Depend on Dennis

I would like to take a moment to recognize **Dennis Boudreau**, Working Foreperson-Access Control Shop for the outstanding support he provides Security Services. Dennis has been someone we can rely on when technical issues arise with our Sur-Gard system, cameras, doors, connectivity, and access control infrastructure. These systems are an important part of our daily security operations, and Dennis understands how much we depend on them to do our jobs effectively. More importantly, Dennis has never treated our concerns as simply another technical issue. He takes the time to understand what is happening, works with us to find a solution, and regularly goes above and beyond to get us operational again. Having that level of cooperation and support from a colleague makes a significant difference, particularly when we are dealing with time-sensitive security concerns. Dennis's professionalism, knowledge, responsiveness, and willingness to help are greatly appreciated. His efforts behind the scenes contribute directly to our ability to provide a safe and effective service to the Dalhousie community. Dennis, thank you for everything you do and for always being willing to support our team.

Brad Nicholson and the DalSafe (Security Services) Team
