**esport Tournaments April 2020**

We will run a 16 team single elimination tournament. Brackets will be done randomly.

For the sport games (FIFA, NHL, NBA2K, Madden) we will do a draft to determine which team everybody uses. Teams used must be from the current season (not all-star teams or historical teams). We will do a draft for team using Microsoft Teams. This will also be used for communication through the play of the league. We will randomly assign everyone a draft position and then they can pick teams in the draft order. If someone takes more than 24 hours to pick their team they will be put to the end of the draft. Once brackets are set and teams are chosen we will exchange information to play our first round opponent and you will have 7 days to play a best 2 of 3 series against them rules for each game will be laid out. Please report scores to intra@dal.ca after each game is completed. We will start the second round after the first is complete. If you have difficulties playing your games please let us know.

For the non-sport games we will set up a bracket once we have 16 teams registered.

Sign up for the league will be through Fusion IM.

[https://www.dalsports.dal.ca/](https://www.dalsports.dal.ca/)

Registration for all the leagues will open on April 15 at 9am. We will start the league once we get 16 people registered.

We are going to run the leagues through Fusion IM the brackets and scores will be posted there.

As we go through the tournaments for the first couple of games please give us feedback and suggestions as this is our first time doing it.

Once you are registered and the league starts you will get an invite into teams. This will all go through your dal email account so please make sure that it is registered on Fusion.
esports Game Rules
