

# Balbeer receives words of praise for landscaping work at Forrest

In October of 2017, we received a few words of admiration with regard to Balbeer Singh's wonderful landscaping work and friendly demeanor. We are fortunate to have employees like him, who take pride in making our campus a better place.

“Hello, I wish to make a ‘job well done’ comment regarding the landscaping work that **Balbeer Singh** and the crew have been doing with the section of the Carleton campus where the Forrest Building faces University Avenue. The results look great, and the crew is very personable/friendly.”

**Jeff Kirby**  
Professor, Department of Bioethics
