

Grounds Team provides quality upkeep of Studley memorial garden

In 1986, Dal grads Steve and Dorothy Andrews donated a tree and a small garden in memory of their son, Luke Patrick Andrews. This summer, Steve was worried about the health of the tree – so Grounds Manager Mike Wilkinson dispatched gardener **Derek Pearson and his son Lloyd**, who has joined the Grounds Team for a summer term. Over two days, the two men pruned and fertilized the donated tree, completely refurbished the garden and enhanced the plantings around the plaque to make it more visible.

“I have been away and just now walked over to have a look at the changes. The garden bed looks wonderful and I noticed that the tree has also had a trim... great job. Dorothy and I really appreciate your attention to this project during your busy summer season.”
