The Modern Beekeeper

Basics to Business

The Modern Beekeeper

is a new hands-on production course developed as a collaboration between Dalhousie Faculty of Agriculture, the Nova Scotia Department of Agriculture, Perennia and the Nova Scotia Beekeepers Association.

This course is designed for new and existing farmers who want to gain production skills and grow their beekeeping enterprise.

Through a combination of classroom and field work, participants will gain the knowledge, skills and contacts needed to become successful beekeepers.

Modeled after the successful “Modern Shepherd” Course, four modules will be delivered to cover all aspects of the beekeeping industry:

Module 1: The Busyness of Bees

March 2 and 3, 2013

Module 2: Bee Hive and Health

May 4 and 5, 2013

Module 3: Bee Production and Products

June 22 and 23, 2013

Module 4: Bee Maintenance and Business Growth

September 14 and 15, 2013

Modules are held on Saturday and Sunday.

What to expect...

Top quality instruction and the chance to connect with other producers! **The Modern Beekeeper** will combine in-class sessions with hands-on practical activities in a bee yard and tours to allow participants to experience all aspects of raising bees.

Topics covered:

Industry Overview and Regulation

Bee Biology

Start –up and Growth Cost

ABC's of Buying Bees

Pest Management

Equipment

Products

Seasonal Maintenance

Queen Rearing

Hive evaluation and more!

Details on each module can be found online at:

Dal.ca/cedalac

*Those who complete all 4 modules will
receive a certificate of participation from
Dalhousie faculty of Agriculture.*

To Register

To make this course as practical and hands-on as possible, there are a limited number of seats. Please apply early!

To apply complete the form on the back of this brochure and mail or fax it along with your tuition fee to Continuing Education, Dalhousie University, Faculty of Agriculture at least 2 weeks in advance of each module.

Tuition

\$ 295.00 per module

Participants can pay one module at a time. Please contact us for details.

About Us

Continuing Education delivers certificate programs, introductory non-credit studies, general interest workshops, contract training and credit and non-credit distance education courses. We have access to a broad range of expertise here and throughout Canada. We will find the right people and develop the best program for your training needs.
