

Dalhousie's department of Facilities Management is looking for a new Integrated Work Management System (IWMS).

Since 2005, FAMIS has been the FM computerized maintenance management system (CMMS) but it will be discontinued shortly. Dalhousie issued a Request for Proposals (RFP 2022-050) in August 2022 for a replacement and received seven responses,

As of March 2023 three phases of evaluation have been completed:

- Written response as defined in the RFP
- Demonstration phase from a short list of vendors
- Sandbox environment for users to test run the highest evaluated system. In mid-March approximately 25 staff took part in the sandbox over a three-day period.

The vendors were also asked to respond with solutions in the following core functional areas:

- Operations and Maintenance (O&M)
- Capital Planning and Project Management (CPPM)
- Space Management
- Mobile applications for users on the go

With additional functionality demonstrated in the following areas:

- Capital Renewal and Condition Assessment
- Energy and Sustainability
- Real Estate
