

## Respect Values Award

### **Emma Hurshman and Cherstin MacMillan**

#### Client Reception

**In the past year they have continued to cover the daily responsibilities at Client Reception as a smaller team. They are essential members of the Assetworks Implementation team, and had to think on their feet during the transition from radios to cell phones for the trades staff. Due to personal emergencies this summer, quite often there was only one of them on duty at any given time.**
