

Graduate Module Outline

Title: Scientific Writing.

Instructor: Vilis O. Nams

Timing: Jan-April 2019

Description: This module will teach students how to write more clearly. Among other topics, it will cover parallel sentence structure, introductory sentences, and active vs passive voice. This will not cover grammar or spelling.

Format: One 1-hour meeting weekly for 2 months. There will be weekly assignments, lectures and class discussions. Meetings Thursdays 10-11am, Library 015, starting immediately.

Method of Evaluation: 50% class attendance and participation, 30% assignments, and 20% summary writing assignment.
