

Attention to Detail

“I received a new phone yesterday. **Mike Power** emailed instructions how to set up the new phone, transfer data and reset the old phone. It all worked like a charm due to the detailed instructions.

Then I tried logging into my phone email and the Dal Authenticator presented itself. I could not get past this step, so my email was not reachable on my new phone. I called Mike and he stepped me through the paces to get to my email.”
