The guide below can be used to assist you with your first-year course selection. Use the table below, the academic timetable and the schedule worksheet to build your schedule. It is recommended you schedule your required courses first, and then choose your electives based on your interests and future goals. The Course Planning Worksheet is meant as a reflective tool to plan out your courses. For complete program requirements, see the Dalhousie Academic Calendar at www.dal.ca/calendar or ask your advisor.

*PERF 1000.03 and PERF 1002.03 satisfies both the writing course and Humanities requirements of the General Degree Requirements.

Every BA student must complete the General Degree Requirements before graduation. Many students choose to complete these in their first year, but this is not required; however, we strongly recommend completion of both the Writing Requirement and the Language Requirement in first year. To complete any of the Subject Group Requirements, you may take either 6 credit hours in a single subject, or 3 credit hours in two different subjects.

**LANGUAGE REQUIREMENT COURSE:**
Select a Language Course and record it in the Course Selection Box. To satisfy the language requirement, you must take six credit hours in a single subject some time before you graduate. Students considering a study-abroad opportunity later in the degree should begin any relevant language study in first year.

**SUBJECT GROUP REQUIREMENTS**

Between now and graduation, you must select 6 credit hours from each of the three Subject Groupings – Social Sciences, Humanities, and Science. You are encouraged to begin fulfilling these Subject Groupings in your first year, but consider your intended major, interests, and strengths when selecting your first-year courses. If, for example, you anticipate difficulties in completing the Science requirement simultaneously with the Language requirement, we recommend that you delay completion of the Science requirement until a subsequent year.
