

Great Garden!

I couldn't help but admire the combination of colours **Derek Pearson** (Grounds Gardener) used in the garden under the Dal Art Centre sign. It looked as beautiful on the back side with a base of green and white hostas under the red geranium planters as it did in the front side with the various colours strategically placed to pull it all together! Derek was happy to answer a few plant questions for me when I stopped to comment. I always enjoy chatting and getting planting advice from our knowledgeable grounds team. Great job on this garden, Derek - it looks amazing!
