

GRATEFUL FOR GROUNDS

The grounds department is receiving recognition for their great work taking care of the sidewalks and parking lots in early March.

Professor Alice B. Aiken was so impressed with the grounds maintenance team's work, she felt it

was necessary to let Peter Coutts know. Professor Aiken said "I just wanted to say what an amazing job I think your grounds maintenance team are doing with the sidewalks and parking lots at Dal."

Professor Aiken walk to works, and says she would not have been able to these last couple of days without the incredible maintenance.

Professor Aiken is slightly mobility-impaired, and is very grateful for the grounds team's consistent and high quality work on the Dalhousie campus.

Excellent work grounds team!

From Professor Alice B. Aiken
