## University Transportation & Security

2018-2019

**DPMG Representative** : Kurt Sampson

The University Transportation & Security Committee met monthly from September 2018 through June 2019. There were no DPMG specific items on the agenda this year, although most of the topics we discuss are of a broad scope that involves DPMG and other members of our larger university community, e.g:

- Parking management ( e.g. pricing, fielding complaints, managing around construction, winter snow removal, etc. )
  - There will be no increase in parking fees, across all permit types, for the next academic year.
- Security incidents, trends, & strategies
- Encouraging sustainable transportation:
  - University Avenue bike lane pilot project
  - Electric vehicle (EV) charging facilities ( e.g. signage & maintenance strategy ) & EV Showcase
  - The Green Corridor project

I will continue to serve as the DPMG representative and co-chair of this committee for the 2019-20 year, so stay tuned for another report around this time next year.
