

# Janset has no time for (Jan)setbacks

Going into the renovation project for the Centre of Learning and Teaching, Janset Mufti knew it would not be easy. Keeping her attitude positive and working to overcome every struggle, she led a successfully innovative design plan to fruition.

No setback or struggle would stop the plans from coming through. “We felt that Janset was a partner in our renovation project, rather than hurdle we had to get through.” The renovation was completed on time and the staff had a rejuvenated spirit going into work after these renovations.
