

2017 STOKER AWARD FOR STEWARDSHIP

“Investing in people and resources and taking good care of our facilities, with an eye on the future”

Peter Cherry

Project Manager

Peter Cherry is a senior project manager overseeing the Biomass Thermal project in Truro, as well as the energy retrofit of the Tupper and CRC. Peter is described as an individual who raises the bar for projects, basis of design, and operations. He has a sharp attention to design and hard control on designers and projects. He has had to navigate a complicated deal with a key supplier with the help of legal to ensure the success of the Truro project. His work has been stellar year over year, setting a high standard for Facilities Management.
