Construction Update #5 – Two-week Look-ahead for April 20th, 2016

The Tupper Building and the Clinical Research Centre are underway with an innovative program of energy retrofits. The work has been developed with Dalhousie’s partner for sustainability and infrastructure renewal for the project, MCW Custom Energy Solutions.

The following work will be occurring over the next two weeks.

15th Floor, West Section 1 (Room # 15A-1 to 15A-8, 15B-1 to 15B-17A)
Work on air distribution systems to convert from constant volume to variable volume air flow in the laboratories, and high efficiency lighting retrofits.
- Vacate Monday Apr. 4th, 2016
- Return Monday May 16th, 2016

15th Floor, South East Section 2 (Room # 15H1, 15E1 to E3, half of 15E4, 15E7 to 15E9, 15F1 to 15F4)
Work on air distribution systems to convert from constant volume to variable volume air flow in the laboratories, and high efficiency lighting retrofits.
- Vacate Monday May 2nd, 2016
- Return Monday May 30th, 2016

Basement Floor – Washrooms
Replace plumbing fixtures with low flow fixtures with touchless sensors.
Both Female and Male Washrooms will be closed for approximately 3 days for the installation of new fixtures. Anticipated start of Apr 22nd, 2016

Sub-basement – Washrooms
Replace plumbing fixtures with low flow fixtures with touchless sensors.
Both Female and Male Washrooms will be closed for approximately 3 days for the installation of new fixtures. Anticipated start of Apr. 26th, 2016

15th Floor – Men's Washroom – Riser Piping
Installation of new riser piping for energy exchange system.
The Male Washrooms will be closed for approximately 2-3 days for the installation of new riser piping. Anticipated start of Apr. 25th, 2016

Energy Exchange System
Continuing work on new piping system throughout building to recover and redistribute heat.
Work on piping in the penthouse of the Tupper Building, and on piping risers in the mechanical rooms.
Lighting in Parkade
Work includes replacing existing fixtures with new LED fixtures. Parking will be available however one section on one level will be cordoned off at a time. Anticipated start of Saturday April 9th, 2016. Work will be in going over the next 3-4 weeks.

Fume Hood System Shutdown – May 13 to May 15
Advanced notice of fume hood system shutdown from 4 pm on Fri. May 13th to 8 am on Sunday May 15th.

For any issues that may arise during the course of this work, please contact Dalhousie University, Senior Project Manager, Capital Projects, Peter Cherry at 902-494-4254, or MCW Custom Energy Solutions, Iain Symington, Project Manager, at 902-403-1054.
