

# Mike Manages Malware

Facilities Management was attacked by an invasive software which wrecked the U drive. Due to Mike's hard work, dedication and skilled effort the U drive was restored in quick time and we were all able to go back to work.

This Kudo would like to especially highlight the timely updates that were sent out during the restorative process. It allowed all of us to be reassured the problem was being successfully addressed and we were aware of what files had gone back up.

“Thank you, your work is much appreciated”
