

# THE FEEDMILL FOUR

Marvin Mackenzie, Irving Sharpe, Dj McCarthy, and Tom Cole are being recognized and thanked for their hard work, long hours and dedication to

ensure the campus and client needs were met.

Aside from completing their regular duties, this team worked tirelessly for over 7 days in the preparation and execution of the power failure cable replacement project for the Feedmill and several other buildings.

This team showed their incredible commitment to their work, and to Dalhousie's Facilities Management. By taking on additional tasks, and working together, Marvin, Irving, Dj, and Tom found an excellent solution to a big problem.

Amazing work!

*From Jason Penney, Zone 5 Maintenance Supervisor*
