

New chairs in the Killam Library are a major success

After receiving feedback about the broken down chairs in the Killam, we were able to address our student's concerns with the purchase 618 chairs – that replaced ALL of the study chairs on each of the five levels, with the exception of task chairs in the Learning Commons spaces.

“The chairs are colour-coded to match the wall for each level, and the overall effect looks fresh and coordinated. My colleague Janice Slauenwhite worked with **Janset Mufti** in Facilities Management to source and purchase the chairs, and Janset did a fabulous job of identifying suitable models and getting a competitive price... Thank you very much!”
