

McCAIN TO MACMECHAN

In early December, Dalhousie's International Centre hosted an event that included guest speakers from several different organizations. The Scotia Bank auditorium in the McCain building was booked for this event. Employees from the International Centre arrived 30 minutes prior to the start time, to find that the room was in use for an exam.

Solving the issue was difficult, until the involvement from Security helped find a space for the session. Sean Higgins was very helpful; he confirmed that

the MacMechan Room in the Killam was available for the session. Courtney Libby was also great by providing excellent assistance.

After finding a solution to the problem, the session took place and went very well. Thank you Sean, Libby and the team for the support and assistance to make this happen!

From Cynthia Murphy, Director, International Centre
