

Amazing Work at Gerrard Hall

Many thanks to trades staff **Chad MacLellan, Stewart Irons, Graham Josey, Lloyd Pearson, Jack Roach, Joe Beaver, Gillis Batherson, Terry Cormier, Dave Studley and Glen Macquarrie** for their determination and ingenuity in dealing with what should have been a routine pump install which included a surprise or two!

“I just wanted to let you know that the guys did a great job on the booster pump installation (2-day shutdown). I was there today only a few hours before they said they would be done and [it] was looking grim (not their fault, existing pipe leak [discovered]). They changed gears from the plan and got the right parts right away and had it up and running. Please remind the guys what a great job they are doing for Dal. Much appreciated.”
