

Advisory Committee on Sexual Harassment

The three year term for the current DPMG representative on the Advisory Committee on Sexual Harassment ends June 2016. There is usually just one meeting scheduled per academic year. The committee met most recently in May 2016.

During the meetings, the Advisor Harassment Prevention provides confidential data on reported incidents of both sexual harassment and personal harassment which cannot be shared in this report.

The committee is also engaged in conversations related to awareness building and programming. Updates were provided on:

- Bystander Intervention Training in which more than 100 people participated
- Dalhousie Student Union Phone Line which had the assistance of over 100 volunteers for its pilot year and is currently on hiatus over the summer
- Sexual Harassment Policy Review (a Provost Committee working group reviewing university policy)
- Human Rights, Equity and Harassment Prevention (HREHP) department in process of developing a framework for future strategic planning.
