cell transplantation, Parkinson's disease, spinal cord injury, psychotic disorders, stroke and neuroimaging as areas of innovation at Dalhousie University, Capital Health and the IWK Health Centre.

Examples of BRC achievements include:

- Attracted capital funding from private donors, institutions and the public sector to support construction and fit-up of the new Life Sciences Research Institute. When the LSRI is completed, the Brain Repair Centre will become the anchor tenant of this new research and commercialization building with state-of-the-art research, equipment and facilities.
- Establishment of collaboration agreements with research teams at McLean Hospital/Harvard University; Jilin University, China; Cardiff University, Wales; and Neurodyn, Inc.
- Establishment of a \$12 million magnetic resonance imaging facility with the national Research council's Institute for Biodiagnostics (NRC-IBD).
- In 2006, the BRC was awarded \$5.5 million for infrastructure from the Canadian Foundation for Innovation, the largest such award to date in Atlantic Canada. Also in 2006, BRC received a \$3 million Atlantic Innovation Fund award for research, a follow-on to an earlier \$3 million research award.
- Dr. David Clarke, a member of the Brain Repair Centre used a virtual model of a patient's brain to remove a simulated brain tumour before removing the actual tumour the following morning. Developed by a partnership of the National Research Council and a team of about 50 people in 10 Centres across Canada, this was the first such surgery performed in the world.
- Medtronic Canada, Capital District Health Authority, QEII Foundation, and the Brain Repair Centre established a Canadian Centre of Excellence and Training at the Halifax Infirmary. This new \$3.5 million centre provides important new clinical facilities for training and development in imaging, spinal cord and neuromodulation.
- In the neurotransplantation field, the BRC is unique in Canada and one of only four centres worldwide involved in clinical application of neural transplantation, with the "Halifax Protocol" accepted as the world gold standard.
- The BRC is an innovative collaboration that integrates its research expertise with pioneers in the fields of imaging, neurology, stem cell neurobiology, vision, molecular neurobiology, pharmacology, psychiatry, clinical trials and cognitive neuroscience.
- The BRC brings together the expanding fields of neuroimaging and stem cell technologies with application to the treatment of neurological and psychiatric disorders.
- The BRC is the Atlantic Canada presence in the Stem Cell Network, a National Centre of Excellence in stem cell research.

The BRC places emphasis on moving basic science research from the bench to the clinical bedside and from the bedside back to the bench. A key objective of the BRC is to produce innovative technologies that will be commercialized.

Canadian Center for Vaccinology

Director: Scott Halperin, MD
Associate Directors: Robert Anderson, MD
Joanne Langley, MD
Janice Graham, PhD
Website: www.centerforvaccinology.ca
Email: ccfv@iwk.nshealth.ca
Facebook: CCfVhfx
Twitter: @VACCres
Phone: 902 470-8141
Fax: 902 470-7232

Vision

CCfV is an integrated collaborative multidisciplinary vaccine research team committed to excellent research. CCfV unites the biomedical and clinical sciences with the social sciences and humanities to effectively span the research continuum from basic discovery to translation into useful vaccines to prevent disease in humans and to change population and public health outcomes.

Organization

Activity within CCfV is organized into three groups

- Vaccine Discovery Group
- Vaccine Evaluation Group
- Health Policy & Translation Group

An **Advisory Committee** of CCfV investigators and external advisors provides counsel on the strategic direction and objectives of CCfV research.

Members

Anyone with an interest in vaccine-related research may apply for membership at <http://www.centerforvaccinology.ca/about-ccfv/join-us/>

For a list of current members go to <http://www.centerforvaccinology.ca/about-ccfv/members/>

CCfV is made possible by a continuing collaboration of Dalhousie University, the IWK Health Centre, and Capital Health. The CCfV's 20,000 square foot facility in the IWK Health Centre includes laboratories for microbiological and molecular research, ambulatory and inpatient clinical trial facilities, data analysis, training and conference space. It was founded in 2007 with financial assistance from the Canada Foundation for Innovation, the Nova Scotia Research and Innovation Trust, and the Government of Nova Scotia's Department of Economic Development, among others. The Clinical Research/Vaccine Challenge Unit, which opened in 2009, was made possible by additional funding from Sanofi Pasteur.

Canadian Institute of Fisheries Technology (CIFT)

Director: A. T. Paulson, PhD
Phone: (902) 494-3280

Fax: (902) 420-0219

Website: <http://cift.engineering.dal.ca>

CIFT was established in 1979 at the former Nova Scotia Technical College (later TUNS). The federal Department of Fisheries and Oceans provided much of its early specialized laboratory and seafood pilot scale processing equipment, and Industry Canada provided start-up funding and designated CIFT a centre of excellence. As a government-approved laboratory for advanced technology, it also provides R&D services on a cost-recovery basis to industry and to various governmental agencies. The Institute promotes technology transfer and the development of advanced technologies aimed at more effective commercial utilization of both marine and terrestrial resources in Canada and throughout the world.

In addition, CIFT offers unique opportunities for post-graduate training and research through the Food Science program. Major areas of emphasis are: food biochemistry and microbiology; fats, oils, nutraceuticals and other bioactives; physical properties of foods; fish/food process engineering; food safety and preservation; food rheology, food fermentation and beverage science.

Facilities

CIFT is located in the MacDonald Building of Sexton Campus at 1360 Barrington Street in downtown Halifax. The Institute's facilities include:

- fats and oils laboratory
- food chemistry laboratory
- food development laboratory
- sensory evaluation laboratory
- food process engineering pilot plant
- low temperature storage facility
- food physical properties laboratory
- food microbiology laboratory

These areas contain specialized instrumentation and food processing equipment to enable experimental processing, laboratory analysis, and product storage evaluation. In addition to a computer-controlled cold-storage facility, the pilot plant is equipped for experimental processing including freezing, chilling, thermal processing, drying, centrifugal separation, and meat-bone separation.

The pilot plant is well equipped for thermal processing with an automated retort capable of steam, steam-air, or water immersion processing research. The specially designed cold-storage facility is computer controlled and particularly useful for the study of changes in foods as a result of frozen storage history. The pilot plant is also equipped with a custom-built computer-controlled heat pump dryer that is used in food dehydration experiments.

Specialized laboratory equipment includes: automated high performance and fast protein liquid chromatography systems, gas chromatography/mass spectroscopy system, preparative ultracentrifuge, multi-purpose refrigerated centrifuge, microtube centrifuge, analytical and preparative electrophoretic/isoelectric focusing equipment, pulsed field electrophoresis system, thermocycler, DNA gel electrophoresis, Hoefer Dalt six for 2D electrophoresis, Image Master 2D elite software, capillary electrophoresis system, ultra-low temperature freezer, universal texture testing machine, various colorimeters, U.V. and visible spectrophotometer, spectrofluorometer, electrokinetic analyzer, workstation for mathematical modelling and computer simulation, Linkham shearing stage/microscope, Nikon microscope (various attachments), controlled stress rheometer with a high temperature/pressure attachment, controlled rate rheometer, Viscomat, and a rolling ball viscometer.

Educational Opportunities

Graduate (MSc and PhD) programs are available through the Food Science and Technology program. Also post-doctoral research opportunities are offered. Graduate level class work and research opportunities relate to food

science, seafood processing technology, marine oils, engineering design, packaging technology, fish post-mortem biochemistry, food microbiology, food rheology and food process science. Students with degrees in food science, engineering, chemistry/biochemistry, microbiology or biology are invited to apply.

Centre for African Studies

Phone: (902) 494-3814/494-1377

Fax: (902) 494-2105

Director: Theresa Ulicki, PhD

The mandate for this Centre is under review.

This centre, established in 1975, advances instruction, publication, research and development education programs in African Studies. Associated faculty offer classes through the Departments History, International Development Studies, Political Science, French, Sociology and Social Anthropology and Philosophy. The Centre organizes academic and informal seminars and public policy conferences on Africa and encourages interdisciplinary interaction at all levels on African subjects and issues. It co-operates with the International Development Studies department and with the International Research and Development office.

Centre for Comparative Genomics and Evolutionary Bioinformatics

Director: Andrew J. Roger, PhD

Coordinator: Wanda Danilchuk

Phone: (902) 494-2620

Fax: (902) 494-1355

Website: <http://www.cgeb.dal.ca>

The Centre for Comparative Genomics and Evolutionary Bioinformatics (CGEB) at Dalhousie University encompasses an interdisciplinary group of researchers in the Faculties of Medicine, Science and Computer Science. Although microbial genome evolution and diversity is at the heart of many of the CGEB researchers' activities, our work spans computational biology, computer science, statistical modeling and comparative genomics, with a strong focus on method and theory. The application of DNA sequencing technologies to characterize the genomes of a wide diversity of microbes has generated vast quantities of genome sequence data. Now the intellectual challenge is to develop from this enormous resource more comprehensive and theoretically robust phylogenetic, genetic and ecological models to further our understanding of the many roles of microbes in the biological world.

CGEB researchers are united by the common goal of using this vast resource of genomic information to elucidate evolutionary patterns and processes: the pathways by which microbial organisms have diversified over the last 3.5 billion years of Earth's history and through which they continue to shape the global environment. Only through the integration of experimental genomic approaches and sophisticated bioinformatic modeling will we be able to achieve this goal.

CGEB researchers and trainees are supported by grants from the Canadian Institutes for Health Research (CIHR), Natural Sciences and Engineering Research Council (NSERC), and the Nova Scotia Health Research Foundation (NSHRF). The Centre itself is supported by funding from the Tula Foundation (<http://www.tula.ca>), the Faculties of Medicine, Science, and Computer Science, and the Provost and Vice President Academic. CGEB is also supported by a large grant from the Tula Foundation (<http://www.tula.ca>) that provides funds for training top-notch postdoctoral and graduate trainees in the CGEB research specialties. CGEB also has a regular seminar series that brings world renowned scientists to speak at Dalhousie University and interact with faculty members and trainees.

Centre for Environmental and Marine Geology

Contact: Ann Bannon, Administrator

This Centre was originally founded as the Centre for Marine Geology in 1983 to promote interdisciplinary studies of various types of problems in marine Geology, capitalizing on our unique position in Canada with links to related departments such as Oceanography, Physics, Biology, the Bedford Institute of Oceanography and our hosting of the Canadian office of the Ocean Drilling Program. Since 1983 the role of the Centre has changed, reflected in the new name, which better describes the work being done now where marine geology is combined with environmental problems. We have three new faculty that expand our expertise into new chronological techniques and permafrost as well as strengthening our capacity in the petroleum-related environmental geology. Some of the objectives of the Centre are to: 1) continue to expand our participation in a revitalized east coast offshore energy related problems; 2) continue our climate-change work with a variety of approaches both offshore and on land; 3) expand into Arctic regions both with major oceanographic and shore-based programs; and 4) expand our capacity to help solve some of the many environmental geology problems associated with urbanization.

Centre for European Studies

Director: Jerry White (Canada Research Chair in European Studies)

Email: jerry.white@dal.ca

The Centre for European Studies was established in 2007 to promote research on all aspects of European society and its relations with the rest of the world. The Centre facilitates the work of Europeanist scholars at Dalhousie, including the participating Canada Research Chairs in European Studies, enables research collaboration with scholars from Canada and around the world on projects related to Europe and the European Union.

Centre for Innovation in Infrastructure

Director: John Newhook, PhD, PEng

Location: Room B233, Sexton Campus

1360 Barrington Street

PO Box 1000

Halifax, NS B3J 2X4

Phone: (902) 494-2847

Email: forgeron@dal.ca

The Centre for Innovation in Infrastructure is an industry-oriented research centre with the Faculty of Engineering and with strong affiliations with the Department of Civil and Resource Engineering. Established in 1983 as the Nova Scotia CAD/CAM Centre, the Centre originally focussed on assisting Atlantic Canadian industry with the integration of computer added manufacturing and computer aided design technology in their operations. Since the 1990's the Centre has continued to evolve to meet the needs of industry in other areas and to take a more active role in research and development in civil infrastructure.

Today the Centre act as a focal point for research, innovation and technology transfer in Civil Infrastructure related areas. The major funding partnerships are with the Atlantic Canadian departments of transportation, industries related to bridge and structural engineering and with companies developing new materials and products for infrastructure.

Our combined areas of expertise and research interests include:

- Structural Analysis and Design
- Structural Health monitoring
- Bridge engineering and innovations
- Soil-steel structures
- Fibre reinforced polymers
- Fibre reinforced concrete
- NDT of bridge decks and pavements
- Sustainable asphalt technology

The Centre has acquired and maintains significant testing equipment related to these research areas and contributes to the maintenance and operation of the research facilities within the Department of Civil and Resource Engineering.

Centre for Research in Sustainable Supply Chain Analytics (CRSSCA)

Location: 6100 University Avenue, Room
4065

PO Box 15000

Halifax, NS B3H 4R2

Director: Dr. M. Ali Ülkü

Phone: (902) 494-3848

Email: crssca@dal.ca

Fax: (902) 494-1107

Website: www.dal.ca/crssca

The Centre for Research in Sustainable Supply Chain Analytics (CRSSCA), housed in the Rowe School of Business - Faculty of Management, is the supply chain research hub in Eastern Canada. We conduct interdisciplinary research that sheds light on complex issues in supply chain management. Focusing on economic, environmental, and social sustainability, CRSSCA aims to create new knowledge in prescribing solution models for data-driven industrial problems, devise analytical tools for better decision-making, and develop insights into the intricate relationships between supply chain operations, green logistics (global trade, inventory, process and product design, procurement, manufacturing, transportation), and sustainable consumption. CRSSCA supports annual workshops on Supply Chain and Logistics Management (SC&LM), Bachelor of Commerce Major in SC&LM, and involvement of students in research activities.

Centre for Marine Vessel Development and Research (CMVDR)

Contact: Josh Leon, Dean of Engineering

The mandate for this Centre is under review.

Centre for the Study of Security and Development

Director: Brian Bow

Established in 1971 the Centre is concerned with teaching, research, publication, policy advice and other professional activities in the various aspects of foreign policy, security studies, development studies, and international politics.

The Centre's work is concentrated in the areas of Canadian and comparative maritime security and oceans policy, Canadian and American foreign and security policies, and global security and international development. Its geographical specializations include Canada, North America, Europe, and the South (especially Africa, Asia, and the Caribbean). The Centre encourages activities in these areas by Faculty, Research, and Doctoral Fellows, and advances communication among local and international communities in these fields through seminars, workshops conferences and colloquia, often in collaboration with local, national, and/or international organizations. It publishes occasional papers and monographs on Maritime Security, Canadian Defence and Security, and Global Security issues.

The Centre is an integral part of the Department of Political Science. Centre faculty offer classes through the Department in foreign and defence policy, international relations and development, and maritime affairs at both undergraduate (majors and honours) and graduate (MA and PhD) levels. They also supervise masters and doctoral theses in these fields.

For further information, consult the Centre's website: dal.ca/sites/cssd.html.

Centre for Transformative Nursing and Health Research

Director: Dr. Ruth Martin-Misener

Research Coordinator: Julie Barry

Location: School of Nursing, 5869 University Avenue, Halifax NS B3H 4R2

Phone: (902) 494-6125

The Centre for Transformative Nursing and Health Research is a designated Research Centre at Dalhousie University. The vision of the Centre is to undertake collaborative research that develops, enhances, expands and disseminates evidence and knowledge to inform ways to improve and sustain people's health and wellbeing. The mission of the Centre is to generate nursing research and inspire discovery that is methodologically sound, actionable, and dedicated to improving outcomes for those requiring health care, their providers and the overall system. Through strong research partnerships and extensive research capacity building initiatives, the Research Centre will be acknowledged as a key resource for health system planning. This collective strength creates a more research-intensive environment, transforming the culture of health research within and beyond the School so that evidence and the quest for new knowledge are well integrated into teaching and clinical practice. The overall improved scholarly environment ensures graduates engage in original research, advance professional knowledge and are well positioned to be leaders in practice and health system change.

In concert with the School of Nursing's transformation strategy, Academic Plan and Research Strategy and informed by Boyer's Model of Scholarship, the Centre's activities will focus on four research pillars: the health needs of people, health workforce and health systems planning, marginalized populations and health equity, and knowledge translation.

Centre for Water Resources Studies

Director: Graham Gagnon, PhD, PEng

Location: Office D-514

1360 Barrington Street

Phone: (902) 494-3268

Email: cwrs@dal.ca

The Centre for Water Resources Studies was established in December 1981, by a resolution of the Board of Governors (TUNS). The objectives of the Centre are to carry out applied research which contributes to the effective and sustainable protection of water resources in Atlantic Canada, nationally and internationally, and to facilitate the transfer of new knowledge to potential users. Research programs directed by the Centre address the design of cost-effective on-site wastewater systems, soil erosion processes, drinking water treatment, the use of roofwater cisterns for domestic water supply, eutrophication, watershed management and the computer modeling of hydrodynamic and hydrochemical processes. The Centre also has a number of research advisory panels, which involve professionals from industry, government and academia in applied research related to water use and water management.

Facilities

The Centre for Water Resources Studies is located on the fifth floor of “D” Building on Sexton Campus. Laboratory and office space is available for specific graduate research topics, as well as ongoing research carried out by Centre personnel. Analytical equipment includes instrumentation for determining low levels of major ions and nutrients, as well as trace quantities of metal ions in water. The Centre has apparatus for laboratory investigation and pilot scale testing of innovative water treatment methods using Dissolved Air Floatation (DAF) and ozonation and has worked with local consultants and municipalities to develop new applications of the technologies. The Centre is a North American leader in the development of on-site sewage disposal and has had an active research program in this area since 1987. In conjunction with the Faculty of Agriculture, the Centre has a field laboratory investigating sloping sand filters and septic disposal.

Educational Opportunities

The Centre co-operates with academic units in the training of undergraduate and graduate students who have an interest in water resources. The Centre also participates in the program leading to a dual degree in water resources engineering and planning, in conjunction with the School of Planning into the Faculty of Architecture and Planning.

Children and Youth in Challenging Contexts Institute

Director: Dr. Michael Ungar

The Children and Youth in Challenging Contexts (CYCC) Institute is an interdisciplinary research initiative and a network of Canadian and international researchers committed to making a lasting difference in the lives of vulnerable children and youth. CYCC Institute researchers examine the political, social, psychological and biological factors that pose serious risks to children and youth exposed to adversity across contexts and cultures. Through interdisciplinary collaboration and innovation, the Institute promotes change at the program and policy level that will improve the protection and well-being of young people around the world. More than 200 policy makers, mental health practitioners, directors of local and international NGOs, law enforcement officers, Aboriginal child welfare advocates, national defence personnel, and researchers are among the community partners who provide leadership to, and benefit from, the work of the Institute.

Clean Technologies Research Institute

Director: Daniel Boyd, PhD

Administrative Offices: 6414 Coburg Road

PO Box 15000

Halifax, NS B3H 4R2

Phone: (902) 494-6373

Fax: (902) 494-8016

Website: <http://irm.dal.ca>

Established in 2002, Clean Technologies Research Institute is made up of over 90 faculty members in six faculties (Science, Engineering, Dentistry, Medicine, Architecture and Planning and Health). The goals of the Institute include advancing the collective interdisciplinary research efforts in materials science and engineering at Dalhousie University, facilitating interdisciplinary teaching in materials science within the existing discipline structure, and enhancing interactions between materials researchers at Dalhousie University with relevant government laboratories and industry, especially within the region. The Institute leads collaboration within the university on interdisciplinary applications to funding agencies for major equipment and research infrastructure, and collaborates with external organizations to pursue research opportunities.

All Dalhousie University faculty members carrying out research in the area of materials are eligible to be Members of Clean Technologies Research Institute. Postdoctoral fellows and graduate students associated with these research groups are invited to become Associate Members of Clean Technologies Research Institute.

In addition to equipment operated by individual members of the Institute, Clean Technologies Research Institute has established (2003) the Facilities for Materials Characterization, an \$11 million suite of instruments managed by the Institute.

The equipment includes:

- High-field solid-state NMR spectrometer (managed by the Nuclear Magnetic Resonance Research Resource)
- Scanning electron microscope
- Focused ion beam
- X-ray photoelectron spectrometer (XPS)
- Secondary ion mass spectrometer (SIMS)
- Physical property measurement system (PPMS)
- Scanning thermal microscope (SThM)
- Hot press
- Grindo Sonic
- High-speed motion recorder/analyzer
- FT-Raman spectrometer

These facilities are open to external users. Please contact IRM@dal.ca for details.

Dalhousie Institute for Society and Culture (DISC)

Director: Associate Dean, Research in the Faculty of Arts and Social Sciences

Email: discfass@dal.ca

Website: <http://arts.dal.ca/Research>

Established in 2008, the Dalhousie Institute on Society and Culture serves as the virtual home for the many divergent research activities and initiatives within the Faculty of Arts and Social Sciences. Its primary function is to support research within the Faculty through various fellowship programs, publicity and fund raising initiatives, publishing ventures, conferences and lecture series, and cross-disciplinary exchanges.

The Institute encompasses two broad and overlapping research clusters: *Societies in Local, National, and Global Contexts*, and *Cultural Representations and Presentations*. The former cluster aims to develop new knowledge about political, social, and economic transformations, about national and regional identities, and about global relations, whereas the latter seeks to investigate and preserve cultural traditions, literatures, and languages, to foster studies and theories of cultural identity, to stimulate artistic innovation, to examine the shaping influence of beliefs and religions, and to contribute to the cultural life and profile of the province. These two clusters, with a flexibility and breadth unequalled in Eastern Canada, are uniquely equipped to analyze social and cultural change.

Global Health Office

Director: Shawna O'Hearn

Location: C-241, 5849 University Avenue

PO Box 15000

Halifax, NS B3H 4R2

Phone: (902) 494-1965

Fax: (902) 494-2799

Email: gho@dal.ca

Website: <http://dal.ca/globalhealth>

Working through an interprofessional lens, the Global Health Office is committed to training global health leaders who strengthen health systems for vulnerable populations in Canada and abroad. The office prepares students, residents and faculty doing clinical electives, training or research with our international partners as well as leads local and global electives.

- Events focusing on relevant and timely global health issues are organized through the office including global health rounds, speaker series, conferences.
- Opportunities to become involved in research and mentorship.
- A certificate in “Advocates in Global Health”.
- Annual awards are presented to a student, resident and faculty member who demonstrate leadership in global health
- Partnerships with organizations strengthen the global reach including CSIH (Canadian Society for International Health), CCGHR (Canadian Coalition for Global Health Research), National Network on MNCH (Maternal, Newborn and Child Health), ACIC (Atlantic Council for International Cooperation), GHEC (Global Health Education Consortium), and International Centre (Dalhousie)

Health Law Institute

Director: Constance MacIntosh, BA, MA, LLB

Location: Dalhousie University

6061 University Avenue

PO Box 15000

Halifax, NS B3H 4R2

Phone: 902 494-6881

Email: 902 494-6879

Email: hli@dal.ca

Website: <http://www.dal.ca/hli>

An Interdisciplinary Institute of the Faculties of Law, Medicine, Health, and Dentistry, the Institute is committed to the advancement of health law and policy and the improvement of health care practice and health systems through scholarly analysis, professional education, and public service. Its objectives are:

1. To foster strong and innovative health law and policy scholarship by:

- cultivating interdisciplinary health law and policy research networks
- engaging in principled analysis of both recognized and emerging areas of health law and policy
- enabling knowledge transfer

1. To advance health law and policy education by:

- designing and implementing education programs for law, medicine, health professions and dentistry students
- providing continuing education opportunities for health professionals and legal practitioners

1. To serve the public in our areas of expertise by:

- contributing to the societal understanding of health law and policy issues
- providing expertise and consulting to organizations in the public sector
- engaging in and supporting the policy-making process at local, regional, provincial, national and international levels.

Healthy Populations Institute

Managing Director: Maureen Summers, MSc

Scientific Director: Lois Jackson, PhD
Project Coordinators,

Other: Research Scholars, Research Assistants, and students

Phone: (902) 494-2240

Fax: (902) 494-3594

Website: www.dal.ca/hpi

The Healthy Populations Institute or HPI (formerly Atlantic Health Promotion Research Centre, AHPRC) is a leading Canadian health promotion research centre based at Dalhousie University. HPI was established in 1993 to conduct interdisciplinary, collaborative population health and prevention research that informs policies and programs to improve the health and well-being of Canadians.

The centre is conducting research on health services and health systems, healthy eating and physical activity, knowledge translation, prevention of chronic illness and disability, oral health of seniors, youth obesity, aboriginal health, and harm reduction.

The HPI is currently supported by the Faculties of Health, Dentistry, and Medicine, and the Office of the Provost and Vice President Academic at Dalhousie University. Support for specific research projects comes from agencies such as Canadian Institutes for Health Research, Social Sciences and Humanities Research Council of Canada, Nova Scotia Health Research Foundation, and charitable sector research institutes, and private foundations.

Our research associates hold appointments in the Faculties of Health, Architecture, Management, Medicine, Dentistry and Science.

Institute for Big Data Analytics at Dalhousie University

Director: Dr. Stan Matwin

Location: Goldberg Computer Science Building

6500 University Avenue

PO Box 15000

Halifax, NS B3H 4R2

Phone: (902) 494-4320

Email: bigdata@cs.dal.ca

Website: <https://bigdata.cs.dal.ca>

Big data is not a single breakthrough invention, but rather a coming together and maturing of several technologies: huge, inexpensive data harvesting tools and databases, efficient, fast data analytics and data mining algorithms, the proliferation of user-friendly data visualization methods and the availability of affordable, massive and non-proprietary computing. Using these technologies in a knowledgeable way allows us to turn the masses of data that are created daily by businesses and government into an important asset that will result in better, more informed decisions. This could lead, for an example, to intelligent, personalized electric power pricing for consumers, to optimized port traffic management or to the discovery of interesting patterns of migrations in marine life.

The Institute for Big Data Analytics (Big Data @ Dal) acts as a catalyst and a container in which a number of Dalhousie researchers and internationally renowned experts in all of the above areas can work together on Big Data.

The Institute has three main goals. Firstly, we want to become an international hub of excellence in big data research - a place to which scientists will come to work on interesting problems, but also in search of interesting, real-life applications. Our second goal is to make the Institute very relevant to local industries in Nova Scotia, and in Canada. To achieve this goal, we want to focus - for example - on becoming a world leader in the analytics of marine data and all aspects relating to marine biology, fisheries and shipping. Thirdly, we will develop a focused and advanced training program that covers all aspects of big data, preparing our next generation of researchers and practitioners for this important field of study.

Law and Technology Institute

Director: Robert J. Currie, BA, MA, LLB, LLM

Associate Director: Steve Coughlan, BA, MA, LLB, PhD

Location: Schulich School of Law

6061 University Avenue

PO Box 15000

Halifax, NS B3H 4R2

Phone: 902 494-1469

Fax: 902 494-1316

Email: lynda.corkum@dal.ca

Website: www.dal.ca/faculty/law/LATI.html

The Law and Technology Institute was established at the Schulich School of Dalhousie in 2001 to provide teaching, research, and continuing education on technology law issues to students, faculty members, and the practicing Bar. The Institute participates, with the faculties of Computer Science and Management, in Dalhousie's Master of Electronic Commerce Program, and has been involved in collaborative projects with the private sector and governments on information technology issues. Also, in conjunction with Dalhousie's Industry Liaison and Innovation Office, the Institute sometimes offers a student placement program in intellectual property and commercialization. Its faculty members provide graduate supervision to students interested in the developing field of technology law, and are active in law and technology organizations, such as IT.Can and the International Society for Law and Technology. Faculty members of the institute are writers of the English edition of IT.Can bi-weekly newsletter. The Institute hosts an Eminent Speakers Series, which brings leading IT lawyers and academics to Dalhousie to share their expertise. The Institute is home to the Canadian Journal of Law and Technology, co-edited by Professors Currie and Coughlan. The CJLT is the pre-eminent technology law review in Canada.

Classes Offered:

- Law and Technology
- Internet and Media Law
- Privacy Law
- Intellectual Property Law
- Information Technology Transactions
- Entertainment Law
- Intellectual Property and Commercialization Placement
- Special Topics on Intellectual Property (IPII)
- Copyright Law
- Patent law

Students also have the opportunity to pursue specialized interests in fields such as criminal law, health law and alternate dispute resolution, as they relate to law and technology.

MacEachen Institute for Public Policy and Governance

Scholarly Director: Kevin Quigley, PhD

[The MacEachen Institute for Public Policy and Governance](#) at Dalhousie University is a nationally-focused, non-partisan, interdisciplinary institute designed to support the development of progressive public policy and encourage greater citizen engagement. The MacEachen Institute is named in honour of [Allan J. MacEachen](#), retired federal cabinet minister and senator and one of Nova Scotia's most accomplished political leaders.

The MacEachen Institute is a collaboration between Dalhousie's Faculties of Arts & Social Sciences, Law, Health and Management, as well as the Office of the Vice-President, Research & Innovation. It stimulates debate, discussion and research by engaging thought leaders from across Canada and internationally.

The Institute builds on Allan J. MacEachen's legacy and passion by promoting vigorous debate on progressive public policy issues. Each fall, the MacEachen Institute hosts the [Policy Matters speaker series](#), a weekly panel discussion held on Dalhousie campus that is open to the public. It encourages and engages the active participation of Canadian citizens in civic activities, on topics ranging from community and neighbourhood issues to those of national concern.

Marine & Environmental Law Institute

Location: Schulich School of Law

6061 University Avenue

PO Box 15000

Halifax, NS B3H 4R2

Phone: 902 494-1988

Fax: 902 494-1316

Email: MELAW@dal.ca

Website: <http://www.dal.ca/law/MELAW>

The Institute, which is housed in the Schulich School of Law, carries out teaching, research capacity-building and consultancy activities and also directs the MELP academic specialization. MELAW provides a specialization in marine and/or environmental law to JD students. In addition to their scholarly research and publication activities, MELAW faculty, associates and staff carry out research projects and provide advisory services to agencies of the United Nations, international non-governmental organizations, and regional organizations as well as assisting government departments, private sector institutions and non-governmental organizations in Canada and overseas.

The Marine & Environmental Law Institute is home to the editorial office of the *Ocean Yearbook* and the *Journal of Environmental Law and Practice* (JELP). The *Ocean Yearbook* is a major international interdisciplinary annual, devoted to ocean affairs, published in collaboration with the International Ocean Institute in Malta. Dalhousie law students have the chance to gain experience working as research assistants on the Institute's research projects and workshops, and assisting with editing the *Ocean Yearbook*. JELP is the leading environmental law journal for practitioners and academics in Canada.

MELAW supports student collaboration in addressing environmental issues through the Environmental Law Students' Society (ELSS) and the East Coast Environmental Law Association (ECELAW), a non-governmental organization dedicated to environmental law education and law reform. MELAW encourages interdisciplinary collaborations within the Dalhousie University community including the School for Resource and Environmental Studies (SRES), the Marine Affairs Program (MAP), the College of Sustainability, the International Development Studies Program (IDS), the Ocean Frontier Institute (OFI), the Ocean Tracking Network (OTN) led by the Department of Oceanography and the Institute for Ocean Research Enterprise (IORE). MELAW also participates in national collaborations such as, the *OceanCanada* Partnership. International linkages include: the Global Forum on Oceans, the IUCN Academy of Environmental Law, the Australia Canada Ocean Research Network (ACORN) as well as numerous other partner institutions in Asia, the Caribbean, Europe, South America and the United States.

Minerals Engineering Centre

Director: Josh Leon, PhD, PEng

Location: G Building, Sexton Campus

1360 Barrington Street

PO Box 15000

Halifax, NS B3H 4R2

Phone: (902) 494-3955

Fax: (902) 494-3506

Email: mec@dal.ca

Website: <http://minerals.engineering.dal.ca>

The Minerals Engineering Centre was established from the Laboratory for the Investigation of Minerals. The Minerals Engineering Centre provides research, analytical and advisory services to industries, universities, and government bodies in Atlantic Canada, Canada and International. The Centre is located in G Building on Sexton Campus and is affiliated with the Materials Engineering program. The services offered include:

- Sample preparation of ores, soils, silts, rocks, cores, clay fraction and wood pellets
- Size analysis, including screening, sieving, and sub-sieve analysis
- Minerals separation using dense liquids
- Physical and chemical analytical methods using atomic adsorption, XRD, ICP-OES, AA, x-ray fluorescence spectrophotographic, wet chemical techniques and carboy/sulphur analysis
- Analysis of samples including geological, metalliferous ores, industrial minerals, coals, metals, alloys and water
- Mineral processing test work covering the whole range of investigative techniques from bench scale to pilot plant, including crushing, grinding, classification, gravity separation, dense medium separation, magnetic separation, electrostatic separation, flotation, flocculation, thickening, filtration, and drying
- Evaluation of biomass fuels calorific value of raw material and wood pellet.

The Minerals Engineering Centre provides opportunities for undergraduate and graduate students to learn various analytical and testing techniques applicable in their course of studies. It also offers services to faculty members to assist in their teaching and research activities.

Further information may be obtained from the Director of the Centre.

Neuroscience Institute

Contact: neuroscience.institute@dal.ca

Website: <http://www.neuroscience.dal.ca>

The Neuroscience Institute was founded in 1990 to promote and coordinate research in neuroscience, the modern interdisciplinary study of the brain and nervous system.

It serves as an umbrella organization to foster research and training in neuroscience at Dalhousie. A major objective is to increase understanding of the functions of the nervous system in health and disease. To this end, the Institute coordinates the activities of neuroscientists in the Faculty of Medicine, the Faculty of Science, the Faculty of Computer Science and the School of Biomedical Engineering, facilitating collaboration between clinical and basic scientists in these Faculties. Some foci of current research activity include: development and plasticity of the nervous system; cognitive neuroscience; motor control; autonomic function; synaptic function; and sensory physiology. The Institute also provides a vehicle to seek new sources of funding, and encourages new initiatives in all areas of neuroscience research at Dalhousie. In addition, the Institute promotes and coordinates training programs in neuroscience currently offered through its constituent departments at both the undergraduate and graduate levels. It sponsors seminar series annually, and coordinates a variety of community outreach events.

Norman Newman Centre for Entrepreneurship

Director: Dr. Mary Kilfoil, BBA (St. FX), MA (Carleton), PhD (Dalhousie)

Lead Researcher: Dr. Mary Kilfoil

Phone: (902) 494-3066

Website: <http://launchDal.ca>
<http://entrepreneurship.dal.ca>

Dalhousie's Norman Newman Centre for Entrepreneurship was established to be a platform that supports entrepreneurial activity and initiatives across all faculties within Dalhousie University and with external stakeholders in the community through its three primary objectives; research, curriculum development and extracurricular programming.

The Norman Newman Centre carries out this mandate under its branded banner of **Launch Dal** - the flagship innovation-driven entrepreneurship program at Dalhousie University that supports the university's strategic direction. The work of the Centre contributes to cultural and economic vitality, locally and globally and has fostered creativity, innovation and entrepreneurship. This is exemplified through research, the development of award-winning curriculum based on this research, the delivery of high-impact extracurricular entrepreneurship programming, and the emergence of successful startup ventures generating economic impacts in the local ecosystem.

Since 2004, we've been cultivating and promoting entrepreneurship and innovation through curriculum, workshops, seminars, and competitions so that students, faculty and members of the community can develop the skills and creativity needed to bring ideas to market. We cultivate a pipeline of creators and entrepreneurs for the local and regional economy who have the skills to turn ideas into successful ventures.

The Centre has been successful in building deep connections to the regional innovation ecosystem that transcend the university, government and industry boundaries. We have positioned ourselves as an enabling organization that works with students across the university and builds bridges to the community at large. As we continue this work we have the potential to make a substantive contribution to the University, and specifically strategic priority 3.1.

The Centre is attached to the Rowe School of Business, within the Faculty of Management, Dalhousie University. NNCE promotes entrepreneurship in its many forms, through innovative curriculum, applied research and collaborative extension work (outreach). Our definition of entrepreneurship is broad and includes the development or growth of enterprises for profit, for social benefit and for sustainability. Our research is field-based and involves working with real ventures, on real projects, using state-of-the-art methodologies. Our extension work is multi-disciplinary and ranges from internships with entrepreneurs to collaborations with other faculties throughout the university.

All of our programs are designed to enhance the student's entrepreneurial knowledge, skills, and networks. In addition to supporting technology and technical start-ups through mentoring, coaching and training efforts, the Centre will provide mentoring, coaching and training to entrepreneurial students, create exemplars of technology and technical entrepreneurship through research projects and further expand the relationship with the business community.

Nuclear Magnetic Resonance Research Resource (NMR3)

Director: J. K. Rainey, BSc, MSc, PhD
Facility Coordinator: M. D. Lumsden, BSc, PhD
Solid-state NMR Coordinator: U. Werner-Zwanziger, BSc, PhD

Established in 1982 with assistance from the Natural Sciences and Engineering Research Council, the Resource is located in the Department of Chemistry and is used by faculty, researchers and graduate students in all Maritime universities, the NRC, local industry and many Dalhousie Departments. It is concerned with applications of

magnetic resonance spectroscopy to problems in chemistry, materials science, biology, biochemistry and related areas. Its current instrumentation includes Bruker, Avance 300 and Avance 500 NMR spectrometers for liquids and Bruker Avance DSX 400 and Avance 700 NMR spectrometers for solids. NMR³ users also have direct access to a Bruker Avance III 700 NMR spectrometer with cryoprobe capabilities for liquids experiments. The Avance 500 and Avance 700 NMR spectrometers were installed in 2003 with funding from NSERC, the Canadian Foundation for Innovation and the Atlantic Innovation Fund. The cryoprobes on the Avance III 700 were purchased in 2009 by Dalhousie University through an Atlantic Canada Opportunities Agency Grant. The Resource offers facilities for hands-on use by researchers and also provides NMR spectra and expertise to scientists throughout the Atlantic Region and beyond.

For more information see: <http://nmr3.chemistry.dal.ca>.

Trace Analysis Research Centre

Director: A. Doucette, BSc, PhD

The Trace Analysis Research Centre (TARC) was established in 1971 with the assistance of a grant from the National Research Council. Its mission is to train analytical chemists and, through research, to contribute to the advancement of analytical chemistry. Members of TARC from Dalhousie and associated institutions comprise a group with expertise in a wide range of chemical analysis techniques in areas such as spectroscopy, chromatography, mass spectrometry, electrochemistry, and nuclear analytical chemistry.

Resources and Services

Resources and Services

Academic Advising

Academic advisors are available across campus to provide students with academic advising and support. They coach, support and guide students to set and meet educational and career goals.

For students in the Faculty of Arts & Social Sciences, Faculty of Science and Faculty of Agriculture, Student Success Advisors can help you:

- clarify your education and career goals
- monitor your plan of study
- choose courses that relate to your goals and interests
- address concerns about your studies
- apply strategies for academic success
- identify skill-building opportunities such as co-op or study abroad
- develop an action plan if you are struggling in school
- explore academic options (including academic policies) when faced with a personal/family emergency
- determine where to go for additional support

For students in other faculties, there are faculty-specific advisors available to help.

Find out more: www.dal.ca/advising Halifax campuses: advising@dal.ca or (902) 494-3077

Agricultural campus: ssdalac@dal.ca or (902) 893-6672

Access Services

The [Student Accessibility Centre](#) (Halifax Campus) and the [Student Success Centre](#) (Agricultural Campus) serve as Dalhousie's centres of expertise on student access and accommodation. The work of our access centres is governed by Dalhousie's [Student Accommodation Policy](#), to best support the needs of our students. We advise students who require accommodation to ensure full access to their on-campus living and learning communities.

Student Accessibility advisors can help you:

- implement an accommodation plan to reduce or remove barriers to your learning
- provide access to technology supports to enhance your learning
- identify scholarship and bursary options
- connect with on and off-campus resources
- navigate accessibility challenges

If you've had accommodations previously, or have questions about accommodations, early consultation with an advisor is strongly encouraged. An advisor will meet with you to determine how to facilitate your success, and if accommodations are required, we implement those accommodations by liaising with your instructors. We also consult with faculty, staff, parents and prospective students, who have questions regarding access and accommodation.

Find out more: www.dal.ca/access

Halifax campuses: access@dal.ca or (902) 494-2836

Agricultural campus: ssdalac@dal.ca or (902) 893-6672

Alumni Engagement

As a Dal student, you are joining a diverse global family of current students and over 145,000 Dalhousie graduates. These graduates, called alumni, are available to provide support to you in many ways throughout your time at Dalhousie. As students, you can interact and network with alumni at events, participate in meaningful volunteer opportunities with alumni, and gain valuable career advice.

Students are invited to events and initiatives planned by alumni and hosted by the alumni engagement team, on campus and around the world. There are social events, educational opportunities, formal dinners, networking events, Alumni Days, the Open Dialogue and much more. Throughout Dalhousie's 200th anniversary in 2018, there are even more exciting events and initiatives to look out for. You can also volunteer with the alumni engagement team, getting involved in initiatives at Dalhousie and within the Halifax community. Dalhousie alumni are always willing to provide you with career advice, the inspiration for where you can go with your Dal degree and a general community of support to you as a student.

Once you graduate with your Dal degree, you will become a member of our growing alumni community. Your interactions with alumni will grow too: you can attend social and networking events around the world, volunteer as an alum, join a global alumni network, and have access to a range of alumni benefits and discounts.

Visit the alumni website at alumni.dal.ca to learn more and follow us on [Twitter](#), [Facebook](#), [LinkedIn](#) and [Instagram](#) to find ways to get involved with the alumni community throughout your time at Dalhousie and beyond.

Athletics and Recreation

Dalhousie offers a wide array of programs, facilities and services to suit the diverse sport, recreation and wellness needs of our students. Located on the Studley Campus, [Dalplex](#) is the university's largest fitness centre. Dalplex

membership is included in full-time student fees, so students can simply bring their DalCard and swipe it in the turnstile for access to:

- the Cardio Plus Centre
- two climbing facilities
- two weight rooms
- more than 35 weekly fitness classes
- an eight-lane, 50m indoor pool
- a 1/6-mile indoor track
- drop-in times for recreational basketball and volleyball
- racquet courts
- two outdoor tennis courts
- the Fun Zone play area for children.

The [F. H. Sexton Memorial Gymnasium](#) includes a fitness centre, a gym with hardwood courts, group fitness classes, two squash courts, and change rooms with lockers for easy access for students on the Sexton Campus.

Athletics and Recreational Services in Halifax also offers many climbing, fitness, and recreation programs and classes each term, along with a broad range of intramural leagues and tournaments. [Intramural sports](#) are fun, free and an excellent way to meet other students. Sports offered include soccer, flag football and hockey in the fall, to curling, basketball and inner tube water polo in the winter term - and that's just the tip of the iceberg! In Halifax students have the opportunity to take part in more than 20 different [recreational and competitive sports clubs](#), which are organized and run by students. The [Tigers varsity program](#) on the Halifax campuses consists of 14 teams (men's and women's basketball, cross country, hockey, soccer, swimming, track and field, and volleyball) that compete regionally in the Atlantic University Sport (AUS) conference and nationally in U Sports.

The [Langille Athletic Centre](#) is the sport and recreation facility for students on the Agricultural Campus. Intramurals and student activities on the Agricultural Campus include co-ed soccer and softball, basketball, volleyball, badminton, winter ski trips to Wentworth Skil Hill and recreation time dedicated for students and members on Sunday evenings. The DAL AC [Rams varsity program](#) includes opportunities for participation on 9 competitive teams in basketball, women's rugby, men's and women's soccer, women's volleyball, badminton, cross country, equestrian and woodsmen. The Rams belong to the Atlantic Collegiate Athletic Association (national association is the Canadian Collegiate Athletic Association), the Atlantic Intercollegiate Equestrian League and the Canadian Intercollegiate Lumberjacking Association for their various sports.

For more information about sport, fitness and recreation opportunities at Dalhousie visit www.dal.ca/athletics or www.dal.ca/rams.

Black Student Support

The [Black Student Advising Centre](#) strives to foster a sense of community and inclusion among students who are of black/African descent. Staff provide support to all Dalhousie's students of black/African descent, helping you transition in and through your degree program. We welcome you to make use of our resources to enhance your university experience.

The Black Student Advising Centre offers:

- one-on-one advising and peer support
- tutoring, study skills and writing skill programming
- quiet study spaces and a computer lab
- cultural activities, networking and orientation events
- information on scholarships and bursaries

For more information, drop by the Centre on the second floor of 1321 Edward Street, contact us at (902) 494-6648 or bsac@dal.ca or visit us online at www.dal.ca/bsac.

Career Supports

At Dalhousie there are a number of career supports available to you through the [Bissett Student Success Centre](#) in Halifax and the [Student Success Centre](#) in Truro.

Across all campuses, there is a dedicated team of academic, career and peer advisors here to assist you in exploring your career options, finding jobs and developing your career. Dalhousie offer a wide range of programs and services to help you find opportunities to get involved, build your skills, and expand your network such as:

- large and small-scale job and career events to connect you to a wide range of prospective employers and job opportunities;
- job search supports including cover letters and resumes reviews, interview preparation and tips on how to present yourself effectively as a candidate for employment;
- on-campus work experience programs designed to help you develop skills, explore your career interest and earn money in a supportive work environment;
- access to year-round workshops, programs and on-line resources to help you with your career questions and future plans.

Find out more information by logging in to myCareer <https://mycareer.dal.ca/home.htm> or visiting the website at dal.ca/careerservices.

Halifax Campuses: careerservices@dal.ca or (902) 494-3077

Agricultural Campus: ssdalac@dal.ca or (902) 893-6672

Career Counselling

Career Counselling is a confidential and collaborative process where you work with a career counsellor who assists you in your educational and career decision-making. Dalhousie's Career Counsellors can be accessed on the Halifax Campuses through the Bissett Student Success Centre, located on the fourth floor of the Student Union Building. Students can make an appointment by calling (902) 494-3077.

Centre for Learning and Teaching

The Centre for Learning and Teaching (CLT) works in partnership with the Provost's office, academic units, faculty members, and graduate students to enhance the practice and scholarship of learning and teaching at Dalhousie University. CLT takes an evidence-based approach to advocating for effective and inclusive learning and teaching practices, curriculum planning, services to support the use of technology in education, and institutional policies and infrastructure to enhance the Dalhousie learning environment. The CLT is dedicated to aligning its activities with the strategic directions of the university, including the Belong report and its recommendations. For further information, teaching resources, or a confidential consultation, you are invited to contact the Centre for Learning and Teaching, located at Suite G90, Killam Library, 6225 University Avenue, (902) 494-1622, CLT@dal.ca, or you can visit the CLT website at: dal.ca/clt

Programming: Workshop series, presentations, discussion groups, and demonstrations are scheduled to address the full spectrum of educational issues, including curriculum design, inclusive practices, classroom design, evaluation of student learning, teaching and learning strategies, e-learning and the effective integration of classroom technology.

Confidential Consultations: Educational developers at CLT provide confidential consultation services to teaching assistants, faculty, and administrators on a wide range of learning and teaching issues, including cultural competence and other aspects of inclusivity.

Annual Events: On an annual basis, CLT coordinates New Academic Staff Orientation, TA Day, Teaching Dossier Workshops, and the Dalhousie Conference on University Teaching and Learning that brings together presenters from across the University and the country to explore issues related to specific themes.

eLearning: The eLearning team with CLT offers eLearning advice and support to the Dalhousie community. With two experienced instructional designers, the eLearning team is available to offer guidance with both online and blended/hybrid course initiatives, including ensuring that these course initiatives are accessible.

Curriculum Renewal: CLT provides support for curriculum design and renewal at the level of a course, program, department and faculty. Facilitated department and faculty-specific workshops or retreats assist the formation of cohesive programs by considering how courses and content develop throughout the duration of a program. Departments or programs in the early stages of an MPHEC proposal, internal program review, or accreditation process can take advantage of CLT's resources to design learning outcomes and map the curriculum.

The Faculty Certificate in Teaching and Learning: This professional development program offers faculty and staff the opportunity to participate in courses, workshops and peer exchanges. The Certificate emphasizes evidence-based practices and provides hands-on, practical opportunities to apply these in their own teaching context. The program is offered in partnership with Executive Education in the Faculty of Management.

Certificate in University Teaching and Learning and the Teaching Assistant Enhancement Program: These programs are offered to graduate students by the CLT in partnership with the Faculty of Graduate Studies. The purpose of the program is to assist academic departments in preparing students for their teaching responsibilities and to enhance their professional development opportunities for both academic and non-academic careers.

Classroom Planning: CLT offers expertise and support to the university in the area of classroom design including support for faculty considering the use of learning spaces in the context of course design and pedagogical approaches.

Teaching Awards: CLT administers several university-wide teaching awards, including the Dalhousie Alumni Association Award of Excellence for Teaching, Early Career Faculty Award of Excellence for Teaching, Contract and Limited-term Faculty Award for Excellence in Teaching, Sessional and Part-time Instructor Award of Excellence for Teaching, President's Graduate Student Teaching Award, Educational Leadership Award for Collaborative Teaching, Academic Innovation Award, Award for Excellence in Education for Diversity, and the Award for Excellence in Graduate Supervision.

Student Ratings of Instruction (SRI): Higher education institutions in Canada and abroad encourage faculty to use teaching evaluations to rate their teaching for effectiveness. The CLT is responsible for the administration of the university-wide Student Ratings of Instruction. The ratings are administered online towards the end of each term. Quantitative and qualitative data are collected and the opportunity for departments and individual instructors to add questions to the form is available. Students may access the results of the universal questions, Part A of the form, when instructors consent to release the results of their own course(s).

Grants: CLT offers a number of Teaching and Learning Grants each year for instructors to develop and evaluate new teaching methods, curriculum innovation, elearning and teaching with technology opportunities. The Centre also organizes the Change One Thing Challenge award, inviting instructors to submit their student engagement ideas that they have implemented into their teaching.

Publications: The CLT newsletter, *Focus on University Teaching and Learning*, is published three times a year and is available online on the CLT website (dal.ca/clt). CLT's lending library provides resources on topics related to teaching. CLT's LibGuide of links to electronic sources can be found at: dal.ca/libguides.com/clt.

Co-Curricular Experiential Learning

Part-time work, volunteering, and leadership programs are great ways to get hands-on experience throughout your degree. You can develop certain skills and maybe discover other career options that interest you. Look for workshops on campus to develop your leadership skills.

Leadership Programs

With [DALConnects](#) you'll do great work for meaningful causes, develop new skills, and build up the experience you'll need for your future career. It's a free leadership program that connects you with the off-campus community and develops your leadership potential. By pairing interactive workshops, conferences, and teambuilding retreats with community volunteer opportunities, you develop practical skills that help you become a stronger leader in the classroom, the community, your future career, and in everyday life. In Truro, the [Student Advancement in Leadership program](#) offers the opportunity for students to develop skills in areas such as career exploration, personal growth, communication and leadership development. Students participate in volunteer activities, attend professional development seminars, participate in international and cultural events and learn the process of program development.

Halifax Campuses: connects@dal.ca
Agricultural Campus: sspdalac@dal.ca

Co-Curricular Record

Dalhousie [Co-Curricular Record](#) (CCR) is the university's official way to recognize your experience and involvement outside the classroom. Whether you volunteer, have an on-campus job, play on a varsity team, or are involved in a society/club, you can start building your Co-Curricular Record today!

Bolster your resume and start your record now: dal.ca/ccr.

Halifax Campuses: careerservices@dal.ca or (902) 494-3077
Agricultural Campus: ssdalac@dal.ca or (902) 893-6672

DalCard

The DalCard is your university identification card that has many uses on and off campus. It must be presented at officially scheduled examinations, to receive bursary or scholarship cheques, and to use library facilities.

It functions as an access pass to Dalhousie athletic facilities including Dalplex, your meal hall pass with a meal plan, and a door key to your residence if you live on campus.

Your DalCard can be used as a **debit card** at many locations on campus including the Bookstore and select food vendors. It can also be used for printing and photocopying, for laundry in residence (Halifax only), and for food purchases at many off-campus locations in Halifax.

The DalCard Office is located at 6230 Coburg Road. Students on the Sexton campus may obtain their DalCard at the Enrolment Services Centre, B Building, 1360 Barrington Street.

Students on the **Agricultural Campus** may obtain their DalCards from the Enrolment Services Center, Cumming Hall, Room 202, 62 Cumming Dr.

Find out more: dal.ca/dalcard Email: dalcard@dal.ca Phone: 902-494-2334

Dalhousie Arts Centre

The Dalhousie Arts Centre is integral to the arts community on our campus, in our city, and beyond. It is the only arts complex of its kind in Nova Scotia and includes the Rebecca Cohn Auditorium, the Dalhousie Art Gallery, and the Fountain School of Performing Arts.

Of the numerous performing arts spaces in the Dalhousie Arts Centre, the **Rebecca Cohn Auditorium** is the most familiar and prestigious. The 1,023 seat concert hall is the home of Symphony Nova Scotia, as well as the venue of choice for a wide variety of performers ranging from Ballet Jorgen, Just For Laughs, Billy Connolly, Vance Joy, Bill Burr, Ron Sexsmith, John Prine and Gord Downie, to name a few. Other performing and visual arts spaces in the Arts Centre include: The Sir James Dunn Theatre (194 seats), the David Mack. Murray Theatre, the MacAloney Room, and the Art Gallery.

The Arts Centre's **other performing and visual arts spaces** include the Sir James Dunn Theatre (194 seats); the David Mack. Murray Theatre (approx. 80 seats), the MacAloney Room (90 seats), the Sculpture Court and the Dalhousie Art Gallery.

The Dalhousie Art Gallery mounts national and international touring exhibitions and initiates many ambitious and exciting programs, making art accessible to our campus community and the broader public. Entrance to the gallery is free of charge.

The **Fountain School of Performing Arts** is the only multi-disciplinary performing arts school in Eastern Canada, offering university degrees in theatre, music, and cinema & media studies. FSPA's full production schedule of plays and concerts, student and faculty recitals, and more can be found at dal.ca/performingarts.

Find out more at dal.ca/artscentre

Phone: 902-494-3820

Dalhousie Student Union (DSU)

Every Dalhousie student is automatically a member of the Dalhousie Student Union (DSU). The student union is recognized by an Act of the Nova Scotia legislature as the single voice of Dalhousie students. All student activities on campus are organized through the Dalhousie Student Union, and the DSU is the focus of all student representation. The business of the DSU is conducted by a Council made up of approximately 40 members.

One of the most important resources of the DSU is the Student Union Building (SUB) located at 6136 University Avenue between Seymour and LeMarchant Streets. The SUB was opened in 1968 as a centre for student activity on campus. The Student Union Building provides a wide range of services for students including the Student Advocacy Service, The Grawood, Campus Copy, food services, the Society Hub, and much more.

Every student has the opportunity to take advantage of the Union's financial, physical, and organizational resources whether by coming to events, applying for grants, or getting involved in a committee or campaign. The DSU also oversees almost 400 student societies. All students are invited to satisfy their curiosity by visiting the DSU offices located on the second floor of the SUB and is open from 8:30 am to 4:30 pm Monday through Friday.

Telephone number (902) 494-1106, email info@dsu.ca. Check out the website at www.dsu.ca.

Dalhousie Agriculture Students' Association (DASA)

The Dalhousie Agriculture Students' Association (DASA) is the official organization of students on the Agricultural Campus. In addition to representing the students to the administration, DASA spends much of their time organizing events, clubs, groups and committees to improve student life on the Agricultural Campus. They are also responsible for publications such as the Golden Ram (student newspaper), yearbook and student agendas. The Students' Association can be found in Room 32 of the Cox Institute.

All members of the Dalhousie Agriculture Students' Association are automatically also members of the Dalhousie Student Union. Visit www.dsu.ca to learn more about the DSU.

DSU Health and Dental Plan

All full-time students who begin their studies in the fall term are automatically enrolled for coverage under the Dalhousie Student Union (DSU) Health and Dental Plan. The DSU Health and Dental Plan provides coverage for prescription medication, dental, vision, extended health care, accident and travel related expenses.

Please note that part time and distance students as well as students who are on co-op, or exchange in the fall term are not automatically enrolled in this plan and must opt in if they wish to have coverage.

The fee for the DSU Health and Dental Plan is billed to each student's account and is compulsory unless the student has comparable private coverage. If students have comparable coverage, they may be eligible to opt out of (cancel) the DSU Health and Dental Plan during the appropriate opt out period.

Students are also eligible to add immediate family members (spouse and dependent children) to the plan during opt in period in the term in which the student begins their studies only.

Health Plan Information is available online at www.studentvip.ca/dsu

DSU International Health Plan

All international students studying in Canada **must have** health insurance coverage ("coverage" refers to all of the things that your health plan includes/covers).

All international students are automatically enrolled for coverage under the Dalhousie Student Union (DSU) International Health Plan. This plan provides emergency medical coverage for services such as visiting the doctor, lab tests, x-rays, etc.

Please note that co-op or exchange students in the fall term are not billed or enrolled for the International Health Plan and must opt in should they wish to have coverage.

The fee for the DSU International Health Plan is billed to each student's account and is compulsory unless the student has comparable private health insurance or MSI. If students have comparable coverage or MSI, they may be eligible to opt out of (cancel) the DSU International Health Plan during the appropriate opt out period. Please contact the DSU Health Plan Office for the opt out period dates.

Students are also eligible to add immediate family members (spouse and dependent children) to the plan when they arrive in Nova Scotia by completing an application and paying an additional fee.

Please note international students may be covered on the DSU Health and Dental Plan as well as the DSU International Health Plan.

Dual citizens who have applied to Dalhousie as a Canadian are NOT enrolled for coverage under the DSU International Health Plan. If you are a dual citizen, please contact the DSU Health Plan Office as soon as possible to discuss your coverage options.

Health Plan Information is available online at www.internationalhealth.ca/dsu.

Email, Computer and Tech Support

Information Technology Services (ITS) empowers the success of students, faculty and staff through an overall focus on service, advising and consulting. ITS supports university instructional, research and administrative requirements. The department is responsible for all centrally managed computing, networking and telecommunications facilities including university email, MyDal, the central information system (Banner), wired and wireless network connections and student computer labs.

Need help with a technical problem? Visit one of three Help Desks located on the Halifax campus, or our Help Desk at the Dalhousie Agricultural Campus in Truro.

With a range of new and emerging technologies, ITS staff will help you explore options to make the most of your experience at Dalhousie. See dal.ca/its for more information.

First Year Experience

There's a lot to know about your first year at university; from choosing the right courses to juggling student life. To help you prepare for your time at Dalhousie, take part in [On Track](#), a suite of programs available to you in your first year, focused on your transition to Dalhousie and discovering your strengths and passions.

If you have questions, the [Bissett Student Success Centre](#) in Halifax and the [Student Success Centre](#) in Truro are a great places to start! Their knowledgeable staff can help you navigate the transition through your first year of university life and answer questions such as:

- What can I expect in university?
- How can I become involved in activities on campus?
- I'm feeling overwhelmed with all my work - what should I do?
- How do I get the most out of my university experience?
- How does my degree/program relate to future careers?

In addition to one-on-one advising, the Centres offer peer support, workshops and programming throughout the year.

Find out more: www.dal.ca/firstyear or www.dal.ca/studentsuccess (Halifax) www.dal.ca/acstudentsuccess (Truro)

Halifax Campuses: advising@dal.ca or (902) 494-3077

Agricultural Campus: ssdalac@dal.ca or (902) 893-6672

Food Services

Working with our professional food services providers, Dalhousie Food Services operates **three dining halls** on the Studley Campus, one dining hall on the Sexton Campus, and one dining hall on the Agricultural Campus.

A wide selection of **meal plans** are available for students living in residence as well as off-campus students.

Our chefs, with the help of our in-house dietitian, prepare entrées and soups from scratch to promote a healthy lifestyle. With vegan, vegetarian, halal and no-gluten options available at each meal -- along with an increasing amount of fresh, locally sourced food -- every student will have a variety of tasty and nutritious options available, regardless of their individual dietary needs.

For added variety and convenience, Dal Food Services also operates a number of on-campus **food retail vendors** across campus including Starbucks, Subway, the Second Cup, Tim Hortons and many more.

Find out more: dal.ca/food Email: food@dal.ca (Halifax Campus) | julie.fowler@compass-canada.com (Agricultural Campus)

Phone: 902-494-2078 (Halifax Campus) | 902-897-1952 (Agricultural Campus)

Housing/Residence

The university is pleased to **guarantee residence** in university-owned properties for all **new, direct-from-high-school** undergraduate students who complete the residence application process by **June 15**. It's important that students planning to attend Dalhousie think well in advance about their accommodation needs.

If you would like to apply for residence, please be aware of these **important points**:

- Upon admission to a program of study, you will be asked to pay an admission deposit.
- Once you've paid your admission deposit, you can proceed to complete the online residence application.
- Please pay your admission deposit promptly as the dates these are completed will determine when your Residence Application is considered.

It's important to pay your university admissions deposit BEFORE applying to residence. (Please allow 2-3 business days before your admissions deposit is processed.) Your residence application is not considered to be complete until:

1. you pay the residence application fee, and
2. you have been sent an email confirming that your residence application has been received.

Students with disabilities or requiring **special accommodations** are encouraged to contact the Residence Office at 902-494-1054, or email residence@dal.ca for information and assistance. Students requiring additional supports are also encouraged to contact the [Student Accessibility Centre](#) prior to moving into residence.

The **traditional-style residences** at Dalhousie are mainly for undergraduate students. All students living in traditional-style residences are required to purchase one of the meal plan options available.

The information below gives a description of 1. traditional on-campus residences, 2. non-traditional on-campus residences, which includes apartment style housing owned by the university, 3. the services offered by the Off-Campus Housing office, and 4. summer residence. For information on residence fees, see the Fees section of the Calendar.

It is the responsibility of the individual student in all cases to make a separate online application to the university housing of her/his choice.

A **non-refundable \$50 fee** is payable when applying for residence. Please note that you will not be able to submit an application without paying the \$50 non-refundable deposit.

Human Rights & Equity Services

Human Rights & Equity Services (HRES) mission is to be a focal point, a resource and a leader in the development of a respectful, equitable, diverse and inclusive campus community. Our strategic framework outlines areas of focus along with guiding principles, strategic goals and priority initiatives, with four areas of focus: leading institutional change, building connections and capacity, managing cases and ensuring operational effectiveness.

HRES is responsible for administering the following University policies: the Employment Equity Policy; the Statement on Prohibited Discrimination; the Personal Harassment Policy; and the Sexual Harassment Policy. We liaise with the Office of the Vice-Provost, Student Affairs, regarding the Code of Student Conduct and the University's Hazing Policy, with the Student Accessibility Centre, as needed, in relation to the Student Accommodation Policy, and Human Resources regarding the Accommodation Policy for Employees.

Other initiatives in Human Rights & Equity Services include education and training on topics such as diversity, human rights, harassment awareness and prevention, conflict resolution. Workshops can be request online via our website. HRES also provides the University's multifaith calendar of religious holidays and cultural dates for faculty, staff and students.

Indigenous Student Support

Dalhousie's Indigenous Student Centres help create a sense of cultural belonging to support your success while at Dalhousie. Our Indigenous Student Advisors provide support and advocacy for all of Dalhousie's Indigenous students. We welcome you to make use of our cultural, educational and career resources to enhance your university experience.

The Indigenous Student Centre provides:

- one-on-one advising and advocacy
- academic support through tutoring, study skills and writing skill development
- quiet study space and a computer lab
- access to cultural activities
- information on scholarships and bursaries
- a space to smudge

On the Halifax campus, visit our Centre (1321 Edward Street) to connect with your peers, or speak with your advisor. You can also contact us by phone at (902) 494-8863. Visit dal.ca/indigenous for more information.

On the Truro Campus, visit the Manager, Indigenous Students in the Dairy Building to take advantage of academic advising, learn about services on campus and find out how to connect with your peers. For more information, contact the Manager, Indigenous Students, at (902) 956-9270.

International Exchange and Study Support

Dalhousie University is committed to providing international mobility opportunities for all students. International exchange, study abroad programs, field courses and other international learning experiences are offered and supported through providing access to several funding programs, offering pre-departure information, and providing ongoing student and staff support. An advisor and peer supporters are available to meet on topics related to international learning.

International Student Support

Dalhousie University is committed to welcoming, supporting and serving the needs of new and continuing international and exchange students. Advisors are available to meet with you on a variety of topics including immigration, finances, exchange opportunities and personal issues. Referrals are made to other resources and services on campus when necessary.

Orientation activities are organized to assist international and exchange students in adjusting to their new culture and in achieving their educational and personal goals. A variety of social, cultural and information programs are held throughout the year. During the fall, winter and spring/summer terms, student peer supporters are available to meet with international and exchange students.

LGBTQ2SIA+ Collaborative

The education advisor in Human Rights and Equity Services works with a number of campus groups who offer LGBTQ2SIA+ support, resources, and training, including: Dal Allies, Dalhousie Student Union, DalOUT, OUTLaw, South House Sexual and Gender Resource Centre, and more.

Contact these groups directly, visit the website at dal.ca/hres or make an appointment with the education advisor by emailing hres@dal.ca.

Libraries

The Dalhousie University Libraries provide access to scholarly resources and information services to support learning and teaching, and research. The Dal Libraries welcome all Dalhousie students, faculty, staff, and members of the community. The Dalhousie Libraries include the Killam Memorial Library – Humanities, Social Sciences, Management, Computer Science, and Science; the Sir James Dunn Law Library – Law; the W. K. Kellogg Health Sciences Library – Medicine, Dentistry, and Health; the MacRae Library – Agriculture; and the Sexton Design & Technology Library – Architecture & Planning, and Engineering. The University Archives, Copyright Office, and the GIS & Data Centre are also part of the Dal Libraries and are located in the Killam Memorial Library.

Additionally, the libraries have two standalone learning commons: the Wallace McCain Learning Commons and the Kellogg Library Learning Commons, located in the Collaborative Health Education Building. These learning commons provide study spaces for both silent study and vibrant collaborative engagement, access to computers, information resources, and research assistance. All of the Libraries' spaces have public access computers and WiFi. Most of the Libraries' spaces have bookable study rooms for groups as well as individual carrels for private study.

The website, dal.ca/libraries, provides access to collections, databases, subject guides, and other services. Staff in all five libraries provide reference and research services.

The Libraries manage DalSpace, an institutional repository where many Dalhousie researchers' publications can be found. The Libraries provide assistance with research data management planning and implementation, and manage an installation of DataVerse for sharing research data. The Dal Libraries use Open Journal Systems (OJS) software and provide digital publishing services to the university community.

The Dalhousie Libraries' Copyright Office provides guidance to students, faculty, and staff on copyright issues. There are IT Help Desks in the Killam and Sexton Libraries and the Wallace McCain Learning Commons to provide computer and software support. 3D printing is available at the Killam, MacRae, and Sexton Libraries. Assistance for Brightspace use is also provided through the IT Help Desks and via support@dal.ca.

The Dalhousie Libraries is a member of Novanet, a network of university and college libraries in Nova Scotia and New Brunswick, sharing an online catalogue of the holdings of the member libraries. Users can borrow from any Novanet library upon presentation of their DalCard. Access to materials outside of the Dalhousie Libraries is available through the Document Delivery service, available online and at Dal Libraries service desks.

Multifaith

Dalhousie Multifaith Services is a non-threatening space where Dalhousie and King's students, staff and faculty can address the basic questions of meaning and purpose in their lives — no matter what their faith, philosophy or doubt may be.

What we do:

- offer confidential guidance on personal and spiritual issues
- lead groups in discussion and prayer
- facilitate interfaith, ecumenical, and multifaith dialogue on the campus
- conduct services of worship and memorial services
- offer prayers at public services
- provide religious rites, marriage preparation, and perform marriages
- participate in Orientation and other events at the University
- plan workshops, lectures and social activities
- help locate worship communities for different faith traditions

For more information about the services and supports we offer, or to speak with a chaplain, drop by Multifaith Services on the fourth floor of the Student Union Building at 6136 University Avenue.

Ombudsperson

The ombudsperson is a mediator who ensures everyone at Dalhousie is treated fairly and respectfully. They provide accessible, independent, impartial, and confidential support to help you get a fair and equitable resolution of any university-related issue (academic or non-academic).

Some examples of when you could reach out to the ombudsperson are:

- You want to discuss a sensitive issue in confidence, including:
 - Student and supervisor/instructor/professor relationships
 - Abuse of power, bullying, or unfair treatment
 - Fear of coming forward or of acting to stop unacceptable behaviour
- You are unsure about which rules, policies or procedures apply to your situation
- You feel that a particular rule or policy has been applied unfairly
- You feel that your learning has been affected by the conduct and behaviour of another person
- You require someone to help facilitate communication between you and a university administrator

Find out more at www.dal.ca/ombudsperson or if you have questions, please email: ombuds@dal.ca

Personal Counselling

As a student you'll find that most of the time you can deal with the everyday issues that pop up while attending university. But life can sometimes challenge you in unexpected ways.

On the Halifax Campuses, supports and services offered through the [Student Health & Wellness Centre](#) help students address problems and learn new skills in a confidential, supportive environment. Counselling is provided by professionally trained counsellors and psychologists and is available for individuals and on a group basis. Students can access counselling services through a same-day counselling appointment available on a first-come, first-served basis every hour the Student Health & Wellness Centre is open.

The Dalhousie Student Health & Wellness Centre team includes psychologists who may provide screening assessments, learning strategies, and advocacy services to students with learning disabilities (LD), attention-deficit hyperactivity disorder (ADHD), and/or Autism Spectrum Disorder (ASD) depending on information obtained from an initial intake interview (with a psychologist).

[Career Counselling](#) is a confidential and collaborative process where you work with a career counsellor who assists you in your educational and career decision-making. Dalhousie's Career Counsellors can be accessed on the Halifax Campuses through the Bissett Student Success Centre, located on the fourth floor of the Student Union Building. Students can make an appointment by calling (902) 494-3077.

On the Agricultural Campus, students can meet with nurses at [Health Services](#) in the Dairy Building who work with students to take care of their physical and mental health and can also refer students to community psychologists. Through the campus physician, students may also receive a referral to a psychiatrist.

Students can also receive online support for feelings of depression, anxiety or stress through the use of the [TAO](#) (Therapy Assistance Online) app, an online self-help program. It includes modules that you work through at your own pace, either independently or with a TAO coach. Students can also access telephone counselling 24/7/365 with the Good2Talk program (1-833-292-3698).

Find out more: www.dal.ca/studenthealth.

Make an appointment:

Halifax Campuses: (902) 494-2171

Agricultural Campus: (902) 893-6300

Registrar's Office

The Registrar's Office is responsible for high school liaison, admissions, awards and financial aid, registration, maintenance of student records, scheduling and coordinating formal examinations, and convocation. Of greater significance to students, however, is the role played by members of the staff who provide information, advice, and assistance. They offer advice on admissions, academic regulations and appeals, financial aid and budgeting and the selection of programs. In addition, they are prepared to help students who are not quite sure what sort of assistance they are looking for, referring them as appropriate to departments for advice about specific major and honours programs or to Student Affairs or to specific service areas such as Counselling Services.

Students can access the services of the Registrar's Office at three locations.

Main office (Studley Campus):

Room 130, Henry Hicks Academic Administration Building
6299 South Street
Halifax, NS

Enrolment Services Centre (Sexton Campus):

Building B, 1360 Barrington Street
Halifax, NS

Enrolment Services Centre (Agricultural Campus):

Room 100, Cox Institute, 21 Cox Road
Truro, NS

Enquiries may be directed to:

The Registrar
Dalhousie University
PO Box 15000
Halifax, NS Canada B3H 4R2
Telephone: (902) 494-2450
Fax: (902) 494-1630
Email: registrar@dal.ca

Safety

Dal Security operates in a uniform capacity 24/7, 365 days of the year as the on-campus emergency first responders across all four Dal campuses (including three in Halifax and one in Truro). We pride ourselves in offering approachable and accessible services to all members of the Dal community. We have a robust social media presence where you can find updates on events, safety tips, and information on campus closures.

Follow us at @DalSecurity on Twitter and dal_security on Instagram. Through collaboration with our on-campus partners, services are quickly and conveniently accessible by downloading our free DalSAFE app. Come visit us in person at one of our three offices; our main office is located in the parkade of the Marion McCain Arts and Social Sciences building on the Studley campus in Halifax, a secondary office is located in the Dairy building on the Truro campus, and a third satellite office is located at the Sexton campus in Halifax.

Dalhousie Security can also be reached at (902) 494-6400 (Halifax Campuses) and (902) 893-4190 (Truro Campus) in any emergency.

South House

A DSU service and Halifax's only full-time gender justice centre. A volunteer-driven, student-funded, gender-inclusive safe space for all members of the Dalhousie community. South House is a trans- and queer-positive, wheelchair-accessible space that offers a resource centre, library, and free meeting space for woman-positive and anti-oppression organizing and gathering. Visit us online at www.southhousehalifax.ca or drop by the Centre on the basement floor of 1443 Seymour Street.

Student Advocacy

The Dalhousie Student Advocacy Service helps ensure that students receive fair and reasonable decisions on issues dealing with academic appeal and discipline matters. Our volunteer advocates advise students about their case, help them draft and edit any written submissions, prepare them for hearings and formal appeals, and provide support through the process and articulates matters of importance during the oral hearing. This year-round service is confidential and operated entirely by students. Contact us at the Student Union Building (Room 310), by phone at (902) 494-2205 or visit us online at www.dsu.ca.

Student Affairs

The Vice-Provost, Student Affairs (VPSA) is Dalhousie University's chief officer of student affairs. The Division of Student Affairs is responsible for strategy, policy development, program development and implementation, and management of all matters relating to the provision of a transformative student experience.

The Division includes an integrated team of specialists who works collaboratively to support the institution's academic mission and the holistic success of a diversity of students, through their journey from prospective

student, through applicant and enrolled students, to learner and scholar, and, ultimately, graduate and engaged citizen.

The units within the Division support four pillars: Student Registrarial and Enrolment Support; Student Health & Wellness; Student Learning and Academic Support; and Student Life and Leadership Development.

Our units include:

- Agricultural Campus Student Success Centre;
- Bissett Student Success Centre: Academic Advising and Career Services;
- Black Student Advising Centre;
- Co-Curricular Experiential Learning;
- Indigenous Student Centre;
- International Centre;
- Multifaith Services;
- Registrar's Office;
- Residence and Student Life;
- Student Accessibility Centre;
- Student Affairs Communications and Marketing;
- Student Conduct Office;
- Student Health and Wellness;
- Studying for Success;and
- Writing Centre

Student Clubs and Organizations

With so many clubs and organizations on campus, not only will you find plenty of people who share **common interests**, but you'll have an opportunity to **try something completely new**. The mobile app offered through the [Dalhousie Student Union](#) offers a searchable listing of hundreds of student clubs and societies. Browse the listings and find societies that suit your interests.

Also, be sure to watch for the **Society Fair in September**. The fair is a chance for all societies to showcase their activities and objectives to other Dal students. Drop in, visit society booths and discover clubs, societies and organizations that may be of interest to you. Watch for details on the DSU website. And, if you don't find a society of interest, **start your own!**

Find out more: www.dal.ca/studentlife

Email: dsumemberservices@dal.ca or studentlife@dal.ca

Phone: (902) 494-1106 (Halifax Campuses) or drop by Room 32 of the Cox Institute (Agricultural Campus)

Student Conduct

Everyone at Dalhousie is expected to treat others with dignity and respect. The Code of Student Conduct allows Dalhousie to take disciplinary action if students don't follow this community expectation. Dalhousie recognizes its students as independent adults and the Code exists to maintain a minimum standard of behaviour that's deemed acceptable by our community. The Code is very broad and encompasses many types of behaviour.

When appropriate, violations of the code can be resolved in a reasonable and informal manner. If an informal resolution can't be reached, or would be inappropriate, procedures exist for formal dispute resolution.

Visit [Student Conduct](#) online for more information.

Student Health & Wellness

Dalhousie Student Health & Wellness is committed to providing quality **healthcare** and services to promote and enhance students' good **health and well-being**. Student Health and Wellness services are easily accessible and geared toward the unique health needs and concerns of students.

The Halifax campuses' [Student Health & Wellness Centre](#) is located on the second floor of 1246 LeMarchant Street. The Centre's interprofessional team includes:

- counsellors
- doctors
- health promotion experts
- nurses
- psychiatrists
- psychologists
- social worker

Students can [book online](#), call or stop by the Student Health & Wellness Centre for a same day medical or counselling appointment.

The [Agricultural Campus' Health Services](#) clinic is located in the Dairy Building, next to Cumming Hall. Registered nurses at the clinic provide confidential assessments, health education, on-the-spot testing and treatment for conditions such as urinary tract infections, strep throat, sexually transmitted infections, as well as cold and flu assessments, first aid, stress management guidance, and select immunizations and immunization updates. Nurses also provide referrals to appropriate community resources.

A campus physician is also available by appointment. Physician appointments can be booked by contacting Health Services.

All students must have [medical and hospital coverage](#). All Nova Scotia students are covered by the Nova Scotia Medical Services Insurance. All other Canadian students must [maintain coverage](#) from their home provinces.

International students have the same access to services, supports, workshops, events and online health and wellness resources as Canadian students, as well as additional services available to you, detailed [here](#). All non-Canadian students must be covered by medical and hospital insurance. Details of the Dalhousie Student Union International Health Plan can be found [here](#).

Find out more: www.dal.ca/studenthealth

Phone: (902) 494-2171 (Halifax Campuses) (902) 893-6300 (Agricultural Campus) specialist health care providers.

Studying for Success

At Dalhousie, we have dedicated staff available to assist students in becoming more efficient and effective learners.

On the Halifax campuses, the [Studying for Success program](#) offers workshops to small groups of students to develop or enhance personal learning strategies and, when applicable, workshops are customized to focus on particular disciplines or fields of study ensuring that the workshop content is relevant to the needs of participating students.

On the Agricultural Campus, the [Student Success](#) Coordinator helps students reach their potential through a variety of programs and events. Students benefit from attending formal training in study skills and can make an appointment to meet with the Coordinator for one-on-one coaching or attend Study Skills sessions offered regularly throughout the year.

Topics regularly covered include time management, getting the most from lectures, critical reading, goal setting, note-taking, studying effectively, memorization and concentration, and preparing for and writing exams. Study Skills coaches provide one-on-one support either by appointment or on a drop-in basis and will refer students to other academic resources when appropriate.

If you are looking for assistance in understanding specific course content and assignments, or preparing for tests and exams, our tutors are able to help. We can match you to an appropriate tutor in your field of study.

Find out more: www.dal.ca/advising

Halifax Campuses: sfs@dal.ca or (902) 494-3077

Agricultural Campus: ssdalac@dal.ca or (902) 893-6672

University Bookstore

Dalhousie's Bookstores are owned and operated by the university. Our locations are found in the Student Union Building on the Studley Campus, in the main Administration Building on the Sexton Campus and the Cox Institute on the Agricultural Campus. The stores service the needs of students, faculty, staff and the larger community surrounding Dalhousie.

The Bookstore offers course materials in **several formats** including new, used, binder-ready and digital. We also carry custom publications and offer an online rental program where books rented are shipped to you from our third party partner. Used book buybacks are held at the Bookstore and you can learn more about the Book Buyback program on our website dal.ca/bookstore.

In addition to course materials the bookstores offer **stationery supplies, clothing, giftware, graduation rings and frames**. Our clothing can be customized for societies, sports teams and any other groups looking for a unique Dalhousie item. The Bookstore is the go-to hub for your Tiger and Ram-inspired gear!

In addition to textbooks and course supplies, the Dal Bookstore carries a large selection of **items for apartments and residence dorm rooms**, including bedding, towels, décor items, and even energy-efficient mini fridges. Anything you purchase online can be delivered or packaged and ready for you to pick up at a convenient and central campus location .

When you pay for items at the Bookstore with your DalCard, **5% of the purchase** price is put back on your account to use toward future purchases.

Find out more at bookstore.dal.ca Email: bookstore@dal.ca

University Secretariat

The University Secretariat provides professional and administrative support and advice to the Board of Governors and University Senate so as to facilitate their effective governance of the University.

The Secretariat manages, coordinates and informs the effective operation of the Board and Senate by:

- Supporting the operations of the University's governance bodies and their respective standing and ad hoc committees;
- Proposing and developing objectives and plans to establish and achieve priorities;
- Advising on governance issues and developing and implementing policies, procedures and processes that reflect governance best practices;
- Developing, implementing, managing and coordinating the University academic integrity, student discipline and academic appeals policies and processes, and maintaining official records relative to these processes;

- Serving as a repository for University policies and information and data on matters relating to University governance; and
- Facilitating communication and collaboration with key stakeholders.

Visit the website at dal.ca/secretariat

UPass

The UPass is a transit pass that allows full-time Halifax-based Dalhousie students to ride the conventional buses and ferries in Halifax from **September 1 to April 30**. A separate Summer UPass is available for Halifax-based Dalhousie students enrolled full time in the spring/summer semester.

The UPass is a sticker placed directly onto the DalCard. UPasses can be picked up from the DalCard Office, located at 6230 Coburg Road, and from the Student Accounts Office in the Henry Hicks Building. Students on the Sexton Campus may obtain their UPass from the Sexton Student Service Centre, B Building, 1360 Barrington Street. Students **must be registered full time** before picking up their UPass.

Find out more: dal.ca/upass Email: upass@dal.ca
Phone: 902-494-2334

Writing Skills

Students in all disciplines at Dalhousie are required to write clearly to inform, persuade, or instruct an audience in term papers, lab reports, essay exams, critical reviews and other academic assignments. Students can benefit from a one-on-one discussion of their work with supportive instructors and peer tutors at the Writing Centre. In addition to the one-on-one tutoring, the Writing Centre hosts seminars held throughout the year on topics such as essay writing, science writing, mechanics of writing, English as another language, and admission applications as some examples.

In Halifax, you'll find the [Writing Centre](#) in the Killam Library's Learning Commons. Writing tutors are also available in satellite locations: Sexton Campus, Wallace McCain Learning Commons, Black Student Advising Centre, and the Indigenous Student Centre.

Students on the Agricultural Campus can visit the [Writing Centre](#) on the main floor of the MacRae Library.

Introduction

The following section of the calendar outlines the University Regulations on academic fees for both full-time and part-time students enrolled in programs of study during the fall, winter and summer terms. A section on University residence and housing fees is also included. Students wishing to register for the summer term should consult the summer school timetable online at www.dal.ca for information on registration dates and fees.

All fees are subject to change with approval of the Board of Governors of Dalhousie University. The 2020/2021 Academic Fee Schedule will be available in June 2020 at www.moneymatters.dal.ca.

NOTE: Student tuition fees and other fees published herein are applicable only to regular students admitted to a program through the normal application process. Other students who are admitted to Dalhousie under a special program or policy will be charged student tuition and other fees in accordance with such special program or policy. For further information regarding these fees, please contact Student Accounts or the Dean's office of the applicable faculty.

Students should make special note of the academic dates contained in the front section of the calendar as well as fee dates. Students should also be aware that additional fees and/or interest will be charged when deadlines for payment of fees as contained herein are not met.

All the regulations in this section may not apply to Graduate Students. Please refer to the [Faculty of Graduate Studies](#) section of the Graduate Calendar.

	Last day for complete refund
February	
15	\$50 reinstatement fee assessed to accounts with balances of \$100 or more
March	
8	Last day for partial refund for winter term

NOTE: Please consult the online summer school timetable for the summer school registration schedule.

Website www.moneymatters.dal.ca

University Regulations

The following general regulations are applicable to all payments made to the University in respect of fees. Please refer to our website for additional information on payment options: www.moneymatters.dal.ca.

- Fees must be paid in Canadian funds by online bank payment, interac, negotiable cheque or money order.
- Money transferred to a student's account are not to exceed the annual charges associated with tuition and ancillary fees. Funding for off-campus and personal expenses is to be sent directly to the student. Overpayment on a student's account may result in funds being withheld and applied toward future term fees for up to one academic year.
- If payment by cheque is returned by the bank as non-negotiable, there will be an additional fee of \$20 and the account will be considered unpaid. Furthermore, if the bank returns a cheque that was to cover payment of tuition, the student's registration may be cancelled and, if permitted to re-register, a late fee will apply.
- Accounts in arrears must be paid by certified cheque, money order or interac prior to registration in a future term.

Admission Deposits

A non-refundable deposit of \$200 is payable on acceptance to all new undergraduate and graduate programs. Undergraduate students admitted by April 20 are required to pay the deposit by May 15. Undergraduate students accepted after April 20 must pay the deposit within three weeks of receiving an offer of admission. Graduate students must pay the deposit within four weeks of receiving an offer of admission.

Undergraduate Medicine and Law students are required to pay a \$500 non-refundable, admission deposit.

International Dentistry, Qualifying Dentistry and Internetworking students are required to pay a \$2,500 non-refundable admission deposit.

Admission deposits are later credited towards tuition fees for the applicable term.

Registration

A student is considered registered after selection of course(s).

Selection of course(s) is deemed to be an agreement by the student for the payment of all assessed fees.

Non attendance does not constitute withdrawal. Students must ensure that they cancel registration in all courses if they choose to withdraw.

Identification Cards (DalCard)

All full and part-time students should obtain identification cards following registration in the current year. ID cards are valid until August 31. If a card is lost, a fee of \$15 is charged for a replacement.

Audit Courses

All students auditing a course pay one-half of the regular tuition fee plus full auxiliary fees, if applicable. In such cases, the student is required to complete the usual registration process.

A student who is registered to audit a course, who during the session wishes to change their registration to credit, must receive approval from the Registrar. This must be done on or before the last day for withdrawal without academic penalty. The same deadline applies for a change from credit to audit. Graduate students please see Section 6.6.4 for audit information.

Late Registration

Students are expected to register on or before the specified registration dates. Students wishing to register after these dates must receive the approval of the Registrar. A late registration fee of \$50 will apply if registration and payment of fees has not been completed by specified dates. This fee is payable at time of payment and will be in addition to regular fees.

Course Changes and Withdrawals

Please consult Student Accounts for all financial charges and the Registrar's Office for academic regulations.

Students withdrawing from all courses must submit written notification to the Registrar's Office. Non attendance does not constitute withdrawal, you must ensure courses are dropped. Refunds due to class withdrawals will be effective the date a course(s) is dropped online at dalonline.dal.ca or written notification is received at the Registrar's Office. Please contact Student Accounts to have your refund processed.

In the Faculty of Health, students who wish to withdraw from the University must obtain written approval from the appropriate school or college and submit the appropriate forms to the Registrar. Students in these faculties should continue to attend classes until their withdrawal has been approved.

Academic Fees

Upon approval of the 2020/2021 academic fees, a complete schedule showing the payment dates will be available in June 2020 at www.moneymatters.dal.ca. Students are advised that fees are subject to change by approval of the Board of Governors, and it is likely that tuition and fees will increase during each year of study.

NOTE: Students registered in more than one program are required to pay separate academic fees for each program. Additional course specific auxiliary fees may apply, as well as fees for online courses or programs related to distance delivery.

Introductory Studies	393.30
Veterinary Technology	593.60

Note: Per course fees are based on a three credit hour course. Complete fee schedules are available online www.moneymatters.dal.ca. The 2019/2020 fee schedule currently online is expected to be updated in June 2020 with the approved academic fees for 2020/2021.* International students are required to pay an International Tuition Fee in addition to tuition.

Exchange Students

Outbound exchange students whose fees are paid to Dalhousie University will be assessed tuition and fees for 15 credit hours for the faculty of their degree.

International Students

Additional International Tuition Fee

Registered students, who are not Canadian citizens or permanent residents are required to pay an Additional International Tuition Fee to a maximum of \$5,634 per term, subject to increase in 2020/2021. The rate for students returning in 2019/20 to their 2018/2019 programme of study is \$4,897.50 per term or \$6,768 per year for those in thesis-based graduate programmes. There is a proportional charge for part-time international students. International Dentistry, Qualifying Dentistry and Internet working students are exempt, as are PhD students who were admitted for September 2019 onwards. Graduate Students please refer to [Section 5.7 of the Graduate Studies Calendar](#) to determine the number of years a student is required to pay the international tuition fee.

If a student receives permanent resident status, the Additional International Tuition Fee will not be assessed for the current term and beyond. In order to process a retroactive reimbursement of differential fees in a current term, acceptable proof of residency must be submitted to the Registrar's Office prior to the last business day of December, April, and August for each term.

Health Insurance

International students will be charged for an International Student Health Insurance Plan when they register. If a student already has sufficient, comparable health coverage, they can apply to opt out of the International Student Plan at the DSU Health Plan Office before September 18, 2020. More details on the international student health plan costs, coverage and the opt-out process can be found at www.dsu.ca. Full-time international students will also be assessed the extended DSU Health and Dental plans, see 11.F.2.

Health Insurance - International Students (2019/2020 rates, for information only)

- Single - \$728 per year
- Family - \$1,832 per year

Student Fees

In addition to tuition and course related fees, the following mandatory incidental fees may apply. These fees are non-refundable beyond the due date for each term. In cases of late cancellations or retro-active withdrawal, the mandatory incidental fees remain payable. Rates provided as information only, subject to change for 2020/2021.

Student Union Fee

Every student registered at Dalhousie is a member of the Student Union and required to pay a Student Union fee as part of their registration procedure. These fees have been approved by students in referenda and, along with other revenue of the Union, are allocated each year by the Student Council budget.

For information only, 2019/2020 full-time student union fees are \$77.28 per term.

Health and Dental Insurance

Each Fall term, full-time students are assessed the DSU Health and Dental Plan that provides extended coverage from September through August. The current rate is \$464 per year.

Students with separate health insurance may apply to the DSU for reimbursement. For more information please contact the DSU Health Plan Office, Student Union Building (SUB), Room 344, Phone: (902) 494-2850 or visit their website at www.dsu.ca.

Student Service Fee

Student Service provides and supports various Dalhousie Services including health services, academic support and athletics. For information only, 2019/2020 Student Service fee is \$167.40 per term for full-time students.

The following services will be provided without additional charges unless specified:

- Change from Audit to Credit
- Confirmation of Enrolment
- Confirmation of Fee Payment
- Dalplex Membership
- Leave of Absence Fee
- Letter of Permission
- Replacement Tax Receipt
- Transcripts (maximum of five requested at one time)

Facilities Renewal Fee

All students are assessed a facilities renewal fee of \$94.90 per term; \$31.50 per term for part-time students. Full-time, Halifax students are also assessed a recreation renewal fee of \$90 per term (to a maximum of \$180 per year) which supports athletic facilities. Students in the Faculties of Engineering, Architecture and Planning also pay a Sexton Campus Facilities Renewal Fee of \$100 per term which supports the IDEA Building.

2019/2020 rates provided for information only and are subject to increase upon approval of the Board of Governors.

University Bus Pass Fee (UPass)

All eligible, full-time students will receive a Metro-Transit bus pass (UPass). The fee in 2019/2020 is \$160.30 and is effective September through April. Please refer to www.upass.dal.ca for further information. Eligibility for the summer UPass program is determined by summer term registration and as information, the rate for Summer 2020 is \$80.15

Laboratory Deposits

A deposit for the use of laboratory facilities in certain departments is required. The deposit is determined and collected by these departments. Students will be charged for careless or willful damage regardless of whether a deposit is required.

Additional Student Fees

Departments may also charge additional fees on a cost recovery basis not included in the fee schedule. Examples include, but are not limited to, print or copy fees, transportation costs and material fees. Students registered in online courses and distance programs will be assessed additional fees for delivery of these courses.

Miscellaneous fees are charged as outlined in the table below.

Miscellaneous Fees 2019/2020

Fee	Amount	Payable at
Late Registration	\$50	Student Accounts
Reinstatement Fee	\$50	Student Accounts
Returned Cheque	\$20	Student Accounts
Admission Deposit	\$200	Student Accounts

Undergraduate Medicine Admission Deposit	\$500	Student Accounts
Application Fee - Undergraduate	\$70	Registrar
Application Fee - Graduate	\$115	Registrar
Late Graduation Application	\$50	Registrar
Replacement ID	\$15	DalCard Office
Replacement Bus Pass	\$15	DalCard Office or Student Accounts
Transcript	*\$5	Registrar
Fax Fees		

Metro	\$5	Registrar
Canadian	\$10	Registrar
International	\$15	Registrar
Residence Application Fee	\$50	Residence

* Where appropriate, contact Registrar's Office for details Note: Fees are subject to change after publication of this calendar.

Statements and Monthly Notices

Students with current activity will be issued electronic statements. Students will be notified through their official Dalhousie email account when a new statement is available. Subsequent monthly payment reminders will be sent to the student's official Dalhousie email address. Refer to www.moneymatters.dal.ca for more information.

Release of Student Financial Information

University policy recognizes the financial account as belonging to the student and therefore, to protect student privacy, account information is considered confidential. For more information on granting permission for financial information to be released to a third party (such as a parent), please contact Student Accounts at (902) 494-3998 or in Truro at (902) 893-6361 www.moneymatters.dal.ca.

Payment

The payment of academic fees will be received at the Student Accounts Office located on the basement level of the Henry Hicks Academic Administration building, the Enrolment Services Centre on Sexton Campus or the Enrolment Services Centre, Truro.

For the convenience of students, Canadian cheques and money orders, payable to Dalhousie University, are accepted by mail. Fees paid by mail must be received by Student Accounts on or before the term due date to avoid late payment and/or delinquency charges.

The following regulations apply to the payment of academic fees. For further information on regulations regarding withdrawal of registration, please refer to II.K:

a. All

students must pay the applicable deposit in accordance with Section A.

- b. Those holding external scholarships or awards paid by, or through, Dalhousie must provide documentation of the scholarship or award before term fees are due.
- c. Those whose fees are paid by a government (or other agency) must have the third party billing form completed and submit to Student Accounts by

September 18 or January 15 or the respective term. This form is available online at www.moneymatters.dal.ca

d. Those paying the account balance by Canada Student Loan must negotiate the loan by

September 18 or January 15 for the resp

ective term. Interest will be charged after these dates and a late registration fee will apply.

- e. Those whose fees are paid by Dalhousie University staff tuition fee waiver must present the appropriate waiver form and pay applicable incidental fees by September 18 or January 15, for the respective term.
- f. Those who are Canadian citizens (or permanent residents), 65 years of age (or over) and enrolled in an undergraduate degree program will have their tuition fees waived, but must pay the applicable incidental fees.
- g. Scholarships or awards paid by, or through, Dalhousie University will be applied to academic and residence fees.
- h. When a Canada Student Loan, provincial loan or co-payable bursary is presented at the Student Accounts Office, any unpaid charges will be deducted.
- i. Fees cannot be deducted from salaries paid to students employed at Dalhousie University.
- j. Any payments made to a student account is first applied to past due balances.

Canada Student Loans

Students planning to pay by Canada Student Loan should apply to their province in April or May so that funds will be available by the time payment is required. The University will deduct fees/charges from the loan at the time of endorsement. Please contact the appropriate provincial office to determine eligibility as well as course load requirements. A late fee of \$50 will apply if the loan is negotiated after September 18, 2020. (January 15, 2021 for students registered for winter term and May 14, 2021 for students registering for the summer term).

Provincial Bursaries and University Scholarships

These cheques are distributed by the Student Accounts Office. Any unpaid fees and/or temporary loans along with charges, if applicable, are deducted and payment will be issued following endorsement for any balance remaining. A valid Dalhousie University ID and Social Insurance Number must be presented in order to receive cheques. Please contact the appropriate provincial office to determine eligibility as well as courseload requirements for provincial bursaries.

For more information on student loans, bursaries or scholarships, inquiries should be directed to the Registrar's Office, Henry Hicks Academic Administration Building, Room 130.

Receipts

The amount of academic fees constituting an income tax credit is determined by Canada Revenue Agency.

A special income tax certificate (T2202) will be available annually through Web for Student at dalonline.dal.ca no later than February 28 for the prior calendar year.

Refunds

Students withdrawing from all courses must submit written notification to the Registrar's Office. Non-attendance does not constitute withdrawal, you must ensure courses are dropped. Refunds due to course withdrawals will be effective the date a course(s) is dropped online at www.dalonline.dal.ca or written notification is received at the Registrar's Office. Please contact Student Accounts to have your refund processed.

In the Faculty of Health Professions, students who wish to withdraw from the University must obtain written approval from the appropriate school or college and submit the appropriate forms to the Registrar. Students in these faculties should continue to attend class until their withdrawal has been approved.

Refund Conditions

Refunds will be processed as follows:

- a. Based on the withdrawal date, tuition is refunded based on percentages outlined in the refund schedule at www.moneymatters.dal.ca

- b. No fee adjustment will be made for a student changing their degree or program as follows:

Regular (Sept - April) and Fall Terms After September 18, 2020

Winter Term After January 15, 2021

Summer Term After

May 14,

2021

- c. No refunds will be made for 30 days when payment has been made by personal cheque or 60 days for a cheque drawn on a bank outside of Canada.
- d. Refunds will be made to the appropriate Student Loan service provider if a student has paid with a student loan and no longer meets eligibility criteria.
- e. A student who is dismissed from the University, for any reason, is not entitled to a refund of fees.
- f. Refunds will be prorated on fees paid by Dalhousie scholarships and/or tuition waiver.
- g. A valid Dalhousie University ID must be presented in order for a student to collect a refund cheque.

Refund Schedule

The most current version of the refund schedule is available at www.moneymatters.dal.ca.

Important Information Regarding Refunds

- A portion of fees as outlined in the refund schedule will be assessed if withdrawal from a course occurs after September 18 (Fall Term) and January 15 (Winter Term). Withdrawals before these dates will be completely refunded, but no substitutions will be allowed from a financial perspective after these dates
- Non-attendance does not constitute withdrawal and fees will be payable.
- Students of the University of King's College should refer to college refund policies at www.ukings.ca
- For financial charge inquiries, contact Student Accounts at (902) 494-3998 or Student.Accounts@dal.ca.

Delinquent Accounts

Accounts are considered delinquent when the balance of fees has not been paid by September 18 for the fall term or January 15 for the winter term.

Interest, at a rate set by the University, will be charged weekly on delinquent accounts for the number of days overdue.

Effective July 1, 2019 the rate of interest is 6.95% per annum, compounded monthly.

A student whose account is delinquent for more than 30 days will be denied University privileges including access to transcripts. A student will be reinstated upon payment of the fees outstanding, the arrears interest and a \$50 reinstatement fee. Students will not be permitted to register in future terms until all outstanding amounts are paid in full. Subsequently, if the bank does not honour the payment, the student may be deregistered.

Graduating students whose accounts are delinquent on April 15 will not receive their degree/diploma parchment. For fall graduation the deadline is September 1. Transcripts are withheld until payment is received in full.

Accounts which become seriously delinquent may be placed in collection or further legal action may be taken against the individual. Students will be responsible for charges incurred as a result of such action.

Residence Fees

Residence rates vary depending on the location and style of accommodations available. For up-to-date residence options and rates, please visit dal.ca/residence. All residence rates include high-speed WiFi and a TV / entertainment streaming package. Rates **do not** include the non-refundable \$50 Residence Application Fee.

It is important to note that traditional residences have a mandatory meal plan; however, there are several options available for students. Traditional residences on the Halifax campuses include: Howe Hall, Risley Hall, Shirreff Hall, Gerard Hall, LeMarchant Place and Mini Res. Traditional residences on the Truro campus include: Chapman House, Fraser House, and Trueman House. Non-traditional residence options on the Halifax campuses include: Glengary Apartments and the Grad House. On the Truro campus a section of Trueman House is reserved for non-traditional accommodations. Meal plans are not required in non-traditional residences but are recommended. For up-to-date meal plan options and rates, please visit dal.ca/foodservices.

Important:

- Once offered admission to an academic program of study at Dalhousie, students are eligible to submit a residence application. **Application can be made within 2-3 business days of the \$200 admission deposit being paid.**
- Students must be registered full-time at Dalhousie to apply to residence.
- No refund will be made to any resident who is dismissed for misconduct. Discretionary power in exceptional circumstances remains with the Director, Residence Operations, in conjunction with the Director, Residence Life or their designates.
- All residence students, new and returning, who have received notification of their room assignment, must pay a \$500 deposit to confirm their acceptance. The deposit is due within the time frame specified by the Residence Office.
- \$250 of the \$500 deposit is refundable if cancellation is received prior to August 1. No refunds are made after August 1.
- The \$500 residence confirmation deposit can be paid by credit card (Mastercard, Visa, Amex) by visiting dal.ca/admissions.html. For more payment options, please visit dal.ca/admissions.html.
- No residence room will be held based on post-dated or “insufficient fund” cheques.
- Deposits or fees cannot be deducted from scholarships, fellowships, or similar awards.
- Residence agreements are for eight-month terms (September – April). Please note, residences close during the December break.

Residence Term

The residence term commences the Saturday prior to Labour Day and ends on the last day of the examination period in April. Students must vacate the residence 24 hours after their last exam and residences are closed over the December break.

If required, an additional fee is payable by all residents who are registered in a Faculty where the academic session commences before or continues after the session of the College of Arts and Science. Special arrangements are to be made with the Residence Office for accommodation for periods prior to or following the session as defined above.

Payment of Residence Fees

Payment may be made in full at registration or in two instalments. The first instalment must be paid in full by September 18, 2020. Interest is assessed weekly at a rate as set by the University and will be charged on all accounts outstanding after September 18, 2020 and on any second instalment outstanding after January 15, 2021. The student will not be permitted to register for another session until all accounts are paid in full. A student whose account is delinquent for more than 30 days will be denied university privileges including access to transcripts. The student will be reinstated upon payment of the fees outstanding, the arrears interest, and a \$50 reinstatement fee. For additional information regarding outstanding or delinquent accounts, please see II. Fees, Section K.

All residence fees can be paid at the Student Accounts Office, the Student Service Centre (Sexton Campus), or online at www.dal.ca/admissions.html.

Students should make an appointment as soon as possible with the Assistant Manager of Student Accounts if they are having financial difficulties.

Residence Communications

All residences include high-speed WiFi and a TV/entertainment package.* The cost is included in residence fees.

**These services are subject to change.*

Financial Aid

Financial Aid

Financial Aid

Government Student Loans

IMPORTANT: Please note that federal and provincial student loan regulations include stipulations for the Borrower in terms of the minimum course load, expressed as a percentage of the normal course load at the University, which the Borrower must carry in order to benefit from the program. This minimum must be maintained throughout the academic year, e.g. a student who wishes to receive either money or interest-free status under the Canada Student Loan Plan for the entire academic year must carry not fewer than 60 per cent of the normal course load (expressed in credit hours) for each term. Please note, to be eligible for provincial loan funding from Newfoundland, you must be registered in 80% of the normal class load. At Dalhousie, the normal credit hour load for student loan purposes is 30. The Borrower must carry not fewer than 18 credit hours, distributed equally between the terms, e.g. nine. If your particular program does not conform to this scheme, you should apply to Student Aid for funding for only that term in which your course load would fulfill this regulation. Federal and provincial rules can differ on this matter.

If you must drop or add courses, exercise care so as not to jeopardize your governmental student loan(s).

Addresses of Provincial Student Aid Authorities

Canadian students are to apply for government assistance to the appropriate agency in that province or territory in which the applicant is a bona fide resident.

Temporary Loans

The University has established a temporary loan program to assist all registered Dalhousie students with certain types of short-term financial difficulty when no other resource is available. Students must provide proof of their ability to repay the loan within the time period. (Loans are not meant for tuition fee payment.) These loans have a short interest-free period, after which interest will be charged. Refer to the Temporary Loan Application for further details. Applications may be picked up in the Registrar's Office, Room 130, Henry Hicks Academic Administration Building, the Sexton Campus Student Service Centre, the Enrolment Services Centre (Agricultural Campus), or online at www.dal.ca/moneymatters

Awards

Awards

Scholarships, Bursaries, Awards, and Prizes

The Registrar's Office is responsible for:

- Undergraduate Scholarships
- Undergraduate Bursaries
- Undergraduate Awards and Prizes
- Convocation Medals

IMPORTANT NOTE: The University regularly reviews the policy governing undergraduate awards. Consequently, portions of the following statement of policy may be modified or altered and may be implemented during the course of the academic year of this Calendar.

Helpful Terms

Admissions Average

This is the average of the subjects which were used for entry to the Dalhousie academic program and is governed by admission requirements for the degree/diploma selected.

Adjusted Average

This number is the sum of the Admissions Average, plus points which are assigned to the level of course difficulty (for AP and IB courses) and the number of university-preparatory subjects beyond the minimum five.

Faculty Groupings

There are eight: agriculture; architecture and planning; arts and social sciences; computer science; engineering; health professions; management; and science.

Types of Awards

- Scholarships: A monetary award, at the entrance, in-course and/or graduating level, based on academic performance (in specific subject or group of subjects).
- Awards: A monetary award, at the entrance, in-course and/or graduating level, based on academic performance (in specific subject or group of subjects) and on the recognition of additional relevant attributes.
- Bursary: An award granted on the basis of financial need.
- Medal: An award based on recognition of an outstanding academic record at Dalhousie for a specific degree program in a particular subject.
- Prize: A monetary award of any value, or a non-monetary award, based on general academic excellence, or proficiency in a specific area of study or competition.
- External Award: An award given to the student of the university by an external agency. The University may share in the selection, administration and/or payment of such an award.

General Policy

Applicable to those awards administered by the Registrar's Office. Selection criteria may be different for those awards administered by individual faculties/schools/departments.

Where Dalhousie Scholarships can be Used

Dalhousie University scholarships can be used only at Dalhousie unless the Will or Trust Deed should otherwise permit. The University of King's College has its own scholarship program. Insofar as scholarships, bursaries, awards, prizes, and governmental student loans are concerned, Dalhousie and King's are separate. In order to receive Dalhousie funds you must be a registered Dalhousie University student.

Changing Degree Programs or Faculties

Changing degree/diploma programs or faculties can have implications for scholarship retention. Scholarship holders considering degree or faculty changes should consult the Awards Office prior to making the change.

Scholarship Payments and Rebates

To receive scholarship funds, a student must be registered at least as a full-time student (minimum nine credit hours for degree students, six credit hours for technical students) at Dalhousie during the term(s) in which they are receiving the funds. Students registered in Graduate Studies, Medicine, Law and Dentistry (with the exception of Dental Hygiene students), are ineligible to receive in-course scholarships or renew an existing scholarship. These faculties have their own awards programs.

- Payments: Dalhousie University scholarships are credited towards students' accounts in two equal installments first and second term. Awards are applied first to tuition and prescribed fees, and secondly for residence fees.

- **Rebates:** The portion of scholarship money in excess of the above charges will be refunded to the student. Refunds are made by the Student Accounts Office in October and February upon request.

Entrance Awards

Entrance awards are available to students applying to Dalhousie directly from high school. Transfer students are not eligible for entrance awards, with the exception of the First Nations and Indigenous Black Students Scholarships. Entrants coming from Year II of a CEGEP program are considered to be transfer students. Students entering the third year of engineering (including students entering from Associated Universities) should review the In-Course Awards (Engineering) section of this Calendar for award opportunities.

Dalhousie offers both renewable and non-renewable entrance awards. Non-renewable awards are held for one year. Renewable entrance awards are typically renewable for a maximum of four years. To be considered for entrance awards, applicants must submit a complete Dalhousie application for admission, a scholarship application, and an official transcript, to the Registrar's Office by March 15. Students must be admitted with a minimum 80% average (26 predicted points for IB diploma candidates) for entrance award consideration. Achieving the minimum academic average does not guarantee that an applicant will receive an award.

Applicants will be evaluated for entrance awards based on some or all of the following criteria: academic merit, extracurricular involvement, financial need, initiative to fund their own education, ancestry, and leadership. A DalOnline application is available for accepted applicants in December. A paper-based application is available for applicants yet to be accepted the following February. Visit <http://www.dal.ca/scholarships> for more information.

Eligible Courses for Scholarship Assessment

The Registrar's Office (Awards) considers all those Dalhousie courses which are taken for credit in a designated degree/diploma program during the academic year (or term in the Co-op program) as eligible courses for scholarship assessment.

Correspondence courses are considered for scholarship purposes.

Unless taken on Letter of Permission, transfer credits do not count towards the credit hours reviewed for scholarship assessment.

Please note that courses taken at other institutions are counted, to a maximum of one course per term, for scholarship assessment if such courses are taken on Letter of Permission towards an eligible degree/diploma at Dalhousie.

Scholarship GPA (SGPA) Calculation

The scholarship GPA (SGPA) will be calculated for students who have completed a minimum of 30 credit hours of work over two terms within the preceding academic year. The SGPA will include all eligible courses attempted during this time period. Please note that the scholarship GPA and the sessional GPA normally differ. The scholarship GPA, expressed to two decimal places, does not show on a student's transcript.

Renewable Scholarships

Unless otherwise advised, an SGPA of 3.70 is required to maintain a renewable scholarship. Students must also complete a full course load (a minimum of 30 credit hours) over two terms within the previous academic year to be eligible for renewal. Co-op students who are on a work term during the calendar year must also complete 30 credit hours over two terms to be eligible. Students completing two work terms within one academic year must complete a minimum of 15 credit hours during their one academic term and achieve a minimum term GPA of 3.70 to be considered. In those cases where students have taken more than 30 credit hours, assessment is based on all courses taken within the term(s) being assessed. Transfer credits do not count towards the credit hours reviewed for scholarship assessment. Holders of renewable awards are notified of either the renewal or the non-renewal of their awards annually, via Dalhousie email.

Holders of renewable scholarships are not also entitled to hold Dalhousie in-course scholarships. Students registered in Graduate Studies, Medicine, Dentistry (with the exception of Dental Hygiene students), or Law are ineligible to receive in-course scholarships or renew an existing scholarship.

In-Course Scholarships

All undergraduate Dalhousie students not on a renewable scholarship, in eligible programs in the faculties of Architecture & Planning, Arts and Social Sciences, Computer Science, Engineering, Health Professions, Management and Science, who have completed a full course load (a minimum of 30 credit hours) over two terms within the previous academic year and achieved a minimum SGPA of 3.70 will be eligible for in-course scholarship consideration. Co-op students who are on a work term during the calendar year must also complete 30 credit hours over two terms and achieve a passing grade in the work term to be eligible for consideration. Students completing two work terms within one academic year must complete a minimum of 15 credit hours during their one academic term, achieve passing grades in both work terms, and achieve a minimum term GPA of 3.70 to be considered eligible for consideration. In those cases where students have taken more than 30 credit hours, assessment is based on all courses taken within the term(s) being assessed. Transfer credits do not count towards the credit hours reviewed for scholarship assessment. In-course scholarship recipients are notified of their award over the summer, via Dalhousie email.

Students registered in Graduate Studies, Medicine, Dentistry (with the exception of Diploma in Dental Hygiene students), or Law are ineligible to receive in-course scholarships or renew an existing scholarship.

Bursaries

The University's bursary program is intended as possible supplementary assistance to help qualifying students with a portion of their educational costs.

The University has funds for the purpose of assisting its students who may face certain types of financial situations. These bursaries are awarded primarily on the basis of demonstrable need as determined by the appropriate University office or committee, satisfactory academic standing (see as defined in Academic Regulations) is also expected. Students whose financial needs are exceptionally large and/or students whose academic standing is unsatisfactory may not be assisted. Normally, bursaries will be awarded only to students who have availed themselves of assistance under the Canada Student Loan Program and/or corresponding provincial or territorial loan programs or bank loans. Normally, receipt of the first installment of such funding is a prerequisite to the University's consideration of an application for bursary assistance. Students may access the bursary program for a maximum of five years.

International Exchanges

Students who have permission to study for one or two terms outside of Canada in an approved exchange program, and are considered to be full-time (normally 30 credit hours), can be considered eligible for in-course or renewable scholarship assessment. Students who hold a Dalhousie scholarship and are planning to study abroad are advised to contact the Assistant Registrar (Awards) prior to departure to discuss their funding schedule.

Scholarship Assessment

Students who hold renewable scholarships will be assessed for renewal in either June or September depending on completion of two academic terms. If a student has previously failed to renew their scholarship and subsequently achieves the required 3.70 SGPA in the next academic year, or in any academic year within four of the original offer, the scholarship may be reinstated.

All other undergraduate students are assessed for in-course scholarships in June or September depending on completion of two academic terms.

Reduced Course Load and Retention of Scholarship

Scholarship holders considering taking a reduced course load should consult the Registrar's Office - Awards before dropping courses. Students must complete a minimum of 30 credit hours over two terms within the academic year to qualify for renewal of their scholarships or an in-course scholarship.

Record of Scholarships

Scholarships, awards, and prizes are recorded on academic transcripts. The University retains the right to reassign the source funding of a student's scholarship as circumstances may warrant (but there would be no reduction in the amount).

Graduation and Renewable or In-Course Scholarships

Students holding a renewable scholarship who choose to graduate earlier than originally expected, and later decide to return to upgrade their degree to a four-year degree, must submit a request to access their scholarship for the final year. In addition, if a student graduates and then decides to upgrade their degree, they cannot be assessed for an in-course scholarship until a further 30 credit hours over two terms within the same academic year are completed and a minimum SGPA of 3.70 is achieved.

Taxation

Students registered as full or part-time students are not required to claim financial awards (e.g. scholarships, bursaries) as income on their taxes.

Withdrawing

Award funds are credited to a student's account with the expectation that they will remain registered at Dalhousie at least as a full-time student (minimum nine credit hours for degree students or six credit hours for technical students) within the applicable term. Therefore, if a student reduces their course load or withdraws, these funds are expected to be returned to the University. However, depending on the time of the withdrawal, a student may be entitled to retain a prorated portion of the scholarship. Students in this situation are advised to contact the Assistant Registrar - Awards prior to withdrawing.

Scholarship Appeals

The deadline to appeal a scholarship decision for an entrance/in-course/renewable scholarship or entrance bursary is September 30.

Students may appeal under the following grounds:

- extraordinary or compassionate circumstances;
- unfair scholarship decision under the circumstances; and/or,
- inconsistent scholarship decision compared to other offers/decisions (compared to other Dalhousie scholarships)

Students must submit their appeal, in written form, to the Assistant Registrar, Awards, in the Registrar's Office, by the deadline noted above. The letter should clearly outline the grounds for appeal and the remedy being sought. Students should include documentation, if applicable, to support the basis of their appeal. The decision of the Appeals Committee is final.

Convocation Awards

The Governor General's Silver Medal, Governor General's Bronze Medal, University Silver Medal, Avery Prize, and University Medals are administered by the Registrar's Office (Awards) and are awarded at convocation. For the aforementioned medals and prize, a student who is completing a second Dalhousie degree will have only those courses required for the second degree used when calculating their cumulative average. Students graduating in the fall convocation are eligible for consideration for the aforementioned medals and prizes in the following spring convocation. In addition, any disciplinary action by the Senate Discipline Committee shall be deemed sufficient cause for any student to be ineligible.

In the College of Pharmacy, the School of Health and Human Performance, the School of Health Sciences, and the School of Nursing, a University medal is awarded annually at the spring convocation to a graduating student who demonstrates the following criteria have been met:

- The candidate has successfully completed the equivalent of three full-time years in their respective baccalaureate program (90 credit hours) at Dalhousie.
- Has met the FHP cumulative GPA requirement or better on courses taken at Dalhousie towards the degree.
- Of those eligible, has the highest GPA.

All credits taken towards the degree at Dalhousie will be used in the calculations. Transfer credits taken prior to entry into the program are not counted towards either the 90 credit hours criterion, or towards the cumulative GPA requirement. Classes taken on Letter of Permission, while registered in the program, are included in the 90 credit hours criterion and calculated as part of the cumulative GPA requirement. As the School of Social Work does not offer a three year (90 credit hour) BSW degree, it is not eligible for the University Medal.

Robert J Chadwick Scholarship

This renewable scholarship will support a first year student entering the Bachelor of Commerce or Bachelor of Management program at the Rowe School of Business who demonstrates academic merit, community involvement and athletic interest.

Eligibility: The eligible student will be entering first year of a Bachelor of Commerce or Bachelor of Management program. They will demonstrate academic merit, community involvement, and an interest in athletics.

Application Type: General Entrance Award Application

Application Deadline: March 1 - check dal.ca/scholarships

bequest from the Estate of Marjorie Ball to the Dalhousie University Alumni Association.

Eligibility: Available to entering and current undergraduate students.

Application Type: Automatic Consideration – No Application Required

Application Deadline:

Value:

Notes:

The Annie L. Beer Prize

Under the Will of the late Mrs. Thomas (Annie L.) Beer of Charlottetown a bequest was established at Dalhousie University. The net income from the fund provides for a prize which is to be awarded to the youngest student from Prince Edward Island who enters this University in each year.

Eligibility: Available to an entering undergraduate student from Prince Edward Island.

Application Type: Automatic Consideration – No Application Required

Application Deadline:

Value:

Notes:

The Francis Hugh Bell Entrance Scholarship in Science

This scholarship was established by a bequest from the estate of Barbara Bell who attended Dalhousie in 1923 as a music student. This scholarship is awarded annually to honour her father, the late Mr. Francis Hugh Bell who was one of Dalhousie's earliest graduates.

Eligibility: Available to students entering any program in the Faculty of Science at Dalhousie University directly from high school.

Application Type: General Entrance Award Application

Application Deadline: March 1

Value:

Notes:

Beta Sigma Phi Scholarship

The Halifax-Dartmouth City Council of Beta Sigma Phi sorority has established an endowment of \$2,000 whereby the annual income will provide for a scholarship. The successful candidate will be selected from the following categories, listed preferentially: first, an active Member; secondly, a daughter, son or spouse of an active Member; and thirdly, some other student chosen by the Registrar's Office. Applications are available from sorority members.

Eligibility: Available to students entering any program at Dalhousie University, with preference to an active member of the sorority or the child or spouse of an active sorority member.

Application Type: See dal.ca/scholarships for more information

Application Deadline: July 31

Value:

Notes:

The Bissett Scholarship

A scholarship valued at \$24,000 (\$6,000 per year) was established by Mr. David Bissett with the intention of encouraging scholastic achievement by providing an incentive to capable high school students. A nomination for a Bissett Scholarship will not interfere with consideration of the nominee for other University scholarships. A student may not, however, hold a Bissett Scholarship and another Dalhousie scholarship at the same time. Students must be nominated by their school to be considered for this scholarship, and should contact the Guidance Office for more information.

Eligibility: Available to students entering any program at Dalhousie University directly from Cole Harbour District High School. Applicants must be attending university as full-time students.

Application Type: See dal.ca/scholarships for more information

Application Deadline:

Value: \$24,000

Notes:

Black and Gold Awards

Each year the Dalhousie Black and Gold Club funds a number of awards that recognize outstanding student athletes and the contribution they make to university life. Returning students must have been a full time student for at least two semesters in an academic year at Dalhousie with a minimum GPA of 2.0 in three full year courses or the equivalent. Entering candidates must have an average of 80% or higher. Participation on a varsity team is a requirement. Applicants should apply through the head coach of their respective varsity teams. Eligibility is verified by the Registrar's Office.

Eligibility: Available to student athletes in any program at Dalhousie University (excluding the Dalhousie Faculty of Agriculture). See award description for specific eligibility requirements.

Application Type: Contact the Department of Athletics for more information

Application Deadline:

Value:

Notes:

Jeff Bredin Memorial Scholarship in Men's Volleyball

This scholarship was established in memory of Jeff Bredin who graduated from Dalhousie in May, 1985 with a Bachelor of Physical Education. While at Dalhousie, Jeff was a member of the varsity volleyball team for two years and was the recipient of numerous awards for his contribution to the University's volleyball team. One or more scholarships will be awarded to entering or continuing student athletes on the Dalhousie men's volleyball team who demonstrate excellence in volleyball, sportsmanship and community service.

Eligibility: Available to student athletes in any program at Dalhousie University (excluding the Dalhousie Faculty of Agriculture). See award description for specific eligibility requirements.

Application Type: Contact the Department of Athletics for more information

Application Deadline:

Value:

Notes:

The University is a beneficiary of a bequest from the late Robert Bruce of Quebec whereby a portion of the annual income is to be used for both entrance and in-course scholarships, and for bursaries.

Eligibility: Available to entering and current undergraduate students (excluding students studying at the Faculty of Agriculture)

Application Type: Automatic Consideration – No Application Required

Application Deadline:

Value:

Notes:

Dr. John Bubar Scholarship

After graduating in 1950, John Bubar returned to former NSAC in 1967 to become the first department head of Plant Science Department. By the time John relinquished the chair more than a decade later, it had grown to a professional group of dozen accomplished scientists and teachers. John Bubar loved to teach and share his love of plants and agriculture in general. He was affectionately known by many students as "Johnny Plant." In turn he knew every student's name and, by the time he retired in 1987, he had taught three generations of students at the former NSAC. John is a friend of the Agricultural Campus, and a strong proponent of practical learning. He has left an indelible mark on NSAC and the students who have passed through his doors.

Eligibility: Available to students entering the Bachelor of Science (Agriculture) program at Dalhousie University. Applicants must be permanent residents of New Brunswick. Selection criteria will include academic performance and financial need. Recipients cannot have received other significant awards.

Application Type: General Entrance Award Application

Application Deadline: March 1

Value: \$4,000

Notes:

George Burris Scholarship

The scholarship was established by Mary Burris and Grace Burris in memory of their father, George Burris, to support Dalhousie students wishing to study in England as part of their academic program. Scholarships are awarded on the basis of academic and extracurricular excellence, financial need, and international experience. Open to Dalhousie University upper year Canadian students who have applied for admission to participate in an International Program/Placement in England. Value: up to \$5,000 each. Students must submit application a minimum of one month before departure.

Eligibility: Available to students participating in a study abroad or exchange program in England.

Application Type: Contact the International Centre for more information

Application Deadline:

Value: \$5,000

Notes:

George H. Campbell Memorial Scholarship

In 1917 Mr. and Mrs. G. S. Campbell established the George H. Campbell Scholarship Fund to provide annual scholarships in memory of their late son, George Henderson Campbell.

Eligibility: Available to entering and current undergraduate students (excluding students studying at the Faculty of Agriculture)

Application Type: Automatic Consideration – No Application Required

Notes:

Blair Eavis Scholarships

Blair Eavis, who received his early education in Cape Breton, graduated from Dalhousie University with a B.A. in 1986. During his time on campus he was actively involved in student organizations and intramural sports. He credits much of his later success as a naval officer and lawyer to experiences at Dalhousie.

Eligibility: Enrolled full-time in an undergraduate degree

Application Type: General Entrance Award Application

Application Deadline: see Dal.ca/entranceawards

Value:

Notes:

Jeff D and Martha Edwards Scholarship

Hugh Maccagno established this scholarship in 2007 in memory of Jeff and Martha Edwards. As a young child living in the village of Lac La Biche in northeast Alberta, Hugh Maccagno clearly recalls his father speaking to Mr. Edwards and afterwards commenting "*What a fine gentleman he is.*" Mr. Edwards, a black man dressed in a suit, tie, and hat, was in Lac La Biche coaching his baseball team from Amber Valley, Alberta. His father's words continue to inspire Hugh as they were voiced at a time when black people were subjected to so much discrimination in the US and Canada. Jeff Edwards was 21 when he and many other blacks left Oklahoma for Canada in 1910 seeking an escape from segregation and prejudice in the American South. He and his wife Martha homesteaded as pioneers at Amber Valley, raised 10 children, and contributed enormously to the community. Mr. Edwards embraced his new citizenship with pride, and when he died in 1973 at the age of 90, was remembered as a proud Canadian citizen who epitomized the spirit of black pioneers who settled the Canadian West. It is with these sentiments that Hugh Maccagno established this scholarship, which serves to provide post-secondary education to many from the large and long-established Black community of Nova Scotia.

Eligibility: Available to Black students entering any program at Dalhousie University directly from high school, with preference given to Canadian students of Black African descent, followed by native Black Bermudian students.

Application Type: General Entrance Award Application

Application Deadline: March 1

Value: \$12,000

Notes:

DA Eisenhower Memorial Scholarship

This fund was created in honour of the life and career of Daniel Andrew Eisenhower. It will aim to support engineering students from the South Shore of Nova Scotia and give them an opportunity to be inspired and accomplish their goals while studying Engineering at Dalhousie

Eligibility: This award is for students in Engineering. Preference is given for students in their first year. Preference is also given for students from the South Shore of Nova Scotia, with second preference for students from Nova Scotia at large.

Application Type: General Entrance Award Application

Application Deadline: see Dal.ca/entranceawards

Value:

Notes:

Marjorie F. Ellis Scholarships

The late Marjorie F. Ellis bequeathed one-half of the remainder of her estate to Dalhousie University for scholarships to worthy students.

Application Deadline:

Value:

Notes:

First Nations and Indigenous Black Students Scholarships

Ten renewable entrance scholarships of \$12,000 (\$3,000 per year) each are available to First Nations and Indigenous Black students. Scholarships are available to students who are applying directly from high school as well as those who have attended another post-secondary institution. Scholarships will be awarded on the basis of a student's financial need and academic standing.

Eligibility: Available to Indigenous Black and First Nations students entering any program at Dalhousie University. Applicants must be permanent residents of one of the Maritime Provinces (NS, NB, PEI).

Application Type: General Entrance Award Application

Application Deadline: March 1

Value: \$12,000

Notes:

Forsyth Family Nova Scotia Scholarship

A Dalhousie Law graduate established this scholarship in support of Black high school students from Nova Scotia wanting to pursue post secondary education at Dalhousie. This is one of our highest valued scholarships for entering undergraduates at a value of up to \$20,000 per year to cover tuition, housing and books; recipients receive up to \$80,000 over four years. One entering student is selected

each year based on academic excellence, financial need and demonstrated participation in extra-curricular activities, preferably leadership, and a social conscience within his or her community.

Eligibility: Available to Black students entering any program at Dalhousie University directly from high school. Applicants must be permanent residents of Nova Scotia.

Application Type: General Entrance Award Application

Application Deadline: March 1

Value: \$80,000

Notes:

Fountain Performing Arts Undergraduate Scholarships

Eligibility: Fountain Performing Arts Undergraduate Scholarships are intended to support exceptional students entering full-time studies in undergraduate Music or Theatre major degree programs at Dalhousie University.

Application Type: General Entrance Award Application

Application Deadline: March 1

Value: \$24,000 (\$6,000 per year)

Notes:

Frederick S. Fountain Scholarship

An endowment has been established by Frederick S. Fountain to provide scholarships to students who demonstrate academic excellence.

Eligibility: Available to students entering any program at Dalhousie University directly from high school, with preference given to those in the Faculty of Arts and Social Sciences. Applicants must be permanent residents of one of the Atlantic provinces (NB, NS, NL, PEI).

Application Type: General Entrance Award Application

Application Deadline: March 1

Value: \$32,000

Notes:

R. C. Fraser Family Scholarship

Robert Clifford Fraser (or R. C., as he was known) was born in Pictou County, attended New Glasgow High School and graduated with a Bachelor of Commerce from Dalhousie in 1952. He received his CA designation in 1958 and dedicated many of his working years to Nova Scotia Power, both in Pictou County and Halifax. R. C.'s family ties to Dalhousie span many years and he enjoyed his time here tremendously.

Eligibility: Available to students entering the Bachelor of Commerce program at Dalhousie University directly from high school.

Applicants must be graduates of North Nova Education Centre, New Glasgow, Nova Scotia.

Application Type: General Entrance Award Application

Application Deadline: March 1

Value: \$1,000

Notes:

Rowland C. Frazee Scholarships in Business Administration

Established by Mrs. Marie Frazee, and family, to honour the memory of her late husband Dr. Rowland Frazee (BComm 1948, LLD 1980). Dr. Frazee was an outstanding alumnus of Dalhousie University and a business leader in Canada for many decades. He joined the Royal Bank of Canada in 1939 as a bank teller and rose to the position of Chairman and CEO in 1980. He attended Dalhousie University following his overseas service in World War II and rejoined the bank in 1948. He retired in 1986 living in Saint Andrew's, New Brunswick until his passing in the fall of 2007. Two scholarships of \$5,000 each are awarded annually to students.

Eligibility: Available to students entering any program in the Faculty of Management at Dalhousie University directly from high school.

Application Type: General Entrance Award Application

Application Deadline: March 1

Value: \$5,000

Notes:

This endowment, established in memory of Isaac Walton Killam, provides entrance and in-course scholarships to citizens of the United States who are enrolled in undergraduate programs at Dalhousie University.

Eligibility: Available to entering and current undergraduate students who are US citizens (excluding the Faculty of Agriculture).

Application Type: Automatic Consideration – No Application Required

Application Deadline:

Value:

Notes:

The Lockward Memorial Scholarships

These scholarships have been established from an endowment by the late Reginald and Anne T. Lockward of Liverpool, Nova Scotia. Students will be selected on the basis of academic standing, character and financial need. Recipients of renewable scholarships may have an opportunity to access further funding if later admitted to the Doctor of Medicine degree at Dalhousie.

Eligibility: Available to students entering any program at Dalhousie University directly from high school. Applicants must be graduates of a high school in Nova Scotia, with preference given to those students who are permanent residents of Queen's County, Nova Scotia.

Application Type: General Entrance Award Application

Application Deadline: March 1 - check dal.ca/scholarships

Value: \$16,000

Notes:

Loran Scholars Foundation (Loran Award)

The program was started in 1989 to identify and invest in well-rounded students who demonstrate character, leadership potential, and a commitment to service in the community. In 1991 Dalhousie University became a participating member of those institutions where the Loran Awards are tenable. High schools may each nominate up to three students, and CEGEPs may each nominate up to eight students. The scholarship consists of \$9,000 (paid by the Foundation) and tuition (paid by the University) annually, as well as mentorship and summer programs.

Eligibility: Available to Canadian graduating high school students with a minimum average of 85%. Selection is based on evidence of character, service and leadership potential.

Application Type: Contact awards@dal.ca for more information

Application Deadline: October for the next academic year

Value: Up to \$100,000 over four years

Notes:

Bazil & Madge Lund Scholarship in Business

Established by David P. Lund in honour of his parents, this scholarship recognizes academic achievement and provides financial support.

Eligibility: Available to students entering the Bachelor of Commerce program at Dalhousie University directly from high school, with preference given to students entering Dalhousie directly from a high school within Greater Moncton, New Brunswick.

Application Type: General Entrance Award Application

Application Deadline: March 1

Value: \$1,500

Notes:

The A. Murray MacKay Scholarship

The Scots North British Society has established an annual scholarship. The Selection Committee will consider candidates on the criteria of academic ability, financial need and leadership. The criteria are weighted equally. The late Dr. MacKay was chairman of the School Board at the time when Queen Elizabeth High School was constructed.

Eligibility: Available to students entering any program at Dalhousie University directly from high school. Applicants must be graduates of Citadel High School, Nova Scotia.

Application Type: General Entrance Award Application

Application Deadline: March 15

Value: \$1,000

Notes:

MacKean Athletic Scholarship

The Margaret Louise MacKean Scholarships were established through the estate of Charlotte Louise MacKean. Through a bequest in her will, the Margaret Louise MacKean Scholarships will eternally benefit Dalhousie student athletes who have demonstrated athletic, academic and citizenship excellence.

Eligibility: Available to student athletes in any program at Dalhousie University (excluding the Dalhousie Faculty of Agriculture).

Application Type: Contact the Department of Athletics for more information

Application Deadline:

Value:

Notes:

Nicholas M. MacLeod Memorial Scholarship

Under the will of Eva Eileen McLeod, this scholarship fund was established in memory of her late husband, Dalhousie alumnus Nicholas W. McLeod, for the purpose of funding entrance and in-course scholarships for students in the Faculty of Arts and Social Sciences.

Eligibility: Available to entering and current undergraduate students in the Faculty of Arts & Social Sciences.

Application Type: Automatic Consideration – No Application Required

Application Deadline:

Value:

Application Type: General Entrance Award Application

Application Deadline: March 1

Value: \$4,000

Notes:

Reverend Trevor Phillips Memorial Scholarship

Rev. Trevor A. Phillips was born in Jamaica on March 5, 1941. He received his early education at Kingston College and Union Theological Seminary in Kingston. He was an Ordained Minister at Mount Zion United Church in Jamaica before migrating to Canada. From 1969-72 he continued his pastoral work in Prince Edward Island. Rev. Phillips moved to Nova Scotia and worked at St. Paul's United Church in Halifax from 1973-1981, and then Sambro-Parkhill-Jollymore Pastoral Charge from 1981 until his passing in 2008. He obtained degrees at the University of Prince Edward Island (BSc), St. Mary's University (MEd) and Dalhousie University (BEd 1975 & MA Education 1980) Science, Education, Educational Psychology, Counselling, Educational Administration and Supervision. During his career he was a teacher and guidance counsellor at several schools within the Halifax Regional School Board and a member of their Crisis Intervention Team. He was also a presenter at several national and provincial conferences delivering workshops on multi-culturalism, human rights, curriculum reform and discipline strategies. Rev. Phillips was a man of excellence with great passion for life. He was an avid sportsman who enjoyed badminton (at Dalplex with the "Silver Tigers" Table Tennis), cricket and jogging. His compassion and dedication to Christian Ministry, counselling within the community and caring for people in need was extensive and extraordinary. His amazing laughter and sense of humour brought joy to many lives. He was a legend in his time. On Eagles' Wings is an autobiographical account of his life and faith. The Rev. Trevor Phillips Memorial Scholarship was established as a "living" memorial so that his name and his excellence will be remembered in a significant way.

Eligibility: Awarded to students beginning their studies in any program directly from high school who are either Nova Scotia residents of Caribbean descent, or applying from the Caribbean.

Application Type: General Entrance Award Application

Application Deadline: March 15

Value:

Notes:

The Hugh J. Potter Scholarship

An endowment has been established to provide a scholarship to a student who has demonstrated a high level of academic achievement. The scholarship honours the memory of Joseph Hugh Potter, a native of Digby County, who showed himself to be an exceptional initiator and developer of financial and commercial activity throughout this province in the fields of insurance, securities, shipbuilding, transportation and manufacturing.

Eligibility: Available to students entering the Bachelor of Commerce program at Dalhousie University directly from high school, with preference given to permanent residents of Digby County, Nova Scotia.

Value:

Notes:

Lenore Smith Cumming Bursary

From the Estate of Charles Gordon Cumming came a bequest of \$10,000 US to endow a bursary fund to assist needy students.

Eligibility: Available to undergraduate students registered in the Faculty of Architecture & Planning, Arts & Social Sciences, Computer Science, Engineering, Health Professions, Management, Science, or the Dental Hygiene program entering directly from high school. App

Application Type: General Online Bursary Application

Application Deadline: October 15

Value:

Notes:

The Ross Stewart Smith Scholarships

A significant bequest established these memorial scholarships for students who excel in the sciences or mathematics.

Eligibility: Available to current undergraduate students in the Faculty of Science.

Application Type: Automatic Consideration – No Application Required

Application Deadline:

Value:

Notes:

Dr. David M. Soloan Scholarship

Under the Will of the late Dr. David M. Soloan the University received a sum of money. The Board of Governors decided that the gift be used to provide one or more entrance scholarships in the College of Arts and Science.

Eligibility: Available to entering students in the Faculty of Arts & Social Sciences or the Faculty of Science.

Application Type: Automatic Consideration – No Application Required

Application Deadline:

Value:

Notes:

Katherine (Norman) Spavold Scholarship

In honour of the memory of Katherine (Norman) Spavold, and to recognize academic and other achievements of students.

Eligibility: Available to students entering the Bachelor of Arts program in the Faculty of Arts and Social Sciences at Dalhousie University directly from high school. Applicants must have graduated from a rural high school in Nova Scotia.

Application Type: General Entrance Award Application

Application Deadline: March 1

Value: \$2,000

Notes:

Stanley William Spavold Scholarship

The purpose of this scholarship is to honour the memory of Stanley William Spavold (BA 1951, MA 1953) and recognize the achievements of students entering Dalhousie from Halifax West High School. Mr. Spavold became head of the Social Science Department at Halifax West in 1968 and was later named Vice Principal. This scholarship is awarded to a student who has demonstrated high academic achievement and a well-rounded approach to their academic and extracurricular activities.

Eligibility: Awarded to a student entering the Faculty of Arts & Social Sciences or the Faculty of Management directly from Halifax West High School.

Application Type: General Entrance Award Application

Application Deadline: March 1

Value: \$1,500

Notes:

Betty Spencer Scholarship

Betty Spencer was born in Saint John, New Brunswick in 1916. She graduated from Saint John Vocational School and worked for a time at Wasson's Pharmacy where she met her husband. They retired in Bangor, Maine and later in St. Andrews, New Brunswick. Although Betty had no specific connection to Dalhousie, she generously bequeathed this endowment through her Will. Preference is given to students from the Atlantic provinces.

Eligibility: Available to entering and current undergraduate students (excluding the Faculty of Agriculture).

Application Type: Automatic Consideration – No Application Required

Application Deadline:

Value:

Notes:

The I. C. Stewart Trust Fund

From the Estate of Georgie M. Stewart came a trust fund, the annual income from which is to be used for I. C. Stewart Scholarships to qualifying students from St. Mary's District in the County of Guysborough, Nova Scotia.

Eligibility: Available to students entering any program at Dalhousie University directly from high school. Applicants must be graduates of St. Mary's Rural High School, Nova Scotia.

Application Type: General Entrance Award Application

Application Deadline: March 1

Value:

Notes:

Joseph Duncan Stewart Scholarships

A bequest under the Will of the late Joseph Duncan Stewart has made possible the funding of undergraduate scholarships.

Eligibility: Available to entering and current undergraduate students (excluding the Faculty of Agriculture).

Application Type: Automatic Consideration – No Application Required

Application Deadline:

Value:

Notes:

Whit Strickland Aquaculture Scholarship

This scholarship is established in honour of Thomas 'Whit' Strickland, a Nova Scotia aquaculture producer, who would often tour Faculty of Agriculture students through his production facility. Thomas Whitman 'Whit' Strickland, was a leading contributor of the Nova Scotia aquaculture industry and the key innovator and developer of his salmon hatchery in Little Harbour since he started the business in the early 1980s. Whit was passionate about living off the land and enjoyed the outdoors. He especially enjoyed spending time with his five beautiful granddaughters.

Eligibility: Enrolled in Bachelor of Science (Agr.) in Aquaculture, Faculty of Agriculture. Student must be strong academically.

Preference given to female students. Preference also given to students in their second year of study.

Application Type: Faculty of Agriculture In-Course Award Application

Application Deadline:

Value:

Notes:

The Terry and Marion Poole Scholarship

The Terry and Marion Poole Scholarship is funded by a generous annual gift from the charitable foundation established by Mr. Terry Poole, BCom 1965 who now resides in Calgary, Alberta. To be eligible, candidates must demonstrate financial need and scholarship standing.

Eligibility: Available to full-time students entering any program at Dalhousie University directly from high school, with preference given to candidates who reside in Newfoundland and Labrador, Atlantic Canada, and Alberta.

Application Type: General Entrance Award Application

Application Deadline: March 1

Value: \$20,000

Notes:

L. A. and Edith Upham Scholarship

A renewable scholarship has been established to recognize the long association of the Upham family with Dalhousie University.

Eligibility: Available to students entering any program in the Faculty of Arts and Social Sciences at Dalhousie University directly from high school. Applicants must be graduates of a high school in Nova Scotia.

Application Type: General Entrance Award Application

Application Deadline: March 1

Value: \$20,000

Notes:

The J. Douglas Vair Scholarship

This scholarship is available to students entering the University for the first time from Pictou County, Queen's County, and rural Halifax County. Failing a candidate from these areas, a student from other areas of Nova Scotia may be selected at the discretion of the Scholarship Committee. The award shall be based on scholarship and need, making it possible for a promising student to obtain a university education.

Eligibility: Available to an entering undergraduate student from Nova Scotia (excluding the Faculty of Agriculture).

Application Type: Automatic Consideration – No Application Required

Application Deadline:

Value:

Notes:

Marguerite I. Vernon Scholarship

A trust has been established under the Will of the late Marguerite Vernon whereby, from time to time, a scholarship will be assigned to Dalhousie University for an entering student.

Eligibility: Available to an entering undergraduate student from Nova Scotia (excluding the Faculty of Agriculture).

Application Type: Automatic Consideration – No Application Required

Application Deadline:

Value:

Notes:

Walker Wood Foundation Science Bursary

The Walker Wood Foundation established this bursary in support of a student with demonstrated financial need.

Eligibility: Available to students entering the Bachelor of Science program in the Faculty of Science at Dalhousie University directly from high school, with preference given to students from high schools within Atlantic Canada.

Application Type: General Entrance Award Application

Application Deadline: March 1

Value: \$16,000

Notes:

F. W. Walsh Memorial Scholarship

Frederick Waldemar (Waldo) Walsh (1897-1984) was born in Moncton, New Brunswick, and spent his boyhood in Coverdale, New Brunswick, on the family farm. He attended the Nova Scotia Agricultural College (now Dalhousie University, Faculty of Agriculture) (Class of '17) and O.A.C. (Class of '22) and worked as Superintendent of Agriculture for the C.N.R. until 1934 when he became senior agriculturalist with the Nova Scotia Department of Agriculture, until his retirement as Deputy Minister in 1962. After his passing, his three sons Robert, Jack, and Fred set aside money, the interest of which would provide a memorial scholarship for a deserving young man or woman entering the degree course at the Faculty of Agriculture.

Eligibility: Available to students entering first year of any undergraduate degree program at the Faculty of Agriculture. Selection is based primarily on academic performance. Financial need and participation in school and community affairs will also be considered.

Application Type: General Entrance Award Application

Application Deadline: March 1

Value: \$500

Notes:

Weinkauf Family Scholarship in Dental Hygiene

To provide an entrance scholarship in the School of Dental Hygiene.

Eligibility: First preference will be given to a student from Western Canada. If there are no suitable candidates, all first-year students will be considered. Financial need may also be considered in the selection of the recipient.

Application Type: Contact the Faculty for more information

Application Deadline:

Value:

Notes:

F. Hume Wells Scholarship

This scholarship of \$1,500 is awarded on the basis of performance excellence to a student entering university for the first time directly from high school into a course of study leading to an undergraduate degree in music performance. It was established by Judith Wells and Karen Woolhouse in memory of F. Hume Wells, a businessman in Halifax, who was interested in music and thought university education was important.

Eligibility: Available to students entering first year of the Bachelor of Music program at Dalhousie.

Application Type: Contact the Department, School, or College for more information

Application Deadline:

Value:

Notes:

The Women's Division of the Dalhousie Alumni Association Scholarships

This fund provides two entrance scholarships; one is named the Margaret Florence Newcombe Scholarship, which commemorates the 100th anniversary of the graduation of the first woman graduate of Dalhousie University in 1885. The second scholarship is named the Ruth Skaling Murray Scholarship, in memory of a dedicated alumna of the Dalhousie Women's Division.

Eligibility: Available to entering undergraduate students (excluding the Faculty of Agriculture).

Application Type: Automatic Consideration – No Application Required

Application Deadline:

Value:

Notes:

Don Wright Scholarship of Excellence

This annual scholarship funded by the Lillian and Don Wright Foundation, supports outstanding students who are entering the Fountain School of Performing Arts in a Music degree program. While preference shall be given to awarding the scholarship to one student per year, if no one student merits the awarding of the scholarship, the awarding committee has the authority to award two scholarships to students who have applied and been accepted to study Music within the School. Where there is more than one eligible candidate, first preference shall be given to the candidate deemed to have the most merit as judged by a majority of the Fountain School of Performing Arts scholarships committee.

Eligibility: Available to students entering first year of the Bachelor of Music program at Dalhousie.

Application Type: Contact the Department, School, or College for more information

Application Deadline:

Value:

Notes:

Sir William Young Scholarship

This fund was left by Sir William Young for the purpose of endowing scholarships.

Eligibility: Available to entering and current undergraduate students (excluding the Faculty of Agriculture).

Application Type: Automatic Consideration – No Application Required

Application Deadline:

Value:

Notes:

Christine Zinck Scholarships

Four scholarships awarded annually in each of the four streams of Theatre: Acting, Costume Studies, Scenography and Technical Theatre and Stage Design and Theatre Studies.

Eligibility:

Application Type: Automatic Consideration – No Application Required

Application Deadline:

Value:

Notes:

In-Course Awards

In-Course Awards

How to use this Section

The term 'awards' in this section is a general term encompassing scholarships, bursaries, awards, prizes, medals, fellowships, and studentships. To see a list of awards that you may be eligible for, select your Faculty or College from the list on the right. You may also have the option to select a department within a faculty. Students who have yet to choose a major or belong to a Faculty of College that does not have Departments should select their Faculty or College, and then 'All Faculty Awards'.

The awards listed under the Department and 'All Awards' pages include those administered centrally (by the Registrar's Office, International Centre, and other units) as well as those administered within faculties and departments.

General Information***Dalhousie In-Course Scholarships***

All undergraduate Dalhousie students not on a renewable scholarship, in eligible programs in the Faculties of Architecture and Planning, Arts and Social Sciences, Computer Science, Engineering, Health Professions, Management, and Science, and the Dental Hygiene program, who have completed a full course load (a minimum of 30 credit hours) over two terms within the previous academic year and achieved a minimum SGPA of 3.70 will be considered eligible for in-course scholarships. Co-op students who are on a work term during the calendar year must also complete 30 credit hours over two terms and achieve a passing grade in their work term to be eligible. Co-op students completing two work terms within one academic year must complete a minimum of 15 credit hours during their one academic term, achieve a minimum term GPA of 3.70, and achieve passing grades in both work terms, to be considered eligible. In those cases where students have taken more than 30 credit hours, assessment is based on all courses taken within the term(s) being assessed. Transfer credits do not count towards the credit hours reviewed for scholarship assessment. In-Course Scholarship assessment takes place over the summer months. Scholarship recipients will be notified by Dalhousie email.

Students registered in Graduate Studies, Medicine, Dentistry (with the exception Dental Hygiene Students), or Law are ineligible to receive incourse scholarships or renew an existing scholarship.

Dalhousie Undergraduate Bursary Program

The University's bursary program is intended as possible supplementary assistance to help qualifying students with a portion of their educational costs.

The University has funds for the purpose of assisting its students who may face certain types of financial situations. These bursaries are awarded primarily on the basis of demonstrable need as determined by the appropriate University office or committee, satisfactory academic standing (see as defined in Academic Regulations) is also expected. Students whose financial needs are exceptionally large and/or students whose academic standing is unsatisfactory may not be assisted. Normally, bursaries will be awarded only to students who have availed themselves of assistance under the Canada Student Loan Program and/or corresponding provincial or territorial loan programs or bank loans. Normally, receipt of the first installment of such funding is a prerequisite to the University's consideration of an application for bursary assistance. Students may access the bursary program for a maximum of five years.

Faculty of Agriculture In-Course Awards Program

The Faculty of Agriculture has its own in-course award program (including bursaries), typically due in the fall term. Most Faculty of Agriculture awards require a single application. More information is available at dal.ca/scholarships.

Golden Key International Honour Society

Dalhousie University has a participating chapter in the Golden Key International Society. The Golden Key Society is an academic honours society that recognizes the academic achievements of students. The society provides scholarships and leadership opportunities and career assistance to its student members. Students are invited to become members based upon criteria established by the society. For information please refer to the society's website: goldenkey.org.

College of Continuing Education

College of Continuing Education

This Calendar is prepared some months before the year for which it is intended to provide guidance. The policies, procedures, and awards listed in this section are subject to continuing review and revision. Not all awards listed will be offered in any given year. Additionally, the number of awards offered, values of awards, and selection criteria may change without notice.

Dorothy Macdonald Crummey Memorial Bursary

This bursary was established by the family of the late Dorothy Macdonald Crummey (1912-2005) who was born in Little Harbour, Pictou County. She attended Halifax Ladies College (an affiliate of Dalhousie University) and graduated with a diploma in Household Science in 1932. Like many educated women of her generation, Dorothy did not work outside the home after marriage to Dr. Clarence Crummey (MD 1932). Nevertheless, she actively supported university students remembering her own efforts to fund her education during “The Great Depression”. Bursaries will be available to students enrolled in any undergraduate degree program from Nova Scotia with a preference for students from Pictou County. Apply through the general online bursary program.

Eligibility: Available to undergraduate students registered in the Faculty of Architecture & Planning, Arts & Social Sciences, Computer Science, Engineering, Health Professions, Management, Science, or the Dental Hygiene program. Applicants will have demonstrated financial need, have satisfactory academic standing, and preferably graduated from a high school in Pictou County, Nova Scotia.

Dalhousie Memorial Bursary Fund

From time to time at Dalhousie contributions have been made to the University as a memorial subscription in honour of some student or former student. Until now there has been no proper place into which these funds could be channeled. Because of these occurrences a Dalhousie Memorial Bursary Fund has been established. The existence of the fund will be commemorated by a book of remembrance to be located in a prominent place in the Killam Library. Names of persons in whose memory contributions have been made by relatives, friends, individuals or groups, to the Memorial Fund will be recorded in the book, along with the date of their birth and death. The pages will be turned on a regular basis. All money contributed to the Fund will be invested by the Board of Governors and only the investment income will be awarded. The award will be available to any full-time Dalhousie student, already registered and in attendance at courses, who can show a need for additional support.

Eligibility: Available to undergraduate students registered in the Faculty of Architecture & Planning, Arts & Social Sciences, Computer Science, Engineering, Health Professions, Management, Science, or the Dental Hygiene program. Applicants will have demonstrated financial need and have satisfactory academic standing.

Application Type: General Online Bursary Application
Application Deadline to Apply: October 15
Value:
Year of Study:

Dalhousie Student Union Student Accessibility Award

Nimmi and Teji Kanwal Bursary

Mr. Tejinder (Teji) and Mrs. Nirmal (Nimmi) Kanwal have cared and impacted numerous lives over the years. Although now retired, both were successful and beloved teachers for over 30 years. They grew up in India where their parents were strong believers in education and supported their schooling. Teji came to Canada in 1962 and Nimmi joined him in 1967. Travelling around the world twice, their love of adventure and travel continued throughout their lives. Both received Masters degrees from Dalhousie. They are supporters of equal rights for all, which includes their support for equal opportunities for teachers in Nova Scotia. As Teji puts it “If you can’t do something for someone, you are a no one.”

Eligibility: Awarded to an undergraduate Dalhousie student who is in good academic standing and demonstrates financial need, with preference to a female student.

Year of Study:

Dr. Carolyn Savoy Award of Excellence

In March of 2009, Dr. Carolyn Savoy announced her retirement from coaching, after a 32-year career of outstanding service to Dalhousie University and its women's basketball program. Carolyn continues to work as an Associate Professor in the School of Health and Human Performance at Dalhousie. Dr. Savoy came to Dalhousie in 1977 as head coach of the women's basketball team, following seven years in the same capacity at St. FX. In over three decades of coaching, Coach Savoy posted very impressive results, including an 858-292 CIS win-loss record for a 74.5 winning percentage. A four-time AUS Coach of the Year, she led the Tigers to the national final in 1980, the semifinals in 1982, to a fourth place CIS finish in 2007 and placed sixth at nationals in 1986, 1996 and 2001. Coach Savoy's teams won nine regular season AUS titles and five AUS championships. Academically, her teams had a 100% graduation record for those playing three to five years in the program. As a Level 4 basketball master course conductor, Carolyn has coached at the national and international level as an assistant with the Canadian national team program and also served as head coach of the 2001 Nova Scotia Canada Games team. She completed her BPE degree in 1969 at the University of New Brunswick. She enjoyed an outstanding athletic career at UNB, where she was a star volleyball, basketball (she played on a team that compiled a 93-game winning streak) and field hockey player. She began her coaching career at St. FX (1969-77), where she transformed both the basketball and field hockey teams into winning programs. Carolyn has been honoured with a number of prestigious awards including the 2002 Women of Excellence award in the health, sport and fitness category. In 2005 she received the Frank Baldwin award for her contribution to the development of basketball in Nova Scotia. She was also inducted to the Saint John Sport Hall of Fame as a builder in 2003.

Eligibility: Available to athletes in the women's basketball program at Dalhousie University (excluding the Dalhousie Faculty of Agriculture).

Application Type: Contact the Department of Athletics for more information

Doug Bailey Memorial Bursary

Doug Bailey had a lengthy and successful career at Farmers Dairy (now Agropur). It began at what is now known as the Middleton Spreads Plant in 1968 when Twin Cities Dairy acquired J.D. MacKenzie's Limited. Doug held many managerial positions over the years, including General Manager of the Truro Cheese Plant and Vice-President and General Manager of Central Dairies in Newfoundland. He was appointed President and Chief Executive Officer of Farmers Dairy (now Agropur) in 1987, a position he held until his death in 1996. One of Doug's greatest strengths was his leadership ability, which he demonstrated not only with Farmers Dairy (now Agropur) but also throughout the industry. The Farmers Dairy (now Agropur) Board of Directors established this Bursary in memory of Doug.

Eligibility: Awarded to a technical, undergraduate, or graduate student at the Faculty of Agriculture who is a family member of an Agropur shareholder or employee. Selection criteria include leadership, extracurricular and community activities, financial need, and academic performance.

Year of Study:

A. B. Banks Memorial Scholarship

This scholarship is given by friends and family in memory of A.B. Banks, a former Director of Livestock Services Branch, Nova Scotia Department of Agriculture and Marketing. Mr. Banks was highly dedicated to the agricultural industry throughout his 35 year career in Nova Scotia and elsewhere in Atlantic Canada. He was born and raised in the Annapolis Valley and graduated from the former Nova Scotia Agricultural College and the Ontario Agricultural College. His career included service with the Canada Department of Agriculture, the Newfoundland Department of Agriculture and Forestry and the Nova Scotia Department of Agriculture and Marketing. As one of the first agricultural representative in Nova Scotia, he served the counties of Colchester, Halifax, and Cumberland. He was a strong advocate of improved farm management skills and believed this to be an important key to improving agricultural production.

Eligibility: Awarded to the second year BSc(Agr) Animal Science student with the highest average from the first year of study.

Application Type: Faculty of Agriculture In-Course Award Application

Application Deadline to Apply: Check dal.ca/scholarships for application deadline

Value: \$500
Year of Study:

Bible Hill Garden Club Scholarship

The Bible Hill Garden Club, originally referred to as Hillcrest Landscape Club was first organized in January of 1947. The group was created to promote the improvement of home grounds, assist in the beautification of community grounds, local parks and schools. Over the years, the group has gained popularity and has grown from 17 members to over 60, mostly women who range in age of 50-60. The group contributes to the Faculty of Agriculture through help supporting students with the bursary they have created.

Eligibility: Available to current students who are permanent residents of the Truro area, in any undergraduate program at the Faculty of Agriculture, with preference given to students in at least the second year of study in Horticulture, preferably a landscape program. Selection criteria include academic performance and financial need.

Application Type: Faculty of Agriculture In-Course Award Application

Ali Brown Scholarship in Food Science

This scholarship is established to honour the memory of Ali Brown. Ali spent approximately 15 years of her life working towards improving and implementing food safety standards within the dairy industry. It was with a strong sense of ethics and determination that she had to walk the line between industry's goals and food safety for the public. This award salutes her dedication, determination, well rounded qualities and the spirit to succeed.

Eligibility: Recipient will be enrolled as a student at the Faculty of Agriculture, studying in any program in the Plant, Food and Environmental Science department. Recipients will have shown academic excellence. Preference for students with an interest in food science and/or food safety as demonstrated by having completed at least one food science or food safety course. Preference for students from Atlantic Canada as determined by where they attended high school. Preference for a student who identifies as female.

Donald E. Clark Memorial Scholarship

Professor Clark was born in Luchow, China in 1923 and came to Canada at the age of 15 months. In 1951 he graduated from the Ontario Agricultural College, B.S.A. (Honours). In 1962 while a member of the teaching staff at O.A.C. he received his M.S.A. from the University of Toronto. In 1968 he accepted a position with the NSAC as an Associate Professor and Head of the Agricultural Engineering Department. Donald was well known for his work with sprayers and zero tillage for corn production. He also served with distinction on such committees as the Canada Weed Committee, the Atlantic Herbicide Committee and the Atlantic Agricultural Engineering Committee. As a Professional Engineer and Agrologist, Donald was a charter member of the Canadian Society of Agricultural Engineers and in 1976 was elected President of this organization. As a result of Professor Donald E. Clark's sincere commitment to his chosen field of study, and his lifetime of contributions to both the NSAC and the Engineering community, a scholarship has been created in his memory.

Eligibility: Available to current students in their final year of the Diploma of Engineering program in the Faculty of Agriculture.

Selection criteria include academic performance, interest, and aptitude in the engineering field.

Class of 1950 Award Fund

The Class of '50 Award was first established in 2000 at the Class of 1950, 50th anniversary weekend celebration. President, Don Young and Vice-President, Jack Johnson spearheaded the campaign to get their classmates involved in their commitment to help future AC students. The group recognizes the difficulty that young students face to finance their post-secondary education, as they too faced similar challenges. After a great deal of preparatory work from Don, Jack and Cliff McIsaac, a proposal was created for the Class of '50 Award fund of to assist deserving students to “stick with it.” The group of classmates have made and continue to make significant contributions to the campus and students.

Eligibility: Available to current students in financial need in any technical or undergraduate program in the Faculty of Agriculture.

Colonel Charles Coll Memorial Scholarship

The Colonel Charles Coll Memorial was established in memory of Col. Charles Coll Sr. He was the inventor, owner and president of Muskol Enterprises Limited. He manufactured and sold Muskol insect repellent first from his basement in his Truro, Nova Scotia home and later from his manufacturing plant in Hilden, just outside of Truro. In 1957 Charles concocted a perfume to apply to clothing while deer hunting and later registered a company. The deer lure was used by regular deer hunters, bow hunters, wildlife photographers and naturalists. Charles named the ingredient “Muskol” which derives from musk, an ingredient in the lure and the phonetic last name Coll. Federal and Provincial Departments of Fisheries, Resources, Mines, as well as many sportsmen and outdoors people still continue to use the Muskol Insect Repellent.

Eligibility: Available to students entering their final year of the Bachelor of Science (Agriculture) Animal Science program. Selection criteria include academic performance, involvement and interest in poultry, and achievement and contribution to 4-H.

George and Lottie Cook Memorial Scholarship

Lottie Cook first developed her passion for agriculture on her family farm on Cape Breton Island. Lottie's parents were pioneers in the agricultural industry, and her father a renowned farmer. At a young age Lottie became involved in 4-H where she achieved some of the club's top honours. She later graduated from the former Nova Scotia Agricultural College and worked as an assistant agricultural representative to J.C.F MacDonnell for many years. In 1943 Lottie married George Cook and the pair later opened a chick hatchery in Truro and became one of the foremost producers of high quality chicks in the Maritime Provinces. After the passing of her husband in 1954, Lottie continued to operate the family business. Due to Lottie's involvement in the agricultural industry and former NSAC community from both herself and family business, a scholarship has been created in her and her husband's name.

CA Douglas Bursary

The CA Douglas Bursary was originally established in 1984 in recognition of the impact of Charles Allan Douglas on the Agriculture industry in Nova Scotia. Charles held positions at Scotsburn Creamery, Avon Valley Greenhouse Farm and had a 35 year career with the Department of Agriculture and Marketing. Charles had a unique ability to inspire leadership and confidence in those around him, as he was very conscious of the importance of the individual. He devoted untiring energy to supporting rural youth and community development. As a result of his dedication and commitment to new technology, and his leadership and desire to relate to the individual Charles was inducted into the Atlantic Agricultural Hall of Fame in 1979 and honored with a bursary in his memory.

Eligibility: Awarded to a BSc(Agr) student enrolled full-time in the third or fourth year of study who has demonstrated financial need.

Preference is given to students majoring in Animal Science.

Farm Credit Canada Scholarship

The Farm Credit Corporation is a crown corporation wholly owned by the Government of Canada. The Corporation's mission is to "provide the Canadian farmer with a reliable source of long term credit and personalized counselling services." Farm Credit Corporation strongly believes in the farm community and the education of youth. The Farm Credit Corporation Bursary is their way of demonstrating their commitment to the betterment of the young people in the community.

Eligibility: Available to students entering their final year of the Bachelor of Science (Agriculture) program. Applicants must be Canadian citizens who are Agricultural Economics or Agricultural Business majors. Selection criteria include academic performance, interest and competence in farm management and in the subjects associated with the economics of the farm business, interest and involvement in college and home community as demonstrated by participation in organizations and affairs, farm experience, and financial need.

Application Type: Faculty of Agriculture In-Course Award Application

Value: \$200

Year of Study:

Ena Fenton Memorial Scholarship

Ena Fenton was a founding member of the Bedford Horticultural Society in 1950. Ena was an enthusiastic and willing participant in every function of that group for 47 years. Mrs. Fenton had been a teacher prior to her marriage and had always been interested in the education of young people. After her death in 1977, the Society decided to name their scholarship in her honor. They feel certain that she would have been very pleased by their acknowledgment of her interest in the development of Horticulture and Landscaping in Nova Scotia.

Eligibility: Available to students studying Horticulture or Environmental Studies, entering the second year of any undergraduate program in the Faculty of Agriculture. Applicants must be permanent residents of Nova Scotia, with preference given to those from Bedford, Sackville, and Waverley. In years when no student from Bedford, Sackville, or Waverley applies for the scholarship, consideration will be given to other students from the Halifax Regional Municipality (excluding those from Halifax and Dartmouth). Selection will be based on financial need, career plans, and academic performance.

Governors' Awards

In 1992, to mark the 125th anniversary of the founding of the Dalhousie Student Union, and to recognize students' contribution to the quality and vitality of the University, the Board of Governors established a set of awards to be known as Governors' Awards. Up to four awards can be made each year, for exceptional contributions or leadership in the extracurricular realm in such areas as university governance, development of a sense of community on campus, community service, internationalizing the campus, visual or performing arts, minority access or athletics. To be eligible, students must have a minimum cumulative GPA of 3.0 or equivalent. Otherwise, all students - undergraduate, graduate, or professional faculty students, full or part-time, at any stage in their academic career, may be considered for an award. Information is available on the Student Services website.

John Higgins Memorial Scholarship

John was a founding member of The Atlantic Association of Landscape Designers in 1992. He was instrumental to the development of Canada's first ever Certification Program for Landscape Designers, which was available to all designers in the Atlantic Region, and pre-empted the National Certification Program by several years. John Higgins' dedication and enthusiasm for the Landscape Design Industry throughout his career was unflinching, his contributions immeasurable. It is for these reasons that AALD decided to offer a Design Scholarship for students attending the AC, to be dedicated in his name. The Atlantic Association of Landscape Designers hope is that, in part through this scholarship, his legacy will live on.

Eligibility: Available to students entering third year of the Bachelor of Technology in Environmental Landscape Horticulture program in the Faculty of Agriculture. Selection criteria include academic performance and skill and interest in landscape design.

Dr. Bill Jenkins Memorial Scholarship

Bill's career began early and always had the same theme; to improve farm management and education. He held numerous positions with the Provincial Department of Agriculture, the Faculty of Agriculture at Dalhousie University, as well as Chairman of the Nova Scotia Farm Land Settlement Board. Bill retired as Principal of the former NSAC (now Dalhousie Faculty of Agriculture) in 1972 after witnessing growth in both the level and training for all sectors of the agricultural industry. He then joined the staffs of the Council of Maritime Premiers' Higher Education Commission, Services Overseas (CESO) in 1992. As a result of Bill Jenkins' sincere commitment to his chosen career path, and his lifetime of contributions to both the AC and the Agricultural Industry, a scholarship has been created in his memory.

Eligibility: Available to students entering second or third year in any of the business degree programs in the Faculty of Agriculture. Selection criteria include overall academic performance, leadership, and financial need.

Year of Study:

Ketchum Manufacturing Company Limited Prize

Zebulon Ketchum, an Ottawa, Canada based inventor and former professional lacrosse player turned his love of tinkering into a successful business. He owned a bicycle shop in downtown Ottawa and eventually grew and expanded that business into other products including becoming the first provider of the new "horseless carriage" in the nation's capital. However, it was his inventor's nature that led him to the genesis of the Ketchum business which was metal identification tags to be used in the livestock industry. The company has become the world's leading supplier of tags used to identify and trace the origins of wild caught and farmed seafood and they continue to be a metal stamping company as well and currently produce numerous metal products for various industries around the world. The business started on a rural farm outside of Ottawa and when it moved it found itself in the middle of the city. What started as a niche business serving the local agricultural community spread regionally, then nationally, and now competes in almost every market of the world.

Eligibility: The Ketchum Manufacturing Company Limited Prize is awarded to a graduate of the Animal Science option.

Application Type: Automatic Consideration – No Application Required

Year of Study:

P. Max Kuhn Scholarship

P. Max Kuhn grew up on a small farm in Lawrencetown, Halifax County. He lived from 1887 until 1928 and was the father to Bernard G. Kuhn. Max attended one year of the former NSAC General Course in 1908-1909. He was not able to return the next year because of need for him at home and shortage of funds, it was a great disappointment to him. That year was his only year of formal schooling; his home was so isolated that he was never able to attend grade school or high school, and his mother taught him at home. Max was a dedicated, hard-working farmer, and he made great use of his AC training. He bought his own Manor Hill Farm in 1918, located on Woodlawn Road (Portland Street) just outside what were then the town limits of Dartmouth. He market-gardened and ran a dairy there until his death. It was Bernard's wish to establish this scholarship to recognize his father, Max, give education opportunity to others beyond what his father had, and to "repay Nova Scotia, former NSAC and Canada in small part for the education and support that he received here" (Bernard G. Kuhn).

Eligibility: Available to students in any undergraduate program in the Faculty of Agriculture at Dalhousie, with preference given to students who have completed at least one year of study. Applicants must be permanent residents of Nova Scotia, with preference to students from the Halifax Regional Municipality. Awarded to a student with a farm background or those whose course and project work and summer employment demonstrates an interest in working in the agriculture industry after graduation. Selection criteria include financial need and academic performance.

Year of Study:

Danny MacEwen Memorial Scholarship

Danny was an example of what typifies a farmer – not afraid of hard work, willing to give everything he had even if the financial return wasn't always there, and proud of what he did for a living and never made an excuse for it. Danny was also very involved with the community and those who lived in it. He enjoyed not only showing off his many talents but also found great satisfaction in teaching others. Although he was not known for his patience, he strived hard to achieve the best at whatever he did. Danny will always be remembered for his passion for farming, and the agricultural world is a better place because of what he gave.

Eligibility: Awarded to a BSc(Agr) student majoring in Agricultural Business who has a background in agriculture or comes from a family farm. The recipient will be involved in the community and athletics, either at the Faculty of Agriculture or in the local area.

Year of Study:

Dr. Allan and Barbara MacKay Scholarship

Born in Heathbell, Pictou County, Nova Scotia, Dr. Allan MacKay received his early agricultural experience on the Spruce Grove Farm that had the distinction of having one of the first purebred Guernsey herds in Canada. He was a member of the Scotsburn Junior Dairy Calf Club and represented his province in the National competitions for club members at the Royal Winter Fair in Toronto in 1941. Dr. MacKay received his primary education at Heathbell School and his secondary education at Pictou Academy. He graduated from former N.S.A.C. in 1943 and obtained his Doctor of Veterinary Medicine from the Ontario Veterinary College in 1951. That same year he established a veterinary practice in Pictou County and continued his work until his retirement in 1991. Dr. MacKay is honoured for his program of animal health care, for his philosophy of preventing disease problems before they occur and his dedication to farm families in the area he served.

Eligibility: Awarded to a student with strong academic performance from the Faculty of Agriculture who plans to study veterinary medicine at the Atlantic Veterinary College.

Bill Mathewson Memorial Award

Bill Mathewson grew up on a hill sheep farm in Sma Glen, Scotland. He graduated with a BSc (Agriculture) in 1949 and later (1974) a MSc. both from Aberdeen University. On graduation 1949, he joined H.M. Overseas Civil Service. After further training in Cambridge and Trinidad, he was posted to Tanganyika, Africa where he worked for 14 years. On retirement in 1965, he worked for three years with the N.F.U. of Scotland in Edinburgh before immigrating with his family to Nova Scotia in 1968. He taught for 20 years at the Faculty of Agriculture. Bill retired in 1988 and was honored by his colleagues by being made Professor Emeritus. Much loved by students, faculty and the agricultural industry, Bill will be greatly missed. It is with his memory in mind, that Bill's friends and colleagues at the AC launched an award in his name.

Eligibility: Available to any student registered in any program at the Faculty of Agriculture participating in an international experience. In applying for consideration, students will submit a proposal to participate in such activities as a study semester abroad toward their degree/diploma, attendance at a conference to make a presentation, a specialized training course or an internship or development project.

Donald McInnes Award

Established in 1904, Pictou Mutual Insurance Company is the oldest mutual insurance company in Nova Scotia. Initially established by a group of farmers who sought to provide local protection for each other in the event of loss, their company has grown to include more than 3,500 local and rural policyholders. Donald McInnes was born in 1933 on the original McInnes farm on Scotch Hill Road. A graduate of Pictou Academy high school, he attended the AC, graduating in 1955. As a shareholder of Scotsburn Co-op, Donald served as Director for 22 years and Chairman of the Board for 15 years. For 35 years Donald was active in the Pictou County Farmers Mutual Fire Insurance Company. Donald served first as an agent, then as a director and manager of the company. Due to Donald's sincere involvement with both the community and Pictou Mutual Insurance Company, an award has been created in his name which is funded by Pictou Mutual Insurance.

Eligibility: Available to a student enrolled at the Faculty of Agriculture. Selection criteria include commitment to and involvement in the community and leadership provided in student activities, academic performance and financial need. A student may not be selected for this award more than once.

Clint McLean Memorial Scholarship

The Clint McLean Memorial Scholarship was established by Clint's loving family, with contributions from his many friends and colleagues. Clint loved life and had many interests including entertaining, fine cooking, travel and music. To Clint family was everything; no amount of trouble, sacrifice, or inconvenience was too much. However, his heart was in agriculture. He lived and breathed agriculture, but dairy had a special corner in his heart. Not only did he talk the talk, he walked the walk. Clint was a graduate of NSAC (Class of 1979) and Guelph University. He was also an active member of his alumni associations, serving as Vice President and President for the Agriculture College Alumni. Clint served on the Agricultural Institute of Canada Board of Directors and on numerous institute committees. He served as the chair of the Atlantic Forage Crops Advisory committee and represented the Atlantic Provinces at the National Expert Committee on Forage. Clint was a distinguished and valued member of the NB Department of Agriculture, taking a leading role in innumerable initiatives to support the true stewards of the land; the farmers of Atlantic Canada. His career was that of a scientist with a human touch.

Eligibility: Awarded to a third or fourth year BSc(Agr) student, with a preference to a student from New Brunswick and a preference to

a student involved in the study of dairy. Recipients will have strong academic standing and demonstrate financial need.

Year of Study:

Karen Meek Memorial Scholarship

Karen was born March 28, 1962 and grew up on the family farm in Canning, Nova Scotia. She attended local schools and graduated from Cornwallis District High School in 1980. Karen was an avid participant in school sports, 4H, horseback riding, ringette, her motorbike, and living life to its fullest. Following in her father's footsteps (Eric Meek – class of 1954) she attended and graduated from former NSAC in 1982 with a Diploma in Ag Business, Karen participated in many campus activities but the Woodsmen Team was always her favorite. She developed many close friendships in her years in Truro. The Karen Meek Memorial Scholarship was established so that Karen's memory could live on.

Eligibility: Available to current students in the Bachelor of Science (Agriculture) Environmental Sciences program. Selection criteria include academic performance, financial need and contribution to campus life. This scholarship is not available to students receiving other awards over \$1,000.

Year of Study:

John Miller Memorial Award

Since 1983 John Miller assisted the hog industry by coordinating and providing programs that greatly improved the industry as secretary/manager of Pork Nova Scotia. John spent countless hours educating producers and others of the cost efficient and productive way to raise and market hogs. He often spoke at the Faculty of Agriculture to students in the hog production course on the strengths of the industry. To show appreciation of this dedication, the producers and friends of Pork, NS provide an award in memory of John.

Eligibility: Available to students in any undergraduate program in the Faculty of Agriculture who are permanent residents of Nova Scotia. Awarded to a student whose course and project work and career plans reflect an interest in the hog industry or whose application shows interest, understanding, and appreciation for Nova Scotia's hog industry.

John Reginald (Reg) Moore Memorial Scholarships

Reg Moore was born in Economy Nova Scotia on August 25, 1917; the fifth of six children. He was educated in Economy and Bass River graduating in 1935. Reg then enrolled in Normal (Teachers) College in Truro. He taught in various locations in Nova Scotia until called up for service in the Royal Canadian Air Force in 1940. Reg served as a staff pilot and as a Coastal Command pilot in Canada and the United Kingdom. Returning to Canada in 1945 Reg enrolled in the Nova Scotia Agricultural College (now the Faculty of Agriculture, Dalhousie University). He graduated from the former NSAC in 1947. Reg spent his entire post war career at the FCC. First as a Credit Advisor, then as Branch Manager for Nova Scotia. In 1960 he was transferred to Saint John, New Brunswick as Executive Assistant to the Regional Manager Atlantic. By 1962 Reg had tired of doing office work and transfers (four in three years) so requested a transfer to field duties where he would have day to day contact with farmers. He was assigned to the Sussex, NB Office where he completed his career, retiring in 1981.

Eligibility: Available to current students in any undergraduate program in the Faculty of Agriculture, with preference given to students studying in a full-time capacity. Applicants must be permanent residents of Colchester County, Nova Scotia and will have completed at least one year of study. Selection will be based on financial need and a cumulative average of at least 3.00.

A. C. Neish Memorial Trust Scholarship

Dr. Neish (1916-1973) was an undergraduate at the former Nova Scotia Agricultural College in Truro. This is where he had his first contact with science and where he had won the Governor General's Medal and a Macdonald College (Quebec) Scholarship. His work on fermentation, bacterial and plant metabolism and the biosynthesis of plant polysaccharides and lignins received international acclaim. He was a Fellow of the Chemical Institute of Canada, of the Royal Society of Canada, and the Royal Society of London. Dr. Neish was the first person to be awarded the Gold Medal of the Canadian Society of Plant Physiologists, and was awarded an honorary doctorate by Mount Allison University and an honorary Doctor of Science degree by McGill University. The A.C. Neish Memorial Trust Scholarship was established by friends, admirers, and colleagues of the late Arthur Charles Neish.

Eligibility: Available to students entering their final year of the Bachelor of Science (Agriculture) program. Selection criteria include high academic performance and qualities of leadership as indicated by participation and achievement in both academic and non-academic activities.

Nova Scotia Mink Breeders Association Award

Dr. Bruce Hunter passed away on October 19th, 2011 at the age of 61. He was a leading veterinarian in the fields of avian and furbearer disease, and an integral part of the Canadian mink industry, serving as director of research for the Canada Mink Breeders Association. He was a longtime champion of integrating animal, human and environmental health at OVC and around the world. He played a key role in setting up a Canadian Community Practice in EcoHealth (CoPEH) and a graduate-level course in ecosystem approaches to health involving U of Gm the University of British Columbia and Université du Québec à Montréal. Recently, he was co-leader of a poultry project in Ghana for Veterinarians Without Borders/Vétérinaires Sans Frontières-Canada. This year, he received the Aeroplan Volunteer of the Year Award from VWB/VSF in recognition of his work and commitment. The Nova Scotia Mink Breeders Association established this scholarship in memory of Dr. Bruce Hunter, a retired veterinarian from Ontario Veterinary College and recognized expert on naturally occurring diseases in mink. This scholarship will recognize students who have an interest in mink.

Eligibility: Available to current students in any Animal Science-related undergraduate program in the Faculty of Agriculture, with preference given to a student whose course/project work demonstrates an interest in the mink industry.
