

2018 VALUES AWARD FOR QUALITY

NADINE ALEXANDER

Despite being part of the team for only just over a year, we consistently hear about Nadine's good work. Here are a few of the comments we've received:

“The beds she has worked on are enchanting.

Her arrangement of winter foliage in planters on the quad look gorgeous and are made mainly from greenery, found on our campuses. There was a quote from an outside vendor for over \$1000 to do the same thing our own grounds crew is doing.”

And this from the president's residence:

“Nadine, along with Dave Akerley exceeded my expectations on the landscaping! I'd only been hoping to have the grounds tidy for a flurry of events, but having plantings as well, & such a smart & adaptable solution for the front step planters, is such a bonus!”
