**IF YOU HAVE RECEIVED THIS LETTER, YOU ARE IN THE  
AFFECTED AREA**

**Re: Notice of Street Closure – South St**

As part of the New Events Center Project at Dalhousie University, with works being completed by Dexter Construction, on behalf of EllisDon and Dalhousie University, construction work will be occurring on South St, from **6202 South St to 6188 South St**. The work being done is in relation to the underground services tie-in for the New Events Centre and will result in a complete street closure on the noted sections of South St. This street closure is scheduled to start at **9:00AM on Monday, July 14**, and end at **6:00PM on Friday, July 25**.

All vehicular traffic for this section of South St, including Bus routes, will be detoured onto Beaufort Ave, Inglis St, and Robie St. Access to Dal Plex and Alumni Crescent will not be impacted.

If you live in the affected area, you **will not** be able to move your vehicle from your driveway for the duration of this street closure. **We recommend** that should you need to drive anywhere during this street closure, that you park your vehicle elsewhere. Access to your residence by foot, via sidewalk, will be always maintained during this street closure.

This work is weather dependent, and the street closure may be extended if inclement weather delays this work from happening. Should this occur, you will be provided written notice of an extension in the street closure in advance.

We apologize in advance for any inconvenience this may cause you and thank you for your co-operation during this construction.

If you have any questions or concerns, please contact the undersigned at (902) 223-2834.

Yours Truly,

Glen LeBlanc  
Project Manager, Dexter Construction
