

A Delight and a Pleasure

“Beyond the fact that the department has been taken care of with physical cleaning work (which has been on an outstanding level), **Babiker Ahmed** has been a delight and a pleasure to have in the department. We all love the smile and conversations he brings. He has truly felt like one of the Biology Department office staff members. It is always a joy to see Babiker each day! Here's hoping he makes his way back to our department sometime in the future!”

Emily Amero - Biology
