

Ernie Takes Initiative

Ernie Hadley was concerned about posters in the washrooms in the LSC being inappropriate for the children participating in the Dal Summer Camps. He brought this to the attention of the President's Office and staff there were unable to determine who owned the locked cabinets the posters were displayed in. He worked diligently to cover them up and finally modified a tool so he could open the cabinets and remove the posters. Thank you, Ernie!

Florence Millard - Office of the VP Finance and Administration
