

Garry Raises the Alarm!

Project Manager **Garry Martell**'s management of the Shirreff Hall Fire Alarm Replacement project is being recognized to reflect many FM values.

“It was difficult to select one value for this work. During the Shirreff Hall Fire Alarm replacement project Garry displayed his Leadership by guiding the project to completion (almost there), his Commitment by taking on a project that had a very tight timeline, his Dedication by having bi-weekly meetings with all team members to ensure critical items were addressed, and his Teamwork by bringing a positive attitude. Garry may have received many expressions of gratitude for this project in a private setting; however, this public acknowledgement let's others know of his great work.”
