Our weather is moderated and influenced by the ocean that surrounds us.

We recognize African Nova Scotians are a distinct people whose histories, legacies and contributions have enriched Mi'kma'ki for over 400 years.

Dalhousie University is located in Mi'kma'ki, the ancestral and unceded territory of the Mi'kmaq. We are all treaty people.

Halifax is a vibrant, coastal urban centre of nearly 450,000 people that has everything you’d expect from a big city within a safe and connected community. Our distinctly East Coast food, entertainment, history and culture ensure a memorable university experience. As one of Canada’s fastest-growing cities, Halifax is home to innovative tech and entrepreneurial hubs, as well as thriving financial and ocean sectors. No wonder Maclean’s magazine chose Halifax as the #1 Community to live and work in Canada for 2021.

Dalhousie’s Agricultural Campus in Truro is a friendly community designed for exploration and discovery. An hour from Halifax, the beautiful town of Truro is home to a vibrant downtown with a range of activities, shops and experiences.
REAL LEARNING COMES FROM LIVING
That’s why opportunities to learn by doing are part of every degree program. Put your new knowledge into action through co-op opportunities (paid Canadian work experience terms related to your academic field), internships, practicums, research projects or volunteer opportunities. You’ll end up with a résumé that sets you up for career success with future employers, and a memorable university experience.

THE FUTURE DEPENDS ON BIG IDEAS
From day one you’ll learn from researchers who are tackling some of the biggest challenges of our time. With options that range from exploring the incredible potential of nanomaterials to improving our knowledge of some of the largest mammals on the planet, you’ll have the chance to work with researchers driven to create a better and more sustainable future for all.
