Please note: At Dalhousie you may often hear the word "class" instead of "course."
The Academic Timetable (class schedule) is available at: [https://dalonline.dal.ca/PROD/fysktime.P_DisplaySchedule](https://dalonline.dal.ca/PROD/fysktime.P_DisplaySchedule).

Before selecting your courses, please read this IMPORTANT INFORMATION:

1. **Course load**: Normally, Dalhousie students take 5 courses per term. Each term-long course is worth 3 credit hours, so 5 courses would total 15 credit hours per term. The ECTS equivalent of five Dalhousie term-long courses is roughly 30 ECTS.

2. **Course prerequisites**: It is your responsibility to ensure that you have taken appropriate course prerequisites or the equivalent at your home university (as indicated in the course description). Most undergraduate exchange students take courses at the 2000 and 3000 level. Students should not select courses at the 5000 level unless they are graduate students at their home university. **PLEASE SELECT ONLY COURSES THAT YOU HAVE TAKEN PREREQUISITES FOR.**

3. **Course components**: When viewing the online timetable, the yellow bar indicates a LECTURE, while the blue bar indicates the related LAB or TUTORIAL. **Important**: Whenever a yellow bar is followed by a blue bar, you **must** select a lecture AND a tutorial/lab section.

4. **Full-year courses**: Please note that an X at the end of the course number (i.e. MUSC 1001X) means that it is a FULL YEAR course and **must** be followed by the Y portion of the same course in the Winter term. **Students attending Dalhousie for only one term will not be able to register for these courses.**

5. **Course capacity**: Exchange applicants should note whether or not the course is already listed as FULL. While it may be possible to negotiate a spot on the WAITLIST for that particular course, students should be prepared to register for an alternative course.

6. **Please list TEN course requests below, in order of preference.**
   (The more courses you list, the more options you will have to choose from if your other course choices are full at time of registration)
