

Ted's Impeccable Timing

Project Manager Ted Migas Recognized for Excellent Communication with the Registrar's Office

"I wanted to reach out to extend a special kudos on behalf of the academic scheduling team at the Registrar's Office to Ted Migas. When the LSC classroom renovation project was delayed, Ted was quick to inform us. Finding out a classroom will be offline in September has a huge impact to academic scheduling, so finding out a month in advance was instrumental in providing us time to determine alternative classroom space solutions.

In particular, the start of term is a crucial time for students and their initial campus experience as the Fall term begins. They have the first two weeks of the term to decide whether to add and/or drop courses without any financial penalty and need this time to attend classes in person. Thanks to Ted, the team had time to ensure that students will be minimally impacted and that we will be able to continue to offer the majority of these courses in-person for the start of term in another classroom on campus."

Thank you, Ted!

Nicole Douglas
