

You have a friend in Queenie at the Computer Science Building

“I just wanted to reach out as a student in the Faculty of Computer Science and say what an awesome job ‘Queenie’ (**Zigi Shen**) is doing. I’ve never learned a staff member’s name so fast due to their outgoing and friendly personality. She’s great at her job from a student’s perspective, as she is always quick to address any concerns you may have.

I figured that not many students take the time to let staff members and their supervisors know that we really appreciate what they do. I thought I’d try to break the trend.”
