

MAGNIFICANT MATT

Matt Scott is being recognized for his kindness. Matt recently reached out to Nadine, an employee in the grounds department. As she was working, Matt saw her and thought of a way to help make her task easier.

Nadine was watering the gardens with watering cans and a barrel, when Matt came over to introduce himself. He could tell that Nadine's watering method was tiring, and he came up with a way to make the task easier. Matt successfully set up taps and hoses to every water barrel in the gardener's vehicle.

Matt's help was done out of the kindness of his heart. He put in the thought and effort to make somebody's day a little easier. Great work Matt!
