

Balbeer Treats Garden Areas As His Own Home

Balbeer Singh received a Kudo from Barb Hamilton-Hinch, Assistant Professor. She said, “During my many walks I often meet Balbeer. He is a hardworking individual who knows his plants and work very well. Despite his busy schedule he will often take the time to answer some of my personal questions and has helped to increase my knowledge of horticultural locally and internationally.”

And, Barb feels Balbeer makes a positive contribution to the Facilities Management staff; also, she said, “I have often witnessed him patiently coaching and helping other facilities management staff on the grounds of Dalhousie University. Balbeer treats each garden area as if it is his own home.”
