

Event Centre Construction Update April 2024

Dalhousie is building a new Event Centre on South Street with a projected completion date of late 2025.

The two-level facility will be a dynamic and inclusive new space for Dalhousie and the greater Halifax community featuring an NHL-sized rink with an alternate floor surface allowing for a variety of events.

Construction activities:

- The majority of the rock breaking is now complete.
- Increased dust control measures are in place.
- There will be an increase in truck traffic to/from the site as construction moves into the structural steel phase. All vehicles are equipped with backup beepers for safety reasons (this cannot be changed).
- The sidewalk on the north side of South Street will remain closed until project completion. Pedestrians must cross at the crosswalk at the corner of LeMarchant Street/South Street or at the newly created crosswalk near Wickwire Field.
- Reminder that this area is an active construction site with numerous hazards and there is to be no trespassing in this area during the project. Anyone with concerns about the site should contact projects@dal.ca during business hours or Dal Security after hours at 902 494 6400.

As a busy university campus in our shared neighbourhood, we understand that construction can sometimes be inconvenient, and it is our goal to complete the project in a timely manner and to minimize disruptions by adhering to all construction, traffic and noise related by-laws.

Please note that all times/activities are subject to change.

All construction updates will be posted on the Event Centre website at [Dalhousie Event Centre - Facilities Management - Dalhousie University](https://www.dalhousie.ca/event-centre-facilities-management).
