# Pulled Together for Important Event

L-R Dave Lavers, Eric Sutherland, Shawn Cook

Canada's Ocean Envoy, Diana Fox Carney,(wife of Prime Minister Mark Carney) visited Dalhousie University in October 2026 to meet with researchers, policymakers, and community leaders. Urgent repairs were needed the morning of the visit. **Shawn Cook, Dave Lavers and Eric Sutherland** from Trades Client Services came in on the shortest of notice. Their hour of work made the room look great and pulled together for an important event that showcased Dalhousie as a great partner to the federal government. Thanks, guys!
