

SIOBHAN IS SHINING

In summer 2018, Dalhousie University's planning department began the ambitious task of auditing all 5.8 million square feet on our campuses. The team developed its own audit tool and process.

Siobhan Evans is the Accessibility Planning Specialist at Facilities Management. The Nova Scotia Provincial Government reached out to Siobhan, asking her to give a session on auditing buildings. The Nova Scotia Accessibility Directorate has also asked Siobhan to speak at a presentation called *Breaking Barriers Speaker Series* on March 14th at the Art Gallery of Nova Scotia.

Congratulations Siobhan on this groundbreaking work!
