

TERRIFIC TEAMWORK

Truro plumbers Tom Cole and Brett Nelson did an outstanding job on the underperforming lavatories in the MacRae Student Learning Commons. Their initiative and commitment to providing Dalhousie with incredible service was

recognized by Garry Martell and Elaine MacInnis.

In this situation, it would have been a very difficult process to have these lavatories replaced by the general contractor. Tom and Brett, along with Maintenance Supervisor Jason Penney put in maximum effort, identified a manufacturing defect and made quick replacements.

The MacRae staff are truly appreciative of the hard work, and fantastic results of the replacements. Congratulations on the recognition and praise for your amazing work!

From Garry Martell, Elaine MacInnis, and the MacRae staff
