Incredible Effort

The snow clearing following the snow storm on Sunday/Monday (Dec 14-15, 2025) was incredible! I arrived on main campus at 8:15 am and couldn't believe how much work was done. So many sidewalks and spaces in front of buildings were already cleared - making my walk across campus easier than most of my drive to campus. It's obvious that the **snow clearing team** works really hard. I genuinely appreciate their efforts.
