

2017 STOKER AWARD FOR INITIATIVE

“Trusted to make things better”

Keith Laybolt

Stores, Logistics and Client Reception

When a microscope camera ordered by the Department of Microbiology and Immunology, arrived without a critical piece of equipment – Keith leapt into action. He facilitated a purchase from a vendor in Dartmouth and then went out of his way to personally pick it up, so that the client would have it prior to the holidays as she had to learn how to use it in time for her laboratory classes.
