

2017 STOKER AWARD FOR STEWARDSHIP

“Investing in people and resources and taking good care of our facilities, with an eye on the future”

Balbeer Singh

Grounds

Balbeer works on Carlton Campus and here are a few words about his work:

“We are fortunate to have employees like him, who take pride in making our campus a better place. The grounds around the Tupper and Forrest buildings have never looked better and as a result, both buildings are also improved. I see Mr. Singh quietly going about his work and it is obvious that he really cares about what he does. It’s easy to overlook the people who unobtrusively support the big picture and I thought it might be nice to know that we do appreciate his work.”
