

# Meticulous Gardens!

*The beauty of the Dalhousie campus can only be attributed to the committed Grounds team who looks after it. Madison Zuverink wrote to say how beautiful the gardens along University Avenue have been this summer thanks to the efforts of **Balbeer Singh**, making the return to campus during the pandemic a bit easier.*

*“I am writing to let you know that I appreciate the effort Facilities has made to keep things clean, organized, and safe. The Dal campus is absolutely beautiful to walk through. There is a gardener (Balbeer Singh) who works on the Arts Centre and Law School gardens who has done a fantastic job of beautifying the corner garden at Henry and University. I saw him meticulously planting flowers one extremely hot day. I can tell he enjoys what he does!”*
