Historical Hanoi Highlights by Vintage Jeep with lunch at **Koto** followed by **CE Lecture (3 hrs)**

Dinner will be a **Hanoi Street Food Tour by Vespa**

Overnight at **5* Sofitel Legend Metropole**

Meals—B, L, D

Founded in 1010 during the reign of King Ly Cong Uan, **Hanoi** is the capital of Vietnam. Located in the Red River Delta in the center of North Vietnam, it is the political, economic, cultural, commercial and tourist centre of the country. Hanoi is a city of timeless grace—a grand old dame of Asia, aging with style. Today Hanoi's centre is a quixotic blend of Parisian grace, and Asian pace, an architectural museum piece evolving in harmony with history.

Sun, March 14 -

Halong Bay (2 days)

Tue, March 16

Transfer to Halong Bay and board **5*Indochine Lan Ha Grand** (all-inclusive private charter). Each cabin features premium interiors and a private balcony. Guests enjoy a range of high-end facilities, including a refined restaurant, a panoramic sky bar, a full-service spa, and an 1,100 m² sundeck with an outdoor Jacuzzi.

Activities Include

Dark and bright cave adventure

Swimming in the bay

Cooking demonstration

Kayaking

Three Peaches Islet

Discover Viet Hai village by biking

Night fishing

CE Lecture (3 hrs)

Halong Bay means “where the dragon descends into the sea” and is one of Vietnam’s most spectacular sights. Approximately 3,000 extraordinary shaped cliffs, arches and islands rise from the emerald blue sea. A beautifully restored Vietnamese Junk Boat is the perfect way to explore the caves, inlets and beaches of the Bay.

We say good-bye to Halong Bay with an amazing dinner in a cave.

Tue, March 16 Danang

Fly to Danang

Transfer to **5* Intercontinental Hotel**

Time to relax and enjoy the beautiful resort

Option to have “tailor-made” clothing

Isabel Mello, DDS, MSc, PhD, FRCDC

Dr. Mello received her DDS degree from the Federal University of Alfenas, Brazil. She completed her residency and Master of Sciences in Endodontics at the University of Sao Paulo and later defended her PhD in Dental Sciences on a joint program between the University of Sao Paulo and the University of British Columbia.

She is the Division Head of Endodontics at Dalhousie University in Nova Scotia, Canada, and has received several teaching awards throughout her academic career. Dr. Mello has lectured nationally and internationally, is an active researcher, and has published several papers in peer-reviewed journals. She is a board-certified Endodontist and a fellow of the Royal College of Dentists of Canada. She is also a reviewer for the Journal of Endodontics and other journals.

Dr. Mello serves as consulting staff in the Dentistry Department at the IWK Children's Hospital in Nova Scotia and maintains a part-time practice in the region.

CE Program

Diagnosis and Management of Complications Following Traumatic Dental Injuries

Course Outline:

Traumatic dental injuries (TDI) and their complications can be overwhelming for patients, caregivers and clinicians. This evidence-based series of presentations will approach different sequelae of TDI in the permanent dentition, such as pulp canal obliteration, discoloration, pulp exposure, pulp necrosis and resorption. Diagnosis and management of these complications, as well as the importance of a multidisciplinary approach that involves general dentists and specialists will be demonstrated through a series of clinical cases.

Course Objectives:

- Recognize the range of complications that can arise from severe TDI.
- Highlight the importance of using the Dental Trauma Guidelines.
- Identify when endodontic treatment is required for each complication.
- Understand the importance of multidisciplinary approach when treating TDI and identify when referrals to other different specialists is needed.
- Apply concepts covered in the lecture in the clinical cases presented.

Session Topics

Day 1 (3h):

- Introduction to TDI
- Prevention of TDI
- Resources for diagnosis and management of TDI
- TDI types
- Immediate management of TDI
- Performing clinical and radiographic examinations
- Importance of thorough documentation
- Diagnosis and treatment of the hard dental tissues and the pulp
- Management of the exposed vital pulp

Day 2 (3h):

- Introduction to injuries of the periodontium
- Clinical examination, imaging and documentation
- Utilizing the Dental Trauma Guidelines in the diagnosis and management of injuries of the periodontium
- Management of the necrotic pulp in young patients – apexification and revascularization

Day 3 (3h):

- Tooth Avulsion
- Tooth resorptions: types, diagnosis and management
- Diagnosis and management of canal calcification
- Diagnosis and management of tooth discoloration of pulpal origin

ADA CERP® | Continuing Education
Recognition Program

Dalhousie University Faculty of Dentistry is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association that assists dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or the Commission for Continuing Education Provider Recognition at CCEPR.ADA.org.

This activity has been planned and implemented in accordance with the standards of the Academy of General Dentistry Program Approval for Continuing Education (PACE) through the joint program provider approval of University of Kentucky Dentistry and the participating ACDE member schools listed below. The University of Kentucky School of Dentistry is approved for awarding FAGD/MAGD credit.

9 CE Credit Hours
